PRE - FEASIBILITY REPORT

for

PROPOSED EXPANSION FOR MANUFACTURING
OF SPECIALTY CHEMICALS
IN EXISTING UNIT

of

M/S. WORLD CHEM INDUSTRIES

PLOT NO. C-1B/407/4,
GIDC ESTATE, PANOLI, TAL: ANKLESHWAR,
DISTRICT: BHARUCH-394116, GUJARAT

Prepared By:

Aqua-Air Environmental Engineers P. Ltd.
403, Centre Point, Nr. Kadiwala School, Ring Road, Surat - 395002

1.0 Executive Summary

1.1 Project Details

1.1.1 Products along with Production Capacity
For detail of products & its capacity please refer Annexure-I in Form-1

1.2 Raw Material Requirement
For detail of products & its capacity please refer Annexure-I in Form-1

1.3 Water Requirement, Waste Water Generation and Treatment
Total water requirement will be 6.0 KL/day (Existing: 2.5 KL/day + Additional Proposed: 3.5 KL/day) which will be met through GIDC water supply.
Total Ind. wastewater generation will be 1.333 KL/day (Existing: 0.3 KL/day + Additional Proposed: 1.033 KL/day).
Concentrated Stream (Process) = 0.333 KL/Day will be treated in ETP & finally send to Common Spray Dryer (M/s. PETL)
Dilute stream (Process + Washing) = 0.5 KL/Day will be sent to CETP (M/s. PETL) after treatment in ETP.

1.4 Air Pollution Source and Control Management
There will be emission from Thermic Fluid Heater (1 Nos.),
Adequate air pollution control equipments i.e. Stack Height shall be provided as Natural Gas will be used as a fuel.

1.5 Hazardous Waste
The detail is referred as Annexure-V with Form-1.

1.6 Green Belt
Total 1462 m² land area is available at site; out of this 250 m² (i.e. 17.0 % of total area) will be developed as greenbelt and other forms of greenery.

1.7 Power & Fuel Requirements
Power requirement will be 60 HP which will be taken from DGVCL.
Fuel: Natural Gas: 30 Nm³/Hr,
2.0 INTRODUCTION OF THE PROJECT/BACKGROUND INFORMATION

2.1 Identification of the project and project proponent. In case of mining project, a copy of mining lease/letter of intent should be given.

Identification of the project

Identification of the project proponent

Mr. Bhimashankar VishWanath Patil is the proprietor of the unit.

2.2 Brief description of nature of the Project

2.3 Need for the project and its importance to the country and or region

The demand for products intended to be manufacture is increasing in the country. By this expansion, M/s. World Chem Industries will be able to meet the demand of various products internationally and locally. This will also generate direct and indirect employment opportunity for various levels of people.

2.4 Demands-Supply Gap

Based on our informal survey of the market with our current customers and various traders, we have found that there is a big potential for the range of the products we are planning. These products will be an addition to the current range of our group's products.
2.5 Imports vs. Indigenous production
Based on the current cost of indigenous raw materials, it will make us very competitive against imported finished products and we will be able to increase the export of our finished products.

2.6 Export possibility
We shall export our products.

2.7 Domestic/Export Markets
Majority of the products will be sold in local market and some products will be exported.

2.8 Employment Generation (Direct and Indirect) due to project.
M/s. World Chem Industries will give direct employment to local people based on qualification and requirement. In addition to direct employment, indirect employment shall generate ancillary business to some extent for the local population.

3.0 Project Description
3.1 Type of Project including interlinked and interdependent projects, if any.
No interlinked project has been submitted.

Location (map showing general location, specific location and project boundary & project site layout) with coordinates.
- Map showing general location
Specific location and project boundary
3.3 Details of alternate sites considered and the basis of selecting the proposed site, particularly the environmental considerations gone into should be highlighted.

Looking to the market demand of the products in International market, it was decided by M/s. World Chem Industries to expand the existing facility. Over and above major raw material suppliers are available in this region and considering proximity to existing operational unit in Panoli GIDC, it was finally decided to expand the existing facility.

Major factors involved in the selection of site are listed below:

- Existing operational facility
- Site situated in Notified Industrial Estate.
- Site is well connected by road & Rail
- Proximity to raw material suppliers
- Availability of power and cleaner fuel - natural gas.
- Availability of water from GIDC water supply
- Availability of effluent CETP, Panoli.
- Availability of common TSDF and common incineration sites within the estate.
- Availability of skilled workmen
- Proximity to cities like Bharuch and Ankleshwar, ensure access to already existing social and commercial infrastructure.

Modern infrastructure support and amenities at par in other global markets, including:

- Efficient transport facilities.
- Environment-friendly zone.
- Uninterrupted power supply.

3.4 Size or Magnitude of Operation

Please refer Section-1.1.1
3.5 Project Description with process details (a schematic diagram/flow chart showing the project layout, components of the project, etc. should be given)

Please refer Form-I, Annexure-III.

3.6 Raw Material required along with estimated quantity, likely source, marketing area of final product/s, mode of transport of raw material and Finished product.

For raw material required along with quantity; Please refer Form-I, Annexure-I. Majority of the products will be used for international market and some products will be sold in domestic market.

3.7 Resource optimization/recycling and reuse envisaged in the project, if any, should be briefly outlined.

Every effort will be put to recycle/reuse the water.

3.8 Availability of water its source, energy/power requirement and source should be given.

Water Source

Total water requirement shall met through GIDC water supply.

Power & Fuel Requirement

Power requirement will be 60 HP which will be taken from DGVCL.

Fuel: Natural Gas: 30 Nm³/day

3.9 Quantity of wastes to be generated (liquid and solid) and scheme for their management/disposal.

Please refer Form-I, Annexure-V.
3.10 Schematic representations of the feasibility drawing which give information of EIA purpose.

4.0 Site Analysis

4.1 Connectivity

- Site situated in Notified Industrial Estate.
- Site is well connected by road & Rail
- Proximity to raw material suppliers
- Availability of power and cleaner fuel - natural gas.
- Availability of water from GIDC water supply
- Availability of effluent discharge CETP, Panoli.
- Availability of common TSDF and common incineration sites within the estate.
- Availability of skilled workmen
- Proximity to cities like Bharuch and Ankleshwar, ensure access to already existing social and commercial infrastructure.
4.2 Land Form, Land Use and Land Ownership

4.3 Existing land use pattern (agriculture, non-agriculture, forest, water bodies (including area under CRZ)), shortest distances from the periphery of the project to periphery of the forests, national park, wild life sanctuary, eco sensitive areas, water bodies (distance from HFL of the river), CRZ. In case of the notified industrial area, a copy of the Gazette notification should be given.

4.4 Existing Infrastructure

The proposed expansion is within the existing premises located in G.I.D.C., Panoli, Dist - Bharuch, which is a well developed Industrial Area.

Total Plot Area = 1462 m²
Green Belt = 250 m²
### 4.5 Soil Classification

(Source: Environmental Information Centre, New Delhi)
4.6 Climatic data from secondary sources.
Shall be incorporated in the EIA Study.

4.7 Social infrastructure available.
Depending on the growth of the company the required social infrastructure will be provided.

5.0 Planning Brief
5.1 Planning Concept (type of industries, facilities, transportation etc) Town and Country planning/Development authority classification.

Type of Industry: M/s. World Chem Industries proposes expansion for manufacturing Specialty Chemicals at Plot No. C-1B/407/4, GIDC Estate, Panoli, Tal: Ankleshwar, District: Bharuch-394116, Gujarat
5.2 Population Projection
Shall be incorporated in the EIA Study.

5.3 Land use planning (breakup along with green belt etc.)
Total Plot Area: 1462 m²
Total 1462 m² land area is available at site; out of this 250 m² (i.e. 17% of total area) will be developed as greenbelt and other forms of greenery.

5.4 Assessment of Infrastructure Demand (Physical & Social)
- Employment would be as per prevailing norms of state government for skilled and unskilled people for the proposed project activity.
- Social Welfare
- Cordial relation with the industry shall be established and representation shall be made to villagers for help for creation of facilities related to health, education, etc.

5.5 Amenities/Facilities
Details of amenities available in study area

**ABBREVIATIONS**

1. **Education**
   - P - Primary Elementary School
   - H - Matriculation or Secondary
   - O - Other Educational Institution
   - PUC - Higher Secondary/Intermediate/pre-University/junior Collage
   - AC - Adult literacy class
   - TR - Training center

2. **Medical Facilities**
   - RP - Registered Private Practitioner
   - PHS - Primary Health Centre
   - FPC - Family Planning Centre
   - D - Dispensary
   - CHW - Community Health Worker/Health Worker
   - H - Hospital
   - NH - Nursing Home
   - MH - Maternity Home
   - PHC - Public Health Centre
   - CWC - Child Welfare Centre
   - TB - T.B Clinic
   - O - Others
3. Drinking Water
T-Tap Water
HP-Hand Pump
TK-Tank Water
W-Well Water
R-River Water
C-Canal
N - Nallah
S - Spring

4. Post & Telegraph
PO-Post Office
PTO-Post & Telegraph
Phone-Telephone Communication

5. Transportation
RS- Railway Station
BS-Bus Station
NW-Navigable Waterway

6. Approach to Village
PR-Pucca Road
KR-Kuccha Road

7. Power Supply
EA-Electricity for all purposes
EAG - Electricity for Agriculture
ED - Electricity for domestic
EO - Electricity for other purpose like Industrial, Commercial etc.

6.0 Proposed Infrastructure
Proposed Expansion is within the existing premises in Panoli GIDC.

6.1 Green Belt
M/s. World Chem Industries shall develop an effective green belt within the factory and on periphery of the factory. In addition to this, majority of the vacant land shall be planted with trees, shrubs and grasses.

6.2 Social Infrastructure
Depending on the growth of the company the required social infrastructure will be provided.
6.3 Connectivity (Traffic and Transportation Road/ Rail/Metro/ Water ways etc)

Major factors involved in the selection of site are listed below:

- Site situated in Notified Industrial Estate.
- Site is well connected by road & Rail
- Proximity to raw material suppliers
- Availability of power and cleaner fuel - natural gas.
- Availability of water from GIDC water supply
- Availability of effluent discharge i.e. (CETP M/s.PETL)
- Availability of common TSDF and common incineration sites within the estate.
- Availability of skilled workmen
- Proximity to cities like Bharuch and Ankleshwar, ensure access to already existing social and commercial infrastructure.

6.4 Drinking water Management (Source & Supply of water)

Total water requirement shall be met through GIDC water supply.

6.5 Sewerage System

Sewage pipes are laid in entire company for the removal and disposal of mainly non-harmful liquid wastes from the offices, canteen and domestic waste coming from different sections of the industry. These liquid wastes are sent to septic tank & soak pit.

6.6 Solid Waste Management

Please refer Form-I, Annexure-V.

6.7 Power Requirement & Supply/Source

Please refer Section 3.8 of this report.
7.0 Rehabilitation and Resettlement (R & R) Plan

7.1 Policy to be adopted (central/state) in respect of the project affected including home oustees, land oustees and landless laborers (a brief outline to be given)

There is no habitation on the proposed expansion project activity area and it is open industrial land which is purchased from GIDC for development of factory, so R & R policy is not applicable to this project.

There shall not be displacement of any population in project area. Any major activity that may lead to resettlement of the people is considered as permanent impact. Hence, there is no permanent impact on this account. The increasing industrial activity will boost the commercial and economical status of the locality up to some extent.

8. Project Schedule & Cost Estimates

8.1 Likely date of start of construction and likely date of completion (Time schedule for the project to be given).

All activities related to expansion shall be started soon after getting Environmental Clearance.

8.2 Estimated Project cost along with analysis in terms of economic viability of the project.

Total Project Cost  Rs. 150 Lakhs.

Existing : Rs. 70 Lakhs.

Proposed : Rs. 80 Lakhs.
9. Analysis of Proposal (Final Recommendations)

9.1 Financial and social benefits with special emphasis on the benefit to be local people including tribal population, if any, in the area.

- Employment would be as per prevailing norms of state government for skilled and unskilled people for the proposed project.

- Social Welfare shall be done.

- Cordial relation with the industry shall be established and representation shall be made to villagers for help for creation of facilities related to health, education, etc.
