(Proposal No.- 300502)

The Authority after detailed discussion and deliberation decided the following:

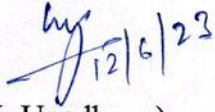

- Serial No. 1 to 15:** The Authority accepted the recommendations and additional conditions of SEAC and decided to **approve EIA/ EMP and grant EC** to these proposals and PP shall also ensure to raise a dense plantation in the 7.5m green belt around the lease area to mitigate the pollution effects subject to the conditions laid down by SEAC.
- Serial No. 16:** In this proposal, general condition 15 is mentioned as not complied in the certified compliance report of condition given in the earlier EC, for which an ATR is required. Also, CA certificate for turnover figures is not submitted. Hence, the Authority decided to **defer** this proposal for additional information to be submitted within 45 days.
- Serial No. 17 to 20:** The Authority decided to **refer back** these proposals to SEAC as there are important shortcomings in these proposals which should have

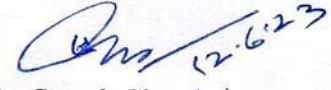

been got examined by SEAC at its level before making recommendations. Following are the shortcomings:

- As per EIA Notification, 2006, EIA/EMP report consist of 12 chapters but the EIA/EMP Report submitted is of 11 chapters, missing out the chapter 9 which deals with cost-benefit analysis.
  - An affidavit regarding implementation of Cluster EMP is not submitted, which is a mandatory requirement.
4. **Serial 21:** The Authority decided to grant **Transfer EC** to this proposal with a direction to get it reappraised as per MoEF&CC OM Dated 28/04/2023 and Hon'ble NGT order dated 07/12/2022.
