Ref: Proposal No. IA/RJ/IND2/89107/2015

Subject: Submission of Final EIA report for APIs and Bulk drug production unit at SP-3, 10 & 11, RIICO Industrial area, Village Keshwana Rajpoot, Kotputli (Rajasthan) by M/s Otsuka Chemical India Pvt Ltd.

Dear Sir;

We are pleased to submit Final EIA/EMP report along with necessary annexure based on the Terms of Reference (TOR) prescribed by MOEF&CC Vide letter No. J-11011/190/2017-IA-II(I) dated 30th May 2017.

The project comes under "project and activity-5 (f) of schedule" in "Category B" as per EIA notification 2006 and amendment thereof. But due to presence of state boundary Rajasthan and Haryana at a distance of 2.38 KM from the project site, general condition shall be applicable on the project and thus the Category will change to „A" and thus appraisal required by MoEF&CC, New Delhi.

We trust that enclosed document in line with your requirement and request you to process our proposal for Environment Clearance.

Thanking You
