Sub: Application for obtaining Terms of Reference (TOR) and Environmental clearance, of EIA for Construction of 2x2 Lane Bridge with footpath across river Ganga between Sultanganj (Bhagalpur District) and AguwaniGhat (Khagaria District) including navigational span of cable stayed and approaches (Connecting NH31 and NH-80) in the State of Bihar on EPC mode under Special works division Khagaria, Bihar by Raja PulNirman Nigam Ltd.

REF:SEIAA/BIR/NCP/34926/2019

Dear Sir,

As per your EDS for environmental clearance for Construction of 2x2 Lane Bridge with footpath across river Ganga between Sultanganj (Bhagalpur District) and AguwaniGhat (Khagaria District) including navigational span of cable stayed and approaches (Connecting NH31 and NH-80) in the State of Bihar on EPC mode under Special works division Khagaria, Bihar. We would like to draw your kind attention towards the clarification on violation of the project.

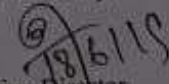

1. As per the EIA notification 2006, till the year 2015 the project was out of the ambit of the requirement of EC. Construction work for Bridge work over river was started in the year 2015 only, till that year no such provision for the bridge project and highway with less than 100 km. length was in force.
2. The project was given administrative approval vide letter no.8797(s) dated 14.11.2013 of Road construction Department of Bihar Govt.
3. This project is a NH31 to NH80 connectivity of length less than 100km (nearly 25 km.)
4. Now we want to start the construction work of approach road, highway hence the environmental clearance is sought.
5. The ongoing construction of bridge is already reported in our first letter dated 30/07/2019. (Attached)

It is, therefore, requested that the project may not be appraised as a case of violation but it should be treated as applied delayed only. We may request your honour to process our proposal for environment clearance at an early date.

Thanking you.

(W-E) :-

Yours faithfully,

Managing Director
