**MINUTES OF THE 218th MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P.,
HELD ON - 10th & 11th April 2023 AT VIJAYAWADA, A.P.**

Present: The following members were present. (Through Video Conference)

1.	Dr.G.V.R.Srinivasa Rao, Professor, Civil Engineering Department, Andhra University, Visakhapatnam	Chairperson
2.	Dr.DineshSankar Reddy. Registrar(I/C), Professor of Chemical Engineering, NIT, Tadepalligudem, West Godavari	Member
3.	Prof. G. Gnana Mani, Retd., Professor of Zoology, Andhra University, Visakhapatnam	Member
4.	Prof. U. Shameem. Chairman, Dept. of Zoology, Andhra University, Visakhapatnam	Member
5.	Dr. Kiranmai, Assistant Professor, Dept. of Biotechnology, VikramaSimhapuriUniversity,Nellore,SPSRNelloreDistrict	Member
6.	Prof. C. Sasidhar, Professor, Civil Engineering Dept, JNTU, Anantapur	Member
7.	Prof. N. Siva Prasad Reddy, Director (Academics), Brindavan Institute of Technology & Science, Kurnool	Member
8.	Prof. D. Bharathi, Professor, Dept. of Bio Sciences & Sericulture, Sri PadmavathiMahilaViswaVidhyalayam, Tirupati	Member
9.	Sri KatamneniVenkataRamana, Head of Mining Dept. Government Polytechnic, Narsipatnam.	Member
10.	Dr.M. Sunandana Reddy, Associate Professor,RGM College of Engineering & Technology (Autonomous), Nandyal.	Member
11.	Sri Matli. Chandra Sekhar Professor, Head of Department of Civil Engineering, NIT, Warangal.	Member
12.	Dr. G. Madhavi, Associate Professor, Department of Chemistry, Sri Venkateswara University, Tirupati	Member
13.	Prof. K. ThyagaRaju,Professor,Department of Biochemistry, S.V.University, Tirupati	Member
14.	Dr.GummallaPrasanthi, Professor, Vijaya Institute of Pharmaceutical Sciences, Vijayawada	Member
15.	Sri. B. Siva Prasad, Chief Environmental Engineer, Andhra Pradesh Pollution Control Board. Vijayawada	Member Secretary.

Representative of M/s Global Environment & Mining Services on behalf of M/s.Sri Venkata Sai Stone Crusher: He thanked everyone who participated in the Public Consultation and he explained the public for following prevention & control measures for proposed mining activity:

- Wet drilling will be adopted and controlled sequential blasting will be carried-out. Due to controlled sequential blasting, the vibrations in the surrounding areas will be minimal.
- The dust may get generated due to transport vehicles that carry the mined mineral. It will be suppressed by water spraying with tankers.
- The vehicles carrying the mines material will be covered with tarpaulins.
- It is proposed to take-up plantation of 1500 trees suitable to local conditions, in the vacant government land and also on both sides of the approach road. The protection and maintenance of these trees will be the responsibility of the quarry management only.
- Once the mining operations gets started, half-yearly monitoring of Ambient Air Quality, Noise Levels, Water quality testing, etc. will be carried out and the reports will be submitted to MoEF & CC Regional Office, APPCB and SEIAA.
- In the proposed mine, around 20 people will get direct employment and another 25 persons get indirect employment. In addition, opportunities will be given to locals, in various supporting activities like transportation of mined materials, water spraying on the approach roads, tree plantation and their maintenance etc.
- As part of Corporate Social Responsibility, in association with other quarries operating in the village, it is proposed to provide maintenance of RO Plant, which is proposed at Duddukuru village by M/s. Sri Gowri Earth Movers. Also, it is proposed to arrange health camps on every six months, for the benefit of the people from surrounding villages.
- All precautionary measures will take-up for Environmental Protection.

[Signature]

The base line data was collected from Dec, 2019 to Feb,2020 .The predominant wind direction is observed to be East to West.

The maximum concentration of SPM is observed to be 62.12 µg/m³. The incremental concentration is 2.169 µg/m³. The GLC of SPM will fall at a distance of 0.32KM towards West direction.

The proponent volunteered to maintain Water treatment plan which will be installed by Sri Gowri Earth movers to **Duddukuru** village and health camps in surrounding villages as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.

Under EMP budget the proponent has proposed following:

- **Proposed to provide Garland Drain, bunding all around the mine lease area to control surface runoff**
- **Proposed to provide Continuous water sprinkling through water tanker for Suppression the dust particles.**

The Committee after examining the project proposals, presentations, ADS reply, mining plan, MoEF&CC Notifications & OMs, EIA Report, PH minutes and detailed deliberations, recommended to issue Environmental Clearance with following conditions:

1. The proponent shall comply with the proposals furnished in Environmental management plan.
2. The project proponent shall develop greenbelt of 1km along approach roads &

Response of the proponent during the PH:

Sri P. Vijayakumar, Representative of M/s Global Environment & Mining Services on behalf of M/s.Sri Lakshmi Durga Metals, Mg.P:Sri V.S.V.Sivanarayana: He thanked everyone who participated in the Public Consultation and he explained the public for following prevention & control measures for proposed mining activity:

- Wet drilling will be adopted and controlled sequential blasting will be carried-out. Due to controlled sequential blasting, the vibrations in the surrounding areas will be minimal.
- The dust may get generated due to transport vehicles that carry the mined mineral. It will be suppressed by water spraying with tankers continuously.
- The vehicles carrying the mines material will be covered with tarpaulins to prevent dust.
- It is proposed to take-up plantation of 500 trees on every year suitable to local conditions, in the vacant mine land and government land and also on both sides of the approach road. The protection and maintenance of these trees will be the responsibility of the quarry management.
- Once the mining operations gets started, half-yearly monitoring of Ambient Air Quality, Noise Levels, Water quality testing, etc. will be carried out and the reports will be submitted to MoEF & CC Regional Office, APPCB and SEIAA.
- In the proposed mine, around 30 people will get direct employment and another 45 persons get indirect employment. In addition, opportunities will be given to locals, in various supporting indirect activities like transportation of mined materials, water spraying on the approach roads, tree plantation and their maintenance etc.
- As part of Corporate Social Responsibility, in association with other quarries operating in the village, it is proposed to provide RO water plant to Decherla Village. Also, it is proposed to arrange health camps on every six months, for the benefit of the people from surrounding villages.
- Fencing will be provided around the mined area after completion of mining activity.
- All precautionary measures will take-up for Environment Protection.

The base line data was collected from Nov,2021 to Jan,2022 .The predominant wind direction is observed to be East to West.

The maximum concentration of SPM is observed to be 65.32 $\mu\text{g}/\text{m}^3$. The incremental concentration is 2.08 $\mu\text{g}/\text{m}^3$. The GLC of SPM will fall at a distance of 0.29KM towards West direction.

The proponent volunteered to provide Medical infrastructure to **Decherla PHC** and health camps in surrounding villages as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.

Under EMP budget the proponent has proposed following:

- **Proposed to provide Garland Drain, bunding all around the mine lease area to control surface runoff**
- **Proposed to provide Continuous water sprinkling through water tanker for Suppression the dust particles.**

The Committee after examining the project proposals, presentations, ADS reply, mining plan, MoEF&CC Notifications & OMs, EIA Report, PH minutes and detailed deliberations, recommended to issue Environmental Clearance with following conditions:

Sri K.Ramakrishna Reddy, Consultant of M/s Global Environment & Mining Services on behalf of M/s.Suryavathi Granites, (Prop: Sri S.Samudra Reddy): He thanked everyone who participated in the Public Consultation and he explained the public for following prevention & control measures for proposed mining activity:

- Wet drilling will be adopted and controlled sequential blasting will be carried-out. Due to controlled sequential blasting, the vibrations in the surrounding areas will be minimal.
- The dust may get generated due to transport vehicles that carry the mined mineral. It will be suppressed by water spraying with tankers continuously.
- The vehicles carrying the mines material will be covered with tarpaulins to prevent dust.
- It is proposed to take-up plantation of 1000 medicinal trees in the vacant mine land and government land and also on both sides of the approach road. The protection and maintenance of these trees will be the responsibility of the quarry management.
- Once the mining operations gets started, half-yearly monitoring of Ambient Air Quality, Noise Levels, Water quality testing, etc. will be carried out and the reports will be submitted to MoEF & CC Regional Office, APPCB and SEIAA.
- In the proposed mine, around 30 people will get direct employment and another 45 persons get indirect employment. In addition, opportunities will be given to locals, in various supporting indirect activities like transportation of mined materials, water spraying on the approach roads, tree plantation and their maintenance etc.
- As part of Corporate Social Responsibility, in association with other quarries operating in the village, it is proposed to provide maintenance of RO Plant, which is proposed at Duddukuru village by M/s.Sai Sri Lakshmi Venkateswara Stone Crusher. Also, it is proposed to arrange health camps on every six months, for the benefit of the people from surrounding villages.
- All precautionary measures will take-up for Environment Protection.

The base line data was collected from Dec,2021 to Feb,2022 . The predominant wind direction is observed to be East to West.

The maximum concentration of SPM is observed to be 62.12 $\mu\text{g}/\text{m}^3$. The incremental concentration is 2.169 $\mu\text{g}/\text{m}^3$. The GLC of SPM will fall at a distance of 0.32KM towards West direction.

The proponent volunteered to provide Rs.1.0 Lakhs for bore well and Rs. 50,000/- for maintenance of Water treatment plan which will be installed by Sri Sai Lakshmi Venkateshwara stone crusher to Duddukuru village and health camps in surrounding villages as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.

Under EMP budget the proponent has proposed following:

- Proposed to provide Garland Drain, bunding all around the mine lease area to control surface runoff
- Proposed to provide Continuous water sprinkling through water tanker for Suppression the dust particles.

24. A panel constituted for the purpose of holding Public Hearing, in the considered opinion of this Court does not have power to recommend for holding Public Hearing afresh. Infact while referring to the last paragraph of the minutes of the panel constituted for the purpose of Public Hearing, learned Senior Counsel contends that, to the extent of the said paragraph which has recommended for re-holding the hearing cannot sustain in the eye of law. No provision of law nor instructions issued by the Government could be brought to the notice of this Court which confers power on the panel constituted for Public Hearing to recommend for holding the hearing afresh.

25. For the aforesaid reasons, Writ Petition is partly allowed, setting aside the last paragraph of the minutes of the panel for Public Hearing dated 06.10.2021 and consequently it is directed that the matter shall be sent to the authority concerned in accordance with Clause 7(iv) of Environmental Impact Assessment notification dated 14.10.2006, for taking further action by the respondents strictly in accordance with law. There shall be no order as to costs.

130.0 KLD of water consumption is anticipated in the industry which is used for cooling and Domestic purposes. The cooling water will be recycled. About 16 KLD of Domestic wastewater will be generated for which the industry proposed effluent treatment System. The cement grinding is a dry process and no impact on ground water table.

The industry proposes to install on number of vertical roller mill and two packing plants. This is basically an air pollution unit.

The industry proposes to install Bag house for the roller mill, packing plants and storage silos for controlling air pollution. The industry will have one 30m height stack and online monitoring is proposed.

The committee opined that the industry shall have characterization of Gypsum for trace heavy metals before utilizing in the process.

The industry shall provide interlocking facility between the roller mill and back house.

Under EMP budget the proponent has proposed following:

- **Proposed to provide Bag house, Hot air gases and Bag filters are the air pollution control equipment's.**

The Committee after examining the project proposals, presentations, mining plan, MoEF&CC Notifications & OMs, EIA Report, PH minutes and detailed deliberations, recommended to issue Environmental Clearance with following conditions:

1. The industry shall comply with the proposals furnished in Environmental management plan.
2. The industry shall develop avenue plantation along approach roads, village Road sides and industry premises.

SEAC

MINUTES OF THE 218th MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P., HELD ON - 10th & 11th April 2023 AT VIJAYAWADA, A.P.

The Committee noted that as per cluster letter issued by Asst. Director of Mines & Geology, SPSR Nellore, vide Lr. dated: 09.02.2023, there is one existing quarry lease within the radius of 500 mts area. The total cluster area is <5.0 Ha.

The proponent volunteered to Drinking water facilities, Toilets and Digital class rooms to Guntapalli Gov. School and health camps in surrounding villages as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.

Under EMP budget the proponent has proposed following:

- Proposed to provide trench with rocky bund all around the mine lease area to control surface runoff
- Proposed to provide Continuous water sprinkling through water tanker for Suppression the dust particles.

The Committee after examining the project proposals, presentations, mining plan, MoEF&CC Notifications & OMs and detailed deliberations, recommended to issue Environmental Clearance with following conditions:

1. The proponent shall comply with the proposals furnished in Environmental management plan.
2. The project proponent shall develop greenbelt of 1km along approach roads & village Road sides.
3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.
4. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time.
5. The proponent shall carryout suppression of dust generated due to transport vehicles by water spraying with tankers continuously.
6. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
7. The project proponent shall strictly implement DMGS rules and Regulations.
8. The project proponent shall provide 430m trench with rocky bund on Eastern side to prevent surface runoff.

Agenda Item: 208.25 & 213.36 & 218.08 **4.70 Ha Mining of Earth, Ballast, Road Metal & Boulders of M/s Jetty Satyanarayana & Others at Sy. No. 79/1P, 2P, 3P & 4P of Yellamilli Village, Gandepalli Mandal, East Godavari District, Andhra Pradesh – Environmental Clearance – EIA case - Reg.**

SIA/AP/MIN
/411994/20
22

Category: B2 at par with B1.

The proposed project is for mining of Earth, Ballast, Road Metal & Boulders in an area of 4.70 Ha. with a proposed production quantity of Ballast, Road Metal & Boulders – 1,08,242 m³ /Annum and Earth- 46,390 m³ /Annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). Mining of minerals (≤250 ha of mining lease area

Member Secretary
SEAC

Chairman
SEAC

in respect of non-coal mine lease).

The project proponent and their consultant M/s. SV Enviro Labs & Consultants have attended the meeting and presented the case.

The SEIAA has issued Violation TOR without public hearing on 30.08.2022.

SO No 804 dt 14.03.2017 compliance :

1. Credible action was initiated vide CC No 1852/2022 dt 09/12/2022 in the court of junior civil judge court, Peddapuram.

2. Submitted undertaking on 06.06.2022 stating that the violation will not be repeated.

3. Remediation and resource augmentation plan with a cost of Rs 4,09,462/- submitted proof of submission of BG is to submitted.

The base line data was collected from March, 2022 to May, 2022.

The predominant wind direction is observed to be South to North.

The maximum concentration of SPM is observed to be 61.07 $\mu\text{g}/\text{m}^3$. The incremental concentration is 5.65 $\mu\text{g}/\text{m}^3$. The GLC of SPM will fall at a distance of 760 m towards Northern side.

The proponent volunteered to provide 4 -Hospital beds, 4 - Oxygen concentrators to the PHC in Gandepalli Mandal as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine. Life of the mine is 6 years.

This proposal is appraised with following conditions:

1. The proponent shall comply with the proposals furnished in Environmental management plan.
2. The project proponent shall develop greenbelt of 1km along approach roads & village Road sides.
3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.
4. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time.
5. The project proponent shall carryout mining with proper benches.

Decision of 208 SEAC meeting:

The Committee after examining the project proposals, presentations, mining plan, MoEF&CC' Notifications & OMs, EIA Reports and detailed deliberations, recommended to raise ADS for following:

6. The project proponent shall submit the project cost and total turnover letter from Mines and Geology Department during the violation period.

Decision of 213th SEAC meeting:

Accordingly, the proponent submitted production and dispatch details vide ADMG letter dt.

Member Secretary
SEAC

Chairman
SEAC

26.12.2022.

Penalty amounts to be collected for violation period as per OM dt 07.07.2021:

Vide letter dated 26.09.2022, the SEIAA chairman has requested the SEAC chairman to calculate the penalty amount as per the SoP dated 07.07.2021 and OM dated 28.07.2022 issued by MoEF&CC after receiving the information pertaining to the project cost and total turnover of mines during period of violation for violation cases from mines and geology department, records and other sources. After estimation of penalty amount the SEAC may recommend to SEIAA for further course of action. Accordingly the following penalty is calculated and recommended to take further action in complying with OM 07.07.2021 SoP.

S N o	Name of the mine	Project cost in Rs	Total productio n during violation period as reported by mining departme nt letter dated 26.12.202 2	Cost of the mineral as reporte d by the mining departm ent letter dated 26.12.2 022	Turnove r during violation period in Rs as reported by the mining departm ent vide letter dated 26.12.20 22	1% of proj ect cost in Rs	0.25 % of turn over during violati on period in Rs	Total penalty amount to be levied as per OM 07.07.2 0 21 in Rs
1.	M/s Jetty Satyanaray ana & Others, Managing Partner: Sri Jetty Satyanaray ana(SIA/A P/MIN/41 1994/202 2)	Rs. 50,00,0 00/-	Earth/Ov erburden is 20,250MT and Road Metal is 1,49,170 MT	3,11,90, 750/-	3,11,90, 750/-	50,0 00/-	77,977 /-	1,27,97 7/-

The Committee after examining the ADMG letter dt. 26.12.2022, presentation, and detailed deliberations, recommended to raise ADS for submission of proof of bank guarantee for Rs 4,09,462/- as a part of Remediation and resource augmentation plan

Member Secretary
+ SEAC

Pvt. Ltd., have attended the meeting and presented the case.
They obtained Standard TOR with public hearing on 18/10/2021 and public hearing was held on 026.08.2022.

Public hearing details

Skill development, village development, education facilities & employment are the main issues raised in the public hearing.

The reply by the proponent for the issues raised in the PH is as follows:

Response of the management regarding the issue raised by the public:

Sri. Krishna Reddy, Management Representative, informed the gathering that, the management of M/s VPR Mining Infrastructure Private Limited will give priority to the local villagers in employment and take initiative in providing educational and health care facilities in the surrounding villages. They will take necessary environment protection measures including planting trees and regular maintenance of equipment. He informed that they will provide insurance facility to the workers, ambulance, training to the local youth and other undertake development activities as suggested by the villagers.

The base line data was collected from October,2021 to December,2021.

The predominant wind direction is observed to be South -West to North- East.

The incremental concentration is 0.25 $\mu\text{g}/\text{m}^3$. The GLC of SPM will fall within mine lease area.

The decision of 204th SEAC meeting:

The Committee after examining the project proposals, presentations, mining plan, MoEF&CC' Notifications & OMs and detailed deliberations recommended to raise ADS for following.

1. Revised EIA report & base line data for one day and noise level predictions.
2. The project proponent shall submit drawing for ventilation as it is a underground mine.

Accordingly, the project proponent submitted ventilation plans and drawings and one day sampling conducted on 05.01.2023 data.

The maximum concentration of SPM is observed to be 52.57 $\mu\text{g}/\text{m}^3$. The incremental concentration is 2.5 $\mu\text{g}/\text{m}^3$. The GLC of SPM will fall within in mine lease area.

The proponent volunteered to provide Amulance to Vemula Government hospital and health camps in surrounding villages as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.

Under EMP budget the proponent has proposed following:

"AVAASA ONE" Residential Tower Project by AVAASA Realtors Private Limited Sy. No: 98(Part), Sarpavaram Village, Kakinada Rural Mandal, Kakinada District, AP. – Environmental Clearance – Reg.

SIA/AP/INF
RA2/41473
0/2023

Category :B2

The Proposal of **AVAASA Realtors Private Limited** „is applied for Environmental Clearance for construction of **Residential Tower Project..**

The project falls under Item No. 8(a)- Building and Construction Projects (>20,000 Sq.mtrs and <1,50,000 sq. m. of built up area).

The Committee noted that the project proponent proposes for construction of **Residential Tower Project** with Built Up area -38,518 Sq.m and total plot area is **6131 Sq.m.**

The proponent and their consultant, B S Enviro Tech have attended the meeting.

Description of Floor	Sqm	Number of Floors	Total sqm	BUA

Terrace amenities	304	1	304
Services (Transformer, DG, etc.,)	123	1	123
Tot-lot amenities	585	1	585
Total Built up Area			38518

The committee noted that the 132 KLD water required for the proposal. The water source of water supply is Municipality, Kakinada, and Total Wastewater Generation - 105 KLD. The proponent proposed to provide 110 KLD sewage treatment plant.

About 317 kgs/day of garbage is expected to be generated for which the proponent proposed to provide garbage chute to ensure the disposal as per solid management rules 2016.

The committee appraised the application from the Environmental point of view only with respect to liquid, solid and air pollution managements.

The water balance report submitted is not clear and around 78 KLD is proposed to be discharged into Nalla.

The committee noted that there is no proper sewerage infrastructure in the proposed area. Proper lined sloped Public municipal drains without leading to canal are also not located.

There should be a DPR with regard to water, Air, Soil, Environmental safety, Traffic, road, construction and Demolition waste, Energy conservation measures, Rain water harvesting plan, solid waste disposal, proposals in accordance with SO No. 5733 (E) and parking. Hon'ble NGT in 593 of 2017, 673 of 2018 and supreme court observations in WP No 375 of 2012.

"The monitoring is expected with reference to ensuring that no pollutant is discharged in water bodies and any violation by local bodies or private persons are dealt with as per mandate of law as laid down in orders of the Hon'ble Supreme Court and this Tribunal without any deviation from timelines."

The proponent volunteered to develop avenue plantation in Kakinada city as a part of
