The Authority after detailed discussion and deliberation decided the following:

1. **Serial No. 1, 2, 3, 4, 7, 9, 10, 19, 20, 26, 35:** The Authority accepted the recommendations of SEAC and **decided to grant ToR to these proposals** subject to condition of submission of revised DCF Certificate at the time of EC application.
2. **Serial No. 5, 8, 12, 16, 23, 24, 27:** The Authority accepted the recommendations of SEAC and **decided to grant EC to these proposals.**
3. **Serial No. 6:** SEAC had recommended to reject the proposal. However, the PP/Consultant submitted an application to SEIAA for personal hearing. The Authority accepted the request of the Project Proponent and heard the PP/Consultant. The Authority is of the view that the application is faulty as pointed out by SEAC, since there is no prior EC for Silica Sand. The application has to be for mineral inclusion of silica sand and masonry stone along with expansion in the quantity of Quartz. SEIAA does not agree with the comments of SEAC in regard to violation since they pertain to the initial period after which EC was granted by MoEF&CC and, therefore, such period was in the domain of MoEF&CC. No violation has been pointed out by SEAC subsequent to issuance of EC by MoEF&CC.

In view of the above, this **application is rejected and PP may re-apply after rectification of defects as pointed above and any other points made by SEAC in this regard.**

The matter regarding the project being covered under the order of the Hon'ble Supreme Court regarding the mining activity in Aravalli Hills shall be decided by

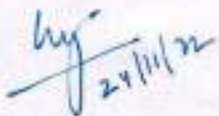

SEIAA when the revised application is next received for consideration along with comments of SEAC on all other aspects.

4. **Serial No. 11, 25:** The Authority accepted the recommendations of SEAC and decided to **approve EIA/EMP and grant EC** to these proposals with the condition that all the lease holders of the cluster shall ensure to raise a dense plantation in the 7.5m green belt around the lease area to mitigate the pollution effects.
