Ministry of Environment, Forests and Climate Change
Indira Paryavaran Bhavan,
Jorbagh Road, New Delhi - 110 003

Sir,

Sub: Basaveshwara Lift Irrigation Scheme in Belgaum District by Karnataka Neeravari Nigam Ltd, Govt. of Karnataka (J-12011/23/2015.IA.I) - Issue of Environmental Clearance - reg.,

Ref: 1) Proceedings of 7th EAC meeting held on 24.08.2017
2) Guidelines for submission, Appraisal and Acceptance of Irrigation & Multipurpose projects, 2017 published by Central Water Commission, Gol

Adverting to the above referred proceedings (1), MoEF&CC mandates CWC Clearance for onward issue to Environmental Clearance to the subject project.

Vide ref (2), CWC has published detailed guidelines, wherein, at Para no. 1.2 (Page-No.2), it was mentioned that, Environmental Clearance is one of the pre-requisite for examination of the DPR for issue of CWC clearance. Further, the Technical Advisory Committee (TAC) of CWC will not appraise the project for CWC clearance until submission of Environmental Clearance.

In view of the above, it is requesting to issue the Environmental Clearance to the subject project with condition to obtain CWC Clearance. Accordingly, CWC clearance will also be obtained for the project and submitted to the Ministry.

Yours faithfully,

Encl: As above

Chief Engineer

KNLL, Irrigation North Zone
Belagavi, Karnataka

Guidelines
for
Submission, Appraisal and Acceptance
of
Irrigation and Multipurpose Projects,
2017

1 INTRODUCTION

1.1 The Guidelines for Submission, Appraisal and Clearance of Irrigation and Multipurpose Project, 1989 had been prepared by the Project Appraisal Organisation (PAO), Central Water Commission (CWC) on the basis of the recommendations of the National Conference of Irrigation and Water Resources Ministers held in July, 1986 (**Annexure-1**).

1.2 The procedure of project appraisal of Irrigation, Flood Control & Multipurpose Projects for both major and medium projects, which are having inter-State ramification, had been revised to accommodate various subsequent changes in Guidelines of the Planning Commission and first revised Guidelines in this respect were issued in 2002. As per the Guidelines 2002, the concerned State Government in the initial stage submits preliminary report covering surveys and investigations, international/inter-State aspects, hydrology, irrigation planning, brief environmental aspects, intended benefits, etc. which are required to establish soundness of the project proposal. The project proposal is examined and if found acceptable, CWC conveys 'In Principle' consent to the State Government for preparation of Detailed Project Report (DPR). Thereafter, DPR is prepared with up-to-date cost and simultaneously the Project Authorities process and obtain necessary clearances of the Ministry of Environment & Forests in respect of Environment Impact Assessment and Forest area being diverted. If Scheduled Tribe population is diverted, the clearance of R&R Plans is obtained from the Ministry of Tribal Affairs. The DPR thus prepared is examined in CWC. In States where central design and planning organizations do not exist, the CWC checks the designs also. The CWC finalizes the cost, B.C. ratio, etc. and the State Government obtains concurrence of the State Finance Department for the finalised cost. The project proposal, thereafter, is put up to the Advisory Committee for clearance, which is, by and large, like single window clearance.
