

# State Level Environment Impact Assessment Authority-Karnataka

(Constituted by MoEF, Government of India, under section 3(3) of E(P) Act, 1986)

## Proceedings of the 152<sup>nd</sup> SEIAA Meeting held on 7<sup>th</sup> July 2018 at Room No. 709, M.S Building, Bangalore.

### Members present: -

- |                       |   |                         |
|-----------------------|---|-------------------------|
| 1. Dr. K. C. Jayaramu | - | Chairman, SEIAA         |
| 2. Dr. H. B. Aravinda | - | Member, SEIAA           |
| 3. Sri. Ramachandra   | - | Member Secretary, SEIAA |

The Chairman welcomed the members and initiated the discussion. The subjects discussed and the decisions made under each of the agenda point are as follows:

### **152.1. Proceedings of 151<sup>st</sup> SEIAA Meeting held on 26<sup>th</sup> June 2018.**

Proceedings of 151<sup>st</sup> SEIAA Meeting held on 26<sup>th</sup> June 2018 was circulated. The Authority perused the proceedings and confirmed.

### **152.2. Review of progress of SEIAA/DEIAAs, Karnataka-reg.**

#### **152.2.1 Review of progress of SEIAA, Karnataka-reg.**

The Authority perused the progress report sent to MoEF&CC, Government of India on 5.7.2018. The Authority noted that a total number of 265 applications have been cleared by the Authority during this calendar year from 01.01.2018 to 30.06.2018. The Authority further noted that as on date a total number of 71 proposals are at various stages of consideration (Industry- 11, Mining (non-coal)- 23 and building & construction- 37). The Authority observed that out of total number of 71 applications, 19 applications are pending for a period of more than three months. The Authority decided to expedite disposal of such proposals which are pending for more than three months.

#### **152.2.2 Review of progress of DEIAAs, Karnataka-reg.**

While reviewing the progress DEIAAs, the Authority noted that only a few DEIAAs have submitted their monthly progress report. The Authority further noted that it has come to the notice of the Authority regarding huge pendency before the District Level Environment Impact Assessment Authorities/ District Level Expert Appraisal Committees.

The Member Secretary recalled the discussion held during the meeting of MoEF&CC both in Delhi and Chennai with regard to pendency in the DEIAAs. The Member Secretary further informed that suggestions were made by different States to MoEF&CC to amend the relevant provisions of the EIA Notification, 2006 to escalate the proposals pending for disposal from DEIAA to SEIAA soon after the

expiry of the specified time limit and to bring in required modification in the software of the e-portal. The Ministry also responded positively in this regard.

The Authority invited reference to the Appendix XI of EIA Notification, 2006 introduced vide Notification No. S.O. 141 (E) dated 15<sup>th</sup> January 2016 and noted that the SEIAA has the supervisory jurisdiction over the DEIAAs and therefore need to ensure the applications seeking Environmental Clearance from the DEIAA are disposed off within the time line prescribed and in a transparent manner as stipulated in the Notification. The Authority after discussion decided as follows:

1. To get the details of applications received, disposed off and pending in each of the DEIAA.
2. To get the details of online applications of DEIAA and their pendency status.
3. To request for video conference by the Additional Chief Secretary to Government, Department of Forest, Ecology and Environment with all the Deputy Commissioners who are the chairmen of the DEIAAs to know the functioning of the DEIAAs pending status and action required for expedite speedy disposal of applications seeking Environmental Clearance by DEIAA under EIA Notification, 2006.
4. To address a letter to the Secretary, MoEF&CC from the Authority explaining the status of pendency in the DEIAA and request for amendment of the relevant provision in the EIA Notification, 2006 to facilitate escalation of proposals/applications before DEIAA to SEIAA in all such cases where the proposals are not disposed off within the stipulated timeline.

### 152.3. Fresh Project:

#### Construction Projects:

- 152.3.1. **Proposed expansion of Residential Apartment project at Sy.No.65(P), 66/4, 66/2(B), 66/2(C), 66/5, 67/4, 67/5, 67/6, 67/7, 68/4, 68/5, 69/4, 69/6, 69/7, 69/8, 70/5, 70/6, 70/1B, 70/7, 70/8(P) Kodigehalli Extension, Municipal Ward No.08, Byatarayanapura, Bangalore North Taluk, Bangalore-560 092 by M/s. Antevorta Developers Pvt Ltd. (SEIAA 29 CON 2018)**

M/s. Antevorta Developers Pvt. Ltd have proposed for expansion of Residential Apartment project on a plot area of 40,569.39 Sqm. The total built up area is 1,90,262.22 Sqm. The proposed project consists of 933 No's of Residential units in 9 wings. Wings 1 to 3 are having 3 Basements+ Ground Floor + 22 Upper Floors+ Terrace Floor, Wing 4 to 9 are having 3 Basements + Ground Floor + 18 Upper Floors+ Terrace Floor. Total parking space proposed is for 1328No's of Cars. Total water consumption is 627.26 KLD (Fresh water + Recycled water). The total wastewater discharge is 565.53 KLD. It is proposed to construct Sewage Treatment Plant with a capacity of 650 KLD. The project cost is Rs.800 Crores.

The proponent had obtained Environmental Clearance vide letter No. SEIAA 50 CON 2012 dated 11.10.2012 for construction of residential apartment on a plot area of 40,470 Sqm. The total built up area is 1,47,082.66 Sq. m and the proposed building consists of 545 units in six wings with 3B+1stilt+18UF.

The SEAC during the meeting held on 17.02.2018 have decided to recommend the proposal to SEIAA for issue of standard ToRs along with additional ToRs. The Authority during the meeting held on 3<sup>rd</sup> March 2018 decided to issue ToR as recommended by SEAC for conducting the Environment Impact Assessment study in accordance with EIA Notification, 2006. Accordingly the ToR was issued vide letter dated 20.3.2018. The proponent have submitted the EIA report vide letter dated 28.05.2018.

The subject was appraised in the SEAC meeting held on 15<sup>th</sup> June 2018. The Committee noted that as seen from the village survey map there is a tertiary nala running along the eastern side of the project site for which the proponent has stated that he has left 25 meter buffer zone as per NGT order except some portion of fire drive way built around the already completed block which is in the buffer zone. For the remaining portion which is covered under the fresh proposal, the buffer zone will be left undisturbed by building fire drive way beyond buffer zone limits. In addition to the above the proponent has stated that he has already built entry and exit as per the earlier proposal which is also cutting across the buffer zone. The committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to submission of the following information:

- 1) Specific source of treated water for the construction with an undertaking/MoU with the prospective supplier of such treated water and with water quality analysis report to establish that such treated water is fit for construction purpose.
- 2) Details of specific activities proposed to be undertaken as part of corporate environmental responsibility (CER) with activity, budget and time frame as per O.M. F. No.22-65/2017-IA.III dated 1<sup>st</sup> May 2018.

The Authority also decided to impose the following additional conditions:

1. The proponent to conduct energy audit by an accredited agency before operation of the project in accordance with the Bureau of Energy Efficiency.
2. 5 to 10 % of the parking space shall be reserved for electric vehicles with recharging facility

**152.3.2. Proposed Residential Apartment project at Sy. Nos.81/2, 92/4, Ward No.192 of Kammanahalli village, BegurHobli, Bangalore South Taluk, Bangalore Urban District by M/s. Sai Nandana Properties (SEIAA 84 CON 2018)**

M/s. Sai Nandana Properties have proposed for construction of Residential Apartment Project on a plot area of 8,599.49 Sqm. The total built up area is 28,778.81Sqm. The proposed project consists of 180 No's of Residential units in 4 Wings, (i.e. Wing A, B, C & D) with Basement Floor + Ground Floor + 4 Upper Floors + Terrace Floor. Total parking space proposed is for 198No's of Cars. Total

water consumption is 125.55 KLD (Fresh water + Recycled water). The total wastewater discharge is 119.27 KLD. It is proposed to construct Sewage Treatment Plant with a capacity of 125 KLD. The project cost is Rs.56 Crores.

The subject was discussed in the SEAC meeting held on 15<sup>th</sup> June 2018. The Committee observed from the village survey map that there are no water bodies within the project area either in the form of natural nalas or lakes which require buffer zone as per NGT order. The committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to submission of the following information:

- 1) Specific source of treated water for the construction with an undertaking/MoU with the prospective supplier of such treated water and with water quality analysis report to establish that such treated water is fit for construction purpose.
- 2) Details of specific activities proposed to be undertaken as part of corporate environmental responsibility (CER) with activity, budget and time frame as per O.M. F. No.22-65/2017-IA.III dated 1<sup>st</sup> May 2018.

The Authority also decided to impose the following additional conditions:

1. The proponent to conduct energy audit by an accredited agency before operation of the project in accordance with the Bureau of Energy Efficiency.
2. 5 to 10 % of the parking space shall be reserved for electric vehicles with recharging facility.

**152.3.3. Proposed Residential Apartment Project at Sy. No.69/1 of Agrahara Village, YelahankaHobli, Bangalore North Taluk, Bangalore Urban District by Smt. Vijayaraj (SEIAA 90 CON 2018)**

Smt. Vijayaraj have proposed for construction of Residential Apartment Project on a plot area of 12,019.1 Sqm. The total built up area is 26,618.25 Sqm. The proposed project consists of 360 No's of Residential units in 2 buildings with 1 Stilt Floor + Ground Floor + 3 Upper Floors + Terrace Floor. Total parking space proposed is for 200 No's of Cars. Total water consumption is 251.10 KLD (Fresh water + Recycled water). The total wastewater discharge is 238.55 KLD. It is proposed to construct Sewage Treatment Plant with a capacity of 245 KLD. The project cost is Rs.52 Crores.

The subject was discussed in the SEAC meeting held on 15<sup>th</sup> June 2018. The Committee observed from the village survey map that there are no water bodies within the project area either in the form of natural nalas or lakes which require buffer zone as per NGT order. The committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to submission of the following information:

- 1) Revised water balance chart incorporating process of tertiary treatment of waste water for flushing and other non-potable purposes.
- 2) Specific source of treated water for the construction with an undertaking/MoU with the prospective supplier of such treated water and with water quality analysis report to establish that such treated water is fit for construction purpose.
- 3) Details of specific activities proposed to be undertaken as part of corporate environmental responsibility (CER) with activity, budget and time frame as per O.M. F. No.22-65/2017-IA.III dated 1<sup>st</sup> May 2018.

The Authority also decided to impose the following additional conditions:

1. The proponent to conduct energy audit by an accredited agency before operation of the project in accordance with the Bureau of Energy Efficiency.
2. 5 to 10 % of the parking space shall be reserved for electric vehicles with recharging facility.
3. The proponent shall install mobile STP instead of septic tank and soak pit during construction phase.

**152.3.4. Proposed Development of Residential Apartment with club house" at Khata No.48/2807/29-A, Site No.29-A, Karnataka Housing Board Layout, Yelahanka New Town, Bengaluru North Taluk, Bengaluru by M/s. DSR Infrastructure Pvt Ltd.,(SEIAA 92 CON 2018)**

M/s. DSR Infrastructure Pvt. Ltd. have proposed for construction of Residential Apartment Project on a plot area of 8,989.37 Sqm. The total built up area is 37,512.5 Sqm. The proposed project consists of 212No's of Residential units with 2B+GF+13UF & club house with Ground Floor. Total parking space proposed is for 250 No's of Cars. Total water consumption is 157KLD (Fresh water + Recycled water). The total wastewater discharge is 141 KLD. It is proposed to construct Sewage Treatment Plant with a capacity of 145 KLD. The project cost is Rs.55 Crores.

The subject was discussed in the SEAC meeting held on 15<sup>th</sup> June 2018. The Committee noted that the project is located in the layout formed by KHB in Yelahanka New Town way back during 60's & 70's. Since the formation of the layout, only roadside drains are draining off the entire storm water and no natural nala was found which attracts buffer zone as per NGT order. The committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to submission of the following information:

- 1) Status of sheds proposed to be demolished and details of erstwhile industry.
- 2) Specific source of treated water for the construction with an undertaking/MoU with the prospective supplier of such treated water and with water quality analysis report to establish that such treated water is fit for construction purpose.
- 3) Details of specific activities proposed to be undertaken as part of corporate environmental responsibility (CER) with activity, budget and time frame as per O.M. F. No.22-65/2017-IA.III dated 1<sup>st</sup> May 2018.

The Authority also decided to impose the following additional conditions:

1. The proponent to conduct energy audit by an accredited agency before operation of the project in accordance with the Bureau of Energy Efficiency.
2. 5 to 10 % of the parking space shall be reserved for electric vehicles with recharging facility.
3. The proponent shall submit the list of existing trees and trees to be cut and revised list of trees proposed to be planted.
4. The proponent shall exercise due diligence while dismantling existing structure and disposing of the debris.

**152.3.5. Proposed Development of Residential Villas and a clubhouse" at Sy.No.64/1, 64/2, 65/1, 65/2, 65/3, 65/4, 69/3, 70/1, 70/2 of Bidare Agrahara Village & Sy.No.101/1, of Doddabanahalli Village, Bidarahalli Hobli, Bengaluru East Taluk, Bengaluru by DSR Infrastructure Pvt Ltd., (SEIAA 93 CON 2018)**

M/s. DSR Infrastructure Pvt. Ltd. have proposed for Development of Residential Villas and a Clubhouse Project on a plot area of 78,680.57 Sqm. The total built up area is 59,230.76 Sqm. The proposed project consists of 125 No's of Residential units in villas in G+2UF and a clubhouse in B+G+2UF. Total parking space proposed is for 314 No's of Cars. Total water consumption is 86 KLD (Fresh water + Recycled water). The total wastewater discharge is 82 KLD. It is proposed to construct Sewage Treatment Plant with a capacity of 85 KLD. The project cost is Rs.111 Crores.

The subject was discussed in the SEAC meeting held on 15<sup>th</sup> June 2018. The Committee observed from the details submitted by the proponent along with the application that, there is one oil pipeline passing on the northern side of the project site and one BWSSB water supply pipeline passing in the middle of the project site. As per the revenue sketch drawn to the scale it appears that 7 meter width of land is acquired for laying the water supply line. The proponent has also stated that he has left 5 meter setback on either side of this 7 meter strip.

The Committee further observed from the village survey map that there is a lake in the Sy. No.104 of Doddabanahalli which is adjacent to the Sy.No.101/1 which

is part of the project area. The proponent has also submitted the land records wherein the said lake area has been granted to various persons in the year 1979 and the said area and the surrounding areas are coming under the zone earmarked for traffic and transportation as per CDP plan 2015. The proponent has also stated that the area which form the part of the project site has been got changed to residential zone. Keeping in view this re-grant of existing lake as per village survey map, the proponent has not left any buffer zone. Also as per the village survey map there are two tertiary nalas one all along the northern boundary of the project site for which the proponent has stated that he has left 25 meter buffer zone as per NGT order. As far as the other tertiary nala coming in Sy.No.64/1 and 70, the nala originates in these survey numbers and ends up there only. The proponent has furnished a revenue survey map prepared by the revenue authorities wherein it is mentioned that the tertiary nala exists only in Sy. No.70/2 and is silent about the portion of the nala existing in Sy.No.64/1. The proponent has stated that he has not left any buffer zone as far as tertiary nala running in Sy.No.64/1 and 64/2 since it is non existence as per the land survey records. Whereas the proponent has stated that he has left 25 meter buffer zone for the nala appearing in Sy.No.70/2. The committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to submission of the following information:

- 1) Specific source of treated water for the construction with an undertaking/MoU with the prospective supplier of such treated water and with water quality analysis report to establish that such treated water is fit for construction purpose.
- 2) Details of specific activities proposed to be undertaken as part of corporate environmental responsibility (CER) with activity, budget and time frame as per O.M. F. No.22-65/2017-IA.III dated 1<sup>st</sup> May 2018.

The Authority also decided to impose the following additional conditions:

- 1) The proponent to conduct energy audit by an accredited agency before operation of the project in accordance with the Bureau of Energy Efficiency.
- 2) 5 to 10 % of the parking space shall be reserved for electric vehicles with recharging facility.

**152.3.6. Proposed Commercial Project (Retail, Incubation Centre, Offices, Multiplex, Assisted Living, Service Apartments and Hotel) in Sy.No.115, 116, and 117 at Kannamangala Village KasabaHobli, Devanahalli Taluk, Bangalore Rural District by M/s. Hansoge Enterprises Pvt Ltd and M/s Ozone Urbana Infra Developers Pvt Ltd. (SEIAA 66 CON 2018)**

M/s. Ozone Infra Developers Pvt Ltd. have proposed for construction of Commercial Development (Retail, Incubation Center, Offices, Multiplex, Assisted Living, Service Apartments and Hotel) Project on a plot area of 38040.45 Sqm. The

total built up area is 1,48,795.65Sqm. The proposed project consists of 4 Blocks. Block-1 comprises of Tower A for Retail, Incubation Center and Office (3B+G+8UF), Tower B for Retail and Office(3B+G+8UF), Tower C with Multiplex and Retail Floors (3B+G+5UF). Block-2 comprises of Assisted Living and Service Apartments(2B+G+9UF), Block-3 comprises of Premium Office Tower(3B+G+8UF) and Block -4 with Hotel (2B+G+5 UF). Total parking space proposed is for 3322 No's of Cars. Total water consumption is 780 KLD (Fresh water + Recycled water). The total wastewater discharge is 640 KLD. It is proposed to construct Sewage Treatment Plant with a capacity of 650 KLD (200 KLD, 60 KLD, 40 KLD, 100 KLD, 125 KLD & 125 KLD). The project cost is Rs.250 Crores.

The subject was discussed in the SEAC meeting held on 5<sup>th</sup> May 2018. The Committee noted that as per the village survey map there are no water bodies either in the form of natural nalas or lakes which attracts buffer zone as per NGT order. The committee also observed that earlier five to six similar proposals have come up and E.C has also been issued in the same area in the name of M/s. Ozone Urbana Infra Developers Pvt Ltd projects and the proponents was asked to submit combined area development plan comprising all these proposals for which the proponent has agreed. The committee decided to reconsider the proposal after submission of the following information:

- 1) The proponent to workout and submit the earthwork management within the site taking into consideration 12 meter fall in the area within the site.
- 2) The proponent to submit the solar panel layout plan utilizing the entire terrace area.
- 3) The proponent to submit the combined plan including the proposals which are cleared earlier.

The committee during the meeting held on 15<sup>th</sup> June 2018 perused the replies submitted by the proponent in the ongoing meeting held on 15-6-2018 and accepted the same. The committee decided to recommend the proposal to SEIAA for issue of Environmental Clearance.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to submission of the following information:

- 1) Specific source of treated water for the construction with an undertaking/MoU with the prospective supplier of such treated water and with water quality analysis report to establish that such treated water is fit for construction purpose.
- 2) Details of specific activities proposed to be undertaken as part of corporate environmental responsibility (CER) with activity, budget and time frame as per O.M. F. No.22-65/2017-IA.III dated 1<sup>st</sup> May 2018.

The Authority also decided to impose the following additional conditions:

- 1) The proponent to conduct energy audit by an accredited agency before operation of the project in accordance with the Bureau of Energy Efficiency.

- 2) 5 to 10 % of the parking space shall be reserved for electric vehicles with recharging facility.
- 3) The proponent shall identify suitable place(KIOSK) for collection and storage of E-Wastes generated within the premises and shall be disposed of regularly only with the KSPCB authorized E-waste recyclers.

**152.3.7. Proposed Office Building Project at Part Sy.Nos.16/1, 16/2, Plot Nos.125, 126 & 127 of Sonnenahalli Village, EPIP, Phase II, Whitefield, K.R.PuramHobli, Bangalore East Taluk, Bangalore Urban District by M/s. Qualcomm India Pvt. Ltd. (SEIAA 76 CON 2018).**

M/s. Qualcomm India Pvt Ltd., have proposed for construction of office Building project on a plot area of 9524.00 Sqm. The total built up area is 37,911 Sqm. The proposed project consists of 2 Buildings. Building 1 (existing) having 2 Basements + Ground Floor + 5 Upper Floors + Terrace Floor & Building 2 having 3 Basements + Ground Floor + 4 Upper Floors + Terrace Floor. Total parking space proposed is for 428 No's of Cars. Total water consumption is 75 KLD (Fresh water + Recycled water). The total wastewater discharge is 70 KLD. It is proposed to construct Sewage Treatment Plant with a capacity of 70 KLD. The project cost is Rs.150 Crores.

The subject was discussed in the SEAC meeting held on 15<sup>th</sup> June 2018. The Committee noted from the village survey map there is a tertiary nala in the project site. The proponent has stated that the project is in EPIP II Phase and the land for which was acquired by KIADB and after forming industrial area development layout this portion of land was allotted to the proponent. There is no mention about the existence of the nala in the revenue land records and in the land records it has simply mentioned that the land is acquired by KIADB. The road side drain built by KIADB is of size 1.0 m x 1.2 m. The proponent has stated that the carrying capacity of the road side drain is sufficient to drain off the runoff water from the entire area of the EPIP. The committee after discussion decided to reconsider the proposal after submission of the following information:

- 1) The proponent shall revise & submit the water balance chart.
- 2) The proponent has to design the capacity of the rainwater storage tank taking into consideration the entire terrace area.
- 3) The proponent shall submit the scheme to utilize the entire terrace for solar power panels.
- 4) The proponent shall submit management of demolition waste.

The committee during the meeting held on 15.6.2018 perused the replies submitted by the proponent vide letter dated:14-6-2018 and accepted the same. The Committee decided to recommend the proposal to SEIAA for issue of Environmental Clearance.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to submission of the following information:

- 1) Revised scaled layout plan clearly indicating entry/exit, STP/MSW treatment facility, RG area, internal circulation roads and location of all other infrastructural facility duly signed by the project proponent.
- 2) Commitment with regard to adoption of SBR technology for treatment of wastewater.
- 3) Specific source of treated water for the construction with an undertaking/MoU with the prospective supplier of such treated water and with water quality analysis report to establish that such treated water is fit for construction purpose.
- 4) Details of specific activities proposed to be undertaken as part of corporate environmental responsibility (CER) with activity, budget and time frame as per O.M. F. No.22-65/2017-IA.III dated 1<sup>st</sup> May 2018.

The Authority also decided to impose the following additional conditions:

1. The proponent to conduct energy audit by an accredited agency before operation of the project in accordance with the Bureau of Energy Efficiency.
2. 5 to 10 % of the parking space shall be reserved for electric vehicles with recharging facility.
3. The proponent shall identify suitable place(KIOSK) for collection and storage of E-Wastes generated within the premises and shall be disposed of regularly only with the KSPCB authorized E-waste recyclers.

**152.3.8. Proposed Office Building Project at Part Sy.Nos.26, 27 & 28 of Kundharahalli Village, Plot Nos.177 & 179, EPIP, Phase II, Whitefield, K.R.PuramHobli, Bangalore East Taluk, Bangalore Urban District by M/s. Qualcomm India Pvt. Ltd. (SEIAA 77 CON 2018).**

M/s. Qualcomm India Pvt Ltd.have proposed for construction of office Building Project on a plot area of 24,909Sq.m. The total built up area is 93,980Sq.m. The proposed project consists of 2 Buildings. Building 1 having 3 Basements + Ground Floor + 8 Upper Floors + Terrace Floor & Building 2 having 2 Basements + Ground Floor + 7 Upper Floors + Terrace Floor and MLCP having 2 Basements + Ground floor + 5 Upper Floors + Terrace floor.. Total parking space proposed is for 1009No's of Cars. Total water consumption is 205KLD (Fresh water + Recycled water). The total wastewater discharge is 184 KLD. It is proposed to construct 2 Sewage Treatment Plant with a capacity 100 KLD & 90 KLD. The project cost is Rs.188 Crores.

The subject was discussed in the SEAC meeting held on 1<sup>st</sup> June 2018. The Committee observed from the village survey map there is a tertiary nala on the western side at about 50 meters from the project site and a lake on the southern side about 65 meters from the southern boundary of the site for which the proponent has stated he has left 10 to 15 meter buffer in his project site maintaining 75 meter buffer from the lake. As per the conceptual plan, the approach road to the project runs

across the buffer zone for which the proponent has agreed to build the approach road at the elevated level leaving the buffer zone undisturbed except by putting up some columns. The committee after discussion decided to reconsider the proposal after submission of the following information:

- 1) The proponent shall revise & submit the water balance chart.
- 2) The proponent has to design the capacity of the rainwater storage tank taking into consideration the entire terrace area.
- 3) The proponent shall submit the scheme to utilize the entire terrace for solar power panels.
- 4) Scheme for development of greenery in the buffer area.

The committee during the meeting held on 15.6.2018 perused the replies submitted by the proponent vide letter dated:14-6-2018 and accepted the same. The committee decided to recommend the proposal to SEIAA for issue of Environmental Clearance.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to submission of the following information:

- 1) Commitment with regard to adoption of SBR technology for treatment of wastewater.
- 2) Specific source of treated water for the construction with an undertaking/MoU with the prospective supplier of such treated water and with water quality analysis report to establish that such treated water is fit for construction purpose.
- 3) Details of specific activities proposed to be undertaken as part of corporate environmental responsibility (CER) with activity, budget and time frame as per O.M. F. No.22-65/2017-IA.III dated 1<sup>st</sup> May 2018.

The Authority also decided to impose the following additional conditions:

1. The proponent to conduct energy audit by an accredited agency before operation of the project in accordance with the Bureau of Energy Efficiency.
2. 5 to 10 % of the parking space shall be reserved for electric vehicles with recharging facility.
3. The proponent shall identify suitable place(KIOSK) for collection and storage of E-Wastes generated within the premises and shall be disposed of regularly only with the KSPCB authorized E-waste recyclers.

**152.3.9. Proposed Development of Commercial Building at PID No. 10-1-42, Municipal No. 42, Site Nos. 11/1, 12, 12/1 & 13, Rajajinagar Industrial Extension, Tumkur Road, Yeshwanthpur, Bengaluru by M/s. Darshita Southern India Happy Homes Pvt. Ltd.(SEIAA 66 CON 2017)**

M/s. Darshita Southern India Happy Homes Pvt. Ltd. have proposed for construction of Commercial Building Project on a plot area of 37,695.87 Sqm. The total built up area is 1,76,666.90Sqm. The proposed project consists of Tower A with 3B+G+9UF and Tower B with 3B+G+10UF. Total parking space proposed is for 2,238

No's of Cars. Total water consumption is 598KLD (Fresh water + Recycled water). The total wastewater discharge is 538KLD. It is proposed to construct Sewage Treatment Plant with a capacity of 585 KLD. The project cost is Rs.449.86 Crores.

Earlier the proponent had applied seeking Environmental clearance for the proposal for Development of Residential apartment of 680 units in 6 towers of which Tower 1&2 with 2B+G+26UF & Tower 3,4,5 & 6 with 2B+G+27UF and two club houses with 2B+G+2UF, on a total Plot area of 37695.87 Sq.mts and with total Built up area of 1,74,093.12 Sq.mts.

The committee had appraised the earlier proposal during the meeting held on 21<sup>st</sup> April 2017 and decided to recommend the proposal to SEIAA for issuing ToRs to conduct the EIA studies in accordance with the EIA Notification 2006 and relevant guidelines along with the additional ToRs. Accordingly ToRs were issued vide letter dated 28.04.2017. The project proponent has submitted the EIA report vide letter dated 04.09.2017.

The subject was placed before SEAC meeting held on 15.03.2018 for appraisal of the revised application submitted by the proponent vide letter dated: 3-2-2018. The committee noted that this is the proposal for issue of modified TORs. Earlier TORs were issued during 2017 and the proponent has stated that he has conducted studies in the month of March, April & May 2017. Now the proponent is converting the proposal from residential purpose to commercial purpose. The proponent has also requested to permit him to use the seasonal data collected already in the months of march, April & May 2017. The committee decided to recommend the proposal to SEIAA for issue of to issual of TORs subject to the conditions that the proponent will study one time baseline data along with the comparative assessment of the changes that have taken place in one year. The Authority during the meeting held on 24.3.2018 decided to issue ToR as recommended by SEAC for conducting the Environment Impact Assessment study in accordance with EIA Notification, 2006. Accordingly the ToR was issued vide letter dated 19-4-2018. The proponent have submitted the EIA report vide letter dated 26-4-2018.

The committee examined the proposal during the meeting held on 15.06.2018 and decided to recommend the proposal to SEIAA for issue of Environmental Clearance.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to submission of the following information:

- 1) Specific source of treated water for the construction with an undertaking/MoU with the prospective supplier of such treated water and with water quality analysis report to establish that such treated water is fit for construction purpose.
- 2) Details of specific activities proposed to be undertaken as part of corporate environmental responsibility (CER) with activity, budget and time frame as per O.M. F. No.22-65/2017-IA.III dated 1<sup>st</sup> May 2018.

The Authority also decided to impose the following additional conditions:

- 1) The proponent to conduct energy audit by an accredited agency before operation of the project in accordance with the Bureau of Energy Efficiency.
- 2) 5 to 10 % of the parking space shall be reserved for electric vehicles with recharging facility.
- 3) The proponent shall identify suitable place(KIOSK) for collection and storage of E-Wastes generated within the premises and shall be disposed of regularly only with the KSPCB authorized E-waste recyclers.

**152.4. Miscellaneous:**

**152.4.1. Continuing the services of Shri Krishnamurthy for assisting in maintenance of the books of accounts of the Authority for the year 2018-19.**

The Authority noted that, services of Shri Krishnamurthy have been availed by the Authority during the previous financial year for maintenance of the books of accounts of the Authority. As the Authority does not have a full time qualified accountant / accounting person, it is required to continue the services of Shri Krishnamurthy for maintenance of the books of accounts. The Authority further noted that Shri G. Krishnamurthy have expressed interest in continuing his services.

The Authority after discussion decided to continue to avail the services of Shri G. Krishnamurthy for accounting for the year 2018-19.

**152.4.2. Construction of residential apartment project with 72 units called "Chows Royal Gardenia" at Sy. No. 15/2, Myadarahalli, Yeshwantpura Hobli, Bangalore North Taluk, Bangalore by M/s. The Chow Holdings - Request for change of name- reg (SEIAA 118 CON 2011)**

The Environmental Clearance has been issued to M/s. The Chow Holdings, Bangalore vide letter No. SEIAA 118 CON 2011 dated 21<sup>st</sup> December 2011 for construction of residential apartment on a plot area of 8,599.49 Sq. m. The total built up area is 24,900.36 Sq. m. The proposed building consists of 72 units in 2 blocks with B+GF+9UF + Terrace floor and a club house with G+2UF.

Now, M/s Suvilas Properties Pvt. Ltd. vide letter dated 28.06.2018 have submitted that the said land has been sold to them from M/s. The Chow Holdings. M/s Suvilas Properties Pvt. Ltd. have therefore requested to transfer the Environmental Clearance No. SEIAA 118 CON 2011 dated 21<sup>st</sup> December 2011 to their favour. He has also been submitted the Absolute Sale Deed and Memorandum of Association.

The Authority perused the request made by the proponent. The Authority noted that transfer of prior Environmental Clearance for a specific project is permissible as per the provisions under para 11 of the EIA Notification, 2006. The Authority after discussion, decided to permit transfer of E.C. on the same terms and conditions under which the prior Environmental Clearance has been granted subject to condition that the applicant to submit documents that establishes transfer of property from M/s. The Chow Holdings to M/s Suvilas Properties Pvt. Ltd. along with NOC from M/s. The Chow Holdings.

**152.4.3. Modification & Expansion of Bulk Drug & Intermediates Unit Project at Plot No.4/A-D, KIADB Industrial Area, Bidar Taluk, Bidar District of M/s. Vani Organics Pvt. Ltd. - Corrigendum to be issued on the proceedings - (SEIAA 20 IND (VIOL) 2018)**

M/s. Vani Organics Pvt. Ltd. have proposed for expansion of Bulk drug and Intermediates manufacturing unit on a plot area of 34,528 Sqmt at Plot No.4/A-D, KIADB Industrial Area, Bidar Taluk, Bidar District.

The subject was discussed in the SEAC meeting held on 19.05.2018. The Committee appraised the proposal as per the Notification dated: 8-3-2018 issued by MoEF& CC considering the information provided in the statutory application-Form I, pre-feasibility report, proposed ToRs and clarification/additional information provided during the meeting. The proponent has requested the committee to permit him to adopt the baseline studies made during Jan 2017 to March 2017 for the same project under the pretext that the baseline studies done for the same project holds good for three years for which the committee accepted the same. The committee decided to recommend the proposal to SEIAA for issue of Standard ToRs and additional ToRs to conduct the EIA studies along with public hearing in accordance with the EIA Notification 2006 and relevant guidelines and to conduct public hearing.

The Authority during the meeting held on 1<sup>st</sup> June 2018 perused the proposal and took note of the recommendation of SEAC along with the representation submitted by the proponent vide letter dated 30.05.2015 requesting the Authority to treat this as case of non-violation.

The Authority observed that the industry is located in Kolhar Industrial Area which is covered in the report of the Secretary to Government, Dept, of Ecology & Environment to the Petition Committee during April 2016, wherein it has been noted that the proponent have manufactured Analgin and intermediates (Phenyl Methyl Pyrazolone) varying from 6.4 MT to 29.72 MT and Sodium Bi Sulphate varying from 19 MT to 74.5 MT. The report also reveals that the proponent have not complied the directions issued by the Karnataka State Pollution Control Board for closure in view of the non compliance to the environmental safety norms. The Authority opined that the Notification issued by the MoEF&CC& dated 14<sup>th</sup> March 2017 deals with the industries that have undertaken activities without prior Environmental Clearance as required under EIA Notification, 2006. In the instant case the proponent have not changed the product-mix that they were manufacturing prior to the inception of EIA Notification, 2006, but at times have enhanced the production beyond the specified limit of 13 MT/Month.

In view of the above facts and circumstances, the Authority decided to issue ToR for conducting the Environment Impact Assessment study with public consultation following the procedure laid down in the Notification No. S.O. 804 (E) dated 14<sup>th</sup> March 2017, Notification No S.O.1030 (E) dated 8<sup>th</sup> March 2018, order dated 13.10.2017 & 14<sup>th</sup> March, 2018 of Hon'ble High Court of Judicature at Madras in WMP Nos.3361 and 3362 of 2018, and WMP No.3721 of 2018 in WP No.11189 of 2017 and Office Memorandum F. No. Z-11013/22/2017-IA.II (M) dated 15<sup>th</sup> March 2018 and 16<sup>th</sup> March 2018 covering all the aspects of assessment of ecological

damage, remediation plan and natural and community resource augmentation plan including the estimation of amount required for remediation plan and Natural and Community Resource Augmentation Plan.

The Authority further decided that the ToR should carry an additional condition with regard to the proponent being party to ensure compliance on the issues covered in the direction issued to the Karnataka State Pollution Control Board under section 18(1)(b) of the Water (Prevention and Control of Pollution) Act, 1974 for assessment of the environmental damages caused and undertaking remediation measures.

It is submitted that in all such similar cases the Authority has decided as follows apart from issue of ToR. Whereas, this portion of the decision is not included in the proceedings of the Authority meeting held on 1<sup>st</sup> June 2018 by oversight.

"The Authority also decided to initiate action for the violation and file a complaint before the jurisdictional court under section 19 of the Environment (Protection) Act, 1986 as the direction has been already been issued vide letter dated 13.6.2016 under section 5 of Environment (Protection) Act, 1986.

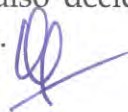

However, ToR has been issued vide letter No. **SEIAA 20 IND (VIOL) 2018** dated 15.06.2018 as per the decision of the Authority and incorporating the following, in anticipation of the post facto approval of the Authority.

1. To initiate action for the violation and file a complaint before the jurisdictional court under the provisions of section 19 of the Environment (Protection) Act, 1986.
2. The Karnataka State Pollution Control Board shall not issue Consent for Operation for the above said project until the project is granted Environmental Clearance from the competent authority.
3. You shall be required to submit a bank guarantee equivalent to the amount of remediation plan and natural and community resource augmentation plan with the Karnataka State Pollution Control Board prior to the grant of EC. The quantum shall be recommended by the SEAC and finalized by the regulatory authority (SEIAA, Karnataka). The bank guarantee shall be released after successful implementation of the EMP, and after the recommendations of the concerned Regional Office of the Ministry, the SEAC and approval of the regulatory authority (SEIAA, Karnataka).

The Authority perused the details and decided to issue corrigendum on the proceedings of the Authority meeting held on 1<sup>st</sup> June 2018 in respect of Agenda Item No. 150.4.7 and insert the following para at the end.

*" The Authority also decided to initiate action for the violation and file a complaint before the jurisdictional court under section 19 of the Environment (Protection) Act, 1986 as the direction has been already been issued vide letter dated 13.6.2016 under section 5 of Environment (Protection) Act, 1986".*

The Authority also decided to ratify the action taken to include the above points in the ToR letter.

**152.4.4. Construction of Breakwater/Guide bund adjacent to Quay of the Navigational Channel Modernisation of existing Fishing Harbour Project, Gangolli Village, Kundapur Taluk, Udupi District by Joint Director of Fisheries (SEIAA 4 IND 2015 )**

This is a proposal seeking Environment Clearance for Construction of Breakwater/Guide bund adjacent to Quay of the Navigational Channel Modernisation of existing Fishing Harbour Project, Gangolli Village, Kundapur Taluk, Udupi District by Joint Director of Fisheries(Fishing Harbours) Malpe, Udupi Taluk & District.

The Committee during the meeting held on 9/10/11.02.2015 had decided to appraise the proposal as B1 and decided to issue Standard ToR for conducting EIA study in accordance with EIA Notification 2006 and the relevant guidelines considering the impact both on marine and terrestrial environment and after duly incorporating outcome of the public consultation. Accordingly, the ToRs were issued vide letter dated 03.03.2015.

Now, the proponent vide letter dated 05.04.2018 have requested for extension of validity of ToR.

O.M. No. J-11013/41/2006-IA-11 (I) (Part) dated 29<sup>th</sup> August 2017, issued by MoEF&CC, provides for extension of validity of the ToR for a period of one year. However, it requires consideration of SEAC since the application for extension of the validity is made after the expiry of the validity period.

The Authority perused the request made by the proponent for extension of the validity of ToR and send recommendation deemed fit based on merit.

**152.4.5. Chandapur Sand Block No. 1,(60-00 Acres) in Tungabhadra River Bed adjacent to Sy. No. 2, 8, 47 & 55 of Chandapur Village, Ranebennur Taluk, Haveri District of Sri. Saifulla Jadadi (SEIAA 74 MIN 2017)**

Sri. Saifulla Jadadi have proposed for sand quarrying at Chandapur Sand Block (Block no.01) in Tungabhadra River Bed adjacent to Sy No. 2, 8, 47 & 55 Chandapur Village, Ranebennur Taluk, Haveri Dist over an extent of 24.28 Ha (60 Acres).

The subject was discussed in the SEAC meeting held on 14<sup>th</sup> December 2017. The committee while appraising the proposal observed that some people said to be residents of Chandapur has addressed a petition letter to the Chairman, SEAC stating that unauthorised mining has already been taking place in this area and requesting to take action in this regard. The same has been discussed in the SEAC meeting and decided to forward the letter to the SEIAA to take credible action in the matter. The committee also observed that the proponent has not submitted the Joint inspection report, Replenishment data, cluster certificate and cluster sketch which is mandatory. The committee after discussion decided to defer the proposal.

The committee during the meeting held on 28.03.2018 perused the reply submitted by the proponent vide letter dated:22-3-2018. The Committee noted that as per the combined sketch prepared by DMG there are no other leased areas within the 500 meter from this block. As per the quarry plan the proponent proposed to take up mining only for a length of 950 meters excluding 25 meter left for river

crossing. The total length of the leased block is 1557 meters of which he has left untackled portion to a length of 350 meter on one side and another 250 meter on other side.

The Committee also noted that as per the plan and section of the sand block now submitted the average width of the block is 156 meter and the average width of the river is 401 meters and the buffer left on the right side bank is 192 meters and on the left side bank is 53 meter. The length of block considered for mining is 950 meter. The average RL of the top of the deposit is 520 meter and average RL of dry weather flow is 515.5 meter. The depth of the deposits is 3.0 meter and depth of mining proposed is 1.0 meter and thus the bottom level of the quarrying pit will be 3.5 meter above dry weather flow. The proponent has proposed to take up mining by dividing the mining area into five sub blocks and taking up mining in one sub block every year. The proponent has stated that he has identified the land for stock yard at a aerial distance of 73 meters from the river bank which is on the private land for which he has stated he has entered into an MOU with land owner. He has also stated that there is an existing cart track road connecting river bank with the stockyard which is 230 meters measured along the cart track road. The cart track road connecting black topped road takes off from the middle of the road connecting river bank to the stock yard and proceeds further to join the existing black topped village road at 300 meters from the take off point. It is envisaged with a production plan of 1,33,000 tons excluding wastages with a lease period of five years. The committee after discussion decided to forward the proposal to SEIAA for issue of Environment clearance with the following conditions after taking credible action in the matter:

- 1) In case the replenishment is lower than the approved rate of production, then the mining activity / production levels shall be decreased / stopped accordingly till the replenishment is completed.
- 2) The proponent shall stabilize the river bank with waste materials like pebbles and planting with khus grass and suitable plant species.
- 3) The overall depth of mining shall not exceed one meter from the top level at any point of time during the lease period.

The Authority during the meeting held on 2<sup>nd</sup> May 2018 perused the proposal and took note of the recommendation of SEAC. The Authority observed that the copies photographs submitted along with the complaint dated 8.12.2017 by the residents of Chandapura village, Ranebennur Taluk, Haveri District reveals rampant illegal mining activity in the proposed project site. The Authority opined that this issue calls for credible action as recommended by SEAC. The Authority after discussion decided to take the following actions:

- 1) Issue direction under section 5 of Environment (Protection) Act, 1986 following the Rules laid down in Rule 4 of Environment (Protection) Rules, 1986.
- 2) Issue notice to the project proponent show cause why action should not be taken against him under section 19 of the Environment (Protection) Act, 1986.

The Authority perused request received from the proponent on 06.07.2018 for re-consideration of the decision taken by the Authority on 2<sup>nd</sup> May 2018. The

Authority noted the following submissions made by the proponent in support of his claim that he is not involved in mining of river sand in said project site and have not violated any provisions of EIA Notification, 2006.

- a. He has participated in e-tender cum auction conducted by the Department of Mines & Geology for quarrying of river sand in Chandapura Block 1 and emerged as successful bidder.
- b. He has paid a security deposit of Rs. 26,40,000/- to the Department of Mines & Geology and have obtained letter of intent on 9<sup>th</sup> June 2017.
- c. He has applied for Environmental Clearance on 20.09.2017 .
- d. The Department of Mines & Geology is yet to issue quarry lease.
- e. He is waiting for the Environmental Clearance to undertake quarrying activity after the lease is issued by the DMG.
- f. The alleged quarrying of river sand has taken place even before him participated in e-tender.
- g. The complaint referred to in the proceedings also do not mention his name as the violator.

The Authority after discussion opined that in the absence of prima facie evidences to establish that the proponent have involved in quarrying of river sand without Environmental Clearance and based on the fact that he has narrated and submitted that he has not stepped into the project site yet, he cannot be held responsible for illegal quarrying that has taken place. The Authority therefore decided to recall the decision made during the meeting held on 2<sup>nd</sup> May 2018 for issue of direction under section 5 of Environment (Protection) Act and to issue notice for initiating action under section 19 of E(P) Act.

The Authority therefore considered the modified quarrying plan approved by the Senior Geologist, Mines & Geology Department, Haveri on 20.12.2017 and the recommendation made by SEAC. The Authority decided to issue Environmental Clearance for extraction of river sand as per the table given below in an area of 24.28 Ha (60 Acres) at Tungabhadra riverbed to a maximum depth of 1m from the existing surface, by semi mechanized method as per the Sustainable Sand Mining Management Guidelines, 2016 issued by the MoEF&CC, Government of India.

Year	Production (TPA)
I	20,000
II	27,000
III	28,000
IV	29,000
V	29,000
<b>Total Production</b>	<b>1,33,000</b>

The validity of the EC shall be 5 years from the date of issue of the Environmental Clearance.

**152.4.6. Residential Apartment Project at Sy.Nos.5/1, 5/2, 7/2, 10/2, 44/2, 44/5, 45/2A, 46 & 47 of Manchanahalli Village, Attibele Hobli, Anekal Taluk, Bangalore District by M/s. Iconica Projects- Request for corrigendum for EC issued - reg. (SEIAA 19 CON 2017)**

The project proponent had obtained Environmental Clearance vide letter No. SEIAA 19 CON 2017 dated 26.04.2017 for construction of residential apartment project of 1482 units with two buildings with 2B+G+14UF and club house with G+1UF, on a net Plot area of 56,174.92 Sq.mts and with total Built up area of 1,36,510.52 Sq.mts.

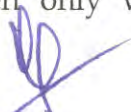

The proponent vide letter dated 21.6.2018 had submitted that they are proposing to construct only one Building (i.e., Building 2). The area earmarked for construction of Building 1 will be left for future development. Hence the proponent requested for issue of corrigendum on the EC issued to construct One Building with Tower 1 to 7 (3 Tower comprising B + G + 14UF, 3 Towers comprising B + G + 13UF and 1 Tower B + G + 14UF and club house with G+ 1F), reducing the number of apartments to 628 units from the earlier 1482 units, built up area to 53,738.39 Sqm from earlier 1,36,510.52 Sqm. The proponent also submitted the revised Form-1 and comparative statement.

The Authority during the meeting held on 26.6.2018 perused the request made by the proponent. The Authority noted that the entire project profile is changed and therefore decided to advise the proponent to seek modified Environmental Clearance in accordance with EIA Notification, 2006.

Now, the proponent vide letter dated 05.07.2018 have requested for reconsideration of the decision taken during the meeting held on 26.6.2018 and issue corrigendum as requested. The proponent have submitted the following grounds on support of their claim:

1. The project has been issued with Environmental Clearance vide letter No. SEIAA 19 CON 2017 dated 26.04.2017.
2. The EC issued towards construction of two buildings viz., Building 1 & Building 2 with 1482 units with a total built up area of 1,36,510.52 Sq.mts.
3. They now proposed to construct only one building i.e., Building No. 2 (Tower 1 to 7) with 628 flats having total built up are 53,738.39 Sqm. in place of the area earmarked for future development and keep the area proposed to be constructed as area kept for future development.
4. There is no change in the plot area and the environmental footage is drastically reduced.

The Authority perused the request made by the proponent. The Authority after discussion decided to issue corrigendum as requested by the proponent with an additional condition that further expansion/modification in the project shall be undertaken only with the prior Environmental Clearance from the competent authority.

**152.4.7. Complaint filed by Shri T. Narasimha Murthy regarding violation of specific conditions imposed in Environmental Clearance letter No. SEIAA 186 CON 2015 dated 2.11.2016 by M/s Sattva developers Pvt. Ltd**

The Authority noted that the complaint filed by Shri T. Narasimha Murthy regarding violation of specific conditions imposed in Environmental Clearance letter No. SEIAA 186 CON 2015 dated 2.11.2016 by M/s Sattva developers Pvt. Ltd was considered during the 151<sup>st</sup> meeting held on 26.6.2018 under Agenda Item No. 151.7.17. Whereas while drafting the proceedings it is mentioned as "Complaint filed by Mrs. Sudha Katwa" by oversight.

The Authority therefore decided to correct the same as "Complaint filed by Shri T. Narasimha Murthy" wherever it has appear the proceedings of the 151<sup>st</sup> SEIAA meeting held on 26.06.2018.

Meeting concluded with thanks to the Chair.
