	Manual	29.07.17	SEIAA - 235/2010	Extension of validity of EC in respect of Anajori Manganese Mines over an area of 18.494 ha. in village-Anajori, Dist-Rayagada of Sri Kunal Kishore Das.	Mining	Rayagada	Rayagada	Earlier EC was issued by SEIAA vide letter no. 587/ENV dated 08.11.2011. The proposal is submitted for extension of validity of EC for upto 30 years or life of the project. The proposal was placed in the 183 <sup>rd</sup> meeting of SEIAA and decided that we may ask the PP to submit a status report on compliance of EC conditions. Now the PP has submitted the necessary clarification.	Send to SEAC appraisal. Concrete measures have to be initiated towards compliance of the following stipulations of the initial EC, and information to that effect be submitted to SEIAA. Condition no. 3, 6, 7, 8, 9, 10, 13, 14, 16, 18, 21, 22, 23. PP may submit clear undertaking to this effect.

3. Letter no. 4546 dated 28.06.2017 from Tahasildar, Dhenkanal, has applied for modification of E.C of Gengutia Barada Sand Quarry (Long term lease 2016-17 to 2020-21).

**Decision of SEIAA:** The rationale of imposing quantitative restriction on extraction of sand is to ensure sustainability of mining over the entire lease period. If the PP insists on exploiting the entire estimated mineable reserve in the 1<sup>st</sup> year of operation, this might create a condition of non availability of sand for mining at the leased area in the subsequent years. The Collector of the district may take a decision on regulating the quantity to be extracted each year based on proper inspection of available stock of sand at the lease area at the beginning of each lease year.

Meeting ended with vote of thanks to the Chairman.
