

Minutes of 459th SEAC Meeting Dated 03/03/2020

The 459th meeting of SEAC was held in Directorate of Environment, U.P. on 03/03/2020 following members were present in the SEAC:

- | | | |
|----|---------------------|-------------|
| 1. | Dr. Sarita Sinha, | Chairperson |
| 2. | Dr. Virendra Misra, | Member |
| 3. | Shri Meraj Uddin, | Member |
| 4. | Shri Rajive Kumar, | Member |

The Chairman welcomed the members to the 459th SEAC meeting.

The SEAC unanimously took following decisions on the agenda points discussed:

1. "Brick Earth Mining at Khasra No.-566,628,627,633,614, 659, Village-Sultanpatti, Mat, Mathura, U.P., M/s Jay Durga Ent Udyog, (Leased Area: 4.8045 Ha). File No. 5371/Proposal No. SIA/UP/MIN/128796/2020

A presentation was made by the project proponent along with their consultant M/s P and M Solution. The proponent, through the documents submitted and the presentation made, informed the committee that:-

1. The environmental clearance is sought for "Brick Earth Mining at Khasra No.-566,628,627,633,614, 659, Village-Sultanpatti, Mat, Mathura, U.P., M/s Jay Durga Ent Udyog, (Leased Area: 4.8045 Ha).
2. Salient features of the project as submitted by the project proponent:

- The mining would be restricted to unsaturated zone only above the phreatic water table and will not intersect the ground water table at any point of time.
- This project does not attract any of the general conditions applicable on mining projects specified in EIA Notification 14/09/2006.
- The mining operation will not be carried out in safety zone of any bridge or embankment or in eco-fragile zone such as habitat of any wild fauna.
- There is no litigation pending in any court regarding this project.
- The project proposal falls under category-1(a) of EIA Notification, 2006 (as amended).

RESOLUTION AGAINST AGENDA NO-14

The committee discussed the matter and recommended grant of environmental clearance for the project proposal along with general and specific conditions annexed as annexure-1 to these minutes (also available at SEIAA, U.P. website www.seiaaup.in).

3. The mining would be restricted to unsaturated zone only above the phreatic water table and will not intersect the ground water table at any point of time.
4. This project does not attract any of the general conditions applicable on mining projects specified in EIA Notification 14/09/2006.

5. The mining operation will not be carried out in safety zone of any bridge or embankment or in eco-fragile zone such as habitat of any wild fauna.
6. There is no litigation pending in any court regarding this project.
7. The project proposal falls under category-1(a) of EIA Notification, 2006 (as amended).

RESOLUTION AGAINST AGENDA NO-24

The committee discussed the matter and recommended grant of environmental clearance for the project proposal along with general and specific conditions annexed as annexure-1 to these minutes (also available at SEIAA, U.P. website www.seiaaup.in).

Annexure-1

General and Specific Conditions for Brick/Soil Earth Mining Projects:-

General condition:

1. This environmental clearance does not create or verify any claim of applicant on the proposed site/activity.
2. Any mining activity shall be undertaken only after valid permission from Mining Department/District Administration and written agreement with land owner from where earth excavation is proposed.
3. No change in mining technology and scope of working shall be made without approval of Authority.
4. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
5. The Authority reserves the right to revoke the clearance if conditions stipulated are not implemented. The Authority will also be entitled to impose additional environmental conditions or modify the existing ones, if necessary.
6. In case of any deviation or alteration in the project proposed from those submitted to this Authority for clearance, a fresh reference should be made to the Authority to assess the adequacy of the condition(s) imposed and to add additional environmental protection Measures required, if any.
7. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.

Specific Conditions:

1. If in future during the progressive mining this lease area becomes part of cluster i.e. area equal to or more than 5 ha., limited to B-1 category, then additional conditions based on the EIA conducted by the concerned lease holders shall be imposed and joint EMP shall be implemented. The lease holder shall mandatorily follow all the imposed conditions otherwise it will amount to violation of E.C. conditions. If the certificate related to cluster provided by the competent authority is found false or incorrect then punitive actions as per the law shall be initiated against the authority issuing the cluster certificate.
2. The project proponent shall obtain the forest clearance and permission of Central and State Government as per law under the provisions of Forest (conservation) Act, 1980 before the start of work.
3. The mining lease holders shall, after ceasing mining operations, undertake re-grassing the mining area and any other area which may have been disturbed due to their mining activities and restore the land to a condition which is fit for growth of fodder, flora fauna etc.
4. The Environmental Clearance will be co-terminus with the agreement.
5. Approach kaccha road should be made motorable and maintained periodically.
6. Transportation of soil should be undertaken in covered containers.
7. Rehabilitation plan with planting of trees to be submitted along with the closure plan.
8. Land to be levelled and handed over to the owners after completion of excavation work.
9. A valid NOC from State Pollution Control Board shall be obtained for the Brick kiln prior to operation as per law and all guidelines must be followed, if applicable.
10. The mining operations shall be strictly limited to the proposed mining sites and proposed purpose.
11. Top soil should be adequately preserved and should be used for landscaping.
12. Excavated soil should be properly stored in a manner not to increase surrounding air pollution level.
13. Water sprinkling should be exercised during excavation and storage of soil for suppression of fugitive dust.

14. Excavated area should be properly reclaimed and ensured that no open bore hole is left.
15. Safety measures for the people working at the site shall be duly taken care of as per law.
16. The excavation work shall be done in day time only.
17. The project boundary shall be properly covered to restrict dust dispersion.
18. Precautionary measures during soil excavation for conservation and protection of rare and endangered flora and fauna found in the study area.
19. Noise level shall be maintained as per standards for both day and night.
20. The route map for soil transportation from excavation plots to work site should be firmed up and necessary permissions shall be sought from District Administration.
21. Vehicles hired for the transportation should be in good condition and should have Pollution Check Certificate and should conform to applicable air and noise emission standards.
22. Personnel exposure monitoring for respirable mineral dust shall be carried out for the workers and records maintained including health records of the workers. Awareness program for workers on impact of mining on their health and precautionary measures like use of personal protective equipments etc. shall be carried out periodically. First aid facilities and adequate sanitary facility in the form of temporary toilets/septic tanks.
23. Solid waste material viz gutkha rappers, plastic bags, glasses etc. to be generated during project activity will be separately stored in bins and managed as per Solid Waste Management Rules.
24. Project proponent should maintain daily register for information of (a) collection of soil/clay, (b) manpower & (c) transportation purpose.
25. Soil mining shall strictly be undertaken as per rules and regulations/permissions obtained from District Administration/Mining Department
26. Corporate Environmental Responsibility (CER) shall be prepared by the project proponent and the details of the various heads of expenditure to be submitted as per the guidelines provided in the recent CER notification No. 22-65/2017-IA.III dated 01/05/2018. A copy of resolution as above shall be submitted to the authority along with list of beneficiaries with their mobile nos./address.
27. The borrowing/excavation activity shall be restricted to a maximum depth of 2 m. below general ground level at the site.
28. The borrowing/excavation activity shall be restricted to 2 m. above the ground water table at the site.
29. The borrowing/excavation activity shall not alter the natural drainage pattern of the area.
30. The borrowed/excavated pit shall be restored by the project proponent for useful purpose(s).
31. Appropriate fencing all around the borrowed/excavated pit shall be made to prevent any mishap.
32. Measures shall be taken to prevent dust emission by covering of borrowed/excavated earth during transportation.
33. Safeguards shall be adopted against health risks on account of breeding of vectors in the water bodies created due to borrowing/excavation of earth.
34. Workers/labourers shall be provided with facilities for drinking water and sanitation.
35. A berm shall be left from the boundary of adjoining field having a width equal to at least half the depth of proposed excavation.
36. A minimum distance of 15 m from any civil structure shall be kept from the periphery of any excavation area.
