

Minutes of the 209th meeting of State Environment Impact Assessment Authority (SEIAA), Odisha, held on dated 27.06.2018, 29.06.2018 and 30.06.2018 at 11.00 a.m.

The 209th meeting of the SEIAA, Odisha was held under the Chairmanship of Shri S.C Mohanty, on 27.06.2018, 29.06.2018, and 30.06.2018 in the office chamber of the Chairman. The following members were present in the meeting.

Members Present:

1. Shri S.C Mohanty, Chairman
2. Dr. S. P. Das, Member
3. Shri K. Murugesan, Member Secretary

Discussions were held as per agenda circulated earlier and decisions /orders /observations in regard to grant of EC emerged as follows:

1. Clarification / Information received by SEIAA from the Project Proponent.

Sl. No.	Date of online receipt of the proposal	Date of sending E-mail to PP for seeking additional information, if any after preliminary scrutiny by MS/ Env. Engr. / Date of Despatch of acceptance letter and asking for submission of hard copy of the proposal / Date of receipt of hard copy of the proposal for TOR / for EC.	Proposal File No.	Category of the proposal	Project / Activity applied for	Name of the proposal	Name of the project proponent along with contact details	District /Tahasil	Gist of appraisal report / Communication received from SEAC	Observations / Minutes of SEIAA meeting (To be uploaded to relevant website of MoEF&CC, and communicated to concerned quarters by post)

1	2	3, 4, 5	6	7	8	9	10	11	12	13
1.	23-Nov-17	- 24-Nov-17 30.11.17	20996/ 06- NCMB1/ 11-2017	Sand	Non-coal Mining	Kuakhai River Sand Mine-48.81 ha located at Village-Umadeibra hmapur, Alarpur, Hatajasuapur, Hirapur, Tahasil-Balianta, District-Khorda	Kamal Kumar Patra	Khorda	The SEAC in its meeting held on 25.04.18 has recommended to grant Environmental Clearance for the proposal valid from the date of Environmental Clearance accorded upto the lease period with following conditions in addition to the conditions stipulated for sand mines in general. (1) The blocks should be clearly demarcated and mining activity should only be restricted to the designated area for which approved mining plan has been submitted to minimize the damage to the river bed eco-system. (2) The authorities shall ensure that the safety zone as defined in the approved mining plan between bridge and block A, B in one side and C, D on the other and shall be demarcated by concrete pillars and no mining activity be allowed in the safety zone. (3) The approach road to the flood embankment road should be restricted to 2 nos. to ensure minimum damage to the embankment. (4) Sand transportation shall be done only during 10 AM to 6 PM by trucks of capacity	The PP has furnished the required details as per our observation in the last meeting. The mineable reserve at the quarry site (having the no excavation zone) is worked out as 249360 cum which is accepted. Presuming 25% of the quantity to be replenished in rainy season over a period of 5 years, the sustainable

								<p><6.0 m³. Transpiration of sand by Hywa shall not be allowed.</p> <p>(5) Suitable plantation on the slopes of embankment road shall be done to increase the embankment stability.</p> <p>(6) The truck for carrying sand (to and fro) shall not be allowed to ply on the embankment road and shall be allowed to move in "Haulage Road" to be constructed by the proponent before mining operation.</p> <p>(7) Any damage to the existing embankment road if made, by the movement of sand carrying vehicles though prohibited, shall be regularly and periodically repaired and maintained by the proponent with due permission of the concerned department.</p> <p>(8) The above conditions to be complied and monitored strictly by District Revenue and Administrative Authority.</p> <p>The proposal was placed in the 208th meeting of SEIAA and was decided that the project proponent has made a presentation before the Chairman, Member, and Member Secretary on 06.06.18 at 12 noon. He has agreed to submit a proper map clearly showing the lease area, the haulage roads, embankments, bridge in the vicinity, the delineation of safety zone and water channels. He will also furnish the actual production of sand from this quarry in the previous lease cycles covering a period of at least 5 years. By his submission, subsoil water is reached here even before reaching a depth of 1 m. Therefore, the digging may go maximum upto 0.80 m; and in subsequent years the same may be capped at 0.70m since full replenishment may not be there. The actual requirement of labour may be realistically calculated. Safety zone on both sides of road bridge should be 500m wide. For such large scale movement of trucks, the haulage roads and embankments have to be built up (strengthened) by the lessee. On receipt of these details from the PP, the EC conditions shall be finalized.</p> <p>Now the PP has submitted the necessary clarification.</p>	<p>extraction of sand from this quarry shall be limited to 63,200 cum per year. The conditions proposed by SEAC along with the other usual conditions for sand mining may be given.</p>
