Link road No.3, Bhopal-462016

Sub: Expansion of Sugar Unit from 3500 to 5000 TCD and Co-generation power Plant (24 MW) at tehsil, walwe, District, sangli, Maharashtra by M/s krantiveer Dr.Nagnathanna Naikwadi HKASSK ltd.,regarding TORs.

Ref: F.No.J-11011/197/2013-1A11(1) dated 14th Nove'2013 by MOEF (I.A.Division)

Sir,

With reference to the above subject matter and the above referred TORs issued by the Ministry, we have to submit the certificate of compliance of EC conditions certified by the Regional Officer, MOEF, Bhopal..The TORs issued by the MOEF and the compliance of the EC conditions of the Department of Environment, Govt of Maharashtra are enclosed for your ready reference. We submit that we have expanded only the Sugar Unit Capacity from 2500 to 3500 TCD and not implemented the 15 MW Co-generation power plant. The present TORs are for the expansion of the Sugar Unit capacity from 3500 to 5000 TCD and establishing 24 MW Co-generation Power Plant. Your early action to issue the certificate would enable us to undertake the Project work after the receipt of the EC for the proposed expansion of the Sugar Unit Capacity and establishing the Co-generation Power Plant.

Thanking You,

Yours faithfully,

Managing Director

Encl:(1) TORs
(2) EC for the 3500 TCD.
(3) Compliance of the EC conditions.
