The Member Secretary,
State Level Environmental Impact Assessment
Authority- Tamil Nadu,
Chennai-600 015

Letter No. 33M/DB/JDO.2 /F.53(SEIAA)/2022/Date:14.02.2022.

Sir,

Sub: Request for Amendment in EC for Mode of Loading & Transport

Ref: 1. SEIAA File No. 8151
2. Environmental Clearance Lr. No. SEIAA-TN/F.No.8151/EC/
1(a)/4884/2020, dated: 03.11.2021

In the reference cited, Tamil Nadu State Level Environmental Impact Assessment Authority has awarded Environmental Clearance for Veeramangudi (Devangudi) Sand Quarry located at Veeramangudi (Devangudi) Village of Papanasam Taluk in Thanjavur District.

As per the conditions contemplated in the Environmental Clearance, the Mechanism of mining operation is restricted to Manual and Transportation is restricted to Bullock carts. Due to covid-19 pandemic situation. The Lease Agreement for this for Veeramangudi (Devangudi) Sand quarry has not been executed.

And now, The Tamil Nadu Government has decided to resume the Sand quarry operation to fulfil the state sand demand. But, expected demand for sand is much higher than the probable supply which could not be met out from the existing sand quarries of the state. Hence the rate of supply needs to be increased to satisfy the huge demand from the public and Government projects as well. This can only be done through Machinery Loading and General Transport.

Hence it is requested that mining mechanism for Veeramangudi (Devangudi) Sand quarry operation may please be amended as Machinery and Transportation mechanism as General (All available mode of Transport) at the earliest.

Enclosure:-

Copy of SEIAA.
