

State Level Environment Impact Assessment Authority-Karnataka

(Constituted by MoEF, Government of India, under section 3(3) of E(P) Act, 1986)

**Proceedings of the 245th SEIAA Meeting held on 07th November 2023 at 10:30 AM
at Room No. 709, 7th Floor, Gate IV, M.S Building, Bangalore - 560001.**

Members present: -

- | | |
|-----------------------------------|-------------------------|
| 1. Dr. K. R. Sree Harsha - | Chairman, SEIAA |
| 2. Shri. K. N. Shivalinge Gowda - | Member, SEIAA |
| 3. Shri. B. P. Ravi, IFS - | Member Secretary, SEIAA |

The Member Secretary, SEIAA welcomed the Chairman and member and initiated the discussion. The subjects discussed and the decisions made on each of the agenda points are as follows:

245.1. Fresh Projects (Recommended for EC):

Construction Projects:

245.1.1. Residential Development Project at Begur Village and Hulimavu Village, Begur Hobli, Bengaluru South Taluk, Bengaluru by M/s. Suadela Constructions Pvt. Ltd. - Online Proposal No.SIA/KA/INFRA2/443827/2023 (SEIAA 67 CON 2023)

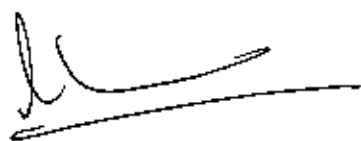

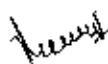

M/s.Suadela Constructions Pvt. Ltd. have proposed for construction of Residential Development Project on a plot area of 1,42,484.388Sq.m. The total built up area is 6,07,340Sq.m. The proposed project consists of 2450 Dwelling Units. Blocks 1, 3 and 4 - 3 Basement Floors + Ground Floor + 27 Upper Floors (Construction Completed), Block 5 - 2 Basement Floors + Ground Floor + 27 Upper Floors(Construction Completed), Block 7A & 7C - 1 Basement Floor + Ground Floor + 27 Upper Floors(7C Construction Completed), Block 7B - 1 Basement Floor + Ground Floor + 12 Upper Floors(Construction Completed), Sports Hall (Block 2) - 1 Basement Floor + Ground Floor + Single Upper Floor(Construction Completed), Clubhouse - I (Block 6) - Ground Floor + 2 Upper Floors(Construction Completed), Clubhouse - II - Ground Floor + Single Upper Floors (Proposed), Block 8 and 9 - 3 Basement Floors + Ground Floor + 33 Upper Floors (Proposed)Total water consumption is 1863 KLD (Fresh water + Recycled water). The total wastewater generated is 1490 KLD. The project proponent has proposed to construct Sewage Treatment plant with capacity of 1100 KLD& 700KLD. The project cost is Rs. 1050 Crores.

245.1.42. Expansion of Building Stone Quarry Project at Hasuvinakaval Village, Periyapatna Taluk, Mysore District (2-00 Acres) (QL No. 421) by M/s. Sapthagiri M-Sand & Stone Crusher - Online Proposal No.SIA/KA/MIN/413732/2023 (SEIAA 405 MIN 2023)

M/s. Sapthagiri M-Sand & Stone Crusher have applied for Environmental clearance from SEIAA for Expansion of Building Stone Quarry Project at In Sy.No. 448 (P) of Hasuvinakaval Village, Periyapatna Taluk, Mysore District (2-00 Acres) .

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION PROVIDED BY PP										
1	Name & Address of the Projects Proponent	M/s. Sapthagiri M-Sand & Stone Crusher										
2	Name & Location of the Project	Expansion of Building Stone Quarry Project at In Sy.No. 448 (P) of Hasuvinakaval Village, Periyapatna Taluk, Mysore District (2-00 Acres) (QL No. 421)

7	Annual Production (Metric Ton / Cum) Per Annum	1,05,263 Tones/ Annum (including waste)										
8	Project Cost (Rs. In Crores)	Rs.1.17 Crores (Rs. 117 Lakhs)										
9	Proved Quantity of mine/ Quarry-Cu.m / Ton	8,62,983Tones (including waste)										
10	Permitted Quantity Per Annum - Cu.m / Ton	1,00,000Tones / Annum (excluding waste)										
11	CER Activities:											

Year	Corporate Environmental Responsibility (CER)	
1st	Providing solar power panels to the GHPS school at Hasuvinakaval village.	
2nd	Scientific support and awareness to local farmers to increase yield of crop and fodder	
3rd	Rain water harvesting pits to the GHPS school at Hasuvinakaval village.	
4th	Conducting E-waste drive campaigns at Hasuvinakaval village.	
5th	Health camp in GHPS school at Hasuvinakaval Village	
12	EMP Budget	Rs. 24.93 lakhs (Capital Cost) & Rs. 7.78 lakhs (Recurring cost)
13	Quarry plan	14.12.2022
14	Cluster certificate	20.12.2022
15	CCR	08.08.2023
16	Audit Report	17.10.2022

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for expansion of building stone quarry, for which the lease was in effect from 17.07.2007 with QL No. 421, for which EC was issued earlier by SEIAA on 28.01.2016. The Proponent submitted audit report till 2022-23 certified by DMG dated 24.08.2023 and CCR from KSPCB dated 08.08.2023.

There is an existing cart track road to a length of 320 meters connecting lease area to the all-weather black topped road. The Committee informed that the proposed expansion in quantity should be commenced after asphaltting the approach road to the quarry and road leading to crusher as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 8,62,983 tonnes (including waste) and estimated the life of mine to be 9 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 1,05,263 Tones / Annum (including waste), with following consideration,

1. Proponent agreed to asphaltting the approach road to the quarry as per norms before commencing expansion in quantity.
2. To grow trees all along the approach road and towards habitation during the first year of operation.
3. Proponent agreed to construct garland drain around the project site.
4. To comply with the observation of KSPCB.

5. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

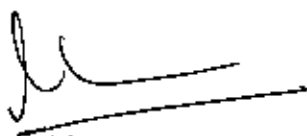

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*
6. *To grow trees all along the approach road and towards habitation during the first year of operation.*
7. *Proponent agreed to construct garland drain around the project site.*
8. *To comply with the observation of KSPCB.*
9. *Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.*

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

As per the cluster sketch there is no lease within 500mtr from the said lease and total area of the applied lease is 2-32 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 670 meters connecting lease area to the all-weather black topped road. The Committee informed that the production should be commenced after asphalt the approach road to the quarry as per standard norms and to grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan, with proved mineable reserve of 2,09,483 tones (including waste) and estimated the life of mine to be 7 years.

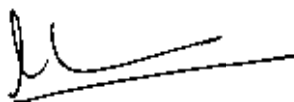

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 32,412 tones/Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*

3. A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.

Additional Conditions:

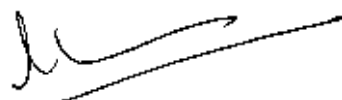

1. The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.
2. The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.
4. Dust suppression measures have to be strictly followed.
5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.
6. To grow trees all along the approach road during the first year of operation.
7. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

245.1.44. White Quartz Quarry Project at Hallikerekaval Village, Kadur Taluk, Chikkamagaluru District (5-00 Acres) by Sri A. Mehaboob Pasha - Online Proposal No.SIA/KA/MIN/442553/2023 (SELAA 428 MIN 2023)

Sri A. Mehaboob Pasha have applied for Environmental clearance from SEIAA for White Quartz Quarry Project at Sy.No.201 of Hallikerekaval Village, Kadur Taluk, Chikkamagaluru District (5-00 Acres)

Details of the project are as follows:

17	Notification	06.07.2023

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

As per the cluster sketch there is no lease within 500mtr from the said lease and total area of the applied lease is 2.40 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 300meters connecting lease area to the all-weather black topped road. The Committee informed that the production should be commenced after asphaltting the approach road to the quarry and road connecting the crusher as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed.

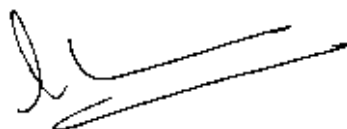

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

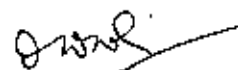

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan, with proved mineable reserve of 7,49,014tonnes(including waste) and estimated the life of mine to be 8 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 1,05,263tonnes/Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

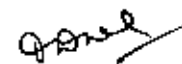

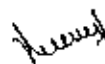

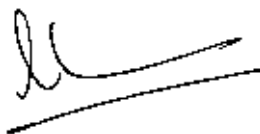

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*
6. *The PP Shall grow trees all along the approach road during the first year of operation.*
7. *The PP Shall carry out regular health checkup for the workers in the near by Hospital*

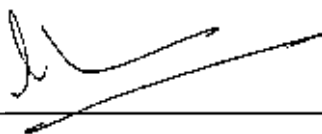

245.1.46. Building Stone Quarry Project at Siddapura Village, Nyamathi Taluk, Davanagere District (2-32 Acres) by M/s. NJG Stones - Online Proposal No.SIA/KA/MIN/440298/2023 (SEIAA 419 MIN 2023)

M/s. NJG Stones have applied for Environmental clearance from SEIAA for Building Stone Quarry Project at Sy.No.53/2(P) of Siddapura Village, Nyamathi Taluk, Davanagere District (2-32 Acres)

Details of the project are as follows:

SIN o	PARTICULARS	INFORMATION PROVIDED BY PP														
1	Name & Address of the Projects Proponent	M/s. NJG Stones														
2	Name & Location of the Project	Building Stone Quarry Project at Sy.No.53/2(P) of Siddapura Village, Nyamathi Taluk, Davanagere District (2-32 Acres) <table border="1"> <thead> <tr> <th>Lattitude</th> <th>Longitude</th> </tr> </thead> <tbody> <tr> <td>N14°08'10.6"</td> <td>E75°27'52.8"</td> </tr> <tr> <td>N14°08'10.2"</td> <td>E75°27'54.8"</td> </tr> <tr> <td>N14°08'10.0"</td> <td>E75°27'54.8"</td> </tr> <tr> <td>N14°08'05.5"</td> <td>E75°27'54.8"</td> </tr> <tr> <td>N14°08'03.8"</td> <td>E75°27'55.1"</td> </tr> <tr> <td>N14°08'04.6"</td> <td>E75°27'52.9"</td> </tr> </tbody> </table>	Lattitude	Longitude	N14°08'10.6"	E75°27'52.8"	N14°08'10.2"	E75°27'54.8"	N14°08'10.0"	E75°27'54.8"	N14°08'05.5"	E75°27'54.8"	N14°08'03.8"	E75°27'55.1"	N14°08'04.6"	E75°27'52.9"

3	Type Of Mineral	Building Stone Quarry														
4	New / Expansion / Modification / Renewal	New														
5	Type of Land [Forest, Government Revenue, Gomal, Private / Patta, Other]	Patta														
6	Area in Acres	2-32 Acres														
7	Annual Production (Metric Ton / Cum) Per Annum	94,737 Tones/ Annum (including waste)														
8	Project Cost (Rs. In Crores)	Rs. 0.75 Crores (Rs.75 Lakhs)														
9	Proved Quantity of mine/ Quarry- Cu.m / Ton	12,63,158Tones (including waste)														
10	Permitted Quantity Per Annum - Cu.m / Ton	90,000 Tones / Annum (excluding waste)														
11	CER Activities: To grow additional 1000 No. of plantation both side of haul roads in & around Siddapura govt. school,crushing plant area, vicinity of office or Amount to be given to Forest department for plantation in their area.															
12	EMP Budget	Rs.18.25 lakhs (Capital Cost) & Rs.13.90 lakhs (Recurring cost)														
13	Forest NOC	17.07.2023														
14	Quarry plan	21.08.2023														
15	Cluster certificate	29.08.2023														
16	Revenue NOC	11.07.2023														
17	Notification	03.08.2023														

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

As per the cluster sketch there are four leases within 500mtr from the said lease and total area of the leases including the applied lease is 11-14 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 450meters connecting lease area to the all-weather black topped road. The Committee informed that the production should be commenced after asphaltting the approach road to the quarry and road connecting the crusher as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan, with proved mineable reserve of 12,63,158tonnes(including waste) and estimated the life of mine to be 14 years.

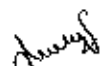

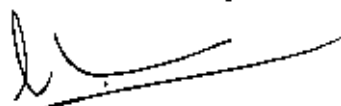

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 94,737tonnes/Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

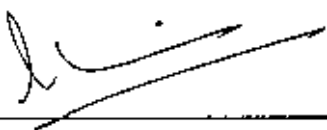

1. The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.
2. The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.
4. Dust suppression measures have to be strictly followed.
5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.
6. The PP Shall grow trees all along the approach road during the first year of operation.
7. The PP Shall carry out regular health checkup for the workers in the near by Hospital.

245.1.47. Building Stone Quarry Project at Madahalli Village, Gundlupete Taluk, Chamarajanagar District (4-04 Acres) by M/s. Srilakshmi Minerals - Madahalli LLP - Online Proposal No.SIA/KA/MIN/442864/2023 (SEIAA 422 MIN 2023)

M/s. Srilakshmi Minerals - Madahalli LLP have applied for Environmental clearance from SEIAA for Building Stone Quarry Project at Sy.Nos.283/1, 283/2 & 283/3 of Madahalli Village, Gundlupete Taluk, Chamarajanagar District

Details of the project are as follows:

15	Cluster certificate	31.07.2023
16	Revenue NOC	28.10.2022
17	Notification	26.07.2023

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that the proposed area is a fresh land and no mining has been carried out by Proponent and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

As per the cluster sketch there are three other leases in a radius of 500 mtrs from the applied lease, out of which 02 leases are exempted from cluster as it was granted prior to 09.09.2013 and the total area of the remaining leases including the applied lease is 10-26 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 1220 meters connecting lease area to the all-weather black topped road. The Committee informed that the production should be commenced only after asphaltting the approach road to the quarry and the road connecting the crusher as per IRC standard norms and to grow trees all along the approach road in the first year of operation, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 28,63,574 Tones (including waste) and estimated the life of mine to be 10 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 52,632 Tones for 1st year

& 2,89,474 Tones/annum for 2nd to 5th year (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and the road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to carry out regular health checkup for the workers at the near by Hospital.

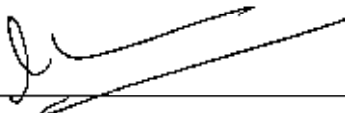

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*
6. *The PP Shall grow trees all along the approach road during the first year of operation.*
7. *The PP Shall agreed to carry out regular health checkup for the workers at the near by Hospital.*

12	EMP Budget	Rs. 6.00 lakhs (Capital Cost) & Rs.2.74 lakhs (Recurring cost)										
13	Forest NOC	19.07.2021										
14	Quarry plan	30.08.2022										
15	Cluster certificate	01.09.2023										

16	JIR	11.08.2021
17	Notification	23.11.2021

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SELAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that the proposed land is Government land and quarrying had been carried out in 10 Acres of lease area in 1979 and after the expiry of lease the area was divided into four blocks and was allotted to the Proponent on auction basis and no mining has been carried out by Proponent till date and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

As per the cluster sketch there are another 20 leases in a radius of 500 mtr from the said lease, out of which 13 leases are exempted from cluster, as leases were granted prior to 09.09.2013 and 01 lease is exempted as EC was issued prior to 15.01.2016 and the total area of the remaining leases including the applied lease is 10-20 Acres and hence the project is categorized as B2.

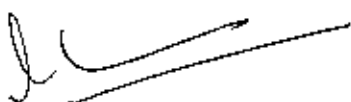

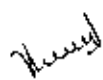

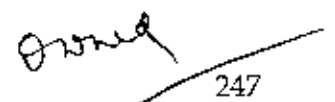

There is an existing cart track road to a length of 100 meters connecting lease area to the all-weather black topped road. The Committee informed that quarrying should be commenced after strengthening the approach road to the quarry and road connecting the crusher as per IRC standard norms and should grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 4,12,218 tons (including waste) and estimated the life of mine to be co-terminous with lease period.

The Committee after discussion decided to recommend the proposal to SELAA for issue of Environmental Clearance for an annual production of 6,013 tons/ Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CVLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

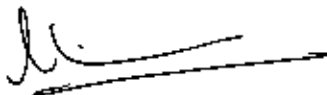

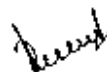

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*
6. *The PP Shallgrow trees all along the approach road during the first year of operation.*
7. *The PP Shallcarry out regular health checkup for the workers in the near by Hospital.*

245.1.51. Grey Granite Quarry Project at Mudgal Village, Lingasaguru Taluk, Raichur District (10-00 Acres) by Sri Anjaneya Vajjal- Online Proposal No.SIA/KA/MIN/444335/2023 (SEIAA 444 MIN 2023)

Sri Anjaneya Vajjal have applied for Environmental clearance from SEIAA for Grey Granite Quarry Project at Sy.No.399/*/* of Mudgal Village, Lingasaguru Taluk, Raichur District (10-00 Acres)

Details of the project are as follows:

Sl.No.	PARTICULARS	INFORMATION PROVIDED BY PP

15	Cluster certificate	05.09.2023																		
16	Revenue NOC	22.06.2022																		
17	Notification	30.06.2023																		

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

As per the cluster sketch there is no lease within 500mtr from the said lease and total area of the applied lease is 10-00Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 170 meters connecting lease area to the all-weather black topped road. The Committee informed that the production should be commenced after asphaltting the approach road to the quarry and road connecting the crusher as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan, with proved mineable reserve of 17,81,528.56 Cum (including waste) and estimated the life of mine to be co-terminous with lease period.

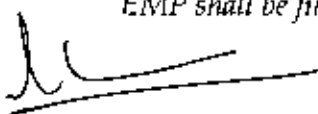

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 50,000 Cum /Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. To handle waste generated by obtaining necessary permission.
4. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

4. Since there is substantial quantity of generation of waste from the quarry activity, all due precautions with respect to environment management aspects of waste dump shall be observed.

Additional Conditions:

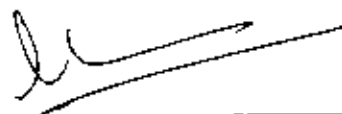

1. The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.
2. The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.
4. Dust suppression measures have to be strictly followed.
5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.
6. The PP Shall grow trees all along the approach road during the first year of operation.
7. The PP Shall handle waste generated by obtaining necessary permission.
8. The PP Shall carry out regular health checkup for the workers in the near by Hospital.

245.1.52. Expansion of Building Stone Quarry Project at Makenahalli Village, Nelamangala Taluk, Bangalore Rural District (5-00 Acres) (QL.No - 2707) by M/s.SriNanjundappa Construction - Online Proposal No.SIA/KA/MIN/430743/2023 (SEIAA 449 MIN 2023)

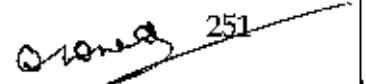

M/s.SriNanjundappa Construction have applied for Environmental clearance from SEIAA for Expansion of Building Stone Quarry Project at Sy. No. 48, Makenahalli Village, Nelamangala Taluk, Bangalore Rural District (5-00 Acres) (QL.No - 2707)

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION PROVIDED BY PP
1	Name & Address of the Projects Proponent	M/s.SriNanjundappa Construction
2	Name & Location of the Project	Expansion of Building Stone Quarry Project at Sy. No. 48, Makenahalli Village, Nelamangala Taluk, Bangalore Rural District (5-00 Acres) (QL.No - 2707)

14	Cluster certificate	18.05.2023	
15	CCR	20.09.2023	
16	Audit Report	30.08.2023	

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for expansion of building stone quarry, for which lease was granted on 29.07.2019 with QL No. 2707 and for which EC was issued earlier by SEIAA

on 17.07.2019. The Proponent submitted an audit report till 2022-23 certified by DMG dated 30.08.2023 and CCR from KSPCB dated 20.09.2023.

There is an existing cart track road to a length of 1350 meters connecting lease area to the all-weather black topped road. The Committee informed that the proposed expansion in quantity should be commenced after asphaltting the approach road to the quarry and road leading to crusher as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 46,83,886 Tones (including waste) and estimated the life of mine to be 24 years.

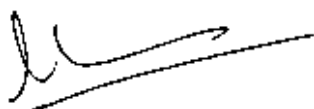

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 1,96,842 Tones/ Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry as per norms before commencing expansion in quantity.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to construct garland drain around the project site.
4. To comply with the observation in CCR issued by KSPCB.
5. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

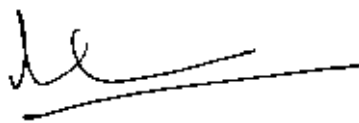

1. The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.
2. The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.
4. Dust suppression measures have to be strictly followed.
5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.
6. The PP Shall grow trees all along the approach road during the first year of operation.
7. The PP Shall construct garland drain around the project site.
8. The PP Shall comply with the observation in CCR issued by KSPCB.
9. The PP Shall carry out regular health checkup for the workers in the near by Hospital.

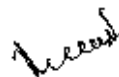

245.1.53. Building Stone Quarry Project at Karekallu Village, Ballari Taluk, Ballari District (12-00 Acres) by Sri. B Krishna - Online Proposal No.SIA/KA/MIN/442027/2023 (SEIAA 410 MIN 2023)

Sri. B Krishna have applied for Environmental clearance from SEIAA for Building Stone Quarry Project at Sy.No.209/1 Part of Karekallu Village, Ballari Taluk, Ballari District (12-00 Acres).

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION PROVIDED BY PP
1	Name & Address of the Projects Proponent	Sri. B Krishna
2	Name & Location of the Project	Building Stone Quarry Project at Sy.No.209/1 Part of Karekallu Village, Ballari Taluk, Ballari District (12-00 Acres)

		Latitude	Longitude

15	Cluster certificate	19.08.2023	
16	Revenue NOC	18.07.2019	
17	Notification	06.08.2020 & 30.05.2023	

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that the proposed area is a fresh land and no mining has been carried out by Proponent and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

255

As per the cluster sketch there is no lease within 500mtr from the said lease and total area of the applied lease is 12-00Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 460 meters connecting lease area to the all-weather black topped road. The Committee informed that the production should be commenced after asphaltting the approach road to the quarry and road connecting the crusher as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan, with proved mineable reserve of 16,09,876 Tones for Building Stone & 13,31,000 Tones of Murram (including waste) and estimated the life of the mine to be 21 years.

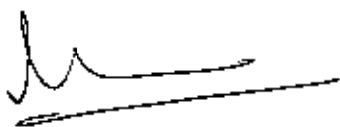

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 80,000 Tones / Annum (including waste) of Building Stone and 80,000 Tones / Annum (including waste) of Murram, with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. To handle waste generated by obtaining necessary permission.
4. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Need

Additional Conditions:

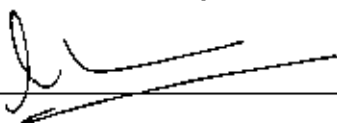

1. The PP^s should get the health check-up done for the quarry^s workers on half yearly basis and submit report periodically.
2. The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.
4. Dust suppression measures have to be strictly followed.
5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.
6. The PP Shall grow trees all along the approach road during the first year of operation.
7. The PP Shall handle waste generated by obtaining necessary permission.
8. The PP Shall carry out regular health checkup for the workers in the near by Hospital.

245.1.54. Building Stone Quarry Project at Boragal Village, Hukkeri Taluk, Belagavi District (1-14 Acres) by Sri. Praveen Manasing Nayak - Online Proposal No.SIA/KA/MIN/440781/2023 (SEIAA 394 MIN 2023)

Sri. Praveen Manasing Nayak have applied for Environmental clearance from SEIAA for 44 Building Stone Quarry Project at Sy.No.311 of Boragal Village, Hukkeri Taluk, Belagavi District (1-14 Acres)

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION PROVIDED BY PP										
1	Name & Address of the Projects Proponent	Sri. Praveen Manasing Nayak										
2	Name & Location of the Project	44 Building Stone Quarry Project at Sy.No.311 of Boragal Village, Hukkeri Taluk, Belagavi District (1-14 Acres) <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th>Latitude</th> <th>Longitude</th> </tr> </thead> <tbody> <tr> <td>N 16°20'04.2012"</td> <td>E 74°32'27.3704"</td> </tr> <tr> <td>N 16°20'03.9601"</td> <td>E 74°32'25.0510"</td> </tr> <tr> <td>N 16°20'07.3504"</td> <td>E 74°32'25.7203"</td> </tr> <tr> <td>N 16°20'07.7808"</td> <td>E 74°32'26.8712"</td> </tr> </tbody> </table>	Latitude	Longitude	N 16°20'04.2012"	E 74°32'27.3704"	N 16°20'03.9601"	E 74°32'25.0510"	N 16°20'07.3504"	E 74°32'25.7203"	N 16°20'07.7808"	E 74°32'26.8712"

Luay

11	CER Activities: To grow additional 150 No. of plantation on either side of the approach road from quarry location to Pyalachinnappanahalli Village Road	
12	EMP Budget	Rs.7.80 lakhs (Capital Cost) & Rs. 2.18 lakhs (Recurring cost)
13	Forest NOC	31.10.2015
14	Quarry plan	25.05.2023
15	Cluster certificate	15.07.2023
16	Audit Report	01.08.2023

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Proponent informed the Committee that the proposal is for renewal of a lease which was granted earlier on 09.12.2005, with QL No. 654 which has been non-operational since 2011-12 till date and justified the same as per the audit report issued by DMG dated 01.08.2023.

For the existing leases, based on the applicability of cut off dates as per clause 3 of 233rd SEIAA meeting dated 18.04.2023, Proponent informed that they had not carried out any mining activity after 2011-12 till date and no environmental damage has been caused and requested the Committee not to consider the proposal under violation category.

The Committee after discussion, decided to consider the proposal based on the DMG audit report, informing that no mining activity had been carried out since 2011-12 till date, implying that there was no environmental damage/pollution and opined that as an environmental Committee, violation should be ascertained based on the damage caused to the environment and not on the procedural lapses and decided to request SEIAA to consider the deliberations of the Committee in this proposal, while handling violation cases in respect of existing lease, as there is no requirement for Damage Assessment, Remedial Plan and Community Augmentation Plan as per SOP issued by MoEF&CC, Dated:07.07.2021.

There is an existing cart track road to a length of 815 meters connecting lease area to the all-weather black topped road and the Committee informed that the quarrying operation needs to be commenced after asphaltting the approach road to the quarry and the road connecting the cursher as per IRC standard norms and should grow trees all along the approach road in first year of operation, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures

will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan, with proved mineable reserve of 2,58,398 Tones (including waste) and estimated the life of mine to be 07 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 40,816 tons / Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry & road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital

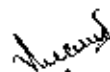

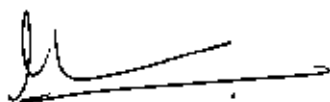

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*

6. The PP Shall grow trees all along the approach road during the first year of operation.
 7. The PP Shall carry out regular health checkup for the workers in the near by Hospital

245.1.56. Building Stone Quarry Project at Dinnehosahalli Village, Kolar Taluk & District (1-29 Acres) (QL.No.993) by Smt. Lakshmi Devamma - Online Proposal No.SIA/KA/MIN/441296/2023 (SEIAA 402 MIN 2023)

Smt. Lakshmi Devamma have applied for Environmental clearance from SEIAA for Building Stone Quarry Project at Sy.No.58 of Dinnehosahalli Village, Kolar Taluk & District (1-29 Acres) (QL.No.993)

Details of the project are as follows:

15	Cluster certificate	10.08.2023
16	Revenue NOC	11.06.2017
17	Notification	30.06.2023
18	Audit Report	17.07.2023

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

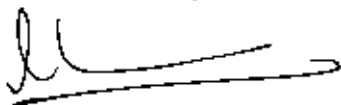

The Proponent informed the Committee that the proposal is for renewal of a lease which was granted earlier on 10.06.2011 with effect from 30.09.2001, with QL No. 993 which has been non-operational since 2013-14 till date and justified the same as per the audit report issued by DMG dated 17.07.2023.

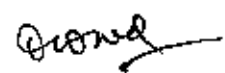

For the existing leases, based on the applicability of cut off dates as per clause 3 of 233rd SEIAA meeting dated 18.04.2023, Proponent informed that they had not carried out any mining activity after 2013-14 till date and no environmental damage has been caused and requested the Committee not to consider the proposal under violation category.

The Committee after discussion, decided to consider the proposal based on the DMG audit report, informing that no mining activity had been carried out since 2013-14 till date, implying that there was no environmental damage/pollution and opined that as an environmental Committee, violation should be ascertained based on the damage caused to the environment and not on the procedural lapses and decided to request SEIAA to consider the deliberations of the Committee in this proposal, while handling violation cases in respect of existing lease, as there is no requirement for Damage Assessment, Remedial Plan and Community Augmentation Plan as per SOP issued by MoEF&CC, Dated:07.07.2021.

There is an existing cart track road to a length of 560 meters connecting lease area to the all-weather black topped road and the Committee informed that the quarrying operation needs to be commenced after asphaltting the approach road to the quarry and the road connecting the cursher as per IRC standard norms and should grow trees all along the approach road in first year of operation, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures

will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan, with proved mineable reserve of 1,39,671 Tones (including waste) and estimated the life of mine to be 17 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 8,673 tons / Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry & road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital

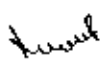

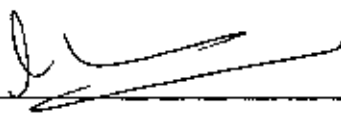

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*

5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.
6. The PP Shall grow trees all along the approach road during the first year of operation.
7. The PP Shall carry out regular health checkup for the workers in the near by Hospital

245.157. Expansion of Building Stone Quarry Project at Itagi Village, Shirahatti Taluk, Gadag District (8-00 Acres) by M/s. Sadbhav Engineering Ltd. - Online Proposal No.SIA/KA/MIN/435502/2023 (SEIAA 404 MIN 2023)

M/s. Sadbhav Engineering Ltd. have applied for Environmental clearance from SEIAA for Expansion of Building Stone Quarry Project at In part of Sy.Nos.178/1 & 183/4 of Itagi Village, Shirahatti Taluk, Gadag District (8-00 Acres)

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION PROVIDED BY PP																		
1	Name & Address of the Projects Proponent	M/s. Sadbhav Engineering Ltd.																		
2	Name & Location of the Project	Expansion of Building Stone Quarry Project at In part of Sy.Nos.178/1 & 183/4 of Itagi Village, Shirahatti Taluk, Gadag District (8-00 Acres)

9	Proved Quantity of mine/	21,93,053Tones (including waste)																		

	Quarry- Cu.m / Ton	
10	Permitted Quantity Per Annum - Cu.m / Ton	4,00,000 Tones / Annum (excluding waste)
11	CER Activities:	
	Year	Corporate Environmental Responsibility (CER)
	1st	The proponent proposes to distribute nursery plants at Itagi village
12	EMP Budget	Rs.53.15 lakhs (Capital Cost) & Rs. 11.33 lakhs (Recurring cost)
13	CCR from KSPCB	22.08.2023
14	Cluster certificate	05.03.2021

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for expansion of building stone quarry, for which the lease was granted on 31.08.2021 with QL No. 141 and for which EC was issued earlier by SEIAA on 01.06.2021 for two years. The Proponent submitted audit report till 2022-23 certified by DMG and CCR from KSPCB dated 22.08.2023.

As per the cluster sketch there is no lease within 500mtr from the said lease and total area of the applied lease is 8-00Acres and hence the project is categorized as B2.

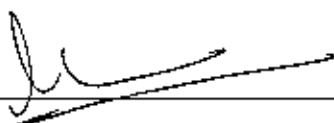

There is an existing cart track road to a length of 620 meters connecting lease area to the all-weather black topped road. The Committee informed that the proposed expansion in quantity should be commenced after asphaltting the approach road to the quarry and road leading to crusher as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 21,93,053Tones (including waste) and estimated the life of mine to be 6 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 4,21,053Tones/ Annum (including waste) with one year validity, with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road leading to the crusher as per norms before commencing expansion in quantity
2. To grow trees all along the approach road during the first year of operation.
3. To comply with the observation of KSPCB in CCR.
4. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

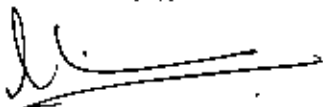

- 1. If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
- 2. Safety measures proposed shall be submitted.*
- 3. A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

- 1. The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
- 2. The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
- 3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
- 4. Dust suppression measures have to be strictly followed.*
- 5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*
- 6. The PP Shall grow trees all along the approach road during the first year of operation.*
- 7. The PP Shall comply with the observation of KSPCB in CCR.*
- 8. The PP Shall carry out regular health checkup for the workers in the near by Hospital.*

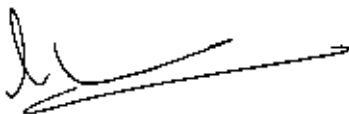

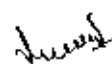

245.1.58. Expansion of Building Stone/ M-Sand Quarry Project at Mahantalingapura Village, Anekal Taluk, Bangaluru Urban District (2-00 Acres) (QL.No.495(R)) by M/s.S L V Stone Crusher - Online Proposal No.SIA/KA/MIN/428454/2023 (SEIAA 389 MIN 2023)

M/s.S L V Stone Crusher have applied for Environmental clearance from SEIAA for Expansion of Building Stone/ M-Sand Quarry Project at Sy.No.47(P) of Mahantalingapura Village, Anekal Taluk, Bangaluru Urban District (2-00 Acres) (QL.No.495(R))

Details of the project are as follows:

 269

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for expansion of building stone quarry, for which the lease was in effect from 25.02.2010 with QL No. 495 and for which EC was issued earlier by SEIAA on 08.04.2015. The Proponent submitted audit report till 2022-23 certified by DMG dated 31.07.2023 and CCR from KSPCB dated 10.08.2023.

There is an existing cart track road to a length of 200 meters connecting lease area to the all-weather black topped road. The Committee informed that the proposed expansion in quantity should be commenced after asphaltting the approach road to the quarry and road leading to crusher as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 3,93,845 tones (including waste) and estimated the life of mine to be 6 years.

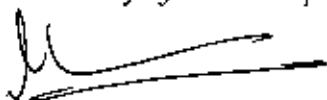

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 71,428 Tones / Annum (including waste), with following consideration,

1. Proponent agreed to strengthen the approach road to the quarry as per norms before commencing expansion in quantity.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to construct garland drain around the project site.
4. To comply with the observation of KSPCB in CCR.
5. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*

 270

3. A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.

Additional Conditions:

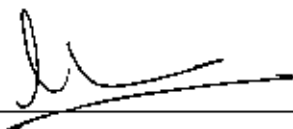

1. The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.
2. The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.
4. Dust suppression measures have to be strictly followed.
5. The PP shall strengthen the approach road to the quarry and the road leading to the crusher as per standard norms.
6. To grow trees all along the approach road during the first year of operation.
7. Proponent agreed to construct garland drain around the project site.
8. To comply with the observation of KSPCB in CCR.
9. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

245.1.59. Ordinary Sand Quarry Project at Jakabal Village, Savadatti Taluk & Belagavi District (06-07 Acres) by Sri. Goudappa D. Patil - Online Proposal No.SIA/KA/MIN/442773/2023 (SEIAA 421 MIN 2023)

Sri. Goudappa D. Patil have applied for Environmental clearance from SEIAA for Ordinary Sand Quarry Project at Sy.Nos.6/1, 6/2, 6/3, 6/7 & 6/8 of Jakabal Village, Savadatti Taluk & Belagavi District (06-07 Acres)

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION PROVIDED BY PP
1	Name & Address of the Projects Proponent	Sri. Goudappa D. Patil
2	Name & Location of the Project	Ordinary Sand Quarry Project at Sy.Nos.6/1, 6/2, 6/3, 6/7 & 6/8 of Jakabal Village, Savadatti Taluk & Belagavi District (06-07 Acres)

		Latitude	Longitude
		N 15°53'00.6005"	E 75°08'26.5001"

		N 15°52'56.6001"	E 75°08'32.4003"
		N 15°52'55.4002"	E 75°08'31.8002"
		N 15°52'53.6003"	E 75°08'29.5001"
3	Type Of Mineral	Ordinary Sand Quarry	
4	New/Expansion/ Modification / Renewal	New	
5	Type of Land [Forest, Government Revenue, Gomal, Private / Patta, Other]	Patta	
6	Area in Acres	06-07 Acres	
7	Annual Production (Metric Ton / Cum) Per Annum	20,640Tones/annum (including waste)	
8	Project Cost (Rs. In Crores)	Rs. 0.50 Crores (Rs. 50 Lakhs)	
9	Proved Quantity of mine/ Quarry- Cu.m / Ton	1,03,200Tones (including waste)	
10	Permitted Quantity Per Annum - Cu.m / Ton	20,640Tonns/annum (including waste)	
11	CER Activities: To grow additional 500 No. of plantation on either side of the approach road from quarry location to Jakabal Village Road		
12	EMP Budget	Rs. 15.70 Lakhs (Capital Cost) & Rs.4.90 lakhs (Recurring cost)	
13	Forest NOC	30.03.2022	
14	Cluster certificate	23.08.2023	
15	Revenue NOC	17.03.2022	
16	Notification	11.08.2023	
17	App. Quarry Plan	23.08.2023	
18	C & I Notification	22.09.2022	

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that the proposed area is a fresh land and trial pits were dug to verify the availability of sand and no mining has been carried out by Proponent and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

The proposal is for ordinary sand mining and as per the cluster sketch there is no lease in a radius of 500 mtr from the said lease and the total area of the present lease is 6-

07 Acres and hence the project is categorized as B2. Proponent informed that as per DMG letter dated 23.08.2023, there are no river sand blocks in a radius of 5km from the proposed area.

There is an existing cart track road to a length of 450 meters connecting the lease area to the all-weather black topped road. The Committee informed that the mining operation should be commenced after asphaltting the approach road to the quarry as per IRC norms and to strictly implement mine closure plan effectively after mining operation and to grow trees all along the approach road during the first year of operation, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 1,03,200Tons (including waste) and estimated the life of the quarry to be 5 years.

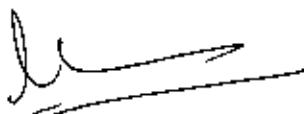

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 20,640Tones/annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry as per IRC norms
2. To implement mine closure plan effectively after mining operation by preserving top soil and reusing it for plantation after completion of mining operation.
3. To grow trees all along the approach road & buffer zone during the first year of operation and to
4. carry out halla strengthening works
5. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*

273

3. A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.
4. The proponent shall furnish a certificate from competent Authority that there is no sand quarry within 5 KM of project site.

Additional Conditions:

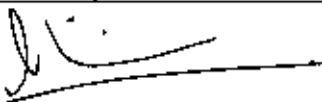

1. The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.
2. The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.
4. Dust suppression measures have to be strictly followed.
5. The PP shall utilize the permission as per the Sand policy of the CoK Notification No. CI 343 MMN 2019 (Part 7) dated 01.12.2021.
6. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.
7. The PP shall implement mine closure plan effectively after mining operation
8. The PP shall grow trees on the buffers & banks of halla and all along the approach road during the first year of operation.
9. The PP Shall implement mine closure plan effectively after mining operation

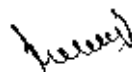

245.1.60. Expansion of Building Stone Quarry Project at Karadahalli Village, Nagamangala Taluk, Mandya District (1-30 Acres) by Sri Shivegowda- Online Proposal No.SIA/KA/MIN/431477/2023 (SELAA 412 MIN 2023)

Sri Shivegowda have applied for Environmental clearance from SELAA for Expansion of Building Stone Quarry Project at Sy.Nos.4 & 5 of Karadahalli Village, Nagamangala Taluk, Mandya District (1-30 Acres)

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION PROVIDED BY PP
1	Name & Address of the Projects Proponent	Sri Shivegowda
2	Name & Location of the Project	Expansion of Building Stone Quarry Project at Sy.Nos.4 & 5 of Karadahalli Village, Nagamangala Taluk, Mandya District (1-30 Acres)

9	Proved Quantity of mine/ Quarry-Cu.m / Ton	4,14,851 Tones (including waste)	
10	Permitted Quantity Per Annum - Cu.m / Ton	40,000 Tones / Annum (excluding waste)	
11	CER Activities: To grow additional 150 No. of plantation on either side of the approach road from quarry location to Karadahalli Village Road and Govt. School		
12	EMP Budget	Rs. 8.00 lakhs (Capital Cost) & Rs. 3.28 lakhs (Recurring cost)	
13	Forest NOC	30.04.2016	
14	Quarry plan	19.05.2023	
15	Cluster certificate	20.05.2023	
16	Revenue NOC	11.03.2016	
17	CCR from, KSPCB	28.08.2023	
18	Audit Report	06.06.2023	

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for expansion for which EC was issued earlier by DEIAA on 04.06.2018 and lease was granted on 22.02.2019 with QL No. 1077. The Proponent submitted CCR from KSPCB dated 28.08.2023 and audit report till 2022-23 certified by DMG dated 06.06.2023.

As per the cluster sketch there is no lease within 500mtr from the said lease and total area of the applied lease is 1-30 Acres and hence the project is categorized as B2.

275

There is an existing cart track road to a length of 120 meters connecting lease area to the all-weather black topped road. The Committee informed that the proposed expansion in quantity should be commenced after asphaltting the approach road to the quarry & the road connecting the crusher as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed. Proponent submitted an undertaking to comply with the conditions stipulated by MoEF&CC OM dated: 28.04.2023.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mincable reserve of 4,14,851 tones(including waste) and estimated the life of mine to be 11 years.

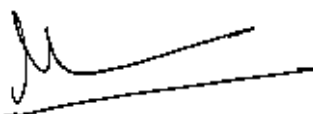

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 40,816 tonns / Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per norms before commencing expansion in quantity
2. To grow trees all along the approach road during the first year of operation.
3. To comply with the observation of KSPCB in CCR.
4. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

1. The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.
2. The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.
4. Dust suppression measures have to be strictly followed.
5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.
6. The PP Shall grow trees all along the approach road during the first year of operation.
7. The PP Shall comply with the observation of KSPCB in CCR.
8. The PP Shall carry out regular health checkup for the workers in the near by Hospital.

245.1.61. Building Stone Quarry Project at Bokkepura Village, Chamarajanagara Taluk & District (4-04 Acres) by Smt. Savitha - Online Proposal No.SIA/KA/MIN/442274/2023 (SEIAA 417 MIN 2023)

Smt. Savitha have applied for Environmental clearance from SEIAA for Building Stone Quarry Project at Sy.No.23 of Bokkepura Village, Chamarajanagara Taluk & District (4-04 Acres)

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION PROVIDED BY PP

3	Type Of Mineral	Building Stone Quarry	
4	New/Expansion/Modification/ Renewal	New	
5	Type of Land [Forest, Government Revenue, Gomal, Private / Patta, Other]	Government Land	
6	Area in Acres	4-04 Acres	
7	Annual Production (Metric Ton / Cum) Per Annum	54,737 Tones/ Annum (including waste)	
8	Project Cost (Rs. In Crores)	Rs. 0.40 Crores (Rs. 40 Lakhs)	
9	Proved Quantity of mine/ Quarry- Cu.m / Ton	5,16,922 Tones (including waste)	
10	Permitted Quantity Per Annum - Cu.m / Ton	52,000 Tones / Annum (excluding waste)	
11	CER Activities: To grow additional 400 No. of plantation on either side of the approach road from quarry location to Bokkepura Village Road		
12	EMP Budget	Rs. 15.40 lakhs (Capital Cost) & Rs. 5.16 lakhs (Recurring cost)	
13	Forest NOC	31.07.2015	
14	Quarry plan	25.02.2019	
15	Cluster certificate	19.07.2023	
16	Revenue NOC	14.02.2018	
17	Notification	31.12.2018	

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that the proposed land is Government land and the local villagers had removed the mineral for their bonafiduse and no mining has been carried out by Proponent till date and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

As per the cluster sketch there are another 04 leases in a radius of 500 mtr from the said lease, out of which 02 leases are exempted as EC was issued prior to 15.01.2016 and the total area of the remaining leases including the applied lease is 17-24 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 400 meters connecting lease area to the all-weather black topped road. The Committee informed that quarrying should be commenced after strengthening the approach road to the quarry and road connecting the crusher as per IRC standard norms and should grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mincable reserve of 5,16,922 tons (including waste) and estimated the life of mine to be 10 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 54,737 tons/Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

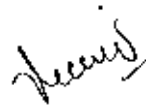

1. The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.
2. The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.
4. Dust suppression measures have to be strictly followed.
5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.
6. The PP Shall grow trees all along the approach road during the first year of operation.
7. The PP Shall carry out regular health checkup for the workers in the near by Hospital.

245.1.62. Black Granite Quarry Project at Kothalavadi Village, Chamarajanagar Taluk & District (4-06 Acres) by Sri. B. S. Ravi - Online Proposal No.SIA/KA/MIN/441980/2023 (SEIAA 408 MIN 2023)

Sri. B. S. Ravi have applied for Environmental clearance from SEIAA for Black Granite Quarry Project at Sy.Nos.189/4, 189/3, 188/2 & 185/2 of Kothalavadi Village, Chamarajanagar Taluk & District (4-06 Acres)

Details of the project are as follows:

Sl.No.	PARTICULARS	INFORMATION PROVIDED BY PP
1	Name & Address of the Projects Proponent	Sri. B. S. Ravi
2	Name & Location of the Project	Black Granite Quarry Project at Sy.Nos.189/4, 189/3, 188/2 & 185/2 of Kothalavadi Village, Chamarajanagar Taluk & District (4-06 Acres)

13	Forest NOC	19.07.2021	
14	Quarry plan	18.07.2023	
15	Cluster certificate	17.07.2023	
16	Revenue NOC	27.08.2021	
17	Notification	04.07.2023	
18	DTF	29.07.2022	

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal was considered on 18.10.2023 for appraisal.

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that out of the applied area 2-26 Acres is virgin land and in an area of 1-20 Acres, soil has been removed and used for agriculture purpose and no mining has been carried out by Proponent till date and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

As per the cluster sketch there are another 03 leases in a radius of 500 mtr from the said lease, out of which all the 03 leases are exempted as EC was issued prior to 15.01.2016 and the total area of the applied lease is 4-06 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 180 meters connecting lease area to the all-weather black topped road. The Committee informed that quarrying should be commenced after asphaltting the approach road to the quarry as per IRC standard norms and should grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 41,600 cum (including waste) and estimated the life of mine to be 8 years.

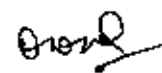

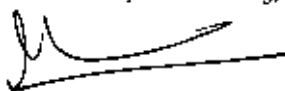

The Committee after discussion decided to recommend the proposal to SELAA for issue of Environmental Clearance for an annual production of 8000 cum/ Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*

2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*
4. *Since there is substantial quantity of generation of waste from the quarry activity, all due precautions with respect to environment management aspects of waste dump shall be observed.*

Additional Conditions:

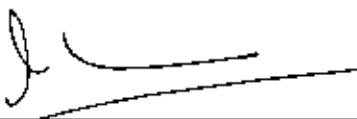

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*
6. *The PP Shall grow trees all along the approach road during the first year of operation.*
7. *The PP Shall carry out regular health checkup for the workers in the near by Hospital.*

245.1.63. Sand Mining Block Project at Ulaibettu Village, Mangalore Taluk, Dakshin Kannada District (3-00 Acres) by Assistant Executive Engineer - Online Proposal No.SIA/KA/MIN/445427/2023 (SEIAA 448 MIN 2023)

Assistant Executive Engineer have applied for Environmental clearance from SEIAA for Sand Mining Block Project at In River Sy. No.26 of Ulaibettu Village, Mangalore Taluk, Dakshin Kannada District (3-00 Acres)

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION PROVIDED BY PP
1	Name & Address of the Projects Proponent	Assistant Executive Engineer
2	Name & Location of the Project	Sand Mining Block Project at In River Sy. No.26 of Ulaibettu Village, Mangalore Taluk, Dakshin Kannada District (3-00 Acres)

The subject was discussed in the SEAC meeting held on 16th, 17th& 18thOctober 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for River Bed Sand Mining. The Committee sought clarification from Proponent regarding method of mining proposed in compliance to Hon'ble NGT (SZ) Directions in O.A 194/2020 dated 15.09.2022 i.e not to use any machinery for excavation of sand and details of depth mentioned in Joint Inspection Report(JIR), for which the Proponent informed that they have proposed manual method of mining and

for JIR, Proponent informed that in submitted JIR, where in the JIR Committee had recommended 1mtr depth of the sand but the DMG in approved quarry plan has submitted clarification informing that available sand depth is more than 3mtrs and 1mtrs of sand can be mined out of 3mtr available sand. The Committee noted the clarification.

As per the cluster sketch there is no lease in a radius of 500 mtr from the said lease and the total area of the present lease is 3-00 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 160 meters connecting the lease area to the all-weather black topped road and the Committee informed that the mining operation should be commenced after asphaltting the approach road as per standard norms and to grow trees all along the approach road and in the banks of the river, to strictly implement bund protection works, dust mitigation measures and not to use any machinery for excavation of sand as per Hon'ble NGT (SZ) Directions in O.A 194/2020 dated 15.09.2022 and also not to carry out in-stream mining, to which the Proponent agreed. Proponent informed the Committee that they had obtained DMG approved replenishment report for the proposed sand quarry considering the catchment area and rainfall details. Further the Committee sought clarification regarding dry weather flow, for which the Proponent submitted photos of November 2023 showing availability of sand and dry weather flow and informed the Committee that mining operations would be carried out only in dry weather conditions.

The Proponent has collected baseline data of air, water, soil and noise and all are within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits. In the proposed project, the Proponent agreed to follow the conditions stipulated in sustainable sand mining guidelines 2016 and Enforcement & Monitoring guidelines 2020.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 9,000tonnes per year (including waste) and estimated the life of the quarry to be 5 years with due replenishment every year.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 9,000tonnes per year (including waste) after due replenishment every year, with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry as per standard norms
2. To implement mine closure plan effectively after mining operation.
3. To grow trees all along the approach road during the first year of operation.
4. Mining should be carried out after due replenishment every year
5. Proponent agreed to abide by the Sustainable sand mining guidelines 2016 and Enforcement & Monitoring Guidelines 2020
6. To comply with the Hon'ble NGT Directions in O.A 194/2020 dated 15.09.2022 not to use any machinery for excavation of sand and for any violation against

lucy

 285

the Directions of Hon'ble NGT Directions in O.A 194/2020 dated 15.09.2022, the Proponent would be held responsible.

7. To follow Labour laws and Mines Act in the proposed project.
8. To carry out bank stabilization works.

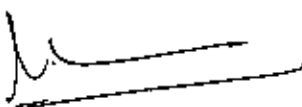

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

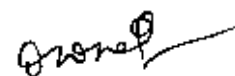

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall strengthen the approach road to the quarry and the road leading to the crusher as per standard norms.*
6. *The PP shall grow trees all along the approach road during the first year of operation.*
7. *The PP shall utilize the permission as per the Sand policy of the GoK Notification No. CI 343 MMN 2019 (Part 7) dated 01.12.2021.*
8. *The PP shall implement mine closure plan effectively after mining operation*
9. *The PP shall grow trees all along the approach road during the first year of operation.*
10. *Mining should be carried out after due replenishment every year*

Handwritten signature

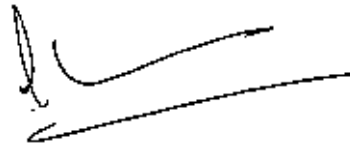

11. The PP shall abide by the Sustainable sand mining guidelines 2016 and Enforcement & Monitoring Guidelines 2020
12. The PP shall comply with the Hon'ble NGT Directions in O.A 194/2020 dated 15.09.2022 and for any violation against the Directions of Hon'ble NGT Directions in O.A 194/2020 dated 15.09.2022, the Proponent would be held responsible.
13. The PP shall follow Labour laws and Mines Act in the proposed project.
14. In case the replenishment is lower than the approved rate of production, then the mining activity / production levels shall be decreased / stopped accordingly till the replenishment is completed.
15. The proponent shall stabilize the river bank with waste materials like pebbles and planting the khus grass and suitable plant species.

245.1.64. Multi-Colour Granite Quarry Project at Kanchanahalli Village, Chamarajanagar Taluk & District (6-29 Acres) by Sri. A. Sreenath - Online Proposal No.SIA/KA/MIN/442636/2023 (SEIAA 426 MIN 2023)

Sri. A. Sreenath have applied for Environmental clearance from SEIAA for Multi-Colour Granite Quarry Project at Sy.Nos.90/1A, 90/1B, 90/2, 115/3, 116/3, 116/5 & 116/6 of Kanchanahalli Village, Chamarajanagar Taluk & District (6-29 Acres)

Details of the project are as follows:

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

As per the cluster sketch there is no lease within 500mtr from the said lease and total area of the applied lease is 6-29 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 80 meters connecting lease area to the all-weather black topped road. The Committee informed that the production should be commenced after asphaltting the approach road to the quarry as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan, with proved mineable reserve of 5,82,879 cum(including waste) and estimated the life of mine to be 8 years.

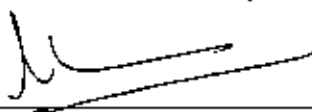

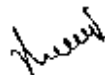

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 16,667 Cum/Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to handle the waste generated by obtaining necessary permission.
4. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*

2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*
4. *Since there is substantial quantity of generation of waste from the quarry activity, all due precautions with respect to environment management aspects of waste dump shall be observed.*

Additional Conditions:

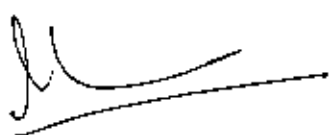

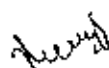

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*
6. *The PP Shall grow trees all along the approach road during the first year of operation.*
7. *The PP Shall handle the waste generated by obtaining necessary permission.*
8. *The PP Shall carry out regular health checkup for the workers in the near by Hospital.*

245.1.65. Building Stone Quarry /M-Sand Project at Devarayasamudra village Mulbagal Taluk, Kolar District (10-00 Acres) by M/s. Nanjundeshwara Enterprises - Online Proposal No.SIA/KA/MIN/430618/2023 (SEIAA 248 MIN 2023)

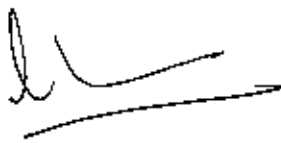

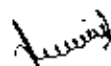

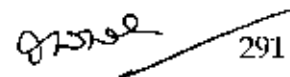

M/s. Nanjundeshwara Enterprises have applied for Environmental clearance from SEIAA for Building Stone Quarry /M-Sand Project at Sy. No. 199 of Devarayasamudra village Mulbagal Taluk, Kolar District (10-00 Acres)

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION PROVIDED BY PP
1	Name & Address of the Projects Proponent	M/s. Nanjundeshwara Enterprises

2	Name & Location of the Project	Building Stone Quarry /M-Sand Project at Sy. No. 199 of Devarayasamudra village, Mulbagal Taluk, Kolar District (10-00 Acres)	
		Latitude	Longitude
		N 13° 07' 30.5700"	E 78° 18' 52.0300"
		N 13° 07' 32.8500"	E 78° 18' 58.9400"

3	Type Of Mineral	Building Stone Quarry	
4	New / Expansion / Modification / Renewal	New	
5	Type of Land [Forest, Government Revenue, Comal, Private / Patta, Other]	Government	
6	Area in Acres	10-00 Acres	
7	Annual Production (Metric Ton / Cum) Per Annum	3,52,745 Tones/ Annum (including waste)	
8	Project Cost (Rs. In Crores)	Rs. 0.95 Crores (Rs. 95 Lakhs)	
9	Proved Quantity of mine/ Quarry- Cu.m / Ton	34,71,290 Tones (including waste)	
10	Permitted Quantity Per Annum - Cu.m / Ton	3,35,108Tones / Annum (excluding waste)	
11	CER Activities: To grow 1500 No. of plantation on either side of the approach road from quarry location to Devarayasamudra Village Road		
12	EMP Budget	Rs. 20.25Lakhs (Capital Cost) & Rs. 8.91Lakhs (Recurring cost)	
13	Forest NOC	28.08.2015	
14	Quarry plan	29.04.2023	
15	Cluster Certificate	19.05.2023	
16	Revenue	25.01.2023	
17	Notification	29.03.2023	
18	JIR	15.03.2023	

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal was earlier considered in 300th SEAC meeting and the Committee had deferred the proposal by informing as following,

"The Committee initially noted the complaint received through email (kumarsals199@gmail.com) on 12th July 2023 for the present proposal and at the time of appraisal sought clarification for the following observations from the project Proponent and Consultant,

Compliant: Sri. T Kumar applied for Environmental Clearance on 02.02.2019 for environmental clearance but we could not attend the meeting due to health issues. Now I got to know that there is one more file which is in the name of M/s. Nanjundeshwara Enterprises bearing file number SEIAA 248 MIN 2023 having extent 10-00 acres. It is within 500 m from our site. As I have applied earlier before him, I request you to consider our file first before his file and consider his file under B1 category.

Reply : Proponent submitted clarification from DMG dated 13.07.2023 as per which, it is informed that as per the Hon'ble HC Orders and KMMCR 1994 amendment Rules 2023, the two applications of Sri. T Kumar has been notified on 06.07.2023 and Sri. T Kumar has not yet submitted quarry plan for approval. The Proponent requested that the proposals of Sri T Kumar notified on 06.07.2023, are to be considered as new proposals.

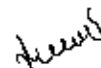

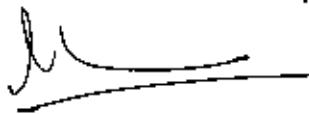

The Committee noted the clarification given by Proponent and appraised the project. The Committee noted that in the RTC total area in the proposed Survey Number is 1466.32 Acres out of which about 1011.00 Acres is Forest land and there is no clear information whether the applied area is Forest area or Non-Forest area.

Hence, the Committee decided to defer the appraisal of the project in want of clear recent Forest NOC"

In the present meeting, the Proponent submitted clarification to the recent Forest NoC and informed the Committee that as per the Forest NoC dated 28.08.2015, it had clearly stated that the proposed area is not forest or deemed forest and the applied area is Govt. Gomal land and not within in 100mt of forest land and also in the Joint inspection report of DMG and Assistant Commissioner, Kolar dated 15.03.2023, it had clearly stated that the proposed area is Govt. Gomal land and requested the Committee to accept the justification for grant of EC. The Committee noted the clarification and appraised the project.

As per the cluster sketch there is no lease within 500mtr from the said lease and total area of the applied lease is 10-00 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 500 meters connecting lease area to the all-weather black topped road. The Committee informed that the production should

be commenced after asphalt the approach road to the quarry and the road leading to crusher as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan, with proved mineable reserve of 34,71,290 tones (including waste) and estimated the life of mine to be 10 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 3,52,745 tones/Annum (including waste), with following consideration,

1. To comply with the NGT directions in OA no. 85/2021 (SZ)
2. Proponent agreed to asphalt the approach road to the quarry & road connecting the crusher as per IRC norms.
3. To grow trees all along the approach road during the first year of operation.
4. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

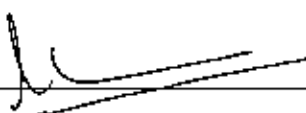

The Hon'ble Tribunal in O.A.85/2021 passed an order Dated: 25.07.2023 prohibiting the stone quarrying and crushing activities situated in Sy.No.199 of Devarayasmudra village and Sy.No.64 of Yalagondanahalli village, Mulabagilu Taluk, Kolar District.

The relevant portion of the order reads as under:

" 7. Pending the reports from the other departments, taking the cue from the report filed by the MoEF&CC, we feel it appropriate to injunct all the quarry and crusher units operation in Devarayasamudra Village and Yelagondanahalli Village of Mulbagal Taluk, Kolar District, Karnataka forth with.

8. The Department of Mines and Geology, SEIAA-Karnataka and the Karnataka State Pollution Control Board to ensure that these quarry and crusher units operating within the Devarayasamudra Village and Yelagondanahalli Village stop their activity forthwith and any violations by them should be reported to us.

9. Regarding the other quarry and crusher units, we direct the MoEF& CC, SEIAA - Karnataka and the Revenue department to file a detailed response furnishing the particulars against each of the respondents.

Amey

D. S. S.

10. In the report, it is recommended to undertake a joint survey, involving all the concerned departments, of the area with the help of Differential Global Positioning System (DGPS) to delineate the boundary of the Deemed Forest area. The Violation and non-Compliance with the provisions of the EC granted to the quarry projects are also to be noted. Let them also furnish the outcome of the joint survey in their detailed report."

Accordingly the Joint committee inspected the alleged project sites on 24.08.2023 and submitted the report to Hon'ble NGT on 19.09.2023.

Further, Joint Director, MoEF&CC vide letter No. F.No.IA-L-11011/59/2023-IA-I dated 11.09.2023 requested to initiate an appropriate action in the extant court matter at the earliest. The Authority after detailed discussion decided to keep the various ECs issued in Devarayasmudra of Mulabagal Taluk and Kolar District were kept in abeyance.

Therefore, the Authority is of the opinion to consider the project proposal subject to outcome of the OA No.85 of 2021 (SZ).

245.1.66. Building Stone Quarry Project at Ainapur Village, Vijayapura Taluk, Vijayapura District (1-00 Acre) by Sri Santosh Kumar K Talakeri - Online Proposal No.SIA/KA/MIN/436026/2023 (SEIAA 324 MIN 2023)

Sri Santosh Kumar K Talakeri have applied for Environmental clearance from SEIAA for Building Stone Quarry Project at Sy.No.128/3 of Ainapur Village, Vijayapura Taluk, Vijayapura District (1-00 Acre)

Details of the project are as follows:

Sl.N	PARTICULARS	INFORMATION PROVIDED BY PP										
1	Name & Address of the Projects Proponent	Sri Santosh Kumar K Talakeri										
2	Name & Location of the Project	Building Stone Quarry Project at Sy.No.128/3 of Ainapur Village, Vijayapura Taluk, Vijayapura District (1-00 Acre) <table border="1"> <thead> <tr> <th>Latitude</th> <th>Longitude</th> </tr> </thead> <tbody> <tr> <td>N 16° 50' 45.28"</td> <td>E 75° 45' 53.52"</td> </tr> <tr> <td>N 16° 50' 46.54"</td> <td>E 75° 45' 50.79"</td> </tr> <tr> <td>N 16° 50' 47.89"</td> <td>E 75° 45' 51.55"</td> </tr> <tr> <td>N 16° 50' 46.77"</td> <td>E 75° 45' 54.13"</td> </tr> </tbody> </table>	Latitude	Longitude	N 16° 50' 45.28"	E 75° 45' 53.52"	N 16° 50' 46.54"	E 75° 45' 50.79"	N 16° 50' 47.89"	E 75° 45' 51.55"	N 16° 50' 46.77"	E 75° 45' 54.13"

	1st	Providing solar power panels to the GHPS school at Ainapura Village.
	2nd	Rain water harvesting pits to GHPS school at Ainapura Village.
	3rd	Avenue plantation either side of the approach road near Quarry site & Repair of road With drainages
	4th	Conducting E-waste drive campaigns in GHPS school at Ainapura Village.
	5th	Health camp in GHPS school at Ainapura Village.
12	EMP Budget	Rs. 36.91 lakhs (Capital Cost) & Rs.5.98 lakhs (Recurring cost)
13	Forest NOC	22.12.2020
14	Quarry plan	05.01.2021
15	Cluster Certificate	14.08.2023
16	Revenue NOC	19.12.2020
17	Notification	08.06.2023

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal was considered in 303rd SEAC meeting and the Committee had deferred the project informing the following,

"The Committee initially noted the complaint received through email (prasadbijapur@gmail.com) on 07.09.2023 for the present proposal,

"There are many Quarry leases in the Ainapur village but in the cluster map issued from the Department of Mines and Geology Vijayanagar for Santhosh Talakeri file having file no. SEIAA 324 MIN 2023 only 3 leases were shown in the cluster. If we check there are many more leases like of Sri. Mohammed shaft at "Ainapur Building Stone(Basalt) Quarry" located over an area of 2-01 Acres in. Patta land bearing Survey No. 129/1A, of Ainapur Village in Vijayapur Taluk and District which comes within 500 m from the proposed Santhosh Telikere site which is not shown in the cluster."

The Committee sought clarification with respect to the present site condition based on the KML submitted by Proponent and for the complaint received. The Proponent informed the Committee that no working has been carried out in the proposed area and only temporary sheds and dumps of adjacent lease is inside the lease area, which has been shifted now and with regard to the complaint Proponent informed that even after considering the area of 2-01 Acres, the category of the applied proposal remains same i.e B2. The Committee noted the reply given by Proponent.

The Committee after discussion decided to defer the appraisal and informed the Proponent to submit clarification from DMG for the present site condition and for the complaint received."

In the present meeting the Proponent submitted clarification from DMG dated 08.09.2023, informing that, the Ainapur Building Stone quarry over an extent of 2-01 in Sy. No. 129/1A of Sri. Mohammed Shafi is closed and expired and not in operation and hence the cluster sketch issued with two other leases of Sri Mohammed Jaffer B Bilagi and Sri Santhoshkumar K Talakeri having extent of 2-20Acres & 1-00Acres respectively is holds good.

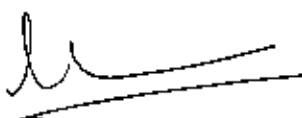

The Proponent informed the Committee that the proposed land is fresh land and no mining has been carried out by Proponent till date and hence justified that the proposed project does not attract violation. The Committee noted the clarification and appraised the project.

As per the cluster sketch there are another 02 leases in a radius of 500 mtr from the said lease, out of which 02 leases are exempted as EC was issued prior to 15.01.2016 and the total area of the applied lease is 1-00 Acre and hence the project is categorized as B2.

There is an existing cart track road to a length of 100 meters connecting lease area to the all-weather black topped road. The Committee informed that quarrying should be commenced after strengthening the approach road to the quarry and road connecting the crusher as per IRC standard norms and should grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 2,78,534tons (including waste) and estimated the life of mine to be co-terminous with lease period.

 296

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 9,582tons/ Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

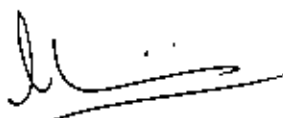

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*
6. *The PP Shall grow trees all along the approach road during the first year of operation.*
7. *The PP Shall carry out regular health checkup for the workers in the near by Hospital.*

4	New / Expansion / Modification / Renewal	New										
5	Type of Land [Forest, Government Revenue, Gomal, Private / Patta, Other]	GovernmentGomal										
6	Area in Acres	4-00 Acres										
7	Annual Production (Metric Ton / Cum) Per Annum	1,75,292 Tones/ Annum (including waste)										
8	Project Cost (Rs. In Crores)	Rs. 0.35 Crores (Rs. 35 Lakhs)										
9	Proved Quantity of mine/ Quarry- Cu.m / Ton	8,75,420 Tones (including waste)										
10	Permitted Quantity Per Annum - Cu.m / Ton	1,71,786 Tones / Annum (excluding waste)										
11	CER Activities: To grow 400 No. of plantation on either side of the approach road from quarry location to CholanakunteVillage Road											
12	EMP Budget	Rs. 12.80 Lakhs (Capital Cost) & Rs. 4.64 Lakhs (Recurring cost)										
13	Forest NOC	25.07.2015										
14	Quarry plan	14.06.2019										
15	Cluster certificate	06.07.2023										

16	Revenue NOC	05.01.2016	
17	Notification	10.05.2019	

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal was considered in 302nd SEAC meeting and the Committee had deferred the project informing the following,

"The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that the proposed area is Government land and had obtained notification on 10.05.2019 and in the applied area, local villagers have removed building stone for domestic purpose and no mining has been carried out by Proponent. The Committee noted the clarification.

The Committee after discussion decided to defer the appraisal of the project, as the proposed area was notified five years ago and informed the Proponent to get clarification from DMG regarding the workings in the applied site area."

In the present meeting the Proponent submitted clarification from DMG vide letter date 05.10.2023 informing that the area was inspected on 04.10.2023 by DMG and found that no quarrying had carried out in the notified area of 4-00Acres in sy no. 119. The Committee noted the clarification.

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that the proposed area is a Government Gomal land and local people had carried out quarrying for their domestic need and no mining has been carried out by Proponent and hence justified that the proposed project does not attract violation.

As per the cluster sketch there are 02 other leases in a radius of 500 mtrs from the applied lease, out of which 01 lease is exempted from cluster as it was granted prior to 09.09.2013 and the total area of the remaining leases including the applied lease is 9-00 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 620 meters connecting lease area to the all-weather black topped road. The Committee informed that the production should be commenced only after asphaltting the approach road to the quarry and the road connecting the crusher as per IRC standard norms and to grow trees all along the approach road in the first year of operation, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 8,75,420 Tones(including waste) and estimated the life of mine to be 10 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 1,75,292 ton/annum (including waste), with following consideration.,

1. Proponent agreed to asphalt the approach road to the quarry and the road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to carry out regular health checkup for the workers at the near by Hospital.

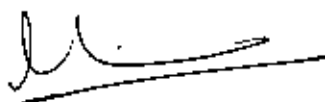

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

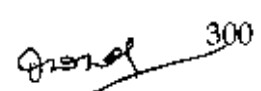

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*
6. *The PP Shallgrow trees all along the approach road during the first year of operation.*
7. *The PP Shallcarry out regular health checkup for the workers at the near by Hospital.*

11	CER Activities: To grow additional 500 No. of plantation on either side of the approachroad from quarry location to Doddakothagere Village Road and Govt. School	
12	EMP Budget	Rs. 19.10 lakhs (Capital Cost) & Rs. 6.82 lakhs (Recurring cost)
13	Forest NOC	28.05.2020
14	Quarry plan	20.03.2023
15	Cluster certificate	13.04.2023
16	Revenue NOC	25.06.2020
17	Notification	07.09.2020
18	Audit Report	26.09.2023
19	CCR from KSPCB	28.08.2023

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for expansion of building stone quarry, for which the lease was granted on 22.09.2021 with QL No. 1101 and for which EC was issued earlier by SEIAA on 03.07.2021. The Proponent submitted audit report till 2022-23 certified by DMG dated 26.09.2023 and CCR from KSPCB dated 28.08.2023.

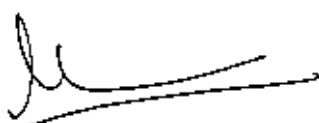

As per the cluster sketch there is no lease within 500mtr from the said lease and total area of the applied lease is 4-00 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 670meters connecting lease area to the all-weather black topped road. The Committee informed that the proposed expansion in quantity should be commenced after asphaltting the approach road to the quarry and road leading to crusher as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed.

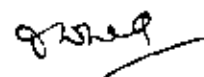

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 11,26,021 Tones (including waste) and estimated the life of mine to be 5 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 2,22,222 Tones/ Annum (including waste), with following consideration,

Handwritten signature

1. Proponent agreed to asphalt the approach road to the quarry as per norms before commencing expansion in quantity.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to construct garland drain around the project site.
4. To comply with the observation in CCR issued by KSPCB.
5. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

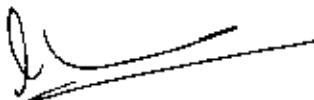

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*
6. *The PP shall grow trees all along the approach road during the first year of operation.*
7. *The PP shall construct garland drain around the project site.*
8. *The PP shall comply with the observation in CCR issued by KSPCB.*
9. *The PP shall carry out regular health checkup for the workers in the near by Hospital.*

245.1.69. Expansion of Building Stone Quarry Project at Pagadalabande Village, Challakere Taluk, Chitradurga District (2-39 Acres) by M/s. Parashuram Stone Crusher - Online Proposal No.SIA/KA/MIN/423707/2023 (SEIAA 385 MIN 2023)

M/s. Parashuram Stone Crusher have applied for Environmental clearance from SEIAA for Expansion of Building Stone Quarry Project at Sy.No.34(p) of Pagadalabande Village, Challakere Taluk, Chitradurga District (2-39 Acres)

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION PROVIDED BY PP
1	Name & Address of the Projects Proponent	M/s. Parashuram Stone Crusher

12	EMP Budget	Rs. 13.90 lakhs (Capital Cost) & Rs. 11.70 lakhs (Recurring cost)
13	Forest NOC	05.09.2017
14	Quarry plan	19.06.2023

15	Cluster certificate	18.07.2023	
16	Revenue NOC	04.11.2010	
17	CCR from MoEF	13.04.2023	
18	Audit Report	23.09.2023	

The subject was discussed in the SEAC meeting held on 16th, 17th& 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for expansion for which EC was issued earlier by DEIAA on 24.09.2018 and lease was in effect from 17.11.2011 with CTA No. 515. The Proponent submitted CCR from MoEF&CC dated 13.04.2023 and audit report till 2022-23 certified by DMG dated 23.09.2023. The Proponent informed the Committee that they had obtained transfer of quarry lease to the Proponent from DMG on 01.12.2022.

There is an existing cart track road to a length of 250 meters connecting lease area to the all-weather black topped road. The Committee informed that the proposed expansion in quantity should be commenced after asphaltting the approach road to the quarry & the road connecting the crusher as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed. Proponent submitted an undertaking for complying with the conditions stipulated by MoEF&CC OM dated: 28.04.2023.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 7,24,185 tonns(including waste) and estimated the life of mine to be 12 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 63,202 tonns / Annum (including waste), with following consideration,

1. Proponent agreed to strengthen the approach road to the quarry and road connecting the crusher as per norms before commencing expansion in quantity
2. To grow trees all along the approach road during the first year of operation.
3. To comply with the observation of MoEF&CC in CCR.
4. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).
2. Safety measures proposed shall be submitted.
3. A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.

Additional Conditions:

1. The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.
2. The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.
4. Dust suppression measures have to be strictly followed.
5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.
6. The PP shall grow trees all along the approach road during the first year of operation.
7. The PP shall comply with the observation of MoEF&CC in CCR.
8. The PP shall carry out regular health checkup for the workers in the near by Hospital.

245.1.70. Grey Granite Quarry Project at Kakkihalli Village, Kukanur Taluk, Koppal Districtn (2-24 Acres) by Sri MalligeSrinivasalu- Online Proposal No.SIA/KA/MIN/415024/2023 (SEIAA 279 MIN 2023)

Sri MalligeSrinivasalu have applied for Environmental clearance from SEIAA for Grey Granite Quarry Project at Sy.Nos.12/2 & 12/6 of Kakkihalli Village, Kukanur Taluk, Koppal Districtn (2-24 Acres)

Details of the project are as follows:

Sl.No.	PARTICULARS	INFORMATION PROVIDED BY PP

11	ER Activities:	
	Years	Corporate Environmental Responsibility (CER)
	1st	Providing 5 solar power panels in cross roads at Kakkihalli Village.
	2nd	Additional Plantation either side of approach road.
	3rd	Additional Plantation either side of approach road.
12	EMP Budget	Rs. 12.81 Lakhs (Capital Cost) & Rs.9.05 Lakhs (Recurring cost)
13	Forest NOC	03.10.2023
14	Quarry plan	13.01.2023
15	Cluster certificate	06.01.2023
16	Revenue NOC	19.04.2021
17	Notification	30.03.2023
18	DTF	10.11.2022

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that as per the DMG Notice letter dated 28.10.2022, penalty of fifty thousand was levied for construction of ramp for the purpose of movement of vehicles in northern portion of the

lease area and had not carried out any mining activity till date and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

As per the cluster sketch there are another 02 leases in a radius of 500 mtr from the said lease, out of which 01 lease is exempted from cluster, as it was granted prior to 09.09.2013 and the total area of the remaining leases including the applied lease is 7-33 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 100 meters connecting lease area to the all-weather black topped road. The Committee informed that quarrying should be commenced after asphaltting the approach road to the quarry as per IRC standard norms and should grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 55,300cum (including waste) and estimated the life of mine to be 9 years.

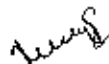

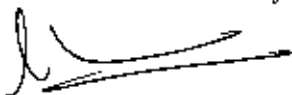

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 6,300 Cum/ Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.
4. Proponent agreed to handle the waste generated by obtaining necessary permission.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

4. *Since there is substantial quantity of generation of waste from the quarry activity, all due precautions with respect to environment management aspects of waste dump shall be observed.*

Additional Conditions:

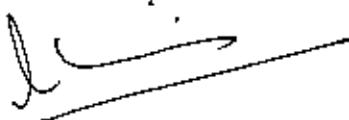

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*
6. *The PP shall grow trees all along the approach road during the first year of operation.*
7. *The PP shall carry out regular health checkup for the workers in the near by Hospital.*
8. *The PP shall handle the waste generated by obtaining necessary permission.*

245.1.71. Expansion of Building Stone Quarry Project at Hasuvinakaval Village, Periyapatna Taluk, Mysore District (1-00 Acre) (QL.No.557) by Sri T. R. Pradeep - Online Proposal No.SIA/KA/MIN/411473/2022 (SEIAA 406 MIN 2023)

Sri T. R. Pradeep have applied for Environmental clearance from SEIAA for Expansion of Building Stone Quarry Project at In Sy.No. 448 of Hasuvinakaval Village, Periyapatna Taluk, Mysore District (1-00 Acre) (QL.No.557)

Details of the project are as follows:

The subject was discussed in the SEAC meeting held on 16th, 17th& 18thOctober 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for expansion for which EC was issued earlier by DEIAA on 26.03.2018 and lease was granted on 16.02.2019 with QL No. 557. The Proponent submitted CCR from KSPCB dated 08.08.2023 and audit report till 2022-23 certified by DMG dated 26.09.2023.

As per the cluster sketch there are another 03 leases in a radius of 500 mtr from the said lease, out of which 03 leases are exempted from cluster, as the leases were granted prior to 09.09.2013 and the total area of the applied lease is 1-00 Acre and hence the project is categorized as B2.

There is an existing cart track road to a length of 1350 meters connecting lease area to the all-weather black topped road. The Committee informed that the proposed expansion in quantity should be commenced after strengthening the approach road to the quarry & the road connecting the crusher as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed. Proponent submitted an undertaking for complying with the conditions stipulated by MoEF&CC OM dated: 28.04.2023.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 3,44,861 tones(including waste) and estimated the life of mine to be 7 years.

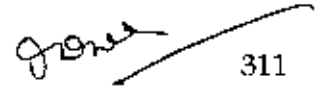

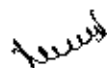

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 52,632 tonns / Annum (including waste), with following consideration,

1. Proponent agreed to strengthen the approach road to the quarry and road connecting the crusher as per norms before commencing expansion in quantity
2. To grow trees all along the approach road during the first year of operation.
3. To comply with the observation of KSPCB in CCR.
4. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*

3. A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.

Additional Conditions:

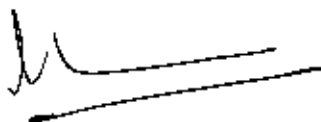

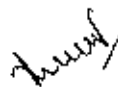

1. The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.
2. The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.
4. Dust suppression measures have to be strictly followed.
5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.
6. The PP shall grow trees all along the approach road during the first year of operation.
7. The PP shall comply with the observation of KSPCB in CCR.
8. The PP shall carry out regular health checkup for the workers in the near by Hospital.

245.1.72. Building Stone Quarry Project at Halekote Village, Siruguppa Taluk, Ballari District (4-00 Acres) by Sri P Jayaprakash Reddy - Online Proposal No.SIA/KA/MIN/443489/2023 (SEIAA 432 MIN 2023)

Sri P Jayaprakash Reddy have applied for Environmental clearance from SEIAA for Building Stone Quarry Project at Sy. No.594 Part of Halekote Village, Siruguppa Taluk, Ballari District (4-00 Acres)

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION PROVIDED BY PP
1	Name & Address of the Projects Proponent	Sri P Jayaprakash Reddy

2	Name & Location of the Project	Building Stone Quarry Project at Sy. No.594 Part of Halekote Village, Siruguppa Taluk, Ballari District (4-00 Acres)												
		<table border="1"> <tr> <td>N15° 33' 46.40"</td> <td>E76° 52' 59.70"</td> </tr> <tr> <td>N15° 33' 42.30"</td> <td>E76° 52' 50.60"</td> </tr> <tr> <td>N15° 33' 47.60"</td> <td>E76° 52' 57.00"</td> </tr> <tr> <td>N15° 33' 48.50"</td> <td>E76° 52' 05.00"</td> </tr> <tr> <td>N15° 33' 53.70"</td> <td>E76° 52' 53.60"</td> </tr> <tr> <td>N15° 33' 52.00"</td> <td>E76° 52' 52.00"</td> </tr> </table>	N15° 33' 46.40"	E76° 52' 59.70"	N15° 33' 42.30"	E76° 52' 50.60"	N15° 33' 47.60"	E76° 52' 57.00"	N15° 33' 48.50"	E76° 52' 05.00"	N15° 33' 53.70"	E76° 52' 53.60"	N15° 33' 52.00"	E76° 52' 52.00"

3	Type Of Mineral	Building Stone Quarry												
4	New / Expansion / Modification / Renewal	New												
5	Type of Land [Forest, Government Revenue, Gomal, Private / Patta, Other]	Government Land												
6	Area in Acres	4-00 Acres												
7	Annual Production (Metric Ton / Cum) Per Annum	81,600 Tones/ Annum (including waste)												
8	Project Cost (Rs. In Crores)	Rs. 2.10 Crores (Rs. 210 Lakhs)												
9	Proved Quantity of mine/ Quarry- Cu.m / Ton	9,68,438 Tones (including waste)												
10	Permitted Quantity Per Annum - Cu.m / Ton	80,000 Tones / Annum (excluding waste)												
11	CER Activities: To grow additional 2,000 No. of plantation both side of Both side of Haul road, Office area, Halekote primary school.													
12	EMP Budget	Rs. 21.78 lakhs (Capital Cost) & Rs. 9.20 lakhs (Recurring cost)												
13	Forest NOC	18.08.2021												
14	Quarry plan	29.08.2023												
15	Cluster certificate	05.09.2023												
16	Revenue NOC	03.07.2021												
17	Notification	10.06.2023												

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that the proposed land is Government land and no mining has been carried

out by Proponent till date and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

As per the cluster sketch there are another 03 leases in a radius of 500 mtr from the said lease, out of which 03 leases are exempted from cluster, as EC was issued prior to 15.01.2016 and the total area of the applied lease is 4-00 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 540 meters connecting lease area to the all-weather black topped road. The Committee informed that quarrying should be commenced after asphaltting the approach road to the quarry and road connecting the crusher as per IRC standard norms and should grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mincable reserve of 9,68,438 tons (including waste) and estimated the life of mine to be 13 years.

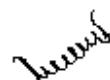

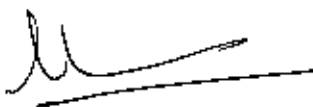

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 80,000 tons/ Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

- * 1. The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.
2. The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.
4. Dust suppression measures have to be strictly followed.
5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.
6. The PP shall grow trees all along the approach road during the first year of operation.
7. The PP shall carry out regular health checkup for the workers in the near by Hospital.

245.1.73. Building Stone Quarry Project at Halekote Village, Siruguppa Taluk, Ballari District (4.50 Acres) by Sri Y Krishna Prasad - Online Proposal No.SIA/KA/MIN/443416/2023 (SEIAA 433 MIN 2023)

Sri Y Krishna Prasad have applied for Environmental clearance from SEIAA for Building Stone Quarry Project at Sy.No.594 Part of Halekote Village, Siruguppa Taluk, Ballari District (4.50 Acres)

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION PROVIDED BY PP												
1	Name & Address of the Projects Proponent	Sri Y Krishna Prasad

8	Project Cost (Rs. In Crores)	Rs. 2.37 Crores (Rs. 237 Lakhs)
9	Proved Quantity of mine/ Quarry- Cu.m / Ton	12,98,530 Tones (including waste)
10	Permitted Quantity Per Annum - Cu.m / Ton	75,000 Tones / Annum (excluding waste)
11	CER Activities: To grow additional 2,000 No. of plantation on Both side of Haul road, Office area, Halekote primary school.	
12	EMP Budget	Rs. 25.79 lakhs (Capital Cost) & Rs. 9.20 lakhs (Recurring cost)
13	Forest NOC	18.08.2021
14	Quarry plan	29.08.2023
15	Cluster certificate	05.09.2023
16	Revenue NOC	03.07.2021
17	Notification	20.06.2023

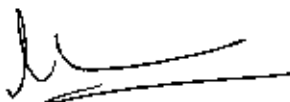

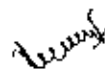

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that the proposed land is Government land and no mining has been carried out by Proponent till date and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

As per the cluster sketch there are another 03 leases in a radius of 500 mtr from the said lease, out of which 03 leases are exempted from cluster, as EC was issued prior to 15.01.2016 and the total area of the applied lease is 4.50 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 800 meters connecting lease area to the all-weather black topped road. The Committee informed that quarrying should be commenced after asphaltting the approach road to the quarry and road connecting the crusher as per IRC standard norms and should grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures

will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 12,98,530tons (including waste) and estimated the life of mine to be 18 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 75,000tons/ Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

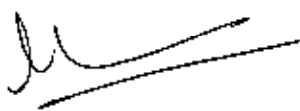

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*

6. The PP shall grow trees all along the approach road during the first year of operation.

7. The PP shall to carry out regular health checkup for the workers in the near by Hospital.

245.1.74. Building Stone Quarry Project at Bettahalli Village, Malur Taluk, Kolar District (2-23 Acres) by Sri Beerappa- Online Proposal No.SIA/KA/MIN/444005/2023 (SEIAA 438 MIN 2023)

Sri Beerappa have applied for Environmental clearance from SEIAA for Building Stone Quarry Project at Sy. No. 06 of Bettahalli Village, Malur Taluk, Kolar District (2-23 Acres)

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION PROVIDED BY PP

17	Notification	09.06.2023

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that the proposed land is Government land and no mining has been carried out by Proponent till date and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

As per the cluster sketch there are another 05 leases in a radius of 500 mtr from the said lease, out of which 03 leases are exempted from cluster, as leases were granted prior to 09.09.2013 and the total area of other leases including the applied lease is 9-07 Acres and hence the project is categorized as B2.

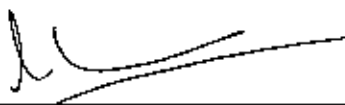

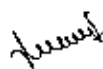

There is an existing cart track road to a length of 830meters connecting lease area to the all-weather black topped road. The Committee informed that quarrying should be commenced after asphaltting the approach road to the quarry and road connecting the crusher as per IRC standard norms and should grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 21,74,615 tons (including waste) and estimated the life of mine to be 09 years.

The Committee after discussion decided to recommend the proposal to SELAA for issue of Environmental Clearance for an annual production of 2,57,082tons/ Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per IRC norms.

2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

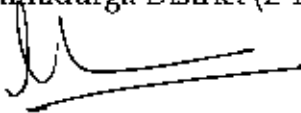

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*
6. *The PP shall grow trees all along the approach road during the first year of operation.*
7. *The PP shall carry out regular health checkup for the workers in the near by Hospital.*

245.1.75. Building Stone Quarry Project at Nannivala Village, Challakere Taluk, Chitradurga District (2-17 Acres) by Smt. Shashikala Nagaraju - Online Proposal No.SIA/KA/MIN/444121/2023 (SEIAA 437 MIN 2023)

Smt. Shashikala Nagaraju have applied for Environmental clearance from SEIAA for Building Stone Quarry Project at Sy. No.276/2 of Nannivala Village, Challakere Taluk, Chitradurga District (2-17 Acres)

15	Cluster certificate	11.09.2023
16	Revenue NOC	26.07.2023
17	Notification	16.09.2023

The subject was discussed in the SEAC meeting held on 16th, 17th& 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that the site has not been worked and applied area is fresh land and no mining has been carried out by Proponent till date and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

As per the cluster sketch there are another 02 leases in a radius of 500 mtr from the said lease, out of which 01 lease is exempted from cluster, as EC was granted prior to 15.01.2016 and the total area of the other lease including the applied lease is 3-17 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 132meters connecting lease area to the all-weather black topped road. The Committee informed that quarrying should be commenced after asphaltting the approach road to the quarry and road connecting the crusher as per IRC standard norms and should grow trees all along the approach road, for which the Proponent agreed.

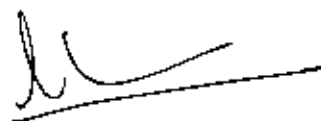

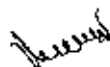

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 17,11,168 tons (including waste) and estimated the life of mine to be 11 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 1,57,895tons/ Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

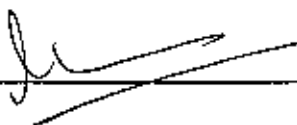

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*
6. *The PP shall grow trees all along the approach road during the first year of operation.*
7. *The PP shall carry out regular health checkup for the workers in the near by Hospital.*

245.1.76. Building Stone Quarry Project at Bettahalli Village, Malur Taluk, Kolar District (2-24 Acres) by Sri Madappa- Online Proposal No.SIA/KA/MIN/444022/2023 (SELAA 440 MIN 2023)

Sri Madappa have applied for Environmental clearance from SEIAA for Building Stone Quarry Project at Sy. No.06 of Bettahalli Village, Malur Taluk, Kolar District (2-24 Acres)

Details of the project are as follows:

17	Notification	09.06.2023	

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that the proposed land is Government land and no mining has been carried out by Proponent till date and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

As per the cluster sketch there are another 05 leases in a radius of 500 mtr from the said lease, out of which 03 leases are exempted from cluster, as leases were granted prior to 09.09.2013 and the total area of other leases including the applied lease is 9-07 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 500 meters connecting lease area to the all-weather black topped road. The Committee informed that quarrying should be commenced after asphaltting the approach road to the quarry and road connecting the crusher as per IRC standard norms and should grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 13,23,153tons (including waste) and estimated the life of mine to be 06 years.

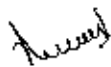

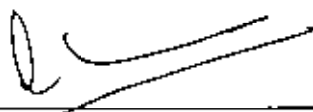

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 2,19,868tons/ Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

8	Project Cost (Rs. In Crores)	Rs. 0.15 Crores (Rs. 15 Lakhs)
9	Proved Quantity of mine/ Quarry- Cu.m / Ton	62,686 Tones (including waste)
10	Permitted Quantity Per Annum - Cu.m / Ton	4,557 Tones / Annum (excluding waste)
11	CER Activities: To grow additional 50 No. of plantation on either side of the approach road from quarry location to Thoranakambadahalli Village Road	
12	EMP Budget	Rs. 8.30 lakhs (Capital Cost) & Rs. 1.92 lakhs (Recurring cost)
13	Forest NOC	21.08.2015
14	Quarry plan	07.08.2023 (Manual)
15	Cluster certificate	07.08.2023
16	Revenue NOC	30.06.2020
17	Notification	25.07.2023
18	Audit Report	15.07.2023

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Proponent informed the Committee that the proposal is for renewal of a lease which was granted earlier on 10.09.1999, with QL No. 207 which has been non-operational since 2005-06 till date and justified the same as per the audit report issued by DMG dated 15.07.2023.

For the existing leases, based on the applicability of cut off dates as per clause 3 of 233rd SEIAA meeting dated 18.04.2023, Proponent informed that they had not carried out any mining activity after 2005-06 till date and no environmental damage has been caused and requested the Committee not to consider the proposal under violation category.

The Committee after discussion, decided to consider the proposal based on the DMG audit report, informing that no mining activity had been carried out since 2005-06 till date, implying that there was no environmental damage/pollution and opined that as an environmental Committee, violation should be ascertained based on the damage caused to the environment and not on the procedural lapses and decided to request SEIAA to consider the deliberations of the Committee in this proposal, while handling violation cases in respect of existing lease, as there is no requirement for Damage Assessment, Remedial Plan and Community Augmentation Plan as per SOP issued by MoEF&CC, Dated: 07.07.2021.

327

There is an existing cart track road to a length of 215 meters connecting lease area to the all-weather black topped road, and the Committee informed that the quarrying operation needs to be commenced after strengthening the approach road to the quarry as per IRC standard norms and should grow trees all along the approach road in first year of operation, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan, with proved mineable reserve of 62,686 Tones(including waste) and estimated the life of mine to be 13 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 5,063tons / Annum (including waste), with following consideration,

1. Proponent agreed to strengthen the approach road to the quarry
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital

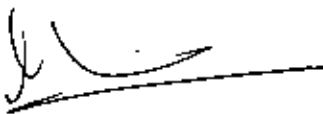

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*

Hand

Hand 328

2. The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.
4. Dust suppression measures have to be strictly followed.
5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.
6. The PP shall grow trees all along the approach road during the first year of operation.
7. The PP shall carry out regular health checkup for the workers in the near by Hospital

245.1.78. Ornamental Granite (Black Granite) Quarry Project at Kothalawadi Village, Chamarajanagar Taluk & District (2-30 Acres) by Sri K C Basavaraju- Online Proposal No.SIA/KA/MIN/441783/2023 (SEIAA 418 MIN 2023)

Sri K C Basavaraju have applied for Environmental clearance from SEIAA for Ornamental Granite (Black Granite) Quarry Project at Sy.Nos.208/1, 208/2 of Kothalawadi Village, Chamarajanagar Taluk & District (2-30 Acres)

Details of the project are as follows:

Sl.No.	PARTICULARS	INFORMATION PROVIDED BY PP

16	Revenue NOC	29.10.2022
17	Notification	04.07.2023
18	DTF	24.03.2023

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

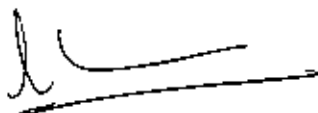

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that out of total applied area 1-20 Acres is virgin land and in area of 1-00 Acre top soil layer was excavated for agriculture purpose and no mining has been carried out by Proponent till date and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

As per the cluster sketch there are another 03 leases in a radius of 500 mtr from the said lease, out of which 03 leases is exempted from cluster, as EC was granted prior to 15.01.2016 and the total area of the applied lease is 2-30 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 200 meters connecting lease area to the all-weather black topped road. The Committee informed that quarrying should be commenced after asphaltting the approach road to the quarry as per IRC standard norms and should grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable

reserve of 3,02,725cum (including waste) and estimated the life of mine to be co-terminous with lease period.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 5,000 cum/ Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to handle the waste generated by obtaining necessary permission.
4. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

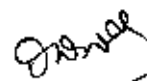

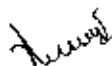

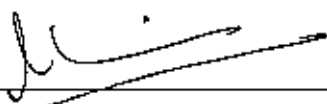

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*
4. *Since there is substantial quantity of generation of waste from the quarry activity, all due precautions with respect to environment management aspects of waste dump shall be observed.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*

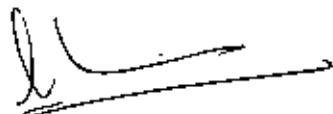

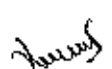

5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.
6. The PP shall grow trees all along the approach road during the first year of operation.
7. The PP shall handle the waste generated by obtaining necessary permission.
8. The PP shall carry out regular health checkup for the workers in the near by Hospital.

245.1.79. Expansion of Building Stone Quarry Project at P. Peraje Village, Madikeri Taluk, Kodagu District (1-20 Acres) (QL No.28) by Sri Nellimbady Bhat - Online Proposal No.SIA/KA/MIN/261949/2022 (SEIAA 116 MIN 2022)

Sri Nellimbady Bhat have applied for Environmental clearance from SEIAA for Expansion of Building Stone Quarry Project at Sy.No.36/1 of P. Peraje Village, Madikeri Taluk, Kodagu District (1-20 Acres) (QL No.28)

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION PROVIDED BY PP										
1	Name & Address of the Projects Proponent	Sri Nellimbady Bhat

5	Type of Land [Forest, Government Revenue, Gomal, Private / Patta, Other]	Government Land										
6	Area in Acres	1-20 Acres										
7	Annual Production (Metric Ton / Cum) Per Annum	42,105 Tones/ Annum (including waste)										
8	Project Cost (Rs. In Crores)	Rs. 1.09 Crores (Rs. 109 Lakhs)										
9	Proved Quantity of mine/ Quarry-Cu.m / Ton	5,61,566 Tones (including waste)										
10	Permitted Quantity Per Annum - Cu.m / Ton	40,000 Tones / Annum (excluding waste)										

11	CER Activities:	
	Year	Corporate Environmental Responsibility (CER)
	1st	Providing solar power panels at Chamakaje Village.
	2nd	Rain water harvesting pits to Chamakaje Village.
	3rd	Avenue plantation either side of the approach road near Quarry site & Repair of road With drainages
	4th	Conducting E-waste drive campaigns in GHPS at Chamakaje Village.
5th	Health camp in GHPS at Chamakaje Village	
12	EMP Budget	Rs. 20.95 lakhs (Capital Cost) & Rs. 8.91 lakhs (Recurring cost)
13	Forest NOC	23.06.2014
14	Quarry plan	07.01.2022
15	Cluster certificate	07.10.2023
16	CCR from, KSPCB	22.08.2023
17	Notification	19.11.2015
18	Audit Report	02.08.2023

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for expansion, for which EC was issued earlier by DEIAA on 31.03.2017 and lease was granted on 29.07.2017 with QL No. 28. The Proponent submitted CCR from KSPCB dated 22.08.2023 and audit report till 2022-23 certified by DMG dated 02.08.2023.

There is an existing cart track road to a length of 150 meters connecting lease area to the all-weather black topped road. The Committee informed that the proposed expansion in quantity should be commenced after strengthening the approach road to the quarry & the road connecting the crusher as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed. Proponent submitted an undertaking to comply with the conditions stipulated by MoEF&CC OM dated: 28.04.2023.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 5,61,566 tonns (including waste) and estimated the life of mine to be 14 years.

Handwritten signature

Handwritten signature 333

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 42,105 tonns / Annum (including waste), with following consideration,

1. Proponent agreed to strengthen the approach road to the quarry and road connecting the crusher as per norms before commencing expansion in quantity
2. To grow trees all along the approach road during the first year of operation.
3. To comply with the observation of KSPCB in CCR.
4. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to reconsider the project after receipt of the recent Forest NoC from competent Authority.

245.1.80. Building Stone Quarry Project at Nandikurali Village, Raibag Taluk, Belagavi District (1-25 Acres) by Shri. Mahalingeshwar Stone Crusher & M-Sand - Online Proposal No.SIA/KA/MIN/442603/2023 (SEIAA 241 MIN 2022)

Shri. Mahalingeshwar Stone Crusher & M-Sand have applied for Environmental clearance from SEIAA for Building Stone Quarry Project at Sy.No.202/4K, 4D, 4E, 4F, 4G, (Part) of Nandikurali Village, Raibag Taluk, Belagavi District (1-25 Acres)

Details of the project are as follows:

15	Cluster certificate	24.04.2022
16	Revenue	25.02.2022
17	Notification	10.03.2022
18	Public hearing	20.01.2023

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that the proposed area is a fresh land and no mining has been carried out by Proponent and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

The proposal is for building stone quarry as the area considered for cluster is more than 5Ha, the proposal is categorized as B1 and for which SEIAA had issued ToR on 04.07.2022 and public hearing was conducted on 20.01.2023, where opinions/requests of seven people had been recorded in public hearing report.

There is an existing cart track road to a length of 450 meters connecting lease area to the all-weather black topped road. The Committee informed that the mining operation should be commenced after asphaltting the approach road to the quarry and road leading to the crusher as per IRC norms and to grow trees all along the approach road during the first year of operation and to comply with the request of public expressed during public hearing, to which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 3,27,593Tons (including waste) and estimated the life of the quarry to be 10 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 35,714Tonns/annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation
3. Proponent agreed to take precautionary measures towards halla.
4. Proponent agreed to comply with the request of public, expressed during public hearing.
5. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

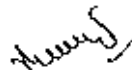

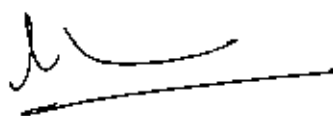

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*

3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.
4. Dust suppression measures have to be strictly followed.
5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.
6. The PP Shall grow trees all along the approach road during the first year of operation
7. The PP Shall take precautionary measures towards halla.
8. The PP Shall comply with the opinion of public, expressed during public hearing.
9. The PP Shall carry out regular health checkup for the workers in the near by Hospital.

245.1.81. Building Stone Quarry Project at Chetnahalli Village, Harappanahalli Taluk, Vijayanagara District (1-29 Acres) by Sri Venkatesh - Online Proposal No.SIA/KA/MIN/440279/2023 (SELAA 298 MIN 2022)

Sri Venkatesh have applied for Environmental clearance from SEIAA for Building Stone Quarry Project at Sy.No.44/B in Chetnahalli Village, Harappanahalli Taluk, Vijayanagara District (1-29 Acres)

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION PROVIDED BY PP										
1	Name & Address of the Projects Proponent	Sri Venkatesh										
2	Name & Location of the Project	Building Stone Quarry Project at Sy.No.44/B in Chetnahalli Village, Harappanahalli Taluk, Vijayanagara District (1-29 Acres)

6	Area in Acres	1-29 Acres										
7	Annual Production (Metric Ton	30,612 Tones/ Annum (including waste)										

	/ Cum) Per Annum	
8	Project Cost (Rs. In Crores)	Rs. 0.35 Crores (Rs. 35 Lakhs)
9	Proved Quantity of mine/ Quarry- Cu.m / Ton	1,94,161 Tones (including waste)
10	Permitted Quantity Per Annum - Cu.m / Ton	30,000 Tones / Annum (excluding waste)
11	CER Activities: Propose take up 1,000 No. of additional plantation on either side of the approach road from quarry location to Chetnahalli Village Road	
12	EMP Budget	Rs. 20.50 lakhs (Capital Cost) & Rs. 5.40 lakhs (Recurring cost)
13	Forest NOC	08.10.2020
14	Quarry plan	10.12.2020
15	Cluster certificate	01.12.2020
16	Notification	19.11.2020
17	Revenue	01.10.2020
18	PH	20.07.2023

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that they had removed top soil for agriculture purposed and for which DMG has imposed penalty of Rs. 3.94 Lakhs for removal of top soil on 17.11.2020 and further informed that as per the MoEF&CC Notification dated 28.03.2020, in Sl. No. 4, EC is exempted if the customary extraction of sand and ordinary earth from sources situated in Gram Panchayat for personal use or community work in village and informed that no quarrying has been carried out by Proponent and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

The proposal is for building stone quarry as the area considered for cluster is more than 5Ha, the proposal is categorized as B1 and for which SEIAA had issued ToR on 01.08.2022 and public hearing was conducted on 20.07.2023, where opinions/requests of eight people had been recorded in public hearing report.

There is an existing cart track road to a length of 500 meters connecting lease area to the all-weather black topped road. The Committee informed that the mining operation should be commenced after asphaltting the approach road to the quarry and road leading to the crusher as per IRC norms and to grow trees all along the approach road during the first year of operation and to comply with the request of public expressed during public hearing, to which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures

will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 1,94,161Tones (including waste) and estimated the life of the quarry to be 7 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 30,612Tones/annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to comply with the request of public, expressed during public hearing.
4. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

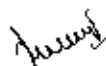

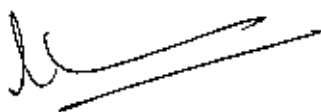

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*

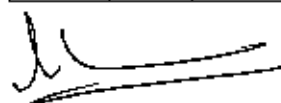

3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.
4. Dust suppression measures have to be strictly followed.
5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.
6. The PP shall grow trees all along the approach road during the first year of operation.
7. The PP shall comply with the opinion of public, expressed during public hearing.
8. The PP shall carry out regular health checkup for the workers in the near by Hospital.

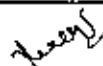

245.1.82. Building Stone Quarry Project at Chetnahalli Village, Harappanahalli Taluk & Vijayanagara District (1.51 Acres) by Sri. Nagaraj Naik P - Online Proposal No.SIA/KA/MIN/440283/2023 (SEIAA 305 MIN 2022)

Sri. Nagaraj Naik P have applied for Environmental clearance from SEIAA for Building Stone Quarry Project at Sy.No. 35/B in Chetnahalli Village, Harappanahalli Taluk & Vijayanagara District (1-51 Acres)

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION PROVIDED BY PP										
1	Name & Address of the Projects Proponent	Sri. Nagaraj Naik P

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that existing lease owner adjacent to the proposed project area had removed soil from the applied area and for which DMG had levied penalty of Rs. 4.90 Lakhs on 10.12.2020 and further informed that as per the MoEF&CC Notification dated 28.03.2020, in Sl. No. 4, EC is exempted if the customary extraction of sand and ordinary earth from sources situated in Gram Panchayat for personal use or community work in village and informed that no quarrying has been carried out by Proponent and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

The proposal is for building stone quarry as the area considered for cluster is more than 5Ha, the proposal is categorized as B1 and for which SEIAA had issued ToR on 01.08.2022 and public hearing was conducted on 20.07.2023, where opinions/requests of eight people had been recorded in public hearing report.

There is an existing cart track road to a length of 500 meters connecting lease area to the all-weather black topped road. The Committee informed that the mining operation should be commenced after asphaltting the approach road to the quarry and road leading to the crusher as per IRC norms and to grow trees all along the approach road during the first year of operation and to comply with the request of public expressed during public hearing, to which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 2,31,311 Tones (including waste) and estimated the life of the quarry to be 6 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 40,816 Tones/annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation
3. Proponent agreed to comply with the request of public, expressed during public hearing.
4. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

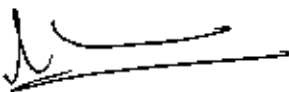

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*

3	Type Of Mineral	Ornamental Stone (Pink Granite) Quarry										
4	New/Expansion/Modification / Renewal	New										
5	Type of Land [Forest, Government Revenue, Gomal, Private / Patta, Other]	Patta										
6	Area in Acres	6-00 Acres										
7	Annual Production (Metric Ton / Cum) Per Annum	26,668 Cum/ Annum (including waste)										
8	Project Cost (Rs. In Crores)	Rs.0.50 Crores (Rs. 50 Lakhs)										
9	Proved Quantity of mine/ Quarry- Cu.m / Ton	3,61,000 Cum (including waste)										
10	Permitted Quantity Per Annum - Cu.m/ Ton	8,000 Cum/ Annum (recovery)										
11	CER Activities: Towards CER, which is 2% of the capital investment (Rs. 50 Lakhs), to take-up installation of solar street lights at Balakundi Village											
12	EMP Budget	Rs. 20.50 Lakhs (Capital Cost) & Rs. 4.50 Lakhs (Recurring cost)										

13	Forest NOC	06.03.2018
14	Quarry plan	08.07.2022
15	Cluster certificate	28.07.2022
16	Revenue NOC	03.08.2018
17	C&I Notification	02.07.2022
18	PH	04.07.2023

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

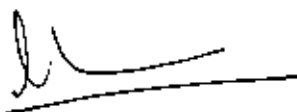

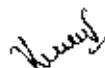

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that earlier as per the directions of Court in WP 10235/1993, Proponent was allowed to work from 1994-95 to 2000-01 and since then no mining had been carried out and informed that as per the DMG letter dated 07.09.2023 based on the google time line images, working are prior to 01.02.2012 and as google images earlier to 01.02.2012 are not available and in December 2020 time line images, no new workings are observed. Further it was also informed by DMG that, for the excess quarrying activities carried out as per the directions of Court Order, DMG had levied fine of 6.12lakhs and Proponent had paid the penalty. The Proponent informed that no quarrying has been carried out after 2000-01 and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

The proposal is for building stone quarry as the area considered for cluster is more than 5Ha, the proposal is categorized as B1 and for which SEIAA had issued ToR on 27.09.2022 and public hearing was conducted on 04.07.2023, where opinions/requests of six people had been recorded in public hearing report.

There is an existing cart track road to a length of 400meters connecting lease area to the all-weather black topped road. The Committee informed that the mining operation should be commenced after asphaltting the approach road to the quarry as per IRC norms and to grow trees all along the approach road during the first year of operation and to comply with the request of public expressed during public hearing, to which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 3,61,000 cum (including waste) and estimated the life of the quarry to be 14 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 26,668 cum/annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry as per IRC norms.
2. To grow trees all along the approach road during the first year of operation
3. Proponent agreed to comply with the request of public, expressed during public hearing.
4. Proponent agreed to carry out regular health checkup for the workers in the nearby Hospital.
5. Proponent agreed to handle the waste generated by obtaining necessary permission.

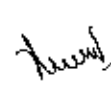

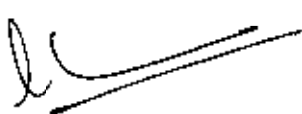

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*
4. *The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*

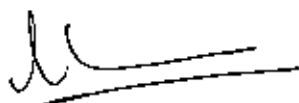

6. The PP shall grow trees all along the approach road during the first year of operation
7. The PP shall comply with the opinion of public, expressed during public hearing.
8. The PP shall carry out regular health checkup for the workers in the nearby Hospital.
9. The PP shall handle the waste generated by obtaining necessary permission.

245.1.84. Ordinary Sand Quarry Project at Balutagi Village, Kushtagi Taluk, Koppal District (7-20 Acres) by M/s. Banashankari Minerals Badami - Online Proposal No.SIA/KA/MIN/445765/2023 (SEIAA 456 MIN 2023)

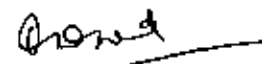

M/s. Banashankari Minerals Badami have applied for Environmental clearance from SEIAA for Ordinary Sand Quarry Project at Sy. Nos. 7/1/5, 7/1/6, 7/1/7 & 7/1/8 of Balutagi Village, Kushtagi Taluk, Koppal District (7-20 Acres)

Details of the project are as follows:

13	Forest NOC	31.12.2022
14	Cluster certificate	15.09.2023
15	District sand monitoring committee recommendation	05.07.2023
16	App. Quarry Plan	14.09.2023
17	Revenue	28.12.2022

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for ordinary sand mining and as per the cluster sketch there is no lease in a radius of 500 mtr from the said lease and the total area of the present lease is 7-20 Acres and hence the project is categorized as B2. Proponent informed that as per DMG site inspection letter dated 13.09.2023, there are no river sand blocks in radius of 5km from the proposed area.

There is an existing cart track road to a length of 110 meters connecting the lease area to the all-weather black topped road. The Committee informed that the mining operation should be commenced after asphaltting the approach road to the quarry as per IRC norms and to strictly implement mine closure plan effectively after mining operation and to grow trees all along the approach road during the first year of operation, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

347

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 1,84,131.5 Tons (including waste) and estimated the life of the quarry to be 4 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 18,413.15 Tones for 1st year and 55,239.45 Tones/annum for 3 years (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry as per IRC norms
2. To implement mine closure plan effectively after mining operation by preserving top soil and reusing it for plantation after completing of mining operation.
3. To grow trees all along the approach road & buffer zone during the first year of operation and to carry out halla strengthening works.
4. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

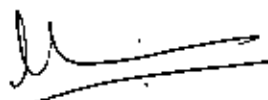

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLVV) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*
4. *The proponent shall furnish a certificate from competent Authority that there is no sand quarry within 5 KM of project site.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*

Handwritten signature 348

4. Dust suppression measures have to be strictly followed.
5. The PP shall implement mine/closure plan effectively after mining operation by preserving top soil and reusing it for plantation after completing of mining operation.
6. The PP shall grow trees all along the approach road & buffer zone during the first year of operation and to carry out halla strengthening works.
7. The PP shall carry out regular health checkup for the workers in the near by Hospital.

245.1.85. Building Stone Quarry Project at Ambewadi Village, Belagavi Taluk & District (3-00 Acres) by Sri. Nagesh S. Navalagatti - Online Proposal No.SIA/KA/MIN/444339/2023 (SEIAA 445 MIN 2023)

Sri. Nagesh S. Navalagatti have applied for Environmental clearance from SEIAA for Building Stone Quarry Project at Sy.Nos.128/7 & 128/9 of Ambewadi Village, Belagavi Taluk & District (3-00 Acres)

Details of the project are as follows:

SLN	PARTICULARS	INFORMATION PROVIDED BY PP

9	Proved Quantity of mine/ Quarry- Cu.m / Ton	7,44,816 Tones (including waste)
10	Permitted Quantity Per Annum - Cu.m / Ton	70,112 Tones / Annum (excluding waste)
11	CER Activities: Propose take up 450 No. of additional plantation on either side of the approach road from quarry location to Ambewadi Village Road	
12	EMP Budget	Rs. 14.35 lakhs (Capital Cost) & Rs. 4.83 lakhs
13	Forest NOC	12.12.2022
14	Quarry plan	06.09.2023
15	Cluster certificate	06.09.2023
16	Revenue NoC	15.07.2023
17	Notification	19.07.2023

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that the lease had encroached by the adjacent lease holder and during survey and demarcation by DMG, it was found that the quarrying taken place in proposed area and as the violation was carried out by adjacent lease owner for quarrying outside the lease area, DMG has not imposed any penalty for the Proponent, as no mining has been carried out by Proponent till date and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

As per the cluster sketch there are another 04 leases in a radius of 500 mtr from the said lease, out of which 02 leases are exempted from cluster, as EC was issued prior to 15.01.2016 and the total area of the remaining leases including the applied lease is 6-04 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 760 meters connecting lease area to the all-weather black topped road. The Committee informed that quarrying should be commenced after asphaltting the approach road to the quarry and road connecting the crusher as per IRC standard norms and should grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mincable reserve of 7,44,816tons (including waste) and estimated the life of mine to be 11 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 71,543 tons/ Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to carry out regular health checkup for the workers in the nearby Hospital.

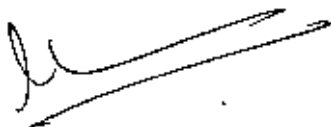

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWVW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*
6. *The PP shall grow trees all along the approach road during the first year of operation.*
7. *The PP shall carry out regular health checkup for the workers in the nearby Hospital.*

10	Permitted Quantity Per Annum - Cu.m / Ton	1,300 Cum/ Annum (recovery)												
11	CER Activities: Propose grow 1000 No. of additional plantation on either side of the approach road from quarry location to Halasabele Village Road													
12	EMP Budget	Rs. 30 Lakhs (Capital Cost) & Rs. 15 Lakhs (Recurring cost)												
13	Forest NOC	16.05.2023												
14	Quarry plan	20.09.2022												
15	Cluster certificate	30.09.2022												

16	Revenue NOC	03.10.2019
17	Notification	21.06.2022

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that the proposed area is Government land and as per the Revenue NoC, the illegal mining was carried out 20 years back and no mining has been carried out by Proponent and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

As per the cluster sketch there is no lease in a radius of 500 mtr from the said lease and the total area of the present lease is 5-22 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 840 meters connecting the lease area to the all-weather black topped road. The Committee informed that the mining operation should be commenced after asphaltting the approach road to the quarry as per IRC norms and to grow trees all along the approach road during the first year of operation, for which the Proponent agreed.

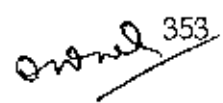

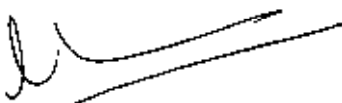

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 5,28,155 Cum (including waste) and estimated the life of the quarry to be co-terminus with lease period.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 3,850 Cum/annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry as per IRC norms
2. To grow trees all along the approach road & buffer zone during the first year of operation
3. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.
4. Proponent agreed to handle the waste generated by obtaining necessary permission.

The Authority perused the proposal and took note of the recommendation of SEAC.

 353

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

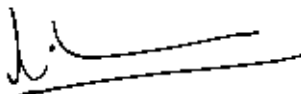

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*
4. *Since there is substantial quantity of generation of waste from the quarry activity, all due precautions with respect to environment management aspects of waste dump shall be observed.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*
6. *The PP shall grow trees all along the approach road & buffer zone during the first year of operation*
7. *The PP shall carry out regular health checkup for the workers in the near by Hospital.*
8. *The PP shall handle the waste generated by obtaining necessary permission.*

245.1.87. Building Stone Quarry Project at Kadandale village Mudabidri Taluk, Dakshina Kannada District (5.98 Acres) by M/s. ISCOM Contracting Pvt. Ltd. - Online Proposal No.SIA/KA/MIN/444433/2023 (SEIAA 446 MIN 2023)

M/s. ISCOM Contracting Pvt. Ltd. have applied for Environmental clearance from SEIAA for Building Stone Quarry Project at Sy. Nos.248/1, 248/2, 248/3 of Kadandale village Mudabidri Taluk, Dakshina Kannada District (5.98 Acres)

Details of the project are as follows:

17	Revenue NoC	30.06.2023												

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that the proposed area is a fresh land and no mining has been carried out by Proponent and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

As per the cluster sketch there is no lease in a radius of 500 mtr from the said lease and the total area of the present lease is 5.98Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 450 meters connecting the lease area to the all-weather black topped road. The Committee informed that the mining operation should be commenced after asphaltting the approach road to the quarry and road connecting the crusher as per IRC norms and to grow trees all along the approach road during the first year of operation, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mincable reserve of 24,90,463Tons (including waste) and estimated the life of the quarry to be 9 years.

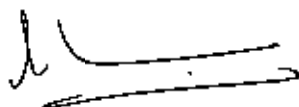

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 3,06,123 Tonns/annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road& buffer zone during the first year of operatio
3. Proponent agreed to carry out regular health checkup for the workers in the nearby Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the*

proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/migratory corridor).

2. Safety measures proposed shall be submitted.
3. A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.

Additional Conditions:

1. The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.
2. The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.
4. Dust suppression measures have to be strictly followed.
5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.
6. The PP shall grow trees all along the approach road& buffer zone during the first year of operatio
7. The PP shall to carry out regular health checkup for the workers in the nearby Hospital.

245.1.88. Expansion of Building Stone Quarry Project at Kanthewaderahalli village in Koratagere Taluk, Tumkur District (2-20 Acres) (vide QL No. 712) by M/s. V.M.G. Stone & M-Sand Crusher - Online Proposal No.SIA/KA/MIN/440003/2023 (SEIAA 441 MIN 2023)

M/s. V.M.G. Stone & M-Sand Crusher have applied for Environmental clearance from SEIAA for Expansion of Building Stone Quarry Project at Sy.No.16 of Kanthewaderahalli village in Koratagere Taluk, Tumkur District (2-20 Acres) (vide QL No. 712)

Details of the project are as follows:

16	CCR from MoEF&CC	06.09.2023	
17	Audit Report	14.03.2023	
18	Revenue NoC	17.05.2019	

The subject was discussed in the SEAC meeting held on 16th, 17th& 18thOctober 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for expansion for which EC was issued earlier by DEIAA on 24.03.2018 and lease was in effect from 17.02.2009 with QL No. 712. The Proponent submitted CCR from MoEF&CC dated 06.09.2023 and audit report till 2022-23 certified from DMG dated 14.03.2023. The Proponent informed the Committee that they had obtained transfer of quarry lease to the Proponent by SEIAA on 30.05.2023.

There is an existing cart track road to a length of 1000 meters connecting lease area to the all-weather black topped road. The Committee informed that the proposed expansion in quantity should be commenced after asphaltting the approach road to the quarry & the road connecting the crusher as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed. Proponent submitted an undertaking for complying with the conditions stipulated by MoEF&CC OM dated: 28.04.2023.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 3,93,869 tonnes (including waste) and estimated the life of mine to be 5 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 79,047 tonnes / Annum (including waste), with following consideration,

1. Proponent agreed to strengthen the approach road to the quarry and road connecting the crusher as per norms before commencing expansion in quantity.
2. To grow trees all along the approach road during the first year of operation.
3. To comply with the observation of MoEF&CC in CCR.
4. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

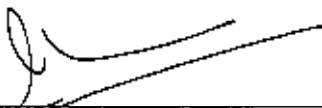

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*

16	Notification	01.08.2023
17	Audit Report	08.08.2023
18	Revenue NoC	17.07.2023

The subject was discussed in the SEAC meeting held on 16th, 17th& 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Proponent informed the Committee that the proposal is for renewal of a lease which was granted earlier on 06.08.2007, with QL No. 28 which has been non-operational since 2012-13 till date and justified the same as per the audit report issued by DMG dated 15.07.2023. The DMG has issued revised notification in the name of Proponent on 01.08.2023.

For the existing leases, based on the applicability of cut off dates as per clause 3 of 233rd SEIAA meeting dated 18.04.2023, Proponent informed that they had not carried out any mining activity after 2012-13 till date and no environmental damage has been caused and requested the Committee not to consider the proposal under violation category.

The Committee after discussion, decided to consider the proposal based on the DMG audit report, informing that no mining activity had been carried out since 2012-13 till date, implying that there was no environmental damage/pollution and opined that as an environmental Committee, violation should be ascertained based on the damage caused to the environment and not on the procedural lapses and decided to request SEIAA to consider the deliberations of the Committee in this proposal, while handling violation cases in respect of existing lease, as there is no requirement for Damage Assessment, Remedial Plan and Community Augmentation Plan as per SOP issued by MoEF&CC, Dated:07.07.2021.

Handwritten signature

Handwritten signature with number 361

There is an existing cart track road to a length of 250meters connecting lease area to the all-weather black topped road and the Committee informed that the quarrying operation needs to be commenced after strengthening the approach road to the quarry as per IRC standard norms and should grow trees all along the approach road in first year of operation, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan, with proved mincable reserve of 53,684Tones(including waste) and estimated the life of mine to be 7years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 8,163tons / Annum (including waste), with following consideration,

1. Proponent agreed to strengthen the approach road to the quarry
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital

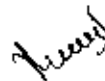

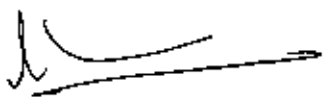

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*

2. The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.
4. Dust suppression measures have to be strictly followed.
5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.
6. The PP shall grow trees all along the approach road during the first year of operation.
7. The PP shall carry out regular health checkup for the workers in the near by Hospital

245.1.90. Building Stone Quarry Project at Kanivenarayanapura Village, Chikkaballapura Taluk & District (2-00 Acres) (vide QL No. 730) by M/s S. C. B. Enterprises - Online Proposal No.SIA/KA/MIN/424034/2023 (SEIAA 447 MIN 2023)

M/s S. C. B. Enterprises have applied for Environmental clearance from SEIAA for Building Stone Quarry Project at Sy.No.39(P) of Kanivenarayanapura village, Chikkaballapura Taluk & District (2-00 Acres) (vide QL No. 730)

Details of the project are as follows:

14	Cluster certificate	22.12.2022
15	CCR from,KSPCB	01.07.2023
16	Audit Report	09.10.2023

The subject was discussed in the SEAC meeting held on 16th, 17th& 18thOctober 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

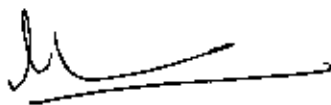

The proposal is for expansion of building stone quarry, for which the lease was in effect from 13.03.2006 with QL No. 730 and for which EC was issued earlier by SEIAA on 22.05.2017. The Proponent submitted audit report till 2022-23 certified by DMG dated 09.10.2023 and CCR from KSPCB dated 01.07.2023.

There is an existing cart track road to a length of 900 meters connecting lease area to the all-weather black topped road. The Committee informed that the proposed expansion in quantity should be commenced after asphaltting the approach road to the quarry and road connecting the crusher as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 10,51,343(including waste) and estimated the life of mine to be 6 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 2,04,082 tons / Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per norms before commencing expansion in quantity.
2. To grow trees all along the approach road during the first year of operation.
3. To comply with the observation of KSPCB in CCR.
4. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

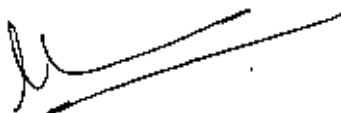

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*
6. *The PP shall grow trees all along the approach road during the first year of operation.*
7. *The PP shall comply with the observation of KSPCB in CCR.*
8. *The PP shall carry out regular health checkup for the workers in the near by Hospital.*

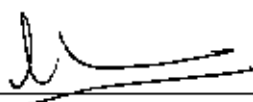

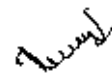

245.1.91. Black Granite Quarry Project at Killanjaru Village, Mangalore Taluk, Dakshina Kannada District (1-14 Acres) by Sri Vasanth Kumar - Online Proposal No.SIA/KA/MIN/436482/2023 (SEIAA 314 MIN 2023)

Sri Vasanth Kumar have applied for Environmental clearance from SEIAA for Black Granite Quarry Project at Sy. No. 81/2 of Killanjaru Village, Mangalore Taluk, Dakshina Kannada District (1-14 Acres)

Details of the project are as follows:

SL.No.	PARTICULARS	INFORMATION PROVIDED BY PP														
1	Name & Address of the Projects Proponent	Sri Vasanth Kumar														
2	Name & Location of the Project	Black Granite Quarry Project at Sy. No. 81/2 of Killanjaru Village, Mangalore Taluk, Dakshina Kannada District (1-14 Acres) <table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th>Latitude</th> <th>Longitude</th> </tr> </thead> <tbody> <tr> <td>12°58'31.99"</td> <td>75°00'18.10"</td> </tr> <tr> <td>12°58'30.71"</td> <td>75°00'18.53"</td> </tr> <tr> <td>12°58'30.90"</td> <td>75°00'20.54"</td> </tr> <tr> <td>12°58'30.02"</td> <td>75°00'21.26"</td> </tr> <tr> <td>12°58'29.10"</td> <td>75°00'19.05"</td> </tr> <tr> <td>12°58'31.27"</td> <td>75°00'16.99"</td> </tr> </tbody> </table>	Latitude	Longitude	12°58'31.99"	75°00'18.10"	12°58'30.71"	75°00'18.53"	12°58'30.90"	75°00'20.54"	12°58'30.02"	75°00'21.26"	12°58'29.10"	75°00'19.05"	12°58'31.27"	75°00'16.99"

10	Permitted Quantity Per Annum - Cu.m / Ton	1,268 Cum/ Annum (recovery)														
11	CER Activities: Propose take up 150 No. of additional plantation on either side of the approach road from quarry location to Killanjaru Village Road															
12	EMP Budget	Rs.7.05 Lakhs (Capital Cost) & Rs. 2.21 Lakhs (Recurring cost)														
13	Quarry plan	24.04.2023														
14	CCR from MS,KSPCB	03.10.2023														
15	Audit Report	09.10.2023														

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for expansion of building stone quarry, for which the lease was in effect from 26.12.2005 with QL No. 743 and for which EC was issued earlier by SEIAA on 10.12.2015. The Proponent submitted audit report till 2022-23 certified by DMG dated 09.10.2023 and CCR from KSPCB dated 03.10.2023.

There is an existing cart track road to a length of 750 meters connecting lease area to the all-weather black topped road. The Committee informed that the proposed expansion in quantity should be commenced after asphaltting the approach road to the quarry as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

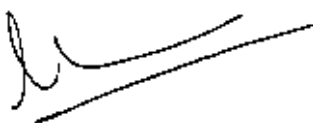

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 41,625 cum(including waste) and estimated the life of mine to be 3 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 3,623 Cum/ Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry as per norms before commencing expansion in quantity
2. To grow trees all along the approach road during the first year of operation.
3. To comply with the observation of KSPCB in CCR.
4. Proponent agreed to handle the waste generated by obtaining necessary permission.
5. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

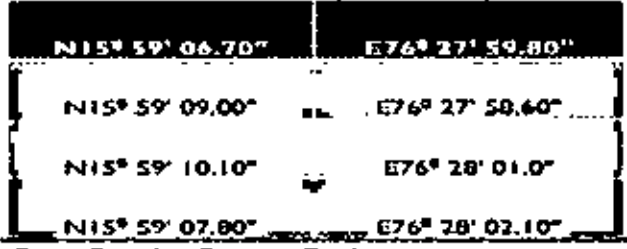

The Authority after discussion decided to reconsider the project after receipt of the recent Forest NoC from competent Authority.

245.1.92. Grey Granite Quarry Project at Mudgal Village, Lingasugur Taluk, Raichur District (1-20 Acres) by Smt. Shashikala - Online Proposal No.SIA/KA/MIN/443657/2023 (SEIAA 436 MIN 2023)

Smt. Shashikala have applied for Environmental clearance from SEIAA for Grey Granite Quarry Project at Sy. No.402/2/2 of Mudgal Village, Lingasugur Taluk, Raichur District (1-20 Acres)

Details of the project are as follows:

Sl.No.	PARTICULARS	INFORMATION PROVIDED BY PP
1	Name & Address of the Projects Proponent	Smt. Shashikala
2	Name & Location of the Project	Grey Granite Quarry Project at Sy. No.402/2/2 of Mudgal Village, Lingasugur Taluk, Raichur District (1-20 Acres) 
3	Type Of Mineral	Grey Granite Quarry Project
4	New / Expansion / Modification / Renewal	As per the Provisions in MoEF&CC OM dated 28.04.2023.
5	Type of Land [Forest, Government Revenue, Gomal, Private / Patta, Other]	Patta
6	Area in Acres	1-20 Acres
7	Annual Production (Metric Ton / Cum) Per Annum	5,000 Cum/ Annum (including waste)
8	Project Cost (Rs. In Crores)	Rs.2.55 Crores (Rs. 255 Lakhs)
9	Proved Quantity of mine/ Quarry- Cu.m / Ton	29,250 Cum (including waste)
10	Permitted Quantity Per Annum - Cu.m / Ton	1,500 Cum/ Annum (recovery)
11	CER Activities: Propose take up 1,000 No. of additional plantation on Both side of Haul Road, Office area, Mudgal primary school. Or The Budget allotted will be given to Forest Department for afforestation	
12	EMP Budget	Rs.25.03 Lakhs (Capital Cost) & Rs. 6.85 Lakhs (Recurring cost)
13	Forest NOC	28.05.2014
14	Cluster certificate	18.08.2023
15	Revenue NOC	15.05.2013

W.S.

16	Audit Report	20.05.2023
----	--------------	------------

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for appraisal as per MoEF&CC OM dated 28.04.2023, without change in production, for which EC was issued earlier by DEIAA on 19.08.2017 and lease was granted on 07.02.2003 with QL No. 686 and Proponent had obtained transfer of lease from DMG on 07.02.2023. The Proponent submitted audit report till 2022-23 certified from DMG dated 20.05.2023.

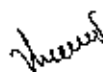

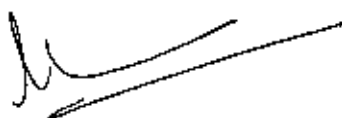

There is an existing cart track road to a length of 450 meters connecting lease area to the all-weather black topped road. The Committee informed that the proposed expansion in quantity should be commenced after strengthening the approach road to the quarry as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed. Proponent submitted an undertaking for complying with the conditions stipulated by MoEF&CC OM dated: 28.04.2023.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 29,250 cum (including waste) and estimated the life of mine to be six years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 5,000 cum / Annum (including waste) for one year, with following consideration,

1. Proponent agreed to strengthen the approach road to the quarry and road connecting the crusher as per norms before commencing expansion in quantity.
2. To grow trees all along the approach road during the first year of operation.
3. To comply with the observation of KSPCB in CCR.
4. Proponent agreed to handle the waste generated by obtaining necessary permission.
5. Proponent agreed to carry out regular health checkup for the workers in the nearby Hospital.

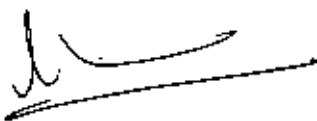

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*
4. *Since there is substantial quantity of generation of waste from the quarry activity, all due precautions with respect to environment management aspects of waste dump shall be observed.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall strengthen the approach road to the quarry and the road leading to the crusher as per standard norms.*
6. *The PP shall grow trees all along the approach road during the first year of operation.*
7. *The PP shall comply with the observation of KSPCB in CCR.*
8. *The PP shall handle the waste generated by obtaining necessary permission.*
9. *The PP shall to carry out regular health checkup for the workers in the nearby Hospital.*

245.1.93. Expansion of Building Stone Quarry Project at Uregahalli Village, Ramanagara Taluk, Ramanagara District (2-20 Acres) (QL No.0004) by Sri Chennigarayappa - Online Proposal No.SIA/KA/MIN/437016/2023 (SEIAA 450 MIN 2023)

Sri Chennigarayappa have applied for Environmental clearance from SEIAA for Expansion of Building Stone Quarry Project at In Sy No. 278 of Uregahalli Village, Ramanagara Taluk, Ramanagara District (2-20 Acres) (QL No.0004)

Details of the project are as follows:

Sl.N o	PARTICULARS	INFORMATION PROVIDED BY PF										
1	Name & Address of the Projects Proponent	Sri Chennigarayappa										
2	Name & Location of the Project	Expansion of Building Stone Quarry Project at In Sy No. 278 of Uregahalli Village, Ramanagara Taluk, Ramanagara District (2-20 Acres) (QL No.0004) <table border="1" data-bbox="831 1030 1466 1243"> <thead> <tr> <th>Latitude</th> <th>Longitude</th> </tr> </thead> <tbody> <tr> <td>N 12° 45.129"</td> <td>E77° 22.016"</td> </tr> <tr> <td>N 12° 45.052"</td> <td>E77° 21.953"</td> </tr> <tr> <td>N 12° 45.074"</td> <td>E77° 21.932"</td> </tr> <tr> <td>N 12° 45.149"</td> <td>E77° 21.994"</td> </tr> </tbody> </table>	Latitude	Longitude	N 12° 45.129"	E77° 22.016"	N 12° 45.052"	E77° 21.953"	N 12° 45.074"	E77° 21.932"	N 12° 45.149"	E77° 21.994"
Latitude	Longitude

11	CER Activities:											

Year	Corporate Environmental Responsibility (CER)	
1st	Solar Power Panels in Government higher primary school at	
2nd	Uragahalli village	
3rd	Rain water harvesting pits to GHPS at Uragahalli village	
4th	Avenue plantation either side of the approach road near Quarry site & Repair of road With drainages	
5th	Health camp in GHPS at Uragahalli village.	
12	EMP Budget	Rs.34.32 lakhs (Capital Cost) & Rs. 8.70 lakhs (Recurring cost)
13	Forest NOC	11.06.2018
14	Quarry plan	28.06.2023
15	Cluster certificate	14.07.2023
16	CCR from MS,KSPCB	20.09.2023
17	Audit Report	14.07.2023

The subject was discussed in the SEAC meeting held on 16th, 17th& 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

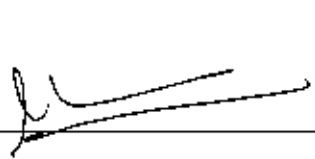

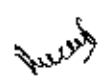

The proposal is for expansion of building stone quarry, for which EC was issued earlier by SEIAA on 19.03.2020 and lease was granted on 04.05.2020 with QL no. 0004. The Proponent submitted audit report till 2022-23 certified by DMG dated 14.07.2023 and CCR from KSPCB dated 20.09.2023.

As per the cluster sketch there are 12 other leases in a radius of 500 mtrs from the applied lease, out of which 09 leases are exempted from cluster as they were granted prior to 09.09.2013 and the total area of the remaining leases including the applied lease is 6-23 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 510 meters connecting lease area to the all-weather black topped road. The Committee informed that the proposed expansion in quantity should be commenced after asphaltting the approach road to the quarry and the road leading to crusher as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 60,88,055 tonns(including waste) and estimated the life of mine to be coterminous with lease period.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 2,04,082 tons / Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry as per norms before commencing expansion in quantity
2. To grow trees all along the approach road during the first year of operation.
3. To comply with the observation of KSPCB in CCR.
4. Proponent agreed to handle the waste generated by obtaining necessary permission.
5. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

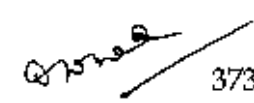

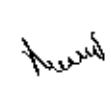

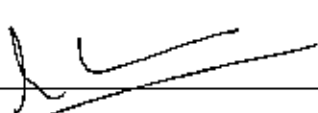

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*
6. *The PP shall grow trees all along the approach road during the first year of operation.*
7. *The PP shall comply with the observation of KSPCB in CCR.*

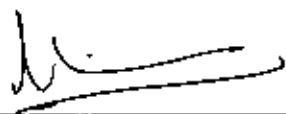

8. The PP shall handle the waste generated by obtaining necessary permission.
9. The PP shall carry out regular health checkup for the workers in the near by Hospital.

245.1.94. Ordinary Sand Quarry Project at Yadiyapura Village, Kuknoor Taluk, Koppal District (11-15 Acres) by Sri Manoj Chaganlal Bafna - Online Proposal No.SIA/KA/MIN/445512/2023 (SEIAA 454 MIN 2023)

Sri Manoj Chaganlal Bafna have applied for Environmental clearance from SEIAA for Ordinary Sand Quarry Project at Sy. Nos. 221/5, 221/6, 221/7, 221/8, 221/9, 221/10 & 221/11 of Balgeri Village and Sy. Nos. 129/5, 129/8 of Yadiyapura Village, Kuknoor Taluk, Koppal District (11-15 Acres)

Details of the project are as follows:

14	Cluster certificate	15.09.2023
15	App. Quarry Plan	13.04.2023
16	Revenue NoC	13.07.2022
18	DTF recommendation	10.11.2022

The subject was discussed in the SEAC meeting held on 16th, 17th& 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that top soil was excavated by the adjacent site as part of Krishi Honda scheme and no mining has been carried out by Proponent and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

The proposal is for ordinary sand mining and as per the cluster sketch there are 02 leases in radius of 500 mtr from the said lease and two lease with extent 6-33Acres and 9-20Acres were surrendered and closed on 22.05.2019 and 11.06.2019 respectively and the total area of the present lease is 11-15Acres and hence the project is categorized as B2. Proponent informed that as per DMG inspection letter, there is no river sand blocks in radius of 5km from the proposed area.

Handwritten signature

Handwritten signature 375

There is an existing cart track road to a length of 814 meters connecting the lease area to the all-weather black topped road. The Committee informed that the mining operation should be commenced after concreting the approach road to the quarry as per IRC norms and to strictly implement mine closure plan effectively after mining operation and to grow trees all along the approach road during the first year of operation, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 2,78,502Tons (including waste) and estimated the life of the quarry to be 5 years.

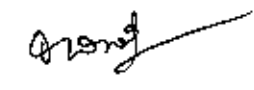

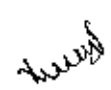

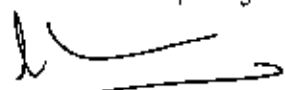

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 45,700 Tones for 1st year, 65,700 Tones for 2nd year, 50,700 Tones/annum for 3rd & 4th year and 65,702 Tones for 5th year (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry as per IRC norms
2. To implement mine closure plan effectively after mining operation by preserving top soil and reusing it for plantation after completing of mining operation.
3. To grow trees all along the approach road& buffer zone during the first year of operation and to carry out halla strengthening works.
4. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*
4. *The proponent shall furnish a certificate from competent Authority that there is no sand quarry within 5 KM of project site.*

Additional Conditions:

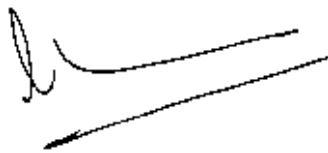

1. The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.
2. The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.
4. Dust suppression measures have to be strictly followed.
5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.
6. To implement mine closure plan effectively after mining operation by preserving top soil and reusing it for plantation after completing of mining operation.
7. The PP shall grow trees all along the approach road & buffer zone during the first year of operation and to carry out halla strengthening works.
8. The PP shall carry out regular health checkup for the workers in the near by Hospital.

245.1.95. Ordinary Sand Quarry Project at Kundanoor village, Chittapur Taluk, Kalaburagi District (5-20 Acres) by Sri Ningappa - Online Proposal No.SIA/KA/MIN/446252/2023 (SEIAA 464 MIN 2023)

Sri Ningappa have applied for Environmental clearance from SEIAA for Ordinary Sand Quarry Project at Sy. Nos.30/*/1 & 30/*/2 of Kundanoor village, Chittapur Taluk, Kalaburagi District (5-20 Acres)

Details of the project are as follows:

The subject was discussed in the SEAC meeting held on 16th, 17th& 18thOctober 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that the proposed area is a fresh land and no mining has been carried out by

Proponent till date and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

The proposal is for ordinary sand mining and as per the cluster sketch there is no lease in a radius of 500 mtr from the said lease and the total area of the present lease is 5-20 Acres and hence the project is categorized as B2. Proponent informed that District Task Force Committee after considering the pre-feasibility report and replenishment studies in view of river sand mining with 5km radius, there are no river sand blocks in radius of 5km from the proposed area had recommended the proposal.

There is an existing cart track road to a length of 950 meters connecting the lease area to the all-weather black topped road. The Committee informed that the mining operation should be commenced after asphaltting the approach road to the quarry as per IRC norms and to strictly implement mine closure plan effectively after mining operation and to grow trees all along the approach road during the first year of operation, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mincable reserve of 79,247Tons (including waste) and estimated the life of the quarry to be 5 years.

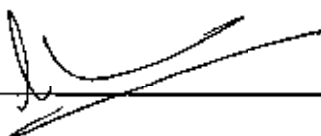

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 15,849 Tonns/annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry as per IRC norms
2. To implement mine closure plan effectively after mining operation by preserving top soil and reusing it for plantation after completing of mining operation.
3. To grow trees all along the approach road & buffer zone during the first year of operation and to carry out halla strengthening works.
4. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life*

Handwritten mark

Handwritten signature and number 379

Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).

2. Safety measures proposed shall be submitted.
3. A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.
4. The proponent shall furnish a certificate from competent Authority that there is no sand quarry within 5 KM of project site.

Additional Conditions:

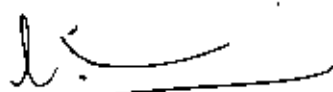

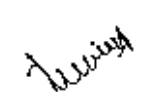

1. The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.
2. The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.
4. Dust suppression measures have to be strictly followed.
5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.
6. The PP shall implement mine closure plan effectively after mining operation by preserving top soil and reusing it for plantation after completing of mining operation.
7. The PP shall grow trees all along the approach road & buffer zone during the first year of operation and to carry out halla strengthening works.
8. The PP shall carry out regular health checkup for the workers in the near by Hospital.

245.1.96. Pink Granite Quarry Project at Balakundi Village, Ilkal Taluk, Bagalkot District (2.023 Ha) by Sri Yamanappa S Hoolageri - Online Proposal No.SLA/KA/MIN/448497/2023 (SEIAA 135 MIN 2023)

Sri Yamanappa S Hoolageri have applied for Environmental clearance from SEIAA for Pink Granite Quarry Project at Sy. Nos. 266/2 & 266/5 of Balakundi Village, Ilkal Taluk, Bagalkot District (2.023 Ha)

Details of the project are as follows:

Sl.No.	PARTICULARS	INFORMATION PROVIDED BY PP
1	Name & Address of the Projects Proponent	Sri Yamanappa S Hoolageri

11	CER Activities:		
	Year	Corporate Environmental Responsibility (CER)	
	1st	Providing solar power panels to the GLPS school at Hosur village	
	2nd	The proponent proposes to distribute nursery plants at Hosur village & Strengthening of approach road	
	3rd	Rain water harvesting pits to the GLPS school at Hosur village	
	4th	Avenue plantation either side of the approach road near Quarry site & Repair of road with drainages	
5th	Health camp to the GLPS school at Hosur village		
12	EMP Budget	Rs.37.72 Lakhs (Capital Cost) & Rs.11.49 Lakhs (Recurring cost)	
13	Forest NOC	22.06.2021	
14	Cluster certificate	06.03.2023	
15	Revenue NOC	09.08.2021	
16	Quarry plan	06.03.2023	
17	DTF	27.06.2022	
18	C & I Notification	01.02.2023	

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that as per the historical google images no working is observed in the site area and as no mining has been carried out by Proponent, hence justified that the proposed project does not attract violation. The Committee noted the clarification.

The proposal is for building stone quarry for which SEIAA had issued ToR on 8.05.2023 and public hearing was conducted on 02.09.2023, where opinions/requests of four people have been recorded in public hearing report.

There is an existing cart track road to a length of 210 meters connecting lease area to the all-weather black topped road. The Committee informed that the mining operation should be commenced after asphaltting the approach road to the quarry as per IRC norms and to grow trees all along the approach road during the first year of operation and to comply with the request of public expressed during public hearing, to which the Proponent agreed.

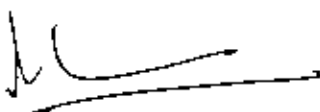

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 7,62,748.4 cum (including waste) and estimated the life of the quarry to be co-terminus with lease period.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production 10,000 cum / Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry as per IRC norms
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to comply with the request of public, expressed during public hearing.
4. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

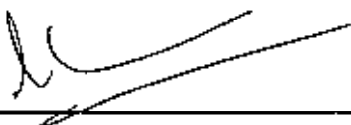

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*
4. *Since there is substantial quantity of generation of waste from the quarry activity, all due precautions with respect to environment management aspects of waste dump shall be observed.*

Additional Conditions:

1. *The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
2. *The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
3. *The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
4. *Dust suppression measures have to be strictly followed.*
5. *The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*
6. *The PP shall grow trees all along the approach road during the first year of operation.*
7. *The PP shall comply with the opinion of public, expressed during public hearing.*
8. *The PP shall carry out regular health checkup for the workers in the near by Hospital.*

245.1.97. Expansion of Devalapur Quartz Mine Project at Devalapur Village, Kampli Taluk, Ballari District (12-00 Acres) (ML No. 2300) by Sri Allum Prashant - Online Proposal No.SIA/KA/MIN/438799/2023 (SEIAA 476 MIN 2023)

Sri Allum Prashant have applied for Environmental clearance from SEIAA for Expansion of Devalapur Quartz Mine Project at Sy. No. 96 of Devalapur Village, Kampli Taluk, Ballari District (12-00 Acres) (ML No. 2300)

Details of the project are as follows:

14	Quarry plan	09.08.2023
15	Cluster certificate	31.08.2023
16	CCR from, KSPCB	30.09.2023

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for expansion of building stone quarry, for which the lease was in effect from 20.03.2001 with QL No. 2300 and for which EC was issued earlier by SEIAA on 07.01.2019. The Proponent submitted audit report till 2022-23 certified by DMG and CCR from KSPCB dated 30.09.2023.

As per the cluster sketch there is no lease within 500mtr from the said lease and total area of the applied lease is 12-00Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 642 meters connecting lease area to the all-weather black topped road. The Committee informed that the proposed expansion in quantity should be commenced after asphaltting the approach road to the quarry as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed.

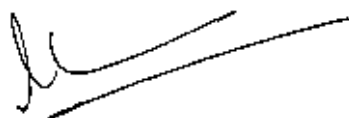

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan with proved mineable reserve of 6,93,600Tones (including waste) and estimated the life of mine to be 6 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 60,000Tones/ Annum of (including waste) of high grade and 60,000Tones/ Annum of (including waste) of low grade, with following consideration,

1. Proponent agreed to asphaltting the approach road to the quarry as per norms before commencing expansion in quantity.
2. To grow trees all along the approach road during the first year of operation.
3. To comply with the observation in CCR issued by KSPCB.
4. Proponent agreed to carry out regular health checkup for the workers in the nearby Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

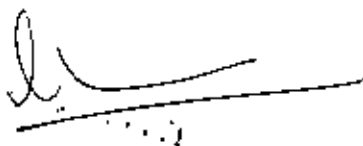

- 1. If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
- 2. Safety measures proposed shall be submitted.*
- 3. A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*
- 4. Since there is substantial quantity of generation of waste from the quarry activity, all due precautions with respect to environment management aspects of waste dump shall be observed.*

Additional Conditions:

- 1. The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
- 2. The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
- 3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
- 4. Dust suppression measures have to be strictly followed.*
- 5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*
- 6. The PP shall grow trees all along the approach road during the first year of operation.*
- 7. The PP shall comply with the observation in CCR issued by KSPCB.*
- 8. The PP shall carry out regular health checkup for the workers in the nearby Hospital.*

245.1.98. Building Stone Quarry Project at Jekinakatti Village, Savanur Taluk, Haveri District (2-00 Acres) by Sri Sayidabanu Pathan - Online Proposal No.SIA/KA/MIN/448519/2023 (SEIAA 480 MIN 2023)

Sri Sayidabanu Pathan have applied for Environmental clearance from SEIAA for Building Stone Quarry Project at Sy. No.64/5 of Jekinakatti Village, Savanur Taluk, Haveri District (2-00 Acres)

Details of the project are as follows:

Sl. No	PARTICULARS	INFORMATION PROVIDED BY PP												
1	Name & Address of the Projects Proponent	Sri Sayidabanu Pathan												
2	Name & Location of the Project	Building Stone Quarry Project at Sy. No.64/5 of Jekinakatti Village, Savanur Taluk, Haveri District (2-00 Acres) <table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th>Latitude</th> <th>Longitude</th> </tr> </thead> <tbody> <tr> <td>N 15° 3' 21.84"</td> <td>E 75° 16' 58.55"</td> </tr> <tr> <td>N 15° 3' 21.59"</td> <td>E 75° 16' 57.81"</td> </tr> <tr> <td>N 15° 3' 17.31"</td> <td>E 75° 16' 58.22"</td> </tr> <tr> <td>N 15° 3' 16.20"</td> <td>E 75° 17' 1.50"</td> </tr> </tbody> </table>	Latitude	Longitude	N 15° 3' 21.84"	E 75° 16' 58.55"	N 15° 3' 21.59"	E 75° 16' 57.81"	N 15° 3' 17.31"	E 75° 16' 58.22"	N 15° 3' 16.20"	E 75° 17' 1.50"

14	Quarry plan	10.10.2023
15	Cluster certificate	13.10.2023
16	Revenue	21.07.2022
17	Notification	26.09.2023

The subject was discussed in the SEAC meeting held on 16th, 17th& 18thOctober 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

As per the cluster sketch there is no lease within 500mtr from the said lease and total area of the applied lease is 2-00 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 250meters connecting lease area to the all-weather black topped road. The Committee informed that the production should be commenced after asphaltting the approach road to the quarry and road leading to crusher as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan, with proved mineable reserve of 8,03,985tons(including waste) and estimated the life of mine to be co-terminus with lease period.

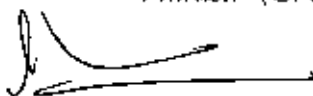

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 26,316 tonns/Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to handle the waste generated by obtaining necessary permission.
4. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the*

7/11/23

proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Big sphere reserve/migratory corridor).

2. Safety measures proposed shall be submitted.
3. A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.

Additional Conditions:

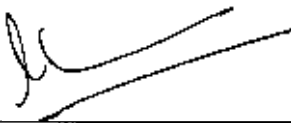

1. The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.
2. The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.
3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.
4. Dust suppression measures have to be strictly followed.
5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.
6. The PP shall grow trees all along the approach road during the first year of operation.
7. The PP shall handle the waste generated by obtaining necessary permission.
8. The PP shall carry out regular health checkup for the workers in the near by Hospital.

245.1.99. Building Stone Quarry Project at Sagadageri Village, Ankola Taluk, Uttara Kannada District (2-12 Acres) by Sri Raghavendra Nayak - Online Proposal No.SIA/KA/MIN/449215/2023 (SEIAA 493 MIN 2023)

Sri Raghavendra Nayak have applied for Environmental clearance from SEIAA for Building Stone Quarry Project at Sy. Nos. 43A/4 & 149/2 of Sagadageri Village, Ankola Taluk, Uttara Kannada District (2-12 Acres)

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION PROVIDED BY PP
1	Name & Address of the Projects Proponent	Sri Raghavendra Nayak
2	Name & Location of the Project	Building Stone Quarry Project at Sy. Nos. 43A/4 & 149/2 of Sagadageri Village, Ankola Taluk, Uttara Kannada District (2-12 Acres)

17	Notification	08.09.2023
----	--------------	------------

The subject was discussed in the SEAC meeting* held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification with respect to the present site condition based on the KML submitted by Proponent. The Proponent informed the Committee that the proposed land is fresh land and no mining has been carried out by Proponent till date and hence justified that the proposed project does not attract violation. The Committee noted the clarification.

As per the cluster sketch there is no lease within 500mtr from the said lease and total area of the applied lease is 2-12 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 227 meters connecting lease area to the all-weather black topped road. The Committee informed that the production should be commenced after asphaltting the approach road to the quarry and road leading to crusher as per IRC standard norms and to grow trees all along the approach road, for which the Proponent agreed.

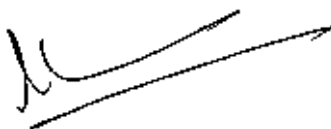

The Proponent has collected baseline data of air, water, soil and noise which are all within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan, with proved minable reserve of 10,63,132 tons (including waste) and estimated the life of mine to be 21 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 51,020 tons/Annum (including waste), with following consideration,

1. Proponent agreed to asphalt the approach road to the quarry and road connecting the crusher as per IRC norms.
2. To grow trees all along the approach road during the first year of operation.
3. Proponent agreed to handle the waste generated by obtaining necessary permission.
4. Proponent agreed to carry out regular health checkup for the workers in the near by Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

 391

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

- 1. If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
- 2. Safety measures proposed shall be submitted.*
- 3. A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

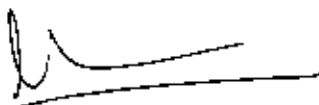

Additional Conditions:

- 1. The PP should get the health check-up done for the quarry workers on half yearly basis and submit report periodically.*
- 2. The PP shall provide protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects.*
- 3. The PP shall provide proper sanitary facilities for the colony/work place. Domestic waste generated should be disposed in a scientific manner. Proper first aid facilities and health care facilities should be provided for the workers.*
- 4. Dust suppression measures have to be strictly followed.*
- 5. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.*
- 6. The PP shall grow trees all along the approach road during the first year of operation.*
- 7. The PP shall handle the waste generated by obtaining necessary permission.*
- 8. The PP shall carry out regular health checkup for the workers in the near by Hospital.*

Industry Projects:

245.1.100. Proposed Mineral Beneficiation of 1.25 MTPA Iron and 0.15 MTPA of Manganese Ore of Emmihatti Village, Sandur Taluk, Ballari District by M/s. Taanish Resources Private Ltd. (TRPL) - Online Proposal No.SIA/KA/IND1/441114/2023 (SEIAA 45 IND 2023)

M/s. Taanish Resources Private Limited have applied for Environmental clearance from SEIAA for Proposed Mineral Beneficiation of 1.25 MTPA Iron and 0.15 MTPA of Manganese Ore of Emmihatti Village, Sandur Taluk, Ballari District

Details of the project are as follows:

Sl.No.	PARTICULARS	INFORMATION PROVIDED BY PP
1	Name of the project proponent:	M/s. Taanish Resources Private Limited
2	Name & Location of the project:	Mineral Beneficiation Plant at Emmihatti Village, Sandur Taluq, Ballari District,
3	New/expansion/modification / product mix change:	New Category 2(b) as per EIA Notification 2006
4	Capacity	1.25 MTPA of Iron Ore 0.15 MTPA Manganese ore
5	Plot Area	10.66 Ha.
6	Built Up Area	NA
7	Land use pattern Green Belt Coverage - % of total area (trees proposed) Ground Cover area Kharab Others.	Green Belt - 3.88 Ha. (36.36% of total project area) 9750 plants are proposed
8	Project Cost	2425 Lakhs
9	Component of development:	Mineral Beneficiation Plant
10	Source of water -operational phase:	Bore wells - 3 Nos
11	Total Water Requirement (Domestic & Industrial) in KLD	6218 KLD
12	Fresh Water in KLD Recycled water in KLD	Fresh water requirement - 300 KLD Recycled water - 5918
13	Total waste water generation in KLD	8 KLD
14	Total effluents generation in KLD	No effluents generated
15	Scheme of disposal of excess treated water	There will be no discharge of industrial wastewater from the project.
16	Quantity of Tailings and its management	About 14% of tailing waste will be generated during the process, of which about 1,64,582 TPA will be Iron Ore tailings and 33,711 TPA will be Mn ore tailings, i.e. total tailings generated will be 1,98,293 TPA. Management: The ore tailings from the beneficiation plant will be thickened in the thickener wherein separable water will be separated

Handwritten mark

Handwritten mark 398

		<p>out using hydro-electrolytes. The resultant moisture rich Iron ore tailings will be pumped to the tailing sludge bay, wherein the tailings will be filter pressed, to separate the excess amount of water from the tailing sludge. The water will be pump back for the process. The dried iron tailings will be sent to cement industries for cement manufacturing and to brick manufacturers for making of bricks. No solid waste will be stocked at the project site for a longer period. Whereas, the dried Mn ore tailings will be used by brick manufacturing and stabilized mining ore blocks manufacturing, industries. The Mn-rich tailings will also be used in agro-forestry, building and construction materials, coatings, cast resin products, glass, ceramics and glazes. The tailings of the Iron ore and Manganese ore are sold / given free (as per the agreement) to the Cement and Tile / Brick Industries nearby the plant area (30km radius).</p>
17	ETP Capacity	-
18	STP Capacity	10 KLD STP
19	Waste Generation& its Disposal	<p>The dried iron tailings will be supplied to cement industries in manufacturing of cement and in Brick Manufacturing.</p> <p>The dried Mn ore tailings will be supplied for Brick manufacturing and Stabilized Mining ore block, other manufacturing industries. Also Mn-rich tailings will be used in agro-forestry, building and construction materials, coatings, cast resin products, glass, ceramics and glazes.</p> <p>Hazardous Waste: As per Authorization for operating facility for collection, disposal, generation, reception, storage of Hazardous wastes under Hazardous Wastes (Management, Handling and Transboundary Movement) Rules 2016,</p>

	<p style="text-align: center;">20</p>	<p>used oil will be auctioned to parties authorized by Karnataka State Pollution Control Board (KSPCB). Authorization letter from KSPCB for Hazardous Wastes collection, disposal, generation, reception and storage will be obtained for the project during consent to operate stage.</p> <p>Battery Waste: The new Battery Waste Management Rules, 2022 functions on the concept of Extended Producer Responsibility (EPR), where the producers (including importers) of batteries are responsible for collection and recycling / refurbishment of waste batteries and use of recovered materials from wastes into new batteries. As per new rules lead acid battery will be auctioned to parties authorized by producers / KSPCB for recycling/refurbishment. Authorization letter from KSPCB for Battery Waste Management will be obtained by the project during consent to operate stage</p> <p>Electronic Waste: As per e-waste (Management) Rules 2016 (amended 2018), e-waste will be auctioned to parties authorized by KSPCB. Authorization letter from KSPCB for Electronic Waste Management will be obtained during the consent to operation stage of the project.</p>
<p>20</p>	<p>Source of AIR POLLUTION SOURCES & CONTROL MEASURES</p>	<p><u>Construction Phase</u> Emissions from Civil activities, Vehicular emissions and Construction stockpiles & batters may cause nuisance to local people and surroundings. Construction activities will be completed in 6 months thus the pollutant generated during construction will be for shorter duration and impacts on the environment will be of lesser consequence.</p> <p><u>Operational Phase</u></p>

Handwritten mark

395

		<p>Dust / PM, SO₂ & NO₂ generation during project process (Grinding & screening / Transfer of material & storage / handling of raw material and product / DG set operation during power failure): PM & gaseous emission may deteriorate AAQ in the surrounding area leading to respiratory and related diseases. Dust / PM may deteriorate the aesthetic quality of life. PM may get deposited on nearby water body leading to affecting the sunlight penetration in the water body vis-a-vis bio-productivity.</p> <p><u>Control Measures</u></p> <ul style="list-style-type: none"> ➤ Dust extraction system will be provided in the process building. ➤ All the transfer points, (screen feed and discharge points) will be covered by suction hoods attached through ducts to bag filters for dust extraction. ➤ The suction hood will extract the dust through ID Fan / Bag filter combination and the clean air will be let out from the attached chimney. ➤ Dust suppression using fine spray of water and dust suppressant chemicals at conveyor feed / discharge/transfer points. ➤ Covered conveyors envisaged. ➤ Dust generation during grinding and screening process will be minimal as the entire beneficiation process is wet process. ➤ The dust emissions during transfer of material and during storage / handling of raw material will be controlled by regular water sprinkling; ➤ Periodical watering of all raw materials and products and particularly before handling.

[Handwritten signature]

[Handwritten signature] 396

		<ul style="list-style-type: none"> ➤ Trucks carrying raw materials and products will be covered with tarpaulin sheets. ➤ Regular maintenance of vehicles and plant machinery will be carried out; ➤ All the roads will be paved; ➤ Dense greenbelt will be developed around the dust generation points; ➤ Trees will be planted on both sides of within plant roads used for transportation in order to arrest dust
	<p>Source of Noise pollution & Control measures</p>	<p><u>Construction Phase</u> The operation of construction equipment / vehicle movement will generate noise level ranging between 75 to 90 dB (A). However, this noise level will be near the source only and is not expected to create any noise pollution problem outside the plant premises</p> <p><u>Operational Phase</u> The noise level within the plant boundary is confined within shops / units. The level is further minimized when the noise reaches the plant boundary and to the nearest residential areas beyond the plant boundary.</p> <p><u>Control Measures</u></p> <p>Selection of low noise equipment. So that the sound pressure level exposure in working areas do not exceed 85 dBA (A) at 1m as per the requirement of Occupational Safety and Health Administration Standard (OSHA).</p> <p>Reducing vibration of high-speed rotating machines by regular monitoring of vibration and taking necessary steps</p> <p>Using a rubber liner bonded to the inner surface in the grinding unit.</p>

Levy

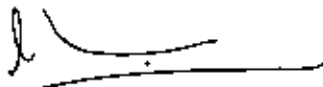

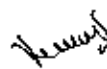

2023-11-07 397

		<p>Use of synthetic screen surface, rubber and polyurethane to effectively reduce noise level while offering exceptional resistance to abrasion.</p> <p>Noise absorber systems in pump houses.</p> <p>Using fans designed for minimum vibration.</p> <p>Periodical monitoring of work zone noise and outside plant premises.</p>
22	CER Activities	To fulfil the request/response to public demand during EPH, which will be spent over five years (starting with FY 2023- 24)
23	EMP Construction Operation.	<p>EMP Implementation in operation phase</p> <p>Capital Cost - 34 Lakhs</p> <p>Recurring Cost -87.25 Lakhs per annum</p>

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for establishment of 1.25 MTPA capacity iron ore and 0.15MTPA capacity manganese ore beneficiation plant in land which is converted for industrial purpose. ToR was issued by MoEF&CC on 03.06.2022 and public hearing was conducted on 21.02.2023, where opinions/requests of twenty-nine people had been recorded in public hearing report. The proponent informed the Committee that that EAC had inspected the proposed site area and forest officials accompanied the EAC Sub-Committee have informed that proposed land does not involve any notified forest nor any forest land was encroached. The Proponent informed that the proposed site area is at a distance of 7km outside ESZ of Daroji WLS and around 30km from Gudekote Sloth bear sanctuary and informed that there was no schedule I species were observed within the site area.

During the appraisal, the committee sought clarification for source of water and raw material, disposal of tailings, mitigation measures for fugitive emission and details drain as per village map. The proponent informed the committee that source of water is through bore wells and as per the hydrogeological reports they have sufficient quantity of water to operate and also had applied for KGWA for permission. For raw materials, proponent informed that low grade Fe ore and Mn ore would be purchased through e-auction. The tailings of about 13% to be stored separately in tailing pond with linings

and after dewatering, and the dried iron tailings will be supplied to cement industries in manufacturing of cement and in Brick Manufacturing and the dried Mn ore tailings will be supplied for Brick manufacturing and Stabilized Mining ore block, other manufacturing industries and Mn-rich tailings to be used in agro-forestry, building and construction materials, coatings, cast resin products, glass, ceramics and glazes.

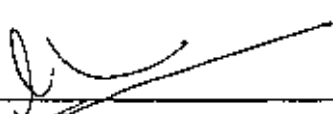

For handling fugitive emission, Proponent informed that they will install dust extraction system in process building and transfer points will be covered by suction hoods with bag filters for dust extraction and the suction hood to extract the dust through ID fan/bag filter combination and the clean air will be let out from the chimney. Further, dust suppression using fine spray of water and dust suppressant chemical at conveyour feed / discharge / transfer point, conveyor to be covered, as the process is wet process dust generation during grinding and screening is minimal, all the internal road to be paved, dense green belt around the project area. Regarding drain as per village map, Proponent informed that there is existing Highway in the area shown as drain in village map.

The proponent has collected baseline data of air, water, soil and noise and all are within the permissible limits. The proponent committed to take precautionary measures during and after construction to maintain the environmental parameters within permissible limits in the proposed project and agreed to comply with the statutory guidelines for the proposed construction/operation and adhere to the by-laws stipulated by the governing authority for buffers and setbacks. The committee informed the proponent to concrete the approach road and stock yard as per standard norms & would grow trees all along the approach road/boundary of the project for which the proponent agreed.

The committee noted that the baseline parameters are found to be within permissible limits and informed the proponent to leave buffers/setbacks as per zoning regulations and to harvest maximum rainwater in the proposed project area to reduce dependency on groundwater.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance, with following consideration,

1. Proponent agreed to concrete the approach road and stock yard as per standard norms
2. To grow trees all along the project boundary and approach road during the first year
3. Proponent agreed to comply with the request of public, expressed during public hearing.
4. Proponent to adhere to the mitigation measures submitted for handling fugitive emissions.
5. Proponent agreed to carry out regular health checkup for the workers in the nearby Hospital.

leaf

399

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*
4. *With regard to source of water i.e Borewell, a Prior permission shall be obtained from the concerned regulatory authority/CGWA.*

Additional Conditions:

1. *The PP shall concrete the approach road and stock yard as per standard norms*
2. *The PP shall grow trees all along the project boundary and approach road during the first year*
3. *The PP shall comply with the opinion of public, expressed during public hearing.*
4. *The PP shall adhere to the mitigation measures submitted for handling fugitive emissions.*
5. *The PP shall carry out regular health checkup for the workers in the nearby Hospital.*

245.1.2. Expansion of cement manufacturing unit Project at Yadwada Post, Mudalagi Taluk, Belagavi District by M/s. Rathna Cements (Yadwad) Ltd.- Online Proposal No.SIA/KA/IND1/410237/2023 (SEIAA 10 IND 2023)

M/s. Rathna Cements (Yadwad) Ltd have applied for Environmental clearance from SEIAA for "Expansion of Cement manufacturing unit to increase the production capacity of clinker from 450 TPD to 850 TPD and Cement from 450 TPD to 2000 TPD" at Yadwada Post, Mudalagi Taluk, Belagavi District.

Details of the project are as follows:

Sl. No	Particulars	Information Provided by PP
1	Name & Address of the Project Proponent	Mr. Ramesh B Birdar Survey No.251, Yadwad Post, Mudalagi Taluk, Belagavi District, Karnataka - 591136

17	DG Set-500KVA	7 m ARL	PM, SO ₂ , NO _x	-	Acoustic Enclosures

Construction Phase:

- Trucks carrying earth, sand or stone will be covered with tarpaulin to avoid spilling.
- Water Sprinkling during construction activity.
- Erecting Compound wall around construction areas.

Operation Phase:

- The emissions from the mill and conveyors will be extracted through dust collector system and finally through bag filters.
- Will handle all the raw materials and finished products in the closed ducts and spaces.
- Bag type Dust collector, Closed type with Dust collector & adequate Stack/Chimney as per KSPCB norms will be provided.
- Green belt by planting three rows of trees all along the periphery of the project site
- DG set will be used as stand-by power supply unit.
- Periodic check and maintenance of vehicles will be done.

16	NOISE POLLUTION SOURCES & CONTROL MEASURES				
	a	Sources of Noise pollution	D G SETS- Existing- 1X125 KVA Proposed- 1X500 KVA

20	EMP Operation,Phase	Total cost of Environmental Management Plan - 801.49 lakhs (Capital cost- 748.49 lakhs & Recurring cost- 53 lakhs)		

The subject was discussed in the SEAC meeting held on 16th, 17th& 18thOctober 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for expansion of cement and clinker manufacturing unit from 450TPD to 2,000TPD of cement and 450TPD to 850 TPD of clinker. The Proponent informed the Committee that the existing industry was established in 1997, but as was exempted from EIA Notification 1994, as the cost of the project was less than 50Crores and had obtained CFO from KSPCB in 1999 for production of 450TPD of cement and clinker and presently the industry has valid CFO issued from KSPCB on 06.12.2021. ToR was issued by SEIAA on 27.02.2023 and Public Hearing was conducted on 30.08.2023, where opinions/requests of sixpeople had been recorded in public hearing report.

The Committee during appraisal sought details material balance for cement and clinker, emission details, existing production as per CFO and source of water. The Proponent submitted the following material balance for cement and clinker.

MATERIAL BALANCE FOR CLINKER

Sl. no	Input raw material	Quantity in MTPA	Specific Consumption in%	Output material	TPD	Quantity in MTPA
1	Lime stone	4,67,813	95.00	Clinker	850	3,06,000
2	Iron Ore	4,774	1.00			
3	Laterite	4,774	1.00			
4	Coal	47,520	800 Kcal/kg			
	Total	5,24,880		Total		3,06,000

MATERIAL BALANCE FOR CEMENT

CEMENT OPC-43 GRADE

Sl. no	Input raw material	Quantity in TPA	Specific Consumption in%	Output material	TPD	Quantity in TPA
1	Clinker	6,91,200	96	Cement	2000	7,20,000
2	Gypsum	28,800	4			
	Total	7,20,000				7,20,000

CEMENT PPC

Sl. no	Input raw material	Quantity in TPA	Specific Consumption in%	Output material	TPD	Quantity in TPA
1.	Clinker	4,73,200	66	Cement	2000	7,20,000
2.	Gypsum	28,800	4			
3.	Fly Ash	2,16,000	30			
	Total	7,20,000				7,20,000

The details of source of emission and its control measures,

EMISSION DETAILS OF EXISTING AND PROPOSED FACILITY

Sl. No.	Source of air Pollution	Chimney height (m)	Constituents to be controlled	Tolerance Limits (mg/Nm ³)	Air pollution control equipment
Existing					
1	Primary limestone Crusher - 160 TPH	--	SPM	30	Dust collector & water sprinkling
2	Secondary Stone Crusher - 75 TPH	3 m ARL	SPM	30	Bag Filter
3	Storage Silo	45 m AGL	SPM	30	Pulsejet bag type dust collector
4	Raw mill preheater/Rotary kiln	60 m GL	SPM	30	Electrostatic Precipitator (ESP)
5	Coal mill	30 m AGL	SPM	30	Bag filter
6	Cement mill	24 m AGL	SPM	30	Bag dust collector
7	Clinker cooler	25 m AGL	SPM	30	ESP
8	Cement packing section	18.5 m AGL	SPM	30	Bag dust collector
9	Kiln feed	22 m AGL	SPM	30	Bag dust collector
10	Cement Storage Silo	22 m AGL	SPM	30	Bag dust collector
Proposed					
1	RCL	76 m AGL	PM	30	Bag Filter
2	Connected to preheater		NOX SO2		
3	Cement mill	24 m AGL	SPM	30	Bag Filter
4	Cooler	25 m AGL	SPM	30	Bag Filter
5	Coal mill	35 m AGL	SPM	30	Bag Filter

Further, the Proponent regarding the permitted production as per CFO informed the Committee that they had obtained corrigendum to CFO from KSPCB on 08.05.2023, informing that the CFO is issued for production of cement of capacity 13,500TPM (450TPD) and submitted undertaking that the production of cement & clinker had not crossed 450TPD from the beginning of the plant. The Proponent informed that the initially clinker was produced for captive consumption and from 2019 till present clinker is purchased from nearby cement plants.

The Committee informed the Proponent to comply with the request of public expressed during public hearing, to which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise and informed that all are within permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

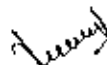

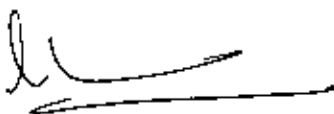

The Committee noted that the baseline parameters are found to be within permissible limits and the Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance, with following consideration,

1. To grow additional trees within the site area and all along the approach road during the first year of operation.
2. Proponent agreed to comply with the request of public, expressed during public hearing.
3. Proponent agreed to carry out regular health checkup for the workers in the nearby Hospital.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*
4. *With regard to source of water i.e Borewell, a Prior permission shall be obtained from the concerned regulatory authority/CGWA.*

Additional Conditions:

1. The PP shall grow additional trees within the site area and all along the approach road during the first year of operation.
2. The PP shall comply with the opinion of public, expressed during public hearing.
3. The PP shall carry out regular health checkup for the workers in the nearby Hospital.
4. The PP shall inter lock all the air pollution control devices (ESP dust collector, Bag filters etc) to the respective process so that whenever there is a malfunction or breakdown in the operation of air pollution control device the respective process is also shutdown.
5. All air pollution control devices should have an annual third party inspection and evaluation of its performance and the reports of third party evaluation should be submitted to pollution control board.
6. The PP shall provide online emission monitoring system for all the stacks connected to different process of the industry.
7. There shall be proper upkeep of the plant premises to ensure that there is no redisperssion of settled fugitive dust.
8. The project proponent shall examine the feasibility of providing the external coating to the kiln in order to prevent transfer of heat from the kiln surface to prevent or reduce exposure to thermal radiation for the personnel working in kiln area.

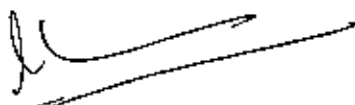

245.2. Recommended by SEAC for Closure,

245.2.1. Redevelopment of KSRTC Bus Stand in Davanagere City (Under Davanagere Smart City mission) at CTS Nos. 1102/, 1102/3 & 1098/1 of Davanagere City, Davanagere Taluk & District by Divisional Controller KSRTC Davanagere Division - Online Proposal No.SIA/KA/INFRA2/414230/2023 (SEIAA 52 CON 2023)

Divisional Controller KSRTC Davanagere Division have applied for Environmental clearance from SEIAA for Redevelopment of KSRTC Bus Stand in Davanagere City (Under Davanagere Smart City mission) at CTS Nos. 1102/, 1102/3 & 1098/1 of Davanagere City, Davanagere Taluk & District

The subject was discussed in the SEAC meeting held on 16th, 17th & 18th October 2023. The Committee has recommended to SEIAA for reject the proposal and the extract of the proceedings of the Committee meeting is as below:

The Committee initially sought clarification for the present site condition. The Proponent informed the Committee that the project is being considered under Smart City Project and as the initial redevelopment project consisted BUA of not exceeding 20,000 Sqm and on the basis of the initial conceptual plan, they had started the construction work, as the above project is time-bound project and delay causes public

inconvenience. Later the plan was revised for BUA of 31,170Sq^m and in the mean while they had constructed BUA less than 20,000Sq^m as on date, the Proponent requested to the Committee to consider the application for grant of EC.

The Committee noted the clarification. The Proponent did not submit approved plan with BUA less than 20,000Sq^m, justifying the claim for the already constructed building, the Committee after discussion decided that the proposal is a violation of EC as per the provisions in EIA Notification 2006 and informed the Proponent to apply under violation category as per the Provisions in MoEF&CC OM dated 07.07.2021 and rejected the present proposal.

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to close the file and delist the file from the pendency.

245.3. Additional Agenda : With Permission of Chair

Reconsidered Project:

245.3.1 Building Stone Quarry Project at Mudagal Village, Lingasugur Taluk, Davanagere District (3-19 Acres) by Sri Sharanagouda Patil - Online Proposal No.SIA/KA/MIN/418698/2023 (SEIAA 88 MIN 2023)

Sri Sharanagouda Patil have applied for Environmental clearance from SEIAA for quarrying of Building Stone Quarry Project at In Sy No. 454/*/3, Mudagal Village, Lingasugur Taluk, Davanagere District

Details of the project are as follows:

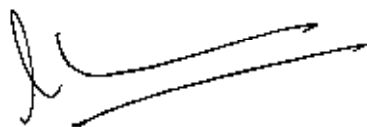

Sl.No.	PARTICULARS	INFORMATION SUBMITTED BY P.P.												
1	Name & Address of the Projects Proponent	Sri Sharanagouda Patil

16	Revenue NOC	13.09.2021												
17	Notification	09.01.2023												
18	DTF	05.11.2022												

The subject was discussed in the SEAC meeting held on 14th& 15th March 2023. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

As per the cluster sketch there are 03 other leases in a radius of 500 mtr from the said lease and 01 lease is exempted from cluster as EC was granted prior to 15.01.2016 and the total area of the remaining leases including the present lease is 12-09 Acres and hence the project is categorized as B2.

Handwritten signature

Handwritten signature

There is an existing cart track road to a length of 530 meters connecting lease area to the all-weather black topped road and the Committee informed that the production should be commenced after asphaltting the approach road to the quarry and the road connecting to the crusher as per IRC standard norms and should grow trees all along the approach road, for which the Proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise and all are within the permissible limits. The Proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

The Committee noted that the baseline parameters are found to be within permissible limits and agreed with the approved quarry plan, with proved mineable reserve of 22,58,653 tons (including waste) and estimated the life of mine to be 30 years.

The Committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 76,531 tons/ Annum (including waste), with following additional points,

1. To asphalt the approach road to the quarry as per IRC norms
2. To grow trees all along the approach road during the first year of operation.

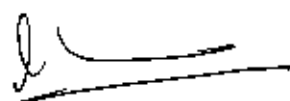

The Authority perused the proposal and took note of the recommendation of SEAC.

The Authority after discussion decided to reconsider the project proposal after receipt of the following information:

1. *The PP Shall submit extended cluster certificate from concerned Senior Geologist.*
2. *As per the photos uploaded in quarry plan there seems to be some kind of dump in the site.*
3. *As per the Google image there is a dump inside the site towards the northern side which needs to be clarified.*
4. *It appears that the site is also worked towards the south east boundary.*

The project proponent submitted the reply vide letter dated 19.10.2023. the Authority perused the reply submitted by the project proponent and after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the*

proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/migratory corridor).

2. Safety measures proposed shall be submitted.
3. A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.

Additional Conditions:

1. The PP shall grow trees all along the approach road during the first year of operation.
2. The PP shall maintain and upkeep the approach road so as to ensure dust pollution.

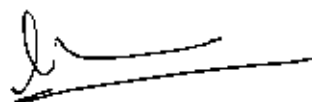

245.3.2 Iron Ore Mine Project at Malagolla Village, Sandur Taluk, Ballari District (21.61 Ha) (M.L.No.2313) by M/s. JSW STEEL LIITED - Online proposal number - SIA/KA/MIN/68247/2018 (SEIAA 63 MIN (VIOL) 2018)

M/s. JSW STEEL LIITED have applied for Environmental clearance from SEIAA for quarrying of "NANDI IRON ORE MINE" (ML No -0005), Extent 21.03 Ha, Kumarswamy Range Reserved Forest, Malagolla Village, Sandur Taluk, Ballari District

Details of the project are as follows:

Sl. No	PARTICULARS	INFORMATION
1	Name & Address of the Project Proponent	NANDI IRON ORE MINE M/s. JSW STEEL Ltd. JSW Mining Office, Near Talur Cross, Toranagallu, Sandur Taluk, Ballari District
2	Name & Location of the Project	"NANDI IRON ORE MINE" (ML No -0005), Extent 21.03 Ha, Kumarswamy Range Reserved Forest, Malagolla Village, Sandur Taluk, Ballari District
3	Type of Mineral	Iron Ore
4	New /expansion/modification /renewal	Expansion
5	Type of Land [Forest, Government Revenue, Gomal, Private/Patta, Other]	Forest land

6	Area in Ha	21.03Ha
7	Annual production,(metric ton /Cum) per annum	799,926 tonnes/ annum
8	Project Cost (Rs. In Crores)	2017.49 lakhs
9	Proved quantity of mine/quarry- Cu.m/Tons	8,44,3371Tons
10	Permitted quantity per annum- Cu.m/Ton	799,926tonnes/ annum
11	Approach Road	5km from quarry to connecting tar road.
12	Five years plan period	Area -11.33Ha Depth - 876mRL (depth 120m from the hill top) Length - 342m Width -331m
13	Conceptual stage	Area - 19.72Ha Depth - 820mRL (Depth 176 m from the hill top) Length - 562m Width -351m
14	CER Activities : <ul style="list-style-type: none"> • ASPIRE - Quality Education Project • Accelerated English Learning Project • JSW Udaan Scholarship • Farm Ponds • Agri- Livelihood enhancement Project • Revival & Formation of Self Help Groups • 50 Nos Toilets construction - Nandihalli • Leveraging Govt Scheme - Buddy for Study • Community Health Monitoring Project • Vision Screening & Cataract Surgeries • Project Haqdarshak -Phase 2 • Rural Infra Projects ➤ Preventive medical care and educational facilities for rural population will be promoted. ➤ Priority will be given to local people for R & R and other works. ➤ Extending general benefit by way of development work in the villages through respective Gram Panchayat. 	

	<ul style="list-style-type: none"> ➤ Supplementing Govt. efforts in health monitoring camps, social welfare and various awareness programs among the rural population. ➤ Assisting social forestry program.
15	EMP Budget Rs.59.56 lakhs(Capital Cost) & Rs. 82.38 lakhs (Recurring cost)

The subject was discussed in the SEAC meeting held on 4th January 2021. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

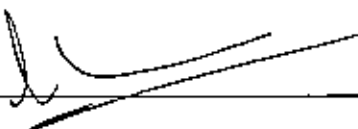

The TOR was issued by SEIAA on 30th January 2019 and EIA report was submitted on 8th October 2021.

This is a proposal for expansion from 0.408MTPA to 0.8MTPA iron ore production in the total area of 21.03Ha. The committee observed that initially the mining lease with M.L No.1907/2107 was granted in the year 1963 in the name of M/s. Hothur Traders for an area of 32.38 hectares for a period of 20 years and it was renewed periodically up to 2016. In the year 2016 as per the CEC recommendations the lease area was reduced to 21.61 hectares with M.L No.2313.

Earlier lease holder was M/s. Hothur Traders, continued with the mining till a blanket ban was imposed in the year 2011. The present lessee has come into picture after obtaining this lease through E-auctioning on 5-10-2016. Subsequent to this, EC issued earlier under EIA Notification 1994 dated: 6-7-2004 was also transferred to the present lessee M/s. JSW Steel Ltd., on 4-2-2017 for a production capacity 0.80 MTPA. Subsequently, EC has been modified for a production of 0.408 MTPA on 21-4-2017 as per the approved mining plan. The mining activity is being carried out from 1-6-2018 after obtaining forest clearance was transferred on 12-09-2017.

The proponent submitted certified compliance to earlier E.C. conditions from Regional Office, MoEF & CC on 03.12.2021.

Public hearing was conducted on 17.08.2021. The committee observed that there are many complaints with regard to mining near the ancient Parvathi and Karthikeya Temple (Kumaraswamy Temple) and questioned the need for permitting mining, for which the proponent submitted undertaking that no mining activity will be done within 600meters radius from this Temple as per the Expert Committee directions and as per the letter issued by DMG and informed that the lease area is at a distance of 679meters from ancient Parvathi and Karthikeya Temple (Kumaraswamy Temple). There were other general complaints such as damage to the agricultural crops, employment opportunities

Handwritten signature

to local villagers, compensation to the farmers, dust pollution control measures, health checkup to the local villagers etc, for which proponent made presentation submitting point wise compliance to all these issues raised by the public during public hearing. The proponent informed that they would strengthen the approach road as per IRC (Indian Road Congress) standard norms & would grow trees all along the approach road.

The proponent has collected baseline data for air, water, soil and noise and all parameters are found to be within permissible limits. The proponent informed that all mitigative measures will be taken up to ensure that the parameters are maintained within permissible limits.

Considering the proved mincable reserve of 8,44,3371Tons as per the approved Mining plan, the committee estimated the life of the mine as 11 years and decided to recommend the proposal to SEIAA for issue of Environment Clearance for annual production of 799,926tonnes/annum.

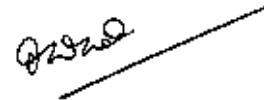

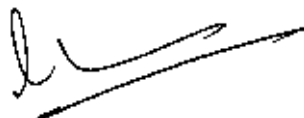

The Authority perused the proposal and took note of the recommendation of SEAC. the Authority perused the complaint received from Janasangram Parishad vide letter dated 26.08.2021 and 01.09.2021.

The Authority in its 212th meeting held on 5th February 2022 decided to clear the proposal for issue of Environmental Clearance subject to following:

- 1. A certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Biosphere Reserve/ migratory corridor).*
- 2. Safety measures proposed shall be submitted.*
- 3. A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*
- 4. All orders passed by Archaeological Survey of India, Forest Department, Department of Mines and Geology should be strictly adhered to by the Project Proponent.*

Additional Conditions:

- 1. Dust suppression measures have to be strictly followed.*
- 2. The PP shall Strictly address the issues raised in Public Hearing*

The project proponent vide letter dated 03.11.2023 requested that "we would like to bring to your kind notice regarding the proceedings cited under Ref: [redacted] wherein conditional RC was issued subject to following;

1 A certificate from the Chief Wild Life Warden (CWLW) along with his recommendation that the proposed site is more than 10km away from any Protection Authority (PA) (National Park/ Sanctuary/ Biosphere Reserve/ migratory corridor)

In connection to the above the Government of India on 27. 10. 2023 notified the Declaration of Eco-Sensitive Zone around Gudekote Sloth Bear Sanctuary in the State of Karnataka.

Therefore, we request you to kindly issue Environment Clearance for enhanced production capacity of Nandi Iron Ore Mine Project at Malagolla Village, Sandur Taluk, Ballari District at the earliest".

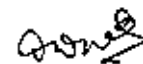

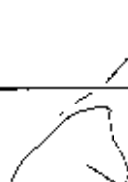

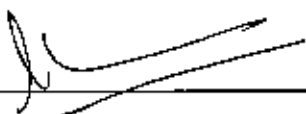

The Authority perused the Gudekote Sloth Bear Sanctuary Eco-Sensitive Zone Notification dated 27.10.2023 after detailed discussion decided to clear the proposal for issue of Environmental Clearance subject to following:

1. If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).
2. Safety measures proposed shall be submitted.
3. A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.
4. All orders passed by Archaeological Survey of India, Forest Department, Department of Mines and Geology should be strictly adhered by the Project Proponent.

Additional Conditions:

1. Dust suppression measures have to be strictly followed.
2. The PP shall Strictly address the issues raised in Public Hearing

245.3.3 Proposed Natural Sand Quarry Project at Survey Numbers 44/15, 44/16, 46/1, 46/2, 46/3, 46/4, 46/5, 47/1, 47/2, 47/3 and 47/4 of Machenahalli Village, Molakalmuru Taluk, Chitradurga District, Karnataka of M/s. Amogha Divya

Chaitanya Minerals and Traders Pvt. Ltd. - SEIAA 77 MIN 2018 - Request for extension of validity of Environmental Clearance.

Environmental Clearance has been issued to this project vide letter No SELAA 77 MIN 2018 dated 21.01.2019 for Proposed Natural Sand Quarry Project at Survey Numbers 44/15, 44/16, 46/1, 46/2, 46/3, 46/4, 46/5, 47/1, 47/2, 47/3 and 47/4 of Machenahalli Village, Molakalmuru Taluk, Chitradurga District, Karnataka of M/s. Amogha Divya Chaitanya Minerals and Traders Pvt. Ltd.

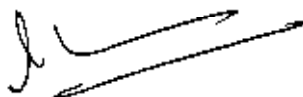

The Project proponent vide his letter dated 20.10.2023 requested this Authority for extend the validity of EC. The projet proponent in his letter stated that "Environmental clearance was granted on January 21, 2019, with a five-year validity and a production capacity of 2,19,506 tonnes per annum. The environmental clearance is set to expire on January 21, 2024. However, due to a one-year delay in lease execution caused by various statutory clearances and an additional year of delay due to COVID lockdowns and requesting an extension of the environmental clearance's validity for two more years.

The Authority noted the Notification SO 221(E) issued by The MoEF&CC dated 18/01/2021, wherein it is stated that, "now withstanding anything contained in this notification, the period from the 1st April 2020 to the 1st march 2021 shall not be considered for the purpose of calculation of the period of validity of prior Environmental clearances granted under the provisions of this notification in view of outbreak of Corona virus (Covid -19) and subsequent lockdowns (total or partial) declared for its control, however all activities undertaken during this period in respect of Environmental clearance granted shall be treated as valid "

The Authority perused the request made by proponent and decided & agreed for Extension of Validity for one more year (Covid relaxation).

245.3.4 Quarrying of Building Stone at Sy. Nos. 85 & 86 of Yelachagere Village, Nanjanagud Taluk, Mysore District, Karnataka by Sri. M Srinivasulu - SEIAA 166 MIN 2022 - Request for transfer of Ec in favour of M/s Shiva Shakti Mining Services.

Environmental Clearance has been issued by sELAA, vide letter No. SEIAA 166 MIN 2022 dated 16.11.2022 for quarrying of Building Stone at Sy. Nos. 85 & 86 of Yelachagere Village, Nanjanagud Taluk, Mysore District, Karnataka to Sri. M Srinivasulu.

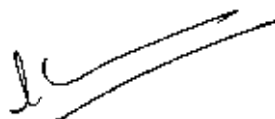

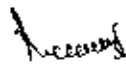

M/s Shiva Shakti Mining Services, vide letter dated 06.10.2023 have requested for transfer of the above mentioned Environmental Clearance in their favour as the said lease has been registered the partnership firm.

The Authority perused the request made by M/s Shiva Shakti Mining Services and decided to transfer the EC in favour of M/s Shiva Shakti Mining Services subject to the following conditions

1. *The applicant shall furnish Notarised affidavit of M/s Shiva Shakti Mining Services relinquishing his claim (duly witnessed by Authorized Signatory of Sri. M Srinivasulu)*
2. *Notarised Copy of EC.*

Meeting concluded with thanks to the Chair.
