EC Application

Amendment in Existing CRZ Clearance of Society for Rehabilitation of Crippled Children, Mumbai

Application for Modification of Building and construction project - Construction of Children’s Hospital for Crippled Children, Haji Ali Park, Mumbai, Maharashtra

09th April, 2015, Thursday

Applicability of Risk Assessment

The Society for Rehabilitation of Crippled Children (SRCC) is a 62 year old society serving the needs of children from all sections of society. In 1947, a volunteers group stated a clinic for treating with poliomyelitis. This resulted in SRCC.

As this is a construction project i.e. construction of Hospital, involving built up of 24,411.28 sqm with Basement + Ground Floor + Four Upper Floors, Risk Assessment is not applicable to the Project.
