Minutes of The 102nd State Level Expert Appraisal Committee (SEAC),A.P., Meeting held on 21st & 22nd March, 2017 at Conference Hall, Pai Viceroy, Tirupati, A.P.

I. Table Agenda :

102-A: Issues related violation cases.

- The MoEF&CC issued notification vide S.O.804(E), dated 14th March 2017 issued the procedure to be followed while dealing with the case of violations of the Environment Impact Assessment Notification , 2006 . In the Para (2) of the said Notification, the following is stated”

“(2) In case the projects or activities requiring prior environmental clearance under Environment Impact Assessment Notification, 2006 from the concerned Regulatory Authority are brought for environmental clearance after starting the construction work, or have undertaken expansion, modernization, and change in product mix without prior environmental clearance, these projects shall be treated as cases of violations and in such cases even Category B projects which are granted environmental clearance by State Environmental Impact Assessment Authority constituted under Sub-section(3) Section 3 of the Environment (Protection) Act, 1986 shall be appraised for grant of Environmental clearance only by the Expert Appraisal Committee and environmental clearance will be granted at the Central level”.

- The SEAC, AP discussed this issues mentioned in the said notification with regard to Category ‘B’ projects.
- Presently the credible action is being initiated against the violators of EIA Notification 2006, by prosecuting the project proponents in the Hon’ble Courts. However in the present Notification it was stated in case of violation, action will be taken against the project proponent by the respective State or State Pollution Control Board under the provisions of Section 19 of the Environment (Protection) Act 1986. However there is no clarity for the violation cases for which already credible action was initiated/ are in the process of credible action against the project proponents based on the appraisal already done by SEAC.
- In view of the above, the SEAC recommended that a letter may be addressed to the MoEF &CC , New Delhi to see that all such projects applied to SEIAA and pending for credible action as on the notification date 14th March 2017, be permitted to be cleared by the SEAC & SEIAA at state level.

102-B: Issues related monitoring of Projects.

- As per the practices in vogue, the project proponent is required to submit the certified copy of the compliance from the Regional office, MoEF&CC, in case of expansion or modernization projects.
- The project proponent is mandated to submit 6 monthly post project compliance report. The MoEF& CC is also mandated to upload the 6 monthly reports on their website.
- Based on the experiences being faced by SEAC & SEIAA that such compliance reports are not being received in time from the regional office of MoEFF &CC, the SEAC recommended to address a letter to the MoEF&CC, New Delhi, to follow the alternative mechanism as suggested below:

Minutes of The 102nd State Level Expert Appraisal Committee (SEAC),A.P., Meeting held on 21st & 22nd March, 2017 at Conference Hall, Pai Viceroy, Tirupati, A.P.

- The Committee will download the six monthly post project compliance reports and shall use for the appraisal of Category 'B' projects.
- After appraisal by the SEAC, their recommendations for issue / rejection of EC/ TOR of the project proposal will be sent to the SEIAA for review and decision. Subsequently, the EC/TOR letter or rejections letter will be communicated to the project proponent. The copy of the same will be communicated to the MOEF&CC, Regional Office, Chennai for monitoring. During the course of monitoring if any violations observed /noted, the EC/TOR will be revoked.
