➤ **Recommendation of the SEAC :**

The proponent was advised on 22.12.2014 to attend the SEAC meeting scheduled on 05.01.2015. The proponent has not attended the meeting. However, the Committee has examined the issue based on the material available on the records including Hon'ble High Court order dt.16.12.2014 in W.P.No.38326/2014. The Committee noted that as per EIA notification 2006, the validity period of EC may be extended by regulatory authority concerned by a maximum period of 5 years, provided an application is made to the regulatory authority by the applicant within the validity period, together with an updated Form I on recommendation of SEAC. However, in this case, the EC issued by the authority, expired on 21.05.2014, whereas the proponent has submitted representation for extension of EC only on 15.11.2014 and 05.12.2014 without updated Form I. The Committee also noted that as per MoEF notification No.S.O.674 (E), dt.13.03.2013, no environmental clearance shall be required for a mining project or activity at the time of renewal of mining lease, which has already obtained Environmental Clearance under this notification. Accordingly, the Committee opined that extension of EC in this issue does not arise.
