Minutes of the 674th Meeting of SEIAA dated 07.04.2021

The 674th meeting of the State Level Environment Impact Assessment Authority was convened on 07.04.2021 at the Authority's Office in Environmental Planning and Co-Ordination Organization (EPCO), Paryavaran Parisar, Bhopal. The meeting was chaired by Shri Rakesh K. Shrivastava, Chairman, SEIAA. The following members attended the meeting:-

1 Shri R.K. Sharma Member

2. Smt. Tanvi Sundriyal Member Secretary

Following mining cases and other than mining cases have been considered:-

S.No	Case No.	Category	No. & date of latest SEAC & SEIAA meeting
1.	**8461/2021**	8 (a)	496th SEAC meeting dated 03-04-21
2.	**8465/2021**	8 (a)	496th SEAC meeting dated 03-04-21
3.	**6195/2019**	1 (c)	496th SEAC meeting dated 03-04-21
4.	**7880/2020**	1 (c)	496th SEAC meeting dated 03-04-21
5.	**8451/2021**	5 (f)	496th SEAC meeting dated 03-04-21
6.	**8470/2021**	5 (f)	497th SEAC meeting dated 05-04-21
7.	**481/2009**	1 (d)	671st SEIAA meeting dated 01-04-21
8.	**7803/2020**	1 (a)	496th SEAC meeting dated 03-04-21
9.	**6569/2019**	1 (a)	496th SEAC meeting dated 03-04-21

2. The topography of the proposed project site is flat without significant undulation and reported to lie between - 23° 9'54.77"NLatitude and , 79°56'8.82"E Longitude.

3. The proposed project is conversion of Old Cinema Into Multiplex With Shops ComprisingTotal Plot Area - 4933.14 sqm, Total Built up Area -20348.49 sq.m on Plot No. – 3/1, Civil Station Block No. 7, Tehsil & District- Jabalpur (M.P.)

4. The total b/up area of the existing Jyoti Talkies building was 759.01 Sq.mt, which is under demolition. All the demolition debris which is 2504.11 cum. proposed to be disposed off on Nagar Nigam sites on chargeable basis.

5. As per the T & CP Jabalpur (1501/NAGRANI/19/JBLLP5617/31/31.05.2019 DATED 10/07/2019) the total Plot Area of the project is – 4933.14 ha. The total built up area proposed by PP is 20349.49 sq.m.The project is categorized as 'B-2' under item 8 (a) of Schedule-Gazette Notification dated Sep 14th, 2006 and subsequent amendments issued by MoEF, New Delhi on 01.12.09 and 04.04.2011 because total construction is between 20,000 sq.mt. & 1, 50,000 sq mt. and plot area is less than 50 ha..

6. The case was discussed in SEAC meetings 496thSEAC meeting dated 03/04/2021 and is recommended for grant of prior EC subject to special conditions.

7. After the recommendation today the case was scheduled for presentation and after deliberation it is recorded that:-

   I. Regarding land documents PP has submitted registered lease deed dtd. 22.11.2017.. As per the land documents the landownership is the name of Shri Pravin Gulati , Shri Dharamveer Gulati & others.DeveloperM/S KA REALBUILD PVT. LTD.Through Director – Shri Gaurav Bhanot,

   II. For construction purpose, the water demand will be met from private tankersupply.The total water requirement during operation phase is 44 KLD out of which 12.03 KLD is domestic water requirement, 18.78 KLD flushing water requirements and 12.43 KLD Landscaping & Misc. purpose.The water requirements for the proposed project will bemet from Municipal water supply. PP has submitted payment receipt dtd.1012.19 by which payment has been deposited to JMC for water supply.

   III. The Raw sewage 23 KLD generated from the proposed activity will be treated in STP capacity 30 KLD based on MBBR Technology and the treated sewage will be reused, therefore incremental pollution load is not anticipated.Total 100% recycled water will be used for flushing, landscaping & Misc. purpose. This is a ZLD project.

   IV. The impacts of dust and gaseous pollutants due to different construction and operational activities will be localized and will not affect the surrounding environment. However, all necessary measures will be taken.Water spraying at dust generation sources.All transportation vehicles will be suitably covered to prevent dust dispersion from the trucks, and overloading of the vehicles will be avoided and must be PUC certified vehicle.Screening the construction activity with tarpaulin so as to prevent the dust emissions.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

V. Approximately **0.501 TPD** Municipal Solid waste shall be generated. The generated biodegradable and non biodegradable waste will be collected in the twin Bin system within campus and final disposal through Municipal Corporation Indore. The sewage sludge generated from STP will be also disposed off with municipal waste. PP has submitted an application dtd. (dtd. 19.03.21) to Municipal Corporation Jabalpur for disposal of solid waste.

VI. Total Topsoil has been proposed for landscaping and plantation. All demolition debris along with additional sub soil & construction waste after maximum utilization for the backfilling and leveling of the project site, have been proposed to dispose off on Municipal Sites on chargeable basis.

VII. The total maximum heights of the project will be 30 Mts. (B1+B2+B3 + 6 Floors).The project complex will have traffic entry and exit road as per approved lay out issued by Joint Director, T& CP, Jabalpur

VIII. PP has proposed to provide underground water storage tanks, External Fire Hydrant System, Wet Riser System, Portable Fire extinguisher, Sprinkler System, & Fire Alarm system etc. as per NBC 2005.

IX. PP has proposed 2 Nos. of RWH pits of 7cu.m. each recharge capacity. Proposed recharge potential to be created by the project would improve the groundwater regime of the area and would contribute to a positive groundwater environment.

X. The total power requirement for project is 2075 KVA..The source of electricity is Madhya Pradesh Kshetra Vidyut Vitaran Company Limited.PP has also provided power back up DG Set = 2 X 250 KVA in case of power failure.PP has also proposed on grid Solar System 35 KW.

I. For control of energy PP has proposed Level controller for pumps, Timer for street & Common lighting, Designing of peak & non peak circuits for common area, Reduced in load due to using the LED Lights, Distribution Transformer are 3 star Rated as per BEE norms, Solar powered street lights shall be used to conserve energy.

XI. PP has proposed to provide total 213 ECS in basement parking (Basement area-107 ECS upper basement- 53ECS Lower Basement- 53 ECS)

XII. As a part of development PP has provided 487.10 sq.m. of open park Area i.e. **10%** of Net Plot area. Available Periphery for plantation 131.25 Meters. of total land area will be devoted for landscaping. Total trees planted would be 722Nos (Trees & Ornamental plants).

XIII. As per suggestion of Authority PP has submitted EMP and CER activities as per office memorandum dtd 25.02.2021 as follows:-

A) DESCRIPTION	CAPITAL COST (LAKHS)	RUNNING COST (LAKHS/YEAR)
Air		
Construction Phase	1.00	
Operation Phase		0.50

Total	**Rs. 162.00 Lakhs**	**Rs. 17.55**
C) CER activities	**CER Cost**	**CER Cost**
CER Activity in nearby Suhagi, Gurda Villages 1. **Development of Nearby Village School class room Renovation & repairing.** 2. **Arrangement for Drinking water facility Construction of waste water pucca drainage nearby the school area.** 3. **Health Checkup Camps & Distribution of Mask &Covid Kits (Six monthly basis**	**PP has proposed Rs. 10 Lakhs under CER Budget**	

The submissions made by the PP were found to be satisfactory and acceptable hence it is decided to accept the recommendations of 496thSEAC meeting dated 03.04.21with special conditions and accord Prior Environmental Clearance for proposedConstruction of KRISHNA AVTAR JYOTI CONVERSION OF OLD CINEMA INTO MULTIPLEX WITH SHOPS at Plot No. – 3/1, Civil Station Block No. 7, Tehsil & District- Jabalpur (M.P.)– India (MP) Plot area 4933.14 ha and Built up area 20349.49 sq.m by Gaurav Bhanot, Director, Jyoti Talkies, Naudra Bridge, Jabalpur, M P-482002 Email: jyotigb2021@gmail.com Mob: +91 755-4282658subject to following specific conditions imposed by SEIAA:-

1. The fresh water supply arrangement should be met through Municipal Corporation Jabalpur. PP should ensure to obtain a clear NOC from Municipal Corporation, Jabalpur as applied on 19.03.2021.
2. The inlet and outlet point of the natural drain system should be maintained with adequate size of channel for ensuring unrestricted flow of water.
3. **Disposal of waste water.**
   a. PP should ensure disposal of waste water arrangement should be done in such a manner that water supply sources are not impaired.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

b. PP should ensure linkage with municipal sewer line for disposal of extra treated wastewater.

4. **Solid Waste Management:**

a. Separate wet and dry bins must be provided at the ground level for facilitating segregation of waste.

b. The solid waste generated should be properly collected and segregated. Wet garbage should be composted and dry inert solid waste should be disposed off to the approved sites for land filling after recovering recyclable material.

c. Ensure linkage with Municipal Corporation for final disposal of MSW.

5. **PP should ensure road width, front MOS and side / rear as per MPBVR 2012.**

6. **For firefighting:-**

a. PP should ensure the distance of the fire station is approachable from the project site.

b. PP should provide an underground water storage tank, External Fire Hydrant System, Wet Riser System, Portable Fire extinguisher, Sprinkler System, & Fire Alarm system etc. as per NBC 2005.

c. PP should submit necessary drawings and details to the Authority (Nagar Nigam,Jabalpur) incorporating all the fire fighting measures recommended in National Building Code 2005. The occupancy permit shall be issued by Nagar Nigam only after ensuring that all fire fighting measures are physically in place.

7. **For Rain Water Harvesting, and Groundwater recharge:-**

a. PP should ensure the rain water harvesting with 02 no. of recharging pits and these pits should be connected laterally to consume the surplus runoff. In addition, PP should provide recharging trenches. The base of the trenches should be Kachha with pebbles.

b. The storm water from roof – top, paved surfaces and landscaped surfaces should be properly channelized to the rain water harvesting sumps through an efficient storm water network as proposed. The budget should be included in the EMP plan for stormwater management.

c. Rain water harvesting for roof run- off and surface run- off, as plan submitted should be implemented. Before recharging the surface run off, pre-treatment must be done to remove suspended matter, oil and grease.

8. PP should ensure to provide car parking 213 ECS in basement parking (Basement area-107 ECS upper basement- 53ECS Lower Basement- 53 ECS and Parking area will be not allowed to divert for other activities.

9. **Green belt :-**

a. PP should ensure plantation in an area of **487.10 sq.m** sq.mt of total land area by planting a total 32 trees, 200 ornamental plants + 500 hedges which is developed as greenbelt development.other open area, parking area and

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

other amenities. Trees of indigenous local varieties like Neem, Peepal, Kadam, Karanj, Kachnaar, Saltree,Gulmohar Etc.should be planted.

b. The green belt of adequate width and density preferably with local species along the periphery of the plot shall be raised so as to provide protection against particulates and noise.

10. The project proponent shall comply with the provisions contained in this Ministry's OM issued vide F.No. 22-65/2017-IA.III dated: 25 February 2021, as applicable, regarding Corporate Environment Responsibility and Environmental Management Plan.

11. PP should ensure to implement all activities as proposed in CER with budgetary provision of 10 lakhs..

2. Case No 8465/2021 : Prior Environmental clearance for the Building & Construction Project Aditya Gateway (MP) Plot No. 42, Scheme No. 139, Tehsil-Indore, District-Indore (M.P.) Plot area-5696.07 sq.m. and Built up area 36211.21 sq.m by Dilip Agarwal, Director, M/S VIRTUOUS HEALTHCARE LTD., M P-482002 Email: agateway21@gmail.com Mob: 9223339421

1. The project is proposed for Construction of "Aditya Gateway" (Total Area - 5696.07 sqm, Proposed Built-up Area - 36211.21 sqm) at Plot No. 42, Scheme No. 139, Super Corridor, MR 10 Road, Dist. Indore (MP).The project includes 14 showrooms, 46 Shops & 176 Offices, 1 No. Hotel

2. The topography of the proposed project site is flat without significant undulation and reported to lie between - 22°46'1.76"NLatitude and 75°51'58.18"ELongitude.

3. PP has submitted that earlier as per the approved FAR provided by IDA under scheme no. 139, he has proposed the Built-up area 19000.59 sq.mt., accordingly obtained Consent to Establishment vide consent no. 44478 dated 20.12.2016 from MPPCB. At present he has planned additional Non-FAR development for the fulfillment of the parking requirement and service floor for the maintenance of the commercial amenities, which is not increasing the approved FAR but the total built up area has now been changed and become 36211.21 sq.mt (FAR+ Non FAR).

4. As per the approved lay out (2483/IMC/Z17/W23/2019 dated 13.05.2019) of IDA scheme no. 139the total Plot Area of the project is – 5696.07 sq.m. The total built up area proposed by PP is 36211.21 sq.m The project comes under 8 (a) category (B) of schedule of EIA Notification, 2006 because total construction is between 20,000 sq.mt. & 1, 50,000 sq mt. and plot area is less than 50 ha.

5. The case was discussed in SEAC meetings 496thSEAC meeting dated 03/04/2021 and is recommended for grant of prior EC subject to special conditions.

6. After the recommendation today the case was scheduled for presentation and after deliberation it is recorded that:-

i. The proposed project is planned in a land measuring 5696.07 Sq.Mt. on Plot No. 42, Scheme No. 139, Tehsil-Indore, District- Indore (M.P.)

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

ii. Regarding land documents PP has submitted a copy of registry dtd. 31.03.2016. As per the land documents the landownership is the name of M/S VIRTUOUS HEALTHCARE LTD through Director Dilip Agarwal and Rajeev Agrawal. PP has also submitted Memorandum of Articles of VIRTUOUS HEALTHCARE LTDexecuted for the development of the project.

iii. It is a part of IDA scheme No. 139. All facilities related to the water supply, MSW disposal, & Sewage network would be taken care of by the IDA under the permission of scheme 139.

iv. Total water required for the proposed project is estimated around 168KLD, out of which fresh water requirement is about 107 KLD. The Main source of water supply will be Municipal water supply.It will cater the domestic requirement whereas additional water requirement will be fulfilled by treated water from STPFor construction phase PP has proposed water supply form the private tanker suppliers.PP has submitted copy of letter issued by Municipal Corporation (dtd. 25.02.14) for Water supply under scheme 139.

v. During the operational phase around 166 KLD wastewater will be generated which gets treated in the MBBR based STP (Capacity - 170 KLD). 149 KLD will be the total recycled water generated out of which 61 KLD recycled water will be used for flushing, 20 KLD for landscaping and 68 KLD for Misc. purpose PP has submitted a copy of letter issued by Municipal Corporation (dtd. 25.02.14) for Water supply under scheme 139.

vi. Approximately 0.713 TPD Municipal Solid waste shall be generated.The generated biodegradable and non biodegradable waste will be collected in the twin Bin system within campus and final disposal through Municipal Corporation Indore. The sewage sludge generated from STP will be also disposed off with municipal waste. PP has submitted a copy of letter issued by Municipal Corporation (dtd. 13.11.17) for disposal of solid waste under scheme 139.

vii. The RCC drains channel shall be provided at the road ends to collect the RainWater in Harvesting Sump and overflow shall be connected to external storm water drain & recharge soak pits at suitable intervals as per landscaping layout.

viii. The maximum height of the building is **36.34** (ground floor +B1+B2+B3). The project complex will have traffic entry and exit road as per approved lay out issued by Indore Municipal corporation vide letter 2483/IMC/Z17/W23/2019 dated 13.05.2019

ix. PP has proposed to provide underground water storage tanks, External Fire Hydrant System, Wet Riser System, Portable Fire extinguisher, Sprinkler System, & Fire Alarm system etc. as per NBC 2016. PP has also proposed a Fire Detection and Alarm System including emergency Public Address System, emergency voice alarm, emergency telephone and smoke control system etc. PP has submitted a copy of NOC issued by UADD, Bhopal (dtd. 02.10.20) for firefighting provision.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

x. The RCC drains channel shall be provided at the road ends to collect the RainWater in Harvesting Sump and overflow shall be connected to external storm water drain & recharge soak pits at suitable intervals as per landscaping layout.PP has proposed 1 Nos. of RWH pits of 36 cu.m. each recharge capacity. Proposed recharge potential to be created by the project would improve the groundwater regime of the area and would contribute to a positive groundwater environment.

xi. Total Power Requirement is 2829 KVA. The source of electricity is Madhya Pradesh Kshetra Vidyut Vitran Company Limited.PP has also provided power back up DG Set 2 X 160 KVA, 2 X 250 KVA & 1 X 500 KVA).For control of energy PP has proposed Level controller for pumps, Timer for street & Common lighting, Designing of peak & non peak circuits for common area, Reduced in load due to using the LED Lights, Distribution Transformer are 3 star Rated as per BEE norms, Solar powered street lights shall be used to conserve energy.

xii. PP has proposed to provide total 364 ECS (Open Parking 72 + Stilt Parking 59 + Basement Parking 233 ECS)

xiii. As a part of green belt development 203.02Sq.mt. of total land area will be devoted for landscaping. Total trees planted would be 90Nos (Trees & Ornamental plants).PP also proposed additional open 1667.63 sq.mt.area for green area development.

xiv. As per suggestion of Authority PP has submitted EMP and CER activities as per office memorandum dtd 25.02.2021 as follows:-

A) DESCRIPTION	**CAPITAL COST (LAKHS)**	**RUNNING COST (LAKHS/YEAR)**
Air		
Construction Phase	**1.00**	
Operation Phase		**0.50**
Noise		
Construction Phase	**5.00**	
Operation Phase		**0.50**
Water and Land		
Construction Phase	**5.00**	
Operation Phase		**2.00**
Sewage Treatment Plant	**50.00**	**5.00**
Rainwater Harvesting & Storm Water Management	**3.00**	**0.50**
Solid Waste Management	**10.00**	**4.00**
Energy		
Lighting and Solar System	**30.00**	**3.00**
Biological		
Landscaping	**15.00**	4.00
B) DESCRIPTION	**CAPITAL COST (LAKHS)**	
Misc.		
Fire Fighting System	**110.00**	8.00
CCTV & Other Misc. Expenses like PPE's, First Aid Facilities	**10.00**	2.00

(Tanvi Sundriyal)
Member Secretary

(R.K. Sharma)
Member

(Rakesh K. Shrivastava)
Chairman

Total	**Rs. 239.00 Lakhs**	**Rs. 29.50 Lakhs / Year**
C) DESCRIPTION	**CER Cost**	
CER Activity in nearby Panod&BadiyaKeema Villages **1. Development of Nearby Village School class room Renovation & repairing.** **2. Construction of waste water pucca drainage nearby the school area.** **Health Checkup Camps & Distribution of Mask &Covid Kits (Six monthly basis)**	**PP has proposed Rs.8.0 Lakhs under CER Budget**	

The submissions made by the PP were found to be satisfactory and acceptable hence it is decided to accept the recommendations of 496thSEAC meeting dated 03.04.21with special conditions and accord Prior Environmental Clearance for Building & Construction Project Aditya Gateway (MP) Plot No. 42, Scheme No. 139, Tehsil-Indore, District- Indore (M.P.) Plot area-5696.07 sq.m. and Built up area 36211.21 sq.m by Dilip Agarwal, Director, M/S VIRTUOUS HEALTHCARE LTD., M P-482002 subject to following specific conditions imposed by SEIAA:-

1. The fresh water supply arrangement should be met through Municipal Corporation Indore and there should not be withdrawal of groundwater.
2. The inlet and outlet point of the natural drain system should be maintained with adequate size of channel for ensuring unrestricted flow of water.
3. **Disposal of waste water.**
   a. PP should ensure disposal of waste water arrangement should be done in such a manner that water supply sources are not impaired.
   b. PP should ensure linkage with municipal sewer line for disposal of extra treated wastewater.
4. **Solid Waste Management:**
   a. Separate wet and dry bins must be provided at the ground level for facilitating segregation of waste.
   b. The solid waste generated should be properly collected and segregated. Wet garbage should be composted and dry inert solid waste should be disposed off to the approved sites for land filling after recovering recyclable material.
   c. Ensure linkage with Municipal Corporation for final disposal of MSW.
5. **PP should ensure road width, front MOS and side / rear as per MPBVR 2012.**
6. **For firefighting:-**
   a. PP should ensure the distance of the fire station is approachable from the project site.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

b. PP should provide an underground water storage tank, External Fire Hydrant System, Wet Riser System, Portable Fire extinguisher, Sprinkler System, & Fire Alarm system etc. as per NBC 2016.

c. PP should submit necessary drawings and details to the Authority (Nagar Nigam, Indore) incorporating all the fire fighting measures recommended in National Building Code 2016. The occupancy permit shall be issued by Nagar Nigam only after ensuring that all fire fighting measures are physically in place.

7. **For Rain Water Harvesting, and Groundwater recharge:-**

a. PP should ensure the rain water harvesting with 01 no. of recharging pits and these pits should be connected laterally to consume the surplus runoff. In addition, PP should provide recharging trenches. The base of the trenches should be Kachha with pebbles.

b. The storm water from roof – top, paved surfaces and landscaped surfaces should be properly channelized to the rain water harvesting sumps through an efficient storm water network as proposed. The budget should be included in the EMP plan for stormwater management.

c. Rain water harvesting for roof run- off and surface run- off, as plan submitted should be implemented. Before recharging the surface run off, pre-treatment must be done to remove suspended matter, oil and grease.

d. PP should ensure to provide car parking 364 ECS (Open Parking 72 + Stilt Parking 59 + Basement Parking 233 ECS) and Parking area will be not allowed to divert for other activities.

8. **Green belt :-**

a. PP should ensure plantation in an area of 203.02 sq.mt of total land area by planting 90 trees in two rows in periphery, other open area, parking area and other amenities. Trees of indigenous local varieties like Neem, Peepal, Kadam, Karanj, Kachnaar, Saltree,Gulmohar Etc.should be planted. Additional open areas also develop as green areas.

b. The green belt of adequate width and density preferably with local species along the periphery of the plot shall be raised so as to provide protection against particulates and noise.

9. The project proponent shall comply with the provisions contained in this Ministry's OM issued vide F.No. 22-65/2017-IA.III dated: 25 February 2021, as applicable, regarding Corporate Environment Responsibility and Environmental Management Plan.

10. PP should ensure to implement all activities as proposed in CER with budgetary provision of 8.0 lakh & EMP.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

3. **Case No.6195 /2019:** Prior Environment Clearance for Suthaliya Irrigation Project at Village - Beard, Tehsil - Biaora, Dist. Rajgarh (MP) Gross storage capacity - 201.35 MCM, live storage capacity of 183.70 MCM, Cultivable Command Area – 49,800 ha, Catchment Area - 4206 Sq.Km., Intercepted Catchment Area 3428.21Sq.Km, Net Catchment Area is 777.79 Sq.Km, Height of dam (m) - 25.00 , Length of Main Dam including Earthen Bund(m) - 4705.00 , Length of spillway(m) - 412.00 by Executive Engineer, Office of the Executive Engineer, Water Resources Division, Narsinghgarh, Dist. Rajgarh, MP- 465669E-mail: encwrdngh@gmail.com Tel No.- 07375 &245608

   1. The project is planned by WRD, MP to provide irrigation water to Biaora and Narsinghgarh tehsils of Rajgarh district and provision has been made for drinking water supply to Biora tehsil of Rajgarh district.
   2. The irrigation project is proposed on River Parbati near Berar village of Biaora tehsil in Rajgarh district. Gross storage capacity - 201.35 MCM, live storage capacity of 183.70 MCM, Cultivable Command Area – 49,800 ha, Catchment Area - 4206 Sq.Km., Intercepted Catchment Area 3428.21Sq.Km, Net Catchment Area is 777.79 Sq.Km, Height of dam (m) - 25.00 , Length of Main Dam including Earthen Bund(m) - 4705.00 , Length of spillway(m) - 412.00 .The project will be implemented and operated by Water Resources Department, Madhya Pradesh.
   3. The project is planned to cater irrigation water to 49,800 ha of CCA in 220 villages of Biaora and Narsinghgarh tehsils of Rajgarh district.
   4. The project involves construction of a dam across Parvati River, to create gross storage capacity of 201.35 MCM and live storage of 183.70 MCM.
   5. The proposed Suthaliya dam site is located near Berar village at latitude 23057'09" N and longitude 77009'59" E, geographically covered under SOI Toposheet No. 55 E/1. The proposed dam site is approachable from a fair weather road of 38 km from Bioara.
   6. As per EIA Notification of September 2006 and subsequent amendments, Irrigation Projects, listed at item 1(c) of Schedule, having culturable command area (CCA) greater than or equal to 10,000 ha and less than 50,000 ha are considered as category B1 project; and are therefore be appraised at State level.
   7. The proposed project, Suthaliya Irrigation Scheme, has CCA of 49,800 ha; therefore; Scoping Clearance was issued by SEAC and final appraisal will also be carried out by SEAC/SEIAA as Category 'B1' Projects".The case was discussed in 373rd SEAC dated 24/05/2019 wherein ToR was recommended.Accordingly letter was issued by SEAC vide letter No. 406/PS-MS/MPPCB/SEAC/373/2019 dated 17/06/2019.
   8. There is no wildlife sanctuary, National park (DFO letter dtd. 17.01.19) and interstate boundary (PWD letter dtd.29.01.19) within 10 km of the project area, hence general conditions are not attracted.
   9. No archaeological monument of national importance lies either in the project area or in its submergence area. There is also no structure of national heritage in the area.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

10. PP has submitted the EIA report vide letter dated 25.03.2021 which was forwarded to SEAC vide letter no. 7882 dated 31.03.2021.Accordingly the case was considered in SEAC meetings 496th SEAC meeting dtd. 03.04.21 and is recommended for grant of prior EC subject to special conditions.

11. Public Hearings for the Suthaliya Irrigation Project were conducted by Madhya Pradesh State Pollution Control Board (MPPCB) on 24th February 2021 in Rajgarh District and 25th February 2021 in Guna and Bhopal Districtsunder the Chairmanship of Additional District Magistrates of respective districts. The Project proponent assured the local stake-holders that their grievances and logical demands shall be properly addressed as per prevalent norms and rules. The project proponent also stated to adhere to Environmental norms and standards in project activities. The respondents were also assured that compensation for land and other assets to be acquired and other R&R grants shall be as per provisions enshrined under "The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013"

12. After the recommendation today the case was scheduled for presentation and after deliberation recorded that:-

    i. The Suthaliya Irrigation Project envisages construction of an earthen and concrete dam with central spillway. The project constitutes the following:

        - Construction of 4705 m long Dam with a maximum height of 25.0 m
        - The 412 m long Central Spillway with 19 Nos vertical gates of size 15 m x 12.00 m with a maximum discharging capacity of 19853.86 cumec.
        - The 680.35 m long earthen section on either side of the Dam portion.
        - Storage formed by the construction of Dam will have a Gross storage of 201.35 MCM and live storage of 183.70 MCM
        - Culturable Command Area is 49,800 ha.
        - A total 38 villages of Biaora tehsil of Rajgarh district, Maksudangarh of Guna district and Berasia tehsil of Bhopal district will be affected. Total 1671 families (860 of Rajgarh district & 811 of Guna district) will be displaced requiring resettlement.
        - 3627.93 ha of private land and 605.44 ha government land will be required for the project.
        - Diversion of forest land is not required for the proposed project.
        - Water will be lifted through two rising main of 2.5 km and 6.0 km from two pumping locations up to Distribution Chambers and then distributed by gravity mains.

    ii. Total land requirement for construction of Dam, Reservoir area, Distribution chambers, rising main etc. will be 4233.37 ha; out of which 3627.93 ha is private land and 605.44 ha is government land. Diversion of forest land is not required for the proposed Suthaliya Irrigation Project.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

- The Submergence area of proposed project falls in Biaora tehsil of Rajgarh district; Maksudangarh tehsil of Guna District; and Berasia tehsil of Bhopal district and Command Area is located in Biaora, Narsinghgarh Rajgarh tehsils of Rajgarh district.
- 38 villages of Suthaliya tehsil of Rajgarh district, Maksudangarh of Guna district and Berasia tehsil of Bhopal district will be affected.
- 2 villages viz. Raghunathpura (Guna) and Gujjar kheri Khurd (Rajgarh) will be fully submerged.
- 1671 families (860 of Rajgarh district & 811 of Guna district) will be displaced and resettled

iii. PP has submitted that the total private land required for the project is 3627.93 ha. – belongs to 38 villages of Rajgarh, Guna Bhopal Districts and Government Land is required is 605.44 ha., and no forest land is involved in this project. Schedule –I species (Peafowl) was found in the study area for which prepared Wildlife Management Plan which has submitted to Chief Wildlife warden , Bhopal. Further, R&R layout Plan at village Mau for displaced persons of Rajgarh district is being proposed.

iv. 1671 nuclear families will be displaced to 15 villages.They will be settled in a new village/colony with adequate infrastructure.For resettlement plan, it is proposed to develop resettlement colonies for Rajgarh and Guna district where 860 and 811 families will be resettled respectively.

- Land has been identified for resettlement of displaced families from Rajgarh district at Khasra No. 1238/1, Village Mhow and layout of the resettlement colony prepared.
- 16 ha has been earmarked for resettlement of 811 families from district Guna; land is being finalized in consultation with collector.
- A detailed proposal for resettlement of these families will be prepared in full consultation with project affected families and district administration in full compliance with The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 and rules made under the act.Financial requirement for implementation of the Rehabilitation and Resettlement plan and infrastructural facilities is Rs 470.53 Crore.

v. Regarding land acquisition PP has submitted that, Land acquisition process has been initiated and section 11 Notification has been issued for 16 villages and remaining are under process. The process will be completed as per the Right to fair Compensation and Transparency in Land Acquisition Rehabilitation and Resettlement Act,2013 and rules and policies of the state and central governments in this regard. Amenities at the resettlement colonies will be done as per the schedule III of the Act. All the project affected families will be surveyed and compensated as per the provisions of the above act. Rules and policies. Concerns of the locals regarding inclusion of their land will be settled before publication of section 19 Notification.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

vi. In irrigation schemes, air pollution occurs mainly during project construction phase. For all major construction activities, curtaining of the site will be done to protect the surrounding areas from dust emissions. In addition, regular sprinkling of the water will be done on construction sites for dust suppression. Dust mask will be provided to the workers.Regular maintenance of machineriesTrucks/ dumpers will not be overloaded, and their speed kept within the prescribed limitsCopious sprinkling of water at the work site and haul roads shall be carried out.Wet drilling shall be adopted.Periodical monitoring of air quality.Road damage caused by sub-project activities will be promptly attended to with proper road repair and maintenance work. Excessive soil on paved areas will be sprayed (wet) and/or swept and unpaved areas will be sprayed and/or mulched. During operation phase, no major impacts are envisaged on air quality. For control of air pollution A budget provision of Rs. 10.00 lakh per year for 5 years has been made.

vii. The runoff from this site and also from muck storage/disposal sites, material storage area; may contain high quantities of Suspended Solids impacting the water quality of drainages in the area. During the construction phase, wastewater, sewage etc. shall be generated from the labour camp and workshops. If disposed untreated, this would substantially deteriorate the surface and ground water quality in the area. PP has proposed adequate care so that excess suspended solids in the wastewater are removed before these are disposed into water body or over land, although effluent is expected to be small to cause any adverse impact.

- During Construction phase provision of septic tank/ soak pit of adequate capacity for labour camp so that it can function properly for the entire duration of construction phase.
- During Operation, Commission of suitable treatment facilities to treat the sewage generated from the colony.
- Oil interceptors shall be provided for refuelling areas, vehicle parking, washing areas etc. All spills and collected petroleum products will be disposed off in accordance with SPCB guidelines.
- Improved availability of irrigation water during Rabi season in the area shall lead to reduced extraction of groundwater for irrigation and domestic uses.
- The project is designed to carry out irrigation in command area through sprinkler / drip irrigation system; problem of water logging and salinity is not envisaged.A provision of Rs. 10.00 lakh per year has been made for 5 years

viii. Total 75% dependable year yield at Suthaliya dam site is computed as 925.32 MCM. Upstream utilization has been estimated as 162.62 MCM; making net yield at the dam site as 789.70 MCM. 99% of the yield is contributed by monsoon flow.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

The project is designed with live storage/proposed utilization of 183.70 MCM, and remaining water from monsoon contribution will be continuously discharged for downstream users i.e. a surplus of 606.0 MCM, which is sufficient for downstream users, as assessed by WRD during planning of the project.

ix. The total quantity of muck / debris to be generated due to the project, shall be 8,50,000.00 m3cum, of which 7,43,750.00 m3 shall be consumed on projectMuck will be used for refilling of the trenches and the approach road proposed to be constructed for carrying the pipes at site and preparation of platform for crane.

- For construction of the earthen dam, material will be sought from Borrow areas; surplus muck will be used for refilling and reclamation of land of borrow sites.
- The surplus soil requiring disposal will be spread on low lying farmers field with their consent. Balance muck will be managed by spreading along the route in the low lying areas.
- Any further surplus muck, shall be laid in the community undulating area of the connected villages, backfilling/ reclaiming of pits in designated borrow area with the consent of concerning Gram-panchayat or JanpadPanchayat. The muck may also be used by nearby Gram Panchayats for construction of village roads etc.
- For management, transportation and temporary storage of muck, a lump sum provision of capital expenditure of Rs. 100 lakh has been made for muck disposal.

x. Municipal waste (includes commercial and residential wastes generated in either solid or semi-solid form excluding industrial hazardous wastes and bio-medical wastes)Construction and demolition debris (C&D waste)Following mitigation measures shall be adopted for waste management:

- Construction and demolition waste will be handled in line with the guidelines for handling such wastes given in Construction & Demolition Waste Management Rules, 2016.
- Contractor shall be responsible for segregation of construction and demolition waste and handle the same in consultation with local authority.
- Waste construction material shall be recycled as far as possible and remaining disposed off at designated site in consultation with the local authority.
- Contractor will ensure that there is no littering or deposition of waste so as to prevent obstruction to the traffic or the public or drains.
- Any hazardous waste generated at site such as waste oil, used batteries, empty barrels/containers/liners contaminated with hazardous chemicals/wastes and contaminated cotton rags or other cleaning materials, etc. shall be disposed off in accordance with the Hazardous

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

and Other Wastes (Management and Transboundary Movement) Rules, 2016.

- A lump sum budget of Rs. 30.00 lakh has been kept for capital expenditure towards procurement of bins, carts, mobile toilets, etc. and Rs. 7 lakh per annum for recurring cost covering replaced items and manpower cost for 5 years of construction phase.

xi. For dam break studies of Suthaliya Irrigation Project, the River for a length of about 50 km downstream of the dam site have been represented in the model by numerous cross sections taken at a suitable interval.Disaster Management Plan has been prepared to deal with dam break event; with a budget of Rs. 100.00 lakh to cover the cost of alert system, communication system, emergency response organization, public information system, maintenance period, etc.

xii. Watershed delineation has ben done as per the Watershed Atlas of India developed by Soil and Land Use Survey of India (SLUSI)Free draining catchment area delineated for the Suthaliya irrigation project is 80704.05 ha. Under the plan, various biological and engineering treatment measures have been suggested for severe and very severe erosion prone areas.

a. Various data used for the study are slope, soil, land use/ land cover, drainage and current management practices.

b. Around 83% of the catchment area is prone to less than 1 tons/ha/annum soil erosion, i.e. under negligible erosion intensity category.

c. Almost negligible i.e. 0.06% of its area is prone to Severe and Very Severe soil erosion.

The estimated cost of implementation of CAT plan including administrative measures is Rs. 133.40 lakh

xiii. **Fisheries Conservation & Management Plan**

- The conservation of fishes under such conditions is one of important task because they typically use different habitats along the river stretch for spawning, feeding, shelter and growth.
- It is proposed that the reservoir of the proposed dam be stocked with fingerlings.
- There is a fish seed farm in Rajgarh and Bhopal district working under the Fisherman Welfare & Fisheries Development department, Govt. of Madhya Pradesh. Fish seed can be procured from these fish seed farms. Funds for the management of fisheries for initial three years shall be provided by the project proponent.
- Under the multispecies culture system, the indigenous Indian major carps Catla, Rohu and Mrigal can be extensively stocked in reservoirs. For better utilization of the available food and maintaining the food chain, stocking of *Labeocalbasu*, *Labeofimbriatus* and *Labeobata* species may

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

also be considered. All these species constitute the native fauna of river Chambal and its tributaries.

xiv. Project doesn't involve diversion of forest land for any of the project components; therefore, compensatory afforestation will not be applicable.

- A total of 292.00 ha of plantation will be carried out on land to be acquired for the project
- 6 land parcels have been identified along the periphery of the reservoir
- Plantation will be carried out through the Forest Department.
- About 320,000.00 saplings will be planted well before the reservoir filling.
- Following species are proposed for plantation, keeping in view their growth at periphery of reservoir:Jamun, Arjun,Saja, Hara,Baheda ,Sisso etc.
- Budget has been prepared for capital cost @ Rs. 58,900.00 per ha (as per the schedule of rates of forest department); and maintenance cost for 5 years has been taken as Rs. 27480.00 per ha; therefore total cost including maintenance for 5 years works out to be based on Rs. 86380.00 per ha i.e. Rs. 252.23 lakh.

xv. Total Power Requirement of the project is 16.15MW

xvi. During the public hearing no major demand was raised for Local Area Development, however project has identified the local needs and propose the following:

S.No.	Name of Village	Name of Tehsil	Infrastructure							
			Panchayat Bhawan	Primary school		Aganwadi	Samudayik bhawan	Swasth kendra		TOTAL (in lakh)
				Infra	Basic Amenities			Infrastructure	Medical Equipment

xvii. Total cost of project INR Rs. 83859.22 Lakhs.

xviii. Under the CER activities PP committed to make an expenditure @ 1% of the project cost under item i-works towards corporate environment responsibility as per the norms prescribed by Ministry's OM issued vide F.No. 22-65/2017-IA.III dated: 25 February 2021.

The submissions made by the PP were found to be satisfactory and acceptable hence it is decided to accept the recommendations of 496thSEAC meeting dtd. 03.04.21 and grant Prior Environmental Clearance for proposed Suthaliya Irrigation Project at Village - Beard, Tehsil - Biaora, Dist. Rajgarh (MP) Gross storage capacity - 201.35 MCM, live storage capacity of 183.70 MCM, Cultivable Command Area – 49,800 ha, Catchment Area - 4206 Sq.Km., Intercepted Catchment Area 3428.21Sq.Km, Net Catchment Area is 777.79 Sq.Km, Height of dam (m) - 25.00 , Length of Main Dam including Earthen Bund(m) - 4705.00 , Length of spillway(m) - 412.00 by Executive Engineer, Office of the Executive Engineer, Water Resources Division, Narsinghgarh, Dist. Rajgarh, MP- 465669, subject to the following specific conditions:-

1. The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State pollution Control Board/Committee.
2. The implementation of R & R Plan to be closely monitored to ensure that all project affected families (PAFs) get adequate & timely compensation.
3. Resettlement & Rehabilitation plan be implemented in consultation with the water resources department as approved by the State Govt
4. Besides the agricultural land, the rehabilitation of public buildings, infrastructures, monument etc. falling in the submergence area should also be included in the rehabilitation plan.
5. A monitoring Committee for R & R shall be constituted which must include representatives of project affected persons including form SC/ST community and at least a woman beneficiary.
6. A grievances redress mechanism is to be devised by WRD GoMP and put in place so that aggrieved PAFs and other stakeholders may approach the Authority easily for resolution of any dispute/conflict.
7. The implementation of Local Area Development Plan (LADP) to be closely monitored.
8. This being a seasonal stream/ river, a minimum environmental flow of 30 % in monsoon season should be released for downstream users.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

9. Proposed Bio-diversity Conservation & Management Plan in EMP report should be implemented with State Forest Department. The allocated budget for this purpose shall be fully utilized and not to be diverted for any other purpose.

10. The catchment Area Treatment (CAT) Plan as proposed in EMP report shall be strictly implemented in consultation with Madhya Pradesh State Forest Department. Major works shall be completed before impounding of reservoir. The financial allocation for CAT Plan implementation shall be fully utilized and not to be diverted for any other purpose. Catchment Area Treatment Plan as has been proposed should be completed in five years.

11. To enhance the natural environmental quality & aesthetics of project site, greenbelt, as proposed in the EMP Report shall be undertaken in 20 ha of area. Allocated grant for this purpose shall be fully utilised and not to be diverted for any other purpose.

12. Fishery conservation & management plan as proposed shall be implemented in consultation with the Fisheries Department, Government of Madhya Pradesh.Allocated grant for this purpose shall be fully utilised and not to be diverted for any other purpose.

13. Occurrence of stagnant pools/slow moving water channels during construction and operation of the project may provide breeding source for vector mosquitoes and other parasites. The river should be properly channelized so that no small pools and puddles are allowed to be formed. Even after taking precaution, due to unforeseen situations, breeding of mosquito and resultant malaria or mosquito borne diseases can increase. If such a situation arises, it will be the responsibility of project authorities to take all steps i.e. residual insecticidal spray in all the project area and surrounding 3 km. Area keeping the flight range of mosquitoes in consideration. Also medical assistance to be provided to the affected people at the cost of the developer and appropriate health benefits may be initiated with the help of State Health Department.

14. If the water of reservoir is used for drinking water supply, it should be done after conventional treatment.

15. Regular monitoring of water quality (Surface and Ground) including heavy metals shall be undertaken in the project area and around the project area to ascertain the change, if any, in the water quality due to leaching of contaminants, if any, from the increased use of chemical fertilizers and pesticides.

16. As the reservoir will be acting as a balancing reservoir and there would be fluctuation of water level during peaking period, efforts are made to reduce impact on aquatic life including impacts during spawning period both at the upstream and downstream of the project.

17. PP should ensure to develop green area 292.00 ha by planting 6 land parcels as identified along the periphery of the reservoir, about 320,000.00 saplings of Jamun, Arjun,Saja, Hara,Baheda ,Sisso etc.before the reservoir filling. All the Plantation should be carried out through Forest Department as applied,

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

18. PP should ensure to implement the CER targets in local area development programmes as suggested by the authority.

19. The project proponent shall comply with the provisions contained in this Ministry's OM issued vide F.No. 22-65/2017-IA.III dated: 25 February 2021, as applicable, regarding Corporate Environment Responsibility and Environmental Management Plan.

4. Case No.7880/2020: Prior Environment Clearance for Badnawar Micro Lift Irrigation Scheme District-Dhar (MP) Lifting Point:, near Nimbol Village Tech. (Dharampuri) District-Dhar Culturable command area (CCA): 50000 ha Gross command area (GCA) : 74875 ha byExecutiveEngineer,O.S.P. Canal Division Dhamnodthrough Chief Engineer, Lower Narmada Projects, Scheme No. 74 B.G. sector, Narmada Bhawan Indore -452010 E mail celnpindore@gmail.com Phone - 07283-233440

The case was recommended in 496thSEAC meeting dtd. 03.04.2021. After the recommendation today a case was scheduled for the presentation wherein it is recorded that neither the Project Proponent (PP) nor his representative was present to explain the query which might be raised or to make any commitment which may be desired by the authority during the deliberation. Authority decided to call PP for next upcoming meetings of SEIAA.

5. Case No.8451/2021: Prior Environment Clearance for Manufacturing Unit Bulk Drugs, & API Production at 79 and 100, Industrial Growth Center, Malanpur, Bhind, MP-477117 Project Area- 19789.15 sq.mProduction capacity -578 M Ton per Anum, (48.17 MT per month)by Managing Director, M/s Helios Lifesciences Limited, Shri Sunil Gandhi 17, Shri Ram Colony, Jhansi Road, Gwalior, Gohad, Bhind,Madhya Pradesh-477117 Mob: 9826267890 Email –info@helioslifesciences.comPh- 0753-283312Envt. Consultant- Creative Enviro Services

1. This is case of Prior Environment Clearance for Manufacturing of Bulk Drug & API Product having capacity of 578 TPA at Malanpur Industrial Growth Centre, Village - Malanpur, Tehsil - Gohad, Dist. Bhind, (MP).

2. The company proposes to set up a new project to establish a Contract Research and Manufacturing Facility for Bulk Drugs, Intermediate, Specialty Chemical at Plot No. 79 & 100, Industrial Area, Malanpur, Dist-Bhind (MP) for manufacturing of 578 per Annum

3. Project site is located between Latitude26°21'3.18"N - and Longitude 78°17'38.63"E

4. Salient features of the project is as follows:-

Project Name	**Manufacturing of Bulk drug and Intermediates**
Location	Malanpur Industrial Area, Dist. Bhind
Production capacity	578 M Ton per Anum, (48.17 MT per month)
Estimated Project Cost	Proposed : 21.50 Crore
EMP Cost (Capital)	Proposed : -141.40 Lacs
EMP Cost Recurring	Proposed 94.90 Lacs
Acquired Land	19789.15 sqmtrs
Total Water Consumption	Total= 40 KLD
Net fresh Water Consumption	28 KLD as fresh 12 KLD of treated water will be recycled.
Source of Water Supply	AKVN

(Tanvi Sundriyal)
Member Secretary

(R.K. Sharma)
Member

(Rakesh K. Shrivastava)
Chairman

Waste Water Generation	Total= 16 KLD
Treatment Facility available and proposed	Effluent treatment facility ETP is of 40 KLD, RO of 20- KLD and proposed MEE of 10 KL/day. The treated water will be used for cooling towers, floor washing and green belt.
Source of power supply	Madhya KshetraVidyutVitaran Company
Power Requirement	Total :300-KVA
Fuel Options Coal/Agro waste (TPD) FO (Lit/Hr)	Thermo Pack : FO : 54kg/hour. Boiler -1 :Coal/bio fuel/Pet coke : 36 Kg/Hr Boiler -2 :Coal/bio fuel/Pet coke : 54 Kg/Hr Thermopack : FO : 50Kg/hour DG set : HSD : 45kg/hour
Major equipments	Reactors, Centrifuge, Vacuum Try Dryer, Filters, Boiler, Cooling Tower, MEE, ETP, Brine Plant, Chilling Plant and RO etc.
Green belt (sqmt)	7530 Sq Meter
Employment generation	proposed : 150

5. An already established factory shed of M/s Kodak India Limited spread in an area of 19,789.15 M2 on plot numbers 79 & 100 in Malanpur Industrial area has been acquired by M/s Helios Lifesciences Limited. The entire Infrastructure including plant and machinery of Kodak India Limited has been acquired for establishing Contract Research and Bulk Drug Manufacturing Services (CRAMS) Unit

6. PP has proposed Production Capacity 920 TPA with following products :-

S.No.	Name Of Proposed Product	Quantity in TPA	Major Uses/ End Use
1	Carboplatin	14	Oncology (Anti-Cancer)
2	Cisplatin		
3	DocetaxelTrihydrate		
4	Paclitaxel

7. The proposed project is covered under 5 (f) category (B) of the schedule of EIA Notification issued by the Ministry of Environment & Forests vide S.O.1533 (E), dtd. 14.09.2006 and its amendments hence is required to obtain prior EC. In the context of pandemic COVID -19, GoI'sMoEF&CC issued dtd. 15.10.2021 for considering the API & Bulk drug Projects as B-2 category.

8. There is no interstate boundary (12.06.2017) within 05 km and no National park, Sanctuary and Eco-sensitive areas (DFO letter dtd. 16.11.2017) within 05 km of the project area hence General condition are not attracted.

9. The case was discussed in 496th SEAC meeting dated 03.04.2021 and is recommended for grant of prior EC subject to special conditions.

10. Today the case is scheduled for presentation and after deliberation recorded that:-

    i. The project occupies a plot Area of 19789.15 sq.m. of land. PP has submitted copy of the registry of the land documents. As per the land documents the landownership is the name of M/s Helios Life Sciences Ltd. The land use breakup of the project area is as follows:-

Land Use Pattern		
S.no	**Area**	**Total Area (Sq.Mtr)**
1	Total Plot Area	19789.15
2	Total Built up Area	6333.81
3	Green Area/Plantation Area	7530

(Tanvi Sundriyal)
Member Secretary

(R.K. Sharma)
Member

(Rakesh K. Shrivastava)
Chairman

ii. The major facilities will be Boiler, MEE (10 KLD), Reactors, Cooling Towers, Effluent Treatment Plant (ETP-40 KLD), and R.O Plant (20 KLD). Facilities like administrative office, parking and greenbelt/plantation has already been developed.

iii. Total raw water requirement for the proposed project will be 40 (28 KLD fresh water and 12 KLD recycled water). The water will be sourced from IIDC Gwalior (MP).The total wastewater generation will be 16.00 KLD .

- Storm water drainage system shall be developed and shall be maintained preciously to prevent the flow of silt and other contaminant outside of the site
- The entire trade effluent will be divided into two streams i.e. Stream-I (high concentrated streams) and Stream-II (low concentrated stream). Both the streams will be treated in well-designed ETP, RO and MEE.
- Low COD /TDS wastewater (including process effluent, washing, blow downs from cooling towers, boiler, scrubber, Softener regeneration) will be sent to ETP followed by RO. Treated water will be reused.
- High COD / TDS wastewater (consisting process effluent & RO reject) will be sent to MEE/ATFD. Condensate will be reused and bottom salt will be sent to a common TSDF site.
- Utilization of treated wastewater in toilet flushing, greenbelt development and dust suppression
- A drain along the boundary wall shall be made, which will be connected proposed settling tank to protect the flow of contaminant towards nearby area
- M/s Helios will install Multi Effective Evaporator, with treatment capacity of 05 KL/Hr. The treated water will be used for cooling towers, floor washing and gardening/green belt.
- Storm water drainage system will be developed for unit and shall be maintained preciously to prevent the flow of silt and other contaminant outside of the site.
- Blow downs from cooling towers, boiler, ACF/MGF Cleaning, Softener regeneration, Vacuum pump will go to ETP
- Water harvesting structure need to provide further strength with proper maintenance
- ZERO effluent discharge has been implemented, and after expansion, the same shall be maintained.

iv. Air pollutants, such as carbon monoxide (CO), sulfur dioxide (SO2), nitrogen oxides (NOx), volatile organic compounds (VOCs), heavy metals, and respirable particulate matter (PM-2.5 and PM-10), differ in their chemical composition, reaction properties, emission, time of disintegration and ability to diffuse in long or short distances.Volatile organic compounds (VOCs) are

emitted as gases from certain solids or liquids. VOCs include a variety of chemicals, some of which may have short and long-term adverse health effects.For control of air pollution PP has proposed following measures:-

- All tankers shall be PUC Certified from time to time.
- DG Sets will be operated during power failure.
- Greenbelt will be developed at the facility to mitigate the impact of pollution.
- Use of raw materials will have VOC emissions, which will be controlled by taking the following measures:
- Provision for immediate isolation of such equipment, in case of a leakage will be made. All the mechanical seals of pumps and reactors will be monitored and maintained periodically as per preventive maintenance schedule.
- Monitor VOCs through portable VOC's meter.
- Closed handling and charging systems shall be provided for chemicals.
- Pumps shall be provided with mechanical seals to prevent leakages.
- Flammable gas detectors shall be installed in the appropriate locations.
- Venting equipment having toxic / flammable material shall have vapor recovery/scrubbing system. Measuring Instruments with sound alarm and having strategically placed sensing elements shall be provided for alerting the personnel in case of any escape of gases. Interlock with blower shall be provided.

v. Solid waste generated during the manufacturing process and wastewater treatment process is mainly sludge and will be disposed of at authorized TSDF facility, as per Hazardous and Other Waste (Management & Transboundary Movement) Rules, 2008 (Amendment 2016). M/s RLSPL will take authorization Under Hazardous Waste (Management, Handling & Transboundary Movement), Rules.

vi. Power will be sourced from the existing line of 'Madhya Pradesh Madhya Kshetra Vidyut Vitaran Company'. The total requirement will be 300 KVA In case of power failure, D.G. of 1X250 KVA will be used as a backup power source.

vii. The existing green belt already developed in 6530 Sq m. area within and periphery of the plant with a total of 850 nos. Now PP has proposed a 1000 sq.m area for green belt development by planting 250 nos of trees around the periphery outside of the unit.

viii. The green belt of 5-10 m width shall be developed over 1000 sq. meter apart from the existing green belt (6530 Sq mtrs) within and periphery of the plant (with a total of 850 no), in downward wind direction and along roadsides etc. Selection of plant species shall be as per the CPCB guidelines in consultation with the State Forest Department.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

ix. The total fixed cost of the project is estimated as INR 2150 Lacs.

x. The total capital cost for environmental measures is kept as Rs. 141.400 Lacs (capital cost) is allocated for environmental management systems and the annual recurring cost for the same is Rs 94.90 Lacs

xi. PP has proposed physical targets as per the needs of the local population under Corporate Environment Responsibility (CER) with respect to Project Cost.i.e 10.0 lakh as follows:

Need Based CER activities along with Budgetary Allocation and it's Implementation Schedule			
S. N.	**Need Identified For CER Plan**	**Activities**	**Budgetary Provision In Lacs (Capital)**
1	**Infrastructure development at School**	Provision of infrastructure facility to the middle school and Aganwadi of Gohad Tehsil at distBhind (MP) in terms of boundary wall, furniture and other requirement in consultation with district administration	Rs. 10 Lac
	Total		**Rs 10 Lacs**

The submissions made by the PP were found to be satisfactory and acceptable hence it is decided to accept the recommendations of 496thSEAC meeting dtd. 03.04.21 and grant Prior Environmental Clearance for proposed project Manufacturing Unit Bulk Drugs, & API Production at 79 and 100, Industrial Growth Center, Malanpur, Bhind, MP-477117 Project Area- 19789.15 sq.mProduction capacity -578 M Ton per Anum, (48.17 MT per month) by Managing Director, M/s Helios Lifesciences Limited, Shri Sunil Gandhi 17, Shri Ram Colony, Jhansi Road, Gwalior, Gohad, Bhind,Madhya Pradesh-477117, subject to the following specific conditions:-

1. The entire demand of fresh water should be met through IIDC Gwalior and there should be no extraction of groundwater. Freshwater should not be used for Irrigation and gardening purposes.
2. **Waste water:**

   (a) PP should ensure "Zero effluent discharge" from the unit by 100% recycling. The water softening reject, boiler blowdown reject and cooling blowdown will be treated in ETP. Further treated wastewater will go through the RO and finally reused / recycled in the process and unused waste water evaporates in MEE.

   (b) RO and MEE should be provided for treatment of high COD waste streams and only in case of emergency/breakdown high COD wastes should be disposed off through CTSDF, Pithampur, Dhar.

3. **For Air Pollution:**

   (a) PP should ensure regular Stack monitoring Ambient air quality monitoring and should be carried out as per the guidelines/norms of MPPCB/CPCB.

(Tanvi Sundriyal)
Member Secretary

(R.K. Sharma)
Member

(Rakesh K. Shrivastava)
Chairman

(b) In plant control measures for checking fugitive emission from all the vulnerable sources shall be provided. Fugitive emission shall be controlled by providing closed storage, closed handling & conveyance of chemicals/materials, multi cyclone separator/bag filters and water sprinkling system.

(c) Company shall carry out the HAZOP study and report shall be submitted to ministry MoEF& CC Regional Office, Bhopal.

(d) To control source and the fugitive emissions, suitable pollution control devices shall be installed to meet the prescribed norms and/or the NAAQS. Sulphur content should not exceed 0.5% in the coal/CNG for use in coal/CNG fired boilers to control particulate emissions within permissible limits (as applicable). The gaseous emissions from the boiler, DG set shall be dispersed through a stack of adequate height as per CPCB/SPCB guidelines.

(e) For control of fugitive emission and VOCs following steps should be followed:-

- Chilled brine circulation system shall be provided and it should be ensured that the solvent recovery efficiency is not less than 95%.
- Reactor and solvent handling pump shall be provided with mechanical seal to prevent leakage.
- Solvent shall be taken from underground storage tank to reactor through closed pipeline. Storage tank shall be vented through trap receivers and condensers operated on chilled water.

4. **Hazardous Waste Management:**

(a) As proposed above, PP should ensure disposal of hazardous waste regularly and there should be no dumping of these materials in the premises/outside.

(b) PP should ensure handling, disposal and management of hazardous waste as per the related prescribed rules.

(c) PP should obtain Renewal of authorization regularly from MPPCB for collection storage and disposal of hazardous waste (Management, handling & transboundary Movement) Rules 2008 and its amendments. Membership of the TSDF should be obtained for hazardous waste disposal.

(d) Hazardous chemicals should be stored in sealed tanks, drums etc. Flame arrestors shall be provided on tanks. To avoid the spillage from the processing unit, Industry shall provide a fully mechanized filling and packaging operation unit.

5. **Green Belt Development:**

(a) PP should ensure plantation as proposed 1000 sq. m of area with 250 number of trees Plantation in the project area of indigenous local varieties like Neem, Peepal, Kadam and Kachnaar.

(b) Every effort should be made to protect the existing trees on the plot.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

(c) Green areas including thick green-belt shall be developed in 33% of the plot area as proposed to mitigate the effect of fugitive emissions all around the plant in consultation with the forest department as per the guidelines of CPCB.

6. PP should ensure the implementation of CER activities to the extent of Rs. 10 lakh for providing infrastructure facility to the middle school and Anganwadi of Gohad Tehsil at dist Bhind (MP) in terms of boundary wall, furniture and other requirement in consultation with district administration as committed during presentation

7. Total quantity of runoff water generated and green belt area should be collected in underground tank & used for processes in plant to minimize fresh water requirements.

8. PP should ensure to explore the possibility to use biomass or CNG as fuel instead of coal.

6. Case No 8470/2021: Prior Environment Clearance for the Project of Bulk Drugs & Intermediates Manufacturing Unit at 4, Sant Nagar, Ujjain, Madhya Pradesh Total Land area: 15881 sq.m. Proposed Production Capacity- 3,300 Kg/Day by J.K. LIFECARE PVT LTD Mr. Anany Mishra, Director, 4, Sant Nagar, Ujjain,Madhya Pradesh-456010 E-mail: jklifecareec@gmail.com Mob: 7000452122

1. This is the case of Prior Environment Clearance for Manufacturing of API Bulk Drugs and Intermediates Unit at 4 at Village - Sant Nagar, Tehsil & Dist. Ujjain, (MP) Total Land area – 15881 Sq.M. Proposed Production Capacity 3,300 Kg/Day).

2. M/s. JK Lifecare Centers Pvt Ltd proposes to set up Key starting Materials for Intermediates of API and APIs manufacturing facility with production capacity of 500 MT/Annum.

3. Project site is located between Latitude 23^0 09 26 86"N and Longitude 75.930539"E.

4. Salient features of the project is as follows:-

Details	**Project Details**
Site Address	Plot no 97, Vikram Udyogpuri, Ujjain, M.P. INDIA 456664
Proposed Production Capacity	3,300 Kg/Day
Land	15881 Sq. Meter
Cost of Project	24 Crore
EMP Cost (Capital)	4.5 Cr
EMP cost (recurring)	38.2 lacs
Manpower Requirement	50 Nos.
Power requirement	500 KW
Total Water Requirement & Source	160KLD & DMIC Water supply
Boiler capacity	Capacity of Boiler : 3TPH Fuel used- Biomass/Gas/Coal
DG set	D.G Set (475 KVA)

(Tanvi Sundriyal)
Member Secretary

(R.K. Sharma)
Member

(Rakesh K. Shrivastava)
Chairman

Scrubber	No.2, Two Stage Scrubber
Plantation (Green belt development)	5,240.73 square meters

5. PP has proposed Production Capacity 3,300 Kg/Day with following products :-

S.No.	Name of the Product	Capacity in Kg/Day
1	Itraconazole	300
2	Olmesartan	400
3	Valsartan	300
4	Losartan	400
5	Telmisartan	300
6	Gabapentin	250
7	Levodopa	300
8	Rebeprazole	300
9	Sitagliptan	400
10	itraconazole	300
11	Levetiracetam	300
	Total	**3300 Kg/day**

6. The proposed project is covered under 5 (f) category (B) of the schedule of EIA Notification issued by the Ministry of Environment & Forests vide S.O.1533 (E), dtd. 14.09.2006 and its amendments hence is required to obtain prior EC. In the context of pandemic COVID -19, GoI'sMoEF&CC issued dtd. 15.10.2021 for considering the API & Bulk drug Projects as B-2 category.

7. There is no interstate boundary within 05 km and no National park, Sanctuary and Eco-sensitive areas within 05 km of the project area hence General conditions are not attracted.

8. The case was discussed in 497th SEAC meeting dated 04.04.2021 and is recommended for grant of prior EC subject to special conditions.

9. Today the case is scheduled for presentation and after deliberation recorded that:-

   i. The project occupies a plot Area of 19789.15 sq.m. of land. PP has submitted a letter of intent dtd. 22.03.21issued by DMIC Vikram Udyogpuri Ltd. for the allotment of plot number 97. The land use breakup of the project area is as follows:-

Sr. No.	Particulars	Total Proposed Area (Sq. Mt.)
1	Land Area	15881
2	Built up area	7465
2.1	Production blocks	2500
2.2	Utility (Cooling tower, Pilot plant, Boiler, Chilling plant, storage tanks)	1500
2.3	R/M and F/G Stores	1500
2.4	Office Block including QA and QC	1000
2.5	ETP & ZLD	965
3	Green Belt Area	5240
4	Open Area	3176

   ii. The major facilities will be Boiler, MEE, Reactors, Cooling Towers, Effluent Treatment Plant (ETP), and R.O Plant. Facilities like administrative office, parking and greenbelt/plantation will also be developed as per

(Tanvi Sundriyal) Member Secretary | (R.K. Sharma) Member | (Rakesh K. Shrivastava) Chairman

plan/requirement. The treated water will be used for cooling towers, floor washing and gardening/green belt.

iii. Total raw water requirement for the proposed project will be 160 KLD. The water will be sourced from DMIC-VikramUdyogpuri Ltd. accordingly permission letter issued on 23.03.21.

iv. The High COD/TDS process effluent (20 KLD) and RO Reject will be treated through MEE/ ATFD. The MEE condensates will be recycled/ reused and MEE bottom will be sent to TSDF site. The Low COD/TDS effluent, 50 KLD will be treated in an on-site ETP of 80 KLD. The treated effluent will be reused/ recycled. Adhere to 'Zero Liquid Discharge and No industrial effluent from the unit shall be discharged outside the plant premises.Remaining treated effluent will be discharged to the CETP of DMIC-VikramUdyogpuri Limited for further treatment.

v. Rooftop area rain water will be used for ground water recharge. PP has proposed 03 numbers of recharging pits for collection of rainwater.

vi. Solid waste generated during the manufacturing process and wastewater treatment process is mainly sludge and will be disposed of at authorized TSDF facility, as per Hazardous and Other Waste (Management & Transboundary Movement) Rules, 2008 (Amendment 2016). M/s RLSPL will take authorization Under Hazardous Waste (Management, Handling & Transboundary Movement), Rules.

vii. Power will be sourced from the existing line of 'Madhya Pradesh Madhya Kshetra VidyutVitaran Company'. The total requirement will be 500 KW. In case of power failure, D.G. of 2X475 KVA will be used as a backup power source.

viii. For fire fighting management PP has proposed to provide a Wet riser system, Internal fire hydrants strategically located to cover maximum area. Fire pump, Sprinkler pump, Jockey pump, Sprinklers system, Two-way communication system, External yard hydrants, Portable fire extinguishers

ix. The company proposes to install 3 nos. of coal base/ biomass fuel boiler 3 TPH capacity of briquette fired boiler. Multi-cyclone separator followed by a water scrubber will be provided as APCM with 30 m stack height to the boiler.

x. For worst case scenario PP has proposed as follows:-

S. No	Particular	Case
1	Machineries/Instruments	There is no worst case in this scenario as the proposed capacity of machineries/instruments are sufficient to meet the requirement.
2	Water	There is no worst case in the water consumption scenario.
3	Effluent	The ETP capacity is sufficient to meet the case scenario.
4	Gases	There is no worst case in this scenario as the proposed scrubber capacity is sufficient to meet the requirement.

(Tanvi Sundriyal) Member Secretary | (R.K. Sharma) Member | (Rakesh K. Shrivastava) Chairman

5	Solid Waste	There is no worst case in this scenario

xi. For control of air pollution PP has proposed following measures:-

- All tankers shall be PUC Certified from time to time.
- DG Sets will be operated during power failure.
- Use of raw materials will have VOC emissions, which will be controlled by taking the following measures:
- Provision for immediate isolation of such equipment, in case of a leakage will be made. All the mechanical seals of pumps and reactors will be monitored and maintained periodically as per preventive maintenance schedule.
- Monitor VOC's through portable VOC's meter.
- Closed handling and charging systems shall be provided for chemicals.
- Pumps shall be provided with mechanical seals to prevent leakages.
- Flammable gas detectors shall be installed in the appropriate locations.
- Venting equipment having toxic / flammable material shall have vapor recovery/scrubbing system. Measuring Instruments with sound alarm and having strategically placed sensing elements shall be provided for alerting the personnel in case of any escape of gases. Interlock with blower shall be provided.

xii. For the green belt development PP has proposed 5240.75 sq.m. area (33%) by planting indigenous species along the boundary wall, near admin block, parking area, Backside of office area, Backside of utility area etc.

xiii. The total fixed cost of the project is estimated as INR 24.0 Crore.

xiv. EMP Cost (Capital) is 4.5 Cr and EMP cost (recurring) is 38.2 lacs

xv. PP has proposed physical targets as per the needs of the local population under Corporate Environment Responsibility (CER) with respect to Project Cost.i.e 44.0 lakh as follows:

S.No.	Activities
	Corporate Social Responsibility – 44 LAKHS
1.	Drinking water Coolers (1 Each), Infra for Library (Table 10 nos. Chair 10 nos.), Small Garden Development where space is available (Anganwadi kendrya, Indra Colony, ward no. 5, Maksi , Government Madhyamik vidhyala, Railway station, Maksi)

The submissions made by the PP were found to be satisfactory and acceptable hence it is decided to accept the recommendations of 497thSEAC meeting dtd. 04.04.21 and grant Prior Environmental Clearance for proposed project Bulk Drugs & Intermediates Manufacturing Unit at 4, Sant Nagar, Ujjain, Madhya Pradesh Total Land area: 15881 sq.m. Proposed Production Capacity- 3,300

(Tanvi Sundriyal)
Member Secretary

(R.K. Sharma)

(Rakesh K. Shrivastava)
Chairman

Kg/Day by J.K. LIFECARE PVT LTD Mr. Anany Mishra, Director, 4, Sant Nagar, Ujjain,Madhya Pradesh-456010, subject to the following specific conditions:-

1. The entire demand of fresh water should be met through DMIC Virkam Udyogpuri Ltd.(NOC dtd.23.03.2021) Freshwater should not be used for Irrigation and gardening purposes.
2. **Waste water:**
   (a) PP should ensure "Zero effluent discharge" from the unit by 100% recycling. The water softening reject, boiler blowdown reject and cooling blowdown will be treated in ETP. Further treated wastewater will go through the RO and finally reused / recycled in the process and unused waste water evaporates in MEE.
   (b) RO and MEE should be provided for treatment of high COD waste streams and only in case of emergency/breakdown high COD wastes should be disposed off through CTSDF, Pithampur, Dhar.
3. **For Air Pollution:**
   (a) PP should ensure regular Stack monitoring & Ambient air quality monitoring and should be carried out as per the guidelines/norms of MPPCB/CPCB.
   (b) In plant control measures for checking fugitive emission from all the vulnerable sources shall be provided. Fugitive emission shall be controlled by providing closed storage, closed handling & conveyance of chemicals/materials, multi cyclone separator/bag filters and water sprinkling system.
   (c) Company shall carry out the HAZOP study and report shall be submitted to ministry MoEF & CC Regional Office, Bhopal.
   (d) To control source and the fugitive emissions, suitable pollution control devices shall be installed to meet the prescribed norms and/or the NAAQS. Sulphur content should not exceed 0.5% in the coal/CNG for use in coal/CNG fired boilers to control particulate emissions within permissible limits (as applicable). The gaseous emissions from the boiler, DG set shall be dispersed through a stack of adequate height as per CPCB/SPCB guidelines.
   (e) For control of fugitive emission and VOCs following steps should be followed:-
      - Chilled brine circulation system shall be provided and it should be ensured that the solvent recovery efficiency is not be less than 95%.
      - Reactor and solvent handling pump shall be provided with mechanical seal to prevent leakage.
      - Solvent shall be taken from underground storage tank to reactor through closed pipeline. Storage tank shall be vented through trap receivers and condenser operated on chilled water.
4. **Hazardous Waste Management:**
   (a) As proposed above, PP should ensure disposal of hazardous waste regularly and there should be no dumping of these materials in the premises/outside.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

(b) PP should ensure handling, disposal and management of hazardous waste as per the related prescribed rules.

(c) PP should obtain Renewal of authorization regularly from MPPCB for collection storage and disposal of hazardous waste (Management, handling & transboundary Movement) Rules 2008 and its amendments. Membership of the TSDF should be obtained for hazardous waste disposal.

(d) Hazardous chemicals should be stored in sealed tanks, drums etc. Flame arrestors shall be provided on tanks. To avoid the spillage from the processing unit, Industry shall provide a fully mechanized filling and packaging operation unit.

5. **Green Belt Development:**

(a) PP should ensure plantation as proposed 5240.75 sq.m. area (33%) sq. m of area with indigenous trees Plantation in the project area of indigenous local varieties like Neem, Peepal, Kadam and Kachnaar.

(b) Every effort should be made to protect the existing trees on the plot.

(c) Green area including thick green-belt shall be developed in 33% of the plot area as proposed to mitigate the effect of fugitive emissions all around the plant in consultation with the forest department as per the guidelines of CPCB.

6. PP should ensure the implementation of CER activities to the extent of Rs. 44 lakh for Installation of Drinking water Coolers (1 Each), Infra for Library (Table 10 nos. Chair 10 nos.), Small Garden Development where space is available (Anganwadi kendrya, Indra Colony, ward no. 5, Maksi , Government Madhyamik vidhyala, Railway station, Maksi) as committed during presentation in consultation with Collector, Ujjain.

7. Total quantity of runoff water generated and green belt area should be collected in underground tanks & used for processes in plant to minimize fresh water requirement. Only roof water will be allowed for collection in storage tanks.

8. PP should ensure to explore the possibility to use biomass or CNG as fuel instead of coal.

7. Case No. 481/2009, Prior Environmental Clearance for captive thermal power plant in an area of 4.848 ha for production capacity 35 MW at 187/2/KA/1/KA/1, 210/1/KA/1, 210/1/KA/2, 210/2/KA/1/KA, 210/2/KA/1/KHA, 210/2/KHA/1/1/KA, 210/2/KHA/1/1/KHA, 210/440/1, 210/440/2, 210/440/3, 215/1/KA, 215/1/KHA, 215/2/1, 215/2/2, 215/2/3, 215/2/4, 216/1/KA/2, 217, 220/414, 221/1/KHA, 221/1/KA/4, 227, 256/3 Village Bela, Tehsil Raghurajnagar, District Satna, (MP) by M/s Birla Corporation Ltd. (BCL) Unit Satna Cement Works, through Mr. Bhaskar Bhattacharya, President PO Birla Vikas, Satna, 485005, MP

The case was discussed in 656th SEIAA meeting dated 30/01/2021 and it is recorded that:

1) "Earlier EC issued vide letter no. 1420 dtd 05/08/2013. EC is valid for 5 years and later extended to 7 years as per the Ministry of Environment, Forest and Climate

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

Change (MoEF&CC) amended (dtd 14/09/2016) the Environmental Impact Assessment (EIA) notification 2006, which governs the environmental clearance rules, and as a result, the five year validity for the project automatically became seven years.

2) *Accordingly as per MoEF & CC, GoI Notification dtd. 14/9/2016 and office memorandum dtd. 11/6/2018 PP has applied vide proposal (Online proposal no. SIA/MP/THE/5032/2009) on 28/07/2020 and online acceptance on 15/12/2020 subsequently hard copy received in SEIAA office on 24/12/2020 for extension of Validity period of Environmental clearance.*

3) *As per the MoEF & CC, GoI Notification dtd 14/9/2016 period of validity may be extended by the regulatory authority concerned by a maximum period of three years if an application is made to the regulatory authority by the applicant within the validity period and within thirty days after the validity period of Environmental Clearance, such cases shall be referred to concerned Expert Appraisal Committee or State Level Expert Appraisal Committee. ……"*

After detailed discussion, it was decided that the case sent to SEAC regarding examine the availability of reject coal from the coal washery full fill the project requirement and accordingly extension of validity of environmental clearance can be extended upto three years or not. Copy to PP.

In view of above the case was considered in 491st meeting dtd. 18.03.21 and recorded that:-

"*The case was presented by the PP and their consultant in response to above queries made in 486th SEAC meeting dated 26-02-21. PP vide dated 05/03/2021 has submitted the response of above quarries with complete chronology of the events since the grant of EC and till date with the copy of all the documents and relevant OMs in support of their claim, form-1, CTO, vesting order for coal, quantity of reject coal available and the same was presented before the committee. During the presentation PP has shown the Drone video of the site where installation of 35 MW captive power plant is being proposed. PP further submitted that they have not changed the location of the proposed power plant. Hence, the committee after deliberation decided to recommend for the extension of validity period of Environmental Clearance for 03 years on the same terms & condition mentioned in earlier issued EC in accordance with the MoEF & CC, GoI Notification dated 14/9/2016.*

"After recommendation today the case was scheduled for discussion and decided that call to PP for further clarification with compliance report and Details of CER activities".

In response to above today PP was called for clarification and after deliberation it was recorded that:-

"PP has shown the Drone video of the site where installation of 35 MW captive power plant is being proposed. PP further submitted that they have not changed the location of the proposed power plant. Hence, the committee after deliberation decided to recommend for the extension of validity period of Environmental Clearance for 03 years on the same terms & condition mentioned in earlier issued EC in accordance with the MoEF & CC, GoI Notification dated 14/9/2016.

After recommendation of SEAC, today the case was scheduled for discussion and decided that.

Based on the submission of PP and examined all the documents and photographs it was found that due to non-availability of rejected coal from

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

washery, the project of 35MW captive thermal power plant was kept under hold for the period. Now coal block i.e. Bikram having extractable coal reserve 9.4 million tons at Shahdol, (M.P.) is allotted to PP, therefore he has capable to regular supply of high ash coal from the said coal block and obtain reject of coal washery for operation of 35 MW captive thermal power plant from 2023.

Further, PP has applied to the authority within the validity period hence as per the MoEF & CC, GoI Notification dtd 14/9/2016 period of validity may be extended by the regulatory authority concerned by a maximum period of three years if an application is made to the regulatory authority by the applicant within the validity period and within thirty days.

In context of above it is decided to accept the recommendation of SEAC 491st meeting dtd. 18.03.21 and grant extension of validity period of Environmental Clearance for 03 years on the same terms & condition mentioned in earlier issued EC in accordance with the MoEF & CC, GoI Notification dated 14/9/2016.

8. **Case No 7803/2021:** Prior Environment Clearance for **Stone Quarry (opencast semi mechanized method)** in an area of 4.0 ha. for production capacity of 30000 cum per annum at Khasra No. 1165/1 at Village - Fusriya, Tehsil - Singoli, Dist. Neemuch, (MP) by Shri Moinuddin S/o Shri Usuf Chhipa, R/o Village - Baneda, Tehsil - Baneda, Dist. Bhilwara, Raj

(1) This is a project pertaining to mining of **Stone Quarry** in MLA of 4.00 ha. The activity is mentioned at S.No. 1 (a) of the Schedule of EIA Notification 2006 as amended from time to time. The project is reported to be at a distance of more than 10 km from National Park /Sanctuary etc. thus it is not attracted by the general conditions by virtue of its location and mining lease area. There is no forest boundary less than 250 m distance from the ML area. The case was forwarded by SEIAA to SEAC for appraisal of EIA for environmental clearance for the project. It was submitted that this is a fresh grant issued in the year of 2019.

(2) The mining lease was granted to Shri Moinuddin S/o Shri Usuf Chhipa in the year of 2019, as per Collector (Mining) Office Neemuch vide L.No. 498 dated 05.07.2019. This is a case of fresh grant. The Mining Plan with progressive mine closure plan has been approved by DGM, M.P. Vide Letter No. – 1282/M. plan/Na. Kra./2019, dated 16.08.2019.

(3) It was noted that PP has submitted a copy of approved Mining Plan, DSR report, information in the lease's within 500 meters radius around the site and other requisite information in the prescribed format duly verified in the Collector Office (Mining Division) letter no. 498 dated: 05/07/2019 has reported that there are 02 more mines operating or proposed within 500 meters around the said mine with total area of 12.00 ha., including this mine

(4) SEAC in its 496th SEAC Meeting dated 25/02/2021 has recommended the case with 39 special conditions for issuance of EC.

(5) It was noted that as per DFO, Neemuch L.No. 1193 dtd. 08.03.2019, the National Park /Sanctuary is not located within 10 Km. radius from the mining

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

site. Hence, the General Conditions are not attracted. There is no forest boundary less than 250 m distance from the ML area.

(6) PP/Consultant made a presentation on all aspects of the project and all concerned issues were discussed in detail.

(7) It was noted that the water requirement is 3 KLD (0.50 KLD for Human Consumption + 1.0 KLD for Sprinkling on haul roads + 1.0 KLD for Green Belt/ plantation + 0.50 KLD for Mining Operation). The water requirement will be met from rainwater pit, graland drains, catch drain, siltation ponds and water for drinking purpose from tankers.

(8) The proposed plantation programme was examined and it was found that total 6000 saplings shall be planted under the plantation program.

(9) It was also noted that the Public Hearing was carried out on 16.03.2021 at Government School Village - Fusriya, Tehsil - Singoli, Dist. Neemuch (MP) under the Chairmanship of Additional Collector, Neemuch.

After detailed discussions and perusal of recommendations of 496th SEAC Meeting dated 03/04/2021, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:

I. Before commencing any mining activity fencing shall be carried out all around the lease area. Proper watch and ward arrangements should be made with installation of signage at 4 corners of the lease area to avoid any untoward incident involving public and animals by the PP.

II. Lease agreement shall be carried out before execution of mining operation.

III. Plantation programme as mentioned in EIA/EMP and presented during presentation in SEIAA & SEAC shall be followed in content and spirit.

IV. PP shall demarcate a barrier zone of 7.5 m as no mining zone in the periphery of mining lease area and develop a green belt. Three rows plantation shall be carried out in the greenbelt area in the current year with proper watering arrangement.

V. PP shall ensure that existing trees are not to be uprooted within the ML area.

VI. PP will plant 3 years old 6000 saplings of suitable tree species i.e. Neem, Peepal, Bargad, Gulmohar, Guava, Mango, Sissoo, Jamun etc. will be planted in the first three years along the no mining zone, lease Boundary in mine premises and transportation route and khasra no. 1165 identified revenue land of the district in consultation with DM/ Gram Panchayat. PP shall also explore and identify the chunk of land in the area from revenue records to carry out the plantation programme as proposed.

VII. The mining operation shall be restricted to above ground water table and in no case it should intersect the ground water table. In case of working below the ground water table, approval of the Central Ground Water Board shall be obtained.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

VIII. The overburden and waste will be stacked within the ML area and simultaneously backfilled in the mined out area where plantation will be raised on it.

IX. PP shall ensure that waste material shall not be stacked for a long time in the ML area.

X. No overburden will be dumped outside the mine lease area.

XI. Regular water quality monitoring shall be carried out by PP before discharging it into the nearby agriculture fields from authorized laboratories in consultation with Regional Officer, MPPCB. Regular air and noise quality monitoring shall also be carried out from authorized laboratories in consultation with Regional Officer, MPPCB at regular intervals.

XII. PP shall ensure the generation of employment opportunities nearby Village on priority basis.

XIII. Payments of wages to the workers shall be done in consonance with the provisions in the labour laws.

XIV. Proper infrastructure with shelter, drinking water, toilet and first-aid facilities shall be provided for the laborers. A provision should be made to construct a pakka rest shelter along with toilet and drinking water facility.

XV. PP should also carry out regular sprinkling in the mining lease area to arrest dust emission from mining activities affecting the nearby agriculture fields.

XVI. Mining shall be limited to the area as shown in surface plan and as per the approved mining scheme.

XVII. PP shall ensure the proper water supply arrangements for plantations especially in the summer season.

XVIII. PP shall ensure proper implementation of plantation, dust suppression, construction of approach road and maintenance of existing pakka road as part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.

XIX. PP must ensure the implementation of compliance of the commitment made in Public Hearing in addition to these following activities with separate budget provision under CER as committed.

- Installation of water cooler with overhead water tank in Fusariya Chouraha, Badi Village and Lal Ganj.
- To provide furniture and sports equipment for government middle school at village Mata Khera and Lal Ganj.
- Installation of Water Filter/Cooler as per needs along with LED Lights of Govt. High School at village Singhauli.
- Construction of a Water Pit for animals at nearby villages.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

PP shall ensure contribution of funds on behalf of the village under Jal Jeevan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in schools or anganwadis of above villages. The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

XX. PP should ensure to submit a half yearly compliance report, Plantation and CER activity report along with photographs of all activities in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Stone Quarry (opencast semi mechanized method) in an area of 4.0 ha. for production capacity of 30000 cum per annum at Khasra No. 1165/1 at Village - Fusriya, Tehsil - Singoli, Dist. Neemuch, for the lease period to Shri Moinuddin S/o Shri Usuf Chhipa, R/o Village - Baneda, Tehsil - Baneda, Dist. Bhilwara, Raj.

9. **Case No. – 6569/2019** Prior Environment Clearance for **Stone Quarry (opencast semi mechanized method)**in an area of 4.00 ha. for production capacity of 20,000 cum per annum at Khasra No. 839/1/1 at Village - Alhed, Tehsil - Manasa, Dist. Neemuch (MP) by Shri Vakil S/o Shri Gabbaji Bharawat, R/o Village - Kundkheda, Tehsil - Manasa, Dist. Neemuch, MP

(1) This is a project pertaining to mining of **Stone Quarry** in MLA of 4.00 ha. The activity is mentioned at S.No. 1 (a) of the Schedule of EIA Notification 2006 as amended from time to time. The project is reported to be at a distance of more than 10 km from National Park /Sanctuary etc. thus it is not attracted by the general conditions by virtue of its location and mining lease area. There is no forest boundary less than 250 m distance from the ML area. The case was forwarded by SEIAA to SEAC for appraisal of EIA for environmental clearance for the project. It was submitted that this is a fresh grant issued in the year of 2018.

(2) The mining lease was granted to Shri Vakil S/o Shri Gabbaji Bharawat in the year of 2018, as per Collector (Mining) Office, Neemuch vide L.No. 1327 dated 27.12.2018. This is a case of fresh grant. The Mining Plan with progressive mine closure plan has been approved by DGM, M.P. Vide Letter No. – 145/M. plan/Na.Kra./2019, dated 01.02.2019.

(3) It was noted that PP has submitted a copy of approved Mining Plan, DSR report, information in the lease's within 500 meters radius around the site and other requisite information in the prescribed format duly verified in the Collector Office (Mining Division) letter no. 58 dated: 16/07/2019 has reported that there are 03 more mines operating or proposed within 500 meters around the said mine with total area of 9.00 ha., including this mine

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

(4) SEAC in its 496th SEAC Meeting dated 03/04/2021 has recommended the case with 38 special conditions for issuance of EC.

(5) It was noted that as per DFO, Neemuch L.No. 3946 dtd. 20.07.2019, the National Park /Sanctuary is not located within 10 Km. radius from the mining site. Hence, the General Conditions are not attracted. There is no forest boundary less than 250 m distance from the ML area.

(6) PP/Consultant made a presentation on all aspects of the project and all concerned issues were discussed in detail.

(7) It was noted that the water requirement is 3 KLD (0.50 KLD for Human Consumption + 1.0 KLD for Sprinkling on haul roads + 1.5 KLD for Green Belt/ plantation). The water requirement will be met from rainwater pit, graland drains, catch drain, siltation ponds and water for drinking purpose from tankers.

(8) The proposed plantation programme was examined and it was found that total 6000 saplings shall be planted under the plantation program.

(9) It was also noted that the Public Hearing was carried out on 16.03.2021 at Mine Site Village - Alhed, Tehsil - Manasa, Dist. Neemuch (MP) under the Chairmanship of Additional Collector, Neemuch.

After detailed discussions and perusal of recommendations of 496th SEAC Meeting dated 03/04/2021, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:

I. Before commencing any mining activity fencing shall be carried out all around the lease area. Proper watch and ward arrangements should be made with installation of signage at 4 corners of the lease area to avoid any untoward incident involving public and animals by the PP.

II. Lease agreement shall be carried out before execution of mining operation.

III. Plantation programme as mentioned in EIA/EMP and presented during presentation in SEIAA & SEAC shall be followed in content and spirit.

IV. PP shall demarcate a barrier zone of 7.5 m as no mining zone in the periphery of mining lease area and develop a green belt. Three rows plantation shall be carried out in the greenbelt area in the current year with proper watering arrangement.

V. PP shall ensure that existing trees are not to be uprooted within the ML area.

VI. PP will plant 3 years old 6000 saplings of suitable tree species i.e. Neem, Peepal, Bargad, Gulmohar, Guava, Mango, Sissoo, Jamun etc. will be planted in the first three years along the no mining zone, lease Boundary in mine premises and transportation route and khasra no. 839 identified revenue land of the district in consultation with DM/ Gram Panchayat. PP shall also explore and identify the chunk of land in the area from revenue records to carry out the plantation programme as proposed.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

VII. The mining operation shall be restricted to above ground water table and in no case it should intersect the ground water table. In case of working below the ground water table, approval of the Central Ground Water Board shall be obtained.

VIII. The overburden and waste will be stacked within the ML area and simultaneously backfilled in the mined out area where plantation will be raised on it.

IX. PP shall ensure that waste material shall not be stacked for a long time in ML area.

X. No overburden will be dumped outside the mine lease area.

XI. Regular water quality monitoring shall be carried out by PP before discharging it into the nearby agriculture fields from authorized laboratories in consultation with Regional Officer, MPPCB. Regular air and noise quality monitoring shall also be carried out from authorized laboratories in consultation with Regional Officer, MPPCB at regular intervals.

XII. PP shall ensure the generation of employment opportunities nearby Village on priority basis.

XIII. Payments of wages to the workers shall be done in consonance with the provisions in the labour laws.

XIV. Proper infrastructure with shelter, drinking water, toilet and first-aid facilities shall be provided for the laborers. A provision should be made to construct a pakka rest shelter along with toilet and drinking water facility.

XV. PP should also carry out regular sprinkling in the mining lease area to arrest dust emission from mining activities affecting the nearby agriculture fields.

XVI. Mining shall be limited to the area as shown in surface plan and as per the approved mining scheme.

XVII. PP shall ensure the proper water supply arrangements for plantations especially in the summer season.

XVIII. PP shall ensure proper implementation of plantation, dust suppression, construction of approach road and maintenance of existing pakka road as part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.

XIX. PP must ensure the implementation of compliance of the commitment made in Public Hearing in addition to these following activities with separate budget provision under CER as committed.

- Installation of Water Filter & Cooler with overhead water tank as per needs also along with CCTV installation and LED Lights fittings in Govt. High School at village Alhed.
- Installation of fans in classrooms and provide sports equipment of Govt. Primary School at village Kund Khera.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

- ❖ Construction & maintenance approach road to Govt. Middle School at village Manasa.
- ❖ Maintenance of the village cremation spotat village Manasa.

PP shall ensure contribution of funds on behalf of the village under Jal Jeevan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in schools or anganwadis of above villages. The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

XX. PP should ensure to submit a half yearly compliance report, Plantation and CER activity report along with photographs of all activities in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Stone Quarry (opencast semi mechanized method) in an area of 4.00 ha. for production capacity of 20,000 cum per annum at Khasra No. 839/1/1 at Village - Alhed, Tehsil - Manasa, Dist. Neemuch (MP), for the lease period to Shri Vakil S/o Shri Gabbaji Bharawat, R/o Village - Kundkheda, Tehsil - Manasa, Dist. Neemuch, MP.

10. **Case No 7845/2020** Prior Environment Clearance for **Stone Quarry (opencast semi mechanized method)** in an area of 1.80 ha. for production capacity of 100000 cum per annum at Khasra No. 3624/1 at Village - Biloua, Tehsil - Dabra, Dist. Gwalior (MP) by M/s Pitambra Grit Industries, Partner, Shri Deeraj Garg, F-29, Gandhi Nagar, Dist. Gwalior, MP

(1) This is a project pertaining to mining of **Stone Quarry** in MLA of 1.80 ha. The activity is mentioned at S.No. 1 (a) of the Schedule of EIA Notification 2006 as amended from time to time. The project is reported to be at a distance of more than 10 km from National Park /Sanctuary etc. thus it is not attracted by the general conditions by virtue of its location and mining lease area. There is no forest boundary less than 250 m distance from the ML area. The case was forwarded by SEIAA to SEAC for appraisal of EIA for environmental clearance for the project. It was submitted that this is a fresh grant issued in the year of 2018 for 10 years.

(2) The mining lease was granted to M/s Pitambra Grit Industries, Partner, Shri Deeraj Garg in the year of 2018 for 10 years, as per Collector (Khanij) Gwalior vide letter dated 07.07.2017. This is a case of fresh grant. The Mining Plan with progressive mine closure plan has been approved by DGM, M.P. Vide Letter No. – 783/Mining Plan Cell/Na. Kra.01/2013, Dt.07.07.2017.

(3) It was noted that PP has submitted a copy of approved Mining Plan, DSR report, information in the lease's within 500 meters radius around the site and

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

other requisite information in the prescribed format duly verified in the Collector Office (Khanij Division) vide letter no. 12/17/Khanij/2020 dated: 10/09/2020 has reported that there are 19 more mines operating or proposed within 500 meters around the said mine with total area of 33.968 ha., including this mine

(4) SEAC in its 496th SEAC Meeting dated 03/04/2021 has recommended the case with 39 special conditions for issuance of EC.

(5) It was noted that as per DFO, Gwalior L.No. 7816 dtd. 16.11.2012, the National Park /Sanctuary is not located within 10 Km. radius from the mining site. Hence, the General Conditions are not attracted. There is no forest boundary less than 250 m distance from the ML area.

(6) PP/Consultant made a presentation on all aspects of the project and all concerned issues were discussed in detail.

(7) It was noted that the water requirement is 3.0 KLD (0.50 KLD for Human Consumption + 2.5 KLD for Water for mining activities. The water requirement will be met from rainwater pit, graland drains, catch drain, siltation ponds and water for drinking purpose from tankers.

(8) The proposed plantation programme was examined and it was found that a total 2700 saplings shall be planted under the plantation program.

(9) It was also noted that the Public Hearing was carried out on 03.03.2021 at In front of Steel Plant, Main Road Village - Biloua, Tehsil - Dabra, Dist. Gwalior (MP) under the Chairmanship of Upper Collector, Gwalior.

After detailed discussions and perusal of recommendations of 496th SEAC Meeting dated 03/04/2021, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:

I. Before commencing any mining activity fencing shall be carried out all around the lease area. Proper watch and ward arrangements should be made with installation of signage at 4 corners of the lease area to avoid any untoward incident involving public and animals by the PP.

II. Lease agreement shall be carried out before execution of mining operation.

III. Plantation programme as mentioned in EIA/EMP and presented during presentation in SEIAA & SEAC shall be followed in content and spirit.

IV. PP shall demarcate a barrier zone of 7.5 m as no mining zone in the periphery of mining lease area and develop a green belt. Three rows plantation shall be carried out in the greenbelt area in the current year with proper watering arrangement.

V. PP shall ensure that existing trees are not to be uprooted within the ML area.

VI. PP will plant 3 years old 2700 saplings of suitable tree species i.e. Neem, Peepal, Bargad, Gulmohar, Guava, Mango, Sissoo, Jamun etc. will be planted in first three years along the no mining zone, lease Boundary in

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

mine premises and transportation route and khasra no. 3624 at village Bilaua and Khasra No. 1247 at village Rafadpur at identified revenue land of the district in consultation with DM/ Gram Panchayat. PP shall also explore and identify the chunk of land in the area from revenue record to carry out plantation programme as proposed.

VII. The mining operation shall be restricted to above ground water table and in no case it should intersect the ground water table. In case of working below the ground water table, approval of the Central Ground Water Board shall be obtained.

VIII. The overburden and waste will be stacked within the ML area and simultaneously backfilled in the mined out area where plantation will be raised on it.

IX. PP shall ensure that waste material shall not be stacked for a long time in the ML area.

X. No overburden will be dumped outside the mine lease area.

XI. Regular water quality monitoring shall be carried out by PP before discharging it into the nearby agriculture fields from authorized laboratories in consultation with Regional Officer, MPPCB. Regular air and noise quality monitoring shall also be carried out from authorized laboratories in consultation with Regional Officer, MPPCB at regular intervals.

XII. PP shall ensure the generation of employment opportunities nearby Village on priority basis.

XIII. Payments of wages to the workers shall be done in consonance with the provisions in the labour laws.

XIV. Proper infrastructure with shelter, drinking water, toilet and first-aid facilities shall be provided for the laborers. A provision should be made to construct a pakka rest shelter along with toilet and drinking water facility.

XV. PP should also carry out regular sprinkling in the mining lease area to arrest dust emission from mining activities affecting the nearby agriculture fields.

XVI. Mining shall be limited to the area as shown in surface plan and as per the approved mining scheme.

XVII. PP shall ensure the proper water supply arrangements for plantations especially in the summer season.

XVIII. PP shall ensure proper implementation of plantation, dust suppression, construction of approach road and maintenance of existing pakka road as part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.

XIX. PP must ensure the implementation of compliance of the commitment made in Public Hearing in addition to these following activities with separate budget provision under CER as committed.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

- ❖ Development of school playground in the village Beragarh, Biloua & Raftapur school.
- ❖ To provide desktop computers Govt school in school of Beragarh, Biloua & Raftapur village.
- ❖ To provide sports equipment (Nos. 20) in Aaganwadi Centre at village Beragarh, Biloua & Raftapur.
- ❖ Installation of a water filter (Nos. 3) in Govt. school and its maintenance in village Beragarh, Biloua & Raftapur

PP shall ensure contribution of funds on behalf of the village under Jal Jeevan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in schools or anganwadis of above villages. The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

XX. PP should ensure to submit a half yearly compliance report, Plantation and CER activity report along with photographs of all activities in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Stone Quarry (opencast semi mechanized method) in an area of 1.80 ha. for production capacity of 100000 cum per annum at Khasra No. 3624/1 at Village - Biloua, Tehsil - Dabra, Dist. Gwalior (MP), for the lease period to M/s Pitambra Grit Industries, Partner, Shri Deeraj Garg, F-29, Gandhi Nagar, Dist. Gwalior, MP.

11. **Case No 6815/2020** Prior Environment Clearance for **Stone Quarry (opencast semi mechanized method)** in an area of 2.00 ha. for production capacity of Expansion from 30,000 to 1,00,000 cum per annum at Khasra No. 3922/2 Govt. Land at Village - Biloua, Tehsil - Dabra, Dist. Gwalior (MP) by Shri Bachan Singh S/o Shri Gopal Singh, 26, Jamuna Nagar, Darpan Colony, Thatipur, Morar, Dist. Gwalior, MP

(1) This is a project pertaining to mining of **Stone Quarry** in MLA of 2.00 ha. The activity is mentioned at S.No. 1 (a) of the Schedule of EIA Notification 2006 as amended from time to time. The project is reported to be at a distance of more than 10 km from National Park /Sanctuary etc. thus it is not attracted by the general conditions by virtue of its location and mining lease area. There is no forest boundary less than 250 m distance from the ML area. The case was forwarded by SEIAA to SEAC for appraisal of EIA for environmental clearance for the project. It was submitted that this is a fresh grant issued in the year of 2010 for 10 years.

(2) The mining lease was granted to Shri Bachan Singh S/o Shri Gopal Singh in the year of 2010 for 10 years, which is applicable after lease agreement. This is

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

a case of renewal. The Mining Plan with progressive mine closure plan has been approved by DGM, M.P. Vide Letter No. – 1934/Ma.Plan Cell/Na.Kra.-01/2018-19, Dated 26.12.2018.

(3) It was noted that PP has submitted a copy of approved Mining Plan, DSR report, information in the lease's within 500 meters radius around the site and other requisite information in the prescribed format duly verified in the Collector Office (Khanij Division) vide letter no. 09/2010 dated: 17/07/2015 has reported that there are 12 more mines operating or proposed within 500 meters around the said mine with total area of 13.530 ha., including this mine

(4) SEAC in its 496th SEAC Meeting dated 03/04/2021 has recommended the case with 39 special conditions for issuance of EC.

(5) It was noted that as per DFO, Gwalior L.No. 6540 dtd. 30.12.2016, the National Park /Sanctuary is not located within 10 Km. radius from the mining site. Hence, the General Conditions are not attracted. There is no forest boundary less than 250 m distance from the ML area.

(6) PP/Consultant made a presentation on all aspects of the project and all concerned issues were discussed in detail.

(7) It was noted that the water requirement is 5 KLD (0.50 KLD for Human Consumption + 2.0 KLD for Sprinkling on haul roads + 1.5 KLD for Green Belt/ plantation + 1.0 KLD for Mining Operation). The water requirement will be met from rainwater pit, graland drains, catch drain, siltation ponds and water for drinking purpose from tankers.

(8) The proposed plantation programme was examined and it was found that a total 2400 saplings shall be planted under the plantation program.

(9) It was also noted that the Public Hearing was carried out on 03.03.2021 at In front of Steel Plant, Main Road Village - Pa Biloua, Tehsil - Dabra, Dist. Gwalior (MP) under the Chairmanship of Upper Collector, Gwalior.

After detailed discussions and perusal of recommendations of 496th SEAC Meeting dated 03/04/2021, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:

I. Before commencing any mining activity fencing shall be carried out all around the lease area. Proper watch and ward arrangements should be made with installation of signage at 4 corners of the lease area to avoid any untoward incident involving public and animals by the PP.

II. Lease agreement shall be carried out before execution of mining operation.

III. Plantation programme as mentioned in EIA/EMP and presented during presentation in SEIAA & SEAC shall be followed in content and spirit.

IV. PP shall demarcate a barrier zone of 7.5 m as no mining zone in the periphery of mining lease area and develop a green belt. Three rows plantation shall be carried out in the greenbelt area in the current year with proper watering arrangement.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

V. PP shall ensure that existing trees are not to be uprooted within the ML area.

VI. PP will plant 3 years old 2400 saplings of suitable tree species i.e. Neem, Peepal, Bargad, Gulmohar, Guava, Mango, Sissoo, Jamun etc. will be planted in the first three years along the no mining zone, lease Boundary in mine premises and transportation route and khasra no. 3624 at village Bilaua and Khasra No. 785 at village Jorasi identified revenue land of the district in consultation with DM/ Gram Panchayat. PP shall also explore and identify the chunk of land in the area from revenue records to carry out the plantation programme as proposed.

VII. The mining operation shall be restricted to above ground water table and in no case it should intersect the ground water table. In case of working below the ground water table, approval of the Central Ground Water Board shall be obtained.

VIII. The overburden and waste will be stacked within the ML area and simultaneously backfilled in the mined out area where plantation will be raised on it.

IX. PP shall ensure that waste material shall not be stacked for a long time in the ML area.

X. No overburden will be dumped outside the mine lease area.

XI. Regular water quality monitoring shall be carried out by PP before discharging it into the nearby agriculture fields from authorized laboratory in consultation with Regional Officer, MPPCB. Regular air and noise quality monitoring shall also be carried out from authorized laboratories in consultation with Regional Officer, MPPCB at regular intervals.

XII. PP shall ensure the generation of employment opportunities nearby Village on priority basis.

XIII. Payments of wages to the workers shall be done in consonance with the provisions in the labour laws.

XIV. Proper infrastructure with shelter, drinking water, toilet and first-aid facilities shall be provided for the laborers. A provision should be made to construct a pakka rest shelter along with toilet and drinking water facility.

XV. PP should also carry out regular sprinkling in the mining lease area to arrest dust emission from mining activities affecting the nearby agriculture fields.

XVI. Mining shall be limited to the area as shown in surface plan and as per the approved mining scheme.

XVII. PP shall ensure the proper water supply arrangements for plantations especially in the summer season.

XVIII. PP shall ensure proper implementation of plantation, dust suppression, construction of approach road and maintenance of existing pakka road as

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.

XIX. PP must ensure the implementation of compliance of the commitment made in Public Hearing in addition to these following activities with separate budget provision under CER as committed.

- ❖ To provide pens, pencils, school uniforms, shoes and notebooks to students in the government. schools nearby lease area at village Biloua.
- ❖ To organize medical and health check up camps for villagers at village Biloua.
- ❖ To provide sports equipment, fans, tables and blackboards in govt. schools and construction of the main gate of govt. school nearby lease area at village Biloua.

PP shall ensure contribution of funds on behalf of the village under Jal Jeevan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in schools or anganwadis of above villages. The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

XX. PP should ensure to submit a half yearly compliance report, Plantation and CER activity report along with photographs of all activities in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Stone Quarry (opencast semi mechanized method) in an area of 2.00 ha. for production capacity of Expansion from 30,000 to 1,00,000 cum per annum at Khasra No. 3922/2 Govt. Land at Village - Biloua, Tehsil - Dabra, Dist. Gwalior (MP) for the lease period to Shri Bachan Singh S/o Shri Gopal Singh, 26, Jamuna Nagar, Darpan Colony, Thatipur, Morar, Dist. Gwalior, MP.

12. **Case No. – 6707/2019** Prior Environment Clearance for **Limestone Mine (opencast mechanized method)** in an area of 4.290 ha. for production capacity of 50,260 Tonne per annum at Khasra No. P 965, 998, P 999, P 1002 at Village - Bhatia, Tehsil - Maihar, Dist. Satna, (MP) by M/s. KJS Cement (I) Limited, Rajnagar, Rewa Road, Maihar, Dist. Satna, MP – 485771

(1) This is a project pertaining to mining of Limestone Mine in MLA of 4.290 ha. The activity is mentioned at S.No. 1 (a) of the Schedule of EIA Notification 2006 as amended from time to time. The project is reported to be at a distance of more than 10 km from National Park /Biosphere Reserve etc. thus it is not attracted by the general conditions by virtue of its location and mining lease

area. There is no forest boundary less than 250 m distance from the ML area. The case was forwarded by SEIAA to SEAC for appraisal of EIA for environmental clearance for the project. It was submitted that this is a proposed mine having a valid lease period for 20 years up to 27.06.2023 with production capacity of 50260 TPA.

(2) The lease was granted for a period of 20 years and the lease area comes under own. land over an area of 4.290 ha. This is a case of existing mining lease. The Mining Plan with progressive mine closure plan has been approved by IBM Vide Letter No. - MP/Satna/Limestone/M.sch.-51/2014-15/307 dated 21.01.2015.

(3) SEAC in its 496th meeting dtd 03.04.2021 has recommended the case with 35 special conditions for issuance of EC.

(4) It was noted that as per DFO L.No. 13080 Satna, dtd. 18.12.2017, there are no any National Park, Sanctuary, Biosphere Reserve and ESZ is located within 10 Km. radius from the mining site. Hence, the General Conditions are not attracted.

(5) PP/Consultant made a presentation on all aspects of the project and all concerned issues were discussed in detail.

(6) It was noted that the water requirement is 27 KLD (15 KLD Dust Suppression + 5 KLD Green Belt + 2 KLD Drinking/Domestic purpose + 5 KLD for Drilling) which shall be met from existing mine pit & settling tank, hand pump water used for drinking pupose .

(7) The proposed plantation programme was examined and it was found that 5110 saplings of tree species covering an area of 1.972 ha shall be planted.

(8) It was also noted that the Public Hearing was carried out on 15.01.2021 at Mine Site Village - Bhatia, Tehsil - Maihar, Dist. Satna (MP) under the Chairmanship of Upper Collector District Satna.

After detailed discussions and perusal of recommendations of 496th SEAC meeting dtd 03.04.2021, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:

I. Before commencing any mining activity fencing shall be carried out all around the lease area. Proper watch and ward arrangements should be made with installation of signage at 4 corners of the lease area to avoid any untoward incident involving public and animals by the PP.

II. Before commencing mining operation PP shall ensure to obtain written consent of private landowners as per the provision of the govt. rules & regulations.

III. Lease agreement shall be carried out before execution of mining operation.

IV. Plantation programme as mentioned in EIA/EMP and presented during presentation in SEIAA & SEAC shall be followed in content and spirit.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

V. PP shall demarcate a barrier zone of 7.5 m as no mining zone in the periphery of mining lease area and develop a green belt. Three rows plantation shall be carried out in the greenbelt area in the current year with proper watering arrangement.

VI. PP shall ensure that existing 150 no. of trees shall not be uprooted without obtaining necessary permission from the Forest Department as per the norms of compensatory plantation.

VII. PP shall ensure to protect the local plants & wildlife species pertaining to conservation of biodiversity of the area and maintain it in consultation with officials of the Forest Departments.

VIII. PP will plant 3 years old 5110 saplings of suitable tree species i.e. Neem, Satparni, Mango, Bargad, Peepal, Jamun, Amaltas, Gulmohar, Amla, Drum Stik, Ber etc. will be planted along the backfilled area, peripehery of lease area, outside of lease area, dump area, haul roads and identified revenue land of the district in consultation with DM/ Gram Panchayat. PP shall also explore and identify the chunk of land in the area from revenue records to carry out the plantation programme as proposed.

IX. The mining operation shall be restricted to above ground water table and in no case it should intersect the ground water table. In case of working below the ground water table, approval of the Central Ground Water Board shall be obtained.

X. The overburden and waste will be stacked within the ML area and simultaneously backfilled in the mined out area where plantation will be raised on it.

XI. PP shall ensure that waste material shall not be stacked for a long time in the ML area.

XII. No overburden will be dumped outside the mine lease area.

XIII. Regular water quality monitoring shall be carried out by PP before discharging it into the nearby agriculture fields from authorized laboratory in consultation with Regional Officer, MPPCB. Regular air and noise quality monitoring shall also be carried out from authorized laboratories in consultation with Regional Officer, MPPCB at regular interval.

XIV. PP shall ensure the generation of employment opportunities nearby Village on priority basis.

XV. Payments of wages to the workers shall be done in consonance with the provisions in the labour laws.

XVI. Proper infrastructure with shelter, drinking water, toilet and first-aid facilities shall be provided for the laborers. A provision should be made to construct a pakka rest shelter along with toilet and drinking water facility.

XVII. PP should also carry out regular sprinkling in the mining lease area to arrest dust emission from mining activities affecting the nearby agriculture fields.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

XVIII. Mining shall be limited to the area as shown in surface plan and as per the approved mining scheme.

XIX. PP shall ensure the proper water supply arrangements for plantation especially in the summer season.

XX. PP shall ensure proper implementation of plantation, dust suppression, construction of approach road and maintenance of existing pakka road as part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.

XXI. PP must ensure for implementation of compliance of the commitment made in Public Hearing and in addition to this following activities with separate budget provision under CER as committed.

- Up-gradation of Police station and donation at Chandrashya oldage home, Satna
- To provide ceiling fans in govt. school at village Amaliya,
- Deepening of Tamas River in consultation with local administration.
- Distribution of drinking water facility at Piparhat village
- Installation of CCTV at Chitrakut Parikrima Route.
- To provide Fan and construction of shed at Nadan Gram Panchayat Bhawan.
- Donation for deepening of Vishnusagar Talab, in Maihar Municipal Council.
- Construction of toilets in govt. school Girgita.
- Organization of health camp, maintenance of villages home at village Beldara, procurement of wheat straw for Goshala, deployment of drinking water tankers etc.
- Corona Relief fund to CMO, Maihar, donation to Seva Sankalp NGO, Donation to Red Cross Society, Donation to CM Corona Relief Fund.

PP shall ensure contribution of funds on behalf of the village under Jal Jeevan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in schools or anganwadis of above villages. The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

XXII. PP should ensure to submit a half yearly compliance report, Plantation and CER activity report along with photographs of all activities in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued

to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Limestone Mine (opencast mechanized method) in an area of 4.290 ha. for production capacity of 50,260 Tonne per annum at Khasra No. P 965, 998, P 999, P 1002 at Village - Bhatia, Tehsil - Maihar, Dist. Satna, (MP) for the lease period to M/s. KJS Cement (I) Limited, Rajnagar, Rewa Road, Maihar, Dist. Satna, MP – 485771.

13. **Case No 7632/2020** Prior Environment Clearance for **Sand Quarry** (opencast manual method) in an area of 4.00 ha. for production capacity of 1,05,150 cum per annum at Khasra No. 01 at Village - Piprakurund Tehsil - Singrauli, Dist. Singrauli (MP) by M/s R.K.Transport and Construction Ltd, 65-A, Transport Nagar, Dist. Korba, CG - 486889

(1) This is a project pertaining to mining of Sand Quarry in an area of 4.00 ha. The activity is mentioned at S.No. 1 (a) of the Schedule of EIA Notification 2006 as amended from time to time. The project is reported to be at a distance of more than 10 km from National Park /Sanctuary etc. thus it is not attracted by the general conditions and falls under category 'B-1" by virtue of its location and mining lease area. The case was forwarded by SEIAA to SEAC for appraisal of EIA for environment clearance for the project. It was submitted that this is a proposed mine having valid lease period as per the provisions of M.P. State Sand Mining Policy – 2019 with production capacity of 1,05,150 cum per annum.

(2) It was noted that PP has submitted a copy of approved Mining Plan, DSR report, information in the lease's within 500 meters radius around the site and other requisite information in the prescribed format duly verified in the Collector Office (Ekal Praman-Patra) letter no. 3006 dated: 14/08/2020 has reported that there are 04 more mines operating or proposed within 500 meters around the said mine with a total area of 20.00 ha., including this mine.

(3) The Mining Lease has been granted in favour of M/s R.K.Transport and Construction Ltd, by the Madhya Pradesh Mineral Resource Department vide letter no. 3750/132/2020/12/1 Bhopal, dated -21/08/2020 as per the provisions of M.P. State Sand Mining Policy – 2019 over an area of 4.00 ha. The Mining Plan and Replenishment Study has been approved by Collector, Singrauli vide L.No. 2359/kha.yo./ret/anu./2020 Bhopal dated 06/07/2020.

(4) SEAC in its 496th SEAC meeting dtd. 03.04.2021 has recommended the case with 27 special conditions for issuance of EC.

(5) It was noted that as per Collector Office, (Ekal Praman-Patra) Singrauli vide letter no. 3006 dated: 14/08/2020, the National Park/Sanctuary is not located within 10 Km., radius from the mining site. Hence, the General Conditions are not attracted. There is no forest boundary less than 250 m distance from the ML area.

(6) It was noted that the water requirement is 78 KLD (72 KLD Dust Suppression +01 KLD Drinking & other use activity+ 05 KLD Green Belt which shall be met

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

from river for dust suppression & green belt and hand pump water will be used for drinking purpose.

(7) It was noted that the Public Hearing was held on 04.02.2021 at Mine site in Village - Piprakurund Tehsil - Singrauli, Dist. Singrauli under the Chairmanship of Upper Collector, Singrauli. The issues raised during public hearing shall be committed and compiled by PP.

After detailed discussions and perusal of recommendations of 496th SEAC meeting dtd. 03.04.2021, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:

I. PP shall not start mining activity before execution of lease agreement.

II. The production capacity shall be limited to the quantity as recommended by SEAC.

III. PP shall ensure that the annual replenishment of sand in the mining lease area is sufficient to sustain the mining operations at levels prescribed in the approved mining plan.

IV. No ramp will be allowed within the river basin to transport sand to the other bank. Transportation will be allowed on the bank side where the mineral is being excavated.

V. The entire lease area should be properly fenced and boundary stones marked at the site.

VI. No in-stream mining shall be allowed. The local authorities should ensure that the mining activity is confined only in the dry portion where sand is exposed.

VII. Leaving the submerged area as a non-mining zone as committed in PP.

VIII. The depth of the pit shall be as per Approved Mining Plan.

IX. Transportation of sand shall be strictly carried out from outside the village area.

X. The mining shall be carried out strictly in accordance with the Sustainable Sand Mining Management Guidelines, 2016 and Enforcement & Monitoring Guidelines for Sand Mining, 2020 issued by the MoEF&CC.

XI. PP shall ensure compliance of the direction and provision made for sand mining methodology up to 5 ha. lease area as per the Notification 30.08.2019 issued by MP Mineral Resource Department, GoMP.

XII. If the stream is dry, the excavation must not proceed beyond the lowest undisturbed elevation of the stream both which is a function of local hydraulics, hydrology and geomorphology.

XIII. PP shall ensure compliance of all the commitments made during public hearing and submit compliance reports in every six month of the year.

XIV. No Mining shall be carried out during Monsoon season.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

XV. Alternate transportation routes should be decided in consultation with the local Gram Panchayat.

XVI. Total 6000 saplings of suitable tree species i.e. Neem, Peepal, Bargad, Amaltas, Gulmohar, Satparni, Karanj, Awala, Mango, Jamun, Imly, Kachnar, Bael, Munga, Mahua etc. shall be planted by PP in first two years under plantation programme at river bank, and village area in consultation with Gram Panchayat/ District Administration. PP shall also explore and identify the chunk of land in the area from revenue records to carry out the plantation programme as proposed.

XVII. Overloading will be strictly prohibited.

XVIII. Water sprinkling will be done on the approach road on the regular basis.

XIX. PP must ensure the implementation of following activities under CER with all budgetary provision as committed in SEIAA :

- To provide 4 ceiling fans, 30 chairs, 2 Alamaris and construction of Boys and Girls toilets with proper water facility of Aganwadi Kendra at village Piprakurund.
- Suitable grass species will be shown in the 1.00 ha grazing land at nearby suitable government land of the village area
- To provide pipeline for villager to distribution of drinking water supply under Jal Jeevan Mission in consultation with local Janpad Panchayat at village Piprakurund

PP shall ensure contribution of funds on behalf of village under Jal Jeewan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in schools or aanganwadies of above villages. The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

XX. PP should ensure to submit half yearly compliance report, Plantation and CER activity report along with photographs of all activities in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Sand Quarry (opencast manual method) in an area of 4.00 ha. for production capacity of 1,05,150 cum per annum at Khasra No. 01 at Village - Piprakurund Tehsil - Singrauli, Dist. Singrauli (MP) for the lease period to M/s R.K.Transport and Construction Ltd, 65-A, Transport Nagar, Dist. Korba, CG - 486889.

XX. PP should ensure to submit a half yearly compliance report, Plantation and CER activity report along with photographs of all activities in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Sand Quarry in an area of 6.00 ha. for production capacity of 1,44,900 cum per annum at Khasra No. 54 at Village - Rehi, Tehsil - Chitrangi, Dist. Singrauli (MP) for the lease period to M/s R.K.Transport and Construction Ltd, 65-A, Transport Nagar, Dist. Korba, CG - 486889.

17. **Case No 7635/2020** Prior Environment Clearance for **Sand Quarry** (opencast manual method) in an area of 4.00 ha. for production capacity of 1,04,850 cum per annum at Khasra No. 01 at Village – Orgai-1, Tehsil - Singrauli, Dist. Singrauli (MP) by M/s R.K.Transport and Construction Ltd, 65-A, Transport Nagar, Dist. Korba, CG - 486889

(1) This is a project pertaining to mining of Sand Quarry in an area of 4.00 ha. The activity is mentioned at S.No. 1 (a) of the Schedule of EIA Notification 2006 as amended from time to time. The project is reported to be at a distance of more than 10 km from National Park /Sanctuary etc. thus it is not attracted by the general conditions and falls under category 'B-1" by virtue of its location and mining lease area. The case was forwarded by SEIAA to SEAC for appraisal of EIA for environment clearance for the project. It was submitted that this is a proposed mine having valid lease period as per the provisions of M.P. State Sand Mining Policy – 2019 with production capacity of 1,04,850 cum per annum.

(2) It was noted that PP has submitted a copy of approved Mining Plan, DSR report, information in the lease's within 500 meters radius around the site and other requisite information in the prescribed format duly verified in the Collector Office (Ekal Praman-Patra) letter no. 1999 dated: 30/05/2020 has reported that there are 01 more mines operating or proposed within 500 meters around the said mine with a total area of 8.00 ha., including this mine.

(3) The Mining Lease has been granted in favour of M/s R.K.Transport and Construction Ltd, by the Madhya Pradesh Mineral Resource Department vide letter no. 2207/132/2020/12/1 Bhopal, dated -04/06/2020 as per the provisions of M.P. State Sand Mining Policy – 2019 over an area of 4.00 ha. The Mining Plan and Replenishment Study has been approved by Collector, Singrauli vide L.No. 1926/kha.yo./ret/anu./2020 Bhopal dated 27/05/2020.

(4) SEAC in its 496th SEAC meeting dtd. 03.04.2021 has recommended the case with 27 special conditions for issuance of EC.

(5) It was noted that as per Collector Office, (Ekal Praman-Patra) Singrauli vide letter no. 1999 dated: 30/05/2020, the National Park/Sanctuary is not located within 10 Km., radius from the mining site. Hence, the General Conditions are

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

not attracted. There is no forest boundary in less than 250 m distance from the ML area.

(6) It was noted that the water requirement is 78 KLD (72 KLD Dust Suppression +01 KLD Drinking & other use activity+ 05 KLD Green Belt which shall be met from river for dust suppression & green belt and hand pump water will be used for drinking purpose.

(7) It was noted that the Public Hearing was held on 03.02.2021 at Mine site in Village - Orgai-1, Tehsil - Singrauli, Dist. Singrauli under the Chairmanship of Additional Collector, Singrauli. The issues raised during public hearing shall be committed and complied by PP.

After detailed discussions and perusal of recommendations of 496th SEAC meeting dtd. 03.04.2021, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:

I. PP shall not start mining activity before execution of lease agreement.

II. The production capacity shall be limited to the quantity as recommended by SEAC.

III. PP shall ensure that the annual replenishment of sand in the mining lease area is sufficient to sustain the mining operations at levels prescribed in the approved mining plan.

IV. No ramp will be allowed within the river basin to transport sand to the other bank. Transportation will be allowed on the bank side where the mineral is being excavated.

V. The entire lease area should be properly fenced and boundary stones marked at the site.

VI. No in-stream mining shall be allowed. The local authorities should ensure that the mining activity is confined only in the dry portion where sand is exposed.

VII. Leaving the submerged area as a non-mining zone as committed in PP.

VIII. The depth of the pit shall be as per Approved Mining Plan.

IX. Transportation of sand shall be strictly carried out from outside the village area.

X. The mining shall be carried out strictly in accordance with the Sustainable Sand Mining Management Guidelines, 2016 and Enforcement & Monitoring Guidelines for Sand Mining, 2020 issued by the MoEF&CC.

XI. PP shall ensure compliance of the direction and provision made for sand mining methodology up to 5 ha. lease area as per the Notification 30.08.2019 issued by MP Mineral Resource Department, GoMP.

XII. If the stream is dry, the excavation must not proceed beyond the lowest undisturbed elevation of the stream both which is a function of local hydraulics, hydrology and geomorphology.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

XIII. PP shall ensure compliance of all the commitments made during public hearing and submit compliance report in every six month of the year.

XIV. No Mining shall be carried out during Monsoon season.

XV. Alternate transportation routes should be decided in consultation with the local Gram Panchayat.

XVI. Total 6000 saplings of suitable tree species i.e. Neem, Peepal, Bargad, Amaltas, Gulmohar, Satparni, Karanj, Awala, Mango, Jamun, Imly, Kachnar, Bael, Munga, Mahua etc. shall be planted by PP in first two years under plantation programme at river bank, and village area in consultation with Gram Panchayat/ District Administration. PP shall also explore and identify the chunk of land in the area from revenue records to carry out the plantation programme as proposed.

XVII. Overloading will be strictly prohibited.

XVIII. Water sprinkling will be done on the approach road on the regular basis.

XIX. PP must ensure the implementation of following activities under CER with all budgetary provision as committed in SEIAA :

- To provide 5 ceiling fans, 20 chairs, 20 Desk, One computer and construction of two toilets with proper water facility, in govt. school at village Orgai.
- Suitable grass species will be shown in the 1.00 ha grazing land at nearby govt. land of the village area Orgai.
- Construction of additional one room (10feet X 15feet) with basic facility at nearby anganwadi center at village Orgai.

PP shall ensure contribution of funds on behalf of the village under Jal Jeevan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in schools or anganwadis of above villages. The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

XX. PP should ensure to submit a half yearly compliance report, Plantation and CER activity report along with photographs of all activities in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Sand Quarry (opencast manual method) in an area of 4.00 ha. for production capacity of 1,04,850 cum per annum at Khasra No. 01 at Village – Orgai-1, Tehsil - Singrauli, Dist.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

Singrauli (MP) for the lease period to M/s R.K.Transport and Construction Ltd, 65-A, Transport Nagar, Dist. Korba, CG - 486889.

18. **Case No 7634/2020** Prior Environment Clearance for **Sand Quarry** (opencast manual method) in an area of 4.00 ha. for production capacity of 1,05,150 cum per annum at Khasra No. 412 at Village – Harrahawa-3, Tehsil - Singrauli, Dist. Singrauli (MP) by M/s R.K.Transport and Construction Ltd, 65-A, Transport Nagar, Dist. Korba, CG - 486889

(1) This is a project pertaining to mining of Sand Quarry in an area of 4.00 ha. The activity is mentioned at S.No. 1 (a) of the Schedule of EIA Notification 2006 as amended from time to time. of land in the area from revenue records to carry out the plantation programme as proposed.

XVII. Overloading will be strictly prohibited.

XVIII. Water sprinkling will be done on the approach road on the regular basis.

XIX. PP must ensure the implementation of following activities under CER with all budgetary provision as committed in SEIAA :

- To provide 5 ceiling fans, 20 chairs, 20 Desks, 2 Alamaris and construction of boys and girls toilets with proper water facility, borewell etc in govt. primary school at village Harrahawa.
- Suitable grass species will be shown in the 1.00 ha grazing land at nearby govt. land of the village area Harrahawa.
- To provide a waiting shed at nearby bus stands for villagers.

PP shall ensure contribution of funds on behalf of the village under Jal Jeevan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in schools or anganwadis of above villages. The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

XX. PP should ensure to submit a half yearly compliance report, Plantation and CER activity report along with photographs of all activities in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Sand Quarry (opencast manual method) in an area of 4.00 ha. for production capacity of 1,05,150 cum per annum at Khasra No. 412 at Village – Harrahawa-3, Tehsil - Singrauli, Dist. Singrauli (MP) for the lease period to M/s R.K.Transport and Construction Ltd, 65-A, Transport Nagar, Dist. Korba, CG - 486889.

19. **Case No 7533/2020** Prior Environment Clearance for **Stone Quarry (opencast semi mechanized method)** in an area of 6.433 ha. for production capacity of 75441 cum per annum at Khasra No. 314, 315/1/1, 315/1/2, 315/2, 315/3, 316/1, 316/2, 141 at Village - Nahiya, Tehsil - Betul, Dist. Betul (MP) by Shri Mahendra Kumar Malviya S/o Late SHri Kaluram Malviya, R.K.Puram, Badora, Dist. Betul, MP – 460001

(1) This is a project pertaining to mining of **Stone Quarry** in MLA of 6.433 ha. The activity is mentioned at S.No. 1 (a) of the Schedule of EIA Notification 2006 as amended from time to time. The project is reported to be at a distance of more than 10 km from National Park /Sanctuary etc. thus it is not attracted by the general conditions by virtue of its location and mining lease area. There is no forest boundary less than 250 m distance from the ML area. The case was

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

forwarded by SEIAA to SEAC for appraisal of EIA for environmental clearance for the project. It was submitted that this is a fresh grant issued in the year of 2020 for 10 years.

(2) The mining lease was granted to Shri Mahendra Kumar Malviya S/o Late Shri Kaluram Malviya in the year of 2020 for 10 years, as per Collector (Mining) Office, Betul vide letter dated 05.05.2020. This is a case of fresh grant. The Mining Plan with progressive mine closure plan has been approved by DGM, M.P. Vide Letter No. – 8286-87/M. plan Cell-3/Na. Kra. 10/2020, dated 24.08.2020.

(3) It was noted that PP has submitted a copy of approved Mining Plan, DSR report, information in the lease's within 500 meters radius around the site and other requisite information in the prescribed format duly verified in the Collector Office (Mining Division) letter no. 1084 dated: 29/07/2020 has reported that there are 02 more mines operating or proposed within 500 meters around the said mine with total area of 8.68 ha., including this mine

(4) SEAC in its 496th SEAC Meeting dated 25/02/2021 has recommended the case with 36 special conditions for issuance of EC.

(5) It was noted that as per Collector (Mining) Division, Betul vide L.No. 1084 dtd. 29.07.2020, the National Park /Sanctuary is not located within 10 Km. radius from the mining site. Hence, the General Conditions are not attracted. There is no forest boundary less than 250 m distance from the ML area.

(6) PP/Consultant made a presentation on all aspects of the project and all concerned issues were discussed in detail.

(7) It was noted that the water requirement is 6.0 KLD (0.5 KLD for Domestic use + 2.5 KLD for Dust suppression + 3.0 KLD for Green Belt/plantation). The water requirement will be met from nearby available water sources and accumulated rain water in mined out pits.

(8) The proposed plantation programme was examined and it was found that total 9680 saplings shall be planted under the plantation program.

(9) It was also noted that the Public Hearing was carried out on 18.03.2021 at Mine Site Village - Nahiya, Tehsil - Betul, Dist. Betul (MP) under the Chairmanship of Upper Collector, Betul.

After detailed discussions and perusal of recommendations of 496th SEAC Meeting dated 03/04/2021, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:

I. Before commencing any mining activity fencing shall be carried out all around the lease area. Proper watch and ward arrangements should be made with installation of signage at 4 corners of the lease area to avoid any untoward incident involving public and animals by the PP.

II. Lease agreement shall be carried out before execution of mining operation.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

III. Plantation programme as mentioned in EIA/EMP and presented during presentation in SEIAA & SEAC shall be followed in content and spirit.

IV. PP shall demarcate a barrier zone of 7.5 m as no mining zone in the periphery of mining lease area and develop a green belt. Three rows plantation shall be carried out in the greenbelt area in the current year with proper watering arrangement.

V. PP shall ensure that existing trees are not to be uprooted within the ML area.

VI. PP will plant 3 years old 9680 saplings of suitable tree species i.e. Neem, Peepal, Bargad, Gulmohar, Guava, Mango, Sissoo, Jamun etc. will be planted in the first three years along the no mining zone, lease Boundary in mine premises and transportation route and khasra no. 246 at identified revenue land of the district in consultation with DM/ Gram Panchayat. PP shall also explore and identify the chunk of land in the area from revenue records to carry out the plantation programme as proposed.

VII. The mining operation shall be restricted to above ground water table and in no case it should intersect the ground water table. In case of working below the ground water table, approval of the Central Ground Water Board shall be obtained.

VIII. The overburden and waste will be stacked within the ML area and simultaneously backfilled in the mined out area where plantation will be raised on it.

IX. PP shall ensure that waste material shall not be stacked long time in ML area.

X. No overburden will be dumped outside the mine lease area.

XI. Regular water quality monitoring shall be carried out by PP before discharging it into the nearby agriculture fields from authorized laboratories in consultation with Regional Officer, MPPCB. Regular air and noise quality monitoring shall also be carried out from authorized laboratories in consultation with Regional Officer, MPPCB at regular intervals.

XII. PP shall ensure the generation of employment opportunities nearby Village on priority basis.

XIII. Payments of wages to the workers shall be done in consonance with the provisions in the labour laws.

XIV. Proper infrastructure with shelter, drinking water, toilet and first-aid facilities shall be provided for the laborers. A provision should be made to construct a pakka rest shelter along with toilet and drinking water facility.

XV. PP should also carry out regular sprinkling in the mining lease area to arrest dust emission from mining activities affecting the nearby agriculture fields.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

XVI. Mining shall be limited to the area as shown in surface plan and as per the approved mining scheme.

XVII. PP shall ensure the proper water supply arrangements for plantations especially in the summer season.

XVIII. PP shall ensure proper implementation of plantation, dust suppression, construction of approach road and maintenance of existing pakka road as part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.

XIX. PP must ensure the implementation of compliance of the commitment made in Public Hearing in addition to these following activities with separate budget provision under CER as committed.

- Construction of road (500 m) leading upto graveyard along with installation of drinking water facility at graveyard at Nahiya village.
- Installation of 2 Solar Panels at Mine Premises and 3 along the Nahiya village internal road.
- Distribution of masks (1000 nos) and sanitizers (500 nos) to villagers of Nahiya for 1st year.
- Installation of a pipeline at Primary school of Nahiya for water supply under Jal Jeevan Mission in consultation with Gram panchayat Nahiya.

PP shall ensure contribution of funds on behalf of the village under Jal Jeevan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in schools or anganwadis of above villages. The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

XX. PP should ensure to submit a half yearly compliance report, Plantation and CER activity report along with photographs of all activities in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Stone Quarry (opencast semi mechanized method) in an area of 6.433 ha. for production capacity of 75441 cum per annum at Khasra No. 314, 315/1/1, 315/1/2, 315/2, 315/3, 316/1, 316/2, 141 at Village - Nahiya, Tehsil - Betul, Dist. Betul (MP), for the lease period to Shri Mahendra Kumar Malviya S/o Late SHri Kaluram Malviya, R.K.Puram, Badora, Dist. Betul, MP – 460001.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

20. **Case No 8449/2021** Prior Environment Clearance for **Soil Quarry (opencast manual/ semi mechanized method)** in an area of 1.510 ha. for production capacity of 1000 cum per annum at Khasra No. 128, 131, 132 at Village - Haripur, Tehsil - Dabra, Dist. Gwalior (MP) by Shri Man Singh Rawat S/o Shri Atarsingh Rawat, Chandpur, Tehsil - Dabra, Dist. Gwalior, MP

This case was recommended in the 496th SEAC meeting dated 03.04.2021 and it was recorded that.....

PP has submitted the response of above quarries same date vide letter dated 03.04.2021. The EMP and other submissions made by the PP were found to be satisfactory and acceptable, hence committee decided to recommend the case for grant of prior EC subject to the following special conditions in addition to the standard conditions at annexure 'A':

PP/Consultant made a presentation on all aspects of the project and all concerned issues were discussed in detail. After detailed discussions and perusal of recommendations of 496th SEAC meeting dated 03.04.2021, presentation made by the PP in SEIAA, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:-

I. Before commencing any mining activity fencing shall be carried out all around the lease area. Proper watch and ward arrangements should be made with installation of signage at 4 corners of the lease area to avoid any untoward incident involving public and animals by the PP.

II. PP shall demarcate a barrier zone of 7.5 m as no mining zone in the periphery of mining lease area and develop a green belt. Three row plantations shall be carried out in the greenbelt area in the current year with proper watering arrangement.

III. PP shall not start mining activity before execution of lease agreement.

IV. The depth of the pit shall be as per the Approved Mining Plan.

V. The entire area shall be fenced and three rows of plantation should be done on the periphery.

VI. The mining operation shall be restricted to above ground water table and in no case it should intersect the ground water table. In case of working below the ground water table, approval of the Central Ground Water Board shall be obtained.

VII. PP shall ensure to construct garland drain with settling tank all around the lease area and regular cleaning & maintenance shall also be carried out by PP.

VIII. PP shall ensure the proper water supply arrangements for dust suppression, regular sprinkling, plantation and drinking purposes especially in summer season.

IX. Total **2200** saplings of suitable tree species i.e. Silver Oak, Eucalyptus, Mallingtonia, Putranjiva Neem, Karanj, Mango, Pipal, Bargad etc. shall be planted by PP in first three years it self under plantation programme in no mining area, mine lease boundary, gram panchayat and Govt. Land in

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

consultation with Gram Panchayat/ District Administration. PP shall also explore and identify the chunk of land in the area from revenue records to carry out the plantation programme as proposed.

X. PP shall ensure to construct the pakka approach road and maintain it. Plantation will be carried out on both side of the approach road.

XI. Payments of wages to the workers shall be done in consonance with the provisions in the labour laws.

XII. PP shall ensure the proper water supply arrangements for dust suppression, regular sprinkling, plantation and drinking purposes especially in summer season.

XIII. PP shall ensure proper implementation of plantation, dust suppression, construction of approach road and maintenance of existing pakka road as part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.

XIV. PP must ensure implementation of the following activities under CER

- Installation of 2000 L overhead tank (01) with proper water connectivity at village Haripur.

PP shall ensure contribution of funds on behalf of the village under Jal Jeevan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in schools or aganwadies of above villages The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

XV. PP should ensure to submit a half yearly compliance report and CSR activity report with photographs of plantation in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Soil Quarry (opencast manual/ semi mechanized method) in an area of 1.510 ha. for production capacity of 1000 cum per annum at Khasra No. 128, 131, 132 at Village - Haripur, Tehsil - Dabra, Dist. Gwalior (MP) for the lease period to Shri Man Singh Rawat S/o Shri Atarsingh Rawat, Chandpur, Tehsil - Dabra, Dist. Gwalior, MP.

21. **Case No 8450/2021** Prior Environment Clearance for **Stone Quarry (opencast manual/ semi mechanized method)** in an area of 1.871 ha. for production capacity of 20000 cum per annum at Khasra No. 289 at Village - Smariya, Tehsil - Ghatigaon, Dist. Gwalior, (MP) by Smt. Seema Sharma, Behind Green Wood School, Bhagat Singh Nagar, Dist. Gwalior, MP - 474006

This case was recommended in the 496th SEAC meeting dated 03.04.2021 and it was recorded that.....

The case was presented by the PP and their consultant wherein it was observed by the committee that it's a case of Stone mining and lease is located on hillock. The EMP and other submissions made by the PP were found to be satisfactory and acceptable, hence committee decided to recommend the case for grant of prior EC subject to the following special conditions in addition to the standard conditions at annexure 'A':

PP/Consultant made a presentation on all aspects of the project and all concerned issues were discussed in detail. After detailed discussions and perusal of recommendations of 496th SEAC meeting dated 03.04.2021, presentation made by the PP in SEIAA, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:-

I. Before commencing any mining activity fencing shall be carried out all around the lease area. Proper watch and ward arrangements should be made with installation of signage at 4 corners of the lease area to avoid any untoward incident involving public and animals by the PP.

II. PP shall demarcate a barrier zone of 7.5 m as no mining zone in the periphery of mining lease area and develop a green belt. Three row plantations shall be carried out in the greenbelt area in the current year with proper watering arrangement.

III. PP shall not start mining activity before execution of lease agreement.

IV. The depth of the pit shall be as per the Approved Mining Plan.

V. The entire area shall be fenced and three rows of plantation should be done on the periphery.

VI. The mining operation shall be restricted to above ground water table and in no case it should intersect the ground water table. In case of working below the ground water table, approval of the Central Ground Water Board shall be obtained.

VII. PP shall ensure to construct garland drain with settling tank all around the lease area and regular cleaning & maintenance shall also be carried out by PP.

VIII. PP shall ensure the proper water supply arrangements for dust suppression, regular sprinkling, plantation and drinking purposes especially in summer season.

IX. Total **2850** saplings of suitable tree species i.e. Neem, Pipal, Dalbargia Sissoo, Bargad, Amaltas, Khirni, Mango, Guava, Imli etc. shall be planted by PP in first three years it self under plantation programme in no mining area, mine lease boundary, gram panchayat and khasra no. 288 at village Simariya in consultation with Gram Panchayat/ District Administration. PP shall also explore and identify the chunk of land in the area from revenue records to carry out the plantation programme as proposed.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

X. PP shall ensure to construct the pakka approach road and maintain it. Plantation will be carried out on both sides of the approach road.

XI. Payments of wages to the workers shall be done in consonance with the provisions in the labour laws.

XII. PP shall ensure the proper water supply arrangements for dust suppression, regular sprinkling, plantation and drinking purposes especially in summer season.

XIII. PP shall ensure proper implementation of plantation, dust suppression, construction of approach road and maintenance of existing pakka road as part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.

XIV. PP must ensure implementation of the following activities under CER

- Construction of boundary wall (35m X2m) of govt. primary school, at village Simariya.

PP shall ensure contribution of funds on behalf of the village under Jal Jeevan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in schools or aganwadies of above villages The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

XV. PP should ensure to submit half yearly compliance report and CSR activity report with photographs of plantation in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Stone Quarry (opencast manual/ semi mechanized method) in an area of 1.871 ha. for production capacity of 20000 cum per annum at Khasra No. 289 at Village - Smariya, Tehsil - Ghatigaon, Dist. Gwalior, (MP) for the lease period to Smt. Seema Sharma, Behind Green Wood School, Bhagat Singh Nagar, Dist. Gwalior, MP - 474006.

22. **Case No 8453/2021** Prior Environment Clearance for **Stone Quarry (opencast semi mechanized method)** in an area of 1.251 ha. for production capacity of 19436 cum per annum at Khasra No. 972/2 at Village - Dhanwaha, Tehsil - Tikamgarh, Dist. Tikamgarh (MP) by Shri Nepal Singh S/o Shri Hukum SIngh Yadav, Village - Neemkheda, Tehsil & Dist. Tikamgarh, MP - 472001

This case was recommended in the 496th SEAC meeting dated 03.04.2021 and it was recorded that.....

PP has submitted the response of above quarries same date vide letter dated 03.04.2021. The EMP and other submissions made by the PP were found to be satisfactory and acceptable, hence

PP/Consultant made a presentation on all aspects of the project and all concerned issues were discussed in detail. After detailed discussions and perusal of recommendations of 496th SEAC meeting dated 03.04.2021, presentation made by the PP in SEIAA, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:-

I. Before commencing any mining activity fencing shall be carried out all around the lease area. Proper watch and ward arrangements should be made with installation of signage at 4 corners of the lease area to avoid any untoward incident involving public and animals by the PP.

II. PP shall demarcate a barrier zone of 7.5 m as no mining zone in the periphery of mining lease area and develop a green belt. Three row plantations shall be carried out in the greenbelt area in the current year with proper watering arrangement.

III. PP shall not start mining activity before execution of lease agreement.

IV. The depth of the pit shall be as per the Approved Mining Plan.

V. The entire area shall be fenced and three rows of plantation should be done on the periphery and dense plantation to be carried out towards the habitation side.

VI. The mining operation shall be restricted to above ground water table and in no case it should intersect the ground water table. In case of working below the ground water table, approval of the Central Ground Water Board shall be obtained.

VII. PP shall ensure no trees will be uprooted and tree occupied areas shall be dealt as non- mining area.

VIII. PP shall ensure to construct garland drain with settling tank all around the lease area and regular cleaning & maintenance shall also be carried out by PP.

IX. PP shall ensure the proper water supply arrangements for dust suppression, regular sprinkling, plantation and drinking purposes especially in summer season.

X. Total **6000** saplings of suitable tree species i.e. Pipal, Bargad, Neem, Sissoo, Aam, Amla, Mahua etc. shall be planted by PP in the first three years itself under plantation programme in no mining area, mine lease boundary and khasra no. 253 at Village- Nanded in consultation with Gram Panchayat/ District Administration. PP shall also explore and identify the chunk of land in the area from revenue records to carry out the plantation programme as proposed.

XI. PP shall ensure to construct pakka approach road and maintained it. Plantation will be carried out on both side of the approach road.

XII. Payments of wages to the workers shall be done in consonance with the provisions in the labour laws.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

XIII. PP shall ensure the proper water supply arrangements for dust suppression, regular sprinkling, plantation and drinking purposes especially in summer season.

XIV. PP shall ensure proper implementation of plantation, dust suppression, construction of approach road and maintenance of existing pakka road as part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.

XV. PP must ensure implementation of the following activities under CER

- Installation of two hand pump at village Nanded.

PP shall ensure contribution of funds on behalf of the village under Jal Jeewan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in schools or aganwadies of above villages The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

XVI. PP should ensure to submit a half yearly compliance report and CSR activity report with photographs of plantation in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Stone Quarry (opencast semi mechanized method) in an area of 4.0 ha. for production capacity of 10830 cum per annum at Khasra No. 244/2/16 at Village - Nanded, Tehsil - Mhow, Dist. Indore (MP) for the lease period to Shri Mahesh Thakur S/o Shri Hari Singh Thakur, Village - Nanded, Tehsil - Mhow, Dist. Indore, MP - 453441.

27. **Case No 8440/2021** Prior Environment Clearance for Stone Quarry **(opencast semi mechanized method)** in an area of 2.0 ha. for production capacity of 50000 cum per annum at Khasra No. 401/1 at Village - Belaighat, Tehsil - Sagar, Dist. Sagar (MP) by M/s Tomar Builders & Contractor Pvt. Ltd, Prop., Shri Pratap Singh Tomar, A-1/8, Vinay Nagar, Sector No. 4, Dist. Gwalior, MP - 470226

This case was recommended in the 496th SEAC meeting dated 03.04.2021 and it was recorded that.....

The case was presented by the PP and their consultant wherein it was observed by the committee that it's a case of Stone mining whixh is obtained under temporary permit (TP). The EMP and other submissions made by the PP were found to be satisfactory and acceptable, hence committee decided to recommend the case for grant of prior EC subject to the following special conditions in addition to the standard conditions at annexure 'A':

PP/Consultant made a presentation on all aspects of the project and all concerned issues were discussed in detail. After detailed discussions and perusal of recommendations of 496th SEAC meeting dated 03.04.2021,

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

presentation made by the PP in SEIAA, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:-

I. Before commencing any mining activity fencing shall be carried out all around the lease area. Proper watch and ward arrangements should be made with installation of signage at 4 corners of the lease area to avoid any untoward incident involving public and animals by the PP.

II. PP shall demarcate a barrier zone of 7.5 m as no mining zone in the periphery of mining lease area and develop a green belt. Three row plantations shall be carried out in the greenbelt area in the current year with proper watering arrangement.

III. PP shall not start mining activity before execution of lease agreement.

IV. The depth of the pit shall be as per the Approved Mining Plan.

V. The entire area shall be fenced and three rows of plantation should be done on the periphery and dense plantation to be carried out towards the nala side.

VI. The mining operation shall be restricted to above ground water table and in no case it should intersect the ground water table. In case of working below the ground water table, approval of the Central Ground Water Board shall be obtained.

VII. PP shall ensure to construct garland drain with settling tank all around the lease area and regular cleaning & maintenance shall also be carried out by PP.

VIII. PP shall ensure the proper water supply arrangements for dust suppression, regular sprinkling, plantation and drinking purposes especially in summer season.

IX. Total **3000** saplings of suitable tree species i.e. Pipal, Bargad, Neem, Satparni, Karanj, Khirni, Gulmohar, Aam, Amla, Kalasiris, Imli etc. shall be planted by PP in first year it self under plantation programme in no mining area, mine lease boundary and khasra no. 401 at Village- Belaighat in consultation with Gram Panchayat/ District Administration. PP shall also explore and identify the chunk of land in the area from revenue records to carry out the plantation programme as proposed.

X. PP shall ensure to construct the pakka approach road and maintain it. Plantation will be carried out on both sides of the approach road.

XI. Payments of wages to the workers shall be done in consonance with the provisions in the labour laws.

XII. PP shall ensure the proper water supply arrangements for dust suppression, regular sprinkling, plantation and drinking purposes especially in summer season.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

XIII. PP shall ensure proper implementation of plantation, dust suppression, construction of approach road and maintenance of existing pakka road as part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.

XIV. PP must ensure implementation of the following activities under CER

- To provide 10 sets of **computer systems** for establishment of computer lab In Govt. High School at **Village-Belaighat**

PP shall ensure contribution of funds on behalf of the village under Jal Jeevan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in schools or aganwadies of above villages The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

XV. PP should ensure to submit a half yearly compliance report and CSR activity report with photographs of plantation in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Stone Quarry (opencast semi mechanized method) in an area of 2.0 ha. for production capacity of 50000 cum per annum at Khasra No. 401/1 at Village - Belaighat, Tehsil - Sagar, Dist. Sagar (MP) for the lease period to M/s Tomar Builders & Contractor Pvt. Ltd, Prop., Shri Pratap Singh Tomar, A-1/8, Vinay Nagar, Sector No. 4, Dist. Gwalior, MP - 470226.

28. **Case No 8460/2021** Prior Environment Clearance for **Soil / Murrum Quarry (opencast manual/ semi mechanized method)** in an area of 2.0 ha. for production capacity of 46825 cum per annum at Khasra No. 365/3, 365/4 at Village - Mansakhurd, Tehsil - Malhargarh, Dist. Mandsaur (MP) by M/s Rooplal Daulatram, Shri Kamlesh Kumawat, Partner, A-67, Janta Colony, Dist. Mandsaur, MP - 458339

This case was recommended in the 496th SEAC meeting dated 03.04.2021 and it was recorded that.....

PP has submitted the response of above quarries same date vide letter dated 03.04.2021. S/o Shri Shetanmal Panwar, R/o, Village - Ringnod, Tehsil - Sardarpur, Dist. Dhar, MP.

33. **Case No 7343/2020** Prior Environment Clearance for **Sand Quarry** in an area of 7.891 ha. for production capacity of 40,000 cum per annum at Khasra No. 34 at Village- Kubari, Tehsil- Palera, District- Tikamgarh (MP) by Shri Virendra Singh Jadon, E-7/M-708, Arera Colony, Dist. Bhopal, MP - 462016

(1) This is a project pertaining to mining of Sand Quarry in an area of 7.891 ha. The activity is mentioned at S.No. 1 (a) of the Schedule of EIA Notification 2006 as amended from time to time. The project is reported to be at a distance of more than 10 km from National Park /Sanctuary etc. thus it is not attracted by the general conditions and falls under category 'B-1" by virtue of its location and mining lease area. The case was forwarded by SEIAA to SEAC for appraisal of EIA for environment clearance for the project. It was submitted that this is a proposed mine having valid lease period as per the provisions of M.P. State Sand Mining Policy – 2019 with production capacity of 40,000 cum per annum.

(2) It was noted that PP has submitted a copy of approved Mining Plan, DSR report, information in the lease's within 500 meters radius around the site and other requisite information in the prescribed format duly verified in the Collector Office (Ekal Praman-Patra) letter no. 81 dated: 26/05/2020 has reported that there is no other mines operating or proposed within 500 meters around the said mine.

(3) The Mining Lease has been granted in favour of Shri Virendra Singh Jadon, by the Madhya Pradesh Mineral Resource Department vide letter no. 2396/132/2020/12/1 Bhopal, dated -10/06/2020 as per the provisions of M.P. State Sand Mining Policy – 2019 over an area of 4.00 ha. The Mining Plan and Replenishment Study has been approved by Collector, Tikamgarh vide L.No. 11/khanij/3-6/2020/3477 Bhopal dated 06/03/2020.

(4) SEAC in its 497th SEAC meeting dtd. 05.04.2021 has recommended the case with 26 special conditions for issuance of EC.

(5) It was noted that as per Collector Office, (Ekal Praman-Patra) Tikamgarh vide letter no. 81 dated: 26/05/2020, the National Park/Sanctuary is not located within 10 Km., radius from the mining site. Hence, the General Conditions are not attracted. There is no forest boundary less than 250 m distance from the ML area.

(6) It was noted that the water requirement is 42.95 KLD (6.0 KLD Dust Suppression +0.70 KLD Drinking/Domestic + 36.26 KLD Green Belt/Plantation which shall be met from hiring water tankers from nearby villages.

(7) It was noted that the Public Hearing was held on 11.02.2021 at Gram Panchayat Bhavan, Karula, Tehsil Palera District Tikamgarh under the Chairmanship of Upper Collector, Tikamgarh. The issues raised during public hearing shall be committed and complied by PP.

After detailed discussions and perusal of recommendations of 496th SEAC meeting dtd. 03.04.2021, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:

I. PP shall not start mining activity before execution of lease agreement.

II. The production capacity shall be limited to the quantity as recommended by SEAC.

III. The mining shall be carried out strictly as per the approved mining plan and ensure that the annual replenishment of sand in the mining lease area is sufficient to sustain the mining operations at levels prescribed in the mining plan.

IV. No ramp will be allowed within the river basin to transport sand to the other bank. Transportation will be allowed on the bank side where the mineral is being excavated.

V. The entire lease area should be properly fenced and boundary stones marked at the site.

VI. No in-stream mining shall be allowed. The local authorities should ensure that the mining activity is confined only in the dry portion where sand is exposed.

VII. Leaving the submerged area as non-mining zone as committed in PP.

VIII. The depth of the pit shall be as per Approved Mining Plan.

IX. Transportation of sand shall be strictly carried out from outside the village area.

X. The mining shall be carried out strictly in accordance with the Sustainable Sand Mining Management Guidelines, 2016 and Enforcement & Monitoring Guidelines for Sand Mining, 2020 issued by the MoEF&CC.

XI. PP shall ensure compliance of the direction and provision made for sand mining methodology up to 5 ha. lease area as per the Notification 30.08.2019 issued by MP Mineral Resource Department, GoMP.

XII. If the stream is dry, the excavation must not proceed beyond the lowest undisturbed elevation of the stream both which is a function of local hydraulics, hydrology and geomorphology.

XIII. PP shall ensure compliance of all the commitments made during public hearing and submit compliance reports in every six month of the year.

XIV. No Mining shall be carried out during Monsoon season.

XV. Alternate transportation route should be decided in consultation with the local Gram Panchayat.

XVI. Total 12100 saplings of suitable tree species i.e. Neem, Peepal, Bargad, Gular, Mahua, Subabool, Sissoo Awala, Mango, Jamun, etc. shall be planted by PP in first two years under plantation programme at river bank, approach road and Khasa No. 49, 61 & 77 (govt. land) in consultation with the Gram Panchayat/ District Administration. PP shall also explore and identify the chunk

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

of land in the area from revenue records to carry out the plantation programme as proposed.

XVII. Overloading will be strictly prohibited.

XVIII. Water sprinkling will be done on the approach road on the regular basis.

XIX. PP must ensure the implementation of following activities under CER with all budgetary provision as committed in SEIAA :

- Upgradation of govt. school building at village Kubri.
- Construction of separate toilets (Boys & Girls) with proper water facility and provide drinking water facility of govt. school at village kubri.
- Upgradation of Anganwadi Centre Kubri and provision of basic services such as drinking water, toilet, etc.
- Installation of Hand Pump at Kubri Village.
- Development of grassland using prosopis seeds on government waste land at Kubri GramPanchayat
- To organize annual health camp at Kubri Panchayat
- Construction of CC Roads (600X3mtr) at Kubri Panchayat.

PP shall ensure contribution of funds on behalf of the village under Jal Jeevan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in schools or anganwadis of above villages. The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

XX. PP should ensure to submit a half yearly compliance report, Plantation and CER activity report along with photographs of all activities in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Sand Quarry in an area of 7.891 ha. for production capacity of 40,000 cum per annum at Khasra No. 34 at Village- Kubari, Tehsil- Palera, District- Tikamgarh (MP) for the lease period to Shri Virendra Singh Jadon, E-7/M-708, Arera Colony, Dist. Bhopal, MP - 462016.

34. **Case No 7344/2020** Prior Environment Clearance for **Sand Quarry** (Opencast Manual Method) in an area of 16.00 ha. for production capacity of 80,000 cum per annum at Khasra No. 1, 36 at Village- Tauriya Ungad, Tehsil- Palera, District- Tikamgarh (MP) by Shri Virendra Singh Jadon, E-7/M-708, Arera Colony, Dist. Bhopal, MP - 462016

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

(1) This is a project pertaining to mining of Sand Quarry in an area of 16.00 ha. The activity is mentioned at S.No. 1 (a) of the Schedule of EIA Notification 2006 as amended from time to time. The project is reported to be at a distance of more than 10 km from National Park /Sanctuary etc. thus it is not attracted by the general conditions and falls under category 'B-1" by virtue of its location and mining lease area. The case was forwarded by SEIAA to SEAC for appraisal of EIA for environment clearance for the project. It was submitted that this is a proposed mine having valid lease period as per the provisions of M.P. State Sand Mining Policy – 2019 with production capacity of 80,000 cum per annum.

(2) It was noted that PP has submitted a copy of approved Mining Plan, DSR report, information in the lease's within 500 meters radius around the site and other requisite information in the prescribed format duly verified in the Collector Office (Ekal Praman-Patra) letter no. 75 dated: 26/05/2020 has reported that there are no other mines operating or proposed within 500 meters around the said mine.

(3) The Mining Lease has been granted in favour of Shri Virendra Singh Jadon, by the Madhya Pradesh Mineral Resource Department vide letter no. 2390/132/2020/12/1 Bhopal, dated -10/06/2020 as per the provisions of M.P. State Sand Mining Policy – 2019 over an area of 4.00 ha. The Mining Plan and Replenishment Study has been approved by Collector, Tikamgarh vide L.No. 11/khanij/3-06/2020/3473 Bhopal dated 06/03/2020.

(4) SEAC in its 497th SEAC meeting dtd. 05.04.2021 has recommended the case with 26 special conditions for issuance of EC.

(5) It was noted that as per Collector Office, (Ekal Praman-Patra) Tikamgarh vide letter no. 75 dated: 26/05/2020, the National Park/Sanctuary is not located within 10 Km., radius from the mining site. Hence, the General Conditions are not attracted. There is no forest boundary less than 250 m distance from the ML area.

(8) It was noted that the water requirement is 74 KLD (1.2 KLD Dust Suppression +0.70 KLD Drinking/Domestic + 72.0 KLD Green Belt/Plantation which shall be met from hiring water tankers from nearby villages.

(6) It was noted that the Public Hearing was held on 05.02.2021 at Gram Panchayat Bhavan, Tauriya, Tehsil- Palera, District- Tikamgarh under the Chairmanship of Upper Collector, Tikamgarh. The issues raised during public hearing shall be committed and compiled by PP.

After detailed discussions and perusal of recommendations of 496th SEAC meeting dtd. 03.04.2021, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:

I. PP shall not start mining activity before execution of lease agreement.

II. The production capacity shall be limited to the quantity as recommended by SEAC.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

III. The mining shall be carried out strictly as per the approved mining plan and ensure that the annual replenishment of sand in the mining lease area is sufficient to sustain the mining operations at levels prescribed in the mining plan.

IV. No ramp will be allowed within the river basin to transport sand to the other bank. Transportation will be allowed on the bank side where the mineral is being excavated.

V. The entire lease area should be properly fenced and boundary stones marked at the site.

VI. No in-stream mining shall be allowed. The local authorities should ensure that the mining activity is confined only in the dry portion where sand is exposed.

VII. Leaving the submerged area as a non-mining zone as committed in PP.

VIII. The depth of the pit shall be as per Approved Mining Plan.

IX. Transportation of sand shall be strictly carried out from outside the village area.

X. The mining shall be carried out strictly in accordance with the Sustainable Sand Mining Management Guidelines, 2016 and Enforcement & Monitoring Guidelines for Sand Mining, 2020 issued by the MoEF&CC.

XI. PP shall ensure compliance of the direction and provision made for sand mining methodology up to 5 ha. lease area as per the Notification 30.08.2019 issued by MP Mineral Resource Department, GoMP.

XII. If the stream is dry, the excavation must not proceed beyond the lowest undisturbed elevation of the stream both which is a function of local hydraulics, hydrology and geomorphology.

XIII. PP shall ensure compliance of all the commitments made during public hearing and submit compliance reports in every six month of the year.

XIV. No Mining shall be carried out during Monsoon season.

XV. Alternate transportation routes should be decided in consultation with the local Gram Panchayat.

XVI. Total 24000 saplings of suitable tree species i.e. Neem, Peepal, Bargad, Gular, Mahua, Subabool, Sissoo Awala, Mango, Jamun, etc. shall be planted by PP in first two years under plantation programme at river bank, approch road and Khasa No. 50, 90, 4, and 24/1 (govt. land) in consultation with Gram Panchayat/ District Administration. PP shall also explore and identify the chunk of land in the area from revenue records to carry out the plantation programme as proposed.

XVII. Overloading will be strictly prohibited.

XVIII. Water sprinkling will be done on the approach road on the regular basis.

XIX. PP must ensure the implementation of following activities under CER with all budgetary provision as committed in SEIAA :

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)

Member Secretary	Member	Chairman

(5) It was noted that as per Collector Office, (Ekal Praman-Patra) Tikamgarh vide letter no. 645 dated: 26/05/2020, the National Park/Sanctuary is not located within 10 Km., radius from the mining site. Hence, the General Conditions are not attracted. There is no forest boundary less than 250 m distance from the ML area.

(10) It was noted that the water requirement is 29.49 KLD (1.80 KLD Dust Suppression +0.80 KLD Drinking/Domestic + 26.89 KLD Green Belt/Plantation which shall be met from hiring water tankers from nearby villages.

(6) It was noted that the Public Hearing was held on 11.02.2021 at Gram Panchayat Bhavan Karula Tehsil Palera, District Tikamgarh under the Chairmanship of Upper Collector, Tikamgarh. The issues raised during public hearing shall be committed and compiled by PP.

After detailed discussions and perusal of recommendations of 497th SEAC meeting dtd. 05.04.2021, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:

I. PP shall not start mining activity before execution of lease agreement.

II. The production capacity shall be limited to the quantity as recommended by SEAC.

III. The mining shall be carried out strictly as per the approved mining plan and ensure that the annual replenishment of sand in the mining lease area is sufficient to sustain the mining operations at levels prescribed in the mining plan.

IV. No ramp will be allowed within the river basin to transport sand to the other bank. Transportation will be allowed on the bank side where the mineral is being excavated.

V. The entire lease area should be properly fenced and boundary stones marked at the site.

VI. No in-stream mining shall be allowed. The local authorities should ensure that the mining activity is confined only in the dry portion where sand is exposed.

VII. Leaving the submerged area as a non-mining zone as committed in PP.

VIII. The depth of the pit shall be as per Approved Mining Plan.

IX. Transportation of sand shall be strictly carried out from outside the village area.

X. The mining shall be carried out strictly in accordance with the Sustainable Sand Mining Management Guidelines, 2016 and Enforcement & Monitoring Guidelines for Sand Mining, 2020 issued by the MoEF&CC.

XI. PP shall ensure compliance of the direction and provision made for sand mining methodology up to 5 ha. lease area as per the Notification 30.08.2019 issued by MP Mineral Resource Department, GoMP.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

XII. If the stream is dry, the excavation must not proceed beyond the lowest undisturbed elevation of the stream both which is a function of local hydraulics, hydrology and geomorphology.

XIII. PP shall ensure compliance of all the commitments made during public hearing and submit compliance reports in every six month of the year.

XIV. No Mining shall be carried out during Monsoon season.

XV. Alternate transportation routes should be decided in consultation with the local Gram Panchayat.

XVI. Total 9000 saplings of suitable tree species i.e. Neem, Peepal, Bargad, Gular, Mahua, Subabool, Sissoo Awala, Mango, Jamun, etc. shall be planted by PP in first two years under plantation programme at river bank, approach road and Khasa No. 55, 68, & 130 (govt. land) at village Karola in consultation with Gram Panchayat/ District Administration. PP shall also explore and identify the chunk of land in the area from revenue records to carry out the plantation programme as proposed.

XVII. Overloading will be strictly prohibited.

XVIII. Water sprinkling will be done on the approach road on the regular basis.

XIX. PP must ensure the implementation of following activities under CER with all budgatory provision as committed in SEIAA :

- Upgradation of govt. school building at village Karola.
- Construction of separate toilets (Boys & Girls) with proper water facility and provide drinking water facility of govt. school at village Karola.
- Upgradation of Anganwadi Centre and provision of basic services such as drinking water, toilet, etc. at village Karola.
- Installation of Hand Pump at Karola Village.
- Development of grassland using prosopis seeds on government waste land at Karola Gram Panchayat
- To organize annual health camp at Kerala Panchyat
- Construction of CC Roads at Village Karola.

PP shall ensure contribution of funds on behalf of the village under Jal Jeevan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in schools or anganwadis of above villages. The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

XX. PP should ensure to submit a half yearly compliance report, Plantation and CER activity report along with photographs of all activities in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of

EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Sand Quarry in an area of 5.850 ha. for production capacity of 50,000 cum per annum at Khasra No. 665 at Village- Karula, Tehsil- Palera, District- Tikamgarh (MP) for the lease period to Shri Virendra Singh Jadon, E-7/M-708, Arera Colony, Dist. Bhopal, MP - 462016.

38. **Case No 7342/2020** Prior Environment Clearance for **Sand Quarry** in an area of 6.564 ha. for production capacity of 28,000 cum per annum at Khasra No. 01, 347 at Village- Larkhurd Parai Nadi, Tehsil- Jatara, District- Tikamgarh (MP) by Shri Virendra Singh Jadon, E-7/M-708, Arera Colony, Dist. Bhopal, MP - 462016

(1) This is a project pertaining to mining of Sand Quarry in an area of 6.564 ha. The activity is mentioned at S.No. 1 (a) of the Schedule of EIA Notification 2006 as amended from time to time. The project is reported to be at a distance of more than 10 km from National Park /Sanctuary etc. thus it is not attracted by the general conditions and falls under category 'B-1" by virtue of its location and mining lease area. The case was forwarded by SEIAA to SEAC for appraisal of EIA for environment clearance for the project. It was submitted that this is a proposed mine having valid lease period as per the provisions of M.P. State Sand Mining Policy – 2019 with production capacity of 28,000 cum per annum.

(2) It was noted that PP has submitted a copy of approved Mining Plan, DSR report, information in the lease's within 500 meters radius around the site and other requisite information in the prescribed format duly verified in the Collector Office (Ekal Praman-Patra) letter no. 87 dated: 26/05/2020 has reported that there are no other mines operating or proposed within 500 meters around the said mine.

(3) The Mining Lease has been granted in favour of Shri Virendra Singh Jadon, by the Madhya Pradesh Mineral Resource Department vide letter no. 2049/132/2020/12/1 Bhopal, dated -30/05/2020 as per the provisions of M.P. State Sand Mining Policy – 2019 over an area of 4.00 ha. The Mining Plan and Replenishment Study has been approved by Collector, Tikamgarh vide L.No. 11/khanij/3-06/2020/124 Bhopal dated 06/06/2020.

(4) SEAC in its 497th SEAC meeting dtd. 05.04.2021 has recommended the case with 26 special conditions for issuance of EC.

(5) It was noted that as per Collector Office, (Ekal Praman-Patra) Tikamgarh vide letter no. 87 dated: 26/05/2020, the National Park/Sanctuary is not located within 10 Km., radius from the mining site. Hence, the General Conditions are not attracted. There is no forest boundary less than 250 m distance from the ML area.

(6) It was noted that the water requirement is 46.09 KLD (4.08 KLD Dust Suppression +0.80 KLD Drinking/Domestic + 41.21 KLD Green Belt/Plantation which shall be met from hiring water tankers from nearby villages.

Hence, Prior Environmental Clearance is granted for Sand Quarry (opencast manual method) in an area of 4.00 ha. for production capacity of 1,04,850 cum per annum at Khasra No. 01 at Village - Orgai-2, Tehsil - Singrauli, Dist. Singrauli M/s (MP) for the lease period to R.K.Transport and Construction Ltd, 65-A, Transport Nagar, Dist. Korba, CG - 486889.

40. **Case No. – 6273/2019** Prior Environment Clearance for **Basalt / Boulder & Stone Quarry (opencast semi mechanized method)** in an area of 1.31 ha. for production capacity of 10,530 cum per annum at Khasra No. 105P at Village - Manegaon, Tehsil - Jabalpur, Dist. Jabalpur (MP) by M/s Wagad Infraprojects Pvt. Ltd, Halmukam, Dhanwantri Nagar, Dist. Jabalpur, MP

(1) This is a project pertaining to mining of **Stone Quarry** in MLA of 1.31 ha. The activity is mentioned at S.No. 1 (a) of the Schedule of EIA Notification 2006 as amended from time to time. The project is reported to be at a distance of more than 10 km from National Park /Sanctuary etc. thus it is not attracted by the general conditions by virtue of its location and mining lease area. There is no forest boundary less than 250 m distance from the ML area. The case was forwarded by SEIAA to SEAC for appraisal of EIA for environmental clearance

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

for the project. It was submitted that this is a fresh grant issued in the year of 2018 for 10 years.

(2) The mining lease was granted to M/s Wagad Infraprojects Pvt. Ltd in the year of 2018 for 10 years, as per Collector (Mining) Office, Jabalpur vide L.No. 2731 dated 23.05.2018. This is a case of fresh grant. The Mining Plan with progressive mine closure plan has been approved by DGM, M.P. Vide Letter No. – 4371/khani/Na. Kra./2018, dated 22.11.2018.

(3) It was noted that PP has submitted a copy of approved Mining Plan, DSR report, information in the lease's within 500 meters radius around the site and other requisite information in the prescribed format duly verified in the Collector Office (Mining Division) letter no. 39 dated: 31/01/2019 has reported that there are 20 more mines operating or proposed within 500 meters around the said mine with a total area of 39.75 ha., including this mine.

(4) SEAC in its 497th SEAC Meeting dated 05/04/2021 has recommended the case with 36 special conditions for issuance of EC.

(5) It was noted that as per DFO, Jabalpur L.No. 682, dtd. 16.02.2018, the National Park /Sanctuary is not located within 10 Km. radius from the mining site. Hence, the General Conditions are not attracted. There is no forest boundary less than 250 m distance from the ML area.

(6) PP/Consultant made a presentation on all aspects of the project and all concerned issues were discussed in detail.

(7) It was noted that the water requirement is 10 KLD (2.0 KLD for Domestic use + 3.0 KLD for Dust suppression + 5.0 KLPD for Green Belt). The water requirement will be met from a mine pit, nearby hand pumps/wells will be used for drinking purposes only.

(8) The proposed plantation programme was examined and it was found that total 2000 saplings shall be planted under the plantation program.

(9) It was also noted that the Public Hearing was carried out on 13.01.2021 at Mine Site Village - Manegaon, Tehsil - Jabalpur, Dist. Jabalpur (MP) under the Chairmanship of ADM, Jabalpur.

After detailed discussions and perusal of recommendations of 497th SEAC Meeting dated 05/04/2021, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:

I. Before commencing any mining activity fencing shall be carried out all around the lease area. Proper watch and ward arrangements should be made with installation of signage at 4 corners of lease area to avoid any untoward incident involving public and animals by the PP.

II. Lease agreement shall be carried out before execution of mining operation.

III. Plantation programme as mentioned in EIA/EMP and presented during presentation in SEIAA & SEAC shall be followed in content and spirit.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

IV. PP shall demarcate a barrier zone of 7.5 m as no mining zone in the periphery of mining lease area and develop a green belt. Three rows plantation shall be carried out in the greenbelt area in current year with proper watering arrangement.

V. PP shall ensure that existing trees are not to be uprooted within the ML area.

VI. PP will plant 3 years old 2000 saplings of suitable tree species i.e. Mango, Pipal, Neem, Bargad, Drumstick, Jamun, Imli Amaltas, Kachnar, Kadam, Palash, Sal etc. will be planted in first three years along the no mining zone, lease Boundary in mine premises and approach road and Village/ School/Panchayat Area at identified revenue land of the district in consultation with DM/ Gram Panchayat. PP shall also explore and identify the chunk of land in the area from revenue records to carry out the plantation programme as proposed.

VII. The mining operation shall be restricted to above ground water table and in no case it should intersect the ground water table. In case of working below the ground water table, approval of the Central Ground Water Board shall be obtained.

VIII. The overburden and waste will be stacked within the ML area and simultaneously backfilled in the mined out area where plantation will be raised on it.

IX. PP shall ensure that waste material shall not be stacked for a long time in the ML area.

X. No overburden will be dumped outside the mine lease area.

XI. Regular water quality monitoring shall be carried out by PP before discharging it into the nearby agriculture fields from authorized laboratories in consultation with Regional Officer, MPPCB. Regular air and noise quality monitoring shall also be carried out from authorized laboratories in consultation with Regional Officer, MPPCB at regular intervals.

XII. PP shall ensure the generation of employment opportunities nearby Village on priority basis.

XIII. Payments of wages to the workers shall be done in consonance with the provisions in the labour laws.

XIV. Proper infrastructure with shelter, drinking water, toilet and first-aid facilities shall be provided for the laborers. A provision should be made to construct a pakka rest shelter along with toilet and drinking water facility.

XV. PP should also carry out regular sprinkling in the mining lease area to arrest dust emission from mining activities affecting the nearby agriculture fields.

XVI. Mining shall be limited to the area as shown in surface plan and as per the approved mining scheme.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

XVII. PP shall ensure the proper water supply arrangements for plantations especially in the summer season.

XVIII. PP shall ensure proper implementation of plantation, dust suppression, construction of approach road and maintenance of existing pakka road as part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.

XIX. PP must ensure the implementation of compliance of the commitment made in Public Hearing in addition to these following activities with separate budget provision under CER as committed.

- Upgradation of govt. primary school building at village Manegaon.
- Upgradation of Anganwadi building at village Mangeli.
- Installation of two handpumps in villages Manegaon and Mangeli.

PP shall ensure contribution of funds on behalf of the village under Jal Jeevan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in schools or anganwadis of above villages. The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

XX. PP should ensure to submit a half yearly compliance report, Plantation and CER activity report along with photographs of all activities in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Basalt/Boulder & Stone Quarry (opencast semi mechanized method) in an area of 1.31 ha. for production capacity of 10,530 cum per annum at Khasra No. 105P at Village - Manegaon, Tehsil - Jabalpur, Dist. Jabalpur (MP), for the lease period to M/s Wagad Infraprojects Pvt. Ltd, Halmukam, Dhanwantri Nagar, Dist. Jabalpur, MP.

41. **Case No 8471/2021** Prior Environment Clearance for Sand Quarry in an area of 4.0 ha. (72000 cum per annum) (Khasra No. 137/1), Village – Babri-1, Tehsil - Seoni Malwa, Dist. Hoshangabad (MP) by M/s R.K.Transport and Constructions Ltd, Director, Shri Chandra Prakash Singh, 65-A, Transport Nagar, Dist. Korba, Chhattisgarh

This case was recommended in 497th SEAC meeting dated 05.04.2021 and it was recorded that.....

PP has submitted a copy of approved Mining Plan, DSR report, information in the lease's within 500 meters radius around the site and other requisite information in the prescribed format duly verified in the Collector Office (Ekal Praman-Patr) letter no. 2376 dated: 26/03/2021 has reported that there are

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

01 more mines operating or proposed within 500 meters around the said mine with total area of 22.0 ha., including this mine.

The case was presented by the PP and their consultant. PP stated that this is a case of river sand mining on Narmada River. PP submitted that only manually method shall be carried out regarding another mine which is mentioned in the letter within 500 meters around this mine, area :18 ha is belongs to same PP , and this mine shall be not operated by them as mentioned by Collector Office (Ekal Praman-Patr) and issued by letter vide no. 2376 dated: 26/03/2021 . Hence, this case now shall be appraised a B-2 .

PP has submitted the response of above quarries same date vide letter dated 05.04.2021, which was placed before the committee and the same found satisfactory. The mining shall be done as per the approved mine plan by concerned DGMs. The EMP and other submissions made by the PP were found to be satisfactory and acceptable, hence committee decided to recommend the case for grant of prior EC subject to the following special conditions in addition to the standard conditions at annexure 'B':

It is observed as per Google image and the documents submitted by PP regarding other mines located within 500 m. radius of the proposed mines, it is found that the total area of the cluster seems more than 5 ha. After detailed discussion, it is decided that PP may be called for clarification with supporting documents pertaining to current status of the other sanctioned/operative mines located within 500 m. radius of proposed mine with written commitment of OIC of the State Mining Corporation.

42. **Case No 8472/2021** Prior Environment Clearance for **Murrum Quarry (opencast manual/semi mechanized method)** in an area of 2.0 ha. for production capacity of 10002 cum per annum at Khasra No. 401/1 at Village - Rafiqueganj, Tehsil - Sehore, Dist. Sehore (MP) by Shri Vishal Nagar S/o Shri Omkar Prasad Sharma, Indore Naka, Ichhawar Road, Tehsil - Sehore, Dist. Sehore, MP

This case was recommended in the 497th SEAC meeting dated 05.04.2021 and it was recorded that.....

The case was presented by the PP and their consultant wherein it was observed by the committee that it's a case of Murrum Quarry. As per M.O. letter dated 16/3/2021 there are 05 more mines within 500 meters . PP submitted that these mines are of Stone and this is Murrum Quarry thus shall not be considered as cluster, being Murrum and Stone are nonhomogeneous in nature hence, should be considered as category B-2 type case. Being case of Murrum thus no blasting is proposed. 01 tree in the lease area, PP stated that no tree felling is proposed. The EMP and other submissions made by the PP were found to be satisfactory and acceptable, hence committee decided to recommend the case for grant of prior EC subject to the following special conditions in addition to the standard conditions at annexure 'A':

PP/Consultant made a presentation on all aspects of the project and all concerned issues were discussed in detail. After detailed discussions and perusal of recommendations of 497th SEAC meeting dated 05.04.2021, presentation made by the PP in SEIAA, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:-

I. Before commencing any mining activity fencing shall be carried out all around the lease area. Proper watch and ward arrangements should be made with installation of signage at 4 corners of the lease area to avoid any untoward incident involving public and animals by the PP.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

II. PP shall demarcate a barrier zone of 7.5 m as no mining zone in the periphery of mining lease area and develop a green belt. Three row plantations shall be carried out in the greenbelt area in the current year with proper watering arrangement.

III. PP shall not start mining activity before execution of lease agreement.

IV. The depth of the pit shall be as per the Approved Mining Plan.

V. The entire area shall be fenced and three rows of plantation should be done on the periphery.

VI. The mining operation shall be restricted to above ground water table and in no case it should intersect the ground water table. In case of working below the ground water table, approval of the Central Ground Water Board shall be obtained.

VII. PP shall ensure to construct garland drain with settling tank all around the lease area and regular cleaning & maintenance shall also be carried out by PP.

VIII. PP shall ensure the proper water supply arrangements for dust suppression, regular sprinkling, plantation and drinking purposes especially in summer season.

IX. Total **3000** saplings of suitable tree species i.e. Neem, Pipal, Dalbargia sissoo, Bargad, Amaltas, Khirni, Mango, Guava, Imli etc. shall be planted by PP in first three years it self under plantation programme in no mining area, mine lease boundary, gram panchayat and Khasra No. 401/1 (Govt. Land) at village Rafiqueganj in consultation with Gram Panchayat/ District Administration. PP shall also explore and identify the chunk of land in the area from revenue records to carry out the plantation programme as proposed.

X. PP shall ensure to construct the pakka approach road and maintain it. Plantation will be carried out on both side of the approach road.

XI. Payments of wages to the workers shall be done in consonance with the provisions in the labour laws.

XII. PP shall ensure the proper water supply arrangements for dust suppression, regular sprinkling, plantation and drinking purposes especially in summer season.

XIII. PP shall ensure proper implementation of plantation, dust suppression, construction of approach road and maintenance of existing pakka road as part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.

XIV. PP must ensure implementation of the following activities under CER

- Construction of toilets for girls & boys with proper water facility of govt. primary school, at village Rafiqueganj.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

PP shall ensure contribution of funds on behalf of the village under Jal Jeevan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in schools or aganwadies of above villages The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

XV. PP should ensure to submit a half yearly compliance report and CSR activity report with photographs of plantations in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Murrum Quarry (opencast manual/semi mechanized method) in an area of 2.0 ha. for production capacity of 10002 cum per annum at Khasra No. 401/1 at Village - Rafiqueganj, Tehsil - Sehore, Dist. Sehore (MP) for the lease period to Shri Vishal Nagar S/o Shri Omkar Prasad Sharma, Indore Naka, Ichhawar Road, Tehsil - Sehore, Dist. Sehore, MP.

43. **Case No 8466/2021** Prior Environment Clearance for **Soil/Murrum Quarry opencast manual/semi mechanized method)** in an area of 3.0 ha. for production capacity of 30000 cum per annum at Khasra No. 1506 at Village - Kheda, Tehsil - Sitamau, Dist. Mandsaur (MP) by M/s Ankita Construction Company, 22, Swariya Colony, Dist. Nimbaheda, Rajasthan - 312601

This case was recommended in the 497th SEAC meeting dated 05.04.2021 and it was recorded that.....

PP has submitted the response of above quarries same date vide letter dated 05.04.2021. The EMP and other submissions made by the PP were found to be satisfactory and acceptable, hence committee decided to recommend the case for grant of prior EC subject to the following special conditions in addition to the standard conditions at annexure 'A':

PP/Consultant made a presentation on all aspects of the project and all concerned issues were discussed in detail. plantations shall be carried out in the greenbelt area in the current year with proper watering arrangement.

III. PP shall not start mining activity before execution of lease agreement.

IV. The depth of the pit shall be as per the Approved Mining Plan.

V. The entire area shall be fenced and three rows of plantation should be done on the periphery.

VI. The mining operation shall be restricted to above ground water table and in no case it should intersect the ground water table. In case of working below the ground water table, approval of the Central Ground Water Board shall be obtained.

VII. Before commencing the mining activity, site demarcation should be done leaving 100 m. from pakka road as a “no mining zone”. The demarcation should be done by the Revenue Officials in the presence of Mining Officer, Mandsaur.

VIII. PP shall ensure to construct garland drain with settling tank all around the lease area and regular cleaning & maintenance shall also be carried out by PP.

IX. PP shall ensure the proper water supply arrangements for dust suppression, regular sprinkling, plantation and drinking purposes especially in summer season.

X. Total **6000** saplings of suitable tree species i.e. Palash, Neem, Karanj, Mango, Pipal, Bargad etc. shall be planted by PP in the first year itself under plantation programme in no mining area, mine lease boundary, approach road and Khasra No. 1506 (Govt. Land) at Village Kheda in consultation with Gram Panchayat/ District Administration. PP shall also explore and identify the chunk of land in the area from revenue records to carry out the plantation programme as proposed.

XI. PP shall ensure to construct the pakka approach road and maintain it. Plantation will be carried out on both sides of the approach road.

XII. Payments of wages to the workers shall be done in consonance with the provisions in the labour laws.

XIII. PP shall ensure the proper water supply arrangements for dust suppression, regular sprinkling, plantation and drinking purposes especially in summer season.

XIV. PP shall ensure proper implementation of plantation, dust suppression, construction of approach road and maintenance of existing pakka road as part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.

XV. PP must ensure implementation of the following activities under CER

- Installation of 01 handpump at Kheda Village.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

PP shall ensure contribution of funds on behalf of the village under Jal Jeevan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in schools or aganwadies of above villages The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

XVI. PP should ensure to submit a half yearly compliance report and CSR activity report with photographs of plantations in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Soil/Murrum Quarry opencast manual/semi mechanized method) in an area of 3.0 ha. for production capacity of 30000 cum per annum at Khasra No. 1506 at Village - Kheda, Tehsil - Sitamau, Dist. Mandsaur (MP) for the lease period to M/s Ankita Construction Company, 22, Swariya Colony, Dist. Nimbaheda, Rajasthan - 312601.

44. **Case No 8467/2021** Prior Environment Clearance for **Murrum Quarry (opencast manual/semi mechanized method)** in an area of 2.0 ha. for production capacity of9300 cum per annum at Khasra No. 89 at Village - Dabri, Tehsil - Ghatiya, Dist. Ujjain (MP) by Shri Lokendra Malviya S/o Shri Shyamlal Malviya, Isakpur, Post - Nazarpur, Tehsil - Ghatiya, Dist. Ujjain, MP - 456550

This case was recommended in 497th SEAC meeting dated 05.04.2021 and it was recorded that.....

PP has submitted the response of above quarries same date vide letter dated 05.04.2021, which was placed before the committee and the same found satisfactory. MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Soil Quarry (opencast manual/semi mechanized method) in an area of 1.474 ha. for production capacity of 4000 cum per annum at Khasra No. 1889/Min-2, 1897/Min-2, 1890 at Village - Joura Khurd, Tehsil - Morena, Dist. Morena (MP) for the lease period to Shri Ashok Singh Kirar S/o Shri Ram Singh Kirar, R/o Village - Joura Khurd, Tehsil & Dist. Morena, MP - 476001.

48. **Case No 8469/2021** Prior Environment Clearance for **Stone Quarry (opencast manual/semi mechanized method)** in an area of 3.140 ha. for production capacity of 10000 cum per annum at Khasra No. 10, 8/5, 8/3/KA, 8/3/KHA, 8/3/G, 8/3/GH at Village - Jarhi, Tehsil - Pushprajgarh, Dist. Anuppur (MP) by M/s Prince Stone Crusher, Proprietor, Shri Rajesh Kumar Jaiswal, Harrtola, Tehsil - Pushprajgarh, Dist. Anuppur, MP - 484224

This case was recommended in the 497th SEAC meeting dated 05.04.2021 and it was recorded that.....

The case was presented by the PP and their consultant wherein it was observed by the committee that it's a case of Stone mining. The EMP and other submissions made by the PP were found to be satisfactory and acceptable, hence committee decided to recommend the case for grant of prior EC subject to the following special conditions in addition to the standard conditions at annexure 'A':

PP/Consultant made a presentation on all aspects of the project and all concerned issues were discussed in detail. After detailed discussions and perusal of recommendations of 497th SEAC meeting dated 05.04.2021, presentation made by the PP in SEIAA, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:-

I. Before commencing any mining activity fencing shall be carried out all around the lease area. Proper watch and ward arrangements should be made with installation of signage at 4 corners of the lease area to avoid any untoward incident involving public and animals by the PP.

II. PP shall demarcate a barrier zone of 7.5 m as no mining zone in the periphery of mining lease area and develop a green belt. Three row plantations shall be carried out in the greenbelt area in current year with proper watering arrangement.

III. PP shall not start mining activity before execution of lease agreement.

IV. The depth of the pit shall be as per the Approved Mining Plan.

V. The entire area shall be fenced and three rows of plantation should be done on the periphery.

VI. The mining operation shall be restricted to above ground water table and in no case it should intersect the ground water table. In case of working below the ground water table, approval of the Central Ground Water Board shall be obtained.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

VII. PP shall ensure to construct garland drain with settling tank all around the lease area and regular cleaning & maintenance shall also be carried out by PP.

VIII. PP shall ensure the proper water supply arrangements for dust suppression, regular sprinkling, plantation and drinking purposes especially in summer season.

IX. Total **5300** saplings of suitable tree species i.e. Neem, Mango, Pipal, Bargad, Gulmohar, Karanj, Satparni, Khirni, Awla, Imli etc. shall be planted by PP in first three years it self under plantation programme in no mining area, mine lease boundary and Khasra No. 46/2 (Govt. Land) at Village Jarhi in consultation with Gram Panchayat/ District Administration. PP shall also explore and identify the chunk of land in the area from revenue records to carry out the plantation programme as proposed.

X. PP shall ensure to construct the pakka approach road and maintain it. Plantation will be carried out on both sides of the approach road.

XI. Payments of wages to the workers shall be done in consonance with the provisions in the labour laws.

XII. PP shall ensure the proper water supply arrangements for dust suppression, regular sprinkling, plantation and drinking purposes especially in summer season.

XIII. PP shall ensure proper implementation of plantation, dust suppression, construction of approach road and maintenance of existing pakka road as part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.

XIV. PP must ensure implementation of the following activities under CER

- Installation of hand pump and Construction of 1 Room (15 ft X20 ft) in Gram Panchayat Bhawan at Village Jarhi.
- Distribution of masks & sanitizers at Village Jarhi.

PP shall ensure contribution of funds on behalf of the village under Jal Jeevan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in schools or aganwadies of above villages The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

XV. PP should ensure to submit a half yearly compliance report and CSR activity report with photographs of plantation in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

XV. PP should ensure to submit a half yearly compliance report and CSR activity report with photographs of plantations in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Stone Quarry (opencast manual/semi mechanized method) in an area of 1.0 ha. for production capacity

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

of 2550 cum per annum at Khasra No. 267 at Village - Kalipith, Tehsil - Rajgarh, Dist. Rajgarh (MP) for the lease period to Shri Vishnu Prasad Dangi S/o Motilal Dangi, Village - Kalipith, Tehsil & Dist. Rajgarh, MP – 465661.

54. **Case No 8416/2021** Prior Environment Clearance for **Stone Quarry (opencast manual/semi mechanized method)** in an area of 3.483 ha. for production capacity of 71250 Tonne per annum at Khasra No. 1042, 1043(P), 428, 429, 430, 431, 449/1, 453/1, 454/1 at Village - Barahiya, Tehsil - Maihar, Dist. Satna (MP) by M/s Shiv Shakti Infra, Raj Bhawan, Katni Road, PO - Maihar, Dist. Satna, MP - 485771.

This case was recommended in 497th SEAC meeting dated 05.04.2021 and it was recorded that.....

..... The EMP and other submissions made by the PP were found to be satisfactory and acceptable, hence committee decided to recommend the case for grant of prior EC subject to the following special conditions in addition to the standard conditions at annexure 'A':

PP/Consultant made a presentation on all aspects of the project and all concerned issues were discussed in detail. After detailed discussions and perusal of recommendations of 497th SEAC meeting dated 05.04.2021, presentation made by the PP in SEIAA, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:-

I. Before commencing any mining activity fencing shall be carried out all around the lease area. Proper watch and ward arrangements should be made with installation of signage at 4 corners of lease area to avoid any untoward incident involving public and animals by the PP.

II. PP shall demarcate a barrier zone of 7.5 m as no mining zone in the periphery of mining lease area and develop a green belt. Three row plantations shall be carried out in the greenbelt area in current year with proper watering arrangement.

III. PP shall not start mining activity before execution of lease agreement.

IV. The depth of the pit shall be as per the Approved Mining Plan.

V. The entire area shall be fenced and three rows of plantation should be done on the periphery.

VI. The mining operation shall be restricted to above ground water table and in no case it should intersect the ground water table. In case of working below the ground water table, approval of the Central Ground Water Board shall be obtained.

VII. Before commencing the mining activity, site demarcation should be done leaving 10 m. from the kachha road as a "no mining zone". The demarcation should be done by the Revenue Officials in the presence of Mining Officer, Satna.

VIII. PP shall ensure to construct garland drain with settling tank all around the lease area and regular cleaning & maintenance shall also be carried out by PP.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

IX. PP shall ensure the proper water supply arrangements for dust suppression, regular sprinkling, plantation and drinking purposes especially in summer season.

X. Total **5250** saplings of suitable tree species i.e. Neem, Pipal, Dalbargia sissoo, Bargad, Amaltas, Khirni, Mango, Guava, Imli etc. shall be planted by PP in first three years it self under plantation programme in no mining area, mine lease boundary and Khasra No. 1134 at Village Barahiya in consultation with Gram Panchayat/ District Administration. PP shall also explore and identify the chunk of land in the area from revenue records to carry out the plantation programme as proposed.

XI. PP shall ensure to construct the pakka approach road and maintain it. Plantation will be carried out on both sides of the approach road.

XII. Payments of wages to the workers shall be done in consonance with the provisions in the labour laws.

XIII. PP shall ensure the proper water supply arrangements for dust suppression, regular sprinkling, plantation and drinking purposes especially in summer season.

XIV. PP shall ensure proper implementation of plantation, dust suppression, construction of approach road and maintenance of existing pakka road as part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.

XV. PP must ensure implementation of the following activities under CER

- Installation of 2000 L overhead tank with proper water supply connectivity in Govt. Primary School, at village Bathia.

PP shall ensure contribution of funds on behalf of the village under Jal Jeevan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in schools or aganwadies of above villages The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

XVI. PP should ensure to submit a half yearly compliance report and CSR activity report with photographs of plantations in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Stone Quarry (opencast manual/semi mechanized method) in an area of 3.483 ha. for production capacity of 71250 Tonne per annum at Khasra No. 1042, 1043(P), 428, 429, 430, 431, 449/1, 453/1, 454/1 at Village - Barahiya, Tehsil - Maihar, Dist. Satna (MP)

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

for the lease period to M/s Shiv Shakti Infra, Raj Bhawan, Katni Road, PO - Maihar, Dist. Satna, MP - 485771.

55. **Case No. – 6722/2019** Prior Environment Clearance for **Stone Quarry (opencast manual/semi mechanized method)** in an area of 6.1340 ha. for production capacity of 1,39,497 cum per annum at Khasra No. 127, 128, 129, 130, 131, 135, 136, 140/1, 140/2, 141, 142, 143, 144/1, 144/2, 145, 148/1/2, 148/1/3 at Village - Harrai Gujran, Tehsil - Mauganj, Dist. Rewa (MP) by M/s. Mahaluxmi Mines and Stone Crusher, Village - Bilawal, Post - Atela Khurd, Tehsil & Dist. Charkhi Dadri, Haryana.

(1) This is a project pertaining to mining of **Stone Quarry** in MLA of 6.1340 ha. The activity is mentioned at S.No. 1 (a) of the Schedule of EIA Notification 2006 as amended from time to time. The project is reported to be at a distance of more than 10 km from National Park /Sanctuary etc. thus it is not attracted by the general conditions by virtue of its location and mining lease area. There is a forest boundary less than 250 m distance from the ML area. The case was forwarded by SEIAA to SEAC for appraisal of EIA for environmental clearance for the project. It was submitted that this is a fresh grant issued in the year of 2019.

(2) The mining lease was granted to M/s. Mahaluxmi Mines and Stone Crusher in the year of 2019, as per Collector (Mining) Office, Jabalpur vide L.No. 4504 dated 25.06.2019. This is a case of fresh grant. The Mining Plan with progressive mine closure plan has been approved by DGM, M.P. Vide Letter No. – 1004/Ma.Plan./Na. Kra./2019, dated 27.07.2019.

(3) It was noted that PP has submitted a copy of approved Mining Plan, DSR report, information in the lease's within 500 meters radius around the site and other requisite information in the prescribed format duly verified in the Collector Office (Mining Division) letter no. 6128 dated: 22/11/2019 has reported that there are 2 more mines operating or proposed within 500 meters around the said mine with a total area of 8.734 ha., including this mine.

(4) SEAC in its 481st SEAC Meeting dated 16/02/2021 has recommended the case with 36 special conditions for issuance of EC.

(5) It was noted that as per DFO, Rewa L.No. 6108, dtd. 08.07.2019, the National Park /Sanctuary is not located within 10 Km. radius from the mining site. Hence, the General Conditions are not attracted. There is a forest boundary in less than 250 m distance from the ML area.

(6) PP/Consultant made a presentation on all aspects of the project and all concerned issues were discussed in detail.

(7) It was noted that the water requirement is 30.54 KLD (1.8 KLD for Domestic use + 6.24 KLD for Dust suppression + 22.5 KLPD for Green Belt). The water requirement will be met from drinking purposes proposed and will be made available by hiring tankers from nearby villages.

(8) The proposed plantation programme was examined and it was found that total 11050 saplings shall be planted under the plantation program.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

(9) It was also noted that the Public Hearing was carried out on 07.10.2020 at Mine Site Village - Harrai Gujran, Tehsil - Mauganj, Dist. Rewa (MP) under the Chairmanship of Upper Collector, Rewa.

After detailed discussions and perusal of recommendations of 481st SEAC Meeting dated 16/02/2021, it was decided to accept the recommendation of SEAC for grant of prior EC to the project subject to the following specific conditions:

I. Before commencing any mining activity fencing shall be carried out all around the lease area. Proper watch and ward arrangements should be made with installation of signage at 4 corners of the lease area to avoid any untoward incident involving public and animals by the PP.

II. Lease agreement shall be carried out before execution of mining operation.

III. Plantation programme as mentioned in EIA/EMP and presented during presentation in SEIAA & SEAC shall be followed in content and spirit.

IV. PP shall demarcate a barrier zone of 7.5 m as no mining zone in the periphery of mining lease area and develop a green belt. Three rows plantation shall be carried out in the greenbelt area in current year with proper watering arrangement.

V. PP shall ensure that existing trees not to be uprooted within the ML area.

VI. PP will plant 3 years old 11050 saplings of suitable tree species i.e. Mango, Pipal, Neem, Bargad, Drumstick, Jamun, Imli Amaltas, Kachnar, Kadam, Palash, Sal etc. will be planted in first three years along the no mining zone, lease Boundary in mine premises and approach road and 155 at Haraigujran Village in consultation with DM/ Gram Panchayat. PP shall also explore and identify the chunk of land in the area from revenue records to carry out the plantation programme as proposed.

VII. The mining operation shall be restricted to above ground water table and in no case it should intersect the ground water table. In case of working below the ground water table, approval of the Central Ground Water Board shall be obtained.

VIII. PP shall ensure to comply with the conditions mentioned in Divisional Commissioner Rewa meeting dated 17.06.2019 and shall submit compliance report with photograph to the Collector Rewa and copy to SEIAA.

IX. Before commencing the mining activity, site demarcation should be done leaving 250 m. from HFL of the dam as a “no mining zone”. The demarcation should be done by the Revenue Officials in the presence of Mining Officer, Rewa.

X. The overburden and waste will be stacked within ML area and simultaneously backfilled in the mined out area where plantation will be raised on it.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

XI. PP shall ensure that waste material shall not be stacked long time in ML area.

XII. No overburden will be dumped outside the mine lease area.

XIII. Regular water quality monitoring shall be carried out by PP before discharging it into the nearby agriculture fields from authorized laboratories in consultation with Regional Officer, MPPCB. Regular air and noise quality monitoring shall also be carried out from authorized laboratories in consultation with Regional Officer, MPPCB at regular intervals.

XIV. PP shall ensure the generation of employment opportunities nearby Village on priority basis.

XV. Payments of wages to the workers shall be done in consonance with the provisions in the labour laws.

XVI. Proper infrastructure with shelter, drinking water, toilet and first-aid facilities shall be provided for the laborers. A provision should be made to construct a pakka rest shelter along with toilet and drinking water facility.

XVII. PP should also carry out regular sprinkling in the mining lease area to arrest dust emission from mining activities affecting the nearby agriculture fields.

XVIII. Mining shall be limited to the area as shown in surface plan and as per the approved mining scheme.

XIX. PP shall ensure the proper water supply arrangements for plantation especially in the summer season.

XX. PP shall ensure proper implementation of plantation, dust suppression, construction of approach road and maintenance of existing pakka road as part of Environmental Management Plan. Additional budget provision shall be made as part of EMP.

XXI. PP must ensure the implementation of compliance of the commitment made in Public Hearing in addition to these following activities with separate budget provision under CER as committed.

- Upgradation of govt. school building and construction/repairing toilets & boundary walls etc. govt. school at village Haraigujran.
- Upgradation of Anganwadi Centre and provision of basic services such as drinking water, toilet, etc. at village Haraigujran
- Distribution of masks and sanitizers to villagers and conducting an awareness program through Panchayat for the Protection from the spread of Coronavirus (COVID 19 Pandemic) at village Haraigujran
- Development of grassland using prosopis seeds on government waste land at village Haraigujran
- Repairing & maintenance of Village Roads (750*3 mtr) at village Haraigujran

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

PP shall ensure contribution of funds on behalf of the village under Jal Jeevan Mission in consultation with Janpad Panchayat and PHED. PP shall give preference to develop/provide infrastructural facilities in schools or anganwadis of above villages. The modification to the above activities can be made with the permission of the district administration and need based activity for the development of nearby villages shall be implemented by PP in consultation with the District Collector and Gram Panchayat.

XXII. PP should ensure to submit a half yearly compliance report, Plantation and CER activity report along with photographs of all activities in MP-SEIAA. If PP is failed to upload or submit two consecutive half yearly compliance reports of EC conditions to concerned authority (SEIAA and Regional Office, MoEF&CC,GoI,Bhopal) than prior environmental clearance issued to PP will automatically be treated as cancelled/ revoked as per OM No. 930/SEIAA/2019 dated 30.05.2019 issued by MPSEIAA.

Hence, Prior Environmental Clearance is granted for Stone Quarry (opencast manual/semi mechanized method) in an area of 6.1340 ha. for production capacity of 1,39,497 cum per annum at Khasra No. 127, 128, 129, 130, 131, 135, 136, 140/1, 140/2, 141, 142, 143, 144/1, 144/2, 145, 148/1/2, 148/1/3 at Village - Harrai Gujran, Tehsil - Mauganj, Dist. Rewa (MP), for the lease period to M/s. Mahaluxmi Mines and Stone Crusher, Village - Bilawal, Post - Atela Khurd, Tehsil & Dist. Charkhi Dadri, Haryana.

56. **Case No 8463/2021** M/s Sahastarajai Industries Pvt. Ltd, Smt. Ujjawala Singh, Dist. Tikamgarh, MP – 472001 Prior Environment Clearance for Stone Quarry in an area of 1.20 ha. (25,000 cum per annum) (Khasra No. 993), Village - Bijrawan, Tehsil - Lidhora, Dist. Tikamgarh (MP).

This case was discussed in 496th SEAC meeting dated 03.04.2021, ToR recommended by SEAC is hereby approved.

57. **Case No 8464/2021** M/s Mahalaxmi Mines & Minerals, Ward No. 4, Kamour, Tehsil - Vijayraghavgarh, Dist. Katni, MP Prior Environment Clearance for Stone Quarry in an area of 1.468 ha. (7353 cum per annum) (Khasra No. 1179/2), Village - Mudgudi, Tehsil - Maanpur, Dist. Umariya (MP).

This case was discussed in 496th SEAC meeting dated 03.04.2021, ToR recommended by SEAC is hereby approved.

58. **Case No 8455/2021** Shri Ranjeet Singh Rajput S/o Shri Kalu Singh Rajput, 27, Badridham Nagar, Dist. Dewas, MP - 455001 Prior Environment Clearance for Murrum & Stone Quarry in an area of 1.940 ha. (Murrum - 32035 cum per annum, Stone - 18525 cum per annum) (Khasra No. 394), Village - Amarpuraa, Tehsil - Dewas, Dist. Dewas (MP).

This case was discussed in 496th SEAC meeting dated 03.04.2021, ToR recommended by SEAC is hereby approved.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

59. **Case No 8456/2021** Shri Kirtiraj Singh Parihar, 27, Nadridham Nagar, Tehsil & DIst. Dewas, MP - 455001 Prior Environment Clearance for Murrum & Stone Quarry in an area of 2.0 ha. (Murrum - 24872 cum per annum, Stone - 19408 cum per annum) (Khasra No. 394), Village - Amarpuraa, Tehsil - Dewas, Dist. Dewas (MP).

    This case was discussed in 496th SEAC meeting dated 03.04.2021, ToR recommended by SEAC is hereby approved.

60. **Case No 8458/2021** M/s Shri Roopchand Mohnani, Maharani Laxmi Bai Ward, Dist. Seoni, MP Prior Environment Clearance for Stone Quarry in an area of 1.93 ha. (13708 cum per annum) (Khasra No. 144/1, 152/1, 149/1, 149/2, 150/1, 150/2), Village - Kothiya, Tehsil - Seoni, Dist. Seoni (MP).

    This case was discussed in 496th SEAC meeting dated 03.04.2021, ToR recommended by SEAC is hereby approved.

61. **Case No 8476/2021** Shri Padam Bhargav, Navmehla Ghasmandi, Dist. Gwalior, MP - 474001 Prior Environment Clearance for Stone Quarry in an area of 2.0 ha. (150001 cum per annum) (Khasra No. 1354), Village - Kharag, Tehsil - Datia, Dist. Datia (MP).

    This case was discussed in 497th SEAC meeting dated 05.04.2021, ToR recommended by SEAC is hereby approved.

62. **Case No 8477/2021** Shri Ravikant Sahu S/o Shri Durga Prasad Sahu, Galla Mandi Kelori, Distt. Seoni (M.P.) Prior Environment Clearance for Stone Quarry in an area of 4.320 ha. (106280 Cum per Annum) (Khasra No. 5/2, 98/2, 99/1, 99/2), Village – Dungariya, Tehsil – Seoni Distt. Seoni (M.P.).

    This case was discussed in 497th SEAC meeting dated 05.04.2021, ToR recommended by SEAC is hereby approved.

63. **Case No 8478/2021** Shri Shailendra Singh, AM 111, Deendayal Nagar, Distt Gwalior (M.P.) Prior Environment Clearance for Stone Quarry in an area of 4.0 ha. (150005 Cum per annum) (Khasra No. 4175), Village – Parsen, Tehsil – Gwalior, Distt. Gwalior (M.P.).

    This case was discussed in 497th SEAC meeting dated 05.04.2021, ToR recommended by SEAC is hereby approved.

64. **Case No 8479/2021** Shri Vishnu Patidar S/o Shri Dev Singh Patidar, Village – Kannod Mirji, Distt. Sehore (M.P.) Prior Environment Clearance for Stone Quarry 3.70 ha. (19012 Cum per annum) (Khasra No. 364/2),Village – Kanood Mirji, Tehsil – Astha, Distt. Sehore (M.P).

    This case was discussed in 497th SEAC meeting dated 05.04.2021, ToR recommended by SEAC is hereby approved.

65. **Case No 8480/2021** M/s. Sai Stone Crusher, Prop. Shri Sachin Mishra, Gyan Colony, Rewa Road, Maihar Distt. Satna (M.P.) Prior Environment Clearance for Stone Quarry in area of 1.045 ha. (12996 Cum per Annum) (Khasra No. 1135/942, 1136/942) Village – Bathiya, Tehsil – Maihar, Distt. Satna (M.P.).

    This case was discussed in 497th SEAC meeting dated 05.04.2021, ToR recommended by SEAC is hereby approved.

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

66. **Case No 7527/2020**, Prior Environment Clearance for Stone Quarry in an area of 1.0 ha. for production capacity of 8000 cum per annum at Khasra No. 137/1/1, 647/137 at Village - Kachnareiya, Tehsil - Shyampur, Dist. - Sehore (MP) by Shri Mukesh Gaur S/o Shri Ramgopal Gaur, R/o VIllage - Kachnariya, Tehsil - Shyampur, Dist. Sehore, MP - 466651.

    This case was discussed in 643rd SEIAA meeting dated 06.10.2020 and it was recorded that.....

    The following cases were discussed in 464th SEAC meeting dated 03.10.2020 and it was recorded that……

    PP has not submitted desired information in the stipulated time even after given reminder letter. Hence, these cases are recommended by the committee for delisting in the light of MoEF&CC, O.M. File no. J-11013/5/2009-IA-II (Part), dated 30th October, 2012 and tenure of SEAC will be over by 09/10/2020.

    As per above observation of SEAC, it has been decided to delist above cases mentioned in S. No. 81 to 132 on the condition that if PP intends to present the case in SEIAA, it will then be relisted for appraisal. Copy to PP and all concerned

    Vide letter dtd. 17.03.21 received in SEIAA office on 17.03.21 PP has requested to relist the case by showing his interest to present the case, therefore it has been decided to relist the case and send the technical file to SEAC for appraisal. Copy to PP and all concerned.

67. **Case No. 2341/2015** Prior Environmental Clearance for proposed Iron Ore Beneficiation Plant at Plot No. 2,3,4 & 5, Industrial Area, Village-Hargarh, Tehsil-Sihora, District-Jabalpur (MP); Plot area - 1.782 ha Production Capacity - 4,80,000 TPA – **Regarding transfer of Environmental Clearance from H.P. Ore Processors Pvt. Ltd to Shree Param Minerals Pvt. Ltd.**

    (1). EC has been issued to Director, H.P. Ore Processors Pvt. Ltd., Missal Layout, Nagbhoomi Society, Indora, Nagpur-440014 vide letter no. 2819/SEIAA/2016 dated 29.07.2016 in the name of Iron Ore Beneficiation Plant at Plot No. 2,3,4 & 5, Industrial Area, Village-Hargarh, Tehsil-Sihora, District-Jabalpur (MP);

    (2). Now Vide online proposal no. SIA/MP/IND/205015/2021 Form – 7 received in SEIAA office on 24.03.21. PP has requested to transfer prior EC from H.P. Ore Processors Pvt. Ltd.,to Shree Param Minerals Pvt. Ltd. For the transfer of the name PP has submitted following supporting documents:-

    - An affidavit from Director Shree Param Minerals Pvt. Ltd regarding compliance of all the conditions stipulated in the prior EC letter no. 2819/SEIAA/2016 dated 29.07.2016
    - NOC from Existing EC holder (Director, H.P. Ore Processors Pvt. Ltd.).
    - Memorandum of Association.
    - Article of Association.
    - LoI dtd. 29.01.2021

    (3). The case was discussed in depth and it is noted that as per Para 11 of EIA Notification, 2006 :

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

"A prior environmental clearance granted for a specific project or activity to an applicant may be transferred during its validity to another legal person entitled to undertake the project or activity on application by the transferor, or by the transferee with a written "no objection" by the transferor, to, and by the regulatory authority concerned, on the same terms and conditions under which the prior environmental clearance was initially granted, and for the same validity period….."

The application (dtd 24.03.2021) along with supporting documents submitted by PP were examined and decided to grant permission for transfer of the EC issued in the name of H.P. Ore Processors Pvt. Ltd. for Iron Ore Beneficiation Plant at Plot No. 2,3,4 & 5, Industrial Area, Village-Hargarh, Tehsil-Sihora, District-Jabalpur (MP); Plot area - 1.782 ha Production Capacity - 4,80,000 TPA, to Shree Param Minerals Pvt. Ltd for the above project on the same terms and conditions under which the prior environmental clearance was initially granted, and for the same validity period.

68. **Case No. - 5167/2016** Prior Environment Clearance for **Basalt Stone Quarry** (Opencast semi mechanized method) in an area of 8.930 ha. for production capacity of 86,700 cum/year at Khasra No. 229 to 248 at Village-Khamhariya, Tehsil-Jabalpur, District-Jabalpur (MP) by M/s Rao Construction, Prop. Shri Rao Hemraj SIngh S/o Shri Rao Devi Singh Village -Kanjai, Tehsil - Gotegaon, District Narsinghpur (MP) - **Regarding transfer of EC in the name of M/s Khairapati Mines & MInerals, Partner Shri Mamlesh Sharma R/o 14/473, Ghadi Chowck, Vijay Nagar, District Jabalpur (MP) .**

(1) It is noted that the PP had applied in Form-7 for transfer of Prior Environmental Clearance for Basalt Stone Quarry in an area of 8.930 ha. for production capacity of 86,700 cum/year at Khasra No. 229 to 248 at Village-Khamhariya, Tehsil-Jabalpur, District-Jabalpur (MP) **by M/s Khairapati Mines & MInerals, Partner Shri Mamlesh Sharma R/o 14/473, Ghadi Chowck, Vijay Nagar, District Jabalpur (MP).**

(2) The Prior Environmental Clearance letter was issued by SEIAA vide L.No. 1230/SEIAA/19 dated 21.06.19 in the name of M/s Rao Construction, Prop. Shri Rao Hemraj SIngh S/o Shri Rao Devi Singh Village -Kanjai, Tehsil - Gotegaon, District Narsinghpur (MP).

(3) It is noted that in support of his request the PP has submitted the following documents

i. No Objection Certificate in the form of Notarised Affidavit submitted by **M/s Rao Construction, Prop. Shri Rao Hemraj SIngh S/o Shri Rao Devi Singh Village -Kanjai, Tehsil - Gotegaon, District Narsinghpur (MP)** for transfer of prior EC in the name of **M/s Khairapati Mines & MInerals, Partner Shri Mamlesh Sharma R/o 14/473, Ghadi Chowck, Vijay Nagar, District Jabalpur (MP)**.

ii. Notarised affidavit of **M/s Khairapati Mines & MInerals, Partner Shri Mamlesh Sharma R/o 14/473, Ghadi Chowck, Vijay Nagar, District Jabalpur (MP)** mentioning that no legal action/ credible action has been initiated against the mine till date and commitment to comply all the standard and specific conditions stipulated in the prior EC issued..

(Tanvi Sundriyal)	(R.K. Sharma)	(Rakesh K. Shrivastava)
Member Secretary	Member	Chairman

iii. Copy of Prior EC issued by SEIAA vide letter No. 1230/SEIAA/19 dated 21.06.2019.

iv. Copy of Environmental Management Plan of **M/s Khairapati Mines & MInerals, Partner Shri Mamlesh Sharma R/o 14/473, Ghadi Chowck, Vijay Nagar, District Jabalpur (MP)**.

v. Copy of Approved Mining Plan of **M/s Khairapati Mines & MInerals, Partner Shri Mamlesh Sharma R/o 14/473, Ghadi Chowck, Vijay Nagar, District Jabalpur (MP)**.

vi. Lease transfer letter issued by **Office of Collector (Mining Division), Jabalpur** to **M/s Khairapati Mines & MInerals, Partner Shri Mamlesh Sharma R/o 14/473, Ghadi Chowck, Vijay Nagar, District Jabalpur (MP)** (MP) vide letter No. 17/Khanij/12 Q.L./2015 **dated 05.01.2020.**

(4) It is noted that in EIA Notification 2006 as per **Para-11 Transferability of Environmental Clearance (EC)** there is a provision of transferring the EC.

***Para**-11 :- A prior environmental clearance granted for a specific project or activity to an applicant may be transferred during its validity to another legal person entitled to undertake the project or activity on application by the transferor, or by the transferee with a written "no objection" by the transferor, to, and by the regulatory authority concerned, on the same terms and conditions under which the prior environmental clearance was initially granted, and for the same validity period. No reference to the Expert Appraisal Committee or State Level Expert Appraisal Committee concerned is necessary in such cases.*

In context of above it seems that PP has submitted adequate documents to make the change in the name of PP as per EIA Notification 2006 (Para-11). Hence, prior EC issued by SEIAA on 21.06.19 in the name of **" M/s Rao Construction, Prop. Shri Rao Hemraj SIngh S/o Shri Rao Devi Singh Village -Kanjai, Tehsil - Gotegaon, District Narsinghpur (MP)** is hereby transferred to **M/s Khairapati Mines & MInerals, Partner Shri Mamlesh Sharma R/o 14/473, Ghadi Chowck, Vijay Nagar, District Jabalpur (MP)** for **Basalt Stone Quarry** (Opencast semi mechanized method) in an area of 8.930 ha. for production capacity of 86,700 cum/year at Khasra No. 229 to 248 at Village-Khamhariya, Tehsil-Jabalpur, District-Jabalpur (MP)." on the same terms & conditions and validity period under which the prior environmental clearance was initially granted. **All concerned** be informed accordingly.

69. Case No. 8531/2021 Prior Environment Clearance for **Stone Quarry** in an area of 3.0 ha. for production capacity of 18000 cum per annum at Khasra No. 207/1 at Village - Gajna, Tehsil - Nainpur, Dist. Mandla (MP) by M/s Ojas Minerals, Prop. Shri Mahendra Sihare S/o Late Shri Hajari Lal Sihare R/o Bijhiya Mandla District Mandla (MP) - **Regarding transfer of EC in the name of M/s Maa Narmada Stone Crusher, Partner Shri Himmat Singh Thakur, Village - Gajna, Tehsil - Nainpur, Dist. Mandla, MP.**

(1) It is noted that the PP had applied in Form-7 for transfer of Prior Environmental Clearance for Stone Quarry in an area of 3.0 ha. for production capacity of 18000 cum per annum at Khasra No. 207/1 at Village - Gajna, Tehsil - Nainpur, Dist. Mandla (MP) **by M/s Maa Narmada Stone Crusher,**
