Agenda Item No: 171.97	NABET
	<p>The NABET vide letter Dt 18.10.2021 requested members of SEIAA/SEAC to discourage the Non-accredited consultants to present their cases before SEIAA/SEAC meetings and make project proponents aware about not to engage Non accredited consultant in order to improve the quality of EIA/EMP reports and conserve the Environment.</p> <p>The committee observed that many sand and building stone/road metal mine owners have already engaged Non accredited consultants and filed proposal online and also some have engaged them and in the process of filing. The sudden stoppage of the RQPs/Non accredited consultants may cause scarcity of sand & gravel further resulting in unemployment of construction labour. In view of the above, the Committee recommended the following.</p> <ul style="list-style-type: none">1. To allow the non-accredited consultants to file their cases online up to 31.12.2021 only.2. To allow the non-accredited consultants to present before SEAC/SEIAA meetings for the proposals submitted by them on or before 31.12.2021.3. From 1.1.2022 only NABET accredited consultants will be permitted to file and present their proposals before SEAC/SEIAA committee meetings.4. This will be notified in Parivesh website. If the proposals are submitted by the non-accredited consultants after the notification, such proposals will be disqualified by raising EDS.
