Date: 15.05.2024

To,

The Director,

Ministry of Environment, Forest & Climate Change,
Govt. of India, IA Division, Non-Coal Mining Projects,
Indira Paryavaran Bhawan, 3rd Floor, Vayu Wing,
Jor Bagh Road, Aliganj,
New Delhi - 110 003.

Sub: Environmental Clearance for proposed production of **Iron Ore**: Total Excavation: 1662977 TPA, ROM: 10,00,000 TPA, **Manganese Ore**: Total Excavation: 1407519 TPA, ROM: 150000 TPA from Mahulsukha Iron & Mn. Ore Block by M/s. Rungta Sons Pvt. Ltd. over an area of 390.317 ha. in Village; Randa, Rantha & Bhutuda under Bonai Sub-Division & Lahunipara Tehsil of Sundargarh district, Odisha.

Ref: Proposal No.IA/OR/MIN/180360/2020; File No.J-11015/75/2020-IA-II(M).

Sir,

This has reference to the online proposal stated above for expansion of Mahulsukha Iron & Mn. Ore Block by M/s. Rungta Sons Pvt. Ltd. over an area of 390.317 ha.(as per DGPS) /399.838 ha. (As per ROR) in Villages; Randa, Rantha & Bhutuda under Bonai Sub-Division & Lahunipara Tehsil of Sundargarh district, Odisha. In this context, we would like to bring the followings to your kind perusal that;

1. The Mining lease of Mahulsukha Iron & Manganese block is an auction mine vested to M/s Patnaik Minerals Pvt. Ltd. from M/s Aryan Mining & Trading Corporation Ltd. The Govt. of Odisha vide Letter NO.4246/IV(B)SM-23/2020/SM dated 30.05.2020 issued orders vesting all the valid rights, approvals, clearances, licenses and the like vested in the previous lessee in favour of M/s Patnaik minerals Pvt. Ltd.. Then, the Govt. Of Odisha vide Order No. 5518/IV(B)SM-23/2020/SM dated 29.06.2020 granted mining lease for Iron & Manganese ore in favour of M/s Patnaik Minerals Pvt. Ltd for Mahulsukha Iron & Manganese Ore block over an area of 390.317(as per DGPS)/399.838ha (as per ROR) for a period of 50 years and accordingly mining lease deed was executed on 29.06.2020. **(Copy of both the orders are enclosed as Annexure-I & II).**
2. M/s Patnaik Minerals Pvt. Ltd. Prepared the mining plan along with progressive mine closure plan which was approved by Indian Bureau of mines vide letter no. MP/A/17-ORI/BHU/2020-21, dated 01.10.2022 approved for the period from 2020-21 to 2024-25.
3. The total mine lease area is 390.317 ha out of which 382.437 ha is forest land, private land is 1.081 ha and Govt.non forest land is 6.799 ha. Stage-II Forest clearance granted vide F.No.8-93/2004-FC dated 18.08.2008 for diversion of 227.0 ha of forest land in favour of M/s Aryan Mining and Trading Corporation Ltd was transferred to M/s Patnaik Minerals Pvt. Ltd as per the provision of Mines and Minerals (Development and Regulation) Amendment Act, 2021 aligned with Forest Conservation Act, 1980.
4. (a) The Patnaik minerals Pvt. Ltd. submitted Form-I and PFR in the Parivesh portal vide proposal no. IA/OR/MIN/180360/2020 on 23.10.2020 for the above said production. Subsequently the MoEF & CC (IA division), Govt.of India granted TOR on dated 20th January, 2021 vide letter no.J-110105/75/2020-IA.II (M).
(b) The public hearing for the said production was conducted on 08.21.2021.
(c) Post TOR final EIA/EMP along with form -2 was submitted on 15.05.2022.
(d) The Project was appraised by the EAC on 15.06.2022, wherein the proposal was deferred for want of additional information.
(e) The PP then submitted the replies to the above said queries on 25.08.2022 in Parivesh portal. Further the EAC asked for complete information, and the PP submitted the complete information on 22.09.2022 in Parivesh Portal. The proposal was reconsidered in the 5th EAC meeting on 18th October. (Agenda no. 3.2) . Since the deliberation by the consultant was not continuous due to recurring poor connectivity, the EAC deferred the proposal.

(Contd..P/2....)

Heem

Rungta Sons Private Limited

MAIN ROAD, BARBIL - 758 035, DIST. - KENDUJHAR, ODISHA, INDIA

Telefax : 06767 - 276161, E-mail : bbloffice@runtasons.com

Page-2

(f) During the 7th EAC conducted on 5th -6th December 2022,(Agenda no 2.2) the Committee deferred the proposal stating that the proposal may be considered only after the submission of the site visit report by a sub-committee constituted by The MoEF &CC , Govt. of India vide order dated 30.01.2023.

(g) The proposal was again appraised during the 11th EAC meeting held during 1-2 March 2023 (Additional Agenda no 2.5) after the submission of report by EAC subcommittee after the field visit during 18-21 February 2023.The committee recommended to submit status of compliances to 21 points query.

(h) The PP submitted the reply to the above 21 point queries. The proposal was put for reconsideration during the 24th EAC (Non -coal mining) held during 26-28 December 2023 and the PP vide letter dated 12.12.2023 informed that they are not in a position to present the technical presentation and based on this, the proposal was deferred by the EAC.

(g) The proposal was delisted on 5th April 2024.

5. In between these, the lease of Mahulsukha Iron & Mn. Ore Block has been transferred in the name of M/s Rungta Sons Pvt. Ltd. vide proceedings no. 12975/SN dated 28.12.2023 of Steel & Mines Department, Govt. of Odisha under the provision of Mines and Minerals (Development and Regulation) Amendment Act, 2021. **(Copy of the transfer deed and vesting order is enclosed as Annexure-III).**

In a sequel to the above, the present lessee intends to relay the aforementioned EC proposal further. For this purpose, we have obtained NOC from the former lessee (M/s Patnaik minerals Pvt. Ltd.) in the shape of an affidavit **on 09.05.2024** that, they have no objection for transfer of the final EIA report prepared by them and the accredited consultant (M/s Kalyani Laboratory Pvt. Ltd) and all other documents/proceedings of public hearings for expansion of the project in case these are being transferred in the name of M/s Rungta Sons Pvt. Ltd. and they have relinquished all claims/rights/ownership over the said document/proceedings in favour of M/s Rungta Sons Pvt. Ltd. **(A copy of the affidavit is enclosed as Annexure-IV).**

Since the record of submission of the above said 21 points query could not be traced in the Parivesh Portal, we are submitting herewith the point wise compliances to the recommendations of the 11th EAC meeting (Non Coal Mining) held on 1-2 March 2023.

We would therefore request your good self to kindly process the said application in our favour and grant Environment clearance for production of Iron Ore: total Excavation: 1662977 TPA, ROM: 10,00,000 TPA, Manganese Ore: Total Excavation: 1407519 TPA, ROM: 150000 TPA from Mahulsukha Iron & Mn. Ore Block in favour of M/s. Rungta Sons Pvt. Ltd. over a lease area of 390.317 ha. in Village; Randa, Rantha & Bhutuda under Bonai Sub-Division & Lahunipara Tehsil of Sundargarh district, Odisha.

Thanking you,

Yours faithfully,

For Rungta Sons Pvt. Ltd.

Managing Director

Encl: As above.

COMPLIANCES ON CONDITIONS STIPULATED ON 11TH MEETING OF THE COMMITTEE OF THE RE-CONSTITUTION OF EXPERT APPRAISAL COMMITTEE FOR ENVIRONMENTAL APPRAISAL OF NON-COAL MINING PROJECTS ON 1ST TO 2ND MARCH'2023.

Sl. No.	Recommendation/ Condition	Compliance	Remarks																																		
1.	Project Proponent should construct all village roads within its lease area and the one that connects this mine with the all-weather road which connects with NH -215	The road within the lease area is 2 km long which has been constructed under DMF. The maintenance of the road is being/ will be carried out by the lessee. Further the all-weather road of 1 Km connects the lease area to OMC- Barsuan road will also be maintained by the lessee.	Photograph of the road attached. Annexure- 1																																		
2.	The project proponent should undertake a detailed study of the wildlife present in the area through any of the reputed national institute and prepare a comprehensive wildlife plan for the scheduled species	In the guideline issued by the Principal Chief Conservator of Forests (Wildlife) & Chief Wildlife Warden, Odisha vide Memo No. 9094/CWLW-FDWC-MISC-0028-2021, Dtd: 17.09.2021 and Memo No. 3337/CWLW-FDWC-MISC-0028-2021, Dtd: 16.04.2022, regarding implementation of site-specific wild life conservation plan, it has been directed that the concerned DFO will compile and co-ordinate the preparation of SSWLC plan for the project and the impact zone. As per the guideline the concerned DFO shall incorporate the recommendation received from PCCF & RCCF at the time of forwarding proposal and finalise the report. The financial implication for implementation of mitigation measure to be worked out by the DFO only. The animal passage area to be identified. Except the infrastructure cost in the SSWLCP all funds required for implementation of SSWLCP shall be deposited by UA in CAMPA fund as per rule. Based on the above said guideline, the SSWLCP is under scrutiny by DFO, Bonai.	Submission Letter and Guideline attached Annexure -2																																		
3.	The project proponent should construct retaining wall and garland drains alongside the existing dumping sites (active as well as non-active)	Out of six nos. of dumps only dump -4 is active. The dumps which are not operating since long are found to have natural vegetation and have stabilized. We are exploring the non-active dumps and are hereby undertake to construct retaining wall and garland drain in due course of time. Garland drain of adequate size have been constructed and are running parallel to the retaining wall constructed. Total Length of 3826.709 mtr. of retaining wall have already been constructed) along the toe of the active dump and non-active dumps. (Total proposal as per Approved Mining Plan for construction of retaining wall and garland drain are given below: <table><tr><th rowspan="2">Year</th><th colspan="2">Retaining Wall (Mtr.)</th><th colspan="2">Garland Darin (Mtr.)</th></tr><tr><th>Proposal</th><th>Actual</th><th>Proposal</th><th>Actual</th></tr><tr><td>2020-21</td><td>Nil</td><td>160</td><td>Nil</td><td>Nil</td></tr><tr><td>2021-22</td><td>270</td><td>460</td><td>350</td><td>120</td></tr><tr><td>2022-23</td><td>270</td><td>Nil</td><td>350</td><td>400</td></tr><tr><td>2023-24</td><td>Nil</td><td>NIL</td><td>NIL</td><td>280</td></tr><tr><td>2024-25</td><td>Nil</td><td>To be constructed as per requirement</td><td>Nil</td><td>To be constructed as per requirement</td></tr></table>	Year	Retaining Wall (Mtr.) 4.	Project Proponent should undertake to carry out plantation activities alongside the quarries. Permanent water sprinklers are to be placed alongside the plantation and haul roads. Plantation shall be re-conducted in consultation with the State Forest Department	Ex Lessee so far planted 10,000 nos. of saplings in accordance with approved Mining Plan as gap plantation and block plantation on Dump- 4 and other vacated areas of the lease hold area. The plantation works are continuous process in vacant and stabilized dump of the lease area. Total 2,03,546 nos. saplings have already been planted in different parts of area including plantation done by. Plantation details carried out is attached, However, the plantation will be done in vacant area of the waste dumps and alongside of haul road with consultation of State Forest Department. (Detail plantation plan) Necessary initiatives are being taken to install permanent water sprinklers alongside the plantation and haul roads (Total 50 nos. of sprinkler along the road side covering the length of 1.5 km). An undertaking for the same is furnished as Annexure:-4.	Plantation details Annexure -4 Attached
5.	To reduce dust, water sprinkling is to be carried out at a regular interval. The muddy pavements alongside the approach road may either be grassed or permanent pavements may be created in consultation with local administration.	For dust suppression, effective measures like mobile water tanker (20KL) have been engaged for water sprinkling on the Mines Approach Road, Mines Quarry and Transporting Road thrice a daily. The muddy pavement along the approach road has been grassed and being maintained.	Photo of mobile water sprinkler attached Annexure-6 Photograph of the road side grassing attached-7
6.	The Project Proponent should submit the DMG authenticated past production details since the inception of the mine	The Mahulsukha Iron & Manganese Ore mine is an auctioned mine transferred from Aryan mining and trading to M/s Patnaik Minerals Pvt. Ltd initially. Further, it has been transferred to M/s. Rungta Sons Pvt. Ltd. As per section 8B (2) of the MMDR Act 1957 read with rule 9A (4) of the Mineral (Other than atomic and Hydrocarbon Energy Minerals) Concession Rules, 2016, the State Government has issued vesting order and accordingly the mine has been commenced from 17.09.2020. Authenticated past production details is attached.	Authenticated past production report attached Annexure -8
7.	PP shall indicate the plan to mine the iron ore present in the dumps if any.	We shall explore the Iron Ore dumps both active and dead as soon as get the permission from State Mining Department.	
8.	The Committee also recommended to take-up community and skill development activities in nearby villages and conducting rapid study need based assessment to achieve specific SDGs with the help of the local community.	As per the records, public interaction was being done on regular basis and social welfare activities are done to meet the local communities. Further, basic amenities and infrastructure facilities like safe drinking water, dispensary, employment, supply of sports kits and training of skill development has been developed for better quality of life for the people residing nearby villages. Details of skill development activities planned and already carried out is attached. We shall relay these activities further.	Detail skill development programme Annexure -9

9.	The Project Proponent should undertake Air and Noise quality monitoring at sensitive receptors and its quarterly review.	The undertaking is given in Annexure-5.										
10.	Strict compliance to Approved mining plan to be showcased through report annually	We are complying and do hereby undertake to comply all conditions as per the approved mining plan.										
11.	Plantations and social activity reports be submitted annually to IRO, Bhubaneswar of the Ministry	Plantation details (Name of local Species planted, Nos. of saplings planted during the reporting year, Survival Rate during the reporting year, Cumulative plantation, Cumulative Survival Rate) and social activity report will be half yearly to IRO, Bhubaneswar of the Ministry along with the half yearly compliance report of the proposed EC.		Plantation details attached as Annexure-4								
12.	Project Proponent should put up permanent sprinklers alongside the haul roads and programme it such that water is sprinkled at regular interval for better dust suppression	Now, we are restricting our mining operation with production 40000 MT per annum of manganese ore. Mobile water tanker with 20KL capacity has been engaged for water sprinkling at a regular interval (thrice a daily) for dust suppression. To install permanent sprinklers alongside the haul roads, The proposed plan fo0r installation of static sprinkler by the previous lessee as per details below will be implemented. <table><tr><th>Location</th><th>No of Sprinklers</th></tr><tr><td>Along the DMF road</td><td>40 Nos</td></tr><tr><td>Near the Dump</td><td>10 nos</td></tr><tr><td>Along the internal haul road</td><td>50 nos</td></tr></table>		Location	No of Sprinklers	Along the DMF road	40 Nos	Near the Dump	10 nos	Along the internal haul road	50 nos	
Location	No of Sprinklers											
Along the DMF road	40 Nos											
Near the Dump	10 nos											
Along the internal haul road	50 nos											
13.	Project proponent shall construct the culvert for the nalas.	As per the proposal there will be two no's of culverts to be constructed out of which one culvert has already been constructed/operated and other is under the process of construction.		Photo attached Annexure- 11								
14.	Project Proponent needs to submit stage 1 FC for the entire Forest Area	We have initiated application for Foerest clearance for the entire forest area involved in the lease.										
15.	The project proponent needs to undertake the carrying capacity of the existing road for carrying its ore to the final processing site	We hereby undertaking that the carrying capacity of the road connecting the lease area to the processing unit will be sufficient to carry the additional transportation load due to proposed mining operation. Further the lessee with the district administration will take the responsibility of the maintenance of the road.		Carrying capacity study report for existing road attached Annexure -12								
16.	The Project proponent was not able to answer most of the queries of the committee; accordingly, project proponent is advised to engage necessary technical manpower who may provide the	The General Manager and the mines manager have been authorised to answer all information related to mining by the regulatory authority.										

	information as and when sought by the regulatory authority.		
17.	The Project Proponent needs to provide the KML of the un-diverted forest land inside mine lease area clearing highlighting their boundaries along with coordinates	Attached	
18.	The project Proponent must provide safety equipments to its employees who are working in the mine lease area. No one should be allowed without their protective gear to work within the mine.	Adequate safety equipment's are being provided to the miners engaged in the mining area. It is also ensured that they will use the same while working. The employees are also given regular awareness training on Safety and Health aspect.	Photograph of Workmen with Safety equipments attached (Annexure -13)
19.	The Project Proponent shall not exceed the production limit without any prior Environment Clearance	This is being strictly complied by the lessee.	
20.	The Project Proponent shall store and stack iron ore if any found during its mining	Agreed, during the mining activities, if any Iron ore found, will be stored, and stacked separately for doing the needful.	
21.	The Project Proponent should undertake plantation over dumps to stabilize them for preventing landslides.	Gap plantation by native species has been raised around dump areas, reclaimed areas, mine benches and along the roads with native trees has been encouraged for plantation. The Inactive dump slopes are vegetated with native species. In critical areas, use of geo textiles is being undertaken for stabilization of dumps. The practice will be continued.	New plantation on the dump Photograph attached Annexure-14.

Sub: Implementation of Site Specific Wildlife Conservation Plan.

Sir,

I am directed to invite a reference to your OSWAS file bearing No.CWLW-FDWC-MISC-0028-2021 on the subject cited above and to say that the draft revised guidelines for preparation of Site Specific Wildlife Conservation Plan submitted by you has been approved by Govt.

A copy of the approved revised guidelines for preparation of Site Specific Wildlife Conservation Plan is enclosed for kind information and necessary action.

Yours faithfully,

13/9/2021
Special Secretary to Government

REVISED GUIDELINES FOR PREPARATION OF SITE-SPECIFIC WILDLIFE CONSERVATION PLAN

INTRODUCTION- During course of establishment of various developmental projects or expansion of existing projects a condition to prepare Site Specific Wildlife Conservation Plan (SSWLCP) is imposed by Government of India/State Government. This condition is imposed as part of Forest Land diversion clearance or Environmental Clearance. Aim and objective of this condition is to safeguard flora and fauna of the project area as well as in the impact area of the project by taking measures to mitigate adverse impacts of the project. Impact area is considered as area covering 10 km radius of the project.

Guidelines for Preparation of Site-Specific Wildlife Conservation Plan-

Guidelines for preparation of SSWLCP have been issued from time to time by office of PCCF Wildlife and Chief Wildlife Warden. Presently guidelines issued in the year 2015 are in operation. Basing on feedback from various stakeholders' revision of these guidelines was under active consideration. To streamline the process further and to rationalize the time taken for its preparation the following guidelines shall be followed from the date of issue of these guidelines.

Revised Guidelines-

1. Project Impact Area shall continue to be an area of 10 km radius from the project. However, in case of overlapping of impact area of a new project with impact area of existing project then this can be increased on the sides of non-overlap. Normally, impact area of two projects shall not overlap. In case, it is unavoidable, it shall be categorically mentioned while sending the proposal to PCCF WL and CWLW. Activities suggested in the overlapping area should be decided carefully to avoid any duplication.
2. In case of impact area falling in more than one division, DFO of the division having maximum area shall be the nodal DFO and shall co-ordinate and compile the SSWLCP for various divisions as proposed by them.
3. Duration of the plan shall be for 10 years.
4. In case of Forest Land diversion cases as per Forest Conservation Act, 1980 and rules, on receipt of proposal in Form-I, DFO concerned make a field visit to the area for assessing the condition of forest in the area, vulnerability of the forest area for erosion and status of presence of any Rare/Endangered/Unique species of flora and fauna. Based on such field visits, details are provided in Form-II by the DFO with his recommendations. It is stipulated that at the time of site inspection by the DFO, along with inspection of forest area to be diverted, impact area of the project (10 km radius of the project or as the case may be) shall also be inspected. Such inspection shall be aimed at assessing the presence of rare, endangered flora and fauna, movement patterns of mega fauna in the area. Impacts of the project on flora and fauna and mitigative measures which need to be put in place.

of linear projects animal passage plan shall be given due importance. Crossing various faunal species should be assessed properly and locations and types of

interventions required should be decided as per requirement jointly with UA and in consultation with RCCF and should be enclosed with joint signature of DFO and UA. These details shall be mentioned in the appropriate section of form-II(7xi) either in the form itself or as an annexure to the form. Recommendations of DFO shall also specifically mention his views about need of SSWLCP for the project.

5. Such details along with a copy of form no I & II shall be sent to PCCF WL and CWLW at the time of forwarding of the proposal. Concerned RCCF, based on his site inspection or otherwise, if has additional points or disagreement with observations of DFO, can communicate the same to PCCF WL and CWLW for his consideration. In case, no such communication is received from RCCF at the time of forwarding of the proposal by him then it will be presumed that RCCF agrees with the observations and recommendations of the DFO.
6. Based on the inputs received from DFO and RCCF (if any) and as per information available with him, PCCF WL and CWLW shall give his views to Government of Odisha in F, E & CC department for taking decision about necessity or otherwise of the SSWLCP for the project.
7. In case, the condition for preparation of SSWLCP is imposed by Government of India/State Government, then the concerned DFO on the basis of his recommendations at the time of forwarding the proposal shall prepare the SSWLCP. For this purpose, mitigative measures suggested earlier need to be detailed and their financial implications shall be worked out. The animal passage related structures with their exact locations and dimensions shall be mentioned in the plan and the same will be executed by the User Agency. No financial cost needs to be indicated or realized from User Agency (UA) for the purpose of such structures for animal passage. Other than infrastructural items and items to be provided in kind, all funds required for implementation of SSWLCP shall be deposited by UA in CAMPA funds as per rules.
8. Indicative format for preparation of SSWLCP is enclosed as ANNEXURE.
9. Maximum time allowed to DFO for preparation of such plan shall be two weeks (one additional week's time to nodal DFO is allowed in case impact area falls in more than one division). DFO will send a copy of such plan to PCCF WL and CWLW and a copy is to be marked to RCCF and UA.
10. PCCF WL and CWLW shall approve such plan within two weeks of its receipt. In case it is felt necessary a meeting with UA, DFO and RCCF can be called by PCCF WLL and CWLW to finalize the plan. A copy of approved plan shall be sent to all concerned.
11. In case of preparation of SSWLCP under conditions imposed by EC, same procedure *mutatis mutandis* shall be followed

As in this case DFO concerned shall not have the benefit of previous site inspection etc. therefore in such cases time allowed to DFO is four weeks instead of two weeks. In case of such projects where forest land diversion is not involved, funds cannot be deposited in CAMPA A/c. In such cases at the time of submission of SSWLCP, DFO will submit a proposal to deposit funds in the A/C of "The Wildlife Society of Odisha" or other such account. Accordingly, PCCF WL and CWLW will submit proposal to Government for permission to deposit such funds.

12. INDICATIVE FINANCIAL LIMITS- Excluding the cost of underpass/overpass or other such structures related to passage of wild animals following will be the indicative financial limits for the prescriptions of such SSWLCP.

- a) For projects with total cost of Rs. 1000 crore or more—up to 2% of the project cost
- b) For projects with total cost of more than Rs 500 crores but less than Rs. 1000 crore —up to 3% of the project cost or Rs 20 crore whichever is less
- c) For projects with total cost of more than Rs 100 crores but less than Rs.500 crores —up to 4% of the project cost or Rs 15 crore whichever is less
- d) For projects up to Rs 100 crore- up to 5% of the total project cost or Rs 4 crore whichever is less.

These are indicative maximum limits and are exclusive of infrastructural interventions like underpass/overpass to be constructed by UA.

ANNEXURE- SUGGESTED STRUCTURE OF SSWLCP

Chapter-I Introduction- It shall cover brief description of the project, its cost, location (beat, section and range in addition to distt, block GP etc), Nature and extent of land required. Conditions imposed in Stage -I or EC regarding SSWLCP.

Chapter-II- Project and Impact Area- Description of project area and its impact area covering location, land use, human habitations, flora, fauna, forests, other habitats and movement patterns of the megafauna, Wildlife corridors, HWC details in the area. Other projects or their impact area in the impact area of the project proposed.

Chapter-III- Probable Impacts of the Project on Flora and Fauna- Under this likely impacts of project and ancillary activities on flora and fauna and on movement of mega fauna shall be discussed.

Chapter IV- Mitigation Measures Required- In this mitigation measures required need to be detailed to counter the adverse impacts of the project along with its financial implication.

Chapter-IV A- Animal Passage Plan- In case of linear projects and other projects affecting movement of wildlife species the details of structures and their locations should be mentioned as per prescriptions of "Eco Friendly Measures to Mitigate Impacts of Linear Infrastructure on Wildlife" issued by Government of India.

Chapter V- Financial Implications and Monitoring- Total financial implications of proposals given and cash flow statement for 10 years (year wise) need to be given here. Also monitoring and evaluation and interim review provisions shall be mentioned.

Chapter-VI- Maps and Annexures- A topo sheet map 1:50000 scale showing project

area, Impact area, location of underpass/overpass, movement of megafauna, location of nearby Protected Areas, Wildlife Corridors etc need to be enclosed. In case of overlap of impact area with other projects an additional map showing location of existing project and its impact area and location of new project and its impact area shall be enclosed. Copy of Stage-I clearance or/and Environmental Clearance shall be annexed.

ANNEXURE 3: PHOTOGRAPH OF GARPAND DRAIN (NEWLY CONSTRUCTED)

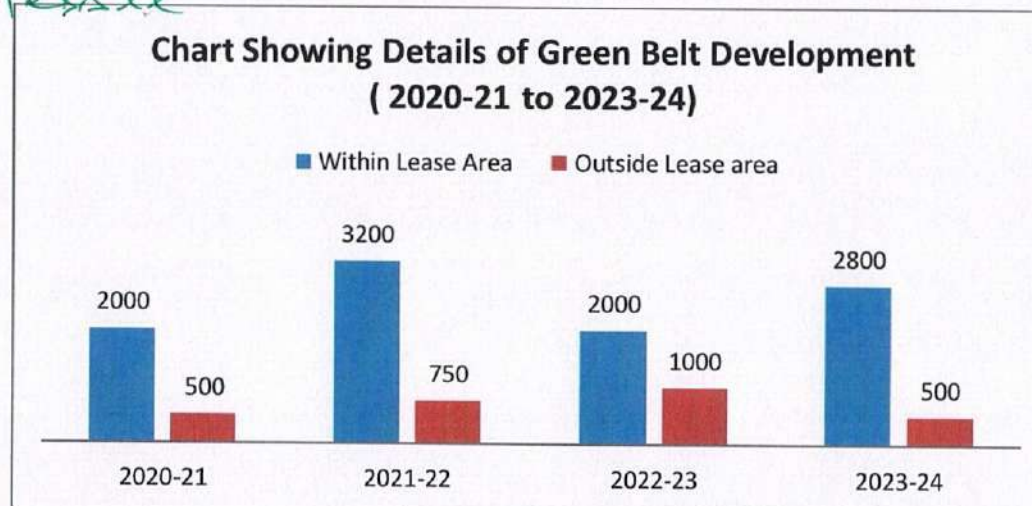

**Plantation Details of Mahulsukha Iron & Manganese Ore Mines,
M/s Patnaik Minerals Pvt. Ltd. (2020-21 to 2023-24)**

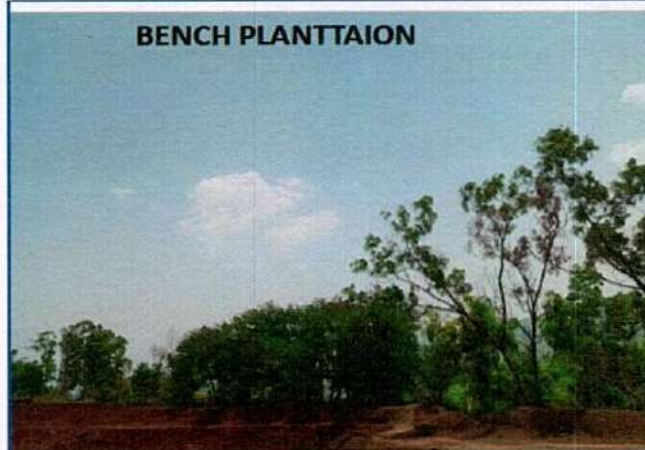

Year	Total Nos. of Saplings Planted	Nos. of Saplings Planted within the Lease area	Nos. of saplings planted Outside/ Distribution	Survival Rate % within lease area	Survival Rate % outside lease area	Name of Species Planted	Name of Species Distributed to Local People
2020-21	2,500	2,000	500	82.80	85.00	<i>Shorea robusta, Dalbergia sissoo, Cassia tora, Azadirachta indica, Alstonia scholaris, Gliricidia sepium, Swietenia mahogani, Mangifera indica, Gmelina arborea, Psidium guajava, Phyllanthus emblica, Terminalia arjuna, Terminalia asana, Syzygium cumini, Pongamia pinnata, Royal poinciana, Madhuca indica, etc</i>	<i>Anacardium occidentale, Psidium guajava, Mangifera indica, Artocarpus heterophyllus, Dillenia indica, etc.</i>
2021-22	3,950	3,200	750	71.25	80.00		
2022-23	3,000	2,000	1,000	82.00	88.00		
2023-24	3,300	2,800	500	92.00	95.00		
Total	12,750	10,000	2,750	82.01	87.00		

Note : 1. Previously, Ex-Lessee have already been planted 1,96,746 nos. of saplings in different location within the Lease area.

Deputy Director of Mines, Koira.

**SKILL DEVELOPMENT PROGRAMME AT MAHULSUKHA IRON &
MANGANESE ORE MINES:**

Public interaction is being done on regular basis and social welfare activities are done to meet the local communities. Further, basic amenities and infrastructure facilities like safe drinking water, dispensary, employment, supply of sports kits and training of skill development has been developed for better quality of life of the people residing nearby villages.

Vocational Training Programme:

Vocational education and training is mandatory in mining. It is not just for the mining trades but more importantly, safety training that demands great attention.

- Vocational Training Programme being conducted by EZMA in our Mines.
- There are 48 nos. of mine workers from Mahulsukha Mines have been participated and also certified.

Skill Development towards Nearby Villagers:

Developing skills of informal sector workers has emerged as a key area of intervention to improve the quality of life.

- Empowerment among local women towards their self dependent by distribution sewing machines.
- Encouragement of Local Youth : By distribution of Sports Kits and conducting foot ball tournament among near by villages.

**PROGRESSIVE COMPLIANCE REPORT OF THE PROJECT MAHULSUKHA MANGANESE ORE
MINES OF M/S PATNAIK MINERALS PVT. LTD. ON IMPLEMENTATION OF THE
ENVIRONMENT MEASURES FOR THE PERIOD
FROM DATED APRIL 2023 TO SEPTMEBR 2023 AS PER THE MINISTRY'S CLEARANCE
LETTER NO. J-11015/412/2005-IA.II (M), DATED : 05.04.2007**

Sl. No.	Specific Conditions	Compliances
i.	<i>All the conditions stipulated by the State Pollution Control Board in their Consent to establish should be effectively implemented.</i>	The stipulations of the CTO are being effectively implemented at our mine.
ii.	<i>The environmental clearance is subject to grant of forestry clearance. The project proponent shall obtain necessary forestry clearance under the Forest (Conservation) Act, 1980 for entire area of 340.332 ha forest land before starting mining operation in that area. Till such time mining activities shall be restricted to an area of 227.0 ha forestland for which forestry clearance has been obtained from the Ministry of Environment and Forests on 16.02.2005.</i>	As per Vesting Order issued by Steel and Mines Department, Govt. of Odisha vide Order No. 2076/SM/, Dated 07.03.2022 (Annexure – I). Previously, the area of 227.00 has been diverted in-favour of M/s AMTC (Annexure – II). We are doing all types of mining activities within the diverted area. Apart from this, we have applied for transfers of FC (Annexure- III) vide our Ltr. No. PMPL/DFO/2022-23/014, Dt: 04.04.2022 as per the Guideline Issued by MoEF & CC vide File No. 11-112/2021-FC (Pt) dated: 07.07.2021 (Annexure – IV). We have also applied for EC vide Letter No.: IA/OR/MIN/180360/2020 for Excavation of 1.5 MT/Annum of Manganese Ore and 1.00 MT/Annum of Iron Ore. We have completed all formalities in all respects and pending with MoEF & CC for final approval.
iii.	<i>The mining operations shall not intersect groundwater table, Prior approval of the Ministry of Environment & Forests and Central Ground Water Authority shall be obtained for mining below water table.</i>	At present, the working zone is at the level of 540 mRL however, the level of Groundwater is at 470 mRL. Hence, there is no chance of intersecting the ground water level.
iv.	<i>The project proponent shall ensure that no natural watercourse shall be obstructed due to any mining operations.</i>	The mining lease is hilly and undulated terrain and the elevation is ranging from 547 mRL to 604 mRL. The project has carried out a study on presence of natural spring/seasonal nallah in the lease area and based on findings, protection measures have been taken to control the flow of sediments in to Nandagira nallah which finally drained to Bhutuda Nallah, 1 st order streams. In this regard, we are maintaining the previously constructed check weirs and check dams.
v.	<i>Top soil, if any, shall be stacked properly with proper slope with adequate measures and should be used for reclamation and rehabilitation of mined out areas.</i>	There is no top soil has been generated at present and if there will be generation of top soil ,the adequate measures shall be followed for utilization of Top soil.
vi.	<i>The already generated over burden stacked at earmarked dump site(s) should be scientifically vegetated with suitable native</i>	After excavation, the over burden generated and will be stacked at earmarked dump site and vegetated scientifically by plantation of native

	<i>species to prevent erosion and surface runoff. The waste likely to be generated in future shall be backfilled. The maximum height of the dump should not exceed 15 m having 3 terraces of 5 m each. The overall slope of the dump shall not exceed 28°. In critical areas, use of geo textiles shall be undertaken for stabilization of the dump. Monitoring and management of rehabilitated areas should continue until the vegetation becomes self-sustaining. Compliance status should be submitted to the Ministry of Environment & Forests and its Regional Office, Bhubaneswar on six monthly basis.</i>	species like Chakunda, Gambhar, Sissoo, Guava, Amla, Simarua etc. to check the soil erosion and surface runoff. The overall slope of the dump will not exceed 28°. In critical areas the dump will be stabilized by geo-textile coir mating.  Coir-mating and Grass seeding
vii.	<i>Catch drains and siltation ponds of appropriate size should be constructed to arrest silt and sediment flows from mine working, OB and mineral dumps. The water so collected should be utilized for watering the mine area, roads, green belt development etc. The drains should be regularly de-silted particularly after monsoon and maintained properly.</i> <i>Garland drain (size, gradient and length) shall be constructed for mine pit, OB and mineral dumps and sump capacity should be designed keeping 50% safety margin over and above peak sudden rainfall (based on 50 years data) and maximum discharge in the area adjoining the mine site. Sump capacity should also provide adequate retention period to allow proper settling of silt material. Sedimentation pits should be constructed at the corners of the garland drains and de-silted at regular intervals.</i>	There are perennial water courses near the working zone. To prevent flow of fine particles from OB/Waste dumps through surface runoff, check dams, parapet walls along with garland drains have been constructed. The Runoff water is channelized through constructed garland drains, allowed settling of silts at the settling ponds through the use of flocculants before discharge to nearby water courses. The settling ponds are de-silted at regular intervals. The stored water in the settling ponds are utilized for green belt development.
viii.	<i>Dimension of the retaining wall at the toe of dumps and OB benches within the mine to check run-off and siltation should be based on the rain fall data.</i>	Retaining wall has been constructed around the toe wall of OB dumps to check runoffs. The details of location and length of the retaining wall has been furnished below:

Retaining Wall at Dump-4

		 Construction of Retaining Wall
ix.	<i>Plantation shall be raised in an area of 366.784 ha including a green belt of adequate width by planting the native species around ML area, OB dumps, roads, reclaimed area etc. in consultation with the local DFO / Agriculture Department. The density of the trees should be around 2500 plants per ha.</i>	Over burden generated during course of time will be stabilized by Massive plantation, Geo-textile Coir mat, Grass seedling, etc.  Massive Plantation At Mines Office Premises   Plantation over Dump-4
x.	<i>The project authority should implement suitable conservation measures to augment ground water resources in the area in consultation with the Regional Director, Central Ground Water Board.</i>	Rain water harvesting pond with provision of ground water recharge has been developed for conservation and augmenting ground water resources.
xi.	<i>Regular monitoring of ground water level and quality should be carried out by establishing a network of existing wells and constructing new piezometers during the mining operation. The monitoring should be carried out four times in a year – pre-monsoon (April – May), monsoon (August), post-monsoon (November) and winter (January) and the data thus collected</i>	Ground water quality and fluctuation test have been conducted four times in a year – pre-monsoon, post-monsoon and winter through M/s Kalyani Laboratory (P) Ltd., Bhubaneswar, Odisha and results are being submitted to respective offices. (Analysis of Ground Water Report from April 2023 to September – 2023 is annexed in Annexure – V)

	<i>may be sent regularly to the Ministry of Environment and Forests, its Regional Office, Bhubaneswar, Central Ground Water Authority and Regional Director, Central Ground Water Board.</i>	
xii.	<i>Permission from the competent authority should be obtained for drawl of water from Bhutuda nallah and ground water, if any.</i>	We have obtained NOC from Central Ground Water Authority vide NOC No. CGWA/NOC/MIN/ORIG/2022/15067, Dated: 09.04.2022 (Annexure – VI). Subsequently, We are under process for permission from the Office of Executive Engineer, Sundergarh for drawl of water from Bhutuda Nallah. We are drawing water from ground water source for domestic use.
xiii.	<i>Suitable Rain water harvesting measures on long term basis shall be planned and implemented in consultation with Regional Director, CGWB.</i>	Four perennial nallahs flow within the ML area in a dendritic pattern providing plenty of water. Apart from these we are in the process of adopting roof top rain water harvesting in consultation with the Regional Director, CGWB.
xiv.	<i>Vehicular emission should be kept under control and regularly monitored. Measures shall be taken for maintenance of vehicles used in mining operations and in transportation of mineral. Then vehicles should be covered with a tarpaulin and shall not be overloaded.</i>	Vehicles used in mining operations and mineral transportations are properly maintained and regularly monitored and the vehicular emissions are found to under control. (PUC of some vehicles are annexed in Annexure – VII)
xv.	<i>Blasting operation should be carried out only during the day time. Controlled Blasting should be practiced. The mitigative measures for control of ground vibrations and so arrest fly rocks and boulders should be implemented.</i>	We have adopted suitable blasting is being practice at our mines. Controlled blasting is being carried out by restriction of explosive charge in the holes. To control ground vibrations and to arrest fly rocks, advanced system is used for blasting at Mines.
xvi.	<i>Drills shall either be operated with dust extractors or entrapped with water injection system.</i>	We have adopted wet drilling system to control the emission of dust at source.
xvii.	<i>Digital processing of the entire lease area using remote sensing technique should be done regularly once in three years for monitoring land use pattern and report submitted to Ministry of Environment and Forests and its Regional Office, Bhubaneswar.</i>	Digital processing of the entire lease area using remote sensing technique has been done by ORSAC, Bhubaneswar. As lessee has changed, so it is under process for the same.
xviii.	<i>Consent to operate should be obtained from SPCB, prior to start of production from the mine.</i>	We have obtained the CTO vide Order No. 4940/IND-I-CON-2254, DT: 28.03.2023. (Annexure – VIII)
xix.	<i>Sewage Treatment Plant should be installed for the colony. ETP should also be provided for workshop and waste water generated during mining operation.</i>	There is provision of Sewage Treatment Plant for colony. Domestic effluents are being passed through soak pits and septic tanks with no discharge to outside. We have no permanent workshop at the mine site and there is no waste water generating during mining operation.
xx.	<i>The project proponent shall take all precautionary measures during mining</i>	We have all precautionary measures during mining operation for conservation and protection

	<i>operation for conservation of endangered fauna such as elephant, sloth bear, spotted deer, leopard, Indian Python etc. appeared in the study area. Action Plan for conservation of flora and fauna shall be prepared and implemented in consultation with the State Forest and Wildlife Management Plan and/or Regional Wildlife Management Plan of the State Government shall be made and the funds so allocated shall be included in the project cost. Copy of Action Plan may be submitted to the Ministry and its Regional Office, Bhubaneswar within 3 months.</i>	of endangered fauna. Action plan has been prepared for conservation of flora and fauna in the forest area in consultation with local State Forest and Wildlife Department. Wildlife conservation plan has already been submitted to Divisional Forest Office, Bonai Forest Division having our Letter no. PMPL/DFO/2022-23/287, Dated 18/07/2022. (Copy annexed as Annexure – IX)
xxi.	<i>A final mine closure plan along with details of Corpus fund should be submitted to the Ministry of Environment & Forests 5 years in advance of final mine closure for approved.</i>	The same will be followed
	GENERAL CONDITIONS	
i.	<i>No change in mining technology and scope of working should be made without prior approval of the Ministry of Environment & Forests.</i>	The same has been strictly followed up.
ii.	<i>No change in the calendar plan including excavation, quantum of mineral manganese ore and waste should be made.</i>	The same has been followed.
iii.	<i>Four ambient air quality-monitoring stations should be established in the core zone as well as in the buffer zone for RPM, SPM, SO₂ & NO_x monitoring. Location of the stations should be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets and frequency of monitoring should be undertaken in consultation with the State Pollution Control Board.</i>	We are under process of establishment of Ambient Air Quality monitoring Stations.
iv.	<i>Data on ambient air quality (RPM, SPM, SO₂ & NO_x) should be regularly submitted to the Ministry including its Regional office located at Bhubaneshwar and the State Pollution Control Board / Central Pollution Control Board once in six months.</i>	Data on ambient air quality (RPM, SPM, SO ₂ & NO _x) regularly submitted to the Ministry including its Regional office located at Bhubaneshwar and the State Pollution Control Board / Central Pollution Control Board once in six months. (Copy Enclosed from the period from April 2023 to September - 2023 as Annexure – X)
v.	<i>Fugitive dust emissions from all the sources should be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points should be provided and properly maintained.</i>	Fugitive dust emissions from all the sources are being controlled regularly by Water spraying arrangement on haul roads, loading and unloading and at transfer points is being provided and properly maintained. (Copy Enclosed as Annexure – X)
vi.	<i>Measures should be taken for control of noise levels below 85 dBA in the work</i>	Measures are taken for control of noise levels below 85 dBA in the work environment.

	<i>environment. Workers engaged in operations of HEMM, etc. should be provided with ear plugs/ muffs.</i>	Workers engaged in operations of HEMM, etc. by providing with ear plugs/ muffs. Annexure – XI (April 2023 to September 2023)
vii.	Industrial waste water (workshop and waste water from the mine) should be properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19th May, 1993 and 31st December, 1993 or as amended from time to time. Oil and grease trap should be installed before discharge of workshop effluents.	Industrial waste water (workshop and waste water from the mine) is being properly collected, treated so as to conform to the standards prescribed under GSR 422 (E) dated 19 th May, 1993 and 31 st December, 1993 or as amended from time to time. Oil and grease trap has been installed before discharge of workshop effluents.
viii.	<i>Personnel working in dusty areas should wear protective respiratory devices and they should also be provided with adequate training, and information on safety and health aspects. Occupational health surveillance program of the workers should be undertaken periodically to observe any contractions due to exposure to dust and take corrective measures, if needed.</i>	Personnel working in dusty areas are following precautionary measures by using protective respiratory devices and adequate training and information on safety and health aspects are provided to them. Occupational health surveillance program of the workers are also being conducted periodically to observe any contractions due to exposure to dust and take corrective measures.
ix.	<i>A separate environmental management cell with suitable qualified personnel should be set-up under the control of a Senior Executive, who will report directly to the Head of the Organization.</i>	A separate environmental management cell with suitable qualified personnel has been set-up under the control of a Senior Executive and report directly to the Head of the Organization.
x.	<i>The funds earmarked for environmental protection measures should be kept in separate account and should not be diverted for other purpose. Year wise expenditure should be reported to the Ministry and its Regional Office located at Bhubaneswar.</i>	The funds earmarked for environmental protection. measures should be kept in separate account and should not be diverted for other purpose. Year wise expenditure should be reported to the Ministry and its Regional Office located at Bhubaneswar.
xi.	<i>The project authorities should inform to the Regional Office located at Bhubaneswar regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.</i>	This will be taken care of.
xii.	<i>The Regional Office of this Ministry located at Bhubaneswar shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the required data/ information / monitoring reports.</i>	We are extending full cooperation in all aspects to the officers of the Regional Office of the Ministry visiting our mine.
xiii.	<i>The project proponent shall submit six monthly report on the status of the implementation of the stipulated environmental safeguards to the Ministry</i>	Six monthly status report are being submitted to the respective officers.

	<i>of Environment and Forests, its Regional Office, Bhubaneswar, Central Pollution Control Board and State Pollution Control Board.</i>	
xiv.	<i>A copy of clearance letter will be marked to concerned Panchayat / local NGO, if any, from whom suggestion / representation has been received while processing the proposal.</i>	After issuing the clearance the same will be marked to concerned Panchayat / local NGO
xv.	<i>State Pollution Control Board should display a copy of the clearance letter at the Regional Office, District Industry Centre and Collector's office/ Tehsildar's Office for 30 days.</i>	Compiled from State Pollution Control Board, Bhubaneswar.
xvi.	<i>The project authorities should advertise at least in two local newspapers widely circulated, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the State Pollution Control Board and also at web site of the Ministry of Environment and Forests at http://envfor.nic.in and a copy of the same should be forwarded to the Regional Office of this Ministry located at Bhubaneswar.</i>	After issuing of environmental clearance letter, the user agency will follow the same.

1. MoEF (F.C. Division), Gol accorded (Stage – II) approvals over an area of 227.00 ha. in village (s) Randa, Rantha and Bhutuda in Sundergarh District, Odisha vide Order No. F.No. 8-93/2004-FC, on dated 16th Feb.2005.
 2. NPV deposited by Previous Lessee, amounting to Rs. 27,56,20,990/- (Twenty seven crore fifty six lakhs twenty thousand nine hundred and ninety only) for the entire forest area over 377.563 ha. @ Rs. 7.30 lakhs/ha.
 3. On insistence of State Forest Department on their demand notice no. 3987/6F dated 08.04.2020, we have also deposited NPV amounting to Rs. 27,60,32,250/- over an area of 368.043 ha of forest land.
 4. Submission of Diversion Proposal over an area of 382.437 ha. vide Proposal No. FP/OR/MIN/122038/2021, Dated 27.04.2021 (**Annexure-I**)
 5. DFO, Bonai, in his EDS on 05.05.2021 and his Letter No. 4076/6F (Mg) Dated 05.05.2021, we have submitted 6 (Six) copies of Proposals (in hand safe to the O/o DFO, Bonai vide our Letter No. PMPL/DFO/21-22/127, dated 21.05.2021 (Copy Enclosed as **Annexure – II**).
 6. Department of Steel and Mines, Govt. of Odisha, vide his Order No. (Vesting) 4246/SM, Dated 30.05.2020 has been vested all the valid Rights, Approvals, Clearances, Licenses and the like vested of the previous lessee for a period of 2 years from the date of execution of lease deed or till the getting fresh approvals, clearances, Licenses, Permits and the like whichever is earlier. (Copy enclosed as **Annexure – III**).
 7. MoEF & CC, Govt. of India vide File No. FC-11/112/2020-FC(Pt), Dated: 07.07.2021 issued a guideline under FC Act'1980 for transfer approvals granted under the FC Act'1980 to mining lease allotted to New Lessee as per the provisions of the Mines & Minerals (Development and Regulation) Amendment Act,2021. **Annexure- IV**

8. DFO, Bonai, vide his Letter No. 8874/6F-(Mg.), Dt: 25.10.2021 with an enclosure Vide Memo No. 17480/95 (Misc.) 47/2019, Dt. 11.10.2021 of Addl. Principal Chief Conservator of Forests, Forest Diversion & Nodal Officer, FC Act, O/o the PCCF, Bhubaneswar for onward processing of approvals granted under FC Act to the New Lessee. **Annexure- V**
9. Accordingly, we have applied all statutory body for transfer of the same as follows:
- Transfer of Forest Clearance
 - DFO, Bonai vide his Letter No. 8978, Dt: 28.10.2021 asked for compliance of Stage – II of the Ex-Lessee (M/s AMTC). The Stage – II compliance report is annexed herewith as **Annexure –VI**.
10. As demanded by DFO, Bonai vide Letter No. 6753/6F-(Mg.), Dt: 27.08.2021 for transfer fees of approvals granted under FC Act/1980.
- We have deposited to amounting Rs. 1,00,000/- (One Lakh only), vide Challan Ref. No. N327211722825977, Dt: 23.11.2021. The same is enclosed herewith as **Annexure – VII**.
11. As per File no. FC-11-112/2020-FC(Pl.), Dt: 07.07.2021 of MoEF & CC, we have requested in our Letter no. PMPL/DFO/2022-23/14, Dt: 04.04.2022, for transfer of approvals along with all the compliances w.r.t. conditions stipulated in the Guidelines. The same is annexed in **Annexure –VIII**.

FORM - A

Form for seeking prior approval of Central Government under section 2 of the Forest(Conservation) Act, 1980 for
Diversion of fresh forest area

PART - I

(To be filled up by User Agency)

A. General Details

A-1. Project Details

(i). Proposal No. : FP/CR/WR/122038/2021

(ii). Name of Project for which Forest Land is required : Mahulsukha Iron and Manganes Ore Block
over an area of 390.317 Ha in village Randa, Rantha and Bhutuda under Bonai Sub-Division and
Lahuripada Tahasil of Sundergarh District, Odisha.

(iii). Short narrative of the proposal and Project/scheme for which the forest land is required :
Diversion of 382.437 ha of Forest Land under Section - 2 (ii) F.C. Act 1980 of Mahulsukha Iron & Mn.
Ore Mines of M/s Patnaik Minerals (P) Ltd. The mining lease over 390.317 ha PRF : 382.437 HA and 7.88
ha of Non-forest Land

(iv). State : Orissa

(v). Category of the Proposal : Mining

(vi). Shape of forest land proposed to be diverted : Linear

(vii). Estimated cost of the Project(Rupees in lacs) : 3505

(viii). Area of forest land proposed for diversion(in ha.): 382.437

(ix). Non-forest land required for this project(In ha.): 7.88

(x). Total period for which the forest land is proposed to be diverted(In years): 50

A-2. Details of User Agency

(i). Name : PATNAIK MINERALS PRIVATE LTD.

(ii). Address1 : AT/PO. BANETKALA, JOGA, KENDUJHAR, ODISHA, 758018

(iii). Address2 : NIL

GOVERNMENT OF ODISHA
STEEL AND MINES DEPARTMENT

TRANSFER VESTING ORDER

No. 514 /SM
SM-MC1-MC-0081-2023

Dated the 18th Jan, 2024

Whereas the Mahulsukha Iron & Manganese block over an area of 390.317 hec as per DGPS in Sundargarh District was held by M/s Aryan Mining & Trading Corporation Ltd. with validity up to 31.03.2020 and on expiry, granted through electronic auction and executed in favour of M/s Patnaik Minerals Private Limited for a period of fifty years with effect from 29.06.2020.

And whereas after issue of Letter of Intent in favour of the preferred bidder for grant of above mining block, all the valid right approvals, clearances, licenses and the like vested in the previous lessee are deemed to have vested in favour of the holder of the Letter of Intent on the same terms and conditions for a period of two years under section 8B(2) of MMDR Act, 1957 read with rule 9A(2) of MC Rules, 2016 vide vesting order No. 4246/SM, dated 30.05.2020 .

And whereas thereafter, consequent upon amendment of section 8B of MMDR Act & rule 9A of MC Rules, 2016 w.e.f. 28.03.2021 and 02.11.2021 respectively, all the valid rights, approvals, clearances, licenses and the like vested in the previous lessee in respect of the aforementioned mining block are deemed to have been vested and transferred in favour of the holder of the Letter of Intent on the same terms and conditions of every rights, approvals, clearances, licenses and the like which were vested with previous lessee till expiry or termination of mining lease vide order No-2076/SM, dated 07.03.2022 .

And whereas the Mahulsukha Iron & Manganese Mines over an area of 390.317 hec in Sundargarh District granted in favour of M/s Patnaik Minerals Private Limited has been duly transferred in favour of M/s Rungta Sons Private Limited u/s 12A(2) of MMDR Act read with rule 23(3) of MC Rules, 1960 vide Proceeding No.12975/SM dated 28.12.2023 and the transfer deed has also been registered and executed.

And whereas by virtue of above transfer under existing act and rules, the clearances which were earlier vested with the Lol holder (Transferer) shall also be required to be transferred and vested with the transferee for continuation of the mining operation.

NOW therefore, the undersigned being the Nodal Officer for State of Odisha having been appointed under the provisions of rule 9A(1) of the Minerals (Other than Atomic and Hydrocarbon Energy Mineral) Concession Rules, 2016, do hereby order that all the valid rights, approvals, clearances, licenses and the like vested in favour of M/s Patnaik Minerals Private Limited vide vesting order No. 4246/SM dated 30.05.2020 and order No-2076/SM dated 07.03.2022 till expiry or termination of mining lease are deemed to have been vested with M/s Rungta Sons Private Limited consequent upon transfer of the mining lease in favour of M/s Rungta Sons Private Limited u/s 12A(2) of MMDR Act read with rule 23(3) of MC Rules, 1960 vide Proceeding No.12975/SM dated 28.12.2023.

SM-MC1-MC-0081-2023/2/2024

Without prejudice to the generality of the provisions of section 8B(2) of the MMDR Act, 1957, the details of the valid rights, approvals, clearances, licenses, and the like held by the previous lessee and vested with M/s Patnaik Minerals Private Limited are given in the Annexure-I to earlier vesting order.

Government of Odisha
Steel and Mines Department

VESTING ORDER

No. 4246 /SM

Dated the 30th May 2020

IV(B)SM-23/2020

Whereas a mining lease of the following description, which was held by M/s Aryan Mining & Trading Corporation Ltd. (hereinafter referred to as the previous lessee) with validity period upto 31.03.2020 has been auctioned and M/s Patnaik Minerals (P) Ltd., has been declared as the preferred bidder of the said mine.

Description of the Mining Block

- Name of Mineral(s) – Iron & Manganese
- Name of Mining lease – Mahulsukha Iron & Mn Block.
- Address/location of mining lease - Village Randa, Rantha & Bhutuda under Lahunipada tahasil of Sundergarh district.
- Area of lease – 390.317 hecets (As per DGPS)/ 399.838 hecets(As per ROR).

And whereas, a letter of intent bearing no 3013/SM, dated 18.03.2020 has been issued in favour of the preferred bidder for grant of mining lease for the above mentioned mining block;

And whereas, in terms of section 8B(2) of the MMDR Act, 1957 read with rule 9A(4) of the Mineral (Other than Atomic and Hydrocarbon Energy Minerals) Concession Rules, 2016 [herein after called the Rules'2016], the holder of the letter of intent for the said mining block shall be deemed to have acquired all valid rights, approvals, clearances, licenses and the like vested with the previous lessee.

Now therefore, the undersigned being the Nodal Officer for the State of Odisha having been nominated under rule 9A(1) of the Mineral (Other than Atomic and Hydrocarbon Energy Minerals) Concession Rules, 2016 [herein after called the Rules,2016], do hereby, pursuant to the provisions contained in rule 9A(2) of the Rules,2016 order that all the valid rights, approvals, clearances, licenses and the like vested in the previous lessee in respect of the aforementioned mining block are deemed to have vested in favour of the holder of the letter of intent on the same terms and conditions of every rights, approvals, clearances, licenses, and the like which vested with previous lessee.

Without prejudice to the generality of the provisions of section 8B(2) of the MMDR Act, 1957, the details of the valid rights, approvals, clearances, licenses, and the like held by the previous lessee and vested in favour of the holder of the Letter of Intent are given in the Annexure-I to this order.

This vesting order is valid for a period of two years from the date of execution of lease deed or till the date of getting fresh approvals, clearances, licenses, permits, and the like, whichever is earlier

The Additional Chief Secretary (Forest)/Principal Secretary (Forest),
All State Governments/UT Administrations

Sub: Guidelines under Forest (Conservation) Act, 1980 for transfer of approvals granted under the Forest (Conservation) Act, 1980 to mining leases allotted to new lessee as per the provisions of the Mines and Minerals (Development and Regulation) Amendment Act, 2021 - reg.

Madam/Sir,

I am directed to refer to the Mines and Minerals (Development and Regulation) Amendment Act, 2021 which has been notified by the Central Government on 28.03.2021. Section 8B of the amended Act is reproduced below:

"provided that even after expiry or termination of lease and such rights, approvals, clearances, licenses and the like shall be transferred to, and vested; subject to the conditions provided under such laws; in the successful bidder of the mining lease selected through auction under the said Act. It has also been provided in the amendment Act that it shall be lawful for the new lessee to continue mining operations on the land till expiry or termination of mining lease granted to it, in which mining operations were being carried out by the previous lessee."

In light of the above provisions of the MMDR Amendment Act 2021, the matter related to the validity of the approvals granted under Forest (Conservation) Act, 1980 (FCA-1980) was examined in the Ministry, and with a view to align the provisions under the two Acts, it has been decided that transfer of approval under FCA-1980 in such mining leases may be considered subject to the following conditions:

- i. Complete compliance of such terms and conditions as stipulated in the approval granted previously under the FCA-1980, and rules and guidelines framed thereunder in respect of the concerned mining lease has been made. The non-compliance of conditions, if any, stipulated in the approval granted to the erstwhile agency under FCA-1980, which were required to be complied before handing over the forest land to such agency, shall be transferred as liabilities to the new allottee, and in such case, complete compliance of such conditions shall be made prior to handing over of forest land to the new allottee. For the remaining conditions, the new allottee will make an undertaking to comply with, before handing over of the forest land. It is clarified that in case of violation of any of the conditions which was done during the period of previous allottee and which constitutes an offence under the FCA-1980, the penal clauses will be invoked against the previous allottee only and not against the new allottee.

- ii. Approval under FCA-1980 was valid on the date of expiry of previous lease.
- iii. Mining operations will be restricted to the forest area for which approval under Section 2 (ii) of the FC Act, 1980 has been obtained by the erstwhile user agency. No non-forest use of such forest lands falling within the lease shall be allowed, for which approval under Section 2(ii) has not been obtained by the State Government. Mining in such areas may be allowed only after obtaining prior approval of the Central Government under Section 2 (ii) of the FCA-1980.
- iv. The State Government shall ensure that the amount of Net Present Value, Safety Zone Plantation and Compensatory Afforestation(CA), if not deposited earlier, has been deposited prior to handing over of the forest land to the new allottee. Also, in case the CA land has not been made available previously, the forest land shall be handed over to the new allottee only after the corresponding CA land has been accepted by the competent authority as per the extant procedures for acceptance of CA lands for a new proposal.
- v. Mining operations and other activities shall be carried out as per the land-use allowed in the approval under the FCA-1980. Any change in the land use on account of any valid reason shall be effected with the prior approval of the Central Government.
- vi. Reclamation of the mined out forest area in the whole lease area as per the approved Mining Plan shall be an obligatory condition for the new allottee.
- vii. Transfer fee, as prescribed in the relevant guidelines incorporated in the Handbook of Forest (Conservation) Act, 1980 shall be realized from the new allottee and deposited into the account of CAMPA of the State concerned.
- viii. Transfer of approvals to new agency may be accorded by the concerned State Government/UT Administration subject to fulfilment of conditions/provisions stipulated in the relevant guidelines of the Ministry.

This issues with the approval of the competent authority in the Ministry.

Yours faithfully,

Sd/-

Memo No. 17980/FF (Misc) 47/2019
Dated, Bhubaneswar the 11 October 2021

To

All Divisional Forest Officers (I & W.I.)

Subj:- Guidelines under Forest (Conservation) Act, 1980 for transfer of approvals granted under the Forest (Conservation) Act, 1980 to mining leases allotted to new lessee as per the provisions of the Mines and Minerals (Development and Regulation) Amendment Act, 2021-Procedure for processing of cases reg.
Ref:- Memo No. 12905/FE&CC, dated 27.07.2021 of FE & CC Department, Govt. of Odisha addressed to you.

Attention is invited to the above memo of Govt. of Odisha, FE & CC Department endorsing copy of the Govt. of India, MoEF & CC Letter F.No.FC- 11/112 2021-FC (PI) dated 07.07.2021 on the transfer of approvals under FC Act by the State Government. The procedure outlined below may be followed for processing of cases for transfer of approval granted under Forest (Conservation) Act to the new lessee.

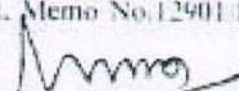

- i. The new allottee shall apply in a plain paper (offline mode) along with the item-wise compliance report to Stage-II stipulations to concerned DFO. In case any stipulation is not yet complied with, the new allottee shall submit an undertaking to the effect that the complete compliance shall be submitted before handing over of the forest land to the new lessee.
- ii. The DFO will provide the records available regarding the diversion of the forest land to the new allottee, if sought for.
- iii. The new allottee shall do the demarcation of the forest land diverted and post the permanent pillars in the field if not done earlier. The DGPS map should be submitted subsequently before handing over of the land, if not done previously. The DGPS survey map shall be final with reference to extent of area diverted and land use pattern.

- 153
- iv. DFO will conduct the field verification, preferably along with Mining Officer and Revenue Authorities to assess the current land use pattern and violation, if any. Mining operation shall be restricted to diverted forest land only.
 - v. DFO shall verify and report on the status of the Compensatory Afforestation (CA) including PF notification. All cases where CA land has been made available and money deposited should be recommended, even if plantation has not been carried out due to any reasons. In case where CA land has not been made available previously, the case should be recommended with appropriate CA Scheme as per extant guidelines. If part CA is complied, the case may be recommended with an undertaking for full compliance subsequently.
 - vi. DFO shall raise demand for the compensatory levies (NPV, CA, ACA, Penal CA, etc.) if not paid earlier, and ensure deposition of the same in CAMPA account. The NPV amount should be calculated at current rate deducting the NPV amount paid previously by the old lessee and the new allottee. No fresh CA should be demanded if CA has been paid earlier. A certificate to this effect mentioning item-wise deposition of compensatory levies should be furnished by the DFO.
 - vii. If there is any violation by the previous allottee, show cause notice for penal clauses are to be invoked against the old lessee before processing the new FC transfer.
 - viii. DFO to complete the entire process of field verification of the Stage II compliance and forward his/ her report to RCCF within a fortnight from the date of submission of application by the new Allottee.
 - ix. RCCF to send the compliance report to Nodal Officer within three days of the receipt of the proposal from the DFO.

Nature of the Project	Mining
Order of Forest Land Diversion MOEF with	Letter F-No-8-93/2004-FC dated-18 th Aug'2008
Date of expiry of order (In case mining lease)	31 st March 2020

Sl. No.	Stipulations	Compliances	R.O Compliance
1	Legal Status of the diverted Forest Land shall remain unchanged	Noted	The same has been Complied up to the present Lessee. Compliance Status: Complied
(i)	Compensatory Afforestation shall be raised & maintained by the State Forest Department at the Project Cost.	As directed the sum of Rs. 22,54,400/- (Rupees Twenty Two Lakh Fifty Four Thousand Four Hundred) only has been Deposited with Forest Department towards Compensatory Afforestation.	Compliance Status: Complied
(ii)	Fencing, protection & regeneration of the safety zone area shall be done at the project cost and a half times the area of safety zone shall also be done at project cost besides this Afforestation on 100mt radius of mining lease granted in degraded forest land if density is less than 0.40 enrichment	Accepted and amount already deposited to take up the job. In addition we have completed about 2.5km fencing of ML boundary and SZ area. Apart from this plantation has been done along the SZ area in due consultation with the forest department.	The amount already deposited take up the activities such as fencing protection and regeneration of Safe Zone area at the project cost. In addition, the fencing was also completed by Ex-Lessee. However some portion has been damaged and instructed to present Lessee for fencing that area.

	plantation shall be taken up by the User Agency in consultation with forest Department.		Compliance Status: Partly complied.
(iii)	Wherever possible & technically the User Agency shall undertake Afforestation measures in the blanks within the lease area, as well as along the roads outside lease area, diverted under this approval in consultation with the forest Department at the project cost.	Accepted and plantations have been done at the blank area within the ML area. Post plantation care is being carried out.	Afforestation has been already done in blanks area with the lease area and are being maintained by present Lessee. In addition to this the afforestation also has been done along the roads outside the lease area. Compliance Status: Complied.
3	The scheme for soil & moisture conservation for the entire water shed area shall be implemented at the project cost.	Adopted suitable practices such as construction of check dams, settling ponds, coir/ geo textile matting, grass patching and plantation of native species over the matured OB dumps for the water shed area.	The same job has been adopted by Ex- Lessee. But the check dam/ settling ponds has been broken/ damaged and instructed to present Lessee for renovate the same. Compliance Status: Partly complied.
4	All measure should be taken to prevent pollution of tanks, river & nallas etc. The de silting of adjoining villages in radius of 5km may also be taken up by the user Agency from time to time.	Retaining wall, garland drains, settling ponds and check dams are constructed and being maintained at regular intervals to prevent surface runoff. Garland drains and settling ponds are being de-silted at regular intervals. In addition we are also cleaning the Bhutuda nala at regular interval for facilitating the use by local villagers.	All measures has been taken up to prevent pollution of tanks, rivers and nallas by construction of retaining wall, garland drains, settling ponds and check dams previously. Presently the some portion of retaining wall are being maintained and also freshly constructed by existing Lessee. But the check dam/ settling ponds has been broken/ damaged and instructed to present Lessee for renovate the same. Compliance Status: Partly complied.
5	The period of diversion under this approval shall be twenty years subjects to possession of valid lease by the User Agency under the MMDR Act - 1957.	Accepted	Compliance Status: Complied.
6	Any tree felling shall be done only when it is absolutely necessary and unavoidable and that too under strict supervision of State Forest Department.	Accepted	Compliance Status: Complied
7	No damage to the Flora & Fauna of the area shall be caused.	Accepted	The same are being followed-up by present Lessee. To protect and conserve the flora and fauna of the area, the Lessee taken action for preparation of site specific wildlife conservation plan. Compliance Status: Complied

	or reclamation work the top soil should be preserved & used for reclamation. The areas shall be reclaimed keeping in view the international practice of stabilizing the dumps by grading/benching so that the angles of repose (normally less than 28° at any given place) are maintained.	125m ³ Top soil has been preserved for undertaking reclamation. Grass seedlings have been planted over the top soil stack for stabilization and to preserve its fertility.	The generated quantity of top soil has been utilized for reclamation and the reclaimed areas have been covered by plantation of native species. Compliance Status: Complied
9	The reclamation plan shall be implemented and monitored continuously. The User Agency should furnish the extent of area to be technically & biologically reclaimed each year to facilitate monitoring. The annual report of about the progress of reclamation should be submitted to CCF, regional officer, Bangalore & Nodal officer, Orissa.	Progressive reclamation shall be carried out as per approved reclamation plan from time to time and accordingly progress of reclamation shall be intimated to concerned authority.	The progressive reclamation plan (previously approved) are being carried out time to time and same also being intimated. Compliance Status: Complied
10	It shall be ensured that no labour camps are set up inside the forest area.	Noted	There is no labour camp inside the forest area. Compliance Status: Complied
11	The Mining Lease area shall be demarcated on ground at project using 4 feet high RCC pillars inscribing with SI No. forward & back bearing and distance between two adjacent pillars.	Done and being maintained.	The same has been done previously but some pillars have been damaged and also instructed to present Lessee for re-posting the damaged pillars. Compliance Status: Partly Complied.
12	Forest land shall not be used for any purpose other than that specified in the proposal.	Accepted	Compliance Status: Complied
13	Any other condition that the CCF (Central) Regional office, Bangalore/State Forest Department may impose from time to time for protection and improvement of Flora & Fauna in the forest area shall also be applicable.	Accepted	Compliance Status: Complied

Progressive reclamation shall be carried out as per approved reclamation plan from time to time and accordingly progress of reclamation shall be intimated to concerned authority.
10	It shall be ensured that no labour camps are set up inside the forest area.	Noted

11	The Mining lease area shall be demarcated on ground at project cost using 4 feet high RCC pillars inscribing with SI No., forward & back bearing and distance between two adjacent pillars.	Done and being maintained.
12	Forest land shall not be use for any purpose other than that specified in the proposal.	Accepted
13	Any other condition that the CCF (Central) Regional office, Bangalore/State Forest Department may impose from time to time for protection and improvement of Flora & Fauna in the forest area shall also be applicable.	Accepted

For Aryan Mining & Trading Corporation Pvt. Ltd.

General Manager (Geology & Env't.)

II. Offence Cases registered if any and their status

III. Inspection of Range Officer
Inspection of Divisional Forest Officer
Inspection Comments of Regional CCF

NB. Each item of the stipulation should be analysed and non compliance should be reported with remedial measures and suggestion. Any adverse remark of Range Officer/ Divisional Forest Officer should be analysed by the Regional CCF and concrete suggestion for non-compliance should be evolved with Act/ Rules and guidelines. The detailed analysis of the offence cases should also be given. At each stage of inspection by Range Officer, DFO, copy of the Self Assessment Report and their comments should be sent to PCCF/ CCF(Nodal).

Sub: Transfer of Forest Clearance under the Forest (Conservation) Act, 1980 to Mining Lease allotted to new lessee as per the provisions of the Mines and Minerals (Development and Regulation) Amendment Act, 2021, Mahulsukha Iron & Manganese Ore Mines of M/s Patnaik Minerals Pvt. Ltd.

Ref: File No. FC-11-112/2020-FC (Pt.), Dated 07.07.2021

Dear Sir,

We would like to inform you that Govt. MoEF & CC vide File No. FC-11-112/2020-FC (Pt.) dated 7th July 2021 issued Guideline under Forest (Conservation) Act for transfer Approval Under Forest (Conservation) Act, 1980 subject to compliance of stipulated conditions. We are submitting herewith Compliance as under:-

Condition No. I.

Complete compliance of such terms and conditions as stipulated in the approval granted previously under the FCA-1980, and rules and guidelines framed there under in respect of the concerned mining lease has been made. The non-compliance of conditions, if any, stipulated in the approval granted to the erstwhile agency under FCA-1980, which were required to be complied before handing over the forest land to such agency, shall be transferred as liabilities to the new allottee, and in such case, complete compliance of such conditions shall be made prior to handing over of forest land to the new allottee. For the remaining conditions, the new allottee will make an undertaking to comply with, before handing over of the forest land. It is clarified that in case of violation of any of the conditions which was done during the period of previous allottee and which constitutes an offence under the FCA-1980, the penal clauses will be invoked against the previous allottee only and not against the new allottee.

In compliance to the above, we are submitting herewith compliance of Stage - II order accorded by the MoEF, Govt. in respect of Mahulsukha Manganese Ore Mines of M/s Aryan Mining Trading & Corporation Pvt. Ltd. (M/s AMTC) vide Letter No. &-93/2004/FC-, Dt. 18.08.2008. Subsequently the aforesaid Mines under auction process, M/s Patnaik Minerals Pvt. Ltd. declared as successful bidder and lease deed

executed. All the approvals & statutory clearances has been vested in favour of M/s Patnaik Minerals Pvt. Ltd by the State Government vide Letter No. 4246/SM, dt. 30.05.2020 of Govt. of Odisha, Steel & Mines Department is as under:-

Sl. No.	Conditions	Compliance
1.	<i>Legal status of the diverted forest land shall be remain unchanged</i>	Legal status of the diverted forest land will be remain unchanged.
2. (i)	<i>Compensatory Afforestation shall be raised and maintained by the State Forest Department at the project cost.</i>	As directed the sum of Rs.22,54,400/- has been deposited with Forest Department towards compensatory afforestation (Compliance Report Ex-Lessee)
(ii)	<i>Fencing protection and regeneration of the safety zone area (7.5 metres strip all along the outer boundary of the mining lease) shall be done at the project cost and half times the area under safety zone, shall also be done at the project cost. Besides this, afforestation on 100 metre radius of mining lease granted in degraded forest land if density is less than 0.4, enrichment plantation shall be taken up by the user agency in consultation with the Forest Department.</i>	Accepted and amount already deposited to take up the job. In addition we have completed about 2.5 km fencing of ML boundary and safety zone area. Apart from this plantation has been done along the Safety Zone area in due consultation with the Forest Department.
(iii)	<i>Wherever possible and technically feasible, the User Agency shall undertake afforestation measures in the blanks within the lease area, as well as along the roads outside the lease area diverted under this approval, in consultation with the State Forest Department as the Project Cost.</i>	Accepted and plantations have been done at the blank area within the ML area. Post plantation care is being carried out.
3.	<i>The scheme for soil and moisture conservation for the entire watershed area shall be implemented at the project cost.</i>	Adopted suitable practices such as construction of check dams, Settling ponds, coir / geo-textile coir matting, grass patching and plantation of native species over the matured OB Dumps for the water shed area.
4.	<i>All the measures should be taken to prevent pollution of tanks, rivers and nalas, etc. The de-silting tanks of adjoining villages in radius of 5 km may also be taken up by the User Agency from time to time</i>	Retaining wall, Garland drains, settling ponds and check dams are constructed and being maintained at regular intervals to prevent surface run-off. Garland drains and settling ponds are being de-silted at regular intervals. In addition, we are also cleaning the Bhutuda Nala at regular interval for facilitating the use by local villagers.
5.	<i>The period of diversion under this approval shall be twenty (20) years subject to possession of valid lease by the User Agency under the MMDR Act, 1957.</i>	Accepted

6.	<i>Any tree felling shall be done only when it is absolutely necessary and unavoidable, and that too under strict supervision of the State Forest Department.</i>	Accepted
7.	<i>No damage to the flora and fauna of the area shall be caused.</i>	Accepted
8.	<i>For reclamation works, the top soil should be used for reclamation. The areas shall be reclaimed keeping in view the international practice of stabilizing the dumps by grading/benching so that angles of repose (normally less than 28° at any given place) are maintained.</i>	125 m ³ Top soil has been preserved for undertaking reclamation. Grass seedling have been planted over top soil stack for stabilization and to preserve fertility.
9.	<i>The reclamation plan shall be implemented and monitored continuously. The User Agency should furnish the extent of area to be technically and biologically reclaimed each year, to facilitate monitoring. The annual report about the progress of reclamation should be submitted to the Chief Conservator of Forests, Regional Office, Bhubaneswar and the Nodal Officer, Orissa.</i>	Progressive reclamation shall be carried out as approved reclamation plan from time to time and accordingly progress of reclamation shall be intimated to concerned authority.
10.	<i>It shall be ensured that no labour-camps are set up</i>	It is ensured that no labour camps are set up.
11.	<i>The mining lease area shall be demarcated on ground at the project cost, using four feet high RCC pillars, with each pillar inscribed with the serial number, forward and backward bearings and the distance between two adjacent pillars.</i>	The mining lease area already demarcated on ground at the project cost, using four feet high RCC pillars, with each pillar inscribed with the serial number, forward and backward bearings and the distance between two adjacent pillars.
12.	<i>The forest land shall not be used for any purpose other than that specified in the proposal.</i>	The forest land are not being used for any purpose other than that specified in the proposal
13.	<i>Any other condition that the CCF (Central), Regional Office, Bangalore/the State Forest Department may impose from time to time for protection and improvement of flora and fauna in the forest area, shall also applicable.</i>	Accepted

Other Information:

- In compliance to the circular No. F.No. 11-9/98-FC dated 08.07.2011 of Ministry of Environment and Forest, Government of India to ensure accurate delineation of the forest area proposed to be diverted for non-forestry purposes under Section – 2 of Forest (Conservation) Act, 1980, we have prepared the required Digital Geo Referenced Map showing the forest area with mining lease boundary duly certified by ORSAC.

Condition No. ii.

Approval under FCA-1980 was valid on the date of expiry of previous lease.

The Forest Clearance accorded by Ministry was valid up to 31.03.2020 and subsequently the same has been vested in favour of M/s Patnaik Minerals Pvt. Ltd.

Condition No. iii.

Mining operations will be restricted to the forest area for which approval under Section 2 (ii) of the FC Act, 1980 has been obtained by the erstwhile user agency. No non-forest use of such forest lands falling within the lease shall be allowed, for which approval under Section 2(ii) has not been obtained by the State Government. Mining in such areas may be allowed only after obtaining prior approval of the Central Government under Section 2 (ii) of the FCA- 1980.

We do hereby undertake to restrict our mining operation to the forest area for which approval under Section – 2 (ii) of the FC Act, 1980 has been obtained by the erstwhile user agency till we obtain the forest clearance over balance forest area within our mining lease.

Condition No. iv.

The State Government shall ensure that the amount of Net Present Value, Safety Zone Plantation and Compensatory Afforestation (CA), if not deposited earlier, has been deposited prior to handing over of the forest land to the new allottee. Also, in case the CA land has not been made available previously, the forest land shall be handed over to the new allottee only after the corresponding CA land has been accepted by the competent authority as per the extant procedures for acceptance of CA lands for a new proposal.

In compliance to above, all payments with respect to Net Present Value, Safety Zone Plantation and Compensatory afforestation (CA) already made by the Ex-Lessee. We have also deposited an amount of Rs. 27,60,32,250/- (Rupees Twenty seven crore sixty lakhs thirty two thousand fifty only) vide UTR No. HDFCR52020061683947645 on dt. 16/06/2020.

Condition No. v.

Mining operations and other activities shall be carried out as per the land-use allowed in the approval under the FCA-1980. Any change in the land use on account of any valid reason shall be effected with the prior approval of the Central Government.

In compliance to above, we do hereby undertake to carry out Mining operations and other activities as per the land use allowed in the approval under the FCA – 1980.

Condition No. vi.

Reclamation of the mined out forest area in the whole lease area as per the approved Mining Plan shall be an obligatory condition for the new allottee .

We do hereby undertake to carry out the reclamation of the mined out area in the whole lease area as per the approved Mining Plan.

Condition No. vii.

Transfer fee, as prescribed in the relevant guidelines incorporated in the Handbook of Forest (Conservation) Act, 1980 shall be realized from the new allottee and deposited into the account of CAMPA of the State concerned.

We have already deposited transfer fees the amount of Rs. 1, 00,000.00 (One lakh only) vide application no. 5838600360 & reference no. N327211722825977, dtd. 23. 11. 2021.

In view of above, we request your goodself to transfer the Forest Clearance in favour of Patnaik Minerals Pvt. Ltd

Thanking You,
For M/s Patnaik Minerals Pvt. Ltd.

Sub: Diversion of 227.00 ha. of forest land for 3rd renewal of Mahulsukha Manganese Ore Mines in village Randa, Rantha and Bhutuda of Bonai Tehsil in Bonai Forest Division in favour of M/s AMTC Ltd., in Sundergarh district of Orissa.

Sir,

I am directed to refer to your letter No. 10F(Cons.)-114-04/16131/F&E dated: 30-10-2004 on the above mentioned subject seeking prior approval of the Central Govt. under Section-2 of Forest (Conservation) Act, 1980, and to say that the proposal has been examined by the Forest Advisory Committee constituted by the Central Government under Section 3 of the aforesaid Act.

After careful consideration of the proposal of the State Government, and on the basis of recommendations of the above-mentioned Advisory Committee, the Central Government, hereby, agrees in-principle for diversion of 227.00 ha. of forest land for 3rd renewal of Mahulsukha Manganese Ore Mines in village Randa, Rantha and Bhutuda of Bonai Tehsil in Bonai Forest Division in favour of M/s AMTC Ltd., in Sundergarh district of Orissa, subject to fulfilment of following conditions:

1. User Agency shall deposit the Net Present Value (NPV) of the diverted forest land of 227.00 ha., with the State Forest Department as per the orders of the Hon'ble Supreme Court dated 30-10-2002 & 1-8-2003 in LA No.566 in WP (C) No.202/1995 and the guidelines issued by this Ministry vide letter No.5-1/98-FC(Pt-II) dated 18-9-2003 and 22-9-2003 in this regard.
2. The State Government shall deposit all the above-mentioned fund in form of Fixed Deposits in the name of concerned DFO/ Nodal Officer of the State, till such time the CAMPA intimates the Head of Accounts for deposition of fund.
3. The non-forest land for compensatory afforestation, shall be notified by the State Government as RF under section - 4 of the Indian Forest Act, 1927 prior to Stage-II clearance.
4. State Government shall provide funds to the concerned DFO to execute the works prior to Stage-II clearance to enable him to comply with the condition of Safety Zone as stipulated earlier.
5. User agency shall contribute to the State Government for the implementation of Regional Wildlife Management Plan prepared for Bonai and Keonjhar Divisions.
6. The user agency shall protect the top soil at the project cost.

CARRYING CAPACITY OF THE EXISTING ROAD FOR CARRYING ITS ORE TO THE FINAL PROCESSING SITE

The lease area is approachable from Koira - Barasuan road through a metal road of 8 Km. This road is being utilized for transportation of ore from the lease area. This road is 20m wide two lane single lane road. The carrying capacity of the road will be 1500 PCU/hr.

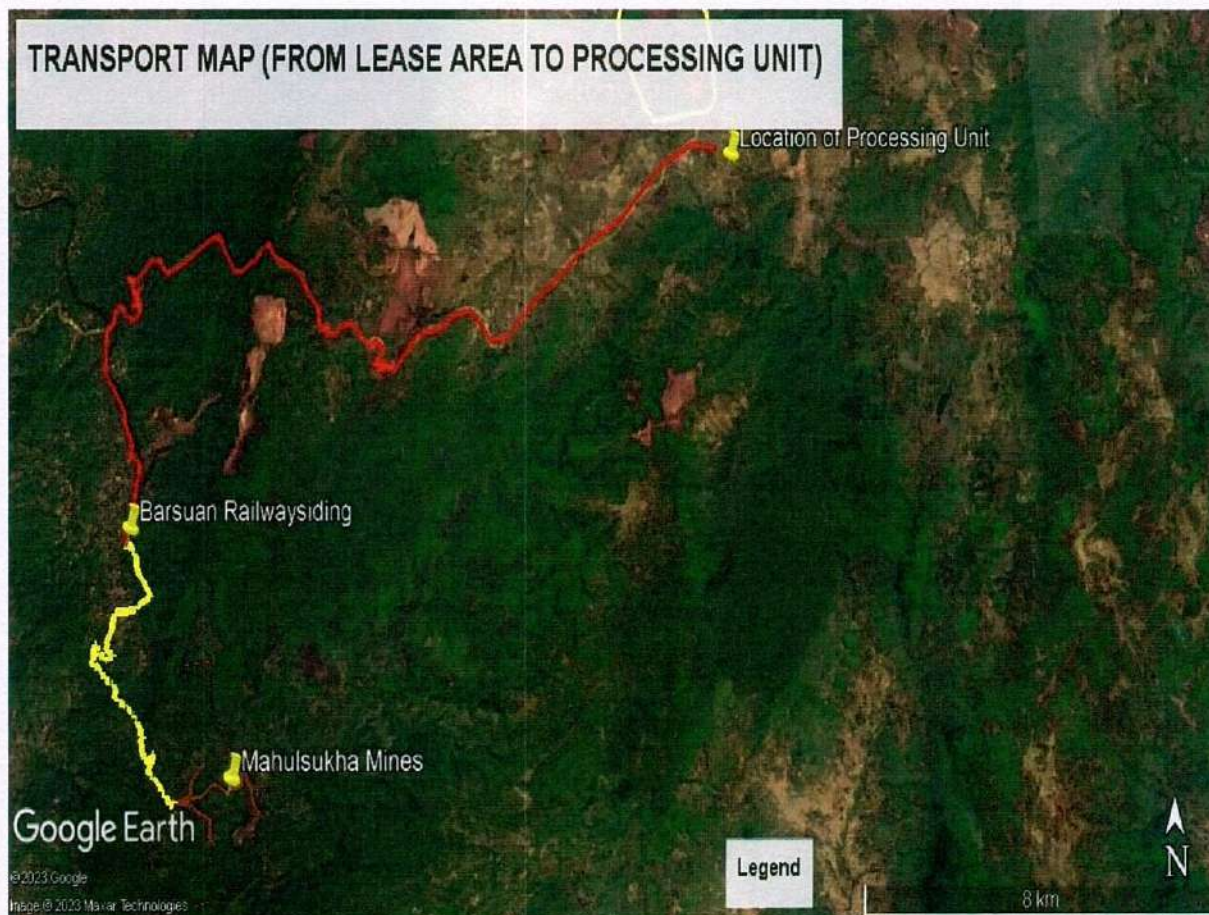

The Koida road connect to NH 215 which is four lane two way road of 60m wide, This road is of carrying capacity of 3600 PCU/ hr.

The ore excavated from the lease area will be transported through this road to the processing unit which is located at Koida. Details of transportation requirement form the mines has been given in the table below:

TRANSPORTATION OF ORE FROM THE LEASE AREA

Sl. No	Particular	Iron Ore	Manganese ore
1.	Production capacity (Million TPA)	1.0	0.15
2.	No. of working days	300	300
3.	Capacity of tipper (Tons)	35	20
4.	Transportation of Ore (Tons per day)	3333	500
5.	Effective Working hr (for transportation) per day	16	16
6.	No. of trips (filled and unfilled) per day	190	50
7.	Frequency of tippers deployed/hour	11	3
8.	Increase in PCU's per hour	40	11
9.	Tonnage Factor	3	2.3

Maximum transportation from the lease area per hour will be 14 trucks per hour which is equivalent to 51 PCU/hr. This additional load of traffic can be handled by the existing road. Further the lessee with the district administration will undertake the responsibility of maintenance of the Koira - Barasuan metalled road. As per the traffic study carried out for the road considering the additional traffic load due to the proposed mining operation the LOS will be remain as B. The transport route map from the lease area to the railway siding and the processing unit has been given in the map.

Map showing the transport route from lease area to the processing unit

Existing and changed Level of Service on OMC-Barsuan Road

Location	Existing Traffic load			Total traffic load including sand transportation		
	No. of PCUs	V/C	LoS	No. of PCUs	V/C	LoS
On the OMC Mines-Barsuan Road	835	0.33	B	855	0.36	B
2 lane (one way) as per IRC:106-1990= 1500 PCU/hr						
No of PCUs from mines considered = 51 during peak hour						

Fig 3.35 Level of Traffic Service

V/C	LoS	Performance
0.0 – 0.2	A	Excellent
0.2 – 0.4	B	Very Good
0.4 – 0.6	C	Good
0.6 – 0.8	D	Fair/Average
0.8 – 1.0	E	Poor
1.0 & above	F	Very Poor
V= Volume in PCU's/hr. C= Capacity in PCU's/hr. LOS= Level of Service		

Level of Traffic Service

From the study it can be observed that the level of service on the Road connecting OMC mines and Barsuan railway siding will remain unchanged due to the proposed movement of trucks used for transportation of Iron ore from the lease area. The lessee will contribute towards the maintenance of the road.

Proposed Mitigation Measures for transportation from the mines

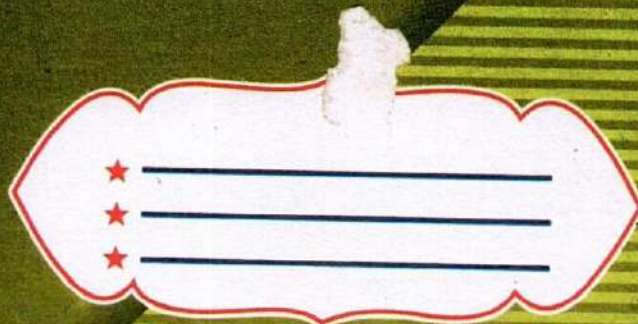

The following preventive measures shall be taken to control the air pollution at different sites present inside the lease area due to transportation of ore from the lease area.

- a. Regular water sprinkling on haul roads, waste dumps and maintaining approach roads, to suppress the dust by two nos of 20 KL water sprinklers and one 10 KL water sprinklers thrice daily.
- b. The volume of dust rising from waste dump areas, quarry site, roads, etc. by action of wind shall be checked by planting grasses and broad leaf trees and regular water sprinkling.
- c. Ensuring transporting vehicles not to cross the stipulated speed (30 Km/hr). A strict instruction should also given in the entrance board it shall be displayed that no vehicle should run greater than a speed of 30 Km/hour. Valid PUC certified vehicle will only allow to entry within the lease premises. A well-trained security organization will be engaged for the purpose.
- d. Over loading on transport vehicles to be prevented in order to stop spillage.
- e. Strengthening further the green belt plantation around ML area, quarry and over burden dump as well as crushing plant site.
- f. Water sprinkling on the ore stack yard will be done to check air borne dust.
- g. Exhaust fumes in the internal combustion engines used in excavators, ensuring vigorous maintenance and stringent overhaul schedules shall minimize dumpers, dozers and other machinery.
- h. Wet drilling method shall be adopted.
- i. Water injection system in drill and wearing of PPE by driller to be proposed to control air pollution and minimization of its effect.
