

**MINUTES OF THE 64th MEETING OF
STATE EXPERT APPRAISAL COMMITTEE,
(SEAC), TELANGANA STATE
HELD ON 27.02.2020, 10:30 A.M.**

Minutes of the SEAC Meeting held on 27.02.2020

MINUTES OF THE 64th MEETING OF STATE EXPERT APPRISAL COMMITTEE (SEAC) HELD ON 27.02.2020 AT TSPCB, PARYAVARAN BHAVAN, A-3, I.E., SANATHNAGAR, HYDERABAD.

The following members were present:

S. No.	Name of the Expert	Position
1.	Prof.Ch.Krishna Reddy, H.No: 2-2-20/L/7, #401. Golden towers – II, Raja Rajeshwari BLPG, D.D. Colony, Hyderabad. Ph: 9866629265	Chairman.
2.	Dr.(Ms)Thatiparthi Vijayalakshmi Plot No.110, Siddartha Nagar, S.R. Nagar Post, Hyderabad-500038. Ph: 9440896661	Member
3.	Shri Ravindra Samaya Mantri H.No: 3-5-44/1, Flat No. 301, Areadia Apartments, Edengaden Road, Hyderabad- 500001. Ph:9491145160	Member
4.	Shri Suresh, B-106, Vertex prime, Nizampet Road, Kukatpalli, Hyderabad. Ph: 9177037785	Member
5.	Dr.Vemula Vinod Goud, H.No. 6-156, Sridurga Estates, Deepthisri Nagar, Madinaguda, Hyderabad-500049. Ph:9440386945	Member
6.	Dr.K.Shivakumar, Plot No. 328, Flat No: 302, Mehar Ninan, KPHB 6 th phase, Kukatpally, Hyderabad-500072 Ph: 9951701067	Member
7.	Prof.A.Panasa Reddy, H.No. 4-7-17/5/1, Ragharendra Nagar, Nacharam, Hyderabad-500076. Ph: 9849957268	Member
8.	Prof.B.Reddy Naik, Department of Zoology, University College of Science, Osmania University, Hyderabad-500007. Ph: 9290491044	Member
9.	Prof.C.Venkateshwar, Department of Botany, University College of Science. OU. Hyd. Flat No. 117, 'C' Block, Janapria castle, Ramnagar, Vidyanagar – Hyderabad Ph:9440487742 & 8096754604	Member
10.	Shri Billa Yella Reddy, H.No. 1-8-559, Balasamudram, Nakkalagutta, Hannmakonda, Warangal-506001. Ph:9963955924	Member

After general introductory remarks by the Chairman, SEAC, the Committee took up items agenda-wise. The decisions of the SEAC on each case are recorded below.

Minutes of the SEAC Meeting held on 27.02.2020

DECLARATION

It is hereby declared that the Chairman and members of SEAC, T.S., do not have conflict of interest with any project proponent pertaining to the items discussed in the SEAC meeting held on 27.02.2020.

S. No.	Name of the Expert	Signature
1.	Prof.Ch.Krishna Reddy	Sd/-
2.	Dr.(Ms)Thatiparthi Vijayalakshmi	Sd/-
3.	Shri Ravindra Samaya Mantri	Sd/-
4.	Shri Suresh	Sd/-
5.	Dr.Vemula Vinod Goud	Sd/-
6.	Dr.K.Shivakumar,	Sd/-
7.	Prof.A.Panasa Reddy	Sd/-
8.	Prof.B.Reddya Naik	Sd/-
9.	Prof.C.Venkateshwar	Sd/-
10.	Shri Billa Yella Reddy	Sd/-

Minutes of the SEAC Meeting held on 27.02.2020

Agenda Item No. 01	2.58 Ha. Building Stone & Road Metal of M/s. Sri Laxmi Metals & Builders, Sy. No. 231/1, Lohitha (V), Sangem (M), Warangal Rural District - Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/35188/1900

Earlier, the SEAC in its meeting held on 23.12.2019 deferred the project for detailed examination to ascertain the Net Cluster area so as to consider the project under B1 /B2 category.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 2.58 Ha. which is less than 5.0 Ha. It is further noted that the total Cluster area is 7.86 Ha. and Net Cluster area is 2.58 Ha. which is less than 5.0 Ha. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

After detailed discussions, the SEAC recommended the project for issue of EC.

Agenda Item No. 02	4.94 Ha. Black Granite Mine of M/s. Golden Enterprises, Sy. No. 51 & 53, Gunjaluru (V), Chivvemla (M), Suryapet District - Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/38173/1900

Earlier, the SEAC in its meeting held on 23.12.2019 deferred the project for detailed examination to ascertain whether the quarry leases of other mineral i.e., Rough Stone & Road Metal (other than Granite) are located within 500m can be considered in Cluster.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 4.94 Ha. which is less than 5.0 Ha. It is further noted that the mine leases mentioned in the cluster letter does not belong to homogeneous mineral category and thus, the cluster applicability does not arise. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

The nearest village to the proposed site is Gunjaluru (V) which is existing at a distance of 1.2 km; nearest RF i.e., Indergonda RF exists at a distance of 8.1 km; and nearest waterbody i.e., Nagarjuna Sagar Left Bank Canal exists at a distance of 9.1 km from the boundary of the site.

It is proposed to mine 2,892 m³/annum of Black Granite and recovery of waste as Road Metal @ 26,028 m³/annum (total 28,920 m³/annum). The life of mine is reported as 18 years (@ 28,920 m³/annum).

The opencast semi-mechanized method is adopted for quarrying to cut the mineral into blocks.

The proponent is proposing the following measures towards control of Air Pollution:

- a. Regular spraying of water by water sprinkling system on haul roads and retaining wall within the premises.
- b. Water sprinkling on blocks before dressing.
- c. Drilling with wet gunny bags on drilling surface.
- d. Timely maintenance of vehicles to minimize air pollution due to movement of vehicles.
- e. Dust masks for employees.
- f. Covering the Granite carrying vehicles with tarpaulin covers.
- g. Plantation of trees along the roads and OB dump to reduce the impact of dust in the nearby villages. Fertile soil will be purchased locally to spread on dump for plantation.

Minutes of the SEAC Meeting held on 27.02.2020

The source of water requirement for the proposed project is from nearby village by tankers. Total water requirement is 10.2 KLD. Out of that, 5.3 KLD is used for Wet Drilling, 3.0 KLD for Water Sprinkling on haul roads, 1.3 KLD for development of greenbelt and 0.6 KLD for domestic purpose. Wastewater generated from the domestic section is to be disposed into septic tank followed by soak pit.

The proponent is planning to dump OB within their Mine Lease Area. The proponent is proposing retaining wall around the dump on dip side to arrest the loose material. They are proposing local species of plants for plantation along the Roads & OB dump. The project proponent is proposing garland drain and siltation ponds to arrest siltation. The proponent is proposing plantation of Australian Wattle, Khadirama, Ansandra, Chinduga, Neem, Bamboo, Raavi, Neredu, Karakkaya, Peddamanu.

The total cost of the project is Rs. 55.0 Lakhs. The proponent is proposing budget for Environmental protection towards capital cost: Rs. 6.99 lakhs and recurring cost: Rs. 3.88 Lakhs/annum.

After detailed discussions, the SEAC recommended for issue of EC.

Agenda Item No. 03	4.39 Ha. Colour Granite Mine of M/s. B. Laxman Granites, Sy.No. 161, Gopalpuram (V), Elkaturthy (M), Warangal Urban District - Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/45495/1900

Earlier, the SEAC in its meeting held on 23.12.2019 deferred the project for detailed examination to ascertain whether the quarry leases of other mineral i.e., Rough Stone & Road Metal (other than Granite) are located within 500m can be considered in Cluster.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 4.39 Ha. which is less than 5.0 Ha. It is further noted that the total Cluster area is 21.51 Ha. and Net Cluster area is 4.39 Ha. which is less than 5.0 Ha. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

The nearest village to the proposed site is Gopalapuram (V) which is existing at a distance of 1.0 km; nearest RF i.e., Elkaturthy RF exists at a distance of 3.7 km; and nearest waterbody i.e., Seasonal Talla Vagu exists at a distance of 1.2 km from the boundary of the site.

It is proposed to mine 16,382.4 m³/annum of Colour Granite and recovery of waste as Road Metal @ 65,529.6 m³/annum (total 81,912 m³/annum). The life of mine is reported as 15 years (@ 81,912 m³/annum).

The opencast semi-mechanized method is adopted for quarrying to cut the mineral into blocks.

The proponent is proposing the following measures towards control of Air Pollution:

- Regular spraying of water by water sprinkling system on haul roads and retaining wall within the premises.
- Water sprinkling on blocks before dressing.
- Drilling with wet gunny bags on drilling surface.
- Timely maintenance of vehicles to minimize air pollution due to movement of vehicles.
- Dust masks for employees.
- Covering the Granite carrying vehicles with tarpaulin covers.
- Plantation of trees along the roads and OB dump to reduce the impact of dust in the nearby villages. Fertile soil will be purchased locally to spread on dump for plantation.

The source of water requirement for the proposed project is from nearby village by tankers. Total water requirement is 7.5 KLD. Out of that, 2.5 KLD is used for Wet Drilling, 2.9 KLD for Water Sprinkling on haul roads, 1.3 KLD for development of greenbelt and 0.8 KLD for domestic purpose. Wastewater generated from the domestic section is to be disposed into septic tank followed by soak pit.

Minutes of the SEAC Meeting held on 27.02.2020

The proponent is planning to dump OB within their Mine Lease Area. The proponent is proposing retaining wall around the dump on dip side to arrest the loose material. They are proposing local species of plants for plantation along the Roads & OB dump. The project proponent is proposing garland drain and siltation ponds to arrest siltation. The proponent is proposing plantation of Australian Wattle, Khadirama, Ansandra, Chinduga, Neem, Bamboo, Raavi, Neredu, Karakkaya, Peddamanu.

The total cost of the project is Rs. 50.0 Lakhs. The proponent is proposing budget for Environmental protection towards capital cost: Rs. 6.92 lakhs and recurring cost: Rs. 3.78 Lakhs/annum.

During presentation it is observed from the topo map and google map that the proposed mine lease area is located adjacent to the Peddacheruvu. It is also observed that many trees & bushes are existing in the mine lease area. Hence, the SEAC decided constitute a Sub-Committee with the following members to inspect the site and submit report on present status of the project, impacts of the project on nearest water body, village & surrounding environment, adequacy of EMP measures proposed and specify additional conditions, if any.

Members of Sub-Committee:

1. B. Yella Reddy.
2. A. Panaba Reddy.

Agenda Item No. 04	5.0 Ha. Stone & Metal of M/s. G. S. Rocks, Sy. No. 144, Khajipally (V), Jinnaram (M), Sangareddy District - Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/46183/1900

Earlier, the SEAC in its meeting held on 23.12.2019 deferred the project for detailed examination to ascertain the Net Cluster area so as to consider the project under B1 /B2 category.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 5.0 Ha. It is further noted that the total Cluster area is 20.1 Ha. and Net Cluster area is 5.0 Ha. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

The nearest village to the proposed site is Kazipally (V) which is existing at a distance of 1.9 km; Kazipally RF exists at a distance of 0.7 km from the boundary of the site.

It is proposed to mine 1,20,000 m³/annum of Building Stone & Road Metal and the life of mine is reported as 11 years.

The opencast semi-mechanized method with drilling & blasting operations are adopted for quarrying.

The proponent is proposing the following measures towards control of Air Pollution:

- a. Regular spraying of water by water sprinkling system on haul roads and retaining wall within the premises.
- b. Drilling with wet gunny bags on drilling surface.
- c. Blasting with low explosives.
- d. Timely maintenance of vehicles to minimize air pollution due to movement of vehicles.
- e. Dust masks for employees.
- f. Covering the Mineral carrying vehicles with tarpaulin covers.
- g. Plantation of trees to reduce the impact of dust in the nearby villages. Fertile soil will be purchased locally to spread on dump for plantation.

The source of water requirement for the proposed project is from nearby village by tankers. Total water requirement is 7.0 KLD. Out of that, 4.8 KLD is used for Wet Drilling, 0.8 KLD for Water Sprinkling on haul roads, 1.0 KLD for development of greenbelt and 0.4 KLD for domestic purpose. Wastewater generated from the domestic section is to be disposed into septic tank followed by soak pit.

Minutes of the SEAC Meeting held on 27.02.2020

The proponent informed that no waste is anticipated in the mine lease area. The project proponent is proposing garland drain with siltation ponds around the mine lease area to arrest siltation. The proponent is proposing plantation of Australian Wattle, Khadirama, Ansandra, Chinduga, Neem, Bamboo, Raavi, Neredu, Karakkaya, Peddamanu.

The total cost of the project is Rs. 40.0 Lakhs. The proponent is proposing budget for Environmental protection towards capital cost: Rs. 4.33 lakhs and recurring cost: Rs. 2.44 Lakhs/annum.

After detailed discussions, the SEAC recommended for issue of EC.

Agenda Item No. 05	2.0 Ha. Building Stone & Road Metal Quarry of M/s. Real Constructions, Sy. Nos. 497 (Govt Land), Nustulapur (V), Thimmapur (M), Karimnagar District - Environmental Clearance - Reg.
Proposal no.	SIA/TG/MIN/36504/2019

Earlier, the SEAC in its meeting held on 23.12.2019 decided to inform the proponent to submit status of the mine lease renewal along with supporting documents issued by the Mining Department, in order to process the EC application.

The proponent vide lr.dt.14.02.2020 submitted a copy of Notice dt.28.02.2019 of the DDMG, Warangal issued to the proponent. It is observed from the Notice that 1st Renewal of quarry lease is granted in-principle for the project for a period of 20 years.

The SEAC noted from the Notices that initially the lease granted in 2009 and subsequently 1st Renewal of lease was granted in-principle in 2019. The proponent submitted application along with Scrutinized /Approved Mining Plan & EMP Report.

The SEAC noted that the mine lease area is 2.0 Ha. which is less than 5.0 Ha. It is further noted that the mine lease was initially granted in the year 2009 i.e., before 09.09.2013 and thus, the cluster applicability does not arise. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

However, the Proponent also submitted a copy of lr.dt..03.2019 of ADMG, Karimnagar District informing that there are no quarry leases falling within 500m from the proposed quarry lease.

The nearest village to the proposed site is Vachunur (V) which is existing at a distance of 0.5 km; and nearest waterbody i.e., Manair River flows at a distance of 0.5 km from the boundary of the site.

It is proposed to mine 30,240 m³/annum of Building Stone & Road Metal and the life of mine is reported as 15 years.

The opencast semi-mechanized method with drilling & blasting operations are adopted for quarrying.

The proponent is proposing the following measures towards control of Air Pollution:

- a. Regular spraying of water by water sprinkling system on haul roads and retaining wall within the premises.
- b. Drilling with wet gunny bags on drilling surface.
- c. Blasting with low explosives.
- d. Timely maintenance of vehicles to minimize air pollution due to movement of vehicles.
- e. Dust masks for employees.
- f. Covering the Mineral carrying vehicles with tarpaulin covers.
- g. Plantation of trees to reduce the impact of dust in the nearby villages. Fertile soil will be purchased locally to spread on dump for plantation.

The source of water requirement for the proposed project is from nearby village by tankers. Total water requirement is 3.0 KLD. Out of that, 1.5 KLD is used for Dust suppression, 1.0 KLD for development of green belt and 0.5 KLD for domestic purpose. Wastewater generated from the domestic section is to be disposed into septic tank followed by soak pit.

Minutes of the SEAC Meeting held on 27.02.2020

The proponent informed that no waste is anticipated in the mine lease area. The project proponent is proposing garland drain with siltation ponds around the mine lease area to arrest siltation. The proponent is proposing plantation of Neem, Tamarind, Chirimanu Acacia.

The total cost of the project is Rs. 15.0 Lakhs. The proponent is proposing budget for Environmental protection towards capital cost: Rs. 1.5 lakhs and recurring cost: Rs. 1.7 Lakhs/annum.

During presentation, it is observed from the topo map and google map that the proposed mine lease area is located within the FTL of Lower Manair Reservoir. Hence, the SEAC decided to inform the proponent to submit a copy of NOC issued by the I&CAD Dept., w.r.t their project. Meanwhile, keeping in view of the proximity of the Lower Manair Reservoir and village, the SEAC also decided to constitute a Sub-Committee with the following members to inspect the site and submit report on present status of the project, impacts of the project on Lower Manair Reservoir, village & surrounding environment, adequacy of EMP measures proposed and specify additional conditions, if any.

Members of Sub-Committee:

1. Suram
2. Mantri

Agenda Item No. 06	4.0 Ha. Rough Stone & Road Metal mine of M/s. SL Pavani Rock Sand, Sy.No. 72, Thirumalagiri (V), Bommalararamam (M), Yadadri Bhongir District - Environmental Clearance - Reg.
Proposal no.	SIA/TG/MIN/32876/2019

Earlier, the SEAC in its meeting held on 23.12.2019 deferred the project for detailed examination to ascertain the Net Cluster area so as to consider the project under B1 /B2 category.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The nearest village to the proposed site is Jayapalli (V) which is existing at a distance of 1.1 km; nearest RF i.e., Naginenipalli RF & Kondamadugu RF exists at a distance of 0.1 km; and nearest waterbody i.e., Shamirpet Vagu exists at a distance of 5.0 km from the boundary of the site.

It is proposed to mine 2,61,523 m³/annum of Rough Stone & Road Metal and the life of mine is reported as 5 years.

The opencast semi-mechanized method with drilling & blasting operations are adopted for quarrying.

The proponent is proposing the following measures towards control of Air Pollution:

- a. Regular spraying of water by water sprinkling system on haul roads and retaining wall within the premises.
- b. Drilling with wet gunny bags on drilling surface.
- c. Blasting with low explosives.
- d. Timely maintenance of vehicles to minimize air pollution due to movement of vehicles.
- e. Dust masks for employees.
- f. Covering the Mineral carrying vehicles with tarpaulin covers.
- g. Plantation of trees to reduce the impact of dust in the nearby villages. Fertile soil will be purchased locally to spread on dump for plantation.

The source of water requirement for the proposed project is from nearby village by tankers. Total water requirement is 5.0 KLD. Out of that, 1.0 KLD is used for Wet drilling, 2.0 KLD is used for water spirinkling on mine haulage roads, 1.0 KLD for development of green belt and 1.0 KLD for domestic purpose. Wastewater generated from the domestic section is to be disposed into septic tank followed by soak pit.

The proponent informed that no waste is anticipated in the mine lease area. The project proponent is proposing garland drain with siltation ponds around the mine lease area to arrest siltation. The proponent is proposing plantation of Pongamia, Neem & Tamarind.

Minutes of the SEAC Meeting held on 27.02.2020

The total cost of the project is Rs. 50.0 Lakhs. The proponent is proposing budget for Environmental protection towards capital cost: Rs. 7.0 lakhs and recurring cost: Rs. 3.02 Lakhs/annum.

The SEAC observed from the cluster letter that noted that two mines (10.0 Ha. & 4.0 Ha.) were granted leases prior to 09.09.2013 and for another lease (4.0 Ha.) the mine lease is granted after 09.09.2013. In this regard, it was reported in presentation that the leases of 4.0 Ha. were transferred in the years 2014 & 2016 and the leases were initially granted prior to 09.09.2013. But, the proponent has not submitted any proof for the same that the transferred leases initially granted before 09.09.2013.

Hence, the SEAC decided to inform the proponent to submit above mentioned documents to the SEAC to ascertain the Net Cluster area so as to consider the project under B1 /B2 category.

Agenda Item No.07	2.58 Ha. Stone & Metal Quarry of Smt. G. Geetharani, Sy No.738/1 Lakdaram (V), Patancheru (M), Sangareddy District - Environmental Clearance - Reg.
Proposal no.	SIA/TG/MIN/33098/2019

Earlier, the SEAC in its meeting held on 23.12.2019 deferred the project for detailed examination to ascertain the Net Cluster area so as to consider the project under B1 /B2 category.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 2.58 Ha. which is less than 5.0 Ha. It is further noted that the total Cluster area is 7.54 Ha. and Net Cluster area is 2.58 Ha. which is less than 5.0 Ha. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

The nearest village to the proposed site is Lakdaram (V) which is existing at a distance of 1.6 km; and nearest waterbody i.e., Lakadaram Cheruvu exists at a distance of 0.6 km from the boundary of the site.

It is proposed to mine 80,880 m³/annum of Stone & Metal and the life of mine is reported as 10 years.

The opencast semi-mechanized method with drilling & blasting operations are adopted for quarrying.

The proponent is proposing the following measures towards control of Air Pollution:

- a. Regular spraying of water by water sprinkling system on haul roads and retaining wall within the premises.
- b. Drilling with wet gunny bags on drilling surface.
- c. Blasting with low explosives.
- d. Timely maintenance of vehicles to minimize air pollution due to movement of vehicles.
- e. Dust masks for employees.
- f. Covering the Mineral carrying vehicles with tarpaulin covers.
- g. Plantation of trees to reduce the impact of dust in the nearby villages. Fertile soil will be purchased locally to spread on dump for plantation.

The source of water requirement for the proposed project is from nearby village by tankers. Total water requirement is 4.0 KLD. Out of that, 0.5 KLD is used for Wet drilling, 1.0 KLD is used for sprinkling on mine haulage roads, 1.5 KLD for development of green belt and 1.0 KLD for domestic purpose. Wastewater generated from the domestic section is to be disposed into septic tank followed by soak pit.

The proponent informed that no waste is anticipated in the mine lease area. The project proponent is proposing garland drain with siltation ponds around the mine lease area to arrest siltation. The proponent is proposing plantation of Pongamia, Neem, Tamarind & Gulmohar.

Minutes of the SEAC Meeting held on 27.02.2020

The total cost of the project is Rs. 40.0 Lakhs. The proponent is proposing budget for Environmental protection towards capital cost: Rs. 3.50 lakhs and recurring cost: Rs. 3.15 Lakhs/annum.

After detailed discussions, the SEAC recommended for issue of EC.

Agenda Item No. 08	1.00 Ha. Building Stone & Road Metal of M/s. Srinitha Stone Crusher, Sy. No. 333, Kothagattu (V), Shankarapatnam (M), Karimnagar District - Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/36420/2019

Earlier, the SEAC in its meeting held on 24.12.2019 deferred the project for detailed examination to ascertain whether to consider other mine of Colour Granite (other mineral) within 500m under Cluster and also to check the applicability of S.O. 804 & S.O. 1030 to the project.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 1.0 Ha. which is less than 5.0 Ha. It is further noted that the mine lease was initially granted in the year 2010 i.e., before 09.09.2013 and thus, the cluster applicability does not arise. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

After detailed discussions, the SEAC recommended for issue of EC.

Agenda Item No. 09	3.00 Ha. Rough Stone & Road Metal of M/s. Sree Rock Sand Manufacturer, Sy. No. 100/2 of Jiyapally (V), Bibinagar (M), Yadadri Bhuvanagiri District - Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/75435/2018

Earlier, the SEAC in its meeting held on 24.12.2019 deferred the project for detailed examination to ascertain the Net Cluster area so as to consider the project under B1 /B2 category.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 3.00 Ha. which is less than 5.0 Ha. It is further noted that the total Cluster area is 13.0 Ha. and Net Cluster area is 3.0 Ha. which is less than 5.0 Ha. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

The nearest village to the proposed site is Jiyapally (V) which is existing at a distance of 1.0 km; nearest RF i.e., Naginepalli RF & Kondamadugu RF exists at a distance of 1.5 km; and nearest waterbody i.e., Shamirpet Vagu exists at a distance of 7.5 km from the boundary of the site.

It is proposed to mine 1,85,000 m³/annum of Rough Stone & Road Metal and the life of mine is reported as 5 years.

The opencast semi-mechanized method with drilling & blasting operations are adopted for quarrying.

The proponent is proposing the following measures towards control of Air Pollution:

- a. Regular spraying of water by water sprinkling system on haul roads and retaining wall within the premises.
- b. Drilling with wet gunny bags on drilling surface.
- c. Blasting with low explosives.
- d. Timely maintenance of vehicles to minimize air pollution due to movement of vehicles.
- e. Dust masks for employees.
- f. Covering the Mineral carrying vehicles with tarpaulin covers.

Minutes of the SEAC Meeting held on 27.02.2020

g. Plantation of trees to reduce the impact of dust in the nearby villages. Fertile soil will be purchased locally to spread on dump for plantation.

The source of water requirement for the proposed project is from nearby village by tankers. Total water requirement is 4.5 KLD. Out of that, 2.5 KLD is used for Dust suppression, 1.0 KLD for development of green belt and 1.9 KLD for domestic purpose. Wastewater generated from the domestic section is to be disposed into septic tank followed by soak pit.

The proponent informed that no waste is anticipated in the mine lease area. The project proponent is proposing garland drain with siltation ponds around the mine lease area to arrest siltation. The proponent is proposing plantation with native species in consultation with the DFO.

The total cost of the project is Rs. 40.0 Lakhs. The proponent is proposing budget for Environmental protection towards capital cost: Rs. 4.5 lakhs and recurring cost: Rs. 1.61 Lakhs/annum.

After detailed discussions, the SEAC recommended for issue of EC.

Agenda Item No.10	4.780 Ha. Colour Granite Mine of M/s.Kiran Exports, Sy.No.264/P, 265/P, 355/P, 356/P, 357/P, 359/P & 362/P, Kammarkhanpet (V), Darmaram (M), Peddapalli District - Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/36357/2019

Earlier, the SEAC in its meeting held on 09.01.2020 deferred the project for detailed examination to ascertain the Net Cluster area so as to consider the project under B1 /B2 category.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 4.780 Ha. which is less than 5.0 Ha. It is further noted that the total Cluster area is 7.440 Ha. and Net Cluster area is 4.780 Ha. which is less than 5.0 Ha. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

After detailed discussions and keeping in view of the proximity of the Village & Pond, the SEAC decided to constitute a Sub-Committee with the following Members to inspect the site, and submit report on present status of the project, impacts of the project on the nearest Village, waterbody and surrounding environment, management of over burden, etc.,

Members of Sub-Committee:

1. *Sivakumar*
2. *Vinod goud*

Agenda Item No.11	1.96 Ha. Building Stone & Road Metal Quarry of M/s. Nagadhar Constructions Pvt.Ltd, Ibrahimpur (V), Raghunathpally (M), Jangaon District - Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/33190/2019

Earlier, the SEAC in its meeting held on 09.01.2020 deferred the project for detailed examination to ascertain the applicability of S.O. 804 & S.O. 1030.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 1.96 Ha. which is less than 5.0 Ha. It is further noted that the Cluster area is 1.96 Ha. which is less than 5.0 Ha. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

Minutes of the SEAC Meeting held on 27.02.2020

The SEAC observed from the google map that the mining operations were carried out within and beyond the mine lease area. Hence, after detail discussions, the SEAC decided to inform the proponent to submit the clarification on following along with supporting documents:

- Whether, present project is fresh lease or renewal.
- Details of mining operations already carried out in the mine lease area (whether by proponent or others).
- Whether, extent of mine lease area changed.

Agenda Item No.12	1.00 Ha. Building Stone & Road Metal of Sri. M. Damodar Reddy, Sy. No. 389, Devnoor (V), Dharmasagar (M), Warangal Urban District - Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/38532/2019

Earlier, the SEAC in its meeting held on 09.01.2020 deferred the project for detailed examination to ascertain the Net Cluster area so as to consider the project under B1 /B2 category.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 1.0 Ha. which is less than 5.0 Ha. It is further noted that the mine lease was initially granted in the year 2008 i.e., before 09.09.2013 and thus, the cluster applicability does not arise. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

After detailed discussions and keeping in view of the proximity of Dharmasagaram Cheruvu, the SEAC decided to inform the proponent to submit Undertaking that they will carryout mining operations upto a level i.e., 5m above Bund level of Dharmasagaram Cheruvu.

Agenda Item No.13	2.00 Ha. Building Stone & Road Metal of M/s. Sri Venkateshwara Stone Crusher, Survey No: 109 of Ramavaram H/o Laknepally (V), Narsampet (M), Warangal Rural District - Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/38547/2019

Earlier, the SEAC in its meeting held on 09.01.2020 deferred the project for detailed examination to check the applicability of S.O. 804 & S.O. 1030 to the project.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 1.0 Ha. which is less than 5.0 Ha. It is further noted that the mine lease was granted in the year 2008 and EC was not required then. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

After detailed discussions and keeping in view of the proximity of waterbody near Ramavaram, the SEAC decided to inform the proponent to submit Undertaking that they will carryout mining operations upto a level i.e., 5m above Bund level of waterbody near Ramavaram.

Agenda Item No.14	4.00 Ha. Building Stone & Road Metal of M/s. Sai Ram Stone Crusher, Survey No: 392/1, Chennaraopet (V), Chennaraopet (M), Warangal Rural District - Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/38594/2019

Earlier, the SEAC in its meeting held on 09.01.2020 deferred the project for detailed examination to check the applicability of S.O. 804 & S.O. 1030 to the project.

Minutes of the SEAC Meeting held on 27.02.2020

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 4.0 Ha. which is less than 5.0 Ha. It is further noted that the mine lease was initially granted in the year 2011 and EC was not required then. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

After detailed discussions, the SEAC recommended the project for issue of EC.

Agenda Item No. 15	4.90 Ha. Building Stone, Road Metal and Gravel of M/s. G.M Stone Crusher, Sy. No. 154/B/2, 154/B/3, 154/B/4 & 154/B/5, Theegarajupally (V), Sangem (M), Warangal Rural District – Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/40211/2019 (EC)

Earlier, the SEAC in its meeting held on 23.01.2020 deferred the project for detailed examination to ascertain the Net Cluster area so as to consider the project under B1 /B2 category.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 4.90 Ha. which is less than 5.0 Ha. It is further noted that the total Cluster area is 6.90 Ha. and Net Cluster area is 4.90 Ha. which is less than 5.0 Ha. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

The nearest village to the proposed site is Gandhinagar (V) which is existing at a distance of 0.63 km; and Kakatiya Canal exists at a distance of 2.0 km from the boundary of the site.

It is proposed to mine 1,44,269 m³/annum of Building Stone, Road Metal & Gravel and the life of mine is reported as 10 years.

The opencast semi-mechanized method with drilling & blasting operations are adopted for quarrying.

The proponent is proposing the following measures towards control of Air Pollution:

- a. Regular spraying of water by water sprinkling system on haul roads and retaining wall within the premises.
- b. Drilling with wet gunny bags on drilling surface.
- c. Blasting with low explosives.
- d. Timely maintenance of vehicles to minimize air pollution due to movement of vehicles.
- e. Dust masks for employees.
- f. Covering the Mineral carrying vehicles with tarpaulin covers.
- g. Plantation of trees to reduce the impact of dust in the nearby villages. Fertile soil will be purchased locally to spread on dump for plantation.

The source of water requirement for the proposed project is from nearby village by tankers. Total water requirement is 7.02 KLD. Out of that, 4.0 KLD is used for wet drilling operations, 0.62 KLD for water sprinkling on haul roads, 1.2 KLD for development of green belt and 1.2 KLD for domestic purpose. Wastewater generated from the domestic section is to be disposed into septic tank followed by soak pit.

The proponent informed that no waste is anticipated in the mine lease area. The project proponent is proposing garland drain with siltation ponds around the mine lease area to arrest siltation. The proponent is proposing plantation of Neem, Teak & Eucalyptus.

The total cost of the project is Rs. 50.0 Lakhs. The proponent is proposing budget for Environmental protection towards capital cost: Rs. 5.0 lakhs and recurring cost: Rs. 1.5 Lakhs/annum.

After detailed discussions, the SEAC recommended for issue of EC.

Minutes of the SEAC Meeting held on 27.02.2020

Agenda Item No. 16	2.52 Ha. Rough Stone & Road Metal Quarry of M/s. Global Minerals, Sy. No. 738/1, Lakdaram (V), Patancheru (M), Sangareddy District – Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/42939/2019 (EC)

Earlier, the SEAC in its meeting held on 23.01.2020 deferred the project for detailed examination to ascertain the Net Cluster area so as to consider the project under B1 /B2 category.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 2.52 Ha. which is less than 5.0 Ha. It is further noted that the total Cluster area is 7.48 Ha. and Net Cluster area is 2.52 Ha. which is less than 5.0 Ha. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

The nearest village to the proposed site is Labdaram (V) which is existing at a distance of 1.06 km; and water tank exists at a distance of 0.2 km & Lakdaram Chervu exists at a distance of 0.35 km from the boundary of the site.

It is proposed to mine 78,035 m³/annum of Rough Stone & Road Metal and the life of mine is reported as 6 years.

The opencast semi-mechanized method with drilling & blasting operations are adopted for quarrying.

The proponent is proposing the following measures towards control of Air Pollution:

- a. Regular spraying of water by water sprinkling system on haul roads and retaining wall within the premises.
- b. Drilling with wet gunny bags on drilling surface.
- c. Blasting with low explosives.
- d. Timely maintenance of vehicles to minimize air pollution due to movement of vehicles.
- e. Dust masks for employees.
- f. Covering the Mineral carrying vehicles with tarpaulin covers.
- g. Plantation of trees to reduce the impact of dust in the nearby villages. Fertile soil will be purchased locally to spread on dump for plantation.

The source of water requirement for the proposed project is from nearby village by tankers. Total water requirement is 5.0 KLD. Out of that, 1.0 KLD is used for wet drilling operations, 1.7 KLD for water sprinkling on haul roads, 1.3 KLD for development of green belt and 1.0 KLD for domestic purpose. Wastewater generated from the domestic section is to be disposed into septic tank followed by soak pit.

The proponent informed that no waste is anticipated in the mine lease area. The project proponent is proposing garland drain with siltation ponds around the mine lease area to arrest siltation. The proponent is proposing plantation of Neem, Teak, Badam, Mango & Eucalyptus.

The total cost of the project is Rs. 30.0 Lakhs. The proponent is proposing budget for Environmental protection towards capital cost: Rs. 3.0 lakhs and recurring cost: Rs. 0.73 Lakhs/annum.

After detailed discussions, the SEAC recommended for issue of EC.

Agenda Item No. 17	3.237 Ha. Stone & Metal and Gravel Quarry of Smt. Munupati Padma, Sy. No. 117/LU (Patta land), Gundepudi (V), Julurpadu (M), Badradri Kothagudem District – Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/45615/2019 (EC)

Earlier, the SEAC in its meeting held on 23.01.2020 deferred the project for detailed examination to ascertain the Net Cluster area so as to consider the project under B1 /B2 category.

Minutes of the SEAC Meeting held on 27.02.2020

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 3.237 Ha. which is less than 5.0 Ha. It is further noted that the total Cluster area is 5.237 Ha. and Net Cluster area is 3.237 Ha. which is less than 5.0 Ha. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

The nearest village to the proposed site is Veerabadrapuram (V) which is existing at a distance of 0.9 km; Kannegiri RF exists at a distance of 0.6 km; and Gundala Vagu exists at a distance of 1.5 km from the boundary of the site.

It is proposed to mine 1,21,804 m³/annum of Building Stone & Road Metal and 13,534 m³/annum of Gravel and the life of mine is reported as 6 years (@ 1,35,338 m³/annum).

The opencast semi-mechanized method with drilling & blasting operations are adopted for quarrying.

The proponent is proposing the following measures towards control of Air Pollution:

- a. Regular spraying of water by water sprinkling system on haul roads and retaining wall within the premises.
- b. Drilling with wet gunny bags on drilling surface.
- c. Blasting with low explosives.
- d. Timely maintenance of vehicles to minimize air pollution due to movement of vehicles.
- e. Dust masks for employees.
- f. Covering the Mineral carrying vehicles with tarpaulin covers.
- g. Plantation of trees to reduce the impact of dust in the nearby villages. Fertile soil will be purchased locally to spread on dump for plantation.

The source of water requirement for the proposed project is from nearby village by tankers. Total water requirement is 4.0 KLD. Out of that, 1.5 KLD is used for Dust suppression, 1.5 KLD for development of green belt and 1.0 KLD for domestic purpose. Wastewater generated from the domestic section is to be disposed into septic tank followed by soak pit.

The proponent informed that no waste is anticipated in the mine lease area. The project proponent is proposing garland drain with siltation ponds around the mine lease area to arrest siltation. The proponent is proposing plantation of Neem, Teak, Eucalyptus.

The total cost of the project is Rs. 40.0 Lakhs. The proponent is proposing budget for Environmental protection towards capital cost: Rs. 3.7 lakhs and recurring cost: Rs. 3.15 Lakhs/annum.

After detailed discussions, the SEAC recommended for issue of EC.

Agenda Item No. 18	1.0 Ha. Black Granite Mine of M/s. Trident Mines and Minerals, Sy. No. 35/1, 48/C & 54, Ammapuram (V), Thorrur (M), Mahabubad District – Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/44728/2019 (EC)

Earlier, the SEAC in its meeting held on 23.01.2020 deferred the project for detailed examination to ascertain the Net Cluster area so as to consider the project under B1 /B2 category.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 1.0 Ha. which is less than 5.0 Ha. It is further noted that the mine lease was initially granted in the year 2010 i.e., before 09.09.2013 and thus, the cluster applicability does not arise. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

Minutes of the SEAC Meeting held on 27.02.2020

The nearest village to the proposed site is Ammapuram V) which is existing at a distance of 0.74 km, nearest RF i.e., Igurthi RF exists at 7.0 km; and nearest waterbody i.e., Kantayapalem Cheruvu exists at a distance of 0.28 km from the boundary of the site.

It is proposed to mine 2265.6 m³/annum of Black Granite and the life of mine is reported as 12 years (@ 2163.84 m³/annum).

The opencast semi-mechanized method is adopted for quarrying to cut the mineral into blocks.

The proponent is proposing the following measures towards control of Air Pollution:

- a. Regular spraying of water by water sprinkling system on haul roads and retaining wall within the premises.
- b. Water sprinkling on blocks before dressing.
- c. Drilling with wet gunny bags on drilling surface.
- d. Timely maintenance of vehicles to minimize air pollution due to movement of vehicles.
- e. Dust masks for employees.
- f. Covering the Granite carrying vehicles with tarpaulin covers.
- g. Plantation of trees along the roads and OB dump to reduce the impact of dust in the nearby villages. Fertile soil will be purchased locally to spread on dump for plantation.

The source of water requirement for the proposed project is from nearby village by tankers. Total water requirement is 9.5 KLD. Out of that, 5.0 KLD is used for Dust suppression 3.0 KLD for development of greenbelt and 1.5 KLD for domestic purpose. Wastewater generated from the domestic section is to be disposed into septic tank followed by soak pit.

The proponent is planning to dump OB within their Mine Lease Area. The proponent is proposing retaining wall around the dump on dip side to arrest the loose material. They are proposing local species of plants for plantation along the Roads & OB dump. The project proponent is proposing garland drain and siltation ponds to arrest siltation. The proponent is proposing plantation of Neem, Siris, Seesham, Amaltus, Karanj, Jungle Jaledi, Eucalyptus & Kanju.

The total cost of the project is Rs. 60.0 Lakhs. The proponent is proposing budget for Environmental protection towards capital cost: Rs. 9.65 lakhs and recurring cost: Rs. 1.85 Lakhs/annum.

After detailed discussions, the SEAC recommended for issue of EC.

Agenda Item No. 19	1.012 Ha. Fullers Earth Quarry of Smt K. Veena, Sy. No. 34/A of Marepally (V), Peddamul (M), Vikarabad District – Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/42994/2019 (EC)

Earlier, the SEAC in its meeting held on 24.01.2020 directed the proponent to submit document issued by the competent authority certifying whether the quarry lease of Sri Pradeep Kumar Reddy located within 500m, is not operative for past three years or more, to ascertain the Net Cluster area so as to consider the project under B1 /B2 category.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 1.012 Ha. which is less than 5.0 Ha. It is further noted that the total Cluster area is Ac.12.20 Gts. (5.058 Ha.) and Net Cluster area is 4.249 Ha. (even by excluding only mine of Smt. P. Jaya Sree of Ac. 2.0 Gts. granted before 09.09.2013) which is less than 5.0 Ha. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

After detailed discussions, the SEAC recommended the project for issue of EC.

Minutes of the SEAC Meeting held on 27.02.2020

Agenda Item No. 20	0.404 Ha. Limestone Slabs Quarry of Sri Md. Mustaq, Sy. No. 70(P), Ogipur (V), Tandur (M), Vikarabad District – Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/44248/2019 (EC)

Earlier, the SEAC in its meeting held on 24.01.2020 deferred the project for detailed examination to ascertain the Net Cluster area so as to consider the project under B1 /B2 category.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 0.404 Ha. which is less than 5.0 Ha. It is further noted that the total Cluster area is Ac. 20.0 Gts. (8.093 Ha.) and Net Cluster area is Ac.5.04 Gts. (2.06 Ha.) which is less than 5.0 Ha. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

After detailed discussions, the SEAC recommended the project for issue of EC.

Agenda Item No. 21	0.353 Ha. Limestone Slabs Quarry of Sri. Mohammed Anwar Ahmed, Sy. No. 48(P), Ogipur (V), Tandur (M), Vikarabad District – Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/44284/2019

Earlier, the SEAC in its meeting held on 24.01.2020 deferred the project for detailed examination to ascertain the Net Cluster area so as to consider the project under B1 /B2 category.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 0.353 Ha. which is less than 5.0 Ha. It is further noted that the total Cluster area is Ac. 12.18 Gts. (5.03 Ha.) and Net Cluster area is 0.353 Ha. which is less than 5.0 Ha. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

After detailed discussions, the SEAC recommended the project for issue of EC.

Agenda Item No. 22	0.606 Ha. Limestone Slabs Quarry of M/s. Reddy Stone Industry, Sy. No. 51/1, Ogipur (V), Tandur (M), Vikarabad District – Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/45407/2019

Earlier, the SEAC in its meeting held on 24.01.2020 deferred the project for detailed examination to ascertain the Net Cluster area so as to consider the project under B1 /B2 category.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 0.606 Ha. which is less than 5.0 Ha. It is further noted that the total Cluster area is Ac. 12.37 Gts. (5.23 Ha.) and Net Cluster area is Ac.3.36 Gts. (1.578 Ha.) which is less than 5.0 Ha. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

After detailed discussions, the SEAC recommended the project for issue of EC.

Minutes of the SEAC Meeting held on 27.02.2020

Agenda Item No. 23	5.0 Ha. Rough Stone & Road Metal of Sri K. V. Raj Kumar, Sy. No. 87, Peddaparvathapur (V), Bommalaramaram (M), Yadadri-Bhuvanagiri District – Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/127661/2019 (EC)

Earlier, the SEAC in its meeting held on 25.01.2020 deferred the project for detailed examination to ascertain the Net Cluster area so as to consider the project under B1 /B2 category.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 5.0 Ha. It is further noted that the total Cluster area is 18.0 Ha. and Net Cluster area is 5.0 Ha. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

After detailed discussions, the SEAC recommended the project for issue of EC.

Agenda Item No. 24	2.023 Ha. Quartz & Feldspar of M/s. Kruthika Mines, Sy. Nos. 21/1 & 126, villages Gouthapur & Balanagar, Balanagar (M), Mahabubnagar District – Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/126236/2019 (EC)

Earlier, the SEAC in its meeting held on 25.01.2020 deferred the project for detailed examination to ascertain the Net Cluster area so as to consider the project under B1 /B2 category.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 2.023 Ha. which is less than 5.0 Ha. It is further noted that the total Cluster area is 14.653 Ha. and Net Cluster area is 2.023 Ha. which is less than 5.0 Ha. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

After detailed discussions, the SEAC recommended the project for issue of EC.

Agenda Item No. 25	2.50 Ha. Stone & Metal Quarry of M/s. Kadiyam Kalyan Chander, Sy. No. 128, Yerikaram (V), Suryapet (M), Suryapet District – Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/126027/2019 (EC)

Earlier, the SEAC in its meeting held on 25.01.2020 deferred the project for detailed examination to ascertain the Net Cluster area so as to consider the project under B1 /B2 category.

The SEAC noted the new guidelines for mining projects framed by the SEIAA, Telangana on 24.02.2020 and examined the proposal.

The SEAC noted that the mine lease area is 2.50 Ha. which is less than 5.0 Ha. It is further noted that the total Cluster area is 7.491 Ha. and Net Cluster area is 4.50 Ha. which is less than 5.0 Ha. Hence, the project is considered under B2 Category, as per provisions laid under EIA Notification, 2006 & its subsequent amendments, orders of the Hon'ble NGT and new guidelines framed by the SEIAA, Telangana for mining projects.

After detailed discussions, the SEAC recommended the project for issue of EC.

Minutes of the SEAC Meeting held on 27.02.2020

Agenda Item No. 26	1.92 Ha. Rough Stone & Road Metal Quarry of M/s. Venkateshwara Metal Industries, Sy. No. 244, Keshavapuram (V), Dameracherla (M), Nalgonda District - Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/38489/1900

Earlier, the SEIAA in its meeting held on 04.01.2020 observed that *nearest RF is reported as Gangadevigutta RF (0.1 km) as per the agenda and Wazirabad RF (1.5 km) as per the presentation. Whereas, it is observed from the topo map that the proposed mine lease area is found to be within the boundary of Gangadevigutta RF. The proponent may be directed to submit NOC from the District Forest Officer, Nalgonda w.r.t. location of Mine in Reserve Forest. Hence, the SEIAA decided to refer back the proposal to the SEAC to ascertain whether the mine is located within the RF and also to ascertain the status of Forest Clearances, if applicable.*

The SEAC noted the decision of SEIAA and decided to inform the proponent to submit copy of NOC issued by the District Forest Officer, Nalgonda w.r.t. location of Mine in Reserve Forest.

Agenda Item No. 27	“Luxury Villas” of M/s. Sark Projects, Sy.No. 72, 73, 74 & 75, Mokila (V), Shankerpally (M), Ranga Reddy District – Environmental Clearance - Reg.
Proposal No.	SIA/TG/NCP/23008/2018

Earlier, the SEIAA in its meeting held on 22.01.2020 referred back the proposal to the SEAC to clarify the following:

- *Whether the proponent continued construction activities in the site even after issue of directions dt.24.03.2016 by the SEIAA, Telangana to suspend the construction activity.*
- *If the proponent continued construction activity in the site, under what provisions the proponent continued the construction activity.*
- *Does it not come under 2nd Violation.*

The SEAC noted the decision of SEIAA and decided to inform the proponent to submit clarification on the issues raised by the SEIAA along with supporting documents.

Agenda Item No. 28	1.366 Ha. Rough Stone & Road Metal Quarry of Sri. Venna Srinivas Reddy, Sy. No.318, Raghunadhapalem Village, Mattampally Mandal, Suryapet District, Telangana State – Environmental Clearance - Reg.
Proposal No:	SIA/TG/MIN/41276/2019

Earlier, the SEIAA in its meeting held on 01.02.2020 referred back the proposal to the SEAC to ascertain impacts of project on nearest human habitation (located at a distance of less than 500m) and surrounding environment.

The SEAC noted the decision of SEIAA and decided to constitute a Sub-Committee with the following members to inspect the site and submit report on present status of the project, impacts of the project on nearest human habitation, waterbody and surrounding environment.

Members of Sub-committee:

1. Reddy vaik.
2. Venkateswadu .

Minutes of the SEAC Meeting held on 27.02.2020

Agenda Item No. 29	M/s. LEGALA Estates Pvt. Limited, (Formerly Navayuga Legala Estates Pvt. Limited), Sy. No 82(P), 83(P) & 84(P), situated opposite to New Municipal Office, Old Mumbai Highway, Serilingampally (V & M), Serilingampally Municipality, Rangareddy District – Environmental Clearance - Reg.
Proposal No:	SIA/TG/MIS/47430/2019

Earlier, the SEIAA in its meeting held on 01.02.2020 referred back the proposal to the SEAC to ascertain impact of project on water body, as Gopi Cheruvu is existisng on down stream side of the project site.

The SEAC noted the decision of SEIAA and decided to inform the proponent to submit clarification on EMP measures and protective measures proposed by the proponent w.r.t. Gopi Cheruvu existisng on down stream side of the project site, along with supporting documents.

Agenda Item No. 30	4.90 Ha. Black Granite Mine of M/s. Yak Granites Industries (P) Limited, Sy. No. 584/1, Peddapuram (V), Athmakur (M), Warangal Rural District – Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/43593/2019 (EC)

Earlier, the SEIAA in its meeting held on 24.02.2020 referred back the proposal to the SEAC to re-examine the project keeping in view of the new guidelines framed by the SEIAA, Telangana on 24.02.2020.

The SEAC noted the decision of SEIAA and also re-examined the proposal keeping in view of the new guidelines framed by the SEIAA, Telangana for mining projects.

The SEAC noted that earlier, the 4th renewal of mine lease was granted for a further period of 20 years w.e.f. 28.12.2008 to an extent of 5.56 Ha.

In this regard, the SEAC noted that the MoE&F, GoI issued Circular dt.02.07.2007 on Clarification regarding applicability of EIA Notification, 2006 on Mining Leases of 5.0 Ha. (Major minerals) and mining leases of (Minor Minerals) which have been operating before 14.09.2006. As per the Circular, all such projects which have been operating without any EC would obtain EC at the time of their Lease Renewal even if there is no increase either in terms of lease area or production.

The SEAC examined the proposal keeping in view of the above Circular dt.02.07.2007 and observed that mining operations were carriedout in the mine lease area without obtaining EC.

Further, the SEAC has observed that the proponent has surrendered 0.66 Ha. of area from 5.56 Ha. of lease area retaining 4.90 Ha. and the same is accepted by the Mining Department in the year 2019.

But, the SEAC noted that the project is to be considered as a violation case and to be processed according to the S.O.804 (E), dt.14.03.2017 & S.O.1030 (E), dt.08.03.2018. However, it is noted that the proposal is ulploaded under EC category but not under TOR. Hence, the SEAC decided to return the application, with a direction to upload the proposal under TOR.

Agenda Item No. 31	1.45 Ha. Colour Granite Mine of M/s. E. Ragotham Reddy, Sy No:238, 239, 241 & 242, Sarvareddypally Village, Gangadhara Mandal, Karimnagar District.Telangana State – Environmental Clearance - Reg.
Proposal No.	SIA/TG/MIN/44053/2019

Earlier, the SEAC in its meeting held on 23.01.2020 constituted Sub-Committee to inspect the site, and submit report on present status of the project, impacts of the project on the nearest Village, waterbody and surrounding environment, etc.,

Minutes of the SEAC Meeting held on 27.02.2020

The Sub-Committee constituted by the SEAC inspected the site on 25.02.2020 and submitted the report with the following observations:

Present status of the mine

The Project has not yet started. The deposit is intact.

Distance of the nearest habitation from the proposed mine

The nearest village is Pentalonipally Village, near Gopalraopet, Gangadhara Mandal, which is found to be about 300 meters (aerial distance) from the mining site.

Impact of the project on human habitation and surrounding environment

Since the proposed mine and exploitation of the granite blocks are done by following the wire-saw method of mining, there is therefore likely to be minimum damage to the environment. The dust generated during the operations to be contained by regular water spraying. The nearby houses may not have any negative impact as the blasting method of mining will not be followed. Measures like Air pollution equipment need to be installed to arrest and restrict the spread of particulate matter.

Green belt development

The proponent has to develop green belt in the adjoining land, as the same cannot be developed in the mine area as it is entirely covered by the granite batholith.

The following conditions may be included in the EC:

- a) Mining method should be wire-saw method
- b) Construction of garland drains
- c) Develop a green belt as per the norms in the adjacent land
- d) Construction of the approach road
- e) Install the air pollution equipment and sprinkling of water

Recommendations:

As such there is no adverse affect on the surrounding environment due to the project. Since the habitation is around 300 meters from the project site, it is safe and would not disturb the habitat.

Environmental Clearance may be given to the project with the above conditions.

The SEAC examined the report of the Sub-Committee and after detailed discussions, recommended the project for issue of EC with the following specific conditions:

- The proponent shall develop greenbelt in adjacent land to the proposed mine as committed, in addition to the greenbelt development in 7.5 m buffer zone along the boundary within the mine lease area.
- The proponent shall carryout the mining operations with the wire-saw method.
- The proponent shall lay approach road to the proposed mine.
- The proponent shall construct garland drains and siltation ponds.
- The proponent shall take adequate measures to install air pollution control equipment and water sprinkling.

Agenda Item No. 32	3.247 Ha. Colour Granite Mine of M/s Shiva Shakthi Granites, Sy. No. 253, Odyaram (V), Gangadhara (M), Karimnagar District – Environmental Clearance - Reg.
Proposal No:	SIA/TG/MIN/45834/2019

Earlier, the SEAC in its meeting held on 10.01.2020 constituted Sub-Committee inspect the site, and submit report on present status of the project, impacts of the project on the nearest Village and surrounding environment, specify additional TORs / environment measures to be taken by the project proponent, if any.

Minutes of the SEAC Meeting held on 27.02.2020

The Sub-Committee constituted by the SEAC inspected the site on 23.02.2020 and submitted the report with the following observations:

Present status of the mine

The Project has not yet started. However granite massif is exposed at few places.

Distance of the nearest habitation from the proposed mine

The nearest village is Odyaram (Waddaram), which is found to be about 140 meters (aerial distance) from the mining site. In fact the project site is surrounded by the habitat ranging from 140 to 200 meters. The mining area should be away from the habitat with atleast 200meters in all sides. The buffer zone should be marked before mining activity takes place.

Impact of the project on human habitation and surrounding environment

Since the proposed mine and exploitation of the granite blocks are done by following the wire-saw method of mining, there is therefore likely to be minimum damage to the environment. The dust generated during the operations to be contained by regular water spraying. The nearby houses may not have any negative impact as the blasting method of mining will not be followed. All the boundary walls of the mine needs to be protected by constructing a retaining wall and garland drains to avoid the silting of this tank. Measures like Air pollution equipment need to be installed to arrest and restrict the spread of particulate matter.

Tahasildar, Gangadhara Mandal had given a certificate stating that the farmers adjoin the proposed mining site had given "No objection for the opening of the mine in proposed site".

Green belt development

The proponent has to develop green belt in the adjoining land, as the same cannot be developed in the mine area as it is entirely covered by the granite batholith.

Undertakings to be submitted by the Proponent:

The proponent should submit the following undertakings –

- a) Mining would be done 200 meters away from the habitat in all sides*
- b) Submit the revised mine plan indicating the buffer zone and dumping area.*
- c) Mining method should be wire-saw method*
- d) Construction of the retention wall and garland drains*
- e) Develop a green belt as per the norms in the adjacent land*
- f) Construction of the approach road*
- g) Install the air pollution equipment and sprinkling of water*

Recommendations:

Environmental Clearance may be given to the project, subject to the submission of written undertakings as mentioned above.

The SEAC examined the report of the Sub-Committee and decided to inform the proponent to submit Undertaking on issues sought by the Sub-Committee.
