								mining zone of 200-500 meters on both sides of the bridge. This stipulation implies that a mining activity can be allowed beyond minimum distance of 200 meters from the bridge. In this case, the SEAC recommended to maintain a safety zone of 200 meters from the bridge as proposed by the proponent which is justified as per guidelines. Since, 200 mt safety zone has been provided in the mining plan which meets the minimum requirement of the sustainable sand mining management guideline and
