MINUTES OF THE 218th MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P., HELD ON - 10th & 11th April 2023 AT VIJAYAWADA, A.P.

Present: The following members were present. (Through Video Conference)

1.	Dr.G.V.R.SrinivasaRao, Professor, Civil Engineering Department, Andhra University, Visakhapatnam	Chairperson
2.	Dr.DineshSankar Reddy, Registrar(I/C), Professor of Chemical Engineering, NIT, Tadepalligudem, West Godavari	Member
3.	Prof. G. Gnana Mani, Retd., Professor of Zoology, Andhra University, Visakhapatnam	Member
4.	Prof. U. Shameem, Chairman, Dept. of Zoology, Andhra University, Visakhapatnam	Member
5.	Dr.Kiranmai, Assistant Professor, Dept. of Biotechnology, VikramaSimhapuriUniversity,Nellore,SPSRNelloreDistrict	Member
6.	Prof. C. Sasidhar, Professor, Civil Engineering Dept, JNTU, Anantapur	Member
7.	Prof. N. Siva Prasad Reddy, Director (Academics), Brindavan Institute of Technology & Science, Kurnool	Member
8.	Prof. D. Bharathi, Professor, Dept. of Bio Sciences & Sericulture, Sri PadmavathiMahilaViswaVidhyalayam, Tirupati	Member
9.	Sri KatammeniVenkataRamana, Head of Mining Dept, Government Polytechnic, Narsipatnam.	Member
10.	Dr.M. Sunandana Reddy, Associate Professor,RGM College of Engineering & Technology (Autonomous), Nandyal.	Member
11.	Sri Matli. Chandra Sekhar Professor, Head of Department of Civil Engineering, NIT, Warangal.	Member
12.	Dr. G. Madhavi, Associate Professor, Department of Chemistry, Sri Venkateswara University, Tirupati	Member
13.	Prof. K. ThyagaRaju,Professor,Department of Biochemistry, S.V.University, Tirupati	Member
14.	Dr.GummallaPrasanthi, Professor, Vijaya Institute of Pharmaceutical Sciences, Vijayawada	Member
15.	Sri. B. Siva Prasad, Chief Environmental Engineer, Andhra Pradesh Pollution Control Board, Vijayawada	Member Secretary.

Agenda Item No: 218.22	1.526 Ha, Mining of Ordinary Earth, Road Metal & Ballast of Sri Satti Veera Venkata Satyanarayana Reddy at Sy. No., 338, Duddukur Village, Devarapalli Mandal, West Godavari District, Andhra Pradesh - Environmental Clearance - EIA Case - Reg.
SIA/AP/M IN/42159 1/2023	<p>Category: B2 at par with B1</p> <p>The proposed project is for Mining of Ordinary Earth, Road Metal & Ballast in an area of 1.526 Ha. with a proposed production quantity of Mining of Ordinary Earth, Road Metal & Ballast: 25,515 m³ / annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).</p> <p>The representative of the project and their consultant Hubert Enviro Care Pvt., Ltd., have attended the meeting.</p> <p>The project proponent has obtained TOR on 13.10.2022 and public hearing was held on 28.12.2022.</p> <p>Public Hearing Details:</p> <p>Village developmental activities and employment to villagers, greenbelt development, water sprinkling, and social welfare activities are the main issues raised. There are no specific environmental issues raised during the public hearing.</p> <p>Response of the proponent during the PH:</p> <p>Sri P.V.R.S. Surendra, EIA Coordinator of HECS, on behalf of Sri Satti Veera Venkata Satyanarayana Reddy: He thanked everyone who participated in the Public Consultation and he explained the public for following prevention & control measures for proposed mining activity:</p> <ul style="list-style-type: none">• Wet drilling will be adopted and controlled sequential blasting will be carried-out. Due to controlled sequential blasting, the vibrations in the surrounding areas will be minimal.• The dust may get generated due to transport vehicles that carry the mined mineral. It will be suppressed by water spraying with tankers continuously.• The vehicles carrying the mines material will be covered with tarpaulins to prevent dust.• It is proposed to take-up plantation of 1000 medicinal trees along with 1000 Conocarpus (Dubai) plants in the vacant mine land and also on both sides of the approach road. The protection and maintenance of these trees will be the responsibility of the quarry management.• Once the mining operations gets started, half-yearly monitoring of Ambient Air Quality, Noise Levels, Water quality testing, etc. will be carried out and the reports will be submitted to MoEF & CC Regional Office, APPCB and SEIAA.• In the proposed mine, around 20 people will get direct employment and another 45 persons get indirect employment. In addition, opportunities will be given to local mine workers (men & women), in various supporting indirect activities like transportation of mined material, water spraying on the approach roads, tree plantation and their maintenance etc.• As part of Corporate Social Responsibility, in association with other quarries operating in the village, it is proposed to provide tractor truck to Duddukur Panchayat and Skill Development Training Programmes for unemployed youth in the local village. Also, it is proposed Rs.1.50 Lakhs to arrange annual health camps for the benefit of the people from surrounding villages.• All precautionary measures will take-up for Environment Protection. <p>The base line data was collected from March, 22 to May, 2022. The predominant wind direction is observed to be North to South. Modelling was done through AERMOD soft</p>

	<p>ware. The Isoleth generated by the AERMOD shows UTM coordinates.</p> <p>The maximum concentration of SPM is observed to be 59.4 µg/m³. The incremental concentration is 1.16 µg/m³. The GLC of SPM will fall at a distance of 0.3KM from the mine in Southern direction.</p> <p>The Committee after examining the project proposals, presentations, mining plan, MoEF&CC Notifications & OMs, EIA Report, PH minutes and <u>detailed deliberations</u>, <u>detailed deliberations</u>, recommended to issue Environmental Clearance with following conditions:</p> <ol style="list-style-type: none"> 1. The proponent shall comply with the proposals furnished in Environmental management plan. 2. The project proponent shall develop greenbelt of 1km along approach roads & village Road sides. 3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed. 4. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time. 5. The proponent shall carryout suppression of dust generated due to transport vehicles by water spraying with tankers continuously. 6. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
<p>Agenda Item No: 218.23</p>	<p>3.00 Ha. Mining of Gravel of Smt. M. Shankar Bhavani at Sy. No. 73, Taticherla Village, Anantapur Mandal, Anantapur District, Andhra Pradesh – Environmental Clearance – Reg.</p>
<p>SIA/AP/M IN/42185 4/2023</p>	<p>Category: B2.</p> <p>The proposed project is for mining of Gravel in an area of 3.00 Ha.with a proposed production quantity of Gravel – 23,988 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). Mining of minerals (<250 ha of mining lease area in respect of non-coal mine lease).</p> <p>The project proponent and their RQP Sri G.Eswar Reddy, have attended the meeting. The Committee noted that as per cluster letter issued by Asst. Director of Mines & Geology, Anantapuramu, vide Lr. dated: 10.03.2023, there are no existing quarry leases within the radius of 500 mts area and obtained LOI extension on 23.01.2023.</p> <p>The proponent volunteered to provide water treatment plant to Taticherla village , health camps in surrounding villages as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.</p> <p>Under EMP budget the proponent has proposed following:</p> <ul style="list-style-type: none"> ➤ Proposed to provide Garland Drain, trench in the mine lease area to control surface runoff ➤ Proposed to provide Continuous water sprinkling through water tanker for Suppression the dust particles. <p>The Committee after examining the project proposals, presentations, mining plan, MoEF&CC Notifications& OMs, and <u>detailed deliberations</u>, recommended to issue Environmental Clearance with following conditions:</p>

Member Secretary
SEAC

Chairman
SEAC

- 1 The proponent shall comply with the proposals furnished in Environmental management plan.
- 2 The project proponent shall develop greenbelt of 1km along approach roads & village Road sides,
- 3 The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.
- 4 The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time.
- 5 The proponent shall carryout suppression of dust generated due to transport vehicles by water spraying with tankers continuously.
- 6 The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
- 7 The project proponent shall provide 360m trench on Northern boundary side of lease area to prevent surface runoff.

Agenda Item 4.890 Ha Mining of Road Metal & Building Stone Quarry of M/s. Dwarakamai Constructions Pvt. Ltd. At Sy. No. 142, Veparalla Village, Rayadurgam Mandal, Anantapuramu District, Andhra Pradesh - Environmental Clearance - EIA Case-Reg. No:203.28 & 206.26 & 218.24 SIA/AP/M IN/40217 6/2022

Category: B2 at par with B1.

The proposed project is for mining of **Road Metal & Building Stone** in an area of 4.890 Ha, with a proposed production quantity of **Road Metal & Building Stone-72,662 M3/Annum** with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (I). Mining of minerals (<250 ha of mining lease area in respect of non-coal mine lease).

The proponent and their consultant M/s. VVN Technologies have attended the meeting and presented the case and the project proponent has submitted change of consultancy letter.

The SEIAA has issued TOR with public hearing on 25/06/2021 and public hearing was held on 01/06/2022.

Public hearing details

No specific environmental issues raised in the public hearing.

The reply by the proponent for the issues raised in the PH is as follows:

The consultant on behalf of proponent replied:

Sri Aswartha Narayana, Environment Consultant, M/s. Global Environment & Mining Services, Hospet:

He assured that the management will adopt all the norms/the guidelines stipulated by

Member Secretary
SEAC

Chairman
SEAC

	<p>the Govt. while operating the mine. He also assured that the management will provide Personal Protective Equipment (PPE) to the workmen in the mine lease area. He assured that the management will provide six-monthly health checkups for the surrounding villages. He also assured that the management will adopt controlled sequential blasting by using a delay detonator to control vibrations in the surrounding areas.</p> <p>The decision of 206th SEAC meeting: The Committee after examining the project proposals, presentations, mining plan, MoEF&CC Notifications & Oms, EIA Reports, PH minutes and <u>detailed deliberations</u>, recommended to raise ADS for Ambient Air Quality monitoring details and predictions.</p> <p><u>Accordingly the proponent has submitted Ambient Air Quality monitoring details and predictions on 03.03.2023.</u></p>
	<p>The base line data was collected from Oct, 21 to Dec, 2021. The predominant wind direction was observed to be East to west.</p> <p>The maximum concentration of SPM is observed to be 61.40 µg/m³. The incremental concentration is 7.90 µg/m³. The GLC of SPM will fall within mine lease area in the west direction.</p>
	<p>The proponent volunteered to provide water treatment plant to Veperalavillage and health camps in surrounding villages as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.</p> <p>Under EMP budget the proponent has proposed following:</p> <ul style="list-style-type: none"> ➤ Proposed to provide Garland Drain, trench in the mine lease area to control surface runoff ➤ Proposed to provide Continuous water sprinkling through water tanker for Suppression the dust particles. <p>The Committee after examining the project proposals, presentations, mining plan, MoEF&CC Notifications&OMs, ADS reply, EIA Report, PH minutes and <u>detailed deliberations</u>, recommended to issue Environmental Clearance with following conditions:</p> <ol style="list-style-type: none"> 1. The proponent shall comply with the proposals furnished in Environmental management plan. 2. The project proponent shall develop greenbelt of 1km along approach roads & village Road sides. 3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed. 4. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time. 5. The proponent shall carryout suppression of dust generated due to transport vehicles by water spraying with tankers continuously. 6. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement. 7. The project proponent shall comply all assurances given in the public hearing. 8. The project proponent shall provide 370m trench on North West boundary of lease area side to prevent surface runoff.

The representative of proponent M/s. S.V.Enviro Labs & Consultants have attended the meeting.

Earlier the project proponent obtained violation TOR on 31.03.2022 wherein the credible action was not mentioned. Hence, the committee recommended for ADS to submit CC No. as part of credible action.

Decision of 195th SEAC meeting:

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OMs and detailed deliberations, recommended to raise ADS for submission of proof of initiation of credible action i.e CC No. filed before the Hon'ble 1st class magistrate court under section 15 read with section 19 of E (P) act, 1986, initiated by Regional office, APPCB as part of credible action.

Accordingly the proponent has submitted proof credible action initiated.

Public hearing details

Village developmental activities and employment to villagers, greenbelt development, water sprinkling, controlled blasting, DSR, and social welfare activities are the main issues raised.

The base line data was collected from Nov, 2019 to Jan,2020 .The predominant wind direction is observed to be North East to South West.

The maximum concentration of SPM is observed to be 60 µg/m³. The incremental concentration is 1.75 µg/m³. The GLC of SPM will fall within mine lease area in south west direction.

The proponent volunteered to provide medical facilities to the Anakapalli PHC and health camps in surrounding villages as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.

Under EMP budget the proponent has proposed following:

- > Proposed to provide Contour trenches, Garland Drain, trench in the mine lease area to control surface runoff
- > Proposed to provide Continuous water sprinkling through water tanker for Suppression the dust particles.

SO No 804 dt 14.03.2017 compliance :

1.Credible action was initiated vide CC No 169/2023 dt: 11.02.2023 in the court of Jr Civil court Anakapalli, and paid fine of Rs. 75,000/- on 11.02.2023 .

2.Submitted an undertaking on 12.03.2021 stating that the violation will not be repeated.

3. Remediation and resource augmentation plan with a cost of Rs 651484/- . proof of submission of BG at SPCB also uploaded.

Member Secretary
SEAC

lease and also assured that they will provide RO drinking water plant abutting National Highway near the bust stop in the village within 02 months' time. He assured that they will take all precautionary and safety measures to control dust pollution from the mining activity. He also assured that they will plant about 2000 Nos. of saplings along the boundary and also along the haulage roads to control dust emissions. He assured that they will provide employment opportunities to the unemployed youth in the surrounding villages based on their qualifications. He also assured that they will conduct the health check-up once in 3 months in the surrounding villages and assured that they will spend CSR funds for the development of schools, temples, etc in the village. He also assured that they will not encroach the surrounding agricultural lands and also will obtain labour registration to all the workers/labour working in their mine lease area

The base line data was collected from march, 22 to May 2022 .The predominant wind direction is observed to be South to North. Modelling was done using AERMOD software.

The maximum concentration of SPM is observed to be 57.2 µg/m³. The incremental concentration is 7.96 µg/m³. The GLC of SPM will fall within mine lease area.

The proponent volunteered to provide water treatment plant to Badgarevillage ,and health camps in surrounding villages as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.

Under EMP budget the proponent has proposed following:

- **Proposed to provide Garland Drain, trench in the mine lease area to control surface runoff**
- **Proposed to provide Continuous water sprinkling through water tanker for Suppression the dust particles.**

The Committee after examining the project proposals, presentations, mining plan, MoEF&CC Notifications& OMs, EIA Report, PH minutes and detailed deliberations, recommended to issue Environmental Clearance with following conditions:

1. The proponent shall comply with the proposals furnished in Environmental management plan.
2. The project proponent shall develop greenbelt of 1km along approach roads & village Road sides.
3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.
4. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time.
5. The proponent shall carryout suppression of dust generated due to transport vehicles by water spraying with tankers continuously.
6. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
7. The project proponent shall comply all assurances given in the public hearing.
8. The project proponent shall dump granite waste over an area of 1 Acre in Sy. No.146 of H.D. Halli Village, Agali Mandal.

Agenda Item No: 218.31	3.520 Ha, Mining of Quartz & Feldspar of M/s Barashaheed Quartz Mining Company at Sy. No. 01 of Sanayapalem village, Rapur Mandal, SPSR Nellore District, Andhra Pradesh – Environmental Clearance – Reg.
