

# State Level Environment Impact Assessment Authority-Karnataka

(Constituted by MoEF, Government of India, under section 3(3) of E(P) Act, 1986)

**Proceedings of the 220<sup>th</sup> SEIAA Meeting held on 19<sup>th</sup> July 2022 at 10:30 AM  
at Room No. 709, 7<sup>th</sup> Floor, Gate IV, M.S Building, Bangalore-560001.**

**Members present: -**

1. Dr. K. R. Sree Harsha - Chairman, SEIAA
2. Shri. K. N. Shivalinge Gowda - Member, SEIAA
3. Shri. Vijay Mohan Raj V, IFS - Member Secretary, SEIAA

The Chairman welcomed the members and initiated the discussion. The subjects discussed and the decisions made on each of the agenda points are as follows:

**220.1. Fresh Projects (Recommended for EC):**

**Construction Projects:**

- 220.1.1. Rashtreeya Sikshana Samithi Trust R.V. Teachers Collage Building Project at Pattanagere Village, Rajarajeshwari Nagara, Bangalore South Taluk, Bangalore Urban District by M/s. Rashtreeya Sikshana Samithi Trust (R V University)- Online Proposal No. SIA/KA/MIS/76843/2022 (SEIAA 18 CON 2022)

Rashtreeya Sikshana Samithi Trust have proposed for construction of Rashtreeya Sikshana Samithi Trust R.V. Teachers Collage Building Project on a plot area of 1, 67,297.04 sqm. The total built up area is 2, 07,301.05 Sqmt (BUA of existing building is 1, 11,242.05 sqm + BUA of proposed building is 96,851. 00 sqm). The proposed project consists of is given below.

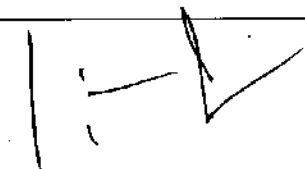

BUILDING SUMMARY OF EXISTING BLOCKS		
S.NO.	DESCRIPTION OF BUILDING	No of Floors
1)	Administrative Block	G+2
2)	R & D Block	B+G+3
3)	Civil Engineering Block (Old+Extension)	B+G+2
4)	Mechanical Engineering Block	G+2
5)	MCA, Auditorium, connecting block	G+3
6)	Biotech, IT Block	G+3
7)	Industrial Engineering Block & Auditorium	B+G+2

9)	Electrical and Electronics Block (Old+New)	G+2
10)	Electronics and Communication Engineering	G+2
11)	Class Room complex	B+G+3
12)	Computer science Block (Old+New)	G+2, G+3
13)	Chemical Engineering Block (Old+New)	B+G+1, B+G+2
14a)	Aerospace and Information Science Block	G+2
14b)	Aerospace Hanger Block	G+Mz
15)	Telecommunication Block	B+G+4
16)	Indoor Badminton Court (Old Sports)	B+G
18)	Library Block	G+Mz+1
19)	PG Block (IDRC)	G+3
20)	Hanger Block (Cognitive center)	G+2
21)	Foundry	G
22)	Generator room	G
23)	Bio mass	G
24)	Food court	B+G+1
25)	VIP Lounge	G+2
26)	Old Canteen (Huddle Block)	G+Mz+1)
27)	Post Office / Bank	G+1
29)	Staff Quarters	S+G+3
30)	MV Hostel New	S+G+3
31)	MV Hostel Old	G+2
32)	Chamundi Hostel	G+2
33)	DJ Hostel	G+3
34)	Cavery New Hostel	S+G+3
35)	Cavery Old Hostel	B+G+1
36)	Cavery Annex	G+3

Total water consumption is 585 KLD (Fresh water + Recycled water). The total wastewater generated is 497 KLD. The project proponent has proposed to construct Sewage Treatment plant with capacity of 250 KLD. The project cost is Rs. 100 Crores.

Details of the project are as follows:

Sl. No	PARTICULARS	INFORMATION
1	Name & Address of the Project Proponent	Rashtreeya Sikshana Samithi Trust, (R V University), R V Teachers College Building, 2 <sup>nd</sup> Block, Jayanagara, Bangalore -560011

The subject was discussed in the SEAC meeting held on 9<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for expansion of educational building. The proponent informed the committee that the existing education buildings with BUA of 1,16,819.05 Sqm was constructed by obtaining plan sanction from BBMP on 05.03.2014& occupancy certificate

from BBMP on 07.12.2022 had obtained CFO from KSPCB on 19.04.2022, as educational buildings up to BUA of 1,50,000 Sqm is not in the ambit of EC as per EIA Notification 2006 and presently proposed for BUA of 2,07,301.05 Sqm the proposed expansion attracts EC. The plot area remains same with respect to the plot area mentioned in earlier sanctioned plan.

The committee during appraisal sought clarification for drain, cart track road and foot kharab areas as per village map, regarding provisions made for harvesting rain water in the proposed area. The proponent informed the committee that there is a primary drain in eastern side for which buffer of 50 m is proposed from center of drain and informed that 2A 30G of kharab is converted for education purpose by D.C Bangalore in Order dated 10.06.1966 and remaining 3A 16G of kharab to be retained as it is, without using for development. For harvesting rain water, the proponent has proposed tanks of 15cum+115cum+65cum+400cum capacity for runoff from rooftop and a pond of capacity of 200 cum for runoff from landscape and paved areas in addition to 15nos recharge pits within the project area. Further the committee informed the proponent to grow three rows of trees in the buffer zone of drain in east, for which the proponent agreed.

The proponent informed that they have made provisions to grow 2090 trees in the project area in the proposed project area. The proponent committed to take precautionary measures during and after construction to maintain the environmental parameters within permissible limits in the proposed project and agreed to comply with the ECBC and NBC guidelines for the proposed construction and adhere to the by-laws stipulated by the governing authority for buffers and setbacks.

The committee noted that the baseline parameters are found to be within permissible limits and informed the proponent to leave buffers/setbacks as per zoning regulations and to harvest maximum rainwater in the proposed project area. The committee after discussion decided to recommend the proposal to SEIAA for issue of EC with a condition to not to use kharab area for any developmental activities and to leave free public access.

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

- 1 STP should be redesigned for Biological Nitrogen Removal. / BNR and oil and grease separation system unit along with design calculation and revised budgetary allocation for the same should be submitted.

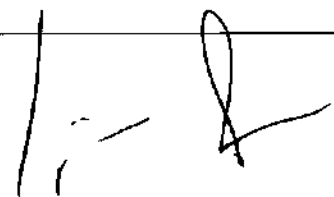

- 2 The project proponent shall furnish Notarized undertaking that he shall maintain Buffer zone as per bylaw and compliance to provisions of CDP.
- 3 The project proponent shall leave the buffer from the lake /drain as per the RCDP 2015 as directed by Supreme Court order CIVIL APPEAL NO. 5016 OF 2016 dated 5th March 2019.
- 4 If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) shall be submitted.
- 5 The PP shall submit CER in Specific Physical Terms with time bound action plan.
- 6 The project proponent shall ensure that tree planting/afforestation measures proposed in the EMP shall be strictly complied and an undertaking to this effect shall be submitted.

**Additional Condition:**

- 1 Assured water supply, commensurate with the ultimate occupancy envisaged in the project, shall be ensured before commencement of the project.
- 2 The PP shall strictly adhere to the local Planning Authority Bye-Laws.
- 3 The PP shall leave the kharab area for free access to public.

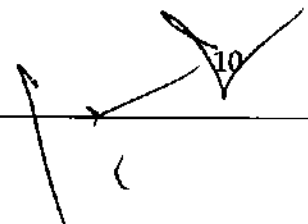

**220.1.2. Assetz Residential Development Project at Doddabahalalli Village, Bidarahalli Hobli, Bengaluru East Taluk, Bengaluru Urban District by M/s APG Premium Residential Private Limited - Online proposal number - SIA/KA/MIS/267936/2022 (SEIAA 50 CON 2022)**

M/s. APG Premium Residential Private Limited have proposed for construction of Residential Apartment Project on a plot area of 31,160.79Sq.m (7 Acres 28 Guntas). The total built up area is 96,804.95Sq.m. The proposed project consists of with 446 (394 :3BHK) + (52 : EWS) in 4 Towers. Tower A, B and C - 1 Basement Floor + Stilt Floor + First Floor to Thirteen Upper Floors + Terrace Floor, Tower D - 1 Basement Floor + Stilt Floor + First Floor to Fourteen Upper Floors + Terrace Floor, Clubhouse - 1 Basement + Ground Floor + First Floor. Total water consumption is 359 KLD (Fresh water + Recycled water). The total wastewater generated is 323 KLD. The project proponent has proposed to construct Sewage Treatment plant with capacity of 340 KLD. The project cost is Rs. 125 Crores.

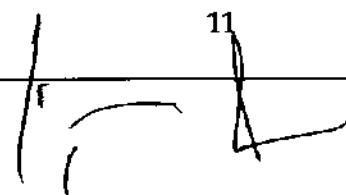

Details of the project are as follows:

Sl. No	PARTICULARS	INFORMATION
1	Name & Address of the Project Proponent	M/s. APG Premium Residential Private Limited Assetz House, No. 30, Crescent Road, Bengaluru - 560 001
2	Name & Location of the Project	Assetz Residential Development, Survey No. 109/1, 109/2, 109/10 and 110, Doddabarahalli Village, Bidarahalli Hobli, Bengaluru East Taluk, Bengaluru
3	Type of Development	
	a. Residential Apartment / Villas / Row Houses / Vertical Development / Office / IT/ ITES/ Mall/ Hotel/ Hospital /other	Residential Apartment Category 8(b) as per EIA Notification 2006
	b. Residential Township/ Area Development Projects	NA
4	New/ Expansion/ Modification/ Renewal	New
5	Water Bodies/ Nalas in the vicinity of project site	Water body in west and tertiary nala in north.
6	Plot Area (Sqm)	31,160.79Sqm (7 Acres 28 Guntas)
7	Built Up area (Sqm)	96,804.95Sqm
8	FAR • Permissible • Proposed	2.5 2.499

d.	Energy conservation plan and Percentage of savings including plan for utilization of solar energy as per ECBC 2007	a. Timer based External Lights b. BEE Star rated electromechanical systems shall be used in the development c. Solar Water Heating systems for top 3 floor dwelling units d. Use of HF ballast for lighting e. Use of LED light fittings f. Building Orientation; Cross Ventilation Total Savings - 23.8%
20	<b>PARKING</b>	
a.	Parking Requirement as per norms	695 Nos.
b.	Level of Service (LOS) of the connecting Roads as per the Traffic Study Report	Doddabanahalli Main Road - A SH 35 - C
c.	Internal Road width (RoW)	6mtr
21	CER Activities Proposed	1.Rejuvenation of water body adjacent to project site 2. Free Medical check-up camps will be held 3. Signage on roads to avoid accidents. 4. Providing Skill Development facilities 5. Infrastructure creation for sanitation systems to control waterborne diseases. 6. Plantation in community areas
22	EMP • Construction phase • Operation Phase	During Construction Phase: Capital Investment - 66 Lakhs Recurring Cost - 6 Lakhs/ Annum During Operation Phase: Capital Investment - 2638 Lakhs Recurring Cost - 26 Lakhs/ Annum

The subject was discussed in the SEAC meeting held on 9<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

Drafted by 

The proposal is for construction of residential apartments in an area earmarked for traffic and transportation as per RMP of BDA, for which the proponent informed that they had obtained change of land use to residential from BDA on 31.05.2016.

The committee during appraisal sought clarification for drain, water body and temple as per village map and provisions for harvesting rain water in the proposed area. The proponent informed the committee that there is a tertiary drain in northern side, for which a buffer of 15 mtr from the center of drain and for water body in west buffer of 30mtr is proposed from the edge and informed that the temple area shown as per village map to be left as it is with free public access. For harvesting rain water, the proponent has proposed 150cumcapacity for runoff from rooftop and an additional tank of150cum capacity for runoff from landscape and paved areas in addition to 10nos recharge pits within the project area. Further the committee informed the proponent to install smart metering for individual units for conservation of water and to manage excess drainage water within the site area, for which the proponent agreed.

The proponent informed that they have made provisions to grow 400 trees in the project area and to charge electrical vehicles in the proposed project area. The proponent committed to take precautionary measures during and after construction to maintain the environmental parameters within permissible limits in the proposed project and agreed to comply with the ECBC and NBC guidelines for the proposed construction and adhere to the by-laws stipulated by the governing authority for buffers and setbacks.

The committee noted that the baseline parameters are found to be within permissible limits and informed the proponent to leave buffers/setbacks as per zoning regulations and to harvest maximum rainwater in the proposed project area. The committee after discussion decided to recommend the proposal to SEIAA for issue of EC with a condition to leave free public access to the temple area.

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

1. *The project proponent shall furnish Notarized undertaking that he shall maintain Buffer zone as per bylaw and compliance to provisions of CDP.*
2. *The project proponent shall leave the buffer from the lake /drain as per the RCDP 2015 as directed by Supreme Court order CIVIL APPEAL NO. 5016 OF 2016 dated 5th March 2019.*
3. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden*

(CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) shall be submitted.

4. The PP shall submit CER in Specific Physical Terms with time bound action plan.
5. The project proponent shall ensure that tree planting/afforestation measures proposed in the EMP shall be strictly complied and an undertaking to this effect shall be submitted.
6. The PP shall explore the possibility of installing smart meter for water conservation.

**Additional Condition:**

1. Assured water supply, commensurate with the ultimate occupancy envisaged in the project, shall be ensured before commencement of the project.
2. 25% of parking space shall have charging facility to enable charging of electric vehicles.
3. The PP shall strictly adhere to the local Planning Authority Bye-Laws.
4. The PP shall leave the Temple A- kharab area for free access to public.

**220.1.3. Residential Apartment and a Club House Project at Kengeri Village, Kengeri Hobli, Bengaluru South Taluk, Bengaluru District by M/s.Casa Grande Garden City Builders Pvt. Ltd. - Online proposal number - SIA/KA/MIS/251859/2022 (SEIAA 14 CON 2022)**

M/s. Casa Grande Garden City Builders Pvt. Ltd., have proposed for construction of Residential Apartment and a Club House Project on a plot area of 15,276.89Sq.m. The total built up area is 49,015.58Sq.m. The proposed project consists of Proposed project comprising of 333 No. of residential units in 2 blocks with configuration of BF+GF+8UF and club house with GF+3UF. Total water consumption is 232 KLD (Fresh water + Recycled water). The total wastewater generated is 209 KLD. The project proponent has proposed to construct Sewage Treatment plant with capacity of 230 KLD. The project cost is Rs. 102.11 Crores.

Details of the project are as follows:

h.	Total	15,276.89Sqm	
15.	WATER		
I.	Construction Phase		
a.	Source of water	The domestic water requirement will be met from external water suppliers and water requirement for construction purpose will be met by STP tertiary treated water.	
b.	Quantity of water for Construction in KLD	23 KLD	
c.	Quantity of water for Domestic Purpose in KLD	6 KLD	
d.	Waste water generation in KLD	5.4 KLD	
e.	Treatment facility proposed and scheme of disposal of treated water	Domestic sewage generated during construction phase will be collected and treated in mobile STP.	
II.	Operational Phase		
a.	Total Requirement of Water in KLD	Fresh	154 KLD
		Recycled	78 KLD
		Total	232 KLD
b.	Source of water	BWSSB	
c.	Wastewater generation in KLD	209 KLD	
d.	STP capacity	STP Capacity - 230 KLD	
e.	Technology employed for Treatment	Sequential Batch Reactor Technology	

Drafted by 

f.	Scheme of disposal of excess treated water if any	Excess 78KLD will be used for avenue plantation/construction works.
16.	Infrastructure for Rain water harvesting	
a.	Capacity of sump tank to store Roof run off	182m <sup>3</sup> (91 m <sup>3</sup> X 2 Nos)
b.	No's of Ground water recharge pits	10Nos.
17.	Storm water management plan	Water pond of capacity 75 cum will be provided and will be used for domestic purpose. Internal garland drains will be provided within the site in order to carry out the storm water into the recharge pits and will be managed within the site.
18.	WASTE MANAGEMENT	
I.	Construction Phase	
a.	Quantity of Solid waste generation and mode of Disposal as per norms	As there is no provision of labour colony, generation of domestic solid waste will be minimum and will be handed over to local vendors Construction debris -49 m <sup>3</sup> This will be reused within the site for road and pavement formation.
II.	Operational Phase	
a.	Quantity of Biodegradable waste generation and mode of Disposal as per norms	340 kg/day This will be segregated at household levels and will be processed in proposed organic waste converter.
b.	Quantity of Non-Biodegradable waste generation and mode of Disposal as per norms	509 kg/day Recyclable wastes will be handed over to authorized waste recyclers
c.	Quantity of Hazardous Waste generation and mode of Disposal as per norms	Waste Oil Generation: 177.39 L/Annum (0.486 L/running hour of DG) Hazardous wastes like waste oil from DG sets, used batteries etc. will be handed over to the authorized hazardous waste recyclers.
d.	Quantity of E waste generation and mode of Disposal as per norms	E-Wastes will be collected separately & it will be handed over to authorized E-waste recyclers for further processing.
19.	POWER	
a.	Total Power Requirement - Operational Phase	1116 kW

b.	Numbers of DG set and capacity in KVA for Standby Power Supply	500 kVA - 2 Nos.			
c.	Details of Fuel used for DG Set	209.52 l/hr			
d.	Energy conservation plan and Percentage of savings including plan for utilization of solar energy as per ECBC 2007	Cu wound transformer, Solar Lights, solar water heater, LED, high efficiency Pumps and motors in Lifts etc., The overall energy savings is around 26 %

The subject was discussed in the SEAC meeting held on 9<sup>th</sup> May 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for construction of residential apartments in an area earmarked for residential use as per RMP of BDA. The proponent informed that the proposed project area is cleared from sensitive zone by BDA in letter dated 24.05.2022 for the proposed development.

The committee during appraisal sought clarification for drain as per village map and provisions for harvesting rain water in the proposed area. The proponent informed the committee that there is primary drain along north to south behind the project site for which buffer of 50mtr from center of drain is proposed. For harvesting rain water, the proponent has proposed 182cumcapacity for runoff from rooftop and an additional tank of 75 cum capacity for runoff from landscape and paved areas in addition to 10nos

recharge pits within the project area. Further the committee informed the proponent to install smart metering for individual units for conservation of water and manage excess drainage water within the site area, for which the proponent agreed.

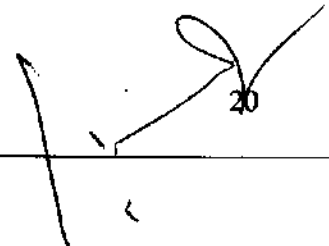

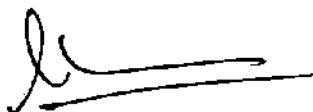

The proponent informed that 52 existing trees to be removed and had made provisions to grow a total of 347 trees and to charge electrical vehicles in the proposed project area. The proponent committed to take precautionary measures during and after construction to maintain the environmental parameters within permissible limits in the proposed project and agreed to comply with the ECBC and NBC guidelines for the proposed construction and adhere to the by-laws stipulated by the governing authority for buffers and setbacks.

The committee noted that the baseline parameters are found to be within permissible limits and informed the proponent to leave buffers/setbacks as per zoning regulations and to harvest maximum rainwater in the proposed project area. The committee after discussion decided to recommend the proposal to SEIAA for issue of EC

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

1. *STP should be redesigned for Biological Nitrogen Removal. / BNR and oil and grease separation system unit along with design calculation and revised budgetary allocation for the same should be submitted.*
2. *The project proponent shall furnish Notarized undertaking that he shall maintain Buffer zone as per bylaw and compliance to provisions of CDP.*
3. *The project proponent shall leave the buffer from the lake /drain as per the RCDP 2015 as directed by Supreme Court order CIVIL APPEAL NO. 5016 OF 2016 dated 5th March 2019.*
4. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CVLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) shall be submitted.*
5. *The PP shall submit CER in Specific Physical Terms with time bound action plan.*
6. *The project proponent shall ensure that tree planting/afforestation measures proposed in the EMP shall be strictly complied and an undertaking to this effect shall be submitted.*

20

7. The PP shall explore the possibility of installing smart meter for water conservation.

**Additional Condition:**

1. Assured water supply, commensurate with the ultimate occupancy envisaged in the project, shall be ensured before commencement of the project.
2. 25% of parking space shall have charging facility to enable charging of electric vehicles.
3. The PP shall strictly adhere to the local Planning Authority Bye-Laws.

**220.1.4. Commercial Residential Apartment Building Project at Kadirenahalli Village, Uttarahalli Hobli, Bangalore South Taluk, Bengaluru Rural District by Sri. Babu Venkatesh - Online proposal number - SIA/KA/MIS/273841/2022 (SEIAA 65 CON 2022)**

Shri B Venkatesh have proposed for construction of Proposed Commercial / Residential Apartment Building Project on a plot area of 7,486.61 sq.m.. The total built up area is 30,525.59 sq.m.. The proposed project consists of 68 Units with Block A & B, Commercial Building (Block A) having 2Basement +1 Ground Floor + 2 Upper Floors +Terrace floor and Residential Building (Block B) having 2 Basement +1 Ground Floor + 8 Upper Floors + Terrace floor. Total water consumption is 64.63 KLD (Fresh water + Recycled water). The total wastewater generated is 61.4 KLD. The project proponent has proposed to construct Sewage Treatment plant with capacity of 112 KLD. The project cost is Rs. 60 Crores.

Details of the project are as follows:

Sl. No	PARTICULARS	INFORMATION
1	Name & Address of the Project Proponent	Shri B VenkateshS/o. Late K Babu Resident of No. 1, Shivashakthi Nilayam, South 1st Cross, Katriguppe 80 feet Road, Banashankari 3rd Stage,Bangalore - 560085.

The subject was discussed in the SEAC meeting held on 9<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for construction of commercial and residential buildings in an area earmarked for residential use as per RMP of BDA. The proponent informed that as the road abutting is greater than 18mtrs ancillary use (commercial) is permitted.

The committee during appraisal sought details for provision for harvesting rain water in the proposed area. The proponent informed the committee that for harvesting rain water, the proponent has proposed 111.57cumcapacity for runoff from rooftop and an additional tank of14.34cum capacity for runoff from landscape and paved areas in addition to 21nos recharge pits within the project area. Further the committee informed the proponent to install smart metering for individual units for conservation of water and to make necessary provisions to manage excess runoff and treated water to reach main drains, for which the proponent agreed.

The proponent informed that they have made provisions to grow 88treesand to charge electrical vehicles in the proposed project area. The proponent committed to take precautionary measures during and after construction to maintain the environmental parameters within permissible limits in the proposed project and agreed to comply with

Drafted by 

the ECBC and NBC guidelines for the proposed construction and adhere to the by-laws stipulated by the governing authority for buffers and setbacks.

The committee noted that the baseline parameters are found to be within permissible limits and informed the proponent to leave buffers/setbacks as per zoning regulations and to harvest maximum rainwater in the proposed project area. The committee after discussion decided to recommend the proposal to SEIAA for issue of EC.

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

1. *The project proponent shall furnish Notarized undertaking that he shall maintain Buffer zone as per bylaw and compliance to provisions of CDP.*
2. *The project proponent shall leave the buffer from the lake /drain as per the RCDP 2015 as directed by Supreme Court order CIVIL APPEAL NO. 5016 OF 2016 dated 5th March 2019.*
3. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) shall be submitted.*
4. *The PP shall submit CER in Specific Physical Terms with time bound action plan.*
5. *The project proponent shall ensure that tree planting/afforestation measures proposed in the EMP shall be strictly complied and an undertaking to this effect shall be submitted.*
6. *The PP shall explore the possibility of installing smart meter for water conservation.*
7. *The PP shall submit necessary clarification for utilization of treated sewage for non-domestic purpose.*

**Additional Condition:**

1. *Assured water supply, commensurate with the ultimate occupancy envisaged in the project, shall be ensured before commencement of the project.*
2. *25% of parking space shall have charging facility to enable charging of electric vehicles.*
3. *The PP shall strictly adhere to the local Planning Authority Bye-Laws.*

**220.1.5. Residential & Commercial Shops Project at Yamere Village, Sarjapura Hobli, Anekal Taluk, Bangalore Urban District by M/s. D J Projects Private Limited - Online proposal number - SIA/KA/MIS/267321/2022 (SEIAA 48 CON 2022)**

M/s. D J Projects Pvt. Ltd have proposed for construction of Residential & Commercial Shops Project on a plot area of 8776.50Sqm The total built up area is 31619.29Sqm. The proposed project consists of 2-Basement+Ground+ 14 upper floors. Total water consumption is 105 KLD (Fresh water + Recycled water). The total wastewater generated is 84 KLD. The project proponent has proposed to construct Sewage Treatment plant with capacity of 90 KLD. The project cost is Rs. 52 Crores.

Details of the project are as follows:

The subject was discussed in the SEAC meeting held on 9<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposed project is for expansion of commercial shops and residential apartment building for which CFE was obtained from KSPCB on 01.02.2022 and for BUA of 19,987.21Sqm and now the proposal for BUA of 31,619.29Sqm. The proponent informed the committee that, based on the approved Anekal Planning authority and CFE from KSPCB, only earth work excavation had been done started and as the BUA was less than 20,000Sqm and did not come under the ambit of EIA Notification 2006 but due to the proposed for expansion in attracts Environmental Clearance is required.

The committee during appraisal sought clarification for water body, drain and foot kharab present in the project area as per village map and provisions for harvesting rain water in the proposed area. The proponent submitted clarifications and informed the committee that 30mtrs buffer in northern side is provided to the area adjacent to water body and no construction activities is proposed in the water body buffer area and only landscaping is proposed in water body buffer area and for the drain in southern side, a buffer of 3mtrs on either side from the edge of drain is proposed as per local bylaws and for the foot kharab in north of the plot area, the proponent informed that the kharab area will be left open for public use. For harvesting rain water, the proponent has proposed 2x100cum storage tank for runoff from roof top and recharge wells of 2x50cum capacity for runoff from landscape and paved areas in addition to 17nos of recharge pits. Further the committee informed the proponent to install smart metering for individual units for conservation of water and to make necessary provisions to manage excess runoff and treated water to reach main drains, for which the proponent agreed and submitted a plan for managing excess treated/runoff water out of the project area to the main drains.

The proponent further informed the committee that they have made provisions to grow 135 trees in the proposed project area. The proponent committed to take precautionary measures during and after construction to maintain the environmental

parameters within permissible limits in the proposed project and agreed to comply with the ECBC and NBC guidelines for the proposed construction and adhere to the by-laws stipulated by the governing authority for buffers and setbacks.

The committee noted that the baseline parameters are found to be within permissible limits and informed the proponent to leave buffers/setbacks as per zoning regulations and to harvest maximum rainwater in the proposed project area. The committee after discussion decided to recommend the proposal to SEIAA for issue of EC with a condition to leave free public access in foot kaharab area.

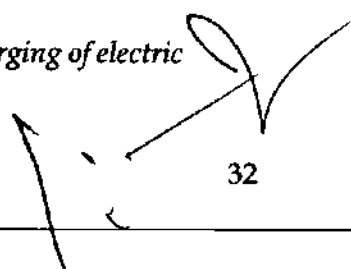

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

1. *The project proponent shall revisit the design details of Sewage Treatment Plant and provide an efficient and compact system of STP to handle the flow fluctuations with with Biological nutrient removal system.*
2. *The project proponent shall furnish Notarized undertaking that he shall maintain Buffer zone as per bylaw and compliance to provisions of CDP.*
3. *The project proponent shall leave the buffer from the lake /drain as per the RCDP 2015 as directed by Supreme Court order CIVIL APPEAL NO. 5016 OF 2016 dated 5th March 2019.*
4. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) shall be submitted.*
5. *The PP shall submit CER in Specific Physical Terms with time bound action plan.*
6. *The project proponent shall ensure that tree planting/afforestation measures proposed in the EMP shall be strictly complied and an undertaking to this effect shall be submitted.*
7. *The PP shall explore the possibility of installing smart meter for water conservation.*

**Additional Condition:**

1. *Assured water supply, commensurate with the ultimate occupancy envisaged in the project, shall be ensured before commencement of the project.*
2. *25% of parking space shall have charging facility to enable charging of electric vehicles.*

3. The PP shall strictly adhere to the local Planning Authority Bye-Laws.
4. The PP shall leave the kharab area for free access to public.

**220.1.6. Residential Apartment Building Project at Mandur Village, Bidarahalli Hobli, Hoskote Taluk, Bangalore District by M/s. Disha Habitat Projects LLP - Online proposal number - SIA/KA/MIS/274123/2022 (SEIAA 67 CON 2022)**

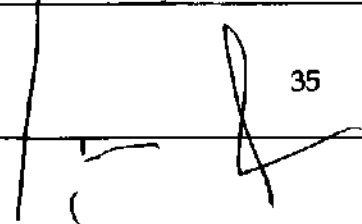

M/s. Disha Habitat Projects LLP have proposed for construction of Residential Apartment Project on a plot area of 16,181.89 sq.m.. The total built up area is 58,833.34 sq.m.. The proposed project consists of Construction of Residential Apartment project comprising of 2 Blocks, each Block having Basement + Ground Floor + 18 Upper Floors + Terrace Floor. Total water consumption is 223.2 KLD (Fresh water + Recycled water). The total wastewater generated is 212.04 KLD. The project proponent has proposed to construct Sewage Treatment plant with capacity of 250KLD. The project cost is Rs. 116 Crores.

Details of the project are as follows:

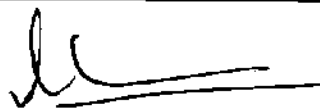

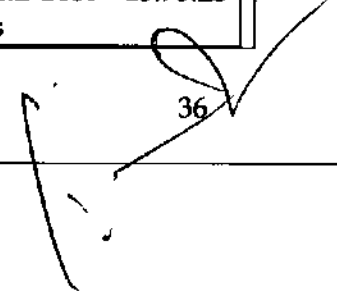

Sl. No	PARTICULARS	INFORMATION
1	Name & Address of the Project Proponent	Sri. Rajasekhar Kamisetty Partner, M/s. Dishahabitat Projects LLP, #43/2, 2 <sup>nd</sup> Floor, Above Axis Bank, Whitefield Main Road, Near Hope Farm Junction, Bangalore 560066
2	Name & Location of the Project	Proposed Residential Apartment Building by M/s. Disha Habitat Projects LLP at Sy No. 210 of Mandur Village, Bidarahalli Hobli, Hoskote Taluk, Bangalore District.
3	Type of Development	
a.	Residential Apartment / Villas / Row Houses / Vertical Development / Office / IT/ ITES/ Mall/ Hotel/ Hospital / other	Residential Apartment Category 8(b) as per EIA Notification 2006
b.	Residential Township/ Area Development Projects	No
4	New/ Expansion/ Modification/ Renewal	New

5	Water Bodies/ Nalas in the vicinity of project site	Byappananhalli lake is 1.01km
6	Plot Area (Sqm)	16,181.89 sq.m.
7	Built Up area (Sqm)	58,833.34 sq.m.
8	FAR <ul style="list-style-type: none"> <li>• Permissible</li> <li>• Proposed</li> </ul>	3.00 2.92
9	Building Configuration [ Number of Blocks / Towers / Wings etc., with Numbers of Basements and Upper Floors]	Construction of Residential Apartment project comprising of 2 Blocks, each Block having Basement + Ground Floor + 18 Upper Floors + Terrace Floor
10	Number of units/plots in case of Construction/Residential Township / Area Development Projects	320 units
11	Height Clearance	As per CCZM, Permissible height :141mtrs Height proposed : 57mtrs
12	Project Cost (Rs. In Crores)	116 Crores
13	Disposal of Demolition waster and or Excavated earth	No demolition waste
14	Details of Land Use (Sqm)	
a.	Ground Coverage Area	3,474.36 sq.m (21.63 %)
b.	Kharab Land	Nil
c.	Total Green belt on Mother Earth for projects under 8(a) of the schedule of the EIA notification, 2006	5,299.91 sq.m (33.00 %)

The subject was discussed in the SEAC meeting held on 9<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for construction of residential apartment in an area earmarked for residential use as per local planning authority.

The committee during appraisal sought details for provision for harvesting rain water in the proposed area. The proponent informed the committee that for harvesting rain water, the proponent has proposed 174cum capacity for runoff from rooftop and an additional tank of 350cum capacity for runoff from landscape and paved areas in addition to 16nos recharge pits within the project area. Further the committee informed the proponent to install smart metering for individual units for conservation of water and to make necessary provisions to completely use excess runoff and treated within site area, so as to prevent dependency on ground water, for which the proponent agreed and informed that necessary measures to be taken up so as to avoid dependency on ground water in proposed project.

The proponent informed that they have made provisions to grow 202trees and to charge electrical vehicles in the proposed project area. The proponent committed to take precautionary measures during and after construction to maintain the environmental parameters within permissible limits in the proposed project and agreed to comply with the ECBC and NBC guidelines for the proposed construction and adhere to the by-laws stipulated by the governing authority for buffers and setbacks.

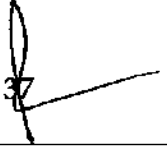

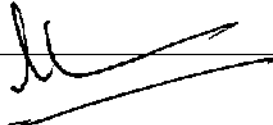

The committee noted that the baseline parameters are found to be within permissible limits and informed the proponent to leave buffers/setbacks as per zoning regulations and to harvest maximum rainwater in the proposed project area. The committee after discussion decided to recommend the proposal to SEIAA for issue of EC.

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

1. *The project proponent shall furnish Notarized undertaking that he shall maintain Buffer zone as per bylaw and compliance to provisions of CDP.*
2. *The project proponent shall leave the buffer from the lake /drain as per the RCDP 2015 as directed by Supreme Court order CIVIL APPEAL NO. 5016 OF 2016 dated 5th March 2019.*

Drafted by 

3. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) shall be submitted.*
4. *The PP shall submit CER in Specific Physical Terms with time bound action plan.*
5. *The project proponent shall ensure that tree planting/afforestation measures proposed in the EMP shall be strictly complied and an undertaking to this effect shall be submitted.*
6. *The PP shall explore the possibility of installing smart meter for water conservation.*
7. *The PP shall submit necessary clarification for utilization of treated sewage for non-domestic purpose.*

***Additional Condition:***

1. *Assured water supply, commensurate with the ultimate occupancy envisaged in the project, shall be ensured before commencement of the project.*
2. *25% of parking space shall have charging facility to enable charging of electric vehicles.*
3. *The PP shall strictly adhere to the local Planning Authority Bye-Laws.*

**220.1.7. Commercial / Residential Apartment Building Project at Doddabidarakallu Village, Ward No - 40, Yeshwanthpura Hobli, Bangalore North Taluk, Bengaluru Urban District by M/s. Bindu Infrastructure - Online proposal No. SIA/KA/MIS/268854/2022 (SEIAA 49 CON 2022)**

M/s. Bindu Infrastructure have proposed for construction of Proposed Commercial / Residential Apartment Building Project on a plot area of 9,448.24 sq.m.. The total built up area is 45,609.67 sq.m. The proposed project consists of 1 Building having Lower Basements + Upper Basement + Lower Ground Floor + Upper Ground Floor + 10 Upper Floors + Terrace Floor with 279 units. Total water consumption is 184.14 KLD (Fresh water + Recycled water). The total wastewater generated is 257.25 KLD. The project proponent has proposed to construct Sewage Treatment plant with capacity of 257.25 KLD. The project cost is Rs. 90 Crores.

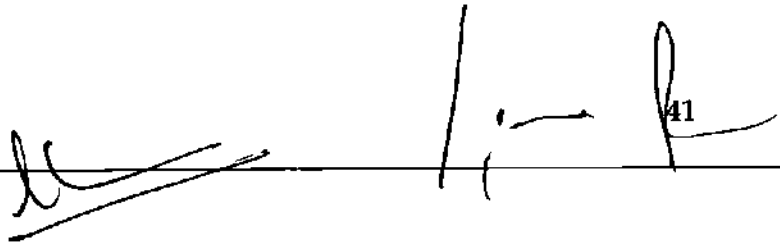

Details of the project are as follows:

Sl. No	PARTICULARS	INFORMATION
1	Name & Address of the Project Proponent	M/s. Bindu Infrastructure Partnership Firm Office at Corporation No. 361/1, Sy No. 121/1, Doddabidrakallu Village, Yeshwanthpura Hobli, Nagasandra Post, National Highway - 4, Tumkur Road, Bangalore North Taluk, Bangalore - 560 073.
2	Name & Location of the Project	by M/s. Proposed Commercial / Residential Apartment Building Bindu Infrastructure at Site No. 391/1, 361/1, 121/1 Doddabidarakallu Village, Ward No - 40, Yeshwanthpura Hobli, Bangalore North Taluk, Bengaluru.
3	Type of Development	
a.	Residential Apartment / Villas / Row Houses / Vertical Development / Office / IT/ ITES/ Mall/ Hotel/ Hospital / other	Commercial/Residential Apartment Category 8(b) as per EIA Notification 2006
b.	Residential Township/ Area Development Projects	No
4	New/ Expansion/ Modification/ Renewal	New
5	Water Bodies/ Nalas in the vicinity of project site	Doddabidrakallu Kere - 0.75 kms (S). Tertiary nala is outside the site towards North west
6	Plot Area (Sqm)	9,448.24 sq.m.
7	Built Up area (Sqm)	45,609.67 sq.m.
8	FAR • Permissible • Proposed	3.25 3.20
9	Building Configuration [ Number of Blocks / Towers / Wings etc., with Numbers of Basements and Upper Floors]	Construction of Commercial /Residential Apartment Building comprising of 1 Building having Lower Basements + Upper Basement +Lower Ground Floor + Upper Ground Floor + 10 Upper Floors + Terrace Floor
10	Number of units/plots in case of Construction/Residential Township/ Area Development Projects	279 units

11	Height Clearance in meters above sea level	As per CCZM Bangalore, permissible height : 115mtr Height proposed : 48.73mtr
12	Project Cost (Rs. In Crores)	90 Crores
13	Disposal of Demolition waster and or Excavated earth	Demolition waste of shed: Floor area : 1,200 sq.m Width of the shed : 0.5m Height of the shed: 2 m Volume of demolition waste: $1200 \times 0.5 + 2 \times 0.5 \times 5m \times 4sides = 600 + 20 = 620 \text{ cu.m}$ Handling of waste: Orderly deconstruction is the proper measure for reuse of the demolished matter. In contrast to demolition, where buildings will be knocked down and materials will be recycled, deconstruction will involve carefully taking apart portions of buildings and removing their contents with the primary goal being reuse. It will be as simple as stripping out cabinetry, fixtures, and windows, and manually taking apart the building frame.
14	Details of Land Use (Sqm)	
	a. Ground Coverage Area	3,805.56 sq.m (40.28 %)

The subject was discussed in the SEAC meeting held on 9<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for construction of commercial and residential building in an area earmarked for industrial hi-tech and mutation corridor as per RMP of BDA.

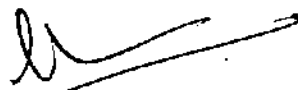

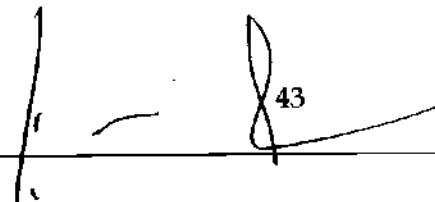

The committee during appraisal sought clarification for water body in eastern side as per village map, provision made for harvesting rain water in the proposed area and details of existing building. The proponent informed the committee that as per letter dated 10.05.2022 of Assistant Director of Urban Planning, BBMP, the water body as per village map is katte kharab, as it doesnot have any water sources, it do not attract buffer and for harvesting rain water, the proponent has proposed 206cumcapacity for runoff from rooftop and an additional tank of121cum capacity for runoff from landscape and paved areas in addition to 28nos recharge pits within the project area. Proponent informed that there is an existing shed which is to be deconstructed and about 620cum of demolition waste to be handled as per C&D Rules 2016. Further the committee informed the proponent to install smart metering for individual units for conservation of water, for which the proponent agreed.

The proponent informed that they have made provisions to grow 118trees and to charge electrical vehicles in the proposed project area. The proponent committed to take precautionary measures during and after construction to maintain the environmental parameters within permissible limits in the proposed project and agreed to comply with the ECBC and NBC guidelines for the proposed construction and adhere to the by-laws stipulated by the governing authority for buffers and setbacks.

The committee noted that the baseline parameters are found to be within permissible limits and informed the proponent to leave buffers/setbacks as per zoning regulations and to harvest maximum rainwater in the proposed project area. The committee after discussion decided to recommend the proposal to SEIAA for issue of EC.

The Authority perused the proposal and took note of the recommendation of SEAC.

Drafted by 

**The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:**

1. The project proponent shall furnish Notarized undertaking that he shall maintain Buffer zone as per bylaw and compliance to provisions of CDP.
2. The project proponent shall leave the buffer from the lake /drain as per the RCDP 2015 as directed by Supreme Court order CIVIL APPEAL NO. 5016 OF 2016 dated 5th March 2019.
3. If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) shall be submitted.
4. The PP shall submit CER in Specific Physical Terms with time bound action plan.
5. The project proponent shall ensure that tree planting/afforestation measures proposed in the EMP shall be strictly complied and an undertaking to this effect shall be submitted.
6. The PP shall explore the possibility of installing smart meter for water conservation.
7. The PP shall submit necessary clarification for utilization of treated sewage for non-domestic purpose.

**Additional Condition:**

1. Assured water supply, commensurate with the ultimate occupancy envisaged in the project, shall be ensured before commencement of the project.
2. 25% of parking space shall have charging facility to enable charging of electric vehicles.
3. The PP shall strictly adhere to the local Planning Authority Bye-Laws.

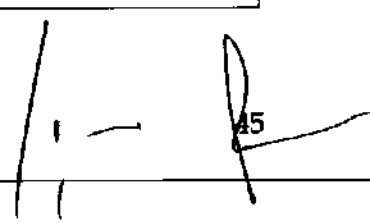

**220.1.8. Commercial and Multiplex Project at Attibele Village, Attibele Hobli, Anekal Taluk, Bengaluru Urban District by Sri Venkata Relangi - Online proposal number - SIA/KA/MIS/274492/2022 (SEIAA 70 CON 2022)**

Sri. R.V Surya Kiran(GPA Holder for Sri. K.V Srinivas Reddy and Smt. Rathnamma) have proposed for construction of "Commercial And Multiplex" Project on a plot area of 11,027.53Sq.m. The total built up area is 37,602.00 Sq.m. The proposed project consists of commercial development sprawled across BF+GF+5UF (GF- 2<sup>nd</sup> Floor - retail shops & 3<sup>rd</sup> - 5<sup>th</sup> Floor - Multiplex). Total water consumption is 185 KLD (Fresh water + Recycled)

water). The total wastewater generated is 148 KLD. The project proponent has proposed to construct Sewage Treatment plant with capacity of 175 KLD. The project cost is Rs. 60.17 Crores.

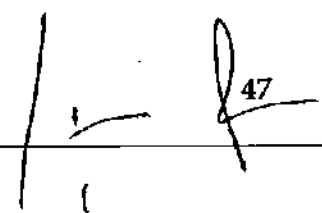

Details of the project are as follows:

Sl. No	PARTICULARS	INFORMATION

f.	Others Specify	STRR Land Bank - 552.46Sqm
g.	Parks and Open space in of Residential Township/ Development Projects	-
h.	Total	11,027.53 Sqm
15.	WATER	
I.	Construction Phase	
a.	Source of water	The domestic water requirement will be met external water suppliers and water requirement onstruction purpose will be met by STP tertiary ed water.
b.	Quantity of water for struction in KLD	21.0 KLD
c.	Quantity of water for estic Purpose in KLD	4.5 KLD
d.	Wastewater generation in	3.6KLD

e.	Treatment facility proposed and scheme of disposal of treated water	Domestic sewage generated during construction phase will be treated in mobile STP and treated water will be used for landscaping/dust suppression within the site.	
<b>II. Operational Phase</b>			
a.	Total Requirement of water in KLD	Fresh	67KLD
		Recycled	118KLD
		Total	185KLD
b.	Source of water	Town Municipal Council Attibele	
c.	Wastewater generation in KLD	148KLD	
d.	STP capacity	STP Capacity - 175KLD	
e.	Technology employed for treatment	Sequential Batch Reactor Technology	
f.	Scheme of disposal of treated water if any	-	
<b>16. Infrastructure for Rain water harvesting</b>			
a.	Capacity of sump tank to Roof run off	120 cum	
b.	No's of Ground water storage pits	8Nos.	
17.	Storm water management	Storm water runoff from driveway will be collected in a pond of capacity 30 cum. Runoff from landscape will be routed to channel garland drains will be provided within the site in order to carry out the storm water into the storage pits and will be managed within the site.	
<b>18. WASTE MANAGEMENT</b>			
<b>I. Construction Phase</b>			
a.	Quantity of Solid waste generation and mode of disposal as per norms	The domestic solid wastes will be minimal as there is no provision of labour colony; the generated domestic solid waste will be handed over to outside contractors. Construction debris - 38 m <sup>3</sup> This will be reused within the site for road and pavement formation.	
<b>II. Operational Phase</b>			
a.	Quantity of Biodegradable waste generation and mode of disposal as per norms	452 kg/day Biodegradable wastes will be segregated and will be processed in proposed organic waste treatment plant.	

	b.	Quantity of Non-degradable waste generation and mode of disposal as per norms	678 kg/day Recyclable wastes will be handed over to authorized waste recyclers			
	c.	Quantity of Hazardous waste generation and mode of disposal as per norms	Waste Oil Generation: 0.486 L/ running hour of Hazardous wastes like waste oil from DG sets, batteries etc. will be handed over to the authorized hazardous waste recyclers.			
	d.	Quantity of E waste generation and mode of disposal as per norms	E-Wastes will be collected separately & it will be handed over to authorized E-waste recyclers for further processing.			
19.	<b>POWER</b>					
	a.	Total Power Requirement at Operational Phase	2378 KVA			
	b.	Numbers of DG set and capacity in KVA for Standby or Supply	500 kVA - 2 Nos.			
	c.	Details of Fuel used for generator set	209.52l/hr			
	d.	Energy conservation plan Percentage of savings including plan for utilization of energy as per ECBC 2007	Cu wound transformer, Solar Lights, LED, efficiency Pumps and motors in Lifts, HVAC  The overall energy savings is around 23 %			
20.	<b>PARKING</b>					
	a.	Parking Requirement as per norms	317Nos. of cars. (provided -523 Nos. of cars)			
	b.	Level of Service (LOS) at connecting Roads as per traffic Study Report	Road	Towards	Existing	Changed
			Hosur Road	Hosur	C	D
			3) lanes MCW	Bengaluru City	D	E
			Hosur Road	Hosur	C	C
		4) lanes SR	Bengaluru City	C	C	
	c.	Internal Road width	Hosur road - 60.0 m wide			
21.	CER Activities Proposed		Development of walkway & installation of solar panels all around the Krishnasagara lake. - Rs. 5 Lakhs.			
22.	EMP • Construction phase • Operation Phase		During Construction: Capital Investment - 3.5Lakh Construction - 45.68 Lakh During Operation:			

	Capital investment - 201Lakh Operation Investment - 26.00 Lakh/annum
--	---

The subject was discussed in the SEAC meeting held on 9<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for construction of commercial building and multiplex in an area earmarked for residential, commercial and industrial use as per Anekal planning Authority.

The committee during appraisal sought details for provision for harvesting rain water in the proposed area. The proponent informed the committee that for harvesting rain water, the proponent has proposed 120cum capacity for runoff from rooftop and a pond of 30cum capacity for runoff from landscape and paved areas in addition to 08nos recharge pits within the project area. Further the committee informed the proponent to make necessary provisions to completely use excess runoff and treated within site area, for which the proponent agreed.

The proponent informed that they have made provisions to grow 138trees and to charge electrical vehicles in the proposed project area. The proponent committed to take precautionary measures during and after construction to maintain the environmental parameters within permissible limits in the proposed project and agreed to comply with the ECBC and NBC guidelines for the proposed construction and adhere to the by-laws stipulated by the governing authority for buffers and setbacks.

The committee noted that the baseline parameters are found to be within permissible limits and informed the proponent to leave buffers/setbacks as per zoning regulations and to harvest maximum rainwater in the proposed project area. The committee after discussion decided to recommend the proposal to SEIAA for issue of EC.

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

1. *The project proponent shall furnish Notarized undertaking that he shall maintain Buffer zone as per bylaw and compliance to provisions of CDP.*
2. *The project proponent shall leave the buffer from the lake /drain as per the RCDP 2015 as directed by Supreme Court order CIVIL APPEAL NO. 5016 OF 2016 dated 5th March 2019.*
3. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden*

(CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) shall be submitted.

4. The PP shall submit CER in Specific Physical Terms with time bound action plan.
5. The project proponent shall ensure that tree planting/afforestation measures proposed in the EMP shall be strictly complied and an undertaking to this effect shall be submitted.

**Additional Condition:**

1. Assured water supply, commensurate with the ultimate occupancy envisaged in the project, shall be ensured before commencement of the project.
2. 25% of parking space shall have charging facility to enable charging of electric vehicles.
3. The PP shall strictly adhere to the local Planning Authority Bye-Laws.

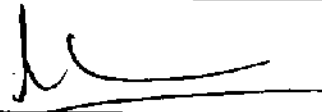

**220.1.9. Development of Residential Apartment Project at Rachenahalli Village, Bangalore East Taluk, Bangalore Urban District by M/s. Meenakshi Infra Projects (Shiva Kumar Kunchakuri) - Online proposal number - SIA/KA/MIS/247394/2021 (SEIAA 154 CON 2021)**

M/s. MeenakshiInfrra Projects have proposed for construction of Expansion of Residential Apartment Project on a plot area of 14,973.28 Sqm. The total built up area is 51,773.97 Sqm. The proposed project consists of 2 Blocks. Block - A: 2B+G+14F - 44.9 m with 73 flats Block-B: 2B+G+14F - 44.9 m with 240 flats.. Total water consumption is 247 KLD (Fresh water + Recycled water). The total wastewater generated is 210 KLD. The project proponent has proposed to construct Sewage Treatment plant with capacity of 50 KLD & 165 KLD. The project cost is Rs. 65 Crores.

Details of the project are as follows:

Sl. No	PARTICULARS	INFORMATION
1	Name & Address of the Project Proponent	K Shivakumar, Partner M/s. MeenakshiInfrra Projects, No. G3, ground floor, Meenakshi Estate North Avenue, Maruthi layout, Sampigehalli, Agrahara main road, YelahankaHobli, Bangalore- 560 064.
2	Name & Location of the Project	"MeenakshiInfrra Projects", Expansion of Residential Apartment located at Khata No. 2834/81/2A, 81/2B and 81/3B of Rachenahalli

h.	Total	14,973.28Sqm
15	WATER	
I.	Construction Phase	
a.	Source of water	STP treated water for construction purpose and tanker water for domestic purposes
b.	Quantity of water for Construction in KLD	10 KLD
c.	Quantity of water for Domestic Purpose in KLD	5KLD
d.	Wastewater generation in KLD	4.5 KLD
e.	Treatment facility proposed and scheme of disposal of treated water	Mobile STP
II.	Operational Phase	
a.	Total Requirement of Water in KLD	Fresh 168 KLD
		Recycled 79 KLD
		Total 247 KLD
b.	Source of water	BWSSB
c.	Waste water generation in KLD	210 KLD
d.	STP capacity	50 & 165KLD
e.	Technology employed for Treatment	Sequencing Batch Reactor (SBR) Technology

	f.	Scheme of disposal of excess treated water if any	For flushing - 79 KLD For gardening - 57 KLD For car washing- 19 KLD For Other construction purpose - 44 KLD
16	Infrastructure for Rain water harvesting		
	a.	Capacity of sump tank to store Roof run off	1X35 KL, 1X115 KL
	b.	No's of Ground water recharge pits	24 No's
17	Storm water management plan	<ul style="list-style-type: none"> <li>Land is gently sloping terrain and sloping towards South direction.</li> <li>Separate and independent rainwater drainage system will be provided for collecting rainwater from terrace and paved area, lawn &amp; roads.</li> <li>Rainwater collection tank of capacity 1X35 KL, 1X115 KL is proposed which will be provided to collect the roof run off, which will be reused after prior treatment.</li> <li>24 number of recharge pits will be provided to recharge the ground water within the site</li> </ul>	
18	WASTE MANAGEMENT		
	I.	Construction Phase	
	a.	Quantity of Solid waste generation and mode of Disposal as per norms	Quantity - 10 kg/day Solid waste will be collected manually and handed over to local body for further processing
	II.	Operational Phase	
	a.	Quantity of Biodegradable waste generation and mode of Disposal as per norms	Quantity -228 Kg/day Organic wastes will be segregated & collected separately and processed in organic waste converter Sludge generated from STP of capacity 12 kg/day will be reused as manure for greenery development purposes.
	b.	Quantity of Non-Biodegradable waste generation and mode of Disposal as per norms	Quantity - 341 Kg/day Recyclable waste will be given to the waste collectors for recycling for further processing.

	c.	Quantity of Hazardous Waste generation and mode of Disposal as per norms	Waste oil generated from the DG sets will be collected in leak proof barrels and handed over to the authorized waste oil recyclers.
	d.	Quantity of E waste generation and mode of Disposal as per norms	E-Wastes will be collected & stored in bins and disposed to the authorized & approved KSPCB E-waste processors.
19	POWER		
	a.	Total Power Requirement - Operational Phase	BESCOM -1100 kW
	b.	Numbers of DG set and capacity in KVA for Standby Power Supply	1X250 KVA & 1×320 kVA
	c.	Details of Fuel used for DG Set	HSD
	d.	Energy conservation plan and Percentage of savings including plan for utilization of solar energy as per ECBC 2007	Total savings of 20%
20	PARKING		
	a.	Parking Requirement as per norms	365ECS
	b.	Level of Service (LOS) of the connecting Roads as per the Traffic Study Report	Towards Hennur - B Towards Sathanur - B
	c.	Internal Road width (RoW)	Approach road width - 12.2 m Internal road width is- 6 m
21	CER Activities Proposed		<ul style="list-style-type: none"> <li>• RCC roof for 2 classrooms with painting.</li> <li>• Constructing Compound wall</li> <li>• Smart class facility by providing 2 computers at Puttanahalli Government primary school, Bengaluru.</li> </ul>
22	EMP		
	<ul style="list-style-type: none"> <li>• Construction phase</li> <li>• Operation Phase</li> </ul>		Construction phase - 7.3 lakh Operational Phase - 158 lakh

The subject was discussed in the SEAC meeting held on 9<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal was initially considered in 277<sup>th</sup> SEAC meeting and the committee had deferred the appraisal as the committee had noted that earlier EC was issued by SEIAA on 14.11.2018 to M/s. Meenakshi Estates" but the proponent had applied for expansion under M/s. Meenakshi Infra Projects" as it was necessary to get corrigendum to earlier EC for the proposed expansion. In the present meeting the proponent had submitted corrigendum issued to M/s. Meenakshi Infra Projects by SEIAA on 24.05.2022, the committee noted the corrigendum issued by SEIAA and appraised the project.

The proposal is for expansion of residential apartment building for which EC was issued by SEIAA on 14.11.2018 for BUA of 36,166.26Sqm and now proposed for a BUA of 51,773.97Sqm with no changes in plot area. Proponent submitted CCR issued by MoEF&CC on 21.02.2022 which was rated unsatisfactory as proponent had not submitted half yearly compliance and advertisement about obtaining EC, for which the proponent informed the committee that due to lack of knowledge and due to pandemic they had not submitted HYR and presently no construction activities was started and further informed the committee that they had submitted HYR to MoEF&CC and advertisement for obtaining EC in news papers and as no construction activities were started, requested to issue EC for the proposed expansion. The committee after discussion accepted the request made by proponent and informed to comply with EC conditions.

The committee during appraisal sought clarification for drain and foot kharab present in the project area as per village map, road passing in center of plot as per RMP of BDA and provisions for harvesting rain water in the proposed area. The proponent informed the committee that there is a secondary drain in northern side for which a buffer of 25mts from the center of drain is proposed and for the foot kharab in south, informed that there is an existing road in the foot kharab area and informed that they had left 12mtrs for proposed CDP road as per RMP of BDA passing in middle of the plot area. For harvesting rain water, the proponent has proposed 115cum storage tank for runoff from roof top and a pond of 35cum capacity for runoff from landscape and paved areas in

addition to 24nos of recharge pits. Further the committee informed the proponent to install smart metering for individual units for conservation of water and should treat waste water before letting out to main drains, for which the proponent agreed.

The proponent further informed the committee that they have made provisions to grow 175 trees in the proposed project area. The proponent committed to take precautionary measures during and after construction to maintain the environmental parameters within permissible limits in the proposed project and agreed to comply with the ECBC and NBC guidelines for the proposed construction and adhere to the by-laws stipulated by the governing authority for buffers and setbacks.

The committee noted that the baseline parameters are found to be within permissible limits and informed the proponent to leave buffers/setbacks as per zoning regulations and to harvest maximum rainwater in the proposed project area. The committee after discussion decided to recommend the proposal to SEIAA for issue of EC with a condition to leave free public access in foot kharab area.

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

1. *The project proponent shall furnish Notarized undertaking that he shall maintain Buffer zone as per bylaw and compliance to provisions of CDP.*
2. *The project proponent shall leave the buffer from the lake /drain as per the RCDP 2015 as directed by Supreme Court order CIVIL APPEAL NO. 5016 OF 2016 dated 5th March 2019.*
3. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) shall be submitted.*

4. *The PP shall submit CER in Specific Physical Terms with time bound action plan.*
5. *The project proponent shall ensure that tree planting/afforestation measures proposed in the EMP shall be strictly complied and an undertaking to this effect shall be submitted.*
6. *The PP shall explore the possibility of installing smart meter for water conservation.*

***Additional Condition:***

1. *Assured water supply, commensurate with the ultimate occupancy envisaged in the project, shall be ensured before commencement of the project.*
2. *25% of parking space shall have charging facility to enable charging of electric vehicles.*
3. *The PP shall strictly adhere to the local Planning Authority Bye-Laws.*
4. *The PP shall leave the kharab area for free access to public.*

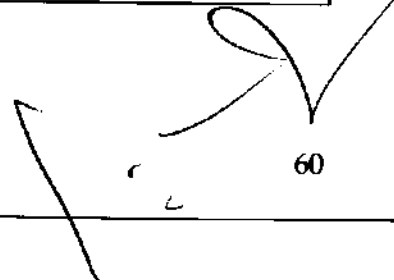

**220.1.10. Construction of Residential Apartment Project at Kambipura Village, Kengeri Hobli, Bengaluru South Taluk, Bengaluru District by M/s. Good Earth Eco Developments Pvt. Ltd. - Online proposal No. SIA/KA/MIS/275242/2022(SEIAA 74 CON 2022)**

M/s. Good Earth Eco Developments Pvt Ltd have proposed for construction of Residential Building Project on a plot area of 19,728.44 Sqm. The total built up area is 24,208.69 Sqm . The proposed project consists of 2 Blocks with 76 units. Blocks 1 having B +G+FF+SF and Block 2 having G+ FF. Total water consumption is 55 KLD (Fresh water + Recycled water). The total wastewater generated is 44 KLD. The project proponent has proposed to construct Sewage Treatment plant with capacity of 50 KLD. The project cost is Rs. 102 Crores. Details of the project are as follow;

Sl. No	PARTICULARS	INFORMATION
1	Name & Address of the Project Proponent	Mr. Parthasarathy Sampathkumar Director M/s. Good Earth Eco Developments Pvt Ltd #9, 10, 11, 2nd floor, Tarana, Good Earth Malhar, Kambipura, Kengeri, Bengaluru

		• Operation Phase	Operational Phase - 85 lakh

The subject was discussed in the SEAC meeting held on 10<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for construction of residential apartments in an area earmarked for residential use as per RMP of BDA.

The committee during appraisal sought clarification for water body as per village map and RMP of BDA and provisions for harvesting rain water in the proposed area. The proponent informed the committee that as per village map there is a water body in north east at a distance of 25mtrs from the boundary of the proposed area and hence 5mtrs buffer is left in proposed project and for the water body in sy no 226 as per RMP of BDA, proponent informed that BDA in latter dated 28.03.2022 had given clarification informing that water body in survey no. 226 is a cartographical error and hence no buffer is proposed. For harvesting rain water, the proponent has proposed 2x130cum capacity for runoff from rooftop and a pond of 140cum capacity for runoff from landscape and paved areas in addition to 14nos recharge pits within the project area. Further the committee informed the

proponent to install smart metering for individual units for conservation of water and should treat waste water before letting out to main drains, for which the proponent agreed.

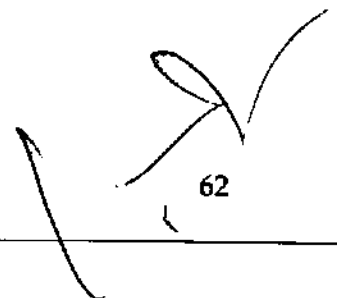

The proponent submitted revised tree list and informed that they had made provisions to grow 240 trees in the plot area and provisions to charge electrical vehicles in the proposed project area. The proponent committed to take precautionary measures during and after construction to maintain the environmental parameters within permissible limits in the proposed project and agreed to comply with the ECBC and NBC guidelines for the proposed construction and adhere to the by-laws stipulated by the governing authority for buffers and setbacks.

The committee noted that the baseline parameters are found to be within permissible limits and informed the proponent to leave buffers/setbacks as per zoning regulations and to harvest maximum rainwater in the proposed project area. The committee after discussion decided to recommend the proposal to SEIAA for issue of EC.

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

1. *The project proponent shall furnish Notarized undertaking that he shall maintain Buffer zone as per bylaw and compliance to provisions of CDP.*
2. *The project proponent shall leave the buffer from the lake /drain as per the RCDP 2015 as directed by Supreme Court order CIVIL APPEAL NO. 5016 OF 2016 dated 5th March 2019.*
3. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) shall be submitted.*
4. *The PP shall submit CER in Specific Physical Terms with time bound action plan.*
5. *The project proponent shall ensure that tree planting/afforestation measures proposed in the EMP shall be strictly complied and an undertaking to this effect shall be submitted.*
6. *The PP shall explore the possibility of installing smart meter for water conservation.*

**Additional Condition:**

1. Assured water supply, commensurate with the ultimate occupancy envisaged in the project, shall be ensured before commencement of the project.
2. 25% of parking space shall have charging facility to enable charging of electric vehicles.
3. The PP shall strictly adhere to the local Planning Authority Bye-Laws.

**220.1.11. Commercial Building Project at Gunjur Village, Bangalore East Taluk, Bangalore Urban District by M/s. Prestige Office Ventures - Online proposal No. SIA/KA/MIS/ 272748/2022 (SEIAA 71 CON 2022)**

M/s. Prestige Office Ventures have proposed for construction of Development of commercial building Project on a plot area of 19,930 Sqm. The total built up area is 1,16,202.16 Sqm. The proposed project consists of 2 Block. Block 1- 2B+G+18F and Block 2 - 2B+G+3F. Total water consumption is 268 KLD (Fresh water + Recycled water). The total wastewater generated is 241 KLD. The project proponent has proposed to construct Sewage Treatment plant with capacity of 241 KLD. The project cost is Rs. 136.78 Crores.

Details of the project are as follows:

Sl. No	PARTICULARS	INFORMATION
1	Name & Address of the Project Proponent	Mr. Nayeem Noor, Executive Director M/s. Prestige Office Ventures, Prestige Group, Prestige Falcon Towers, No.19, Brunton Road, Bengaluru -560025
2	Name & Location of the Project	"Prestige Tech Habitat" Development of commercial building by M/s. Prestige Office Ventures, Survey No's. 220/2A, 220/3, 220/4, 220/6, 220/9, 220/10 & 211/7 of Gunjur Village, Varthur Hobli, Bengaluru East Taluk, Bengaluru District, Karnataka
3	Type of Development	
	a. Residential Apartment / Villas / Row Houses / Vertical Development / Office / IT/ ITES/ Mall/ Hotel/ Hospital /other	Development of Commercial Building Category 8(b) as per EIA Notificatoin 2006
	b. Residential Township/ Area Development Projects	Not Applicable

4	New/ Expansion/ Modification/ Renewal	New
5	Water Bodies/ Nalas in the vicinity of project site	NA

		collecting rainwater from terrace and paved area, lawn & roads.
<b>18</b>	<b>WASTE MANAGEMENT</b>	
	<b>I. Construction Phase</b>	
	a. Quantity of Solid waste generation and mode of Disposal as per norms	Quantity - 10kg/day Solid waste will be generated and collected manually and handed over to local body for further processing
	<b>II. Operational Phase</b>	
	a. Quantity of Biodegradable waste generation and mode of Disposal as per norms	Quantity - 476 kg/day Organic wastes will be segregated & collected separately and processed in organic waste converter Sludge generated from STP of capacity 12.05 kg/day will be reused as manure for greenery development purposes.
	b. Quantity of Non-Biodegradable waste generation and mode of Disposal as per norms	Quantity - 714 kg/day Recyclable waste will be given to the waste collectors for recycling for further processing.
	c. Quantity of Hazardous Waste generation and mode of Disposal as per norms	Waste oil generated from the DG sets will be collected in leak proof barrels and handed over to the authorized waste oil recyclers.
	d. Quantity of E waste generation and mode of Disposal as per norms	E-Wastes will be collected & stored in bins and disposed to the authorized & approved KSPCB E-waste processors.
<b>19</b>	<b>POWER</b>	
	a. Total Power Requirement - Operational Phase	BESCOM -5591 kVA
	b. Numbers of DG set and capacity in KVA for Standby Power Supply	5X1500kVA
	c. Details of Fuel used for DG Set	High speed diesel fuel
	d. Energy conservation plan and Percentage of savings including plan for utilization of solar energy as per ECBC 2007	Total savings of 29%
<b>20</b>	<b>PARKING</b>	

	a.	Parking Requirement as per norms	1196 ECS
	b.	Level of Service (LOS) of the connecting Roads as per the Traffic Study Report	SH-35 towards Sarjapura Road - C SH-35 towards whitefield - D
	c.	Internal Road width (RoW)	Approach road width - 30 m Internal road width is - 8 m
21		CER Activities Proposed	Gunjur lake rejuvenation and Providing sanitary and drinking water facility at GunjurPalya Government Higher primary school, Bengaluru.
22		EMP	
		• Construction phase	Construction phase - 14.5 lakh
		• Operation Phase	Operational Phase - 346 lakh

The subject was discussed in the SEAC meeting held on 10<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for construction of commercial building in an area earmarked for residential use as per RMP of BDA, for which the proponent informed that as the abutting road width is more than 18mtrs, commercial activities is permitted as per zoning regulations.

The committee during appraisal sought clarification for drain as per village map and provisions for harvesting rain water in the proposed area. The proponent informed the committee that as per village map there is a tertiary drain in North West direction, for which 15mtr buffer from the center is proposed. For harvesting rain water, the proponent has proposed 215cumcapacity for runoff from rooftop and a pond of500cum capacity for runoff from landscape and paved areas in addition to 19nos recharge pits within the project area. Further the committee informed the proponent to install smart metering for individual units for conservation of water and should treat waste water before letting out to main drains, for which the proponent agreed.

The proponent submitted revised tree list and informed that they had made provisions to grow 250trees in the plot area and provisions to charge electrical vehicles in the proposed project area. The proponent committed to take precautionary measures during and after construction to maintain the environmental parameters within permissible limits in the proposed project and agreed to comply with the ECBC and NBC guidelines for the proposed construction and adhere to the by-laws stipulated by the governing authority for buffers and setbacks.

The committee noted that the baseline parameters are found to be within permissible limits and informed the proponent to leave buffers/setbacks as per zoning regulations and to harvest maximum rainwater in the proposed project area. The committee after discussion decided to recommend the proposal to SEIAA for issue of EC.

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

1. *The project proponent shall furnish Notarized undertaking that he shall maintain Buffer zone as per bylaw and compliance to provisions of CDP.*
2. *The project proponent shall leave the buffer from the lake /drain as per the RCDP 2015 as directed by Supreme Court order CIVIL APPEAL NO. 5016 OF 2016 dated 5th March 2019.*
3. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) shall be submitted.*
4. *The PP shall submit CER in Specific Physical Terms with time bound action plan.*
5. *The project proponent shall ensure that tree planting/afforestation measures proposed in the EMP shall be strictly complied and an undertaking to this effect shall be submitted.*

***Additional Condition:***

1. *Assured water supply, commensurate with the ultimate occupancy envisaged in the project, shall be ensured before commencement of the project.*
2. *25% of parking space shall have charging facility to enable charging of electric vehicles.*
3. *The PP shall strictly adhere to the local Planning Authority Bye-Laws.*

**Mining Projects:**

**220.1.12. Building Stone Quarry Project at Basavanayakanahalli Village, Holenarsipura Taluk, Hassan District (3-00 Acres) by Sri Thejasgowda B.T. - Online proposal number - SIA/KA/MIN/273622/2022 (SEIAA 240 MIN 2022).**

Sri Thejasgowda have applied for Environmental clearance from SEIAA for quarrying of Building Stone Quarry Project at Sy. No. 80 of Basavanayakanahalli Village, Holenarsipura Taluk, Hassan District (3-00 Acres)

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION															
1	Name & Address of the Projects Proponent	Sri Thejasgowda B.T.S/o. B.G. Thimmegowda Basavanayakanahalli Village, Malladevarapura Post, Holenarsipura Taluk, Hassan District,

15	Quarry plan	10.06.2022															

16	Cluster certificate	06.05.2022
17	Revenue NoC	26.11.2021

The subject was discussed in the SEAC meeting held on 9<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The committee considered the proposal on 10.06.2022 for appraisal as the committee noted that as per the KML submitted by proponent there is there is irrigation canal at a distance of 166mtrs from the proposed lease area, for which the proponent submitted revised approved quarry plan certified by DGM dated 10.06.2022 by leaving buffer of 200mtrs from the irrigation canal. The committee accepted the revised quarry plan and informed the proponent to take all the safety precautions to prevent damages to the canal, for which the proponent agreed.

As per the cluster sketch there are 2 leases including this lease and total extent including the subject lease is 4-20 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 240 meters connecting lease area to the all weather black topped road and the committee informed that the quarrying operation should be commenced after strengthening the approach road to the quarry & the road connecting to the crusher as per IRC (Indian Road Congress) standard norms & should grow trees all along the approach road in the beginning of the project, for which the proponent agreed.

The Proponent has collected baseline data of air, water, soil and noise and all are within the permissible limits. The proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

Considering the proved mineable reserve of 4,74,452Tons (including waste) as per the approved quarry plan, the committee estimated the life of the mine as 7 years. The committee decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 71,746Tons/ Annum (including waste).

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

1. If the distance of nearest Protected Area (National Park/ Sanctuary/ Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection

Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).

2. Safety measures proposed shall be submitted.
3. A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.

**Additional Conditions:**

Dust suppression measures have to be strictly followed.

**220.1.13. Building Stone Quarry Project at Tondavadi Village, Gundlupete Taluk, Chamaranagara District (8-12 Acres) by Sri Shameer AM - Online proposal number - SIA/KA/MIN/271915/2022 (SEIAA 237 MIN 2022).**

Sri Shameer AM have applied for Environmental clearance from SEIAA for quarrying of Building Stone Quarry Project at Sy. Nos. 389/2, 378/1, 377 & 376 of Tondavadi Village, Gundlupete Taluk, Chamaranagara District

Details of the project are as follows:

The subject was discussed in the SEAC meeting held on 9<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

As per the cluster sketch there are no other leases within 500 meters radius from this lease and the area of the subject leases is 8-12 Acre and project is categorized as B2.

There is an existing cart track road to a length of 850 meters connecting lease area to the all weather black topped road and the committee informed that the quarrying operation should be commenced after asphaltting the approach road to the quarry & the road connecting to the crusher as per IRC (Indian Road Congress) standard norms & should grow trees all along the approach road in the beginning of project, for which the proponent agreed.

Drafted by 

The proponent has collected baseline data of air, water, soil and noise and all are within the permissible limits. The proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

Considering the proved mineable reserve of 15,79,637Tons (including waste) as per the approved quarry plan, the committee estimated the life of the mine as 10 years. The committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 1,65,000Tons/ Annum (including waste).

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

1. If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).
2. Safety measures proposed shall be submitted.
3. A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.

**Additional Conditions:**

Dust suppression measures have to be strictly followed.

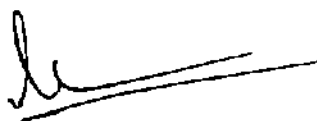

**220.1.14. Building Stone Quarry Project at Honnenahalli Kaval Village Belur Taluk, Hassan District (6-00 Acres) by M/s. Benaka Stone Crusher - Online proposal number - SIA/KA/MIN/274267/2022 (SEIAA 245 MIN 2022).**

M/s. Benaka Stone Crusher have applied for Environmental clearance from SEIAA for quarrying of Building Stone Quarry Project at Sy. No. 40/2 of Honnenahalli Kaval Village Belur Taluk, Hassan District (6-00 Acres)

Details of the project are as follows:

16	Cluster certificate	11.05.2022															
17	Revenue NoC	22.12.2021															

The subject was discussed in the SEAC meeting held on 9<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

As per the cluster sketch there are no other leases within 500 meters radius from this lease and the area of the subject leases is 6-00 Acres and project is categorized as B2.

There is an existing cart track road to a length of 600+250 meters connecting lease area to the all weather black topped road and the committee informed that the quarrying operation should be commenced after asphaltting the approach road to the quarry & the road connecting to the crusher as per IRC (Indian Road Congress) standard norms & should grow trees all along the approach road in the beginning of project, for which the proponent agreed.

The proponent has collected baseline data of air, water, soil and noise and all are within the permissible limits. The proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

Considering the proved mineable reserve of 16,71,037Tons (including waste) as per the approved quarry plan, the committee estimated the life of the mine as 11 years. The committee decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 1,54,250 Tons/ Annum (including waste).

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

1. If the distance of nearest Protected Area (National Park/ Sanctuary/ Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/ Bio sphere reserve/ migratory corridor).
2. Safety measures proposed shall be submitted.
3. A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.

**Additional Conditions:**

Dust suppression measures have to be strictly followed.

**220.1.15. Building Stone Quarry Project at Bengre-2 Village, Mavalli Hobli, Bhatkal Taluk, Uttara Kannada District (1.669 ha) by Mr. Praveen Ramachandra Kini - Online proposal number - SIA/KA/MIN/269373/2022 (SEIAA 219 MIN 2022).**

Mr. Praveen Ramachandra Kini have applied for Environmental clearance from SEIAA for quarrying of Building Stone Quarry Project at Sy. No. 1101 of Bengre-2 Village, Mavalli Hobli, Bhatkal Taluk, Uttara Kannada District

Details of the project are as follows:

16	Cluster certificate	24.03.2022
17	Revenue NoC	30.01.2021
18	District Task Force	06.01.2022

The subject was discussed in the SEAC meeting held on 9<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

As per the cluster sketch there are 02 leases including the present lease within 500 meter radius from this lease out of which 1 lease is exempted from cluster as the EC have been issued prior to 15.01.2016 and the total area of the lease is 4-05 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 1230 meters connecting lease area to the all weather black topped road and the committee informed that the quarrying operation should be commenced after asphaltting the approach road to the quarry & the road connecting to the crusher as per IRC (Indian Road Congress) standard norms & should grow trees all along the approach road in the beginning of project, for which the proponent agreed.

The proponent has collected baseline data of air, water, soil and noise and all are within the permissible limits. The proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits. Considering the proved mineable reserve of 12,46,479Tons (including waste) as per the approved quarry plan, the committee estimated the life of the mine as 5 years. The committee decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 2,47,423Tons/ Annum (including waste).

The Authority perused the proposal and took note of the recommendation of SEAC.

	<ul style="list-style-type: none"> <li>• Providing solar power panels to the GHPS school at Chavaragudda village</li> <li>• Avenue plantation either side of the approach road near quarry site &amp; Repair of road with drainages</li> <li>• Conducting E-waste drive campaigns in the Chavaragudda village</li> <li>• Scientific support and awareness to local farmers to increase yield of crop and fodder</li> <li>• Health camp in GHPS at Chavaragudda village</li> </ul>	
12	EMP Budget	Rs. 14.69Lakhs (Capital Cost) &7.65Lakhs (Recurring cost)
13	Forest NOC	23.12.2021
14	Notification	10.02.2022
15	Quarry plan	13.04.2022
16	Cluster certificate	07.03.2022
17	Revenue NoC	29.12.2021

The subject was discussed in the SEAC meeting held on 9<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

As per the cluster sketch there are 03 leases including the present lease within 500 meter radius from this lease out of which 1 lease is exempted from cluster as the EChave been issued prior to 15.01.2016 and the total area of the leases including the present lease is 1-32 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 320 meters connecting lease area to the all weather black topped road and the committee informed that the quarrying operation should be commenced after asphaltting the approach road to the quarry & the road connecting to the crusher as per IRC (Indian Road Congress) standard norms & should grow trees all along the approach road in the beginning of project, for which the proponent agreed.

The proponent has collected baseline data of air, water, soil and noise and all are within the permissible limits. The proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

Considering the proved mineable reserve of 97,845Tons (including waste) as per the approved quarry plan, the committee estimated the life of the mine as 7 years. The committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 15,789 Tons/ Annum (including waste).

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CVLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

**Additional Conditions:**

*Dust suppression measures have to be strictly followed.*

**220.1.19. Building Stone Quarry Project at Ucchangidurga Village, Harappanahalli Taluk, Davanagere District (3-00 Acres) by M/s. SAPTHAGIRI STONE CRUSHER - Online proposal number - SIA/KA/MIN/251556/2022 (SEIAA 16 MIN 2022)**

M/s. SAPTHAGIRI STONE CRUSHER have applied for Environmental clearance from SEIAA for quarrying of Building Stone Quarry Project at Sy. No.476 of Ucchangidurga Village, Harappanahalli Taluk, Davanagere District

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION
1	Name & Address of the Projects Proponent	M/s.SAPTHAGIRI STONE CRUSHER
2	Name & Location of the Project	Building Stone Quarry Project at Sy. No.476 of Ucchangidurga Village, Harappanahalli Taluk, Davanagere District (3-00 Acres)

		Boundary Pillar	Latitude	Longitude

13	Forest NOC	07.01.2019		
14	Notification	18.02.2019		
15	Cluster certificate	04.05.2022		
16	Revenue NoC	29.01.2019		

The subject was discussed in the SEAC meeting held on 9<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal was earlier considered in 277<sup>th</sup> EAC meeting and the committee had deferred the proposal for want of certified cluster certificates by DMG mentioning the

lease granted dates and ECs issued dates. In the present meeting the proponent had submitted revised cluster sketch certified by DMG authorities and as per the cluster sketch there are 08 leases including the present lease within 500 meter radius from this lease out of which 01 lease is exempted from cluster as the lease has been granted prior to 09/09/2013 and area of remaining leases including the present lease is 15.98 Acres, for which the proponent submitted clarification from DMG in letter dated 02.03.2020 informing that AQL 08/2018-19 of Goni Basaveshwara Stone Crusher in sy no. 476 with lease area of 6.88 Acres is only notified area and its neither granted nor EC is issued, hence requested to exempted from cluster. The committee noted the details and opined that the total area of the remaining leases including the present lease and by excluding 6.88 Acres is 9.1 Acres and hence the is categorized as B2 proposal.

There is an existing cart track road to a length of 750 meters connecting lease area to the all weather black topped road and the committee informed that the quarrying operation should be commenced after asphaltting the approach road to the quarry & the road connecting to the crusher as per IRC (Indian Road Congress) standard norms & should grow trees all along the approach road in the beginning of project and also to take precautionary safety measures considering the nearby habitation, the proponent agreed to the conditions and assured to take all safety precautions during operation.

The proponent has collected baseline data of air, water, soil and noise and all are within the permissible limits. The proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

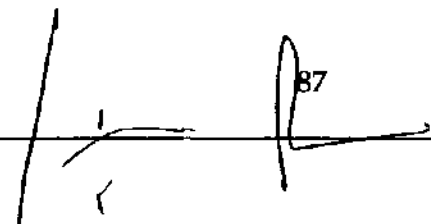

Considering the proved mineable reserve of 3,01,383 Tons (including waste) as per the approved quarry plan, the committee estimated the life of the mine as 5 years. The committee after decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 60,063 Tons/ Annum (including waste).

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

Drafted by 

**Additional Conditions:**

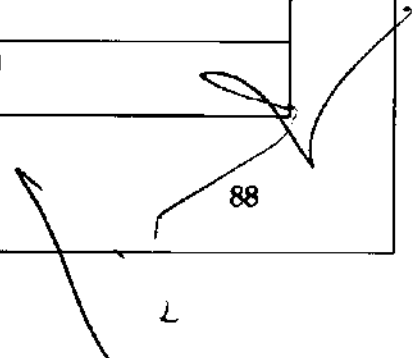

*Dust suppression measures have to be strictly followed.*

**220.1.20. Building Stone Quarry Project at Sy. No. 131/B1 of Chetnahalli Village, Harappanahalli Taluk, Davanagere District (2-00 Acres) by M/s. SAPTHAGIRI STONE CRUSHER - Online proposal number - SIA/KA/MIN/251202/2022 (SEIAA 17 MIN 2022)**

M/s. Sapthagiri Stone Crusher have applied for Environmental clearance from SEIAA for quarrying of Building Stone Quarry Project at Sy. No. 131/B1 of Chetnahalli Village, Harappanahalli Taluk, Davanagere District

Details of the project are as follows:

The subject was discussed in the SEAC meeting held on 9<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal was considered in 272<sup>nd</sup> SEAC meeting, as the proponent was absent, the committee had deferred the appraisal.

As per the cluster sketch there are 02 leases including the present lease within 500 meter radius from this lease and the total area of the leases including the present lease is 2-00 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 828 meters connecting lease area to the all weather black topped road and the committee informed that the quarrying operation should be commenced after strengthening the approach road to the quarry & the road connecting to the crusher as standard norms & should grow trees all along the approach road in the beginning of project, for which the proponent agreed.

The proponent has collected baseline data of air, water, soil and noise and all are within the permissible limits. The proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

Considering the proved mineable reserve of 1,09,524Tons (including waste) as per the approved quarry plan, the committee estimated the life of the mine as 20 years. The committee decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 5,700Tons/ Annum (including waste).

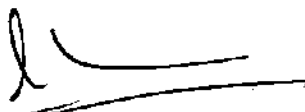

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

**Additional Conditions:**

Drafted by 

*Dust suppression measures have to be strictly followed.*

**220.1.22. White Quartz Quarry Project at Chikkakasanakandi Village, Koppala Taluk & District (20-00 Acres) by M/s. National Mining Company - Online Proposal No. SIA/KA/MIN/76906/2020(SEIAA 455 MIN 2020)**

M/s. National Mining Company have applied for Environmental clearance from SEIAA for quarrying of White Quartz Quarry Project at Sy.No.25 of Chikkakasanakandi Village, Koppala Taluk & District

14	Quarry plan	30.12.2020
15	Revenue NoC	31.08.2019
16	Letter of Intent	06.08.2020

The subject was discussed in the SEAC meeting held on 10<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for renewal of White Quartz Quarry for which the earlier lease with lease no. 2253 was granted on 17.09.1999 for twenty years and lease was expired on 16.09.1999. For the proposed renewal TOR was issued by SEIAA on 24.06.2021. Public Hearing was conducted on 01.03.2022. The proponent submitted audit reports certified by DMG till 2021-22 and proponent informed that no mining activities had carried out till date.

There is an existing cart track road to a length of 1920 meters connecting lease area to the all weather black topped road and the committee informed that the quarrying operation should be commenced after asphaltting the approach road to the quarry & the road connecting to the crusher as per IRC (Indian Road Congress) standard norms & should grow trees all along the approach road and also informed the proponent to comply for the observations/requests in Public Hearing and to adhere to the conditions in forest NoC, for which the proponent agreed.

The proponent has collected baseline data of air, water, soil and noise and the parameters are within the permissible limits. The proponent informed that all mitigation measures will be taken to Considering the proved mineable reserve of 7,37,477Tons (including waste) as per the approved quarry plan, the committee estimated the life of the mine as 8 years. The committee decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 99,806.6 TPA (including waste)

The Authority perused the proposal and took note of the recommendation of SEAC.

**The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:**

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

**Additional Conditions:**

*Dust suppression measures have to be strictly followed.*

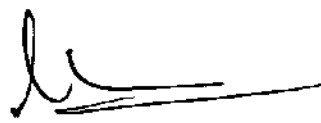

**220.1.23. Building Stone Quarry Project at Murarahalli Village, Hubli Taluk, Dharwad District (1-00 Acre) by Sri Shankrappa K Bijawad - Online proposal No.SIA/KA/MIN/272747/2022 (SEIAA 232 MIN 2022)**

Sri Shankrappa K Bijawad have applied for Environmental clearance from SEIAA for quarrying of Building Stone Quarry Project at Sy. No. 51/A of Murarahalli Village, Hubli Taluk, Dharwad District

Details of the project are as follows:

Sl.No.	PARTICULARS	INFORMATION
1	Name & Address of the Projects Proponent	Sri Shankrappa K Bijawad S/o Late Kashappa, #56/2162 Virpur Oni Main Road, Hubli Taluk, Dharwad District - 580020.
2	Name & Location of the Project	Building Stone Quarry Project at Sy. No. 51/A of Murarahalli Village, Hubli Taluk, Dharwad District (1-00 Acre)

15	Revenue NoC	21.11.2021		
16	Cluster certificate	27.04.2022		
17	Notification	14.02.2022		

The subject was discussed in the SEAC meeting held on 10<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

As per the cluster sketch there are 02 leases including the present lease within 500 meter radius from this lease and the total area of the leases including the present lease is 2-00 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 690 meters connecting lease area to the all weather black topped road and the committee informed that the quarrying operation should be commenced after asphaltting the approach road to the quarry & the road connecting to the crusher as IRC norms & should grow trees all along the approach road in the beginning of project, for which the proponent agreed.

The proponent has collected baseline data of air, water, soil and noise and all are within the permissible limits. The proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

Considering the proved mineable reserve of 1,80,096 Tons (including waste) as per the approved quarry plan, the committee estimated the life of the mine as 7 years. The committee decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 26,316Tons/ Annum (including waste).

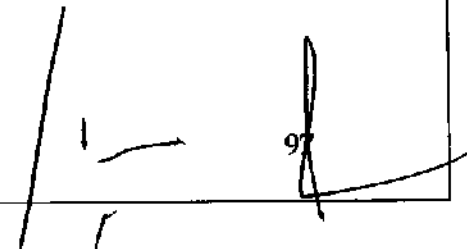

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

**Additional Conditions:**

*Dust suppression measures have to be strictly followed.*

**220.1.24. Building Stone Quarry Project at Sanikere Village, Kasaba Hobli, Challakere Taluk, Chitradurga District (8-00 Acres) by M/s. Vijayashree Stone Crushers - Online proposal No. SIA/KA/MIN/272585/2022 (SEIAA 234 MIN 2022)**

M/s. Vijayashree Stone Crushers have applied for Environmental clearance from SEIAA for Building Stone Quarry Project at Sy.Nos.47/9, 47/10, 47/11 & 47/12 of Sanikere Village, Kasaba Hobli, Challakere Taluk, Chitradurga District

Details of the project are as follows:

17	Notification	07.04.2022

The subject was discussed in the SEAC meeting held on 10<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

As per the cluster sketch there are no other leases within 500 meters radius from this lease and the area of the subject leases is 8-00 Acre and project is categorized as B2.

There is an existing cart track road to a length of 870 meters connecting lease area to the all weather black topped road and the committee informed that the quarrying operation should be commenced after asphaltting the approach road to the quarry & the road connecting to the crusher as IRC norms & should grow trees all along the approach road in the beginning of project, for which the proponent agreed.

The proponent has collected baseline data of air, water, soil and noise and all are within the permissible limits. The proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

Considering the proved mineable reserve of 28,71,059 Tonnes (including waste) as per the approved quarry plan, the committee estimated the life of the mine as 11 years. The committee decided to recommend the proposal to SEIAA for issue of Environmental

Clearance for an annual Building stone production of 2,71,739 Tons/annum(including waste) and 2,00,000 tonnes of Top Soil/Murram for 1st year.

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

**Additional Conditions:**

*Dust suppression measures have to be strictly followed.*

**220.1.25. Building Stone Quarry Project at Gananguru Village, Srirangapatna Taluk, Mandya District (2-00 Acres) by Sri T.S. Mohan - Online Proposal No. SIA/KA/MIN/270200/2022 (SEIAA 206 MIN 2022)**

Sri T.S. Mohan have applied for Environmental clearance from SEIAA for quarrying of Building Stone Quarry Project at Sy. No. 102/1 of Gananguru Village, Srirangapatna Taluk, Mandya District.

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION

15	Revenue NoC	11.11.2021
16	Cluster certificate	13.04.2022
17	Notification	06.04.2022

The subject was discussed in the SEAC meeting held on 10<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

As per the cluster sketch there are 20 leases including the present lease within 500 meter radius from this lease out of which 13 leases is exempted from cluster as the leases has been granted prior to 09/09/2013. Thus the total area of the remaining leases including the present lease is 9-17 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 650 meters connecting lease area to the all weather black topped road and the committee informed that the quarrying operation should be commenced after strengthening the approach road to the quarry & the road connecting to the crusher as per IRC (Indian Road Congress) standard norms & should grow trees all along the approach road, for which the proponent agreed.

The proponent has collected baseline data of air, water, soil and noise and all are within the permissible limits. The proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

Considering the proved mineable reserve of 10,32,134 Tons (including waste) as per the approved quarry plan, the committee estimated the life of the mine as 10years. The committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 1,05,263 TPA (including waste).

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*

3. A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.

**Additional Conditions:**

*Dust suppression measures have to be strictly followed.*

**220.1.26. Building Stone Quarry Project at Jainapur Village, Chikkodi Taluk, Belagavi District (3-30 Acres) by Sri Ravindra A Mali - Online proposal No. SLA/KA/MIN/267802/2022(SEIAA 185 MIN 2022)**

Sri. Ravindra A Mali have applied for Environmental clearance from SEIAA for quarrying of Building Stone Quarry Project at Sy. No. 6B/1 of Jainapur Village, Chikkodi Taluk, Belagavi District.

Details of the project are as follows:

SL.No	PARTICULARS	INFORMATION

15	Revenue NoC	02.12.2021		
16	Cluster certificate	21.04.2022		

17	Notification	17.03.2022
----	--------------	------------

The subject was discussed in the SEAC meeting held on 10<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

As per the cluster sketch there are 12 leases including the present lease within 500 meter radius from this lease out of which 01 lease is exempted from cluster as the lease has been granted prior to 09/09/2013 and 07 lease is exempted from cluster as the EC has been issued prior to 15.01.2016. Thus the total area of the remaining leases including the present lease is 10-03 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 264 meters connecting lease area to the all weather black topped road and the committee informed that the quarrying operation should be commenced after asphaltting the approach road to the quarry & the road connecting to the crusher as IRC norms & should grow trees all along the approach road in the beginning of project, for which the proponent agreed.

The proponent has collected baseline data of air, water, soil and noise and all are within the permissible limits. The proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

Considering the proved mineable reserve of 2,95,211 Tons (including waste) as per the approved quarry plan, the committee estimated the life of the mine as 11 years. The committee decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 26,316 Tons/ Annum (including waste).

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

- 1. If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
- 2. Safety measures proposed shall be submitted.*
- 3. A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

**Additional Conditions:**

7	Annual Production (Metric Ton / Cum) Per Annum	6,31,573 Tons/ Annum (including waste)																											

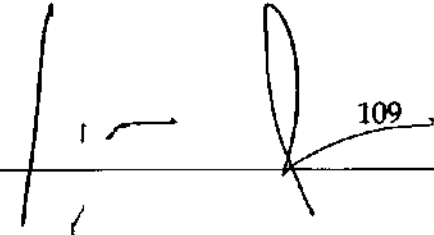

8	Project Cost (Rs. In Crores)	Rs. 1.94 Crores (Rs. 194 Lakhs)
9	Proved Quantity of mine/ Quarry- Cu.m / Ton	37,24,784Tons (including waste)
10	Permitted Quantity Per Annum - Cu.m / Ton	6,31,573Tons/ Annum (including waste)
11	<b>CER Activities:</b> <ul style="list-style-type: none"> <li>• Providing solar power panels to the GLPS school at Jonnalakunte village</li> <li>• The proponent proposes to distribute nursery plants at Jonnalakunte village &amp; strengthening of approach road</li> <li>• Avenue plantation either side of the approach road near quarry site &amp; repair of road with drainages</li> <li>• Scientific support and awareness to local farmers to increase yield of crop and fodder</li> <li>• Health camp in the GLPS school Jonnalakunte village</li> </ul>	
12	EMP Budget	Rs. 51.46 lakhs (Capital Cost) & Rs.16.12 lakhs (Recurring cost)
13	Forest NOC	03.09.2015
14	Quarry plan	11.07.2018
15	Notification	15.06.2018
16	Cluster certificate	01.06.2022

The subject was discussed in the SEAC meeting held on 10<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

As per the cluster sketch there are 8 leases including the present lease within 500 meter radius from this lease out of which 05 lease is exempted from cluster as the EC have been issued prior to 15.01.2016. Thus the total area of the remaining leases including the present lease is 11-15 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 480 meters connecting lease area to the all weather black topped road and the committee informed that the quarrying operation should be commenced after asphaltting the approach road to the quarry & the road connecting to the crusher as IRC norms & should grow trees all along the approach road in the beginning of project, for which the proponent agreed.

The proponent has collected baseline data of air, water, soil and noise and all are within the permissible limits. The proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

Considering the proved mineable reserve of 37,24,784Tons (including waste) as per the approved quarry plan, the committee estimated the life of the mine as 6years. The committee decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 6,31,573Tons/ Annum (including waste).

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

**Additional Conditions:**

*Dust suppression measures have to be strictly followed.*

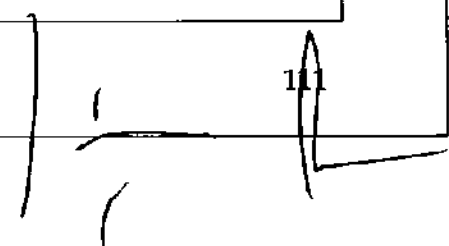

**220.1.29. Building Stone Quarry Project at Ucchangidurga Village, Harapanahalli Taluk, Vijayanagara District (4-54 Acres) by Sri S. Halappa - Online proposal No.SIA/KA/MIN/270256/2022 (SEIAA 208 MIN 2022)**

Sri S. Halappa have applied for Environmental clearance from SEIAA for quarrying of Building Stone Quarry Project at Sy. No. 497/A2 of Ucchangidurga Village, Harapanahalli Taluk, Vijayanagara District (4-54 Acres)

Details of the project are as follows:

Sl.No	PARTICULARS	INFORMATION
1	Name & Address of the Projects Proponent	Sri S. Halappa
2	Name & Location of the Project	Building Stone Quarry Project at Sy. No. 497/ A2 of Ucchangidurga Village, Harapanahalli Taluk, Vijayanagara District (4-54 Acres)

		Points	Latitude	Longitude

16	Cluster certificate	28.03.2022		
17	Revenue	29.10.2021		
18	Letter of Intent	10.12.2021		

The subject was discussed in the SEAC meeting held on 10<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

As per the cluster sketch there are 06 leases including the present lease within 500 meter radius from this lease out of which 01 lease is exempted from cluster as the lease has been granted prior to 09/09/2013 and another 02 leases are exempted from cluster as the EC have been issued prior to 15.01.2016. Thus the total area of the remaining leases including the present lease is 10.29 Acres and hence the project is categorized as B2.

There is an existing cart track road to a length of 950meters connecting lease area to the all weather black topped road and the committee informed that the quarrying operation should be commenced after asphaltting the approach road to the quarry & the road connecting to the crusher as IRC norms & should grow trees all along the approach road in the beginning of project, for which the proponent agreed.

The proponent has collected baseline data of air, water, soil and noise and all are within the permissible limits. The proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

Considering the proved mineable reserve of 12,96,729Tons (including waste) as per the approved quarry plan, the committee estimated the life of the mine as 9years. The committee decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 1,53,061Tons/ Annum (including waste).

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

11	<b>CER Activities:</b> To grow 100 No. of fruit bearing trees near Kallehol Village Irrigation tanks and on either side of the approach road from quarry location to Kallehol village Road	
12	EMP Budget	Rs. 16.68Lakhs (Capital Cost) &12.90 Lakhs (Recurring cost for 5 years)
13	Forest NOC	25.03.2022
14	Quarry plan	20.05.2022
15	Cluster certificate	20.05.2021
16	Audit report	21.04.2022

The subject was discussed in the SEAC meeting held on 10<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal was initially considered in 277<sup>th</sup> SEAC meeting and the proponent was absent. In the present meeting the committee noted that the proposal is for renewal of quarry lease for which the earlier lease with lease no. 1506 was granted on 03.08.2009 for five years. The proponent submitted audit reports certified by DMG till 2021-22 and proponent informed that no mining activities had carried out after the expiry of lease.

There is an existing cart track road to a length of 600meters connecting lease area to the all weather black topped road and the committee informed that the quarrying operation should be commenced after asphaltting the approach road to the quarry & the road connecting to the crusher as per IRC & should grow trees all along the approach road in the beginning of project, for which the proponent agreed.

The proponent has collected baseline data of air, water, soil and noise and all are within the permissible limits. The proponent informed that all mitigative measures will be taken to ensure that the parameters will be maintained within the permissible limits.

Considering the proved mineable reserve of 2,06,297Tons (including waste) as per the approved quarry plan, the committee estimated the life of the mine as 5years. The committee after discussion decided to recommend the proposal to SEIAA for issue of Environmental Clearance for an annual production of 40,817Tons/ Annum (including waste).

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to clear the proposal for issue of Environmental Clearance subject to following:*

1. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor).*
2. *Safety measures proposed shall be submitted.*
3. *A time bound action plan for implementation of proposed CER activities as a part of EMP shall be furnished.*

**Additional Conditions:**

*Dust suppression measures have to be strictly followed.*

**220.2. Recommended by SEAC for issue of TOR Projects**

**220.2.1. Pink Granite Quarry Project at Sy. No. 270/6 of Balakundi Village, Ilkal Taluk, Bagalakote District (3-00 Acres) by Sri Vithal Chavan - Online proposal No. SIA/KA/MIN/77438/2022 (SEIAA 248 MIN 2022).**

Sri Vithal Chavan have applied for Environmental clearance from SEIAA for quarrying of Pink Granite Quarry Project at Sy. No. 270/6 of Balakundi Village, Ilkal Taluk, Bagalakote District.

The subject was discussed in the SEAC meeting held on 10<sup>th</sup> June 2022. The Committee has recommended to SEIAA for issue of Standard ToR Along with Additional ToR and the extract of the proceedings of the Committee meeting is as below:

The proposal is a new proposal for pink granite quarry in patta land and the proponent had obtained approved mining plan on 27.04.2022 for the proposed quarry.

The lease area is 3-00 Acres and total area considered for cluster is 32-16A, which is more than the threshold limit of 5 Ha. Hence the project is categorized as B1 and decided to recommend the proposal to SEIAA for issue of standard TOR with the following additional TOR to conduct EIA studies along with public hearing.

1. Cumulative pollution load taking into account of cluster should be submitted.
2. Clear Forest Department NoC mentioning about deemed forest and Revenue NoC
3. District Task force proceedings.
4. Waste handling details should be submitted.
5. Strengthening of the approach road & road connecting to the crusher as per IRC (Indian Road Congress) standard norms.
6. Buffer from nala or water body as per norms.

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority perused the proposal and took note of the recommendation made by SEAC. The Authority after discussion decided to issue standard ToR along with additional ToR as recommended by SEAC for conducting the Environment Impact Assessment study in accordance with EIA Notification, 2006.*

**220.3. Reconsidered Project:**

**220.3.1. Proposed Project Celery Logistic Park Development Project at Kadaranapurta Village, Hosakote Taluk, Bangalore Rural District by M/s. HSK Logistics Assets (India) Private Limited - Online Proposal No. SIA/KA/MIS/270183/2022 (SEIAA 54 CON 2022) (Invite the Project Proponent).**

M/s. HSK Logistics Assets (India) Private Limited, have proposed for construction of Project Celery Proposed Logistic Park Development Project on a plot area of 2,00,923.62 Sqmt. The total built up area is 1,30,000 Sqmt. The proposed project consists of 6 Logistic Blocks along with one Office Building & Service Block and 6 logistic blocks: Ground floor + Mezzanine floor Total water consumption is 113 KLD (Fresh water + Recycled water). The total wastewater generated is 102 KLD. The project proponent has proposed to construct Sewage Treatment plant with capacity of 105 KLD (17 KLD, 31 KLD, 21 KLD & 12 KLD X 3 Nos.). The project cost is Rs. 300 Crores.

Details of the project are as follows:

Sl. No	PARTICULARS	INFORMATION
1	Name & Address of the Project Proponent	M/s. HSK Logistics Assets (India) Private Limited, Tower A, Ground Floor, Global Technology Park, Marathahalli (Outer

		Ring Road, Devarabeesanahalli, Bengaluru-560 103.
2	Name & Location of the Project	"Project Celery" Proposed Logistic Park Development At Sy. Nos. 1/1(P), 1/2(P), 1/3(P), 1/4(P), 2/1(P), 8/1, 8/2(P), 12/1, 12/2, 13/1, 13/2, 14, 15/1, 15/2, 16/1, 16/2, 17/1, 17/2, 18/1, 18/2, 18/3, 18/7, 19, 22/1, 22/2, 22/3, 23/1, 23/2, 24, 25, 26, 27, 28, 29, 30/1, 30/4, 30/5, 30/6, 30/7, 30/8 & 30/9, Kadaranapura Village, Sulibele Hobli, Hosakote Taluk, Bengaluru Rural.
3	Type of Development	
	a. Residential Apartment / Villas / Row Houses / Vertical Development / Office / IT/ ITES/ Mall/ Hotel/ Hospital / other	Proposed Logistic Park Development Category 8(a) Building and Construction Projects as per EIA Notification, 2006
	b. Residential Township/ Area Development Projects	NA
4	New/ <del>Expansion/ Modification/</del> Renewal	New
5	Water Bodies/ Nalas in the vicinity of project site	Bidalapura Lake - 1.3 km from the project site in the South-West direction. Nallapanahalli Lake - 1.6 km from the project site in the North-West direction. Bettahalli Lake - 1.7 km from the project site in the South-East direction.
6	Plot Area (Sqm)	2,00,923.62 Sqmt
7	Built Up area (Sqm)	1,30,000 Sqmt
8	FAR • Permissible • Proposed	2.5 0.68
9	Building Configuration [Number of Blocks / Towers / Wings etc., with Numbers of Basements and Upper Floors]	of 6 Logistic Blocks along with one Office Building & Service Block. 6 logistic blocks : Ground floor + Mezzanine floor
10	Number of units/plots in case of Construction/Residential Township/Area Development Projects	NA
11	Height Clearance	Low rise structure max height of 14.90mtrs

12	Project Cost (Rs. In Crores)	Rs. 300Crores.
13	Disposal of Demolition waster and or Excavated earth	Back Filling in foundation - 1,15,098 Cum For landscaping - 26,856 Cum For Site Formation - 30,694 Cum
<b>14</b>	<b>Details of Land Use (Sqm)</b>	
a.	Ground Coverage Area	95,915 Sqmt
b.	Kharab Land	3,912.8 Sqmt
c.	Total Green belt on Mother Earth for projects under 8(a) of the schedule of the EIA notification, 2006	55,149.63 Sqmt
d.	Internal Roads	
e.	Paved area	--
f.	Others Specify	Area left for proposed Radial road - 5,179.74 Sqmt. Driveway / Ramp area - 26,312.6 Sqmt. Parking - 9,591.5 Sqmt. Land bank - 4,862.35 Sqmt.
g.	Parks and Open space in case of Residential Township / Area Development Projects	--
h.	Total	2,00,923.62 Sqmt
<b>15</b>	<b>WATER</b>	
<b>I.</b>	<b>Construction Phase</b>	
a.	Source of water	Tertiary treated water
b.	Quantity of water for Construction in KLD	20 KLD
c.	Quantity of water for Domestic Purpose in KLD	5 KLD
d.	Waste water generation in KLD	4.5 KLD
e.	Treatment facility proposed and scheme of disposal of treated water	The sewage generated from the construction site is 4.5 KLD which will be routed to Septic tank and soak pit and the same will be lifted by external agency.
<b>II.</b>	<b>Operational Phase</b>	
a.	Total Requirement of Water in KLD	Fresh 61 KLD
		Recycled 52 KLD
		Total 113 KLD
b.	Source of water	SulibeleGramapanchayath.
c.	Waste water generation in KLD	102 KLD
d.	STP capacity	STP of capacity 105 KLD

		(17 KLD, 31 KLD, 21 KLD & 12 KLD X 3 Nos.).
e.	Technology employed for Treatment	Membrane Bio Reactor (MBR) Technology
f.	Scheme of disposal of excess treated water if any	For Flushing - 52 KLD For Landscaping - 45 KLD
<b>16</b>	<b>Infrastructure for Rain water harvesting</b>	
a.	Capacity of sump tank to store Roof run off	Roof rain water collection sump of Total capacity 2,125 Cum (380 Cum X 2 Nos., 330 Cum, 470 Cum, 265 Cum, 250Cum, 50 Cum).
b.	No's of Ground water recharge pits	92 Nos .of pits and 9 Nos. of deep recharge wells
17	Storm water management plan	Storm water collection tank of capacity 2x250cum to be provided and runoff from landscape to be routed to Internal garland drains in order to carry out the storm water into the recharge pits and to be managed within the site.
<b>18</b>	<b>WASTE MANAGEMENT</b>	
I.	<b>Construction Phase</b>	
a.	Quantity of Solid waste generation and mode of Disposal as per norms	45 kg/day, Solid waste generated to be collected manually and handed over to authorized vendors.
II.	<b>Operational Phase</b>	
a.	Quantity of Biodegradable waste generation and mode of Disposal as per norms	371 kg/day, Biodegradable wastes to be segregated at the source and will be processed in proposed organic waste converter.
b.	Quantity of Non- Biodegradable waste generation and mode of Disposal as per norms	557 kg/day, Non-biodegradable Wastes to be given to the waste recyclers.
c.	Quantity of Hazardous Waste generation and mode of Disposal as per norms	Waste Oil Generation: 2.615 L/hr. Hazardous wastes like waste oil from DG sets, used batteries etc. to be handed over to the authorized hazardous waste recyclers.
d.	Quantity of E waste generation and mode of Disposal as per norms	E-Wastes to be collected separately & it to be handed over to authorized E-waste recyclers for further processing.
<b>19</b>	<b>POWER</b>	

a.	Total Power Requirement - Operational Phase	3,711 kVA / 3,340 kW
b.	Numbers of DG set and capacity in KVA for Standby Power Supply	750 kVA X 4 Nos., 500 kVA X 2 Nos., 1,000 kVA X 1 No., 380 X 1 No.
c.	Details of Fuel used for DG Set	1,127 L/hr.
d.	Energy conservation plan and Percentage of savings including plan for utilization of solar energy as per ECBC 2007	Total energy savings is around 29.55%.
<b>20</b>	<b>PARKING</b>	
a.	Parking Requirement as per norms	Cars : 260ECS Trucks : 260nos
b.	Level of Service (LOS) of the connecting Roads as per the Traffic Study Report	LOS : C
c.	Internal Road width (RoW)	8m
21	CER Activities	Rain Water Harvesting, Solar Panel installation & Drinking water and sanitation facilities to nearby communities.
22	EMP <ul style="list-style-type: none"> <li>• Construction phase</li> <li>• Operation Phase</li> </ul>	<b>During Construction:</b> Capital investment - 6.0 Lakhs During Construction - 25 Lakhs/ annum <b>During Operation:</b> Capital investment - 200 Lakhs Operation Investment - 30 Lakhs/ annum

The subject was discussed in the SEAC meeting held on 13<sup>th</sup> may 2022. The Committee has recommended to SEIAA for issue of EC and the extract of the proceedings of the Committee meeting is as below:

The proposal is for construction of warehouse and logistics building in an area which is earmarked for agricultural use as per STRRPA (Satellite Town Ring Road Planning Authority), for which the proponent informed that they had obtained change of land use to Commercial use for Manufacturing, Marketing, Logistics and warehousing facilities from Govt. of Karnataka.

The committee during appraisal sought details for drain and foot kharab as per village map, detail of materials/substances to be stored, solar energy harvesting and provisions for harvesting rain water in the proposed area. The proponent informed the committee that for the drain in northern and western sides a buffer of 9mtrs from the edge is proposed and for foot kharab in south, the proponent informed that the foot kharab area is left for road

widening. The proponent submitted an undertaking that in the proposed warehouse facility no Hazardous Chemicals/materials/wastes will be stored and only consumer goods will be stored and also would comply with ECBC guidelines. For harvesting rain water, the proponent had proposed 2125cum storage tank for runoff from rooftop and an additional tank of 2x250 cum capacity for runoff from landscape and paved areas in addition to 92 nos recharge pits and 9nos of deep well recharge structures are proposed within the project area. Further the proponent agreed to increase the total solar power generation capacity from 2.5% to 10% of the total power requirement for the proposed project.

The proponent informed that they have made provisions to grow 2512 trees in the project area. The proponent committed to take precautionary measures during and after construction to maintain the environmental parameters within permissible limits in the proposed project and agreed to comply with the ECBC and NBC guidelines for the proposed construction and adhere to the by-laws stipulated by the governing authority for buffers and setbacks.

The committee noted that the baseline parameters are found to be within permissible limits and informed the proponent to leave buffer/setback as per zoning regulations and to harvest maximum rainwater in the proposed project area. The committee after discussion decided to recommend the proposal to SEIAA for issue of EC with a condition to leave free public access in kharab area.

The Authority perused the proposal and took note of the recommendation of SEAC.

*The Authority after discussion decided to defer the proposal for reconsideration subject to submission of the following details:*

1. Breakup of calculation for water demand as per NBC.
2. Appropriate justification of multiple STP units proposed in the project.
3. Revised traffic impact analysis by considering appropriate PCU's for trucks.
4. Site plan with location for parking of trucks.
5. Landscape plan with tree plantation scheme.
6. Environmental management plan for handling of packaging wastes if any.
7. Details of utilization of Land bank in the proposed project and the rea earmarked for the same in the site plan.
8. It is observed that there is a disparity in the total cumulative area provided for two wheeler, cars and trucks in the proposed project and the details submitted in the land use analysis. The PP shall submit the revised details for the same.
9. The project proponent shall furnish Notarized undertaking that he shall maintain Buffer zone as per bylaw and compliance to provisions of CDP.
10. The project proponent shall leave the buffer from the lake /drain as per the RCDP 2015 as directed by Supreme Court order CIVIL APPEAL NO. 5016 OF 2016 dated 5th March 2019.

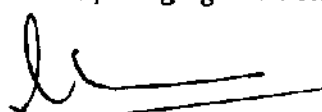

11. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) shall be submitted.*
12. *The PP shall submit CER in Specific Physical Terms with time bound action plan.*
13. *The project proponent shall ensure that tree planting/afforestation measures proposed in the EMP shall be strictly complied and an undertaking to this effect shall be submitted.*

*The authority also decided to invite the project proponent with all pertaining details with respect to above points for further consideration.*

*The Project proponent submitted the reply vide letter dated 07.07.2022.*

*The project proponent attended the meeting and submitted the replies to the queries raised by the Authority. Further the project proponent briefed about the project and after detailed discussion the Authority have decided to issue EC subject submission of Following Conditions.*

1. *The project proponent shall furnish Notarized undertaking that he shall maintain Buffer zone as per bylaw and compliance to provisions of CDP.*
2. *The project proponent shall leave the buffer from the lake /drain as per the RCDP 2015 as directed by Supreme Court order CIVIL APPEAL NO. 5016 OF 2016 dated 5th March 2019.*
3. *If the distance of nearest Protected Area (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) is within 10 KM, a certificate from the Chief Wild Life Warden (CWLW) along with his recommendation, else a certificate from the proponent that the proposed site is more than 10 KM away from any Protection Authority (PA) (National Park/ Sanctuary/Bio sphere reserve/ migratory corridor) shall be submitted.*
4. *The PP shall submit CER in Specific Physical Terms with time bound action plan.*
5. *The project proponent shall ensure that tree planting/afforestation measures proposed in the EMP shall be strictly complied and an undertaking to this effect shall be submitted.*
6. *The PP shall submit revised design details for Centralized Sewage Treatment Plant by integrating the flow wherever practically feasible for future operation and maintainance and to avoid multiplicity of STP's.*
7. *The PP shall submit details about earmark a dedicated area for processing of general solid waste, hazardous waste, plastic waste, packaging waste etc..*

8. *The PP shall submit details with respect to handling of packaging material (Plastic beads, thermocoal, carton box, polyurethane foam etc) and also Environmental Management Plan (EMP) for proper handling and management of such wastes for mitigating its impact.*

***Additional Condition:***

1. *Assured water supply, commensurate with the ultimate occupancy envisaged in the project, shall be ensured before commencement of the project.*
2. *The PP shall strictly adhere to the local Planning Authority Bye-Laws.*
3. *The PP shall leave the kharab area for free access to public.*

**220.3.2. Request for transfer of EC of auction iron ore mines i.e. RKRD Iron Ore Mines of M/s Auro Minerals Pvt. Ltd., (erstwhile ML No. 2584) for Extraction of 4.20 LTPA Iron Ore in an area of 31.00 Ha at Kallahalli Village, Hospete Taluk, Bellary District (ML No.1751) to M/s Minera Steel & Power Pvt. Ltd., - SEIAA 114 MIN 2008.**

Environmental Clearance has been issued to this project vide letter No. SEIAA 114 MIN 2008 dated 16.09.2008 for Extraction of 4.20 LTPA Iron Ore in an area of 31.00 Ha at Kallahalli Village, Hospete Taluk, Bellary District (ML No.1751) to M/s Auro Minerals Pvt. Ltd., (erstwhile ML No. 2584).

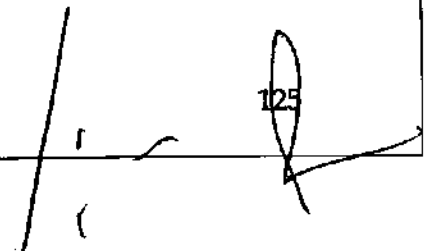

M/s Minera Steel & Power Pvt. Ltd., had participated in electronic auction conducted by the State Government for grant of a mining lease of the mine block M/s Auro Minerals Iron ore mine in Bellary District Forest land for mining of the Iron Ore and became successful bidder. By the way of vesting order issued under section 8B of MMDR Amendment Act 2021, the State Government has entered into MDPA and lease deed was executed on 18.04.2022.

Therefore, the M/s Minera Steel & Power Pvt. Ltd., has requested to transfer the EC granted to M/s Auro Minerals Pvt. Ltd., in their favor.

*The Authority perused the request made by the project authorities during the meeting for transfer of EC and The Authority after discussion decided to get the following information for further consideration of the matter:*

- 1) *Notarised copy of the earlier EC*
- 2) *Notarised copy of Vesting Order*

Drafted by 

125

- 3) *Details of the Auction conducted by the State Government for grant of mining lease of the mine Block of M/s Auro Minerals Pvt. Ltd,*
- 4) *Status of Forest Clearance.*
- 5) *Audit report to ascertain the quantity extracted till date.*

*The project proponent has submitted the reply vide letter dated 11.07.2022. the Authority have perused the replies submitted by the proponent and after detailed discussion the Authority have decided to transfer the EC in favour M/s Minera Steel & Power Pvt. Ltd.,*

The project proponent has submitted the information vide their letter dated 11.07.2022.

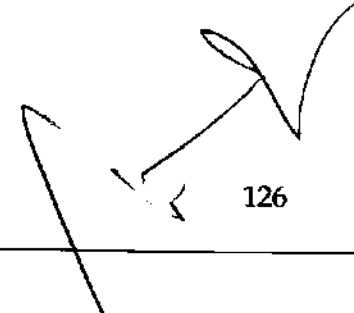

The Authority during the meeting held on 19<sup>th</sup> July 2022 perused the reply submitted by the project proponent and MoEF&CC Notification dated 13.07.2021,

*As per MoEF&CC Notification dated 13.07.2021, "(3) The prior Environmental Clearance vested with the previous lessee shall be deemed to have been transferred during its validity period in terms of the Mines and Minerals (Development and Regulation) Act, 1957 (67 of 1957) as amended by the Mines and Minerals (Development and Regulation) Act, 2021 (16 of 2021) to the successful bidder of the mining lease, from the date of commencement of new lease for the remaining validity period (calculated from the date from which the said Environmental Clearance was initially granted), subject to the new lessee registering online on PARIVESH portal along with an undertaking to comply with all the conditions of the transferred Environment Clearance".*

The proponent has submitted an application online in Parivesh Portal and hard copy of application along with requisite fee, submitted vide letter dated 17.07.2022, for deemed transfer of EC, as per the above mentioned notification.

*The Authority perused the request made by the project proponent and decided to transfer above mentioned EC as per the MoEF&CC notification dated 13.07.2021 and directions vide O.M. dated 20.03.2015 & 11.02.2022. All other terms and conditions stipulated in the EC granted vide letter no. SEIAA 114 MIN 2008, dated 16.09.2008 remains unchanged and to be complied strictly by project proponent.*

**220.4. Miscellaneous Projects.**

**220.4.1. Request for Transfer of Environmental Clearance granted to Sri. R Mani for Building Stone/M-Sand at Sy No. 36, Dasarahalli Village, Devanahalli Taluk, Bangalore Rural District by DEIAA Bangalore Rural District over an extent of 2-00 acres in favor of M/s. SK Stone Works - SEIAA 19 MISC 2021.**

Environmental Clearance has been issued to this project by DEIAA Bangalore Rural District vide letter No. DEIAA/CR/048/2018/DBP/SUB dated 10.12.2018 for quarrying of Building Stone/M-Sand at Sy No. 36, Dasarahalli Village, Devanahalli Taluk, Bangalore Rural District to Sri. R Mani.

Sri. R Mani vide letter dated 06.06.2022 requested this Authority for transfer of EC granted Sri. R Mani in favor of M/s. S. K. Stone Work as the quarry lease has been transferred to M/s. S. K. Stone Works through the Dep. of Mines and Geology.

The Letter has been addressed to District Commissioner, Bengaluru Urban District on 25.06.2021 to Procure Original File. Accordingly, Original file has been issued by this office on 11.03.2022.

*The Authority perused the request made by Sri. R Mani and decided to transfer the EC in favour M/s. S. K. Stone Works subject to the following conditions*

- i. *The applicant shall furnish Notarised affidavit of M/s. S. K. Stone Work relinquishing his claim (duly witnessed by Authorized Signatory of Sri. R Mani)*
- ii. *Notarised Copy of EC.*
- iii. *Notarised Copy of Form-T.*

**220.4.2. Request for Amendment in Environmental Clearance granted to T. Nagaraj for quarrying of Building Stone at Sy. No. 492/BP1 of Harapanahalli Village, Harapanahalli Taluk, Davanagere District by DEIAA Davanagere District over an extent of 4.00 Acres. - SEIAA 21 MISC 2022.**

Environmental Clearance has been issued to this project by DEIAA Davanagere district vide letter No. DEIAA/DVG/QL-EC/2016-17 dated 24.04.2017 for quarrying of Building Stone at Sy. No. 492/BP1 of Harapanahalli Village, Harapanahalli Taluk, Davanagere District

T. Nagaraj vide letter dated 30.03.2022 requested this Authority issue Amendment to EC as there is reduction in original grant area. Survey & Demarcation (S & D) has been carried out by Dept. of Mines and Geology, Forest and Revenue Department. During the DGPS Survey and Preparation of S & D report, it was observed that mud road is constructed to approach the wind mill located in the adjacent lands. A 50mts safety barrier has been to be maintained from the approach road, Hence an area of 2.40 Acres has been

deleted in the Original grant of 4.00 Acres and remaining 1.60 Acres has been granted for building Stone quarry.

Therefore, based on these factors Modified Quarrying Plan have prepared for the area of 1.60 Acres and also approved from Dept. of Mines and Geology.

Therefore, the project proponent has requested for permission for quarrying in the remaining extent of 1.60 Acres. The project proponent has submitted the modified quarry plan and have requested this Authority to issue the amended Environmental Clearance.

*The Authority perused the request made by project proponent and Modified quarry plan approved by Senior Geologist, Dept. of Mines and geology, Davanagere on 16.02.2022. The Authority after discussion decided to issue corrigendum to EC with a condition that the PP shall strictly carryout mining activity as per the approved modified quarry plan.*

**220.4.3. Request for Amendment in Environmental Clearance granted to Sri. Sudheer B T S/o Tippeswamy for quarrying of Building Stone at Sy. No. 492/BP1 of Harapanahalli Village, Harapanahalli Taluk, Davanagere District by DEIAA Davanagere District over an extent of 4.00 Acres -SEIAA 22 MISC 2022.**

Environmental Clearance has been issued to this project by DEIAA Davanagere district vide letter No. DEIAA/DVG/QL-EC/2016-17/532 dated 24.04.2017 for quarrying of Building Stone at Sy. No. 492/BP1 of Harapanahalli Village, Harapanahalli Taluk, Davanagere District to Sri. Sudheer B T.

Sri. Sudheer B T vide letter dated 30.03.20225 requested this Authority issue Amendment to EC as there is reduction in original grant area. Survey & Demarcation (S & D) has been carried out by Dept. of Mines and Geology, Forest and Revenue Department. During the DGPS Survey and Preparation of S & D report, it was observed that mud road is constructed to approach the wind mill located in the adjacent lands. A 80.59 mts safety barrier has been to be maintained from the approach road, Hence an area of 1.68 Acres has been deleted in the Original grant of 4.00 Acres and remaining 2.40 Acres has been granted for building Stone quarry.

Therefore, based on these factors Modified Quarrying Plan have prepared for the area of 2.40 Acres and also approved from Dept. of Mines and Geology.

Therefore, the project proponent has requested for permission for quarrying in the remaining extent of 2.40 Acres. The project proponent has submitted the modified quarry plan and have requested this Authority to issue the amended Environmental Clearance.

*The Authority perused the request made by project proponent and Modified quarry plan approved by Senior Geologist, Dept. of Mines and geology, Davanagere on 10.02.2022. The Authority after discussion decided to issue corrigendum to EC with a condition that the PP shall strictly carryout mining activity as per the approved modified quarry plan.*

**220.4.4. Request for Amendment in Environmental Clearance granted to Sri. Srinivasa for quarrying of Building Stone at Sy. No. 492/BP1 of Harapanahalli Village, Harapanahalli Taluk, Davanagere District by DEIAA Davanagere District over an extent of 4.00 Acres. - SEIAA 23 MISC 2022.**

Environmental Clearance has been issued to this project by DEIAA Davanagere district vide letter No. DEIAA/DVG/QL-EC/2016-17/530-31 dated 24.04.2017 for quarrying of Building Stone at Sy. No. 492/BP1 of Harapanahalli Village, Harapanahalli Taluk, Davanagere District to Sri. Srinivasa S/o Bommalingappa.

Sri. Srinivasa S/o Bommalingappa vide letter dated 30.03.2022 requested this Authority for issue Amendment to EC as there is reduction in original grant area. Survey & Demarcation (S & D) has been carried out by Dept. of Mines and Geology, Forest and Revenue Department. During the DGPS Survey and Preparation of S & D report, it was observed that mud road is constructed to approach the wind mill located in the adjacent lands. A 50 mts safety barrier has been to be maintained from the approach road, Hence an area of 0.7 Acres has been deleted in the Original grant of 4.00 Acres and remaining 3.30 Acres has been granted for building Stone quarry.

Therefore, based on these factors Modified Quarrying Plan have prepared for the area of 3.30 Acres and also approved from Dept. of Mines and Geology.

Therefore, the project proponent has requested for permission for quarrying in the remaining extent of 3.30 Acres. The project proponent has submitted the modified quarry plan and have requested this Authority to issue the amended Environmental Clearance.

*The Authority perused the request made by project proponent and Modified quarry plan approved by Senior Geologist, Dept. of Mines and geology, Davanagere on 16.02.2022. The Authority after discussion decided to issue corrigendum to EC with a condition that the PP shall strictly carryout mining activity as per the approved modified quarry plan.*

**220.4.5. Request for Amendment in Environmental Clearance granted to Sri. Obalappa for quarrying of Building Stone at Sy. No. 492/BP1 of Harapanahalli Village, Harapanahalli Taluk, Davanagere District by DEIAA Davanagere District over an extent of 4.00 Acres. - SEIAA 24 MISC 2022.**

Environmental Clearance has been issued to this project by DEIAA Davanagere district vide letter No. DEIAA/DVG/QL-EC/2016-17/530-31 dated 24.04.2017 for quarrying of Building Stone at Sy. No. 492/BP1 of Harapanahalli Village, Harapanahalli Taluk, Davanagere District by DEIAA Davanagere District to Sri. Obalappa

Sri. Obalappa vide letter dated 30.03.2022 requested this Authority for issue Amendment to EC as there is reduction in original grant area. Survey & Demarcation (S & D) has been carried out by Dept. of Mines and Geology, Forest and Revenue Department. During the DGPS Survey and Preparation of S & D report, it was observed that mud road is constructed to approach the wind mill located in the adjacent lands. A 115.32 mts safety barrier has been to be maintained from the approach road, Hence an area of 2.40 Acres has been deleted in the Original grant of 4.00 Acres and remaining 1.60 Acres has been granted for building Stone quarry.

Therefore, based on these factors Modified Quarrying Plan have prepared for the area of 1.60 Acres and also approved from Dept. of Mines and Geology.

Therefore, the project proponent has requested for permission for quarrying in the remaining extent of 3.30 Acres. The project proponent has submitted the modified quarry plan and have requested this Authority to issue the amended Environmental Clearance.

*The Authority perused the request made by project proponent and Modified quarry plan approved by Senior Geologist, Dept. of Mines and geology, Davanagere on 10.02.2022. The Authority after discussion decided to issue corrigendum to EC with a condition that the PP shall strictly carryout mining activity as per the approved modified quarry plan.*

**220.4.6. Request for Amendment in Environmental Clearance granted to Sri. J B Manjunatha for quarrying of Building Stone at Sy. No. 492/BP1 of Harapanahalli Village, Harapanahalli Taluk, Davanagere District by DEIAA Davanagere District over an extent of 4.00 Acres.-SEIAA 25 MISC 2022.**

Environmental Clearance has been issued to this project by DEIAA Davanagere district vide letter No. DEIAA/DVG/QL-EC/2016-17/528-29 dated 24.04.2017 for quarrying of Building Stone at Sy. No. 492/BP1 of Harapanahalli Village, Harapanahalli Taluk, Davanagere District to Sri. J B Manjunatha

Sri. J B Manjunatha vide letter dated 30.03.2022 requested this Authority for issue Amendment to EC as there is reduction in original grant area. Survey & Demarcation (S & D) has been carried out by Dept. of Mines and Geology, Forest and Revenue Department. During the DGPS Survey and Preparation of S & D report, it was observed that the electric line is passing near the lease area at distance of 50 m towards South East side. The electric line is connected to the wind mill located in adjacent lands. A 50 mts safety barrier has been to be maintained from the approach road, Hence an area of 0.50

Acres has been deleted in the Original grant of 4.00 Acres and remaining 3.50 Acres has been granted for building Stone quarry.

Therefore, based on these factors Modified Quarrying Plan have prepared for the area of 3.50 Acres and also approved from Dept. of Mines and Geology.

Therefore, the project proponent has requested for permission for quarrying in the remaining extent of 3.50 Acres. The project proponent has submitted the modified quarry plan and have requested this Authority to issue the amended Environmental Clearance.

*The Authority perused the request made by project proponent and Modified quarry plan approved by Senior Geologist, Dept. of Mines and geology, Davanagere on 09.02.2022. The Authority after discussion decided to issue corrigendum to EC with a condition that the PP shall strictly carryout mining activity as per the approved modified quarry plan.*

**220.4.7. Request for transfer of Environmental Clearance granted to Smt. K V Nagalakshmi for quarrying of Grey Granite at Sy. No. 616/\*/1 & 406/1/1 of Mudgal Village, Lingasugur Taluk, Raichur District by DEIAA Raichur District over an extent of 6-34 Acres in favour of Sri. Anjaneya Vajjal S/o Manappa Vajjal - SEIAA 09 MISC 2022.**

**220.4.27. Establishment of 8 MW Captive Power Plant and 12 TPA Rolling Mill at Sy No. 311 & 312, Sirwar Village, Bellary Taluk & District by M/s Noble Distilleries & Power Ltd., - SEIAA 89 IND 2008 - Request for Transfer of EC dated 17.07.2009 in favor of M/s Nobel Ispat and Energies Limited.**

Environmental Clearance has been issued to this project vide letter No. SEIAA 89 IND 2008 for Establishment of 8 MW Captive Power Plant and 12 TPA Rolling Mill at Sy No. 311 & 312, Sirwar Village, Bellary Taluk & District to M/s Noble Distilleries & Power Ltd.,

The Project proponent vide letter received on 02.07.2022 have requested this Authority for Transfer of EC. Fresh Certification of incorporation was obtained upon change of Name from existing M/s Noble Distilleries and power Limited to M/s Noble Ispat and Energies Limited. Therefore, the project proponent requested to transfer of EC in favor of M/s Noble Ispat and Energies Limited.

*The Authority perused the request made by M/s Noble Distilleries and power Limited and decided to transfer the EC in favour M/s Noble Ispat and Energies Limited subject to submission of Notarised Copy of EC.*

**220.5 Additional Agenda (With the permission of Chair):**

**220.5.1. Request for issue Amendment to EC granted to M/s Pebble Bay Developers Private Limited transferred to M/s Italix Living Spaces Private Ltd. for Commercial Development Project at Sy No.19/1 and 27/3 Property bearing khata No. 395/19/1/27/3 Roopena Agrahara Village, Begur Hobli, Bangalore South Taluk - SEIAA 179 CON 2013.**

The Environmental Clearance has been issued to this project Vide letter No. SEIAA 179 CON 2013 dated 30.09.2013 and corrigendum dated 03.09.2016 for Residential and Commercial Development Project at Sy No.19/1 and 27/3 Property bearing khata No. 395/19/1/27/3 Roopena Agrahara Village, Begur Hobli, Bangalore South Taluk to M/s Pebble Bay Developers Private Limited and Transferred to M/s Italix Living Spaces Private Ltd.

M/s Italix Living Spaces Private Ltd. vide letter dated 02.07.2022 requested for this office to issue corrigendum to EC. Due to Covid.19 and Market Conditions the project proponent unable to complete the project. Therefore, the proponent planning to complete only commercial Tower and balance Residential development will be completing in future another 4 to 5 years. Therefore, M/s Italix Living Spaces Private Ltd have requested this Authority for issue corrigendum to EC only for commercial building with BUA of 96, 226.13 Sqm with Building Configuration of 3B + G + 16 UF.

*The Authority after discussion decided to issue corrigendum to EC as requested by the proponent.*

**220.5.2. Proposed Industrial/ Warehousing/ Storage/ Logistics park Project at Block nos-1-A-part, 1-B and 1-C of Dobaspeth 5<sup>th</sup> Phase Industrial Area, Bangalore Rural District by M/s. Horizon Industrial Parks Private Limited. - SEIAA 58 CON 2022 - Requesting for issue Amendment to ToR.**

The Auto ToRs has been granted to this project vide letter No. SEIAA 58 CON 2022 dated 28.04.2022 for Proposed Industrial/ Warehousing/ Storage/ Logistics park Project at Block nos-1-A-part, 1-B and 1-C of Dobaspet 5<sup>th</sup> Phase Industrial Area, Bangalore Rural District to M/s. Horizon Industrial Parks Private Limited.

The Project proponent vide letter dated 13.06.2022 requested this Authority to issue corrigendum to ToR. The Project proponent applied for ToR on 28.04.2022, however they have started the baseline study in the month of February 2022. Further the project proponent requested to consider the baseline study during the period of Feb 2022 to April 2022 as per OM No. J-11013/41/2006-IA-II (1) (Part) dated 29.08.2017. and issue amendment to ToR .

*The Authority after discussion decided to issue corrigendum to ToR as requested by the proponent.*

**220.5.3. Request for transfer of Environmental Clearance granted to Sri. S B Srinivasa and transfer to Sri. S Pruthvi for quarrying of Building Stone at Sy. No. 35/P of Thimplapura Village, Harapanahalli Taluk, Davanagare District by DEIAA Davanagare District over an extent of 2-00 Acres in Favor of M/s Unico Minerals - SEIAA 10 MISC 2022.**

Environment Clearance has been issued to this project by DEIAA, Davanagare District vide letter No. to Sri. S B Srinivasa for quarrying of Building Stone at Sy. No. 35/P of Thimplapura Village, Harapanahalli Taluk, Davanagare District and subsequently Environmental Clearance has been transferred to Sri. S Pruthvi by SEIAA, Karnataka vide letter No. SEIAA 10 MISC 2022 dated 11.04.2022.

Now, M/s Unico Minerals vide letter dated 11.07.2022 requested this Authority for transfer of EC since the lease area has been transferred to M/s Unico Minerals from Sri. S Pruthvi through the Dept. of Mines and Geology.

*The Authority perused the request made by M/s Unico Minerals and decided to transfer the EC in favour M/s Unico Minerals subject to the following conditions*

- i. *The applicant shall furnish Notarised affidavit of M/s Unico Minerals relinquishing his claim (duly witnessed by Authorized Signatory Sri. S Pruthvi)*
- ii. *Notarised Copy of EC.*
- iii. *Notarised Copy of Form-T.*

**220.5.4. Request for Transfer of EC of Mining Lease No. 2526 issued to M/s Nadeem Minerals for Expansion of Donimalai Iron Ore Mining project from 0.6 to 2.0 MTPA located in village, Sandur Tehsil, Bellary District, Karnataka in favor of**

**M/s Nadeem Minerals Private Limited - No. J.11015/471/2006.IA.II (M) - SEIAA 41 MISC 2022.**

Environmental Clearance has been granted to this project by MoEF&CC vide letter No. J.11015/471/2007.IA.II (M) dated 02.03.2009 for Expansion of Donimalai Iron Ore Mining project from 0.6 to 2.0 MTPA located in village, Sandur Tehsil, Bellary District, Karnataka to M/s Nadeem Minerals.

M/s Nadeem Minerals Private Limited vide letter dated 08.06.2022 requested for transfer of EC granted to M/s Nadeem Minerals to M/s Nadeem Minerals Private Limited. Since, the firm M/s Nadeem Minerals converted into M/s Nadeem Minerals Private Limited under the provision of Companies Act,2013. The State Government of Karnataka has been transferred the ML No. 2526 from M/s Nadeem Minerals to M/s Nadeem Minerals Private Limited and consequently, Dept. of Mines and Geology have executed the Transfer Lease Deed on 18.05.2022.

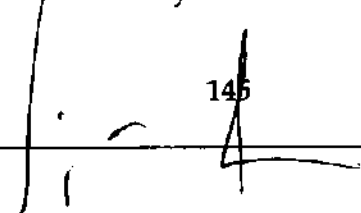

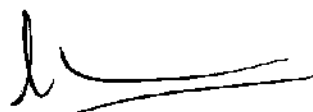

*M/s Nadeem Minerals Private Limited had requested the Authority for transferring the Environmental Clearance granted to M/s Nadeem Minerals in their favour. Since the original EC was granted by MoEF&CC and presently as per the Ministry Notification vide S.O.1886 (E) dated 20.04.2022, Mining of major mineral of mining lease area less than 250 Ha the jurisdiction is with SEIAA. The Authority Authorized the Member Secretary of the Authority to address a letter to the MoEF&CC to procure the original file.*

**220.5.5. Request for Transfer of EC of Mining, Lease No. 2516 from B Rudra Gouda Legal representative of Late Sri. B Kumargouda for Haddianapade Iron Ore mine at Kumaraswmy range in Sandur Taluk in Bellary District, Karnataka in favor of M/s BKG Mining Private Limited. - SEIAA 42 MISC 2022.**

Environmental Clearance has been granted to this project by MoEF&CC vide letter No. F.No. J-11015/540/2007-IA.II (M) dated 13.05.2008 and Amendment to EC on 10.12.2015 to B Rudra Gouda Legal representative of Late Sri. B Kumargouda for Haddianapade Iron Ore mine at Kumaraswmy range in Sandur Taluk in Bellary District, Karnataka.

M/s BKG Mining Private Limited vide letter dated 13.05.2022 requested for transfer of EC granted to B Rudra Gouda Legal representative of Late Sri. B Kumargouda in favor of M/s BKG Mining Private Limited. The Dept of Commerce and Industries Bengaluru has been approved the transfer of EC of Mining Lease No, 2516 from B Rudra Gouda Legal representative of Late Sri. B Kumargouda to M/s BKG Mining Private Limited and Dept. of Mines and Geology have executed the Transfer Lease Deed on 06.05.2022.

*M/s BKG Mining Private Limited had requested the Authority for transferring the Environmental Clearance granted to B Rudra Gouda Legal representative of Late*

*Sri. B Kumargouda in their favour. Since the original EC was granted by MoEF&CC and presently as per the Ministry Notification vide S.O.1886 (E) dated 20.04.2022, Mining of major mineral of mining lease area less than 250 Ha the jurisdiction is with SEIAA. The Authority Authorized the Member Secretary of the Authority to address a letter to the MoEF&CC to procure the original file.*

**220.5.6. Request for issue Amendment to EC for DRI TK palletization plant (0.15 MTPA) & Iron Ore Beneficiation Plant (0.30 MTPA) at Sy No. 25,26,27,28 of Lingadahalli Road, Near Bennihatti Cross, Taranagar Village, Sandur Taluk, Bellary District by M/s KEJ Minerals Pvt. Ltd.,- SEIAA 43 MISC 2022.**

Environmental Clearance has been granted to this project by MoEF&CC vide letter No. J-11011/427/2010-IA II (I) dated 17.03.2011 and Amnedment to EC dated 08.01.2016 for DRI TK palletization plant (0.15 MTPA) & Iron Ore Beneficiation Plant (0.30 MTPA) at Sy No. 25,26,27,28 of Lingadahalli Road, Near Bennihatti Cross, Taranagar Village, Sandur Taluk, Bellary District to M/s KEJ Minerals Pvt. Ltd.,

M/s KEJ Minerals Pvt. Ltd., vide letter dated 28.04.2022 requested this Authority for issue Amendment to EC. The proponent stated that Survey Number 25 mentioned in the EC was not in the proposal & not proposed in the Land breakup and Sy. No. 26 was bifurcated to 26/1 and 26/2, Sy. No. 27 was bifurcated to 27/1A, 27/1B & 27/2 likewise Sy. No. 28 was bifurcated to 28/A, 28/B, 28/C, 28/D & 28/E. Therefore, the project proponent requested to issue amendment to EC by replacing the theses Survey Numbers.

*The Authority perused the request made by the proponent. The Authority after discussion decided to address a letter to MoEF&CC to Procure the Original File.*

*M/s KEJ Minerals Pvt. Ltd., had requested the Authority for issue amendment to Environmental Clearance granted to them. Since the original EC was granted by MoEF&CC and presently as per the Ministry Notification vide S.O.1599(E) dated 25.06.2014, mineral Beneficiation of less than 0.5 MTPPA throughout the jurisdiction is with SEIAA. The Authority Authorized the Member Secretary of the Authority to address a letter to the MoEF&CC to procure the original file.*

**220.5.7. Proposed Residential Apartment project at Survey No. 69/1, Agrahara Village, Yelahanka Hobli, Bengaluru North Taluk, Bengaluru District by Smt. Vijayaraj - SEIAA 90 CON 2018 - Request for Transfer of EC dated 24.07.2018 in favor of M/s DS Max properties Pvt. Ltd.,**

Environmental Clearance has been granted to this project Vide letter No SEIAA 90 CON 2018 dated 24..09.2018 for Proposed Residential Apartment project at Survey No.

69/1, Agrahara Village, Yelahanka Hobli, Bengaluru North Taluk, Bengaluru District to Smt. Vijayaraj.

The Project proponent vide letter received on 19.07.2022 have requested this Authority for issue Amendment to EC. Due to change in plan the BUA increased from 26,618.25 Sqm to 27,177.85 Sqm,.

*The Authority after discussion decided to issue corrigendum to EC as requested by the proponent.*

**220.5.8. Quarrying of Building Stone at Sy No.221, Donnehalli Village, Jagaluru taluk, Davanagere District of M/s RMN-GVR Infrastructure Ltd., - SEIAA 223 MIN 2013 - Request for Transfer of EC dated 03.10.2013. in favor of M/s Navabharath Building Product.**

Environmental Clearance has been granted to this project Vide letter No. SEIAA 223 MIN 2013 for Quarrying of Building Stone at Sy No.221, Donnehalli Village, Jagaluru Taluk, Davanagere District to M/s RMN-GVR Infrastructure Ltd,.

M/s Navabharath Building Product vide letter dated 30.06.2022 for transfer of EC granted to M/s RMN-GVR Infrastructure Ltd in favor of M/s Navabharath Building Product as the quarry lease has been transferred to M/s Navabharath Building Product through the Dept. of Mines and Geology.

*The Authority perused the request made by M/s Navabharath Building Product and decided to transfer the EC in favour M/s Navabharath Building Product subject to the following conditions*

- i. The applicant shall furnish Notarised affidavit of M/s Navabharath Building Product relinquishing his claim (duly witnessed by Authorized Signatory Sri. M/s RMN-GVR Infrastructure Ltd)*
- ii. Notarised Copy of EC.*
- iii. Notarised Copy of Form-T.*

**220.5.9. Building Stone Quarry Project at Sy. No. 240 of Bukkasagara Village, Hosapete Taluk, Vijayanagara District (5-50 Acres) by M/s.Karisiddeshwara Hardhika Hindulida Vargagala Kallukutikara Sangha- Online Proposal No. SIA/KA/MIN/75917/2022 (SEIAA 213 MIN 2022)**

M/s Karisiddeshwara Hardhika Hindulida Vargagala Kallukutikara Sangha have applied for Environmental clearance from SEIAA for quarrying of Building Stone Quarry Project at Sy. No. 240 of Bukkasagara Village, Hosapete Taluk, Vijayanagara District (5-50 Acres).

The subject was discussed in the SEAC meeting held on 13<sup>th</sup> May 2022. The Committee has recommended to SEIAA for issue of Standard ToRs along with additional ToRs and the extract of the proceedings of the Committee meeting is as below:

The proponent informed the committee that, NOCs from Forest & Revenue Department and approved mining plan from DMG have been obtained.

As per the cluster sketch certified by DMG there are 5 leases including this lease and the total area of these leases is 35.50 Acres, which is more than the threshold limit of 5 Ha. Hence the project is categorized as B1 and hence it was decided to recommend the proposal to SEIAA for issue of standard TOR& following additional TOR to conduct EIA studies along with public hearing.

- 1) Ensure that the present project does not attract the General Condition of appraisal by the Central Government for projects falling within 5km of protected areas notified under the Wildlife Protection Act, 1972.
- 2) Since it is a Govt. Land it shall have final Notification and Site Suitability Criteria as per KMMCR 1994 and amended Rules of 6(2).
- 3) Forest NoC
- 4) Wildlife clearance certificate
- 5) S-Report for the proposed Area
- 6) Clearances from Archeological Department
- 7) Cumulative pollution load taking into account of cluster should be submitted.
- 8) Since more than 200 people are working in the cluster, provide the details of safe drinking water, sanitation and Shelter facilities.

The Authority perused the proposal and took note of the recommendation made by SEAC. In view, of the General condition attracts by the current proposal due to presence of quarry in proximity to the Tungabhadra Otter Conservation Reserve. The proposal may be submitted to GoI as General Conditions is applicable.

However, the proponent is at liberty to utilize the baseline data from the date of application submitted to SEIAA, Karnataka, while applying for EC at MoEF&CC GoI.

The Authority after detailed discussion decided to reject the proposal and delist from pendency.

*Further, the project proponent vide his letter dated 19.07.2022 stated that the file No. SEIAA 213 MIN 2022 was taken up in the 278<sup>th</sup> SEAC meeting and was recommended for issue of ToR but in the 218<sup>th</sup> SEIAA meeting the file was rejected stating that the quarry is in proximity to the Tungabhadra Otter Conservation Reserve and it attracts General Condition. But as per notification S.O. 3977 (E) dated 14.08.2018 the general conditions shall apply except i) "for project*

or activity of mining of minor mineral of Category B2 (upto 25 Ha of mining Lease area), ii) for Project or Activity of Mining of minor minerals of Category B1 in case of Cluster of Mining lease area".

Hence, requested to reconsider their application for grant of ToR considering the old file number. Further, requested to issue common ToR to file No's SEIAA 213 MIN 2022, SEIAA 214 MIN 2022, SEIAA 215 MIN 2022, SEIAA 216 MIN 2022 and SEIAA 217 MIN 2022 and conduct one EIA and Public Hearing for all leases in the cluster as per EIA notification S.O. 3977 (E) dated 14.08.2018. Also, requested to grant the permission to use Baseline data collected from March 2022 to May 2022 for preparation of EIA.

The Authority perused the Notification S.O. 3977 (E) dated 14.08.2018 and after detailed discussion decided to issue a common ToR for the cluster comprising of the above mentioned areas for preparation of EIA/EMP report and conducting public consultation as per procedure laid down in the Appendix XI of EIA Notification, 2006 and also granted permission to use Baseline data collected from March 2022 to May 2022 for preparation of EIA as per OM No. J-11013/41/2006-IA-II (1) (Part) dated 29.08.2017.

**220.5.10. Building Stone Quarry Project at Sy. No. 240 of Bukkasagara Village, Hosapete Taluk, Vijayanagara District (8-50 Acres) by M/s.Shree Siddarameshwara Hardhika Hindulida Vargagala Kallukutikara Sangha- Online Proposal No. SIA/KA/MIN/75933/2022 (SEIAA 214 MIN 2022)**

M/s Shree Siddarameshwara Hardhika Hindulida Vargagala Kallukutikara Sangha have applied for Environmental clearance from SEIAA for quarrying of Building Stone Quarry Project at Sy. No. 240 of Bukkasagara Village, Hosapete Taluk, Vijayanagara District (8-50 Acres)

The subject was discussed in the SEAC meeting held on 13<sup>th</sup> May 2022. The Committee has recommended to SEIAA for issue of Standard ToRs along with additional ToRs and the extract of the proceedings of the Committee meeting is as below:

The proponent informed the committee that, NOCs from Forest & Revenue Department and approved mining plan from DMG have been obtained.

As per the cluster sketch certified by DMG there are 5 leases including this lease and the total area of these leases is 35.50 Acres, which is more than the threshold limit of 5 Ha. Hence the project is categorized as B1 and hence it was decided to recommend the proposal to SEIAA for issue of standard TOR& following additional TOR to conduct EIA studies along with public hearing.

- 1) Ensure that the present project does not attract the General Condition of appraisal by the Central Government for projects falling within 5km of protected areas notified under the Wildlife Protection Act, 1972.

- 2) Since it is a Govt. Land it shall have final Notification and Site Suitability Criteria as per KMMCR 1994 and amended Rules of 6(2).
- 3) Forest NoC.
- 4) Wildlife clearance certificate
- 5) S-Report for the proposed Area
- 6) Clearances from Archeological Department
- 7) Cumulative pollution load taking into account of cluster should be submitted.
- 8) Since more than 200 people are working in the cluster, provide the details of safe drinking water, sanitation and Shelter facilities.

The Authority perused the proposal and took note of the recommendation made by SEAC. In view, of the General condition attracts by the current proposal due to presence of quarry in proximity to the Tungabhadra Otter Conservation Reserve. The proposal may be submitted to GoI as General Conditions is applicable.

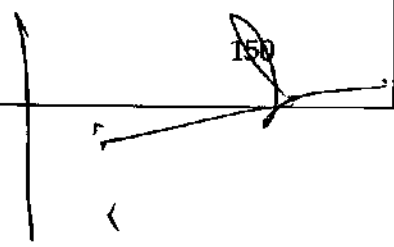

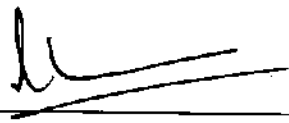

However, the proponent is at liberty to utilize the baseline data from the date of application submitted to SEIAA, Karnataka, while applying for EC at MoEF&CC GoI.

The Authority after detailed discussion decided to reject the proposal and delist from pendency.

*Further, the project proponent vide his letter dated 19.07.2022 stated that the file No. SEIAA 214 MIN 2022 was taken up in the 278<sup>th</sup> SEAC meeting and was recommended for issue of ToR but in the 218<sup>th</sup> SEIAA meeting the file was rejected stating that the quarry is in proximity to the Tungabhadra Otter Conservation Reserve and it attracts General Condition. But as per notification S.O. 3977 (E) dated 14.08.2018 the general conditions shall apply except i) "for project or activity of mining of minor mineral of Category B2 (upto 25 Ha of mining Lease area), ii) for Project or Activity of Mining of minor minerals of Category B1 in case of Cluster of Mining lease area".*

*Hence, requested to reconsider their application for grant of ToR considering the old file number. Further, requested to issue common ToR to file No's SEIAA 213 MIN 2022, SEIAA 214 MIN 2022, SEIAA 215 MIN 2022, SEIAA 216 MIN 2022 and SEIAA 217 MIN 2022 and conduct one EIA and Public Hearing for all leases in the cluster as per EIA notification S.O. 3977 (E) dated 14.08.2018. Also, requested to grant the permission to use Baseline data collected from March 2022 to May 2022 for preparation of EIA.*

*The Authority perused the Notification S.O. 3977 (E) dated 14.08.2018 and after detailed discussion decided to issue a common ToR for the cluster comprising of the above mentioned areas for preparation of EIA/EMP report and conducting public consultation as per procedure laid down in the Appendix XI of EIA Notification, 2006 and also granted permission to use Baseline data collected from March 2022 to May 2022 for preparation of EIA as per OM No. J-11013/41/2006-IA-II (1) (Part) dated 29.08.2017.*

**220.5.11. Building Stone Quarry Project at Sy. No. 240 of Bukkasagara Village, Hosapete Taluk, Vijayanagara District (7-50 Acres) by M/s. Shree Veerabhadreshwara Kallukutikara Sangha - Online Proposal No. SIA/KA/MIN/75946/2022 (SEIAA 215 MIN 2022)**

M/s. Shree Veerabhadreshwara Kallukutikara Sangha have applied for Environmental clearance from SEIAA for quarrying of Building Stone Quarry Project at Sy. No. 240 of Bukkasagara Village, Hosapete Taluk, Vijayanagara District (7-50 Acres) by M/s. Shree Veerabhadreshwara Kallukutikara Sangha

The subject was discussed in the SEAC meeting held on 13<sup>th</sup> May 2022. The Committee has recommended to SEIAA for issue of Standard ToRs along with additional ToRs and the extract of the proceedings of the Committee meeting is as below:

The proponent informed the committee that, NOCs from Forest & Revenue Department and approved mining plan from DMG have been obtained.

As per the cluster sketch certified by DMG there are 5 leases including this lease and the total area of these leases is 35.50 Acres, which is more than the threshold limit of 5 Ha. Hence the project is categorized as B1 and hence it was decided to recommend the proposal to SEIAA for issue of standard TOR& following additional TOR to conduct EIA studies along with public hearing.

- 1) Ensure that the present project does not attract the General Condition of appraisal by the Central Government for projects falling within 5km of protected areas notified under the Wildlife Protection Act, 1972.
- 2) Since it is a Govt. Land it shall have final Notification and Site Suitability Criteria as per KMMCR 1994 and amended Rules of 6(2).
- 3) Clear Forest NoC, with details of Otter Conservation Area and indicating that the proposed area is out of Deemed Forest Area.
- 4) Wildlife clearance certificate
- 5) S-Report for the proposed Area
- 6) Clearances from Archeological Department
- 7) Cumulative pollution load taking into account of cluster should be submitted.
- 8) Since more than 200 people are working in the cluster, provide the details of safe drinking water, sanitation and Shelter facilities.

The Authority perused the proposal and took note of the recommendation made by SEAC. In view, of the General condition attracts by the current proposal due to presence

of quarry in proximity to the Tungabhadra Otter Conservation Reserve. The proposal may be submitted to GoI as General Conditions is applicable.

However, the proponent is at liberty to utilize the baseline data from the date of application submitted to SEIAA, Karnataka, while applying for EC at MoEF&CC GoI.

The Authority after detailed discussion decided to reject the proposal and delist from pendency.

Further, the project proponent vide his letter dated 19.07.2022 stated that the file No. SEIAA 215 MIN 2022 was taken up in the 278<sup>th</sup> SEAC meeting and was recommended for issue of ToR but in the 218<sup>th</sup> SEIAA meeting the file was rejected stating that the quarry is in proximity to the Tungabhadra Otter Conservation Reserve and it attracts General Condition. But as per notification S.O. 3977 (E) dated 14.08.2018 the general conditions shall apply except i) "for project or activity of mining of minor mineral of Category B2 (upto 25 Ha of mining Lease area), ii) for Project or Activity of Mining of minor minerals of Catogory B1 in case of Cluster of Mining lease area".

Hence, requested to reconsider their application for grant of ToR considering the old file number. Further, requested to issue common ToR to file No's SEIAA 213 MIN 2022, SEIAA 214 MIN 2022, SEIAA 215 MIN 2022, SEIAA 216 MIN 2022 and SEIAA 217 MIN 2022 and conduct one EIA and Public Hearing for all leases in the cluster as per EIA notification S.O. 3977 (E) dated 14.08.2018. Also, requested to grant the permission to use Baseline data collected from March 2022 to May 2022 for preparation of EIA.

The Authority perused the Notification S.O. 3977 (E) dated 14.08.2018 and after detailed discussion decided to issue a common ToR for the cluster comprising of the above mentioned areas for preparation of EIA/EMP report and conducting public consultation as per procedure laid down in the Appendix XI of EIA Notification, 2006 and also granted permission to use Baseline data collected from March 2022 to May 2022 for preparation of EIA as per OM No. J-11013/41/2006-IA-II (1) (Part) dated 29.08.2017.

**220.5.12. Building Stone Quarry Project at Sy. No.240 of Bukkasagara Village, Hosapete Taluk, Vijayanagara District (8-00 Acres) by M/s.Bovivaddara Kallukutikara Sangha- Online Proposal No. SIA/KA/MIN/75962/2022 (SEIAA 216 MIN 2022)**

M/s Bovivaddara Kallukutikara Sangha have applied for Environmental clearance from SEIAA for quarrying of Building Stone Quarry Project at Sy. No.240 of Bukkasagara Village, Hosapete Taluk, Vijayanagara District (8-00 Acres)

The subject was discussed in the SEAC meeting held on 13<sup>th</sup> May 2022. The Committee has recommended to SEIAA for issue of Standard ToRs along with additional ToRs and the extract of the proceedings of the Committee meeting is as below:

The proponent informed the committee that, NOCs from Forest & Revenue Department and approved mining plan from DMG have been obtained.

As per the cluster sketch certified by DMG there are 5 leases including this lease and the total area of these leases is 35.50 Acres, which is more than the threshold limit of 5 Ha. Hence the project is categorized as B1 and hence it was decided to recommend the proposal to SEIAA for issue of standard TOR& following additional TOR to conduct EIA studies along with public hearing.

- 1) Ensure that the present project does not attract the General Condition of appraisal by the Central Government for projects falling within 5km of protected areas notified under the Wildlife Protection Act, 1972.
- 2) Since it is a Govt. Land it shall have final Notification and Site Suitability Criteria as per KMMCR 1994 and amended Rules of 6(2).
- 3) Clear Forest NoC, with details of Otter Conservation Area and indicating that the proposed area is out of Deemed Forest Area.
- 4) Wildlife clearance certificate
- 5) S-Report for the proposed Area
- 6) Clearances from Archeological Department
- 7) Cumulative pollution load taking into account of cluster should be submitted.
- 8) Since more than 200 people are working in the cluster, provide the details of safe drinking water, sanitation and Shelter facilities.

The Authority perused the proposal and took note of the recommendation made by SEAC. In view, of the General condition attracts by the current proposal due to presence of quarry in proximity to the Tungabhadra Otter Conservation Reserve. The proposal may be submitted to GoI as General Conditions is applicable.

However, the proponent is at liberty to utilize the baseline data from the date of application submitted to SEIAA, Karnataka, while applying for EC at MoEF&CC GoI.

The Authority after detailed discussion decided to reject the proposal and delist from pendency.

*Further, the project proponent vide his letter dated 19.07.2022 stated that the file No. SEIAA 216 MIN 2022 was taken up in the 278<sup>th</sup> SEAC meeting and was recommended for issue of ToR but in the 218<sup>th</sup> SEIAA meeting the file was rejected stating that the quarry is in proximity*

to the Tungabhadra Otter Conservation Reserve and it attracts General Condition. But as per notification S.O. 3977 (E) dated 14.08.2018 the general conditions shall apply except i) "for project or activity of mining of minor mineral of Category B2 (upto 25 Ha of mining Lease area), ii) for Project or Activity of Mining of minor minerals of Category B1 in case of Cluster of Mining lease area".

Hence, requested to reconsider their application for grant of ToR considering the old file number. Further, requested to issue common ToR to file No's SEIAA 213 MIN 2022, SEIAA 214 MIN 2022, SEIAA 215 MIN 2022, SEIAA 216 MIN 2022 and SEIAA 217 MIN 2022 and conduct one EIA and Public Hearing for all leases in the cluster as per EIA notification S.O. 3977 (E) dated 14.08.2018. Also, requested to grant the permission to use Baseline data collected from March 2022 to May 2022 for preparation of EIA.

The Authority perused the Notification S.O. 3977 (E) dated 14.08.2018 and after detailed discussion decided to issue a common ToR for the cluster comprising of the above mentioned areas for preparation of EIA/EMP report and conducting public consultation as per procedure laid down in the Appendix XI of EIA Notification, 2006 and also granted permission to use Baseline data collected from March 2022 to May 2022 for preparation of EIA as per OM No. J-11013/41/2006-IA-II (1) (Part) dated 29.08.2017.

**220.5.13. Building Stone Quarry Project at Sy. No.240 of Bukkasagara Village, Hosapete Taluk, Vijayanagara District (6-00 Acres) by M/s. Bukkasagar Vaddammadevi BhoviVaddara Kallukutikara Sangha- Online Proposal No.SIA/KA/MIN/75970/2022 (SEIAA 217 MIN 2022)**

M/s. Bukkasagar Vaddammadevi BhoviVaddara Kallukutikara Sangha have applied for Environmental clearance from SEIAA for quarrying of Building Stone Quarry Project at Sy. No.240 of Bukkasagara Village, Hosapete Taluk, Vijayanagara District (6-00 Acres)

The subject was discussed in the SEAC meeting held on 13<sup>th</sup> May 2022. The Committee has recommended to SEIAA for issue of Standard ToRs along with additional ToRs and the extract of the proceedings of the Committee meeting is as below:

The proponent informed the committee that, NOCs from Forest & Revenue Department and approved mining plan from DMG have been obtained.

As per the cluster sketch certified by DMG there are 5 leases including this lease and the total area of these leases is 35.50 Acres, which is more than the threshold limit of 5 Ha. Hence the project is categorized as B1 and hence it was decided to recommend the proposal to SEIAA for issue of standard TOR& following additional TOR to conduct EIA studies along with public hearing.

- 1) Ensure that the present project does not attract the General Condition of appraisal by the Central Government for projects falling within 5km of protected areas notified under the Wildlife Protection Act, 1972.
- 2) Since it is a Govt. Land it shall have final Notification and Site Suitability Criteria as per KMMCR 1994 and amended Rules of 6(2).
- 3) Clear Forest NoC, with details of Otter Conservation Area and indicating that the proposed area is out of Deemed Forest Area.
- 4) Wildlife clearance certificate
- 5) S-Report for the proposed Area
- 6) Clearances from Archeological Department
- 7) Cumulative pollution load taking into account of cluster should be submitted.
- 8) Since more than 200 people are working in the cluster, provide the details of safe drinking water, sanitation and Shelter facilities.

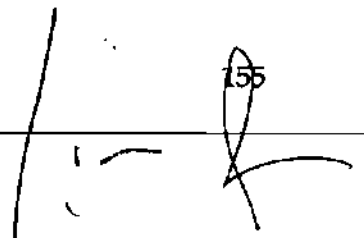

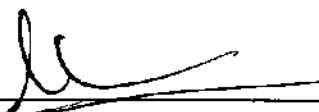

The Authority perused the proposal and took note of the recommendation made by SEAC. In view, of the General condition attracts by the current proposal due to presence of quarry in proximity to the Tungabhadra Otter Conservation Reserve. The proposal may be submitted to GoI as General Conditions is applicable.

However, the proponent is at liberty to utilize the baseline data from the date of application submitted to SEIAA, Karnataka, while applying for EC at MoEF&CC GoI.

The Authority after detailed discussion decided to reject the proposal and delist from pendency.

*Further, the project proponent vide his letter dated 19.07.2022 stated that the file No. SEIAA 217 MIN 2022 was taken up in the 278<sup>th</sup> SEAC meeting and was recommended for issue of ToR but in the 218<sup>th</sup> SEIAA meeting the file was rejected stating that the quarry is in proximity to the Tungabhadra Otter Conservation Reserve and it attracts General Condition. But as per notification S.O. 3977 (E) dated 14.08.2018 the general conditions shall apply except i) "for project or activity of mining of minor mineral of Category B2 (upto 25 Ha of mining Lease area), ii) for Project or Activity of Mining of minor minerals of Catogory B1 in case of Cluster of Mining lease area".*

*Hence, requested to reconsider their application for grant of ToR considering the old file number. Further, requested to issue common ToR to file No's SEIAA 213 MIN 2022, SEIAA 214 MIN 2022, SEIAA 215 MIN 2022, SEIAA 216 MIN 2022 and SEIAA 217 MIN 2022 and conduct one EIA and Public Hearing for all leases in the cluster as per EIA notification S.O. 3977 (E) dated 14.08.2018. Also, requested to grant the permission to use Baseline data collected from March 2022 to May 2022 for preparation of EIA.*
