

Minutes of the 201st meeting of State Environment Impact Assessment Authority (SEIAA), Odisha, held on dated 24.02.2018, 26.02.2018 & 27.02.2018 at 11.00 a.m.

The 201st meeting of the SEIAA, Odisha was held under the Chairmanship of Shri S.C Mohanty, on 24.02.2018, 26.02.2018 & 27.02.2018 in the office chamber of the Chairman. The following members were present in the meeting.

Members Present:

1. Shri S.C Mohanty, Chairman
2. Dr. S. P. Das, Member
3. Shri K. Murugesan, Member Secretary

Discussions were held as per agenda circulated earlier and decisions /orders /observations in regard to grant of EC emerged as follows:

1. **Discussion on the Country Liquor proposals and opinion of SEAC, Odisha on clarification sought by the SEIAA, Odisha on policy guidelines for disposal of Environmental Clearance applications of Country Liquor proposals. (SEAC meeting held on 09.02.2018).**

NGT Order dated 02.08.2017 directs SEIAA to dispose off all EC applications of Country liquor units expeditiously. Hon'ble High Court of Odisha vide their order dated 09.08.17 has allowed the country liquor units to operate and fixed timeline for disposal of their EC applications. All non molasses based distilleries with capacity less than 60 KLD come under the purview of SEIAA in the matter of grant of EC as 'B' Category projects. Earlier, we wrote to MoEF&CC on 19.07.2017 and 05.08.2017 for clarification on SEIAA's competence to grant EC to units which are already operational, and MoEF has not addressed the issue raised, but replied to our letter on 15.09.2017. On a reading of the Rules, the power to classify any particular class of projects as B1 or B2 category vests in the MoEF&CC. The SEAC, however, has relied on the orange category status accorded to such units by SPCB, Odisha; and considering their small size, simple manufacturing process and low pollution potential, SEAC has treated them as B2 category projects, not requiring detailed EIA study and public consultation. We may accordingly proceed to grant EC to these cases imposing conditions for adoption of environmental standards, as recommended by SEAC; and at the same time keep the MoEF&CC apprised of this particular way of disposal of these cases. We have to stipulate in EC order that the EC accorded by us shall be subject to the subsequent order of Govt. of India, (MoEF&CC), if any in the matter; and that the EC is liable to be revoked forthwith if Govt. of India treats these units otherwise than B2 category.

2. SEAC Proceedings held on 05.01.2018.

			18720/27-IND/03-2017 (TOR) and 20976/27-IND/11-2017 (EC)	Proposal for EC for Clinker Grinding unit With Cement Production Capacity of 3.0 MTPA and DG Set (2x6 MW) At Khamarmuagam & Kolphangi, Tetsil- Athagarh, District- Cuttack of M/s Ultratech Cement Limited. (Unit-Cuttack Cement Works).	Industry	Cuttack	The proposal was put up in the SEAC meeting held on 05.01.18 and the SEAC opined that the proposal will be considered for grant of Environmental Clearance after the SEIAA accept and approve the proceedings of the public hearing for the proposal forwarded by the State Pollution Control Board, Odisha. Earlier the SEIAA in its meeting held on 199 th meeting had decided as follows: The proceedings of the public hearing held on 12.10.2017 submitted by the ADM, Cuttack states that the hearing was disrupted by a dominant group of villagers, who have also submitted a petition voicing their concern on issues of environmental impact of the project. The Collector, Cuttack has also submitted a separate report on the holding of the public hearing. This has to be therefore dealt with under the provisions of paragraphs (v), (vi), (vii) of 'Chapter (iii) public consultation' of the EIA Notification dated the 14 th September, 2006 which would indicate the appropriate steps and the proper course of action to be taken in this regard. Member Secretary may examine in detail and bring up the proposal in the next meeting.	Having perused the provisions at paragraphs (III) (v), (vi) and (vii) of the procedure indicated under the EIA Notification, 2006 for conduct of public hearing, and taking stock of the situation as revealed from the Collector's reports it would be appropriate that the applicant be directed to submit a supplementary report to the draft EIA /EMP reports addressing all the concerns expressed during the public consultation. The applicant may collect a copy of the petition in which the said concerns have been expressed from the Regional Office of the SPCB/ Collector, Cuttack. The supplementary report be submitted by the applicant (Project Proponent) to SEIAA as early as possible for disposal of the application for Environmental Clearance.
