

Minutes of 660th SEAC-1 Meeting Dated 27/05/2022

The 660th meeting of SEAC-1 was held in the Directorate of Environment, U.P. through dual-mode (physically/virtually) at 10:00 AM on 27/05/2022. Following members participated in the meeting:

- | | | |
|----|----------------------------|-------------------------------|
| 1. | Shri Rajive Kumar, | Chairman, SEAC-1 (through VC) |
| 2. | Dr. Brij Bihari Awasthi, | Member, SEAC-1 |
| 3. | Shri Umesh Chandra Sharma, | Member, SEAC-1 (through VC) |
| 4. | Dr. Ratan Kar, | Member, SEAC-1 (through VC) |
| 5. | Shri Ashish Tiwari, | Member-Secretary, SEAC-1 |

The Chairman welcomed the members to the 660th SEAC-1 meeting which was conducted via dual-mode (virtually/physically). Nodal Officer, SEAC-1 informed the committee that the agenda has been approved by the Member Secretary, SEAC-1/Director Environment. Nodal Officer, SEAC-1 placed the agenda items along with the available file and documents before the SEAC-1.

1. **Soil Excavation at Gata No.-1424Da, 1427, Village- Salempur, Tehsil- Mohanlal Ganj, Lucknow Shri Shyam Bihari Dwivedi., Area: 0.5900 Ha. File No. 7065/Proposal No. SIA/UP/MIN/267891/2022**

RESOLUTION AGAINST AGENDA NO-01

The project proponent/consultant did not appear. The committee discussed and deliberated that project file should be closed and be opened only after request from the project proponent. The file shall not be treated as pending at SEAC. The matter will be discussed only after submission of online request on prescribed online portal.

2. **Group Housing “RUDRA NRI GRAND (PHASE-1)” at Plot No. GH 02, Vinayak Shree NRI City, Village:- Katri Khera, Mainawati Marg, Kanpur, M/s Vinayak Shree Real Estate Pvt. Ltd. File No. 7066/Proposal No. SIA/UP/MIS/271027/2022**

RESOLUTION AGAINST AGENDA NO-02

No responsible person from project proponent was present to explain the project. Hence, the committee directed that the Managing Director/Director of the company should present before SEAC to explain the project proposal. Hence, the matter is deferred and shall be discussed after submission of online request on prescribed portal.

3. **Stone, Khanda & Gitti, Boulder Mining at Arazi No. 93, Khand No.-31, Village-Bari, The.-Sadar, District-Mahoba, U.P. Shri Vishal Singh., Area 1.012 Ha. File No. 6707/Proposal No. SIA/UP/MIN/69511/2021**

The consultant informed the committee that they are strictly following the rules, regulations and other instructions of QCI/NABET. A presentation was made by the project proponent along with their consultant M/s Environmental Research and Analysis. Based on the documents submitted and presentation made by the project proponent along with the consultant, the following facts have emerged: -

1. The environmental clearance is sought for Building Stone, Khanda, Boulder, Ballast (Gitti) (Granite) Mining at Arazi No. 93 (Khand No. – 31), Village: Bari, Tehsil: Sadar, District: Mahoba, (U.P.), (Leased Area- 1.012 ha.).
2. The terms of reference in the matter were issued by SEIAA, U.P. vide letter no. 446/Parya/SEIAA/6707/2021, dated 08 January, 2022
3. The public hearing was organized on 26/03/2022. Final EIA report submitted by the project proponent on 05/05/2022.
4. Salient features of the project as submitted by the project proponent:

1. On-line proposal No.	SIA/UP/MIN/69511/2021		
2. File No. allotted by SEIAA, U.P	6707		
3. Name of Proponent	Shri Vishal Singh S/o Shri Vinod Kumar Singh		
4. Full correspondence address of proponent and mobile no.	R/o - H. No.- 2/838, Vivek Khand, Thana- Gomti Nagar, District- Lucknow, U.P.		
5. Name of Project	Building Stone, Khanda, Boulder, Ballast (Gitti) (Granite) Mining Project		
6. Project location (Plot/Khasra/Gata No.)	Arazi No. 93 (Khand No. – 31),		
7. Name of River	NA		
8. Name of Village	Bari		
9. Tehsil	Sadar		
10. District	Mahoba (U.P.)		
11. Name of Minor Mineral	Building Stone, Khanda, Boulder, Ballast (Gitti)(Granite) Mining Project		
12. Sanctioned Lease Area (in Ha.)	1.012 Ha.		
13. Mineable Area (in Ha.)	0.9108 Ha. (Safety Margin 0.1012Ha.)		
14. Zero level mRL	NA		
15. Max. & Min mrl within lease area	Maximum & Minimum mRL is 180 & 165 mRL respectively.		
16. Pillar Coordinates (Verified by DMO)	Pillar	Latitude(N)	Longitude(E)
	A	N25°25'01.110"	E79°54'31.316"
	B	N25°25'02.190"	E79°54'34.344"
	C	N25°25'00.778"	E79°54'35.665"
	D	N25°24'58.050"	E79°54'31.151"
	E	N25°25'00.714"	E79°54'31.630"
17. Total Geological Reserves	1,64,580 m ³		
18. Sanction Quantity as per LOI	36,179 m ³ per year as per LOI		
19. Total Proposed Production (in five year)	1,80,895 m ³ in five year		
20. Proposed Production/year	36,179 m ³ per year		
21. Sanctioned Period of Mine lease	10 Years as per LOI		
22. Method of Mining	Open cast, Semi-Mechanized		
23. No. of working days	250		
24. Working hours/day	8 hours/day		
25. No. Of workers	Approximately 26 workers		
26. No. Of vehicles movement/day	10-12 Vehicles movement/day		
27. Type of Land	Building Stone(Khanda, Boulder, Ballast (Gitti)(Granite) Mining Project		
28. Ultimate Depth of Mining	6.0 m		
29. Nearest metalled road from site	NH-34 is about 8.7 km towards South direction from the project site.		
30. Water Requirement	PURPOSE		REQUIREMENT (KLD)
	Drinking water		0.36 KLD
	Dust suppression		3.78 KLD
	Plantation		2.0 KLD
	Others (if any)		-
	Total		6.14 KLD or 6.2 KLD approx Approx.
31. Name of QCI Accredited Consultant with QCI No and period of validity.	Environmental Research and Analysis, Lucknow (U.P) Certificate No. NABET/ EIA/ 1922/RA 0200 Valid up to 30 Dec, 2022		

32. Any litigation pending against the project or land in any court	No
33. Details of 500 m Cluster Map & certificate issued by Mining Officer	Letter No. 1310/ MMC-30/2021-22 on Date- 13/08/2021
34. Details of Lease Area in approved DSR	In DSR Page No. 88, serial no 118
35. Proposed EMP cost	Rs 15,57,392/-
36. Proposed Total Project cost	Rs. 85,00,000/-
37. Length and breadth of Haul Road	420 m length and 6.0 m width
38. No. of Trees to be Planted	2000
39. Monitoring period	1st October 2020 to 31 December 2020

5. The mining would be restricted to unsaturated zone only above the phreatic water table and will not intersect the ground water table at any point of time.
6. This project does not attract any of the general conditions applicable on mining projects specified in EIA Notification 14/09/2006.
7. The mining operation will not be carried out in safety zone of any bridge or embankment or in eco-fragile zone such as habitat of any wild fauna.
8. There is no litigation pending in any court regarding this project.
9. The project proposal falls under category-1(a) of EIA Notification, 2006 (as amended).

The consultant (EIA Coordinator) also submitted an affidavit dated 23/05/2022 mentioning is as follows:

1. I Dr. Vishnu Kumar Awasthi S/o Lt. R G Awasthi is EIA Coordinator of M/s Environmental Research and Analysis, Lucknow (U.P.), Accreditation Certificate No- NABET/ EIA/ 1922/RA 0200, valid till- 30/12/2022.
2. I have prepared EIA Project for the Proposal No. – SIA/UP/MIN/69511/2021 (FILE NO- 6707) Project Proponent - Shri Vishal Singh S/o Shri Vinod Kumar Singh of Building Stone, Khanda, Boulder, Blastt (Gitti), [Granite] Mining Project of Arazi No. 93, Khand No. – 31, (Area- 1.012 Ha.) in Village- Bari, Tehsil- Sadar & District- Mahoba, Uttar Pradesh with my team.
3. I have personally visited the site of proposal.
4. I have satisfied with that all the necessary data/information required for EIA Project presentations are true and correct.
5. I certify that no mining activity has been undertaken on the project site for the present proposal.
6. I certify that this project has been uploaded for this first time on Parivesh portal. In case the project has been uploaded again due to any reason, the withdrawals of previous project have been accepted by SEIAA, UP on Parivesh Portal.
7. I certify that there is no mismatch between information/data provided on online application and hard copy/presentation submitted.
8. I state that all the TOR points have been complied and all the issues raised during public hearing have been properly addressed in EIA report.

RESOLUTION AGAINST AGENDA NO. 03

The committee discussed the matter and recommended grant of environmental clearance for the project proposal along with general and specific conditions as annexed at Annexure-1 to these minutes. The committee also stipulated the following specific conditions:

1. The project proponent shall install solar light in their site office.
2. During the submission of 6 monthly compliance reports, the project proponent should make sure that the periodically taken site photographs should also be annexed along with the compliance report.
3. Preference should be given to indigenous local species as per the consultation of the local district Forest Officer.

4. The maximum height of the bench should be 06 meters and the width of the bench should be at least twice the height of the bench as per the mine plan approval letter by DGM, U.P
5. In case the blasting is proposed during a mining operation, the project proponent needs to assess its impact on the displacement of human beings/wild animals/birds/other species, and the suitable measures proposed and taken for their rehabilitation and resettlement need to be clearly described in first 6 monthly compliance report.
6. The project proponent shall submit a final mine closure plan/Exit protocol for rehabilitation of mined-out land to match its surrounding land use 3years before the closure of the mine to SEIAA, UP and Department of Mines and Geology, UP for approval. The project proponent shall ensure the implementation of the approved plan under the supervision of the Dept. of Mines and Geology.
7. The project proponent shall plan and implement collection drain and siltation basins of adequate size to arrest the silt and sediment flow from the quarry area. The surface runoff rainwater harvesting and other water conservation measures on a long-term basis are to be taken in consultation with the Central/State Groundwater Board. The water so collected should be utilized for watering the haulage area, roads, and green belt development, etc.
8. The project proponent shall take all suitable measures to prevent pollution of groundwater and nearby water bodies in consultation with the State Pollution Control Board and consent to operate (if applicable) should be obtained from the State Pollution Control Board before the start of production from the mine.
9. Link Road from the quarry site to the main road shall be constructed as an all-weather road with blacktopping and maintained by the project proponent.
10. Vehicular emissions should be kept under control and regularly monitored. Suitable measures shall be taken for proper maintenance of vehicles used in a quarry operation and transportation.
11. The project proponent should explore the possibilities of rainwater harvesting.

4. Sand Stone Mining at Gata No.-547, Village Bhojpur Pahadi, Tehsil- Sadar, Mirzapur, Shri Prashant Singh, M/s I vtech India Pvt. Ltd Area : 2.010 ha. File No. 7067/Proposal No. SIA/UP/MIN/271409/2022

The consultant informed the committee that they are strictly following the rules, regulations and other instructions of QCI/NABET. A presentation was made by the project proponent along with their consultant M/s Paramarsh (Servicing Environment and Development), Lucknow, U.P. Based on the documents submitted and presentation made by the project proponent along with the consultant, the following facts have emerged: -

1. The environmental clearance is sought for Building Stone, Sand Stone Mining at Gata No.- 547, Village- Bhojpur Pahadi, Tehsil- Sadar, District- Mirzapur, U.P., (Leased Area- 2.010 ha.), M/s IVTECH India Pvt. Ltd.
2. Salient features of the project as submitted by the project proponent:

1.	On-line proposal No.	SIA/UP/MIN/271409/2022
2.	File No. allotted by SEIAA, UP	7067
3.	Name of Proponent	M/S IVTECH INDIA PVT. LTD., Director- Shri Prashant Singh
4.	Full correspondence address of proponent	R/o- Sarswati Nagar, Behind TCI , Distt.- Varanasi, U.P.
5.	Name of Project	Building Stone Sand Stone Mining Project
6.	Project location (Plot/ Khasra /Gata No.)	Gata No.- 547
7.	Name of Village	Bhojpur Pahadi
8.	Tehsil	Sadar
9.	District	Mirzapur
10.	Name of Minor Mineral	Building Stone Sand Stone
11.	Sanctioned Lease Area (in Ha.)	2.010 ha.
12.	Max.& Min mRL within lease area	115 mRL- 113 mRL

13.	Pillar Coordinates(Verified by DMO)	Pillars	Latitude (N)	Longitude (E)
		A	25 ^o 6' 23.8"N	82 ^o 43' 33.9"E
		B	25 ^o 6' 22.9"N	82 ^o 43' 38.0"E
		C	25 ^o 6' 17.5"N	82 ^o 43' 35.4"E
		D	25 ^o 6' 19.5"N	82 ^o 43' 31.8"E
14.	Total Geological Reserves	1482654 m ³		
15.	Total Mineable Reserves	491588 m ³		
16.	Total Proposed Production (in five year)	201000 m ³		
17.	Proposed Production / year	Year	Production	
		1 st	40200 m ³	
		2 nd	40200 m ³	
		3 rd	40200 m ³	
		4 th	40200 m ³	
		5 th	40200 m ³	
		Total	201000 m ³	
18.	Sanctioned Period of Mine lease	10 Years		
19.	Method of Mining	Opencast Semi-Mechanized		
20.	No.of working days	300 days		
21.	Working hours/day	8 Hours/Day		
22.	No.Of workers	30 (approx.)		
23.	No.Of vehicle movement /day	14 (approx.)		
24.	Type of Land	Govt. revenue land		
25.	Ultimate Depth of Mining	6.0 meter (average)		
26.	Nearest metalled road from site	200m		
27.	Water Requirement	PURPOSE	REQUIREMENT (KLD)	
		Drinking & Others	0.30	
		Suppression of dust	1.20	
		Plantation	2.10	
		Others(if any)	-----	
		Total	3.60	
28.	Name of QCI Accredited Consultant with QCI No and period of validity.	M/s Paramarsh (Servicing Environment and Development)., Lucknow, U.P. QCI/NABET/EIA/2124/RA0224 Validity- May 01, 2024		
29.	Any litigation pending against the project or land in any court	No		
30.	Details of 500 m Cluster certificate Verified by Mining Officer	DMO (Mining Section), Mirzapur vide Letter No. 3816/ Khanij/ 2022, Dated 12 th April, 2022		
31.	Details of Lease Area in approved DSR	Page No.-13, S.No.- 73		
32.	Proposed CER cost	1.40 Lakh		
33.	Proposed EMP cost	17.54 Lakh		
34.	Length and breadth of Haul Road.	Length- 200, Width- more than 6.0 m		
35.	No. of Trees to be Planted	2010		

- The mining would be restricted to unsaturated zone only above the phreatic water table and will not intersect the ground water table at any point of time.
- This project does not attract any of the general conditions applicable on mining projects specified in EIA Notification 14/09/2006.
- The mining operation will not be carried out in safety zone of any bridge or embankment or in eco-fragile zone such as habitat of any wild fauna.
- There is no litigation pending in any court regarding this project.
- The project proposal falls under category–1(a) of EIA Notification, 2006 (as amended).

The consultant (EIA Coordinator) also submitted an affidavit dated 26/04/2022 mentioning is as follows:

1. I, Pankaj Srivastava S/o Sri V.V. Srivastava am EIA Coordinator of Paramarsh Servicing Environment and Development.
2. I will prepare EMP report for the File No. - 7067, Proposal No.- SIA/UP/MIN/271409/2022, of the client M/S IVTECH INDIA PVT. LTD., Director- Shri Prashant Singh for the “Building Stone sand Stone” Project at Gata No.-547,Village- Bhojpur Pahadi, Tehsil- Sadar, District- Mirzapur, U.P. (Leased Area :2.010 ha.) with my team.
3. I have personally visited the site of proposal.
4. I have satisfied with that all the necessary data/information required for EMP preparations are true and correct.
5. I certify that no mining activity has been undertaken on the project site for the present proposal.
6. I certify that this project has been uploaded for the first time on Parivesh Portal.
7. I certify that there is no mismatch between information/data provided on online application and hard copy/presentation submitted.

RESOLUTION AGAINST AGENDA NO. 04

The committee discussed the matter and recommended grant of environmental clearance for the project proposal along with general and specific conditions as annexed at Annexure-1 to these minutes. The committee also stipulated the following specific conditions:

1. The project proponent shall install solar light in their site office.
2. During the submission of 6 monthly compliance reports, the project proponent should make sure that the periodically taken site photographs should also be annexed along with the compliance report.
3. Preference should be given to indigenous local species as per the consultation of the local district Forest Officer.
4. The maximum height of the bench should be 06 meters and the width of the bench should be at least twice the height of the bench as per the mine plan approval letter by DGM, U.P
5. In case the blasting is proposed during a mining operation, the project proponent needs to assess its impact on the displacement of human beings/wild animals/birds/other species, and the suitable measures proposed and taken for their rehabilitation and resettlement need to be clearly described in first 6 monthly compliance report.
6. The project proponent shall submit a final mine closure plan/Exit protocol for rehabilitation of mined-out land to match its surrounding land use 3years before the closure of the mine to SEIAA, UP and Department of Mines and Geology, UP for approval. The project proponent shall ensure the implementation of the approved plan under the supervision of the Dept. of Mines and Geology.
7. The project proponent shall plan and implement collection drain and siltation basins of adequate size to arrest the silt and sediment flow from the quarry area. The surface runoff rainwater harvesting and other water conservation measures on a long-term basis are to be taken in consultation with the Central/State Groundwater Board. The water so collected should be utilized for watering the haulage area, roads, and green belt development, etc.
8. The project proponent shall take all suitable measures to prevent pollution of groundwater and nearby water bodies in consultation with the State Pollution Control Board and consent to operate (if applicable) should be obtained from the State Pollution Control Board before the start of production from the mine.
9. Link Road from the quarry site to the main road shall be constructed as an all-weather road with blacktopping and maintained by the project proponent.
10. Vehicular emissions should be kept under control and regularly monitored. Suitable measures shall be taken for proper maintenance of vehicles used in a quarry operation and transportation.
11. The project proponent should explore the possibilities of rainwater harvesting.

5. “Common Hazardous Waste Treatment, Storage and Disposal Facility” at Khata 446, Gata 552K, 555K, 594K, 555, 706G 694, 695, 696, Village-Kumbhi, Tehsil Akbarpur, Kanpur Dehat, M/s Bharat Oil & Waste Management Ltd. File No. 6298/Proposal No. SIA/UP/MIS/63227/2021

The consultant informed the committee that they are strictly following the rules, regulations and other instructions of QCI/NABET. A presentation was made by the project proponent along with their consultant M/s Perfect Enviro Solutions Pvt. Ltd. The project proponent informed the committee as follows:

- The site was selected and acquired in March, 1997 for the establishment of CHWTSDF by UPPCB and MoEF Circular F.No. J-11013/41/2006-IA-II(I)(Part) dated January 15, 2008 “Applicability of EIA Notification 2006 for cases where land was acquired before EIA Notification 1994”, Para (ii), which states that “Only such projects listed under EIA Notification, 2006 shall not require environment clearance under the said notification which were not listed in EIA Notification, 1994 and for which NOC was issued on or before September 14, 2006”.
 - a. TSDF projects were not listed in EIA notification, 1994
 - b. TSDF projects were listed in EIA notification September 14, 2006
- NOC/CTE for Kanpur-Dehat Facility (leased to BOWML) was issued by UPPCB before September 14, 2006 to Kanpur Pollution Control Committee. Therefore, no environment clearance was / is required.
- The Existing Site started operations in year 2010 and obtained HW Authorization and Consent under Air and Water every year since 2010 till date and existing Authorization and Consents are valid till June 2023 and is compliance of HOWM Rules, 2016 and CPCB Guidelines. Existing BOWML Site 1 (Gata 672) is exhausted of anymore space for SLF. Site1 remaining active SLF Cell 3 will be closed and capped by early 2023.
- Therefore for Site 2, State of UP through UPPCB has provided 10 acre land at Gata 706G for developing the TSDF on lease rent of Rs 1,20,000/year for 30 years + 20 years (July 2020 to July 2050 with mutual extension till 2070).
- There is no eco-sensitive area within the 15 Km radius of the project site
- There is no forest, Wildlife Species, Notified Protected Area or any Archaeological Sites.
- No construction activity relating to the project including civil construction has been undertaken at the site except construction of boundary wall to protect it from getting encroached.
- There is no litigation pending against the proposed project.
- The proposal does not fall in Critically Polluted Area (CPA)/Severely Polluted Area (SPA) as specified time to time by CPCB/Ministry of Environment, Forests & Climate Change, Govt. of India.

Based on the documents submitted and presentation made by the project proponent along with the consultant, the following facts have emerged: -

1. The environmental clearance is sought for “Common Hazardous Waste Treatment, Storage and Disposal Facility” at Khata 446, Gata 552K, 555K, 594K, 555, Gata no. 706G (706 ञ) 94, 695, 696, Village Kumbhi, Tehsil Akbarpur, Kanpur Dehat, M/s Bharat Oil & Waste Management Ltd.
2. The terms of reference in the matter were issued by SEIAA, U.P. vide letter no. 181/Parya/SEIAA/6298/2021, dated 13/09/2021.
3. The public hearing was organized on 28/03/2022. Final EIA report submitted by the project proponent on 06/05/2022.

4. The total plot area of the project is 91,000 m² (approx 22.5 acres) out of which 10 acres of land is given on lease by UPPCB to the M/s Bharat Oil & Waste Management Ltd vide Lease Agreement no DH095396 for a minimum period of 29 years and 11 month.
5. The Existing Bharat Oil & Waste Management Ltd. site is sponsored by State of UP having received 7.5 Acres on lease of 30 years + 20 years (June, 2008 to June 2038 with mutual extension till 2058) from State of UP through UPPCB @ Rs32,000/year and subsidy of 1 Crore from State of UP and 1 Crores from MoEF&CC for Secured Landfill.
6. The Plant capacity details of Landfill will be 50,000 TPA, pre-processing/ AFR will be 50,000 TPA; E-waste recycling capacity of 20,000 TPA and drum reconditioning of 20,000 MTPA.
7. The total cost of the project is Rs. 25 Crores.
8. Geo coordinates of the project site:

Direction	Latitude	Longitude
A	26°21'21.00"N	79°51'40.90"E
B	26°21'17.90"N	79°51'43.50"E
C	26°21'14.80"N	79°51'49.50"E
D	26°21'25.40"N	79°51'54.70"E
E	26°21'30.00"N	79°51'51.50"E

9. Salient features of the project:

S. No.	Particulars	Unit	Proposed Details
1.	Plot area	m ²	91000 m ² (9.1 ha.)
2.	Green Area	m ²	30,000 (33% of plot area)
3.	Total waste which may be processed per year	TPA	140,000
4.	Waste handling capacity	TPA	14,53,500
5.	Estimated Project Cost	Crores INR	25
6.	Landfill	TPA	50,000
7.	Pre-processing / AFR	TPA	50,000
8.	E- waste Recycling	TPA	20,000
9.	Drum Reconditioning	TPA	20,000
10.	Total no. of cells		9 SLF Cells Planned (8 and 9)
11.	Source of Electricity Supply	-	Uttar Pradesh State Electricity Board
12.	Power Requirement	kVA	600 (100 kVA for pre processing and 500 kVA for E waste recycling)
13.	DG Sets (Backup)	kVA	1 x10, 1x40, 1x100 and 1x500
14.	Fuel Requirement	kl/hour	0.04
15.	Source of Water	-	Borewell
16.	Water Requirement	KLD	8
17.	Fresh Water Requirement	KLD	6
18.	Wastewater Generation	KLD	2.3
19.	Capacity of MEE	KLD	5
20.	Vehicles for transportation	Numbers	7 or more trucks depending upon the need of industries
21.	Life of Landfill estimated	Year	30

10. Details of sensitivity area within 10 km:

Particulars	Distance from Project Site
Water Bodies	
Sengar River	0.14 Km ENE
Hasnapur Distributary	1.99 Km NNE
Rasdhan Distributary	3.23 Km SSW
Kuitkhera Minor	4.68 Km NE
Barwa Minor	4.87 Km WSW
Baraur Distributary	5.65 Km SSW
Atwa Distributary	5.67 Km WSW

Karasa Minor	5.87 Km WNW
Nanthu Distributary	6.91 Km NNE
Pond near SargaonBuzurg	7.46 Km SSW
Drain near Akbarpur	7.57 Km NNW
LinjhiNala	7.58 Km SSE
Mangata Minor	6.94 km SSE
Mawar Minor	8.10 Km WNW
Derapur Minor	8.25 Km WSW
Dohrapur Minor	8.85 Km SSW
Pond near Chandanamau	8.86 Km NE
Nariha Minor	9.92 Km ENE
Akbarpur Distributary	10.26 Km ENE
Etawah Branch (Lower Ganga Canal)	10.62 Km ENE
Reserve Forest	
Balai Buzurg Reserve Forest	2.73 Km WNW

11. Land use details:

Particulars	Total area (m²)	% Area
Ground coverage	2000.0	2.2
Green Area	30000.0	33
Processing Area & Storage Area	5000.0	5.5
Landfill Area	51000.0	56
Utility Area (Consider WTP, Storm Water Drain, ESS etc.)	1000.0	1.1
Open & road area	2000.0	2.2
Total Area	91000.0	100

12. Plant & Machinery details for Landfill:

S. No.	List of Machinery & Equipment	Quantities	Capacity
1.	Excavators Front Loader	1	--
2.	Pocklan	1	--
3.	Tractor Trolley	1	--
4.	Dumper Trucks with Hydraulic Lift	1	10 MT
5.	HDPE Liner Welding Machine - Dual Hot Wedge Welding	1	--
6.	HDPE Liner Rod Welding Machine	1	--
7.	HDPE Liner Hot Air Gun Welding Machine	1	--
8.	Sump Pumps 10 KW	1	--
9.	Compactor Machine	1	--
10.	Shredder	1	10 MT/hr
11.	Mixer	1	5 MT/hr
12.	Hammer-cum-Cutter Machine	1	5 MT/hr
13.	Compressor	1	5 MT/hr
14.	Baling Machine for Plastic/Tin	1	5 MT/hr
15.	Forklift Drum/Pallet Loader	1	--
16.	Pulverizer	1	5 MT/hr
17.	Smelter	1	5 MT/hr
18.	Cable Stripper	1	1 MT/hr
19.	Iron Metal Separator	1	5 MT/hr
20.	Centrifuge	1	--
21.	Electrolysis	1	1 MT/hr

13. Plant and Machinery details for E-waste Recycling

List of Machinery & Equipment	Capacity
Mixed Shredder	5 MT/hr
Metal Shredder	5 MT/hr
Mixed Plastic Granulator	5 MT/hr
Magnetic Separator for Iron	5 MT/hr
Eddy Current Separator	5 MT/hr
Pulverizer	5 MT/hr
Smelter Oven	5 MT/hr
Electrolysis	1 MT/hr

Cable Stripper	5 MT/hr
CRT Display Crusher	1 MT/hr
Tubelight Crusher	1 MT/hr

14. Solid waste details:

Category	Type of Waste	Treatment Method	Details kg/day
Biodegradable	Organic Waste	Given to authorised recycler	3.0
Non-Biodegradable	Recyclable Waste (Plastic, paper, wood, glass, etc)	Given to authorised recycler	4.5
	Total		7.5

15. Hazardous waste details:

Process Waste	Unit	Quantity of generation	Treatment/Disposal
33.1 Discarded Drums	MTPA	3000	Cleaning/Re-conditioning within the TSDF; thereafter reuse or recycle as per rules.

16. Hazardous waste details:

S.No.	Category (as per HWM Rules,2016)	Unit	Waste	Disposal
1	5.1- Used Oil	Liters	1000/year	To registered recycler
2	35.3- MEE residue	MT	150 TPA	Landfill after Treatment

17. Battery waste details:

S, No	Process Waste	Unit	Quantity of generation	Treatment/Disposal
1.	Lead Acid Battery	MTPA	100	Sold as it to authorised recycler as per Battery Waste Management Rules, 2001

18. The project proposal falls under category-7(d) of EIA Notification, 2006 (as amended).

The consultant (EIA Coordinator) also submitted an affidavit dated 23/05/2022 mentioning is as follows:

1. I, Akta Chugh, W/o Shri Sanjay Chugh is EIA Coordinator of M/s Perfact Enviro Solutions Pvt. Ltd., Delhi.
2. I have prepared EIA/EMP report for the project “Common Hazardous Waste Treatment, Storage and Disposal Facility” at Khata 446, Gata 552K, 555K, 594K, 555, Gata no. 706G (706 ञ) 94, 695, 696, Village Kumbhi, Tehsil Akbarpur, Kanpur Dehat, Uttar Pradesh with my team.
3. I have personally visited the site of the proposal and certify that no construction activity has been undertaken on the proposed site for the present proposal.
4. I am satisfied with that all the necessary data/information required for EIA preparations are true and correct.
5. I certify that this project has been uploaded for the first time on Parivesh Portal.
6. I certify that there is no mismatch between information/data provided on online application and hard copy/presentation submitted.
7. I state that all the ToR points have been complied and all the issues raised during public hearing have been properly addressed in the EIA report.

RESOLUTION AGAINST AGENDA NO. 05

The committee discussed the matter and recommended grant of environmental clearance for the project proposal along with following general and specific conditions:

I. Statutory compliance:

1. The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1986, in case of the diversion of forest land for non-forest purpose

- involved in the project.
2. The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.
 3. The project proponent shall prepare a Site-Specific Conservation Plan & Wildlife Management Plan and approved by the Chief Wildlife Warden. The recommendations of the approved Site-Specific Conservation Plan / Wildlife Management Plan shall be implemented in consultation with the State Forest Department. The implementation report shall be furnished along with the six-monthly compliance report. (in case of the presence of schedule-1 species in the study area).
 4. The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State Pollution Control Board/ Committee.
 5. The Project proponent should ensure that the TSDF fulfils all the provisions of Hazardous and other Wastes (Management and Transboundary Movement) Rules, 2016.
 6. The project proponents shall adhere to all conditions as prescribed in the Protocol for 'Performance Evaluation and Monitoring of the Common Hazardous waste treatment, storage and disposal facilities published by the CPCB in May, 2010.
 7. Incinerator shall be designed as per CPCB guidelines. Energy shall be recovered from incinerator.
 8. The project proponent shall obtain the necessary permission from the Central Ground Water Authority, in case of drawl of ground water / from the competent authority concerned in case of drawl of Surface water required for the project.
 9. A certificate of adequacy of available power from the agency supplying power to the project along with the load allowed for the project should be obtained.
 10. All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department shall be obtained, as applicable by project proponents from the respective competent authorities

II. Air quality monitoring and preservation:

1. The project proponent shall install 24x7 continuous emission monitoring system at process stacks to monitor stack emission with respect to standards prescribed in Environment (Protection) Rules 1986 and connected to SPCB and CPCB online servers and Calibrate these systems from time to time according to equipment supplier specification through labs recognised under Environment (Protection) Act, 1986 or NABL accredited laboratories.
2. The project proponent shall monitor fugitive emissions in the plant premises at least once in every quarter through labs recognised under Environment (Protection) Act, 1986.
3. The project proponent shall install system to carryout Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g. PM₁₀ and PM in reference to PM emission, and SO₂ and NO_x in reference to SO₂ and NO_x emissions) within and outside the plant area at least at four locations (one within and three outside the plant area at an angle of 120° each), covering upwind and downwind directions.
4. Sampling facility at process stacks and at quenching towers shall be provided as per CPCB guidelines for manual monitoring of emissions.
5. The project proponent shall submit monthly summary report of continuous stack emission and air quality monitoring and results of manual stack monitoring and manual monitoring of air quality /fugitive emissions to Regional Office of MoEF&CC, Zonal office of CPCB and Regional Office of SPCB along with six- monthly monitoring report.
6. Appropriate Air Pollution Control (As proposed, air pollution control device viz. gas quenches; treatment with mixture of hydrated lime and activated powder for adsorption of

partial acidity and VOCs (if any); bagfilter/ESP for removal of particulate matter; venturi scrubber followed by packed bed scrubber with caustic circulation to neutralize the acidic vapours in fuel gas; and demister column for arresting water carry over will be provided to the incinerator) system shall be provided for all the dust generating points including fugitive dust from all vulnerable sources, so as to comply prescribed stack emission and fugitive emission standards.

7. The periodical monitoring of Dioxins and Furans in the Stack emissions shall be carried out. Analysis of Dioxins and Furans shall be done through CSIR — National Institute for Interdisciplinary Science and Technology (NIIST), Thiruvananthapuram or equivalent NABL Accredited laboratory.
8. Gas generated in the Land fill should be properly collected, monitored and faired.
9. A detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 02 kms radius of the project is maintained and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habitation being carried out or proposed to be carried out by the project or other agencies in this 02 Kms radius of the site in different scenarios of space and time and the traffic management plan shall be duly validated and certified by the State Urban Development department and the P.W.D./ competent authority for road augmentation and shall also have their consent to the implementation of components of the plan which involve the participation of these departments.

III. Water quality monitoring and preservation:

1. The project proponent shall install continuous effluent monitoring system with respect to standards prescribed in Environment (Protection) Rules 1986 and connected to SPCB and CPCB online servers and calibrate these systems from time to time according to equipment supplier specification through labs recognised under Environment (Protection) Act, 1986 or NABL accredited laboratories.
2. Sufficient number of Piezometer wells shall be installed in and around the project site to monitor the ground water quality in consultation with the State Pollution Control Board / CPCB. Trend analysis of ground water quality shall be carried out each season and information shall be submitted to the SPCB and the Regional Office of MoEF&CC.
3. The project proponent shall submit monthly summary report of continuous effluent monitoring end results of manual effluent testing and manual monitoring of ground water quality to Regional Office of MoEF&CC, Zonal office of CPCB and Regional Office of SPCB along with six-monthly monitoring report.
4. No discharge in nearby river(s)/pond(s).
5. The depth of the land fill site shall be decided based on the ground water table at the site.
6. The Company shall ensure proper handling of all spillages by introducing spill Control procedures for various chemicals.
7. All leachates arising from premises should be collected and treated in the ETP followed by RO. RO rejects shall be evaporated in MEE. Toxicity Characteristic Leaching Procedure (TCLP) test to be performed on leachates.
8. The Company shall review the unit operations provided for the treatment of effluents, specially the sequencing of MEE after tertiary treatment, the source of permeate when no R.O. is recommended and the treatment of MEE condensate. The scheme for treatment of effluents shall be as permitted by the Pollution Control Board/Committee under the provisions of consent to establish.
9. Scrubber water, leachate water or wheel wash effluent shall be treated in the effluent treatment plant followed by RO to achieve zero liquid discharge.

10. Total fresh water use shall not exceed the proposed requirement as provided in the project details. Prior permission from competent authority shall be obtained for use of fresh water.
11. Sewage Treatment Plant shall be provided to treat the wastewater generated from the project. Treated water shall be reused within the project.
12. A certificate from the competent authority for discharging treated effluent/ untreated effluents into the Public sewer/ disposal/drainage systems along with the final disposal point should be obtained.
13. Rain water runoff from hazardous waste storage area shall be collected and treated in the effluent treatment plant.

IV. Noise monitoring and prevention:

1. Noise level survey shall be carried as per the prescribed guidelines and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.
2. The ambient noise levels should conform to the standards prescribed under E(P)A Rules, 1986 viz. 75 dB(A) during day time and 70 dB(A) during night time.
3. Acoustic enclosures for DG sets, noise barriers for ground-run bays, ear plugs for operating personnel shall be implemented as mitigation measures for noise impact due to ground sources.

V. Energy Conservation measures:

1. Energy conservation measures like installation of LED/CFLs/TFLs for the lighting the areas outside the building should be integral part of the project design and should be in place before project commissioning.

VI. Waste management:

1. The TSDF should only handle the waste generated from the member units.
2. Periodical soil monitoring to check the contamination in and around the site shall be carried out.
3. No non-hazardous wastes, as defined under the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016, shall be handled in the premises.
4. The Project proponent shall not store the Hazardous Wastes more than the quantity that has been permitted by the CPCB/SPCB.
5. The solid wastes shall be segregated, managed and disposed as per the norms of the Solid Waste Management Rules, 2016.
6. A certificate from the competent authority handling municipal solid wastes should be obtained, indicating the existing civic capacities of handling and their adequacy to cater to the M.S.W. generated from project.
7. Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the Construction and Demolition Rules, 2016.

VII. Green Belt:

1. Green belt shall be developed in an area as provided in project details, with native tree species in accordance with Forest Department. The greenbelt shall inter alia cover the entire periphery of the project site.
2. Top soil shall be separately stored and used in the development of green belt.

VIII. Public hearing and Human health issues:

1. Traffic congestion near the entry and exit points from the roads adjoining the project site shall be avoided. Parking should be fully internalized and no public space should be utilized.
2. Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.
3. Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, creche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.
4. Occupational health surveillance of the workers shall be done on a regular basis.

IX. Corporate Environment Responsibility:

1. The project proponent shall comply with the provisions contained in this Ministry's OM vide F.No. 22-65/2017-IA.III dated 1st May 2018, as applicable, regarding Corporate Environment Responsibility.
2. The company shall have a well laid down environmental policy duly approved by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental / forest /wildlife norms/ conditions. The company shall have defined system of reporting infringements / deviation / violation of the environmental / forest / wildlife norms / conditions and / or shareholders / stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.
3. A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly report to the head of the organization.
4. Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six Monthly Compliance Report.
5. Self environmental audit shall be conducted annually. Every three years third party environmental audit shall be carried out.

X. Miscellaneous:

1. The project proponent shall make public the environmental clearance granted for their project along with the environmental conditions and safeguards at their cost by prominently advertising it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days and in addition this shall also be displayed in the project proponent's website permanently.
2. The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.
3. The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.

4. The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.
 5. The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.
 6. The Criteria pollutant levels namely; SPM, RSPM, SO₂, NO_x (ambient levels as well as stack emissions) or critical sectoral parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.
 7. The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of prediction operation by the project.
 8. The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.
 9. The project proponent shall abide by all the commitments and recommendations made in the EIA/EMP report, commitment made during Public Hearing and also that during their presentation to the Expert Appraisal Committee.
 10. No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment, Forests and Climate Change (MoEF&CC).
 11. Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.
 12. The SEIAA/Ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.
 13. The SEIAA/Ministry reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.
 14. The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/monitoring reports.
 15. The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts/NGT and any other Court of Law relating to the subject matter.
 16. Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
- 6. Sand Mining at Gata No.-72, Village- Dilari, Tehsil- Swar, District- Rampur, Shri Gurmeet Singh, Area : 1.100 ha. File No. 7069/Proposal No. SIA/UP/MIN/271589/2022**

The consultant informed the committee that they are strictly following the rules, regulations and other instructions of QCI/NABET. A presentation was made by the project proponent along with their consultant M/s Paramarsh (Servicing Environment and Development), Lucknow, U.P. Based on the documents submitted and presentation made by the project proponent along with the consultant, the following facts have emerged: -

1. The environmental clearance is sought for Ordinary Sand Mining at Gata No.- 72, Village- Dilari, Tehsil-Swar, District- Rampur, U.P., (Leased Area- 1.100 ha.), M/s A. A. Cable Layers.

2. Salient features of the project as submitted by the project proponent:

1.	On-line report submitted on	07/05/2022		
2.	On-line proposal No.	SIA/UP/MIN/271589/2022		
3.	File No. allotted by SEIAA, UP	7069		
4.	Name of Proponent	M/S A. A. CABLE LAYERS, Shri Gurmeet Singh, Partner		
5.	Full correspondence address of proponent	R/o- Asadullahpur, Tehsil- Milka, District- Rampur, U.P.		
6.	Name of Project	Ordinary Sand Mining Project		
7.	Project location (Plot/ Khasra /Gata No.)	Gata No.- 72		
8.	Name of River	Baur		
9.	Name of Village	Dilari		
10.	Tehsil	Swar		
11.	District	Rampur		
12.	Name of Minor Mineral	Ordinary Sand		
13.	Sanctioned Lease Area (in Ha.)	1.100 ha.		
14.	Max.& Min mrl within lease area	200.0 mRL- 198.0 mRL		
15.	Pillar Coordinates (Verified by DMO)	Pillars	Latitude (N)	Longitude (E)
		Total Area (1.100 ha.)		
		A	28° 58'41.2"N	79° 08. 45.6"E
		B	28° 58'41.6"N	79° 08. 46.4"E
		C	28° 58'45.7"N	79° 08. 44.9"E
		D	28° 58'47.5"N	79° 08. 41.8"E
		E	28° 58'46.9"N	79° 08. 40.7"E
		F	28° 58'44.7"N	79° 08. 43.1"E
16.	Total Geological Reserves	37400 m ³		
17.	Total Mineable Reserves	22440 m ³		
18.	Total Proposed Production (6 month)	22000 m ³		
19.	Sanctioned Period of Mine lease	6 month (from execution of lease deed)		
20.	Method of Mining	Opencast Semi-Mechanized		
21.	No.of working days	156 days		
22.	Working hours/day	8 Hours/Day		
23.	No.Of workers	25 (average)		
24.	No.Of vehicle movement /day	15 (average)		
25.	Type of Land	Personal Land		
26.	Ultimate Depth of Mining	2.60 meter (average)		
27.	Nearest metalled road from site	0.30 km		
28.	Water Requirement	PURPOSE	REQUIREMENT (KLD)	
		Drinking & Others	0.25	
		Suppression of dust	1.80	
		Plantation	1.10	
		Others(if any)	-----	
		Total	3.15	
29.	Name of QCI Accredited Consultant with QCI No and period of validity.	M/s Paramarsh (Servicing Environment and Development)., Lucknow, U.P. QCI/NABET/EIA/2124/RA0224 Validity- May 01, 2024		
30.	Any litigation pending against the project or land in any court	No		
31.	Details of 500 m Cluster certificate Verified by Mining Officer	DMO (Mining Section), Rampur vide Letter No. 397/Khanij, Dated 24/03/2022		
32.	Details of Lease Area in approved DSR	Sr. No.- 03		
33.	Proposed CER cost	0.80 Lakh		
34.	Proposed EMP cost	8.97 Lakh		
35.	Length and breadth of Haul Road.	Length- 0.30 km, Width- more than 6.0 m		
36.	No. of Trees to be Planted	1100		

3. The mining would be restricted to unsaturated zone only above the phreatic water table and will not intersect the ground water table at any point of time.

4. This project does not attract any of the general conditions applicable on mining projects specified in EIA Notification 14/09/2006.
5. The mining operation will not be carried out in safety zone of any bridge or embankment or in eco-fragile zone such as habitat of any wild fauna.
6. There is no litigation pending in any court regarding this project.
7. The project proposal falls under category-1(a) of EIA Notification, 2006 (as amended).

The consultant (EIA Coordinator) also submitted an affidavit dated 26/04/2022 mentioning is as follows:

1. I, Pankaj Srivastava S/o Sri V.V. Srivastava am EIA Coordinator of Paramarsh Servicing Environment and Development.
2. I will prepare EMP report for the File No. - 7069, Proposal No.- SIA/UP/MIN/271589/2022, of the client M/S A. A.CABLE LAYERS, Shri Gurmeet Singh for the “Ordinary Sand Mining” Project at Gata No.- 72,Village- Dilari, Tehsil- Swar, District- Rampur, U.P. (Applied Area : 1.100 ha.) with my team.
3. I have personally visited the site of proposal.
4. I have satisfied with that all the necessary data/information required for EMP preparations are true and correct.
5. I certify that no mining activity has been undertaken on the project site for the present proposal.
6. I certify that this project has been uploaded for the first time on Parivesh Portal.
7. I certify that there is no mismatch between information/data provided on online application and hard copy/presentation submitted.

RESOLUTION AGAINST AGENDA NO. 06

The committee discussed the matter and recommended grant of environmental clearance for the project proposal along with general and specific conditions as annexed at Annexure-2 to these minutes. The committee also stipulated the following specific conditions:

1. Project proponent informed that they have prepared conservation plan for peacock (schedule-1 animal) which has been found around the project site. Project proponent should ensure that the conservation plan should be approved by Forest and Wildlife Department, U.P.
2. Project proponent proposed to adopt the village-Kumbhi to develop as model village.
3. The project proponent shall install solar light in their site office.
4. During the submission of 6 monthly compliance reports, the project proponent should make sure that the periodically taken site photographs should also be annexed along with the compliance report.
5. Preference should be given to indigenous local species as per the consultation of the local district Forest Officer.
6. Link Road from the quarry site to the main road shall be constructed as an all-weather road with blacktopping and maintained by the project proponent.
7. Vehicular emissions should be kept under control and regularly monitored. Suitable measures shall be taken for proper maintenance of vehicles used in a quarry operation and transportation.
8. The project proponent should explore the possibilities of rainwater harvesting.
9. Agreement/ Consent between project proponent and competent authority/ landowner for haulage road from lease site to link road.
10. Latest technology (water sprinklers/ tankers) to be adopted for mitigating dust at source points in lease area and haulage road during operational activity/vehicular movement.
11. As per the proposed plan, plantation with area specific plant species, number of plants to be planted.
12. Water requirement details along with source of water and the permission/ agreement with the concerning authority/ water supplying agencies to be submitted.

7. Stone Sand Stone Mining at Gata No.-12Mi , Village- Chaklathiya, Tehsil- Chunar, Mirzapur, Shri Prashant Singh., Area : 3.232 ha. File No. 7070/Proposal No. SIA/UP/MIN/76705/2022

The consultant informed the committee that they are strictly following the rules, regulations and other instructions of QCI/NABET. A presentation was made by the project proponent along with their consultant M/s Paramarsh (Servicing Environment and Development), Lucknow, U.P. Based on the documents submitted and presentation made by the project proponent along with the consultant, the following facts have emerged: -

1. The terms of reference is sought for Building Stone, Sand Stone Mining at Gata No.- 12Mi, Village- Chaklathiya, Tehsil- Chunar, District- Mirzapur, U.P., (Leased Area- 3.232 ha.), M/s IVTECH India Pvt. Ltd.
2. Salient features of the project as submitted by the project proponent:

1.	On-line proposal No.	SIA/UP/MIN/76705/2022	
2.	File No. allotted by SEIAA, UP	7070	
3.	Name of Proponent	M/S IVTECH INDIA PVT. LTD., Director- Shri Prashant Singh	
4.	Full correspondence address of proponent	R/o- Sarswati Nagar, Behind TCI , Distt.- Varanasi, U.P.	
5.	Name of Project	Building Stone Sand Stone Mining Project	
6.	Project location (Plot/ Khasra /Gata No.)	Gata No.- 12Mi	
7.	Name of Village	Chaklathiya	
8.	Tehsil	Chunar	
9.	District	Mirzapur	
10.	Name of Minor Mineral	Building Stone Sand Stone	
11.	Sanctioned Lease Area (in Ha.)	3.232 ha.	
12.	Max.& Min mRL within lease area	130 mRL- 103 mRL	
13.	Pillar Coordinates (Verified by DMO)	Pillars	Latitude (N) Longitude (E)

28.	Name of QCI Accredited Consultant with QCI No and period of validity.	M/s Paramarsh (Servicing Environment and Development), Lucknow, U.P. QCI/NABET/EIA/2124/RA0224 Validity- May 01, 2024	
29.	Any litigation pending against the project or land in any court	No	
30.	Details of 500 m Cluster certificate Verified by Mining Officer	DMO (Mining Section), Mirzapur vide Letter No. 5037/ Khanij/ 2022, Dated 27 th April, 2022	
31.	Details of Lease Area in approved DSR	Page No.-14, S.No.- 88	
32.	Proposed CER cost	1.60 Lakh	
33.	Proposed EMP cost	28.40 Lakh	
34.	Length and breadth of Haul Road.	Length- 100, Width- more than 6.0 m	
35.	No. of Trees to be Planted	4000	

3. The mining would be restricted to unsaturated zone only above the phreatic water table and will not intersect the ground water table at any point of time.
4. This project does not attract any of the general conditions applicable on mining projects specified in EIA Notification 14/09/2006.
5. The mining operation will not be carried out in safety zone of any bridge or embankment or in eco-fragile zone such as habitat of any wild fauna.
6. There is no litigation pending in any court regarding this project.
7. The project proposal falls under category-1(a) of EIA Notification, 2006 (as amended).

The consultant (EIA Coordinator) also submitted an affidavit dated 26/04/2022 mentioning is as follows:

1. I, Pankaj Srivastava S/o Sri V.V. Srivastava am EIA Coordinator of Paramarsh Servicing Environment and Development.
2. I will prepare EIA report for the File No. - 7070, Proposal No.- SIA/UP/MIN/76705/2022, of the client M/S IVTECH INDIA PVT. LTD., Director- Shri Prashant Singh for the “Building Stone Sand Stone” Project at Gata No.-12 Mi,Village- Chaklathiya, Tehsil- Chunar, District- Mirzapur, U.P. (Applied Area : 3.232ha.) with my team.
3. I have personally visited the site of proposal.
4. I have satisfied with that all the necessary data/information required for EIA preparations are true and correct.
5. I certify that no mining activity has been undertaken on the project site for the present proposal.
6. I certify that this project has been uploaded for the first time on Parivesh Portal.
7. I certify that there is no mismatch between information/data provided on online application and hard copy/presentation submitted.
8. I state that all the TOR Points will be complied and all the issues raised during Public Hearing will be properly addressed in EIA report.

RESOLUTION AGAINST AGENDA NO. 07

The committee discussed the matter and recommended to issue the standard terms of reference for the preparation of EIA as annexed at Annexure-3 to the minutes. The committee also stipulated following additional TOR Points:

Additional TOR:

1. To ensure proper monitoring, the project proponent/consultant should provide evidence in form of (A) Raw Data (B) Logbook of their site visit along with activities carried out during monitoring (C) Real time photographs showing monitoring machine, public, lab person etc.

2. EIA coordinator & FAE should give a photo affidavit during EIA presentation that they have personally visited the site & they have also taken all the mitigating measures for any critical issues involved in the project.
3. Combined KML of all mines in a cluster should be submitted at the time of EIA.
4. The details of equipment used for baseline monitoring alongwith its photograph mentioning date, time and geo coordinates for preparation of EIA report should be clearly displayed to the people present during public hearing and the complete details related to monitoring period must be mentioned in the minutes of public hearing.
5. The project proponent/Consultant should identify the core & buffer zone (2.5 km) of the mining site.
6. Agreement/ Consent between project proponent and competent authority/ landowner for haulage road from lease site to link road to be submitted at the time of EIA presentation.
7. Proponent/ Consultant should submit the plan/information along with technology (photographs of water sprinklers/ tankers) to be implemented for mitigating dust at source points in lease area and haulage road during operation activity/vehicular movement. Technology should be displayed at the time of EIA presentation.
8. Proposed plantation plan with area specific plant species, number of plants to be planted and place of plantation along with a proper map to be submitted at the time of EIA presentation.
9. Water requirement details along with source of water and the permission/ agreement with the concerning authority/ person to be submitted at the time of EIA presentation.
10. Proponent/consultant shall present TOR specific/additional conditions compliance, observation/suggestions raised during the public hearing and commitment made by the project proponent in a tabular form with a time bound plan at the time of EIA presentation.

8. Stone, Sand Stone Mining at Gata No.180/2 , Village-Bhagoti Dei, Chunar, Mirzapur. Shri Prashant Singh., M/s IVTECH India Pvt. Ltd., Area 1.414 ha. File No. 7071/Proposal No. SIA/UP/MIN/76709/2022

The consultant informed the committee that they are strictly following the rules, regulations and other instructions of QCI/NABET. A presentation was made by the project proponent along with their consultant M/s Paramarsh (Servicing Environment and Development), Lucknow, U.P. Based on the documents submitted and presentation made by the project proponent along with the consultant, the following facts have emerged: -

1. The terms of reference is sought for Building Stone Sand Stone Mining at Gata No.- 180/2, Village- Bhagoti Dei, Tehsil- Chunar, District- Mirzapur, U.P., (Leased Area- 1.414 ha.), M/s IVTECH India Pvt. Ltd.
2. Salient features of the project as submitted by the project proponent:

7. I certify that there is no mismatch between information/data provided on online application and hard copy/presentation submitted.
8. I state that all the TOR Points will be complied and all the issues raised during Public Hearing will be properly addressed in EIA report.

RESOLUTION AGAINST AGENDA NO. 09

The committee discussed the matter and recommended to issue the standard terms of reference for the preparation of EIA as annexed at Annexure-3 to the minutes. The committee also stipulated following additional TOR Points:

Additional TOR:

1. To ensure proper monitoring, the project proponent/consultant should provide evidence in form of (A) Raw Data (B) Logbook of their site visit along with activities carried out during monitoring (C) Real time photographs showing monitoring machine, public, lab person etc.
2. EIA coordinator & FAE should give a photo affidavit during EIA presentation that they have personally visited the site & they have also taken all the mitigating measures for any critical issues involved in the project.
3. Combined KML of all mines in a cluster should be submitted at the time of EIA.
4. The details of equipment used for baseline monitoring alongwith its photograph mentioning date, time and geo coordinates for preparation of EIA report should be clearly displayed to the people present during public hearing and the complete details related to monitoring period must be mentioned in the minutes of public hearing.
5. The project proponent/Consultant should identify the core & buffer zone (2.5 km) of the mining site.
6. Agreement/ Consent between project proponent and competent authority/ landowner for haulage road from lease site to link road to be submitted at the time of EIA presentation.
7. Proponent/ Consultant should submit the plan/information along with technology (photographs of water sprinklers/ tankers) to be implemented for mitigating dust at source points in lease area and haulage road during operation activity/vehicular movement. Technology should be displayed at the time of EIA presentation.
8. Proposed plantation plan with area specific plant species, number of plants to be planted and place of plantation along with a proper map to be submitted at the time of EIA presentation.
9. Water requirement details along with source of water and the permission/ agreement with the concerning authority/ person to be submitted at the time of EIA presentation.
10. Proponent/consultant shall present TOR specific/additional conditions compliance, observation/suggestions raised during the public hearing and commitment made by the project proponent in a tabular form with a time bound plan at the time of EIA presentation.

10. Stone (sandstone) Mining at Gata no. 703, SI No. 04, Village- Bhagautidei, Tehsil-Chunar, District-Mirzapur, Smt. Kiran Singh., M/s Divyansh Construction Company, area- 1.01 Ha. File No. 6702/Proposal No. SIA/UP/MIN/68993/2021

RESOLUTION AGAINST AGENDA NO-10

During the presentation any responsible person did not present in the meeting from the project proponent side. Hence, the committee decided to defer the matter and directed to list the matter in next SEAC meeting proposed on 21/06/2022.

11. Stone, Khanda & Gitti, Boulder Mining at Arazi No. 989, Khand No. 07, Village-Makarbai, Tehsil & District-Mahoba, Smt. Sunaina., Area 0.809 Ha. File No. 6417/Proposal No. SIA/UP/MIN/61833/2021

The consultant informed the committee that they are strictly following the rules, regulations and other instructions of QCI/NABET. A presentation was made by the project proponent along with their consultant M/s Environmental Research and Analysis. Based on the documents submitted and presentation made by the project proponent along with the consultant, the following facts have emerged: -

1. The environmental clearance is sought for Building Stone, Khanda, Boulder, Ballast (Gitti) (Granite) Mining at Arazi No. 989 (Khand No. – 07), Village: Makarbai, Tehsil: Sadar, District: Mahoba, (U.P.), (Leased Area- 0.809 ha.).

2. The terms of reference in the matter were issued by SEIAA, U.P. vide letter no. 314/Parya/SEIAA/6417/2021, dated 22 November, 2021.
3. The public hearing was organized on 30/04/2022. Final EIA report submitted by the project proponent on 13/05/2022.
4. Salient features of the project as submitted by the project proponent:

1. On-line proposal No.	SIA/UP/MIN/61833/2021		
2. File No. allotted by SEIAA, U.P	6417		
3. Name of Proponent	M/s Kanhaiya Enterprises Proponent -Smt. Sunaina W/o- Shri Mahesh Tiwari		
4. Full correspondence address of proponent and mobile no.	R/O-Mu. Kidwai Nagar, Kabrai Tehsil & District- Mahoba(U.P)		
5. Name of Project	Building Stone, Khanda, Boulder, Ballast (Gitti) Mining Project		
6. Project location (Plot/Khasra/Gata No.)	Arazi No. 989 (Khand No. – 07),		
7. Name of River	NA		
8. Name of Village	Makarbai		
9. Tehsil	Sadar		
10. District	Mahoba (U.P.)		
11. Name of Minor Mineral	Building Stone, Khanda, Boulder, Ballast (Gitti) Mining Project		
12. Sanctioned Lease Area (in Ha.)	0.809 Ha.		
13. Mineable Area (in Ha.)	0.47 Ha. (Safety Margin 0.339 Ha.)		
14. Zero level mRL	NA		
15. Max. & Min mrl within lease area	Maximum & Minimum mRL is 216.95 & 193.10 mRL respectively.		
16. Pillar Coordinates (Verified by DMO)	Pillar	Latitude(N)	Longitude(E)
	A	25°19'57.941"	79°59'30.836"
	B	25°19'57.158"	79°59'32.076"
	C	25°19'50.590"	79°59'31.160"
	D	25°19'51.338"	79°59'29.648"
17. Total Geological Reserves	2,17,202 m ³		
18. Sanction Quantity as per LOI	40,000 m ³ per year as per LOI		
19. Total Proposed Production (in five year)	2,00,000 m ³ for five year		
20. Proposed Production/year	40,000 m ³ per year		
21. Sanctioned Period of Mine lease	10 Years as per LOI		
22. Proposed productions for 10 years	4,00,000 m3 for 10 years		
23. Monitoring period	1 st March 2021 to 31 st May 2021		
24. Method of Mining	Open cast, Semi-Mechanized		
25. No. of working days	250		
26. Working hours/day	8 hours/day		
27. No. Of workers	39		
28. No. Of vehicles movement/day	13-15 Vehicles movement/day		
29. Type of Land	Building Stone(Khanda, Boulder, Ballast (Gitti) Mining Project		
30. Ultimate Depth of Mining	36.0 m for five years as per approved mining plan		
31. Nearest metalled road from site	NH-76 about 4.0 km towards West direction from the project site.		
32. Water Requirement	PURPOSE		REQUIREMENT (KLD)
	Drinking water		0.49 KLD
	Dust suppression		2.25 KLD
	Plantation		1.0 KLD
	Others (if any)		-
	Total		3.74 KLD or 3.7 KLD approx..
33. Name of QCI Accredited Consultant with QCI No And period of validity.	Environmental Research and Analysis, Lucknow (U.P) Certificate No. NABET/ EIA/ 1922/RA 0200 Valid up to 30 Dec, 2022		

34. Any litigation pending against the project or land in any court	No
35. Details of 500 m Cluster Map & certificate issued by Mining Officer	Letter No. 7506/ एम०एम०सी०-30/2020-21 Date- 26/12/2020
36. Details of Lease Area in approved DSR	Amendment Letter no:154/M.M.C-30-Khanij(2021-22) dated 12/05/2021
37. Proposed EMP cost	Rs 9,55,800/-
38. Proposed Total Project cost	Rs. 1,20,00,000/-
39. Length and breadth of Haul Road	250 m length and 6.0 m width
40. No. of Trees to be Planted	1000

5. The mining would be restricted to unsaturated zone only above the phreatic water table and will not intersect the ground water table at any point of time.
6. This project does not attract any of the general conditions applicable on mining projects specified in EIA Notification 14/09/2006.
7. The mining operation will not be carried out in safety zone of any bridge or embankment or in eco-fragile zone such as habitat of any wild fauna.
8. There is no litigation pending in any court regarding this project.
9. The project proposal falls under category-1(a) of EIA Notification, 2006 (as amended).

The consultant (EIA Coordinator) also submitted an affidavit dated 23/05/2022 mentioning is as follows:

1. I Dr. Vishnu Kumar Awasthi S/o Lt. R G Awasthi is EIA Coordinator of M/s Environmental Research and Analysis, Lucknow (U.P.), Accreditation Certificate No- NABET/ EIA/ 1922/RA 0200, valid till- 30/12/2022.
2. I have prepared EIA/EMP report for the Proposal No. SIA/UP/MIN/61833/2021 (File No. 6417) M/s Kanhaiya Enterprises, Proponent -Smt. Sunaina W/o- Shri Mahesh Tiwari of "Building Stone, Khanda, Boulder, Ballast (Gitti) Mining Project" located at Arazi No. 989, Khand No. – 07(Area 0.809 Ha.) in Village Makarbai, Tehsil Mahoba & District Mahoba, Uttar Pradesh with my team.
3. I have personally visited the site of proposal.
4. I have satisfied with that all the necessary data/information required for EIA/EMP presentations are true and correct.
5. I certify that no mining activity has been undertaken on the project site for the present proposal.
6. I certify that this project has been uploaded for this first time on Parivesh portal. In case the project has been uploaded again due to any reason, the withdrawals of previous project have been accepted by SEIAA, UP on Parivesh Portal.
7. I certify that there is no mismatch between information/data provided on online application and hard copy/presentation submitted.
8. I state that all the TOR points have been complied and all the issues raised during public hearing have been properly addressed in EIA report.

RESOLUTION AGAINST AGENDA NO. 11

The committee discussed the matter and recommended grant of environmental clearance for the project proposal along with general and specific conditions as annexed at Annexure-1 to these minutes. The committee also stipulated the following specific conditions:

1. The project proponent shall install solar light in their site office.
2. During the submission of 6 monthly compliance reports, the project proponent should make sure that the periodically taken site photographs should also be annexed along with the compliance report.
3. Preference should be given to indigenous local species as per the consultation of the local district Forest Officer.
4. The maximum height of the bench should be 06 meters and the width of the bench should be at least twice the height of the bench as per the mine plan approval letter by DGM, U.P
5. In case the blasting is proposed during a mining operation, the project proponent needs to assess its impact on the displacement of human beings/wild animals/birds/other species, and the suitable

measures proposed and taken for their rehabilitation and resettlement need to be clearly described in first 6 monthly compliance report.

6. The project proponent shall submit a final mine closure plan/Exit protocol for rehabilitation of mined-out land to match its surrounding land use 3 years before the closure of the mine to SEIAA, UP and Department of Mines and Geology, UP for approval. The project proponent shall ensure the implementation of the approved plan under the supervision of the Dept. of Mines and Geology.
7. The project proponent shall plan and implement collection drain and siltation basins of adequate size to arrest the silt and sediment flow from the quarry area. The surface runoff rainwater harvesting and other water conservation measures on a long-term basis are to be taken in consultation with the Central/State Groundwater Board. The water so collected should be utilized for watering the haulage area, roads, and green belt development, etc.
8. The project proponent shall take all suitable measures to prevent pollution of groundwater and nearby water bodies in consultation with the State Pollution Control Board and consent to operate (if applicable) should be obtained from the State Pollution Control Board before the start of production from the mine.
9. Link Road from the quarry site to the main road shall be constructed as an all-weather road with blacktopping and maintained by the project proponent.
10. Vehicular emissions should be kept under control and regularly monitored. Suitable measures shall be taken for proper maintenance of vehicles used in a quarry operation and transportation.
11. The project proponent should explore the possibilities of rainwater harvesting.
12. **Sand/ Moram Mining from Yamuna River Bed at Khand No.16/23 to 16/25, Village- Mahewa, Tehsil-Manjhanpur, Kaushambi, M/s. Addija Mines and Construction Pvt. Ltd, Shri Adarsh Kumar Singh., Area-16.50 Ha. File No. 6538/Proposal No. SIA/UP/MIN/65259/2021**

RESOLUTION AGAINST AGENDA NO-12

The project proponent/consultant did not appear. The committee discussed and deliberated that project file should be closed and be opened only after request from the project proponent. The file shall not be treated as pending at SEAC. The matter will be discussed only after submission of online request on prescribed online portal.

13. **Flatted Factory Complex (White Goods Manufacturing) at Plot No- D-10, D-11, D-12, D-13, D-59, D-60 & 61, Industrial Area, UPSIDA, found, Agra, U.P., M/s Uttar Pradesh Small Industries Corporation (UPSIC). File No. 6424/Proposal No. SIA/UP/MIS/ 217593/2021**

The project proponent/consultant informed the committee that the environmental clearance (EC) for the “Flatted Factory Complex (White Goods Manufacturing) at Plot No- D-10, D-11, D-12, D-13, D-59, D-60 & 61, Industrial Area, UPSIDA, found, Agra, U.P., M/s Uttar Pradesh Small Industries Corporation (UPSIC)” has already been issued by SEIAA, U.P. vide EC No. EC21B038UP122937 (File No. 6424), dated 01/12/2021 along with environmental clearance conditions. The SEIAA imposed the miscellaneous condition no. 29 in EC that:

“The project proponent shall take the concurrence from the CEC/NEERI as per Hon’ble Supreme Court order dated 06-12-2019 in writ petition (civil) 13381/1984. The Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon’ble Supreme Court of India / High Courts and any other Court of Law relating to the subject matter.”

The project proponent submit a letter dated 20/04/2022 mentioning that Hon’ble Supreme Court passed another order dated 08/12/2021 in Writ Petition (Civil) No. 13381/1984 and as per order dated 08/12/2021 permission from CEC/NEERI is not required. In compliance of order dated

08/12/2021 NEERI has already nominated a representative in SEAC, U.P. to appraise the proposal comes under the TTZ area. The project proponent requested to amend the environmental clearance dated 01/12/2021 in view of amended Hon'ble Supreme Court dated 08/12/2021.

Dr. S.K. Goyal, representative of NEERI attend the SEAC meeting virtually. A presentation was made by the project proponent along with their consultant M/s Paramarsh (Servicing Environment and Development), Lucknow, U.P. Dr. S.K. Goyal, representative of NEERI provides their observation vide letter no. NEERI-DZC/TTZ-Agra/2022/10, dated June 06, 2022 (Letter annexed). The main contents of the letter are as follows:

“At this stage, the exact details of various industrial units, their level of activity, type of air pollutants, amount of pollution loads and other associated activities etc. are not available, therefore, it is not possible to quantify the total air emissions load from the proposed complex and ascertain its cumulative impact on the surrounding ambient air quality. This may require further appropriate air environment management plan to avoid any adverse impact anticipated due to the proposed activities at the complex.”

The committee considered the letter dated 06/06/2022 of Dr. S.K. Goyal during the finalization of the meeting of minutes. The presentation made by the project proponent/consultant and observation provided by Dr. S.K. Goyal, representative of NEERI, the committee recommended to amend the miscellaneous condition no. 29 of environmental clearance letter dated 01/12/2021 with following conditions:

1. A “EC Compliance Review Committee”, comprising representatives from the MoEF&CC-IRO, UPPCB-RO, Agra and CSIR-NEERI, Delhi may be constituted, with UPPCB-RO, Agra as the nodal officer to periodically review and modify (if required) the conditions of EC.
2. The Project Proponent (M/s UPSIC) shall maintain the details of various industrial units to be setup in the Flatted Factory Complex (FFC) and shall ensure the overall environmental compliance of the complex. Further, a study shall be conducted to determine the Pollution Load Generation, Mitigation Measures/ EMP adopted, and assess the net contribution of FFC to the environment. Accordingly, the Review Committee may further suggest measures to contain the pollution within the assimilative capacity/carrying capacity of the region. EC Compliance Review Committee should oversee the constitution/ progress / implementation of recommendations.
3. Since the proposed FFC is a part of Foundry Nagar Industrial Area, it is suggested that similar kind of study (as indicated in Item 2) be conducted for the entire Industrial Area, and appropriate measures be taken to ensure environmentally sustainable operation of the industries in the industrial area. The UP Pollution Control Board should take a lead in it.

All the other contents mentioned in environmental clearance no. EC21B038UP122937, dated 01/12/2021 shall remain the same.

14. Group Housing at Khasra No.-276(P), 385(P), 386, 387, 388, 389, 390, 391, 392, 393(P), 394(P), 398, 399, 401(P), 402(P), 403(P), 404(P), 405(P), and 442(P), Village- Mauza Mau, Tehsil and Distt. Agra, U.P., M/s Paawan Sahakari Avas Samiti Ltd. 6804/Proposal No. SIA/UP/MIS/ 68265/2021

The committee noted that the matter was earlier discussed in 592nd SEIAA meeting dated 27/04/2022 and directed is as follows:

“Earlier this proposal was submitted by PP / consultant bearing MoEFCC, Gol id no. SIA/UP/MIS/149814/2020 (SEIAA, UP file no. 2238) and as per the status available on parivesh portal this project was examined by SEAC / SEIAA and SEIAA referred the case to UPPCB for credible action which till date remains unanswered. This project is alive as on date and is under process. Now the PP / consultant has uploaded the said proposal as a suo-moto violation case project.

SEAC-1 in their MoM has recorded as follows –

“The committee observed that as per clause 12 a (i) of OM No. F.N. 22-21/2020-IA.III dated 07/07/2021 under Penalty provisions for violation cases and applications: For New Projects: Where operation has not commenced: 1% of the total Project Cost incurred upto the date of filing of application along with EIA/EPM Report has to be imposed on the project proponent. However as per clause 12.2 of OM Dated 07/07/2021 the percentage rates, as above, shall be halved if the PP suo-moto reports the such violation without such violations coming to the knowledge of the Government either on inquiry or complaint.

The committee was informed by the Nodal Officer that as per records available with Directorate and written communication by all concerned in the directorate, no complaint has been received in the Directorate of Environment UP till this date of meeting against the said project regarding starting of construction work at site without obtaining prior environmental clearance.”

SEIAA opined to refer back the proposal to SEAC-1 for chronological examination and appraisal and further decided to issue show cause notice to consultant for this project for hiding the facts and misleading SEAC-1 / SEIAA.”

As per the direction of SEIAA, the matter was listed in 660th SEAC meeting dated 27/05/2022. The consultant was asked to submit their reply in response to the issues raised by SEIAA at the earliest. After getting reply, the Secretariat will put up it along with all the other details of project before the committee.

15. Sand/Morrum Mining From Rihand Riverbed at Araj No.-246, Khand No.-Sa, Village-Khebandha, Tehsil-Obra, Sonbhadra., Shri Sachin Agarwal, M/s Omaxe Minerals Pvt. Ltd., Area-7.00 Ha. File No. 6384/Proposal No. SIA/UP/MIN/64075/2021

RESOLUTION AGAINST AGENDA NO-15

The project proponent/consultant did not appear. The committee discussed and deliberated that project file should be closed and be opened only after request from the project proponent. The file shall not be treated as pending at SEAC. The matter will be discussed only after submission of online request on prescribed online portal.

MoM prepared by Secretariat in consultation with
Chairman & Members on the basis of decisions
taken by SEAC-1 during the meeting.

Annexure-1

General and Specific Conditions for Gitti, Patthar & Boulder Mining Projects: -

A. General Conditions:

1. This environmental clearance is subject to allotment of mining lease in favour of project proponent by District Administration/Mining Department.
2. Forest clearance shall be taken by the proponent as necessary under the law.
3. Any addition of the mining area, change of Khasra numbers, enhancement of capacity, change in mining technology, modernization, and scope of working shall again require prior environmental clearance as per EIA notification, 2006.
4. No change in the calendar plan including excavation, the quantum of mineral and waste shall be made.
5. Mining will be carried out as per the approved mining plan. In case of any violation of the mining plan, the Environmental Clearance given by SEIAA will stand cancelled.
6. Four ambient air quality monitoring stations shall be established in the core zone as well as in the buffer zone for RSPM, SPM, SO₂, NO_x monitoring. The location of the stations should be decided based on the meteorological data, topographical features, and environmentally and ecologically sensitive targets and frequency of monitoring should be undertaken in consultation with the State Pollution Control Board. The monitored data for criteria pollutants shall be regularly uploaded on the company's website and also displayed on the website.
7. Data on ambient air quality (RPM, SPM, SO₂, NO_x) should be regularly submitted to the Integrated Regional Office, MoEF&CC, GoI, Lucknow and the State Pollution Control Board / Central Pollution Control Board once in six months.
8. Ambient air quality at the boundary of the mine premises shall conform to the norms prescribed in MoEF notification no. GSR/826(E) dated 16.11.09.
9. Fugitive dust emissions from all the sources shall be controlled regularly. Water spraying arrangement on haul roads, loading and unloading, and at transfer points shall be provided and properly maintained.
10. Measures shall be taken for control of noise levels below 85 dBA in the work environment. Workers engaged in operations of HEMM, etc. shall be provided with earplugs/muffs and health records of the workers shall be maintained.
11. Industrial wastewater (workshop and wastewater from the mine) should be properly collected, treated to conform to the standards prescribed under GSR 422 (E) dated 19th May 1993 and 31st December 1993 or as amended from time to time. Oil and grease traps shall be installed before the discharge of workshop effluents.
12. Personnel working in areas shall be provided with protective respiratory devices like masks and they shall also be imparted adequate training and information on safety and health aspects.
13. Special measures shall be adopted to prevent the nearby settlements from the impacts of mining activities.
14. The transportation of the materials shall be limited to the day hours' time only.
15. Provision shall be made for housing the laborers within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, safe drinking water, medical health care, crèche, etc. The housing may be in the form of temporary structures to be removed after the completion of the project.
16. A separate Environmental Management Cell with suitably qualified personnel shall be setup under the control of a Senior Executive, who will report directly to the Head of the Organization.
17. The Project Proponent shall inform the Integrated Regional Office, MoEF&CC, GoI, Lucknow and State Pollution Control Board regarding the date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.
18. The funds earmarked for environmental protection measures shall be kept in a separate account and shall not be diverted for other purposes. The year-wise expenditure shall be reported to the Integrated Regional Office, MoEF&CC, GoI, Lucknow and State Pollution Control Board

19. The Integrated Regional Office, MoEF&CC, GoI, Lucknow and State Pollution Control Board shall monitor compliance with the stipulated conditions. A complete set of documents including Environment Impact Assessment Report, Environmental Management Plan, Public hearing, and other documents information should be given to the Integrated Regional Office, MoEF&CC, GoI, Lucknow and State Pollution Control Board
20. A copy of the environmental clearance shall be submitted by the Project Proponent to the Heads of the Local Bodies, Panchayat, and Municipal Bodies as applicable in the matter.
21. The Project Proponent shall advertise at least in two local newspapers widely circulated, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the State Level Environment Impact Assessment Authority (SEIAA).
22. The Project Proponent has to submit a regular half-yearly compliance report of the stipulated prior environmental clearance terms and conditions in hard and soft copy to the SEIAA, U.P. on 1st June and 1st December of each calendar year.
23. The SEIAA may alter/modify the above conditions or stipulate any further condition in the interest of environmental protection.
24. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of the Environment (Protection) Act, 1986.

B. Specific Conditions:

1. At the time of operation, the project proponent will comply with all the guidelines issued by the Government of India/State Govt./District Administration related to Covid-19.
2. This environmental clearance does not create or verify any claim of the applicant on the proposed site/activity.
3. In case it has been found that the E.C. obtained by providing incorrect information, submitting that the distance between the two adjoining mines is greater than 500mt. and the area is less than 05ha, but factually the distance is less than 500 mt, and the mine is located in the cluster of area equal to or more than 05ha, the E.C issued will stand revoked.
4. This environmental clearance shall be subject to a valid lease in favor of the project proponent for the proposed mining proposals. In case, the project proponent does not have a valid lease, this environmental clearance shall automatically become null and void.
5. The Environmental clearance will be co-terminus with the mining lease period/Mining Plan whichever is less. The Mining plan approved by the Dept. of Mines and Geology shall be strictly implemented and shall not be operated beyond the validity period.
6. Explosive cannot be stored on the site. The Project proponent shall take approval from Chief Controller of Explosive, if applicable for use or storage of explosive or any such materials.
7. A comprehensive EIA including mining areas within 15 K.M. to assess the impact of the mining activity on the surrounding area shall be undertaken and a report submitted to this Authority within one year.
8. No two pits shall be simultaneously worked i.e. before the first is exhausted and reclamation work completed, no mineral bearing area shall be worked.
9. After exhausting the first mine pit and before starting mining operations in the next pit, reclamation and plantation work in the exhausted pit shall be completed to ensure that reclamation, forest cover, and vegetation are visible during the first year of mining operations in the next pit. This process will follow till the last pit is exhausted. Adequate rehabilitation of mined pit shall be completed before any new ore-bearing area is worked for expansion.
10. An adequate buffer zone shall be maintained between two consecutive mineral-bearing deposits.
11. The sprinkling of water on haul roads to control dust will be ensured by the project proponent.
12. Green belt development shall be carried out considering CPCB guidelines including the selection of plant species and in consultation with the local DFO / Agriculture Department. Herbs and shrubs shall also form a part of the afforestation programme besides tree plantation. The company shall involve local people in the plantation programme. Details of year-wise

- afforestation programme including rehabilitation of mined-out area shall be submitted to the Integrated Regional Office, MoEF&CC, GoI, Lucknow every year.
13. Blast vibrations study shall be conducted and an observation report submitted to the Integrated Regional Office, MoEF&CC, GoI, Lucknow and UPPCB within six months. The report shall also include measures for the prevention of blasting associated impact on nearby houses and agricultural fields.
 14. Controlled blasting techniques with sequential blasting shall be adopted. The blasting shall be carried out in the daytime only. The project proponent shall ensure prevention of displacement of human beings/wild animals/birds etc. and in case any such displacement is caused due to blasting/mining operation by any chance the project proponent shall take suitable measures for their rehabilitation and resettlement.
 15. Appropriate arrangement for shelter and drinking water for the mining workers has to be ensured at the mining site.
 16. Maintenance of village roads used for transportation of minerals is to be done by the company regularly at its own expenses. The link roads from mining area to main road shall be constructed as all-weather road with black topping and maintained by the project proponent.
 17. The surface runoff rain water harvesting/rain water recharge and water conservation measures will be taken by project proponent in consultation with central /State ground water Board .The project proponent shall plan and implement collection drain and siltation basins of adequate size to arrest the silt and sediment flows from the mining area. The supernatant of the siltation basin and rain water harvested water shall be utilized for watering the haulage area, roads and green belt development etc.
 18. Status of implementation shall be submitted to the Integrated Regional Office, MoEF&CC, GoI, Lucknow and UP Pollution Control Board within six months and thereafter every year from the next consequent year.
 19. The self-environmental audit shall be conducted annually. Every three years third-party environmental audit shall be carried out.
 20. Measures for prevention and control of soil erosion and management of silt shall be undertaken. Protection of dumps against erosion shall be carried out with geotextile matting or other suitable material, and thick plantations of native trees and shrubs shall be carried out at the dump slopes. Dumps shall be protected by retaining walls.
 21. Trenches/garland drains shall be constructed at foot of dumps and coco filters installed at regular intervals to arrest silt from being carried to water bodies. An adequate number of Check Dams and Gully Plugs shall be constructed across seasonal/perennial nallahs if any flowing through the ML area and silts arrested. De silting at regular intervals shall be carried out.
 22. Garland drain of appropriate size, gradient, and length shall be constructed for both mine pit and waste dump and sump capacity shall be designed keeping 50% safety margin over and above peak sudden rainfall (based on 50 years data) and maximum discharge in the area adjoining the mine site. Sump capacity shall also provide an adequate retention period to allow proper settling of silt material. Sedimentation pits shall be constructed at the corners of the garland drains and de silted at regular intervals.
 23. Ground and surface water, if any in and near the core zone (within 5.0 km of the lease) shall be regularly monitored for contamination and depletion due to mining activity and records maintained. The monitoring data shall be submitted to the Integrated Regional Office, MoEF&CC, GoI, Lucknow and U.P. Pollution Control Board regularly. Further, monitoring points shall be located between the mine, and drainage in the direction of flow of groundwater shall be set up and records maintained.
 24. Fugitive dust generation shall be controlled. Fugitive dust emission shall be regularly monitored at locations of nearest human habitation (including schools and other public amenities located nearest to sources of dust generation as applicable) and records submitted to the Integrated Regional Office, MoEF&CC, GoI, Lucknow and U.P. Pollution Control Board regularly.
 25. Baseline data for ambient air quality shall be generated and maintained and RSPM level in ambient air in the nearby human habitation (villages) shall also be monitored along with other parameters.
 26. Corporate Environmental Responsibility (CER) shall be by the project proponent and the details of the various heads of expenditure are to be submitted as per the guidelines provided in the

- recent CER notification No. 22-65/2017-IA.III dated 01/05/2018. Work to be executed with the installation of five hand pumps for drinking water, solar light in villages of streets, construction of two numbers of toilets at the primary school with name displayed and address and details of the beneficiary and gram Pradhan along with phone number, photographs should be submitted to Directorate as well as to the District Magistrate / Chief Development officers.
27. Transportation of minerals shall be done by covering the trucks with tarpaulin or other suitable mechanisms so that no spillage of mineral/dust takes place.
 28. Occupational health and safety measures for the workers including identification of work-related health hazards, training on malaria eradication, HIV, and health effects on exposure to mineral dust, etc. shall be carried out. Periodic monitoring for exposure to respirable mineral dust on the workers shall be conducted and records maintained including the health records of the workers. Awareness programmes for workers on the impact of mining on their health and precautionary measures like the use of personal protective equipment etc. shall be carried out periodically. A review of the impact of various health measures shall be conducted followed by follow-up action wherever required.
 29. The project proponent will ensure for employing local people as per requirement, necessary protection measures around the mine pit and waste dump, and garland drain around the mine pit and waste dump.
 30. Topsoil / solid waste shall be stacked properly with proper slope and adequate safeguards and shall be utilized for backfilling (wherever applicable) for reclamation and rehabilitation of the mined-out area. Topsoil shall be separately stacked for utilization later for reclamation and shall not be stacked along with overburden.
 31. Overburden (OB) shall be stacked at the earmarked dump site(s) only and shall not be kept active for long period. The maximum height of the dump shall not exceed 20 m, each stage shall preferably be of a maximum of 10 m and the overall slope of the dump shall not exceed 35°. The OB dump shall be backfilled. The OB dumps shall be scientifically vegetated with suitable native species to prevent erosion and surface runoff.
 32. Monitoring and management of rehabilitated areas shall continue until the vegetation becomes self-sustaining. Compliance status shall be submitted to the Regional Office, Ministry of Environment & Forests, GoI, Lucknow, and U.P. Pollution Control Board on a six-monthly basis.
 33. The slope of the mining bench and ultimate pit limit shall be as per the mining scheme approved by the Indian Bureau of Mines.
 34. Permission for the abstraction of groundwater shall be taken from Central Ground Water Board. Regular monitoring of ground and surface water sources for level and quality shall be carried out by establishing a network of existing wells and constructing new piezometers during the mining operation. The monitoring shall be carried out four times in a year i.e., premonsoon (April/May), monsoon (August), post-monsoon (November), and winter (January), and the data thus collected shall be regularly sent to MoEF&CC, Central Ground Water Authority, and Regional Director, Central Ground Water Board.
 35. The wastewater from the mine shall be treated to conform to the prescribed standards before discharging into the natural stream. The discharged water from the Tailing Dam, if any shall be regularly monitored and report submitted to the Integrated Regional Office, MoEF&CC, GoI, Lucknow, Central Pollution Control Board, and the State Pollution Control Board.
 36. Hydrogeological study of the area shall be reviewed by the project proponent annually. In case the adverse effect on groundwater quality and quantity is observed mining shall be stopped and resumed only after mitigating steps to contain any adverse impact on groundwater is implemented.
 37. Vehicular emissions shall be kept under control and regularly monitored. Vehicles used for transportation of minerals and others shall have valid permissions as prescribed under Central Motor Vehicle Rules, 1989 and its amendments. The vehicles transporting minerals shall be covered with a tarpaulin or other suitable enclosures so that no dust particles / fine matters escape during the period of transportation. No overloading of minerals for transportation shall be committed. The trucks transporting minerals shall not pass through the wildlife sanctuary if any in the study area.

38. Prior permission from the Competent Authority shall be obtained for the extraction of groundwater if any.
39. A final mine closure plan, along with details of Corpus Fund, shall be submitted to the Integrated Regional Office, MoEF&CC, GoI, Lucknow and U.P. Pollution Control Board 5 years in advance of final mine closure for approval.
40. Project Proponent shall explore the possibility of using solar energy where ever possible.
41. Commitment towards CER has to be followed strictly.
42. Regular health checkup record of the mineworkers has to be maintained at the site in a proper register. It should be made available for inspection whenever asked.
43. Project Proponent has to strictly follow the direction/guidelines issued by MoEF&CC, CPCB, and other Govt. Agencies from time to time.
44. The blasting will be done only after getting permission from the Mining Department.

Annexure-2

General and Specific Conditions for Sand/Morum Mining Proposals

General Conditions:

1. This environmental clearance is subject to allotment of mining lease in favour of project proponent by District Administration/Mining Department.
2. Forest clearance shall be taken by the proponent as necessary under law.
3. Any change in mining area, khasra numbers, entailing capacity addition with change in process and or mining technology, modernization and scope of working shall again require prior Environmental Clearance as per the provisions of EIA Notification, 2006 (as amended).
4. Precise mining area will be jointly demarcated at site by project proponent and officials of Mining/Revenue department prior to starting of mining operations. Such site plan, duly verified by competent authority along-with copy of the Environmental Clearance letter will be displayed on a hoarding/board at the site. A copy of site plan will also be submitted to SEIAA within a period of 02 months.
5. Mining and loading shall be done only within day hours' time.
6. No mining shall be carried out in the safety zone of any bridge and/or embankment.
7. It shall be ensured that standards related to ambient air quality/effluent as prescribed by the Ministry of Environment & Forests are strictly complied with. Water sprinklers and other dust control majors should be applied to take-care of dust generated during mining operation. Sprinkling of water on haul roads to control dust will be ensured by the project proponent.
8. All necessary statutory clearances shall be obtained before start of mining operations. If this condition is violated, the clearance shall be automatically deemed to have been cancelled.
9. Parking of vehicles should not be made on public places.
10. No tree-felling will be done in the leased area, except only with the permission of Forest Department.
11. No wildlife habitat will be infringed.
12. It shall be ensured that excavation of minor mineral does not disturb or change the underlying soil characteristics of the river bed /basin, where mining is carried out.
13. It shall be ensured that mining operation of Sand/Moram will not in any way disturb the, velocity and flow pattern of the river water significantly.
14. It shall be ensured that there is no fauna dependant on the river bed or areas close to mining for its nesting. A report on the same, vetted by the competent authority shall be submitted to the RO, PCB and SEIAA within 02 months.
15. Primary survey of flora and fauna shall be carried out and data shall be submitted to the RO, PCB and SEIAA within six months.
16. Hydro-geological study shall be carried out by a reputed organization/institute within six months and establish that mining in the said area will not adversely affect the ground water regime. The report shall be submitted to the RO, PCB and SEIAA within six months. In case adverse impact is observed /anticipated, mining shall not be carried out.
17. Adequate protection against dust and other environmental pollution due to mining shall be made so that the habitations (if any) close by the lease area are not adversely affected. The status of implementation of measures taken shall be reported to the RO, UPPCB and SEIAA and this activity should be completed before the start of sand mining.
18. Need-based assessment for the nearby villages shall be conducted to study economic measures which can help in improving the quality of life of economically weaker section of society. Income generating projects/tools such as development of fodder farm, fruit bearing orchards, vocational training etc. can form a part of such program me. The project proponent shall provide separate budget for community development activities and income generating programmes.
19. Green cover development shall be carried out following CPCB guidelines including selection of plant species and in consultation with the local DFO/Horticulture Officer.
20. Separate stock piles shall be maintained for excavated top soil, if any, and the top soil should be utilized for green cover/tree plantation.

21. Dispensary facilities for first-aid shall be provided at site.
22. An Environmental Audit should be annually carried out during the operational phase and submitted to the SEIAA.
23. The District Mining Officer should quarterly monitor compliance of the stipulated conditions. The project proponent will extend full cooperation to the District Mining Officer by furnishing the requisite data/information/monitoring reports. In case of any violations of stipulated conditions the District Mining Officer will report to SEIAA.
24. The project proponent shall submit six monthly reports on the status of compliance of the stipulated environmental clearance conditions including results of monitored data (both in hard & soft copies) to the SEIAA, the District Officer and the respective Regional Office of the State Pollution Control Board by 1st June and 1st December every year.
25. A copy of the clearance letter shall be sent by the proponent to concerned Panchayat, Zila Parisad/ Municipal Corporation and Urban Local Body.
26. Transportation of materials shall be done by covering the trucks / tractors with tarpaulin or other suitable mechanism to avoid fugitive emissions and spillage of mineral/dust.
27. Waste water, from temporary habitation campus be properly collected & treated before discharging into water bodies the treated effluent should conform to the standards prescribed by MoEF/CPCB.
28. Measures shall be taken for control of noise level to the limits prescribed by C.P.C.B.
29. Special Measures shall be adopted to protect the nearby settlements from the impacts of mining activities. Maintenance of Village roads through which transportation of minor minerals is to be undertaken, shall be carried-out by the project proponent regularly at his own expenses.
30. Measure for prevention & control of soil erosion and management of silt shall be undertaken. Protection of dumps against erosion, if any, shall be carried-out with geo textile matting or other suitable material.
31. Under corporate social responsibility a sum of 5% of the total project cost or total income whichever is higher is to be earmarked for total lease period. Its budget is to be separately maintained. CER component shall be prepared based on need of local habitant. Income generating measures which can help in upliftment of poor section of society, consistent with the traditional skills of the people shall be identified. The programme can include activities such as development of fodder farm, fruit bearing orchards, free distribution of smokeless Chula etc.
32. Possibility for adopting nearest three villages shall be explored and details of civic amenities such as roads, drinking water etc proposed to be provided at the project proponent's expenses shall be submitted within 02 months from the date of issuance of Environment Clearance.
33. The funds earmarked for environmental protection measures should be kept in separate account and should not be diverted for other purpose. Year wise expenditure should be reported to the Integrated Regional Office, MoEF&CC, GoI, Lucknow, SEIAA, U.P and UPPCB.
34. Action plan with respect to suggestion/improvement and recommendations made and agreed during Public Hearing shall be submitted to the District mines Officer, concern Regional Officer of UPPCB and SEIAA within 02 months.
35. Environmental clearance is subject to obtaining clearance under the Wildlife (Protection) Act, 1972 from the competent authority, if applicable to this project.
36. The proponent shall observe every 15 day for nesting of any turtle in the area. Based on the observations so made, if turtle nesting is observed, necessary safeguard measures shall be taken in consultation with the State Wildlife Department. For the purpose, awareness shall be created amongst the workers about the nesting sites so that such sites, if any, are identified by the workers during operations of the mine for taking required safeguard measures. In this regards the safety notified zone should be left so that the habitat/nesting area is undisturbed.
37. The project proponent shall undertake adequate safeguard measures during extraction of river bed material and ensure that due to this activity the hydro geological regime of the surrounding area shall not be affected.
38. The project proponent shall obtain necessary prior permission of the competent Authorities for withdrawal of requisite quantity of water (surface water and groundwater), required for the project.

39. Appropriate mitigative measures shall be taken to prevent pollution of the river in consultation with the State Pollution Control Board. It shall be ensured that there is no leakage of oil and grease in the river from the vehicles used for transportation.
40. Vehicular emissions shall be kept under control and regularly monitored. The vehicles carrying the mineral shall not be overloaded.
41. Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. (MoEF circular Dated : 22-09-2008 regarding stipulation of condition to improve the living conditions of construction labour at site).
42. Personnel working in dusty areas should wear protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects. Occupational health surveillance program of the workers should be undertaken periodically to observe any contractions due to exposure to dust and take corrective measures, if needed.
43. A copy of the clearance letter shall be sent by the proponent to concerned Panchayat, Zila Parishad/ Municipal Corporation, Urban Local Body and the Local NGO, if any, from whom suggestions/ representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.
44. The environmental statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of environmental clearance conditions and shall also be sent to the Integrated Regional Office, MoEF&CC, GoI, Lucknow by e-mail.
45. The green cover development/tree plantation is to be done in an area equivalent to 20% of the total leased area either on river bank or along road side (Avenue Plantation).
46. Debris from the river bed will be collected and stored at secured place and may be utilized for strengthen the embankment.
47. Safety measures to be taken for the safety of the people working at the mine lease area should be given, which would also include measure for treatment of bite of poisonous reptile/insect like snake.
48. Periodical and Annual medical checkup of workers as per Mines Act and they should be covered under ESI as per rule.

Specific Conditions:

1. The Environmental clearance will be co-terminus with the mining lease period/mining plan whichever is less.
2. At the time of operation, project proponent will comply with all the guidelines issued by Government of India/State Govt./District Administration related to Covid-19.
3. Environment management in according to environmental status and impact of the project.
4. During the school opening and closing time transportation of minerals will be restricted.
5. Selection of plants for green belt should be on the basis of pollution removal index. Project proponent should ensure survival of tree saplings. Mortality should be replaced from time to time.
6. No mining activity should be carried out in-stream channel as per SSMMG, 2016.
7. Pakkamotorable haul road to be maintained by the project proponent.
8. A separate Environmental Management Cell with suitable qualified personnel shall be set-up under the control of a Senior Executive, who will report directly to the Head of the Organization.
9. Permission from the competent authority regarding evacuation route should be taken.
10. One month monitoring report of the area for air quality, water quality, Noise level. Besides flora & fauna should be examined twice a week and be submitted within 45 days for a record.
11. Provision for cylinder to workers should be made for cooking.
12. The capacity of trucks/tractor for loading purpose will be in tonnes as per Transport Department applicable norms and standard fixed by the Government.

13. Approach road kaccha is to be made motarable and tree saplings to be planted on both sides of the road. Width of the haul road shall be more than 6 meter.
14. Indigenous plants should be planted according to CPCB guidelines and in consultation with local Divisional Forest Officer.
15. The project proponent shall in 2 years conduct detailed replenishment study duly authenticated by a QCI-NABET accredited consultant, and the District Mines Officer.
16. Provision for two toilets and hand pumps should be made at mining site.
17. Drinking water for workers would be provided by tankers.
18. Mining should be done by Bar scalping methods extraction (typically 0.3 -0.6 m or 1 - 2 ft) as per sustainable sand mining management guidelines 2016.
19. A buffer/safe zone shall be maintained from the habitation as per mining guidelines.
20. Corporate Environmental Responsibility (CER) plan shall be prepared by the project proponent and the details of the various heads of expenditure to be submitted as per the guidelines provided in the recent CER notification No. 22-65/2017-IA.III dated 01/05/2018.
21. Health/Insurance card, Medical claim, regular health check-up camps, facilities shall be provided to the regular/temporary/Contractual or any base workers. Copy of receipt shall be produced to the Directorate of Environment along with the compliance report.
22. Measure for conservation of water through rainwater harvesting and cleaning and maintenance of natural surface water bodies of the nearby areas may be considered as one of the activity in CER.
23. The excavated mining material should be carried and transported in such a way that no obstruction to the free flow of water takes place. Suitable measure should be taken and details to be provided to concern Department.
24. Submit annual replenishment report certified by an authorized agency. In case the replenishment is lower than the approved rate of production, then the mining activity / production levels shall be decreased / stopped accordingly till the replenishment is completed.
25. The project proponent shall ensure that if the project area falls within the eco-sensitive zone of National park/ Sanctuary prior permission of statutory committee of National board for wild life under the provision of Wildlife (Protection) Act, 1972 shall be obtained before commencement of work.
26. If in future this lease area becomes part of cluster of equal to or more than 05 ha. then additional conditions based on the EIA shall be imposed. The lease holder shall mandatorily follow cluster conditions otherwise it will amount to violation of E.C. conditions. If the certificate related to cluster provided by the competent authority is found false or incorrect then punitive actions as per law shall be initiated against the authority issuing the cluster certificate.
27. Project falling within 10 KM area of Wild Life Sanctuary is to obtain a clearance from National Board Wild Life (NBWL) even if the eco-sensitive zone is not earmarked.
28. To avoid ponding effect and adverse environmental conditions for sand mining in area, progressive mining should be done as per sustainable sand mining management guidelines 2016.
29. In case it has been found that the E.C. obtained by providing incorrect information, submitting that the distance between the two adjoining mines is greater than 500mt. and area is less than 05 ha, but factually the distance is less than 500 mt and the mine is located in cluster of area equal or more than 05 ha, the E.C issued will stand revoked.
30. The project proponent shall in 2 years conduct detailed replenishment study duly authenticated by a QCI-NABET accredited consultant, and the District Mines Officer which shall form the basis for midterm review of conditions of Environmental Clearance.
31. The mining work will be open-cast and manual/semi mechanized (subject to order of Hon'ble NGT/Hon'ble Courts (s)). Heavy machine such as excavator, scooper etc. should not be employed for mining purpose. No drilling/blasting should be involved at any stage.
32. It shall be ensured that there shall be no mining of any type within 03 m or 10% of the width which-ever is less, shall be left on both the banks of precise area to control and avoid erosion of river bank. The mining is confined to extraction of sand/moram from the river bank only.

33. The project proponent shall undertake adequate safeguard measures during extraction of river bank material and ensure that due to this activity the hydro-geological regime of the surrounding area shall not be affected.
34. The project proponent shall adhere to mining in conformity to plan submitted for the mine lease conditions and the Rules prescribed in this regard clearly showing the no work zone in the mine lease i.e. the distance from the bank of river to be left un-worked (Non mining area), distance from the bridges etc. It shall be ensured that no mining shall be carried out during the monsoon season.
35. The project proponent shall ensure that wherever deployment of labour attracts the Mines Act, the provision thereof shall be strictly followed.
36. The project proponent will provide personal protective equipment (PPE) as required, also provide adequate training and information on safety and health aspects. Periodical medical examination of the workers engaged in the project shall be carried out and records maintained. For the purpose, schedule of health examination of the workers should be drawn and followed accordingly.
37. The critical parameters such as PM10, PM2.5, SO2 and NOx in the ambient air within the impact zone shall be monitored periodically. Further, quality of discharged water if any shall also be monitored [(TDS, DO, pH, Fecal Coliform and Total Suspended Solids (TSS)].
38. Effective safeguard measures, such as regular water sprinkling shall be carried out in critical areas prone to air pollution and having high levels of particulate matter such as loading and unloading point and all transfer points. Extensive water sprinkling shall be carried out on haul roads.
39. It should be ensured that the Ambient Air Quality parameters conform to the norms prescribed by the Central Pollution Control Board in this regard.
40. The extended mining scheme will be submitted by the proponent before expiry of present mining plan.
41. Four ambient air quality-monitoring stations should be established in the core zone as well as in the buffer zone for monitoring PM10, PM2.5, SO2 and NOx. Location of the stations should be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets and frequency of monitoring should be undertaken in consultation with the State Pollution Control Board.
42. Common road for transportation of mineral is to be maintained collectively. Total cost will be shared/worked out on the basis of lease area among users.
43. Proponent will provide adequate sanitary facility in the form of mobile toilets to the labours engaged for the project work.
44. Solid waste material viz., gutkha pouches, plastic bags, glasses etc. to be generated during project activity will be separately stored in bins and managed as per Solid Waste Management rules.
45. Natural/customary paths used by villagers should not be obstructed at any time by the activities proposed under the project.
46. Digital processing of the entire lease area in the district using remote sensing technique should be done regularly once in three years for monitoring the change of river course by Directorate of Geology and Mining, Govt. of Uttar Pradesh. The record of such study to be maintained and report be submitted to Integrated Regional Office, MoEF&CC, GoI, Lucknow, SEIAA, U.P. and UPPCB.
47. The project authorities shall advertise at least in two local newspapers widely circulated, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the State Pollution Control Board and also at web site of the SEIAA at <http://www.seiaaup.in> and a copy of the same shall be forwarded to the Integrated Regional Office, MoEF&CC, GoI, Lucknow, CPCB, State PCB.
48. The MoEF&CC/SEIAA or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
49. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.

50. Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 11 of the National Environment Appellate Authority Act, 1997.
51. Waste water from potable use be collected and reused for sprinkling.
52. A width of not less than 50 meter or 10% width of river can be restricted for mining activities from river bank. A condition can be imposed that mining will be done from river activities from river bank.

Annexure-3

Standard Terms of Reference for the Mining Project prescribed by MoEF&CC, GoI

- 1) Year-wise production details since 1994 should be given, clearly stating the highest production achieved in any one year prior to 1994. It may also be categorically informed whether there had been any increase in production after the EIA Notification 1994 came into force, w.r.t. the highest production achieved prior to 1994.
- 2) A copy of the document in support of the fact that the proponent is the rightful lessee of the mine should be given.
- 3) All documents including approved mine plan, EIA and Public Hearing should be compatible with one another in terms of the mine lease area, production levels, waste generation and its management, mining technology etc. and should be in the name of the lessee.
- 4) All corner coordinates of the mine lease area, superimposed on a High Resolution Imagery/ toposheet, topographic sheet, geomorphology and geology of the area should be provided. Such an Imagery of the proposed area should clearly show the land use and other ecological features of the study area (core and buffer zone).
- 5) Information should be provided in Survey of India Toposheet in 1:50,000 scale indicating geological map of the area, geomorphology of land forms of the area, existing minerals and mining history of the area, important water bodies, streams and rivers and soil characteristics.
- 6) Details about the land proposed for mining activities should be given with information as to whether mining conforms to the land use policy of the State; land diversion for mining should have approval from State land use board or the concerned authority.
- 7) It should be clearly stated whether the proponent Company has a well laid down Environment Policy approved by its Board of Directors? If so, it may be spelt out in the EIA Report with description of the prescribed operating process/procedures to bring into focus any infringement/deviation/ violation of the environmental or forest norms/ conditions? The hierarchical system or administrative order of the Company to deal with the environmental issues and for ensuring compliance with the EC conditions may also be given. The system of reporting of non-compliances / violations of environmental norms to the Board of Directors of the Company and/or shareholders or stakeholders at large, may also be detailed in the EIA Report.
- 8) Issues relating to Mine Safety, including subsidence study in case of underground mining and slope study in case of open cast mining, blasting study etc. should be detailed. The proposed safeguard measures in each case should also be provided.
- 9) The study area will comprise of 10 km zone around the mine lease from lease periphery and the data contained in the EIA such as waste generation etc. should be for the life of the mine / lease period.
- 10) Land use of the study area delineating forest area, agricultural land, grazing land, wildlife sanctuary, national park, migratory routes of fauna, water bodies, human settlements and other ecological features should be indicated. Land use plan of the mine lease area should be prepared to encompass preoperational, operational and post operational phases and submitted. Impact, if any, of change of land use should be given.
- 11) Details of the land for any Over Burden Dumps outside the mine lease, such as extent of land area, distance from mine lease, its land use, R&R issues, if any, should be given.
- 12) A Certificate from the Competent Authority in the State Forest Department should be provided, confirming the involvement of forest land, if any, in the project area. In the event of any contrary claim by the Project Proponent regarding the status of forests, the site may be inspected by the State Forest Department along with the Regional Office of the Ministry to ascertain the status of forests, based on which, the Certificate in this regard as mentioned above be issued. In all such cases, it would be desirable for representative of the State Forest Department to assist the Expert Appraisal Committees.
- 13) Status of forestry clearance for the broken up area and virgin forestland involved in the Project including deposition of net present value (NPV) and compensatory afforestation (CA) should be indicated. A copy of the forestry clearance should also be furnished.

- 14) Implementation status of recognition of forest rights under the Scheduled Tribes and other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 should be indicated.
- 15) The vegetation in the RF / PF areas in the study area, with necessary details, should be given.
- 16) A study shall be got done to ascertain the impact of the Mining Project on wildlife of the study area and details furnished. Impact of the project on the wildlife in the surrounding and any other protected area and accordingly, detailed mitigative measures required, should be worked out with cost implications and submitted.
- 17) Location of National Parks, Sanctuaries, Biosphere Reserves, Wildlife Corridors, Ramsar site Tiger/ Elephant Reserves/(existing as well as proposed), if any, within 10 km of the mine lease should be clearly indicated, supported by a location map duly authenticated by Chief Wildlife Warden. Necessary clearance, as may be applicable to such projects due to proximity of the ecologically sensitive areas as mentioned above, should be obtained from the Standing Committee of National Board of Wildlife and copy furnished.
- 18) A detailed biological study of the study area [core zone and buffer zone (10 km radius of the periphery of the mine lease)] shall be carried out. Details of flora and fauna, endangered, endemic and RET Species duly authenticated, separately for core and buffer zone should be furnished based on such primary field survey, clearly indicating the Schedule of the fauna present. In case of any scheduled- I fauna found in the study area, the necessary plan alongwith budgetary provisions for their conservation should be prepared in consultation with State Forest and Wildlife Department and details furnished. Necessary allocation of funds for implementing the same should be made as part of the project cost.
- 19) Proximity to Areas declared as 'Critically Polluted' or the Project areas likely to come under the 'Aravali Range', (attracting court restrictions for mining operations), should also be indicated and where so required, clearance certifications from the prescribed Authorities, such as the SPCB or State Mining Department should be secured and furnished to the effect that the proposed mining activities could be considered.
- 20) R&R Plan/compensation details for the Project Affected People (PAP) should be furnished. While preparing the R&R Plan, the relevant State/National Rehabilitation & Resettlement Policy should be kept in view. In respect of SCs /STs and other weaker sections of the society in the study area, a need based sample survey, family-wise, should be undertaken to assess their requirements, and action programmes prepared and submitted accordingly, integrating the sectoral programmes of line departments of the State Government. It may be clearly brought out whether the village(s) located in the mine lease area will be shifted or not. The issues relating to shifting of village(s) including their R&R and socio-economic aspects should be discussed in the Report.
- 21) One season (non-monsoon) [i.e. March-May (Summer Season); October-December (post monsoon season) ; December-February (winter season)] primary baseline data on ambient air quality as per CPCB Notification of 2009, water quality, noise level, soil and flora and fauna shall be collected and the AAQ and other data so compiled presented date-wise in the EIA and EMP Report. Site-specific meteorological data should also be collected. The location of the monitoring stations should be such as to represent whole of the study area and justified keeping in view the pre-dominant downwind direction and location of sensitive receptors. There should be at least one monitoring station within 500 m of the mine lease in the pre-dominant downwind direction. The mineralogical composition of PM10, particularly for free silica, should be given.
- 22) Air quality modeling should be carried out for prediction of impact of the project on the air quality of the area. It should also take into account the impact of movement of vehicles for transportation of mineral. The details of the model used and input parameters used for modeling should be provided. The air quality contours may be shown on a location map clearly indicating the location of the site, location of sensitive receptors, if any, and the habitation. The wind roses showing pre-dominant wind direction may also be indicated on the map.
- 23) The water requirement for the Project, its availability and source should be furnished. A detailed water balance should also be provided. Fresh water requirement for the Project should be indicated.
- 24) Necessary clearance from the Competent Authority for drawl of requisite quantity of water for the Project should be provided.
- 25) Description of water conservation measures proposed to be adopted in the Project should be given.
- 26) Details of rainwater harvesting proposed in the Project, if any, should be provided.

- 27) Impact of the Project on the water quality, both surface and groundwater, should be assessed and necessary safeguard measures, if any required, should be provided.
- 28) Based on actual monitored data, it may clearly be shown whether working will intersect groundwater.
- 29) Necessary data and documentation in this regard may be provided. In case the working will intersect groundwater table, a detailed Hydro Geological Study should be undertaken and Report furnished. The Report inter-alia, shall include details of the aquifers present and impact of mining activities on these aquifers. Necessary permission from Central Ground Water Authority for working below ground water and for pumping of ground water should also be obtained and copy furnished.
- 30) Details of any stream, seasonal or otherwise, passing through the lease area and modification / diversion proposed, if any, and the impact of the same on the hydrology should be brought out.
- 31) Information on site elevation, working depth, groundwater table etc. Should be provided both in AMSL and bgl. A schematic diagram may also be provided for the same.
- 32) A time bound Progressive Greenbelt Development Plan shall be prepared in a tabular form (indicating the linear and quantitative coverage, plant species and time frame) and submitted, keeping in mind, the same will have to be executed up front on commencement of the Project. Phase-wise plan of plantation and compensatory afforestation should be charted clearly indicating the area to be covered under plantation and the species to be planted. The details of plantation already done should be given. The plant species selected for green belt should have greater ecological value and should be of good utility value to the local population with emphasis on local and native species and the species which are tolerant to pollution.
- 33) Impact on local transport infrastructure due to the Project should be indicated. Projected increase in truck traffic as a result of the Project in the present road network (including those outside the Project area) should be worked out, indicating whether it is capable of handling the incremental load. Arrangement for improving the infrastructure, if contemplated (including action to be taken by other agencies such as State Government) should be covered. Project Proponent shall conduct Impact of Transportation study as per Indian Road Congress Guidelines.
- 34) Details of the onsite shelter and facilities to be provided to the mine workers should be included in the EIA Report.
- 35) Conceptual post mining land use and Reclamation and Restoration of mined out areas (with plans and with adequate number of sections) should be given in the EIA report.
- 36) Occupational Health impacts of the Project should be anticipated and the proposed preventive measures spelt out in detail. Details of pre-placement medical examination and periodical medical examination schedules should be incorporated in the EMP. The project specific occupational health mitigation measures with required facilities proposed in the mining area may be detailed.
- 37) Public health implications of the Project and related activities for the population in the impact zone should be systematically evaluated and the proposed remedial measures should be detailed along with budgetary allocations.
- 38) Measures of socio economic significance and influence to the local community proposed to be provided by the Project Proponent should be indicated. As far as possible, quantitative dimensions may be given with time frames for implementation.
- 39) Detailed environmental management plan (EMP) to mitigate the environmental impacts which, should inter-alia include the impacts of change of land use, loss of agricultural and grazing land, if any, occupational health impacts besides other impacts specific to the proposed Project.
- 40) Public Hearing points raised and commitment of the Project Proponent on the same along with time bound Action Plan with budgetary provisions to implement the same should be provided and also incorporated in the final EIA/EMP Report of the Project.
- 41) Details of litigation pending against the project, if any, with direction /order passed by any Court of Law against the Project should be given.
- 42) The cost of the Project (capital cost and recurring cost) as well as the cost towards implementation of EMP should be clearly spelt out.
- 43) A Disaster management Plan shall be prepared and included in the EIA/EMP Report.
- 44) Benefits of the Project if the Project is implemented should be spelt out. The benefits of the Project shall clearly indicate environmental, social, economic, employment potential, etc.

45) Besides the above, the below mentioned general points are also to be followed:-

- a) Executive Summary of the EIA/EMP Report
- b) All documents to be properly referenced with index and continuous page numbering.
- c) Where data are presented in the Report especially in Tables, the period in which the data were collected and the sources should be indicated.
- d) Project Proponent shall enclose all the analysis/testing reports of water, air, soil, noise etc. using the MoEF&CC/NABL accredited laboratories. All the original analysis/testing reports should be available during appraisal of the Project.
- e) Where the documents provided are in a language other than English, an English translation should be provided.
- f) The Questionnaire for environmental appraisal of mining projects as devised earlier by the Ministry shall also be filled and submitted.
- g) While preparing the EIA report, the instructions for the Proponents and instructions for the Consultants issued by MoEF&CC vide O.M. No. J-11013/41/2006-IA.II(I) dated 4th August, 2009, which are available on the website of this Ministry, should be followed.
- h) Changes, if any made in the basic scope and project parameters (as submitted in Form-I and the PFR for securing the TOR) should be brought to the attention of MoEF&CC with reasons for such changes and permission should be sought, as the TOR may also have to be altered. Post Public Hearing changes in structure and content of the draft EIA/EMP (other than modifications arising out of the P.H. process) will entail conducting the PH again with the revised documentation.
- i) As per the circular no. J-11011/618/2010-IA.II(I) dated 30.5.2012, certified report of the status of compliance of the conditions stipulated in the environment clearance for the existing operations of the project, should be obtained from the Regional Office of Ministry of Environment, Forest and Climate Change, as may be applicable.
- j) The EIA report should also include: (i) surface plan of the area indicating contours of main topographic features, drainage and mining area, (ii) geological maps and sections and (iii) sections of the mine pit and external dumps, if any, clearly showing the land features of the adjoining area.
