**MINUTES OF THE 240th MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P.,
HELD ON -13th, 14th & 15th February 2024 AT VIJAYAWADA, A.P.**

Present: The following members were present. (Through hybrid mode Conference)

1.	Dr. G.V.R. Srinivasa Rao, Professor, Civil Engineering Department, Andhra University, Visakhapatnam	Chairperson
2.	Prof. K. Thyaga Raju, Professor, Department of Biochemistry, S.V. University, Tirupati.	Vice Chairman
3.	Prof. G. Gnana Mani, Retd., Professor of Zoology, Andhra University, Visakhapatnam.	Member
4.	Sri Matli. Chandra Sekhar Professor, Head of Department of Civil Engineering, NIT, Warangal.	Member
5.	Prof. C. Sasidhar, Professor, Civil Engineering Dept, JNTU, Anantapur	Member
6.	Prof. N. Siva Prasad Reddy, Director (Academics), Brindavan Institute of Technology & Science, Kurnool	Member
7.	Dr. Dinesh Sankar Reddy. Registrar(I/C), Professor of Chemical Engineering, NIT, Tadepalligudem, West Godavari	Member
8.	Dr. M. Sunandana Reddy, Associate Professor, RGM College of Engineering & Technology (Autonomous), Nandyal.	Member
9.	Dr. Kiranmai, Assistant Professor, Dept. of Biotechnology, VikramaSimhapuri University, Nellore, SPSR Nellore District	Member
10.	Prof. D. Bharathi, Professor, Dept. of Bio Sciences & Sericulture, Sri Padmavathi Mahila Viswa Vidhyalayam, Tirupati	Member
11.	Dr. G. Madhavi, Associate Professor, Department of Chemistry, Sri Venkateswara University, Tirupati	Member
12.	Dr. Gummalla Prasanthi, Professor, Vijaya Institute of Pharmaceutical Sciences, Vijayawada	Member
13.	Prof. U. Shameem. Chairman, Dept. of Zoology, Andhra University, Visakhapatnam	Member
14.	Sri. N. V Bhaskara Rao, Chief Environmental Engineer, Andhra Pradesh Pollution Control Board. Vijayawada.	Member Secretary.

MINUTES OF THE 240th MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P.,
HELD ON -13th, 14th & 15th February 2024 AT VIJAYAWADA, A.P.

Agenda Item No. 240.01	1.136 Ha Ordinary Sand mine proposed in the name of Kusumuru Sand Reach, Kusumuru Village, Therlam Mandal, Vizianagaram District by Royalty Inspector, O/o District Mines and Geology officer, Vizianagaram- Environmental Clearance- Reg.
SIA/AP/MIN /451258/20 23	<p>Category: B2.</p> <p>The project proposal is for mining of Ordinary Sand in an area of 1.136 Ha with a proposed production quantity of Ordinary Sand- 11,360 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof i.e., Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).</p> <p>Sri. Mohan Rao, Dy. Director and Royalty Inspector, O/o District Mines and Geology officer, Department of Mines and Geology, Vizianagaram and their consultant M/s. Hubert Enviro Care Systems (P) Ltd have attended the meeting and presented their proposal. The SEAC Committee noted that:</p> <ol style="list-style-type: none">The Department of Mines and Geology submitted DSR of Vizianagaram District. The same is reviewed in the SEAC meeting and observed that the subject mine is available at Page No. 150 of DSR Report.The project proponent submitted joint inspection report dated 23.03.2023 on feasibility of sand reach conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department.The Department of Mines and Geology, Ibrahimpatnam, AP issued circular Memo No: 6588903/Sand- General/2022 dt. 17.10.2023 instructing to obtain statutory clearance in the name of the officers for 35 sand reaches.The Department of Mines and Geology vide order dt. 19.10.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE.As per the cluster letter dated: 27.10.2023 issued by the District Mines & Geology officer, Vizianagaram District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.As per the approved mining plan dt. 27.10.2023, the total provided mineral reserves are 11,360 m³ (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.The Royalty Inspector informed that they have allocated Rs. 2.20 Lakhs as capital cost and Rs. 0.8 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the Kusumuru Village under Corporate Social Responsibility (CSR). <p>The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended to SEIAA to approve and issue Environmental clearance for the mining of Ordinary Sand with the production quantity of 11,360 m³/annum for one-year period with manual method of mining with the following conditions:</p> <ol style="list-style-type: none">There shall be no change in the production quantities approved in Environment Clearance order.

**MINUTES OF THE 240th MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P.,
HELD ON -13th, 14th & 15th February 2024 AT VIJAYAWADA, A.P.**

2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Honb'le NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The Royalty Inspector shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
10. The committee directed the Royalty Inspector that they shall not carry out river bed mining operation in monsoon period.
11. No sand mining shall be done during the rainy season.
12. The Royalty Inspector should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the Royalty Inspector to functioning time of quarries/deposits shall be 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/deposit site during night time.
14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
15. The committee suggested the Royalty Inspector to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.
16. The Committee directed the Royalty Inspector to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.
17. The Royalty Inspector shall keep GPS tracking to the vehicle from source to destination.
18. The Royalty Inspector shall not obstruct the river flow, water transport and restoring the riparian rights and instream habitats.
19. The Royalty Inspector shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.
20. The Royalty Inspector shall carry out bank stabilization works.
21. The Royalty Inspector shall plant the plants all along the river bank/embankment to control the erosion of river bank.
22. The project proponent shall restrict vehicles movement during the peak hours to avoid accidents

**MINUTES OF THE 240th MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P.,
HELD ON -13th, 14th & 15th February 2024 AT VIJAYAWADA, A.P.**

	<p>d. As per the cluster letter dated: 08.11.2023 issued by the District Mines & Geology officer, Sri Satya Sai District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.</p> <p>e. As per the approved mining plan dt. 09.11.2023, the total provided mineral reserves are 43,500 m³ (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.</p> <p>f. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.</p> <p>g. The committee while examine the KML file uploaded in the Parivesh portal observed that Chitravathi river bridge on the Highway is existing at a distance about 600 meters in South Western side from the proposed sand mine. Hence, the committee opined that it is not feasible to carry out sand mining upto a distance of 1 km from major bridges and highways and both sides, as mentioned in the Sand Enforcement and Monitoring Guidelines, 2020.</p> <p>The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended to reject the proposal as the Chitravathi river bridge on the Highway is existing at a distance about 600 meters in South Western side from the proposed sand mine as against required distance of 1 Km from major bridges and highways and both sides, as mentioned in the Sand Enforcement and Monitoring Guidelines, 2020.</p>
Agenda Item No. 240.14	2.090 Ha Ordinary Sand Mine proposed in the name of Nayanipalli Sand Reach, Nayanipalli Village, Tadimarri Mandal, Sri Satya Sai District by Assistant Geologist, Sri Satya Sai District - Environmental Clearance - Reg.
SIA/AP/MIN /452182/2023	<p>Category: B2.</p> <p>The project proposal is for mining of Ordinary Sand in an area of 2.090 Ha with a proposed production quantity of Ordinary Sand- 20,900 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof i.e., Mining of minerals (≤250 ha of mining lease area in respect of non-coal mine lease).</p> <p>Sri. Mohan Rao, Dy. Director & Assistant Geologist O/o District Mines and Geology Office, Sri Satya Sai District and their consultant M/s. Global Enviro Labs have attended the meeting and presented their proposal. The SEAC Committee noted that:</p> <p>a. The Department of Mines and Geology submitted DSR of Sri Satya Sai District. The same is reviewed in the SEAC meeting and observed that the subject mine is available at Page No. 143 of DSR Report.</p> <p>b. The committee noted that the proposed sand reach area is existing within 500 meters to reserve forest. Hence, the committee directed the Assistant Geologist to submit Forest NOC as per G.O.MS.No.107, dated 30.07.2016.</p> <p>The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended to raise ADS for submission of Forest NOC as per G.O.MS.No.107, dated 30.07.2016.</p>
Agenda Item No. 240.15	2.150 Ha Ordinary Sand Mine proposed in the name of Segupalli Sand Reach, Seegupalli Village, Parigi Mandal, Sri Satya Sai District by Assistant Geologist, Sri Satya Sai District - Environmental Clearance - Reg.

clearance for the mining of **Ordinary Sand** with the production quantity of **45,000 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Honb'le NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance, water sand mining shall not be carried out.
10. The committee directed the lease holder that they shall not carryout river bed mining operation in monsoon period.
11. No sand mining shall be done during the rainy season.
12. The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the lease holder that functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
15. The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.
16. The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.
17. The lease holder shall keep GPS tracking to the vehicle from source to destination.
18. The lease holder shall not obstruct the river flow, water transport and restoring the riparian rights and instream habitats.
19. The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.
20. The lease holder shall carry out bank stabilization works.
21. The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank.
22. The project proponent shall restrict vehicles movement during the peak hours to avoid accidents

Category: B2.

The project proposal is for mining of Ordinary Sand in an area of **3.50 Ha** with a proposed production quantity of **Ordinary Sand - 35,000 m³/annum** with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof i.e., Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).

Sri. Mohan Rao, Dy. Director & Royalty Inspector, District Mines and Geology officer O/o Department of Mines and Geology, YSR District and their consultant M/s. Pollucare Engineers India Pvt Ltd have attended the meeting and presented their proposal. The SEAC Committee noted that:

- a. The Department of Mines and Geology submitted DSR of Annamayya District. The same is reviewed in the SEAC meeting and observed that the subject mine is available at Page No. 138 of DSR Report.
- b. The Royalty Inspector submitted Joint inspection report on feasibility of sand reach dated 27.05.2023 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department.
- c. The Department of Mines and Geology, Ibrahimpatnam, AP issued circular Memo No: 6588903/Sand- General/2022 dt. 17.10.2023 instructing to obtain statutory clearance in the name of the officers for 35 sand reaches.
- d. The Department of Mines and Geology vide order dt. 07.11.2023 issued Lol to the subject mine subject to submission of Approved Mining Plan, EC and CFE.
- e. As per the cluster letter dated: 14.11.2023 issued by the District Mines & Geology officer, Rayachoty, Annamayya District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.
- f. As per the approved mining plan dt. 08.11.2023, the total provided mineral reserves are 35,000 m³ (As per WALTER Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- g. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- h. The Royalty Inspector informed that they have allocated Rs. 2.35 Lakhs as capital cost and Rs. 2.10 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the Komantharajapuram Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended to SEIAA to approve and issue Environmental clearance for the mining of **Ordinary Sand** with the production quantity of **35,000 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Hon'ble NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated: 14.12.2020 shall be scrupulously followed.

7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance, water sand mining shall not be carried out.
10. The committee directed the lease holder that they shall not carry out river bed mining operation in monsoon period.
11. No sand mining shall be done during the rainy season.
12. The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the lease holder that functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
15. The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.
16. The Committee directed the lease holder to maintain electronic weighing bridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.

The project proposal is for mining of Ordinary Sand in an area of **4.00 Ha** with a proposed production quantity of **Ordinary Sand- 40,000 m³/annum** with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof i.e., Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).

Sri. Mohan Rao, Dy. Director & Royalty Inspector, District Mines and Geology officer O/o Department of Mines and Geology, YSR District and their consultant M/s. Ecomen Laboratories Pvt. Ltd, have attended the meeting and presented their proposal. The SEAC Committee noted that:

- a. The Department of Mines and Geology submitted DSR of YSR Kadapa District. The same is reviewed in the SEAC meeting and observed that the subject mine is available at Page No.150 of DSR Report.
- b. The Royalty Inspector submitted Joint inspection report on feasibility of sand reach dated 11.08.2023 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department.
- c. The Department of Mines and Geology, Ibrahimpatnam, AP issued circular Memo No: 6588903/Sand- General/2022 dt. 17.10.2023 instructing to obtain statutory clearance in the name of the officers for 35 sand reaches.
- d. The Department of Mines and Geology vide order dt. 26.10.2023 issued Lol to the subject mine subject to submission of Approved Mining Plan, EC and CFE.
- e. As per the cluster letter dated: 14.11.2023 issued by the District Mines & Geology officer, Kadapa, YSR District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.
- f. As per the approved mining plan dt. 08.11.2023, the total provided mineral reserves are 40,000 m³ (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- g. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- h. The Royalty Inspector informed that they have allocated Rs. 2.95 Lakhs as capital cost and Rs. 2.40 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the Beduduru Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended to SEIAA to approve and **issue** of Environmental clearance for the mining of **Ordinary Sand** with the production quantity of **40,000 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Honb'le NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.

**MINUTES OF THE 240th MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P.,
HELD ON -13th, 14th & 15th February 2024 AT VIJAYAWADA, A.P.**

	<p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).</p> <p>Sri. Mohan Rao, Dy. Director & Royalty Inspector District Mines and Geology officer O/o Department of Mines and Geology and their consultant M/s. Ecomen Laboratories Pvt. Ltd, have attended the meeting and presented their proposal. The SEAC Committee noted that:</p> <ol style="list-style-type: none">The Department of Mines and Geology submitted DSR of YSR Kadapa District. The same is reviewed in the SEAC meeting and observed that the subject mine is available at Page No.196 of DSR Report.The committee noted that the proposed sand reach area is existing within 500 meters to reserve forest. Hence, the committee directed the Royalty Inspector to submit Forest NOC as per G.O.MS.No.107, dated 30.07.2016. <p>The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended to raise ADS for submission of Forest NOC as per G.O.MS.No.107, dated 30.07.2016.</p>
Agenda Item No. 240.44	4.980 Ha Ordinary Sand Mine proposed in the name of Chakrayapeta River Sand Reach in Papagni River bed near Chakrayapeta Village, Chakrayapeta Mandal, YSR Kadapa District by Royalty Inspector, O/o District Mines & Geology Office, YSR District - Environmental Clearance - Reg.
SIA/AP/MIN /452323/20 23	<p>Category: B2.</p> <p>The project proposal is for mining of Ordinary Sand in an area of 4.980 Ha with a proposed production quantity of Ordinary Sand - 49,800 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof i.e., Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).</p> <p>Sri. Mohan Rao, Dy. Director, Royalty Inspector, District Mines and Geology officer, O/o Department of Mines and Geology, YSR District and their consultant M/s. Ecomen Laboratories Pvt. Ltd, have attended the meeting and presented their proposal. The SEAC Committee noted that:</p> <ol style="list-style-type: none">While, measuring the proposed sand reach area in the KML file uploaded in the Parivesh portal, the committee noted that the total lease area is 5.0 Ha and is not matching with 4.980 Ha as proposed by the Mining Department. Hence, the committee recommended to reject the proposal. <p>The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended to reject the proposal, as per KML file the subject lease area is 5.0 Ha and is not matching with 4.980 Ha as proposed by the mining department.</p>
Agenda Item No. 240.45	4.950 Ha Ordinary Sand Mine proposed in the name of Guudlamula Sand reach in Penna River bed near Gundlamula Village, Sidhout Mandal, YSR Kadapa District by Royalty Inspector, O/o District Mines & Geology Office, YSR District - Environmental Clearance - Reg.
SIA/AP/MIN /452319/20 23	<p>Category: B2.</p> <p>The project proposal is for mining of Ordinary Sand in an area of 4.950 Ha with a proposed production quantity of Ordinary Sand- 49,500 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p>

**MINUTES OF THE 240th MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P.,
HELD ON -13th, 14th & 15th February 2024 AT VJAYAWADA, A.P.**

- f. As per the approved mining plan dt. 08.11.2023, the total provided mineral reserves are 48,000 m³ (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- g. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- h. The Royalty Inspector informed that they have allocated Rs. 2.95 Lakhs as capital cost and Rs. 2.40 Lakhs as a recurring cost budget for the EMP. The Royalty Inspector volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the Marellamadaka Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended to SEIAA to approve and **issue** Environmental clearance for the mining of **Ordinary Sand** with the production quantity of **48,000 m³/anuum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Hon'ble NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The Royalty Inspector shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The Royalty Inspector shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance, water sand mining shall not be carried out.
10. The committee directed the Royalty Inspector that they shall not carryout river bed mining operation in monsoon period.
11. The Royalty Inspector should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
12. The committee directed the Royalty Inspector that functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
13. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
14. The committee suggested the Royalty Inspector to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.
15. The Committee directed the Royalty Inspector to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.
16. The Royalty Inspector shall keep GPS tracking to the vehicle from source to destination.

- f. As per the approved mining plan dt. 08.11.2023, the total provided mineral reserves are 40,000 m³ (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- g. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- h. The Royalty Inspector informed that they have allocated Rs. 1.49 Lakhs as capital cost and Rs. 1.81 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the Paidikaluva Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended to SEIAA to approve and **issue** Environmental clearance for the mining of **Ordinary Sand** with the production quantity of **40,000 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Hon'ble NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated: 14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The Royalty Inspector shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The Royalty Inspector shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance, water sand mining shall not be carried out.
10. The committee directed the Royalty Inspector that they shall not carryout river bed mining operation in monsoon period.
11. No sand mining shall be done during the rainy season.
12. The Royalty Inspector should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the Royalty Inspector to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
15. The committee suggested the Royalty Inspector that the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.

HELD ON -13th, 14th & 15th February 2024 AT VIJAYAWADA, A.P.**

production during a scheme should be limited to the approved quantity as per Mining scheme plan.

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof i.e., Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).

Sri. Mohan Rao, Dy. Director, Royalty Inspector, District Mines and Geology officer O/o Department of Mines and Geology, YSR District and their consultant M/s. Ecomen Laboratories Pvt. Ltd, have attended the meeting and presented their proposal. The SEAC Committee noted that:

- a. The Department of Mines and Geology submitted DSR of YSR Kadapa District. The same is reviewed in the SEAC meeting and observed that the subject mine is available at Page No.196 of DSR Report.
- b. The Royalty Inspector submitted Joint inspection report on feasibility of sand reach dated 19.10.2023 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department.
- c. The Department of Mines and Geology, Ibrahimpatnam, AP issued circular Memo No: 6588903/Sand- General/2022 dt. 17.10.2023 instructing to obtain statutory clearance in the name of the officers for 35 sand reaches.
- d. The Department of Mines and Geology vide order dt. 26.10.2023 issued Lol to the subject mine subject to submission of Approved Mining Plan, EC and CFE.
- e. As per the cluster letter dated: 14.11.2023 issued by the District Mines & Geology officer, YSR Kadapa District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.
- f. As per the approved mining plan dt. 08.11.2023, the total provided mineral reserves are $48,000 \text{ m}^3$ (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- g. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- b. The Royalty Inspector informed that they have allocated Rs. 1.49 Lakhs as capital cost and Rs. 1.81 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the Kothagangireddipalli Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended to SEIAA to approve and **issue** Environmental clearance for the mining of **Ordinary Sand** with the production quantity of **$48,000 \text{ m}^3/\text{annum}$** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Hon'ble NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Hon'ble NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The Royalty Inspector shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance, water sand mining shall not be carried out.
10. The committee directed the lease holder that they shall not carryout river bed mining operation in monsoon period.
11. No sand mining shall be done during the rainy season.
12. The Royalty Inspector should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the Royalty Inspector that functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
15. The committee suggested the Royalty Inspector to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.
16. The Committee directed the Royalty Inspector to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.
17. The Royalty Inspector shall keep GPS tracking to the vehicle from source to destination.
18. The Royalty Inspector shall not obstruct the river flow, water transport and restoring the riparian rights and instream habitats.

**MINUTES OF THE 240th MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P.,
HELD ON -13th, 14th & 15th February 2024 AT VIJAYAWADA, A.P.**

Pvt. Ltd, have attended the meeting and presented their proposal. The SEAC Committee noted that:

- a. The Department of Mines and Geology submitted DSR of YSR Kadapa District. The same is reviewed in the SEAC meeting and observed that the subject mine is available at Page No.196 of DSR Report).
- b. The Royalty Inspector submitted Joint inspection report on feasibility of sand reach dated 12.01.2023 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department.
- c. The Department of Mines and Geology, Ibrahimpatnam, AP issued circular Memo No: 6588903/Sand- General/2022 dt. 17.10.2023 instructing to obtain statutory clearance in the name of the officers for 35 sand reaches.
- d. The Department of Mines and Geology vide order dt. 26.10.2023 issued Lol to the subject mine subject to submission of Approved Mining Plan, EC and CFE.
- e. As per the cluster letter dated: 14.11.2023 issued by the District Mines & Geology officer, YSR Kadapa District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.
- f. As per the approved mining plan dt. 08.11.2023, the total provided mineral reserves are 47,400 m³ (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- g. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- h. The Royalty Inspector informed that they have allocated Rs. 2.95 Lakhs as capital cost and Rs. 2.40 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the tangedupalli Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended to SEIAA to approve and **issue** Environmental clearance for the mining of **Ordinary Sand** with the production quantity of **47,400 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Hon'ble NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The Royalty Inspector shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The Royalty Inspector shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance, water sand mining shall not be carried out.

- c. The Department of Mines and Geology, Ibrahimpatnam, AP issued circular Memo No: 6588903/Sand- General/2022 dt. 17.10.2023 instructing to obtain statutory clearance in the name of the officers for 35 sand reaches.
- d. The Department of Mines and Geology vide order dt. 25.10.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE.
- e. As per the cluster letter dated: 08.11.2023 issued by the District Mines & Geology officer, SPSR Nellore District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.
- f. As per the approved mining plan dt. 28.10.2023, the total provided mineral reserves are 48,500 m³ (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- g. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- h. The Royalty Inspector informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the Mudivarthi Village under Corporate Social Responsibility (CSR).
- i. The committee while examine the KML file uploaded in the Parivesh portal, the committee observed working pits in and near to the existing proposed mine and observed agricultural activities in proposed mine lease area. Hence, committee directed the project proponent to furnish the clarification letter on workings from Department of Mines and Geology and also to submit photographs of the fields.

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended to **raise ADS** for submission of clarification letter on workings in the lease area from Department of Mines and Geology and also to submit photographs of the fields.

Agenda Item No. 240.65 **4.880 Ha Ordinary Sand Mine proposed in the name of Padamatikambhampadu-II Sand Reach in Penna River bed near Padamatikambhampadu Village, Ananthasagaram Mandal, SPSR Nellore District by Royalty Inspector, O/o DM&GO, Nellore - Environmental Clearance - Reg.**

SIA/AP/MIN /451973/20 23

Category: B2.

The project proposal is for mining of Ordinary Sand in an area of **4.880 Ha** with a proposed production quantity of **Ordinary Sand - 48,800 m³/annum** with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof i.e., Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).

Sri. Mohan Rao, Dy. Director, Royalty Inspector, O/o Department of Mines and Geology, Nellore and their consultant M/s. Global Enviro Labs have attended the meeting and presented their proposal. The SEAC Committee noted that:

- a. The Department of Mines and Geology submitted DSR of SPSR Nellore District. The same is reviewed in the SEAC meeting and observed that the subject mine is available at Page No.146 of DSR Report.

- b. The Royalty Inspector submitted Joint inspection report on feasibility of sand reach dated 10.01.2023 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department.
- c. The Department of Mines and Geology, Ibrahimpatnam, AP issued circular Memo No: 6588903/Sand- General/2022 dt. 17.10.2023 instructing to obtain statutory clearance in the name of the officers for 35 sand reaches.
- d. The Department of Mines and Geology vide order dt. 25.10.2023 issued Loi to the subject mine subject to submission of Approved Mining Plan, EC and CFE.
- e. As per the cluster letter dated: 08.11.2023 issued by the District Mines & Geology officer, SPSR Nellore District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.
- f. As per the approved mining plan dt. 28.10.2023, the total provided mineral reserves are 48,800 m³ (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- g. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- h. The Royalty Inspector informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the Padamatikambhampadu Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended to SEIAA to approve and **issue** Environmental clearance for the mining of **Ordinary Sand** with the production quantity of **48,800 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Hon'ble NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance, water sand mining shall not be carried out.
10. The committee directed the lease holder that they shall not carryout river bed mining operation in monsoon period.
11. No sand mining shall be done during the rainy season.
12. The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.

**MINUTES OF THE 240th MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P.,
HELD ON -13th, 14th & 15th February 2024 AT VIJAYAWADA, A.P.**

- c) Sri Mohan Rao, Dy. Director, ADMG, District Mines & Geology Officer Bapatla Department of Mines and Geology and their consultant M/s. Pollucare Engineers India Pvt Ltd have attended the meeting and presented their proposal.
- d) This proposal was earlier apprised in 238th SEAC meeting and the SEAC Committee noted that:
- The Department of Mines and Geology submitted DSR of Bapatla District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at Page No.151 of DSR Report). The DSR 2023 is under process at SEIAA for approval.
 - The ADMG submitted Joint inspection report on feasibility of sand reach dated 12.09.2023 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department.
 - The Department of Mines and Geology vide order dt. 07.11.2023 issued Lol to the subject mine subject to submission of Approved Mining Plan, EC and CFE.
 - As per the cluster letter dated: 09.11.2023 issued by the District Mines & Geology officer (FAC), Bapatla District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.
 - As per the approved mining plan dt. 08.11.2023, the total provided mineral reserves are 49,600 m³ (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
 - The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
 - The ADMG informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the Juvvalapalem Village under Corporate Social Responsibility (CSR).
- e) The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended to SEIAA to approve and issue Environmental clearance for mining Ordinary Sand - **49,600 m³/annum** for one-year period with **manual method** of mining with the following conditions:
- There shall be no change in the production quantities approved in Environment Clearance order.
 - All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
 - The directions issued by the Honb'le NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
 - The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
 - The ADMG shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
 - The ADMG shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
 - The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
 - The ramp (i.e., approach road) shall be removed after sand mining is completed.

**MINUTES OF THE 240th MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P.,
HELD ON -13th, 14th & 15th February 2024 AT VIJAYAWADA, A.P.**

9. Under any circumstance under water sand mining shall not be carried out.
 10. The committee directed the ADMG to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.
 11. No sand mining shall be done during the rainy season.
 12. The ADMG should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
 13. The committee directed the ADMG to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
 14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
 15. The committee suggested the ADMG to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.
 16. The Committee directed the ADMG to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.
 17. The ADMG shall keep GPS tracking to the vehicle from source to destination.
 18. The ADMG shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.
 19. The ADMG shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.
 20. The lease holder shall carry out bank stabilization works.
 21. The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank.
 22. The ADMG shall restrict vehicles movement during the peak hours to avoid accidents
- f) The project proposal was placed in the 238th SEIAA meeting and decision of SEIAA is as follows: **Refer to SEAC to Verify tbe Geo-coordinates.**
- g) Again, this proposal was placed before 240th SEAC meeting and the committee verified the Geo-coordinates mentioned in the Approved Mining plan, Letter of Intent and KML file uploaded in the parivesh Portal and found that the Geo-coordinates are same in the Approved Mining plan, Letter of Intent and KML file uploaded in the parivesh Portal . Hence, the committee recommended to reiterate that earlier meeting minutes holds good.

The Committee after re-examining the project proposals, presentations, Latest cluster letter, mining plan, MoEF&CC Notifications & OMs and detailed deliberations, recommended to **SEIAA issue EC** with earlier meeting recommendations at point no. e.
