1.1 GREEN BELT DEVELOPMENT

Status of Existing Greenbelt

The existing unit already has well developed greenbelt comprising of many plant species spreader over an area of 30775 m^2 of total plot area. Unit has carried out extensive plantation at its initial stage to till date, and as a result today existing project premises encompasses well developed greenbelt area. Greenbelt includes periphery plantation, road side plantation and plantation around various buildings which is shown in ***Photograph 1*** and map is shown in site layout plan as shown in ***xxxx.*** The greenbelt possess ~6000 No. well-developed trees consisting of 7 species, details are given in ***Table 1.***

Table 1: Details of Greenbelt Development at the Project Site

S. No.	Common Name	Total number of trees
1	Neem	3683
2	Teak	392
3	Fruit Bearing	809
4	Peepal	433
5	Others	982
Total no. of tress		**6304**
