satyanarayana & 24 of 2016 filed by E.A.S. Sarma.

(c) Also the Hon'ble NGT, New Delhi have constituted the two committees namely Supervisory Committee and Implementation committees:

- i. The Supervisory Committee shall meet at least once in three months & the Implementation Committee shall meet every month.
- ii. The committee shall ensure that the conditions stated in the order dated 09.05.2015, while granting EC to the project and the conditions mentioned in this judgement are complied with, without any delay and default.
- iii. APCRDA & CA being the project proponent shall furnish a revolving Bank Guarantee of an amount of Rs.5.0 Crores (Rupees Five Cores only) to the satisfaction of the Committee.

and further directed that

*"The additional conditions imposed by the Hon'ble National Green Tribunal , New Delhi order dated 17.11.2017 may be brought to the notice of State Level Impact Assessment Authority (SEIAA), Andhra Pradesh for stipulation of the additional conditions in the Environmental Clearance (EC) Order issued to the Greenfield Capital City – Amaravati on 09.10.2015."*

(d) The additional conditions issued in the NGT order dt. 17.11.2017 are as follows:

- i. The project proponent shall conduct or cause to be conducted a comprehensive study on hydro geomorphology of the area with a view to effectively plan water retention ponds/reservoirs, storm water drains and their interconnectivity, so as to optimize water conservation, both surface and sub surface.
- ii. Any alteration of the flood plains by construction of storm water drains, retention ponds and related development within the capital city should be done only after conducting a study.
- iii. No alteration of the river or natural storm water morphology, flow pattern and location by way of straightening shall be permitted, as such alteration may result in increase of soil erosion, sediment transport due to raised velocity and decrease in ground water recharge which may reduce base flow during the dry season.
- iv. No alteration to the pre-existing embankments if any should be permitted except as may be required for its strengthening for flood protection of the proposed Capital City. Even such exercise should be undertaken after detailed study of the flood pattern and hydraulics of the river or the storm water drains.
- v. All bulk generators of municipal solid waste in the proposed constructions, both residential and non-residential, must necessarily segregate waste at the source and process entire biodegradable waste by composting or bio-methanation within the premises.

(e) The 1<sup>st</sup> Implementation Committee was held on 14.02.2018 at , EFS&T Department, Interim Government Complex, Velagapudi, Amaravati, Andhra Pradesh. *The APCRDA has submitted the Bank Guarantee of Rs.5.0 Crores to the SEIAA, Andhra Pradesh on 08.03.2018.*
