The Authority after detailed discussion and deliberation decided the following:

1. **Serial No. 1:** Proposal was considered in the 5.107th meeting and was deferred *“for further detailed examination in the office. Various norms for parking requirement in commercial buildings like JDA and NBC may be examined, both from the perspective of BUA and visitor’s population. In his latest representation, PP has reduced the visitor population from 11580 projected earlier to 2500. Justification for the same, may be sought from the PP. In addition, parking provided in similar kind of projects for which EC has been recently issued, may also be examined for reference”*.

During the detailed examination various norms such as Rajasthan Building By-laws 2020, NBC 2016 and EIA Guidance Manual 2010 were examined and accordingly, the maximum parking required for the proposed project, as per the norms, comes out to be 596 ECU, against which PP has provided 671 ECU, which was found adequate. Moreover, PP has rectified the figure of the population as 2500 and clarified that *“based on total population in FAR (60:40), the population is based on 60% area under occupied by floating population and staff”*. Considering all the above clarification and information, the Authority accepted the recommendations of SEAC and decided to **grant EC** to this proposal.

4. **Serial No. 4:** In this proposal, the proposed production capacity for individual as well as for cluster, is more than the production capacity approved in the Mining Plan and Cluster Mining Plan. Hence, Authority accepted the recommendations and additional conditions of SEAC and decided to **approve EIA/EMP for 2,41,286 TPA as mentioned in Cluster Mining Plan and grant EC for 2,14,286 TPA (ROM) as mentioned in approved Mining Plan** to this proposal with the
