Deliberations:

The representative of the project proponent Sri G. Bharadwaj and Sri Vishnu Sharma of M/s. Ampl Environ Pvt. Ltd., Hyderabad attended and made a presentation before the SEAC.

The SEAC noted the lease was initially granted on 27.02.2001 in favour of Sri Md. Sardar khan to an extent of 0.75 ha. for a period of 10 years i.e upto 26.02.2011. Later, the execution of transfer lease deed was granted on 05.09.2012 in favour of M/s. Sri Anjaneya Metal Suppliers to an extent of 0.75 ha. for a period upto 26.02.2021. Then, again the execution of transfer lease deed was granted on 12.04.2018 in favour of the proponent to an extent of 0.75 ha. for un-expired period of lease i.e., upto 26.02.2021. As per the Proceedings dt.22.02.2022 issued by the DMG, Warangal district, it is stated that out of total extent of 0.75 Ha. an area of only 0.25 Ha. is falling within the safety distance radius of proposed pump house and hence, requested for considering of balance available extent of 0.50 Ha. which is falling outside the safety distance. The LOI was granted on 31.05.2022 to an extent of 0.50 Ha. for a period of 20 years. It may be noted that the Mine Lease was

granted before 09.09.2013. Hence, cluster is not applicable to the project. The SEAC noted that the mine lease area is 0.50 Ha. which is less than 5.0 Ha. Thus, the project is considered under 'B2' Category as per the provisions laid under EIA Notification, 2006 & its subsequent amendments and orders of the Hon'ble NGT.
