Sub: Bulk Drug Unit by M/s Bajaj Organics Pvt Limited at village Bonthapally, Tehsil Jinnaram in district Medak in Andhra Pradesh— environmental clearance reg.

Sir,

This has reference to your letter no. BOPL/M OEF/EC /AUG/06 dated 26.8.2006 along with EIA /EMP report , questionnaire seeking environmental clearance for the above project under the Environmental Impact Assessment Notification, 1994

2.0. The Ministry of Environment and Forests has examined your application along with EIA/ EMP report. It is noted that the proposal is for environmental clearance of bulk drug unit for manufacturing 10TPM of sulfamethoxazole and 15TPM of ibuprofen. Land area required for the project is 3.10 ha. Water requirement of 37.78m³/d will be met from the ground water source. About 0.6 TPM of ETP sludge, 108.12 TPM of process sludge and 36.0 TPM boiler ash will be generated. The solid waste will be disposed off in the TSDF of M/s Hyderabad Waste Management project. Boiler ash will be sold to the brick manufacturing units. Public hearing of the project is not applicable since the unit is SSI and is located in the notified industrial area. NOCs from the Andhra Pradesh State Pollution Control Board have been obtained on 28.10.1994 and 9.8.1995. Cost of the Project is Rs. 2.90 crores.

3.0. The Ministry of Environment and Forests hereby accords environmental clearance to the above project under EIA Notification dated 27th January, 1994 as amended subsequently, subject to strict compliance of the following conditions:

A SPECIFIC CONDITIONS

- i) The gaseous emissions (SO₂, HCl and NO_x) particulate matter from various process units shall conform to the standards prescribed by the concerned authorities from time to time. At no time, the emission levels shall go beyond the stipulated standards. In the event of failure of pollution control system(s) adopted by the unit, the respective unit shall not be restarted until the control measures are rectified to achieve the desired efficiency.
- ii) Ambient air quality monitoring stations shall be set up in the downwind direction as well as where maximum ground level concentration are anticipated in consultation with the SPCB.

- iii) For control of particulate emissions, boilers shall be provided with cyclone bag filters and stack height as per Central Pollution Control Board guidelines.
- iv) Spent solvents shall be recovered as far as possible & recovery shall not be less than 95 percent. During purification process, solvent vapours are emitted from purification tanks as fugitive emissions. Action shall be taken to reduce the emission as far as possible. Use of toxic solvents like Methylene Chloride (M.C.) etc. shall be minimum. All venting equipment shall have vapour recovery system.
- v) Industry shall switch over to aqueous based coating film in place of use of Methylene Chloride in coating operation, in a phased manner.
- vi) Industry shall switch over to use of non halogenated solvents in place of halogenated solvents in a phased manner.
- vii) The company shall undertake following Waste Minimization measures :-
 - Metering and control of quantities of active ingredients to minimize waste.
 - Reuse of by-products from the process as raw materials or as raw material substitutes in other processes.
 - Use of automated filling to minimize spillage.
 - Use of "Close Feed" system into batch reactors.
 - Venting equipment through vapour recovery system.
 - Use of high pressure hoses for equipment clearing to reduce wastewater generation.
- viii) Fugitive emissions in the work zone environment, product, raw material storage area shall be regularly monitored. The emissions shall conform to the limits imposed by SPCB.
- ix) The effluent generation shall not exceed 23 m³/day (20 m³/day of process effluent, 1.5 m³/day of domestic effluent and 1.0m³/d from DM plant, boiling and cooling tower and 0.5m³/d from other sources). The high TDS effluent shall be sent to forced evaporation system and low TDS effluent and condensate from the evaporator after primary treatment and meeting the prescribed norms shall be sent through tankers to CETP at Jeedimetla. The domestic effluent shall be sent to septic tank followed by soak pit.
- x) The company shall develop rainwater harvesting structures to harvest the run off water for recharge of ground water.
- xi) Occupational health surveillance of the workers shall be done on a regular basis and records maintained as per the Factories Act.
- xii) The company shall obtain permission from the State Ground Water Authority to draw ground water.
- xiii) The company shall undertake eco-development measures including community welfare measures in the project area for the overall improvement of the environment. The eco-development plan shall be submitted to the APPCB within three months of receipt of this letter for approval.

B. GENERAL CONDITIONS

- (i) The project authorities shall strictly adhere to the stipulations made by the Andhra Pradesh State Pollution Control Board.
- (ii) At no time, the emissions shall exceed the prescribed limits. In the event of failure of any pollution control system adopted by the unit, the unit shall be immediately put out of operation and shall not be restarted until the desired efficiency has been achieved.
- (iii) No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment and Forests. In case of deviations or alterations in the project proposal from those submitted to this Ministry for clearance, a fresh reference shall be made to the Ministry to assess the adequacy of conditions imposed and to add additional environmental protection measures required, if any.
- (iv) The project authorities shall strictly comply with the rules and regulations under Manufacture, Storage and Import of Hazardous Chemicals Rules, 1989 as amended in October, 1994 and January, 2000. Authorization from the SPCB shall be obtained for collection, treatment, storage, disposal of hazardous wastes.
- (v) The project authorities must strictly comply with the rules and regulations with regard to handling and disposal of hazardous wastes in accordance with the Hazardous Wastes (Management and Handling) Rules, 2003. Authorization from the State Pollution Control Board must be obtained for collections/treatment/storage/disposal of hazardous wastes.
- (vi) The overall noise levels in and around the plant area shall be kept well within the standards (85 dBA) by providing noise control measures including acoustic hoods, silencers, enclosures etc. on all sources of noise generation. The ambient noise levels shall conform to the standards prescribed under EPA Rules, 1989 viz. 75 dBA (day time) and 70 dBA (night time).
- (vii) The project proponent shall also comply with all the environmental protection measures and safeguards recommended in the EIA report.
- (viii) A separate Environmental Management Cell equipped with full fledged laboratory facilities shall be set up to carry out the Environmental Management and Monitoring functions.
- (ix) The project authorities shall earmark separate funds to implement the conditions stipulated by the Ministry of Environment and Forests as well as the State Government along with the implementation schedule for all the conditions stipulated herein. The funds so provided shall not be diverted for any other purpose.
- (x) The implementation of the project vis-à-vis environmental action plans shall be monitored by Ministry's Regional Office at Bangalore/ SPCB/CPCB. A six monthly compliance status report shall be submitted to monitoring agencies.
- (xi) The project proponent shall inform the public that the project has been accorded environmental clearance by the Ministry and copies of the clearance letter are available with the SPCB/Committee and may also be seen at Website of the Ministry at <http://envfor.nic.in>. This shall be advertised within seven days from the date of issue of the clearance letter, at least in two local newspapers that are widely circulated in the region of which one shall be in the vernacular language of the locality concerned and a copy of the same shall be forwarded to the Ministry's Regional Office at Bangalore.

(xii) The project authorities shall inform the Regional office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities and the date of start of the project.

4.0. The Ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.

5.0. The Ministry reserves the right to stipulate additional conditions, if found necessary. The company in a time bound manner will implement these conditions.

6.0. The above conditions will be enforced, inter alia under the provisions of the Water(Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 Hazardous Wastes (Management and Handling) Rules, 2003 and the Public Liability Insurance Act, 1991 along with their amendments and rules.
