Earlier the proponent obtained Auto generated TORs (Violation) to the project from the SEIAA, TS on 13.10.2020 with public hearing.

Meanwhile, the MoEF&CC, GoI issued O.M.dt.12.11.2020 w.r.t. clarification on requirement of public hearing for violation cases. It was informed that the Ministry is in receipt of representations from various stakeholders requesting the ministry to clarify that public hearing shall be undertaken only in respect of those cases of violation, where the EIA Notification, 2006, as amended from time to time, so mandates. The Ministry clarified that the purpose behind conduct of public hearing is not to determine the violation but only to assess the impact that the project may have on local environment and living. Therefore, if in the first place nature of the project does not call for public hearing, violation does not cast additional requirement of public hearing.

Now, the proponent is requesting to issue the Amendment to TORs exempting public hearing to the project as the mine lease area is less than 5.0 Ha. considering the OM dt.12.11.2020 issued by the MoEF&CC, GoI.

The Proponent also submitted a copy of lr.dt.15.07.2021 of ADMG, Karimnagar District informing that there are 8 existing quarry leases falling within 500m from the proposed quarry lease. Out of that, 7 mines obtained EC before 15.01.2016 and another 1 mine (2.60 Ha. - lease granted after 09.09.2013). The SEAC noted that the mine lease area is 1.659 Ha. It is further noted that the total Cluster area is 18.889 Ha. and Net cluster is 4.259 Ha. But, the cluster is not applicable to the project as the lease was granted before 09.09.2013. Though the area is less than 5.0 Ha, the project is not considered under B2 category, but it is considered under B1 category since it is a violation project, as per S.O.804 (E), dt. 14.03.2012. However, the public hearing is not required to the project as per OM dt.12.11.2020 issued by the MoEF&CC, GoI. Hence, the proponent shall prepare EIA report as per violation TORs without public hearing.

After detailed discussions, the SEAC recommended for issue of TORs Amendment without public hearing.
