

# PUBLIC HEARING

FOR ENVIRONMENTAL CLEARANCE OF PROPOSED  
BURSAR PROJECT (800MW)

Public Hearing near village Tiller, Tehsil Marwah, District Kishtwar

Public Hearing near village Lopara, Tehsil Dachhan, District Kishtwar

Conducted by:  
JAMMU AND KASHMIR STATE POLLUTION CONTROL BOARD

**JAMMU AND KASHMIR STATE POLLUTION CONTROL BOARD**

**OFFICE OF THE DIVISIONAL OFFICER, DODA/ KISHTWAR**

No.: SPCB/DK/2017/264

Dated:- 26/09/2017

The Regional Director  
J&K State Pollution Control Board,  
Narwal Transport Nagar,  
Jammu

**Subject:-** Report of Public Hearings conducted in respect of 800 MW Bursar Project  
of NHPC Limited in District Kishtwar

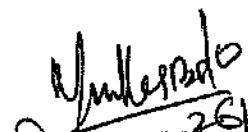

Sir,

Kindly find enclosed herewith the complete proceedings of Public Hearings (including videography & photographs) in respect of Bursar Project, Kishtwar conducted on 21-09-2017 near village Tiller (Tehsil Marwah) and on 23-09-2017 near village Lopara (Tehsil Dachhan) for further necessary action at your end please.

Thanking you,

*Encls: 07 sets of public Hearing report*

Yours faithfully,

  
District Officer  
Doda / Kishtwar

**MINUTES OF ENVIRONMENTAL PUBLIC HEARING IN RESPECT OF BURSAR PROJECT(800 MW) CONDUCTED ON 21/09/2017 AT 11.00 A.M. AT NEAR VILLAGE TILLER TEHSIL MARWAH, DISTRICT KISHTWAR, JAMMU AND KASHMIR**

The public hearing for environmental clearance in respect of Bursar Project (800 MW) to be executed by NHPC Ltd was conducted by J&K State Pollution Control Board on 21/09/2017 at 11:00 AM near village Tiller (Tehsil Marwah), District Kishtwar, J&K. A large number of people from Project affected area and other adjoining areas of Tehsil Marwah namely Kadarana, Hynen, Chainjer, Tiller, Hanzal, Deharana, Hatri, Machhana, Goomri, Dwarpath, Rad, Nawapachi, Dehrai, Naugam, Pathgam, Yourdu etc. were present on the occasion.

**Following panel members were present during the public hearing:**

- |   |          |
|---|----------|
| 1. Sh. Angrez Singh Rana<br>District Magistrate<br>District Kishtwar  | Chairman |
| 2. Dr. Yash Paul<br>Sr.Scientist,Head Labs/State Board Analyst<br>J&K State Pollution Control Board,Jammu<br>(Representative of Regional Director ) | Member   |
| 3. Sh. Mukesh Singh Bali<br>Divisional Officer,<br>J&K State Pollution Control Board,<br>Kishtwar   | Member   |

**Representatives of NHPC Limited:**

1. Sh. P K Langer, General Manager
2. Dr. Shahid Ali Khan, General Manager (Environment)
3. Sh. Umesh Parihar, Manager (Civil)
4. Sh. Farooq Ahmed Beg, Manager (Civil)
5. Sh. Shashi Paul Singh, Manager (Environment)
6. Sh. Rahul Srivastava, AM (Environment)
7. Sh. Sachin Vans, AM (Civil)
8. Sh. Bhuvneshwar Singh Yadav, Engineer (Electrical)
9. Sh. Vinit Kumar Gupta, PRO
10. Sh. Rajesh Bokade, Asstt. Programmer (IT)

**Representatives of EIA Consultant (University of Kashmir):**

1. Dr. G. A. Bhat, Professor (Retired), University of Kashmir
2. Dr. Arshid Jehangir, Asstt. Professor, University of Kashmir
3. Dr. Samiullah Bhat, Asstt. Professor, University of Kashmir

**Speakers from the project affected villages:**

1. Sh. Gulam Mohammad Malik, Village Chanjer
2. Sh. Gulam Hassan Lone, Village Chanjer
3. Sh. Parvez Ahmed, Village Dehrana
4. Sh. Nasir Ahmed, Sarpanch Village Deharana
5. Sh Lakhmi Chand, Village Hanzal
6. Sh. Riaz Ahmed, Village Rad

In all more than 800 (Eight Hundred) people attended the public hearing the same can be viewed in video recording. The attendance sheet is enclosed as **Annexure-A**.

**Er. Sanjay Rathore, from J&K SPCB** started the proceedings of Public Hearing with the permission of Hon'ble Chairman. He welcomed the Chairman, Members of the Public Hearing Panel, Guests including EIA Consultants and the Public present on the occasion. He informed the public that the detailed features of the Project would be provided to them by the Project Proponents. He further informed the speakers to be precise and to-the point. Then he requested Dr. Yash Paul, to brief as to why public hearing is conducted for grant of environmental clearance for developmental Projects.

**Dr. Yash Paul, Sr. Scientist, J&K SPCB** welcomed the public participants and introduced about panel & officers of Project. He stated that as per the EIA Notification dated 14/09/2006 issued under purview of Environmental Protection Act, 1986 by the Ministry of Environment & Forests, Government of India, some specific large Projects falling under Schedule - 'A' & 'B' of the said Notification are required to undergo for the environmental public hearing and hence the environmental public hearing in respect of Bursar Project (800 MW) is being conducted. He requested each and every person having any doubt, suggestions, questions, views, etc about the proposed project, same can be expressed, for which time will be given to each person. He told that the proceedings of the Public Hearing shall be covered through videography.

YPR

Yash Paul

Yash Paul

Dr. Yash Paul, told that the proceedings of public hearing can be collected from J&K SPCB Office / DC Office by any one after one week of public hearing. He said that all the concerns of locals shall be communicated word by word to Ministry of Environment, Forests & Climate Change (MoEF&CC), Govt. of India for examination by Panel of Experts constituted by the Ministry.

Er. Sanjay Rathore then invited Sh. P. K. Langer, General Manager NHPC to explain about the details of proposed Bursar Project.

**Sh. P.K. Langer, General Manager NHPC**, briefed about the profile of NHPC Ltd and the Power Stations commissioned by NHPC across various states like Chamera-I, Chamera-II, Chamera-III in Himachal Pradesh, Tanakpur & Dhauliganga in Uttarakhand, Uri-I, Uri-II, Salal, Sewa-II, Nimoo Bazgo, Chutak, Dulhasti etc. in J&K, Rangit in Sikkim, TLDP-III, TLDP-IV & Teesta-V in West Bengal. He also briefed about the construction projects like Kishanganga in J&K, Subansiri Lower in Arunachal Pradesh, Parbati-II in Himachal Pradesh etc. He introduced about Survey and Investigation Projects of NHPC like Kotli Bhel- I and II, Dhauliganga Intermediate, Goriganga-III A, Wind Power Projects & Solar Power Projects.

He also explained about the salient features of Bursar Project like Dam height, HRT, Power Houses, design energy and its importance as National Project for our country to store water. He further told that Bursar Project is only Project under Indus Water Treaty where water can be stored for irrigation and power shall also be generated. He further explained the benefits of Bursar Project for regulating the discharge during winters for the downstream located Power Stations.

**Dr. Arshid Jehangir, Asstt. Professor, Kashmir University** informed the public that the EIA & EMP studies of Bursar Project have been carried out by CORD, University of Kashmir and they are the Consultants for the EIA & EMP Reports. The EIA Consultant explained about the EIA study, collection of three seasons data, various aspects studied during the period viz. flora & fauna, fisheries, Air, Water & Noise parameters, wildlife, riverine ecosystem, Land use/ Land cover, hydrology, meteorology, geological aspects, Socio-economic survey, demographic profile etc. and various impacts of Project in downstream area and other parameters. He also briefed the details of Geology, Air Quality, Water Quality and Socio-Economic data gathered in last two years. He explained about the Kishtwar high altitude National Park and door to door survey carried out for socio-economic study. He briefed the participants about the EIA report and

various environmental aspects by reading the Executive Summary in local language Urdu as well as in Kashmiri. He explained about the study area of Project and the objective of the study to assess the impacts. He told that various Environmental Management Plans have been prepared to mitigate the impacts of the proposed Project. The EIA Consultant explained about various aspects of management plans like CAT plan, biodiversity conservation plan, fish management plan, Public health management plan, waste management plan, Muck Disposal Plan, Rehabilitation & Resettlement and Local Area Development Plan, Air, Water & Noise management, Reservoir Rim Treatment & Green Belt Development Plan etc. He further explained the details of funds allocated for the various management plans. He briefed about the requirement of land for project and importance of e-flow for aquatic sustenance of ecology in downstream of Project. He also explained about the contents of EIA in local language.

**Dr. G. A. Bhat, Professor (Retired),** University of Kashmir clarified that Consultants from Kashmir University are not employees of NHPC and they are an independent agency. He also briefed about the impact assessment carried out by University of Kashmir and various management plans formulated by them and recommendations made in EIA & EMP reports to mitigate various impacts of Project.

**Dr. Shahid Ali Khan, General Manager (Environment),** NHPC Ltd briefed about Resettlement & Rehabilitation Plan for affected persons. He explained in detail about the villages and families affected due to creation of reservoir. He communicated that public hearing is a mandatory process for getting environmental clearances. The land and houses submerging in reservoir shall be surveyed and acquired after the clearance. The benefits provided under R&R plan is based on the latest R&R plan approved by Govt. of J&K for Kishanganga Hydro Project. All facilities shall be provided in R&R colony after consultation with Project Affected Families. Local area Development and community social development plan shall be implemented in Project area as goodwill. Medical and education facility of Project shall be extended to locals also. He stressed that without cooperation of local people no project can survive. He explained that the R&R benefits are over & above the compensation of land. He assured that the displacement shall be done only after making all arrangement to rehabilitate the affected persons.

**Er. Sanjay Rathore** appealed to the participants that they can give their suggestions/objections regarding the proposed project.

Accordingly, the views, suggestions, etc. expressed by the public participants are as follows:

**1. Sh. Ghulam Mohammad Malik, Village Chanjer**

- Literacy rate is very less in Marwah and locals cannot understand English
- CWC in 1962 had planned Bursar Project.
- We are facing power and energy shortage for 125 Crore population of India. Marwah is in dark ages since independence.
- We are welcoming the project if Hanzal and Dehrana are not submerged.
- We want Project to be developed but concerns in respect of environment, Geology, climate change and other aspects should be attended appropriately.
- A Technical College at Marwah should be developed so that the local people could develop their skills.
- 12 % to 15 % Power from project should be given for local area development.

**2. Sh. Ghulam Hassan Lone, Village Chainjer**

- He said that first speaker represented nearly all the concerns of local people.
- Villagers don't want to be displaced.
- The area is underdeveloped, so we are welcoming Bursar Project but not on cost of displacement from their motherland.
- People have fear about soil erosion, demographic changes, effect on winter pattern and climatic changes.
- Priority should be given to the locals in un-skilled, semi-skilled and skilled jobs.
- 10% of income generated from Power should be diverted for local area development.
- Hanzal, Dehrana, Machhana people don't want to be displaced.
- People are concerned about the submergence area of reservoir, so their fear should be eliminated.
- Bursar Project should come up but the village should not be displaced so that the development of this area can be done.

**3. Sh. Parvez Ahmed, Village Dehrana**

- He said no currency can buy our love for our land.
- If the height of dam is not reduced to avoid the submergence of the village Dehrana, then will not support any development.

**4. Sh. Nasir Ahmed, Sarpanch Village Dehrana**

- All the issues related to submergence of Dehrana should be properly attended and no basti from Marwah should be submerged:
- If Level of water is reduced, we are ready for project.

**5. Sh. Lakhmi Chand, Village Hanzal**

- The displacement from their residential place for the development of project is not acceptable to them .

**6. Sh. Riaz Ahmed, Village Raar**

- The state of J&K is having plenty of water resources and we don't want to share power with others.
- We have Right to Property and the locals have full right over their land asset it is not a compulsion to hand over the lands.
- The dam should not be constructed with submergence of villages ; Dehrana , Machhna and Hanzal .
- Level of water needs to be reduced to avoid displacement and submergence.

Shri P. K. Langer, General Manager, NHPC Ltd and Dr. Shahid Ali Khan, General Manager (Environment), NHPC Ltd, then gave clarifications to the above queries which is enclosed as **Annexure-B**.

**Shri Angrez Singh Rana**, District Magistrate, Kishtwar and Chairman of the public hearing panel then welcomed the public and explained the benefits of development of projects for such an under privileged area. He shared his personal experience of developmental projects at his native place which was also an unprivileged area and further briefed that development is essential for this area and it takes years to be developed for any area. He said, attachment of a person from his land is natural and even the temporary stay at any place generates the emotional attachment with the place, so why not with the permanent residents of a place like yours. He also told that 1% of generation cost income from project will be used for local area development and the compensation be provided to the project affected families shall be at par with Kishanganga Project.

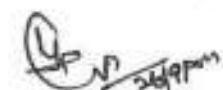

Further, The District Magistrate, Kishtwar concluded the meeting and assured the public that their concerns regarding reduction in dam height shall be reflected in minutes of meeting of public hearing report and the same shall be communicated to Ministry of Environment, Forests & Climate Change (MoEF&CC) for considerations.

#### **Conclusion & Recommendations:**

Large number of people were present during the public hearing meeting, however, many people have not signed the attendance sheets with the apprehension that their signatures may be considered as the consent to acquire their land. Most of the people present were in favor of project, however some were concerned about the displacement of people from villages, Hanzal, Machhna and Dehrana. As such, they demanded that the dam height be reduced so that these villages don't come under submergence.

ANNEXURE-B

SUB: PUBLIC HEARING- BURSAR PROJECT

QUERIES RAISED BY THE PUBLIC AND CLARIFICATION GIVEN BY THE PROJECT PROPONENT DURING PUBLIC HEARING DATED 21.09.2017, NEAR VILLAGE TILLER, TEHSIL MARWAH, DISTRICT KISHTWAR, JAMMU & KASHMIR

S.No.	QUERY RAISED	NHPC's REPLY
1.	There are concerns about impacts on ecology, geology, climate change, demographic changes and other aspects of environment in downstream of Dam.	Regarding concerns of ecology & environment on downstream impact, it was intimated to the public that a dam toe power house has been planned to release the e-flow as prescribed by MoEF&CC at the time of accord of ToRs. As per EIA/EMP report 20, 25, 30 percentage of average flow in various seasons has been proposed to take care of ecology in downstream areas.
2.	Fear about soil erosion/land slide.	All the technical aspects of the Project have been duly considered in the DPR. Further, thorough studies have been carried out regarding soil erosion/ land slide prone zones in the Project area. These aspects have also been studied in detail as a part of Environmental Impact Assessment. Suitable mitigatory measures have been proposed under the Reservoir Rim Treatment Plan & Green Area Development Plan to treat any such vulnerable area. Many engineering & biological provisions have also been considered in the catchment area treatment plan (CAT Plan) including afforestation, check dams etc. to prevent the soil erosion/ landslides etc.
3.	The area is underdeveloped from a long time so development is needed but the inhabitant of Hanzal, Dehrana and Machhana	Already 02 alternatives have been explored one dam site at Hanzal and second Dam site at Pakal. However dam site at Hanzal was creating the more

	<p>don't want displacement from their places.</p>	<p>submergence and thereon displacement of large number of population. As such, the Govt. of India selected the second alternative i.e. Dam site at Pakal to minimize the large displacement of families.</p> <p>Regarding displacement, a proper Resettlement &amp; Rehabilitation Plan has been prepared for appropriate compensation. As such, the R&amp;R plan of Bursar project has been revised in line with the R&amp;R plan of Kishanganga Project. The concerns regarding displacement of people would be reflected in the Public Hearing report and communicated to the MoEF&amp;CC.</p> <p>Regarding development of the area, the Project will bring many developmental activities and further, many provisions have been kept in Environmental Management Plan for development of the Project area like Local area development Plan, Energy conservation measures etc. which would surely uplift the economy of the area with overall development.</p>
4.	<p>Height of dam should be reduced so the submergence of villages can be avoided.</p>	<p>On the demand of local public / speakers for reduction of the dam height, it was explained by General Manager, Dulhahsti Power Station that 02 alternatives were explored one dam site at Hanzal and second Dam site at Pakal. However dam site at Hanzal was creating the more submergence and thereon displacement of large number of population. As such, the Govt. of India selected the second alternative i.e. Dam site at Pakal.</p> <p>He also explained the provision of Indus water Treaty that keeping this in view Bursar project has been planned as a storage scheme with storage of 0.5 MAF of water for irrigation and generation of</p>

		electricity. GM, NHPC emphasized that as such further reduction in dam height is not possible due to technical reasons.
5.	Providing of technical college in the area so the local population can develop their skills.	It was explained that the eligible persons are provided skill trainings in the technical institutes through National Skill Development Programme. It is not easy to establish such big Institute for few Candidates as the purpose of opening this type of Institute is to benefit people in large. However, the eligible candidates can be provided required technical training through National Skill Development Programmes.
6.	12 - 15 % of free power from project for the local area development.	12% free power to the State would be provided however, Project cannot directly provide the free power at its own and it is in the hands of J&K Govt. if free power can be provided to the locals. If any such policy of providing the free electricity to the affected families/ locals comes into effect in near future, the same shall be implemented.
7.	What will be effect on winter pattern and what shall be done to mitigate it?	<p>All the technical aspects have been duly considered while survey &amp; investigation and preparation of DPR. Further, all the environmental aspects have been studied in detail by the Consultant Organization, CORD, University of Kashmir. Alongwith other parameters, the hydrological and meteorological aspects (including river discharge, rainfall, snowfall, humidity, temperature etc.) and any impacts thereof have also been studied in detail during EIA of the Project.</p> <p>No changes in the winter pattern of the area have been anticipated due to construction of the Project. Suitable Environmental Management Plans have been formulated to mitigate any adverse</p>

		impact on the environment due to the construction of Project.
8.	Priority shall be given to the local population in skilled/semi skilled and unskilled jobs.	<p>The employment to the locals will be provided indirectly through Contractors as there is no such policy of direct employment on permanent basis. The priority would be given to the Candidates from Project Affected Families (PAFs) and locals for these job. Further, the training would be provided to the eligible Candidates from affected families for skill development.</p> <p>The development of Project in the area would bring many employment opportunities which would surely uplift the socio-economic scenario of the region.</p>
9.	10 % of income generated from Power shall be diverted to local area development.	As per the policy of Govt. of India, 1% of the cost of generation of the Power Station in an year is allocated for the local area development alongwith 1% contribution from State Government.

**MINUTES OF ENVIRONMENTAL PUBLIC HEARING IN RESPECT OF BURSAR PROJECT (800 MW) CONDUCTED ON 23/09/2017 AT 11.00 A.M. NEAR VILLAGE LOPARA, TEHSIL DACHHAN, DISTRICT KISHTWAR, JAMMU AND KASHMIR**

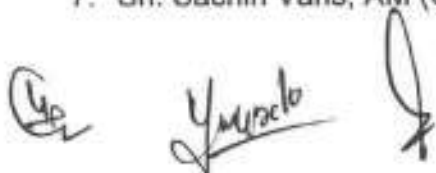

The public hearing for environmental clearance in respect of Bursar Project (800 MW) to be executed by NHPC Ltd, was conducted by J&K State Pollution Control Board on 23/09/2017 at 11:00 AM near village Lopara (Tehsil Dachhan), District Kishtwar, J&K. A large number of people from Project affected area and other adjoining areas of Tehsil Dachhan namely Lopara, Bhardoo, Chichha, Sirshi, Janakpora, Trungai, Pakal, Bhatpora, Dilgoot, Thachana, Panjdihara, Suid etc. were present on the occasion.

**Following panel members were present during the public hearing:**

- |   |          |
|---|----------|
| 1. Sh. Kishori Lal Sharma<br>Additional District Magistrate (ADM)<br>District Kishtwar  | Chairman |
| 2. Dr. Yash Paul<br>Sr. Scientist ,Head Labs/State Board Analyst<br>J&K State Pollution Control Board,Jammu<br>(Representative of Regional Director ) | Member   |
| 3. Sh. Mukesh Singh Bali<br>Divisional Officer,<br>J&K State Pollution Control Board,<br>Kishtwar   | Member   |

**Representatives of NHPC Limited:**

1. Sh. P K Langer, General Manager
2. Dr. Shahid Ali Khan, General Manager (Environment)
3. Sh. Umesh Parihar, Manager (Civil)
4. Sh. Farooq Ahmed Beg, Manager (Civil)
5. Sh. Shashi Paul Singh, Manager (Environment)
6. Sh. Rahul Srivastava, AM (Environment)
7. Sh. Sachin Vans, AM (Civil)

8. Sh. Bhuvneshwar Singh Yadav, Engineer (Electrical)
9. Sh. Vinit Kumar Gupta, PRO
10. Sh. Rajesh Bokade, Asstt. Programmer (IT)

**Representatives of EIA Consultant (University of Kashmir):**

1. Dr. G. A. Bhat, Professor (Retired), University of Kashmir
2. Dr. Arshid Jehangir, Asstt. Professor, University of Kashmir
3. Dr. Samiullah Bhat, Asstt. Professor, University of Kashmir

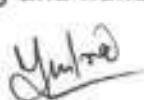

**Speakers from the project affected villages:**

1. Sh. Madan Lal, Village Lopara
2. Sh. R.N. Ganjoo, Village Batpora
3. Sh. Joginder Lal, Village Batpora
4. Sh. O.P. Parihar, Village Panjdihara
5. Ghulam Nabi Sagar, Village Suid
6. Sh. Haji Mohd. Ramzan, Village Chicha
7. Sh. Brijnath Dhar, Village Batpora

In all more than 300 (three hundred) people attended the public hearing. The attendance sheet is enclosed as **Annexure-A**.

**Er. Sanjay Rathore from J&K SPCB** started the proceedings of Public Hearing with the permission of Hon'ble Chairman. He welcomed the Chairman, Members of the Public Hearing Panel, Guests including EIA Consultants and the Public present on the occasion. He informed the public that the detailed features of the Project would be provided to them by the Project Proponents. He further informed the speakers to be precise and to-the point. He then requested Dr. Yash Paul, Sr. Scientist, J&K State Pollution Control Board, to brief as to why public hearing is conducted for grant of environmental clearance for developmental Projects.

**Dr. Yash Paul, Sr. Scientist, J&K SPCB** welcomed the public participants and stated that as per the EIA Notification dated 14/09/2006 issued under purview of Environmental Protection Act, 1986 by the Ministry of Environment & Forests, Government of India, some specific large projects falling under Schedule - 'A' & 'B' of the said Notification are required to undergo for the environmental public hearing and hence the environmental public hearing in respect of Bursar Project

(800 MW) is being conducted. He requested to each and every person that any kind of doubt, suggestions, questions, views, etc about the proposed Project, can be expressed, for which time will be given to each person. He told that the proceedings of the Public Hearing shall be covered through videography.

**Dr. Yash Paul** told that the proceedings of public hearing can be accessed from J&K SPCB Office / DC Office by anyone after one week of Public Hearing. He briefed about the importance of Hydro Electric Projects and their direct and indirect impacts on environment like deforestation, flora and fauna, Biodiversity and on local people of Project area. He said that all the concerns of locals shall be communicated to Ministry of Environment, Forests & Climate Change (MoEF&CC), Govt. of India for examination by Panel of Experts constituted by the Ministry.

Dr. Yash Paul then invited Sh. P. K. Langer, General Manager NHPC to explain about the details of proposed Bursar Project.

**Sh. P.K. Langer, General Manager NHPC**, briefed about the profile of NHPC Ltd and the Power Stations commissioned by NHPC across various states like Chamera-I, Chamera-II, Chamera-III in Himachal Pradesh, Tanakpur & Dhauliganga in Uttarakhand, Uri-I, Uri-II, Salal, Sewa-II, Nimoo Bazgo, Chutak, Dulhasti etc. in J&K, Rangit in Sikkim, TLDP-III, TLDP-IV & Teesta-V in West Bengal. He also briefed about the construction projects like Kishanganga in J&K, Subansiri Lower in Arunachal Pradesh, Parbati-II in Himachal Pradesh etc. He introduced about Survey and Investigation Projects of NHPC like Kotli Bhel- I and II, Dhauliganga Intermediate, Goriganga-IIIA, Wind Power Projects & Solar Power Projects.

He also explained about the salient features of Bursar Project like Dam height, HRT, Power Houses, design energy and its importance as National Project for our country to store water. He further told that Bursar Project is only Project under Indus Water Treaty where water can be stored for irrigation and power shall also be generated. He further explained the benefits of Bursar Project for regulating the discharge during winters for the downstream located Power Stations.

**Dr. Arshid Jehangir, Asstt. Professor, Kashmir University** explained that EIA/EMP reports of Bursar Project were prepared by university of Kashmir after collecting data from 2014 to 2016. He explained about the study area of Project,

the objective of the study is to assess impact and its cost benefit analysis. The EIA consultant briefed about the study carried out by them for flora & fauna, fisheries, Air, Water & Noise parameters, wildlife, riverine ecosystem, geological aspects, Socio-economic survey, demographic profile, Land use/ Land cover pattern, Soil etc. and various impacts on downstream of the Project and other parameters. He told that the Environmental management plan has been prepared to minimize the impact of Project on the environment. He explained about the various Environmental Management Plans like CAT plan, biodiversity conservation plan, fish management plan, Public health management plan, waste management plan, R&R and Local area development plan, Reservoir Rim Treatment and Green Belt Development Plan, Muck Disposal Plan etc.. He also informed the public about the details of fund allocated for these plans. He briefed about the requirement of land for project and importance of e-flow for aquatic sustenance in downstream of Project. He explained about various aspects of Dam break analysis and safety measures adopted under disaster management plan and Emergency Action Plan.

**Dr. Shahid Ali Khan, General Manager (Environment), NHPC Ltd** briefed about the planning of Bursar Project. He told R&R/environment & ecology aspects are of more concern after technical aspects. He briefed about the two alternatives proposed for project and the selection of Dam site at Pakal to minimize the displacement/ R&R issues. He told the selection of Pakal site was done in consultation with Govt of J&K, Govt of India & NHPC. He explained that the R&R benefits are over & above the compensation of land. He assured that the displacement shall be done only after making all arrangements to rehabilitate the affected persons. He explained about the local area development fund and its use in developmental activities in & around the project affected area. He told that a final survey shall be done by state revenue department to finalize the list of affected persons and the consultation shall be done with project affected families for the same.

**Er. Sanjay Rathore, appealed to the participants that they can give their suggestions/objections regarding the proposed project.**

Accordingly, the views, suggestions, etc. expressed by the public participants are as follows:

**1. Sh. Madan Lal, Lopara**

- Some will lose lands, some will lose house and some will lose both, what will be done for them. Monetary compensation cannot compensate the need for successive generations.

- Tremendous ecological effects are involved in development of hydro power project.
- Priority should be give to the development of local area & its people. Employment compensation for all.
- Provide free electricity to local as thanks for giving their lands for the development of project
- NHPC colony should be constructed in Lopara.
- Every Project shall have priority to develop human first.

## 2. Sh. R. N. Ganjoo, Village : Bhatpora

- He said that he heard about the Bursar project in his child hood and now he is at the old age and still the project is not being established.
- We are not against Project, the construction of project should be done after proper rehabilitation of affected persons.
- The lal chawal(Red Rice Cultivation) of Dachhan is famous in area and the paddy fields are the identity of Dachhan. So try to save our paddy fields as our identity part.
- Electricity is necessary for development activities and for the development of Nation.

## 3. Sh. Joginder Lal, Village: Bhatpora

- He said our two representatives including one senior citizen have already discussed about our views for project. A public meeting at high school was conducted regarding sanction of Bursar Project by Govt of India.
- After meeting people decided that the cost of land should be paid 10 times more than the present rate i.e. 50 to 60 lakhs per kanal as the land is very limited in Dachhan area (representation through Mr. Baij Nath Dhar, Namberdar, Halqa Lopara enclosed as **Annexure-C**).
- Employment preference should be given to the locals of Dachhan area for skilled & unskilled category.
- Free electricity should be given to the stake holders of Bursar project. In this regard, if demand not fulfilled the question of development of bursar would not arise.
- People of Dachhan are real stake holder, so employment preference should be given to the stake holders and only after that to the other people.

**4. Sh O. P. Parihar, Village: Panjdihara**

- We are happy that representative from Govt. of India and other agencies have come to listen us before start of Project and visited Dachhan area.
- For Pakaldul project the land was taken from us without our prior consent and we came to know only at the time of acquisition.
- The land compensation rates for each village were different for both irrigated and un-irrigated type.
- We are having very less land, so I am urging ADM, Kishwar that our people should be the real beneficiaries.
- We all people of Dachhan want employment rather we are losing the land of not losing the land.

**5. Ghulam Nabi Sagar, Village: Suid**

- The people of Dachhan are very happy with the construction of the Project.
- Our main source of income is our land.
- The public meeting is not a function. This is the time to listen the pain of our heart.
- He shows his apprehension about the actual implementation of plan and the proposal shown at the time of start of project.
- The compensation of land can only not be a substitute for our lands, which are required to be increased.

**6. Sh Haji Mohammed Ramzan, Village: Chicha**

- We are waiting for development of our area for years. Chicha and Lopara villages are losing their land and houses.
- Many land owners/kabij of land are still not having their names in land records. The land records may be updated for 400 kanals of chicha.

**7. Sh. Brij Nath Dhar, Village: Bhatpora**

- We are underprivileged class people having less land like one kanal or two kanals.
- Job for each & every family of Dachhan area as permanent employee in NHPC.
- Proper construction of Dam reservoir should be done so that the soil erosion and landslides around the reservoir periphery can be avoided and the people residing in that area should be protected.

- Free electricity to Dachhan area on regular basis.
- A technical institute may be open at our area so the locals of this area can be skilled for future employment.
- Land rates at Lopara are very low whereas the land prices at district level are very high. So we will not be able to buy land at other places after acquisition of our lands at Lopara.

Shri P. K. Langer, General Manager, NHPC Ltd and Dr. Shahid Ali Khan, General Manager (Environment), NHPC Ltd, then gave clarifications to the above queries which is enclosed as **Annexure-B**.

The memorandum submitted by the Project Affected Families (PAFs) is enclosed herewith as **Annexure-C**.

**Shri Kishori Lal, Additional District Magistrate (ADM), Kishtwar** and Chairman of the public hearing Panel then gave concluding remarks. He said that the public hearing is mandatory for Environmental Clearance for such Projects as the Ministry of Environment and Forests seeks the views and mandate of public of Project area. Locals are concerned about their future and their lands. He said that the studies and plans are in its preliminary stage and shall be finalized at the time of implementation of the Project. The rivers and forests are national resources and the property of the Nation. Forest dwellers have first right to enjoy forest produce and same as for rivers. He briefed about development of Dulhasti Power Station and also highlighted the role of Dulhasti Power Station in up-liftment of Kishtwar area. The roads, bridges and electricity in Kishtwar are due to Dulhasti Power Station. Cost benefit ratio is an important parameter for establishment of any Project. If the cost of project is too high then the Project becomes financially unviable.

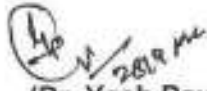

The Additional District Magistrate, Kishtwar, who presided over the public hearing meeting asked the participants to raise their hands who are in favor of the development of Bursar project. In response to this, all the people present in the Public Hearing function raised their hands in support of Bursar Project which can be viewed in the Videography. Further, a memorandum was submitted by the local public representatives of the area (Copy enclosed as Annexure-C) revealed that the locals demanded for appropriate land compensation, genuine employment package, free electricity and construction of NHPC Housing Colony in the vicinity of this village Lopara and also declared that nobody is against the Bursar Project.

The meeting concluded with vote of thanks by Sh. Mukesh Singh Bali, Divisional Officer, SPCB, Kishtwar to the Chair , all the Govt. officers /officials, senior citizens , project affected families and other participants present on the occasion.

#### **Conclusion & Recommendations:**

Almost all the people were in favor of Project however they were concerned about the compensation of agricultural land to be acquired. The locals want the appropriate compensation for their lands over and above to the current government rates .The locals also desired that t the Project Colony should be developed in the vicinity of their village at Lopara .

**ANNEXURE-B**

**SUB: PUBLIC HEARING- BURSAR PROJECT**

**QUERIES RAISED BY THE PUBLIC AND CLARIFICATION GIVEN BY THE PROJECT PROPONENT DURING PUBLIC HEARING DATED 23.09.2017, NEAR VILLAGE LOPARA, TEHSIL DACHHAN, DISTRICT KISHTWAR, JAMMU & KASHMIR**

S.No.	QUERY RAISED	NHPC's REPLY
1.	Some will lose land, some will lose home and some will lose both. What will be done for them?	During the consultation with Additional District Magistrate, Kishtwar before public hearing, It was discussed that as per policy of J&K Govt., the R&R plan for Bursar project would be in line with that of Kishanganga HE Project which has already been approved by the J&K Government. Accordingly R&R plan of Bursar project was revised in line with the R&R plan of Kishanganga Project which was presented during the Public Hearing. Appropriate compensation would be provided for the home, land or any other asset/ structure.
2.	Employment compensation, provide skill to local so they can be absorbed in project works.	With development of Project in the area, many employment opportunities would come up. However, the employment to the locals will be provided through Contractors as there is no such policy of direct employment on permanent basis. Further, the locals would be given priority in these contractual jobs. The training would be provided to the eligible from affected families for skill development.
3.	Provide free energy to locals/stakeholders of projects as thanks for giving land for project.	12% free power to the State would be provided however, Project cannot directly provide the free electricity and it is in the hands of J&K Govt. if free power can be provided to the locals. If any such policy of providing the free electricity to the affected families/ locals comes into effect in near future, the same shall be implemented here also.

4.	Cost of land shall be given 10 times of current price because land is very limited in the area.	As per policy of J&K Govt., the R&R plan for Bursar project has been revised in line with that of Kishanganga HE Project which has already been approved by the J&K Government.
5.	Compensation of land can only not be a substitute for our lands.	Appropriate compensation would be provided for the land to be acquired for the Project. The R&R plan for Bursar project has been prepared in line with that of Kishanganga HE Project which has already been approved by the J&K Government. Many other benefits like indirect employment opportunities etc. would also come up with the development of Project.
6.	Job for each family of Dachhan area in NHPC on permanent payroll.	With development of Project in the area, many employment opportunities would come up. However, the employment to the locals will be provided through Contractors as there is no such policy of direct employment on permanent basis. Further, the locals would be given priority in these contractual jobs. The training would be provided to the eligible from affected families for skill development.
7.	A technical institute may be opened here so the locals of this area can be skilled for future employment opportunity.	It was explained that the eligible persons are trained in the technical institutes through National Skill Development Programme and one such institute is situated at Patiala (Punjab). It is not easy to establish such big Institute for few Candidates as the purpose of opening this type of Institute is to benefit people in large. However, the eligible candidates can be provided required technical training through National Skill Development Programmes.
8.	Land rates are decided as average of three sales deed, which is very less here. So after providing their land they cannot buy the land at other good places.	The land rates are decided and increased from time to time by the concerned Revenue Authorities of Jammu and Kashmir Government. Appropriate compensation would be provided for the

Q

Ymb

4

		land to be acquired in line with R&R Plan approved for Kishanganga HE Project.
9.	Provision of free electricity to Dachhan area on regular basis.	12% free power to the State would be provided however, Project cannot directly provide the free electricity and it is in the hands of J&K Govt. if free power can be provided to the locals. If any such policy of providing the free electricity to the affected families/ locals comes into effect in near future, the same shall be implemented here also.
10.	Fear about soil erosion/land slides around the reservoir boundary	All the technical aspects of the Project have been duly considered in the DPR. Further, thorough studies have been carried out regarding soil erosion/ land slide prone zones in the Project area. These aspects have also been studied in detail as a part of Environmental Impact Assessment. Suitable mitigatory measures have been proposed under the Reservoir Rim Treatment Plan & Green Area Development Plan to treat any such vulnerable area. Many engineering & biological provisions have also been considered in the catchment area treatment plan (CAT Plan) including afforestation, check dams etc. to prevent the soil erosion/ land slides etc.

To

The Divisional Officer  
Jark State Pollution Control Board  
Doda kishtrwar

Sir,

Kindly find enclosed herewith a memorandum  
with regards to the environment clearance of  
Bansar Hydropower Project for favour of  
information and further necessary action,  
at your end please.

Yours Faithfully,

*[Signature]*  
Bijendra Kumar  
Manager  
Dachhan

# PUBLIC MEMORANDUM

Today on 22-09-2017 at meeting of the residents of the area was held under the chairmanship of Sh. Raj Nath Lambardar Bhatpara. The agenda of the meeting (which was attended by the prominent citizens of the area) was to put forward the grievances and apprehensions regarding the establishment of a hydropower project at Boursar. The issues discussed are as under:-

1. Providing of appropriate land compensation for those people whose land is going to be procured for Boursar hydropower project @ Rs. 50-60 Lakh/canal atleast
2. Genuine Employment package skilled as well as unskilled for the area wherein the 1st priority be given to the stake holders (people of vill-Lopara, Bhandari, Bhatpara & Chichha)
3. Free electricity to the inhabitants of the area as a gesture of thankfulness for the sacrifice of the people of the area
4. Construction/Establishing NHPC Housing Colony in the vicinity of village Lopara which is suffering most of the losses

It was unequivocally decided that nobody is against the setting up of Boursar Hydropower project but the genuine grievances of the area need to be addressed at first.

Convenor  
Raj Nath Dhar  
Numberdar  
Hajra Lopara Bhatpara

# Manoj Sinha launches BSNL's digital wallet eyeing semi-urban, rural India

NEW DELHI, Aug 18.

Moving forward with Prime Minister Narendra Modi's 'Digital India' mission, the Bharat Sanchar Nigam Limited has gone digital by launching a bespoke mobile wallet that would enable its existing 100 million customers to make bill payments and transact on e-commerce platforms.

This digital wallet was launched yesterday at a special function by Minister for Telecommunications Manoj Sinha. On the occasion, Mr Sinha said, "This special initiative will take us closer to realising our PM's vision of making India a digital superpower."

With this co-branded wallet, the ease of payment will be extended to all the customers while equally strengthening financial inclusion in the rural hinterlands, which often get neglected.

"Going digital is the need of an hour for both urban and rural areas, and this partnership is definitely a step in right direction," said the Telecom Minister.

The wallet has been developed and issued by MobiKwik on behalf of BSNL.

With over 1.5 million merchants on the network, the BSNL Wallet is India's largest wallet by any telecom company.

The app enables fastest online recharges, bill payments, shopping and bus booking. It is the most secure, simple and fastest way to recharge your mobile phone.

Users can get all top ups, SMS, data, local, STD, ISD, post-paid, DTH plans, vouchers and full talk time recharge offers. Users can also pay for IRCTC train tickets with BSNL wallet.

According to Anupam Srivastava, CMD, BSNL, "Through this strategic partnership between BSNL and

MobiKwik, we are taking another important milestone in achieving our Hon'ble PM Modi's vision of enabling and making India a less-cash society based on his grand vision of digital India.

We at BSNL are proud to be part of this programme and will ensure that all our 100 million BSNL customers will be able to seamlessly and conveniently transact and pay mobile and other financial payments through the co-branded 'MobiKwik wallet' (PTI)

ees for taking care of their newborn child.

"Women with disabilities shall be paid Rs 3,000 per month as special allowance for child care. The allowance shall be payable from the time of the child's birth till the child is two years old," an order issued by Department of Personnel and Training (DoPT) said.

It shall be payable for a maximum of two eldest surviving children, it said.

The above limit would be automatically raised by 25 per cent every time the Dearness Allowance on the revised pay

panel.

"The Commission recognises the huge responsibility that these women shoulder while raising their children. Therefore, instead of the factor of 1.5 that we have mostly used for semi-DA indexed allowances, it is recommended that this allowance be raised by a factor of 2 to Rs 3,000 per month," the commission had said in its report.

The DoPT has abolished desk allowance granted to Desk Officers in the Central Secretariat Service (CSS) and other headquarters services at a rate of Rs 900 per month (PTI)

All interested persons/Organizations/groups are invited to participate in the above mentioned Public Hearing on the aforementioned date, venue and time and make their suggestions, view/comments and objections, if any, to the authorities conducting the public hearing.

DIP/K-NB-1277/17, Dt: 18-8-2017

Member Secretary

As discussed in the meeting

पार्टी उपाध्यक्ष राहुल गांधी का गोरखपुर यात्रा को पिकनिक बताने के मुख्यमंत्री योगी आदित्यनाथ के कटाक्ष पर करारा बलटवार किया है। पार्टी ने कहा है कि देशक गोरखपुर पिकनिक नहीं मासूम बच्चों का मुर्दे स्थल बन गया है।

गोरखपुर मेडिकल कॉलेज में ऑपेसीजन की कमी को गंभीर लापरवाही बताते हुए पार्टी ने कहा कि मुख्यमंत्री और सांसद दोनों के नाते योगी अपनी जवाबदेही से बच नहीं सकते। कांग्रेस प्रवक्ता अभिषेक मनु सिंघवी ने कहा कि मुख्यमंत्री यह

पपकनक स्थल नहीं है। अगर वह बच्चा की हत्या लापरवाही और नाकामी का स्थल है। उन्होंने कहा कि मुख्यमंत्री का कठोर उपाध्यक्ष की यात्रा पर की गई टिप्पणी ने केवल ओछे बल्कि शर्मनाक है। राहुल गांधी इस लापरवाही की वजह से मौत के शिकार हुए बच्चों के परिजन से सहानुभूति जताने, सरकार की नाकामी को लेकर जागरूकता पैदा करने के लिए कहा गया। इसलिए योगी का इसे पिकनिक बताना मौत के शिकार हुए मासूमों का अपमान है।

## मामने आई लाक कथा

यलेंट की मांग को लेकर फौट की महिला की तलाक याचिका कोर्ट ने टॉयलेट न बनाकर को मानसिक क़रता स्थिति माना

## सोने और उठने-बैठने के लिए अलग कक्ष की मांग जायज

क्यायाघोष ने कहा कि प्रार्थी ने विवाहित दुहेला होने के नाते यह मांग की थी कि उसके लिए घर में सोने और बैठने-बैठने के लिए अलग कक्ष होना चाहिए। महिला की ऐसी मांग करना गैर प्राजिस मन्दी समझा जा सकता। साथ ही एक महिला होने के नाते प्रार्थी को यह अधिकार है कि उसकी निजता और श्रुतीयोचित गरिमा बनी रहे। न्यायाधीश ने आदेश में कहा कि परिवार की आवश्यकता और महिलाओं के मान-सम्मान के लिए शौचालय अपरिहार्य है। 21वीं सदी के इस दौर में खुले में शौच की प्रथा समाज के लिए कालेज

## हरियाणा में भाजपा विधायक समेत 200 लोगों पर केस

जामरुण संवत्सदाता, करनाल : हरियाणा के असम में पत्रकारों पर हमले के मामले में पुलिस ने भाजपा विधायक बख्शीरा सिंह समेत लगभग 200 लोगों के खिलाफ हत्या के प्रयास समेत विभिन्न धाराओं के तहत केस दर्ज किया है। यह भी आरोप है कि विधायक को राह पर श्री सिख समाज के युवाओं ने शुक्रवार को बाजार में उपद्रव किया था। घटना की कथरेज करने आए पत्रकारों पर इन युवकों ने हमला किया और उनके कैमरे व मोबाइल फोन तोड़ दिए थे।

होंगे। इसके लिए मंत्रालय ने भारी-भरकम बजट का भी प्रावधान किया है। मंत्रालय के मुताबिक, इस दिशा में आस्ट्रेलिया, अमेरिका सहित दुनिया के

करना भी है। वैसे भी पिछले कुछ सालों में अध्ययन के लिए भारत आने वाले विदेशी छात्रों की संख्या लगातार घट रही है। इसको लेकर मंत्रालय अपनी चिंता जता चुका है।
