Subject: Environmental Clearance under EIA notification dated 14.09.2006 for expansion of an Integrated Residential Township namely "Chandigarh Extension" in the revenue estate of Village Kansal, Rani Majra, Dhode Majra, Rasoolpur in Mullanpur (LPA), District Mohali by M/s Omaxe Chandigarh Extension Developers Pvt. Ltd.

This has reference to your application and subsequent presentation given before the State Level Expert Appraisal Committee (SEAC) seeking prior environmental clearance for subject cited project, as required under the EIA Notification, 2006. The proposal has been appraised as per procedure prescribed under the provisions of EIA Notification, 2006 on the basis of the mandatory documents enclosed with the application viz., Form-1, 1-A & conceptual plan and the additional clarifications furnished in response to the observations of the SEAC.

It is inter-alia noted that the proposal involves expansion of an Integrated Residential Township namely "Chandigarh Extension" in the revenue estate of Village Kansal, Rani Majra, Dhode Majra, Rasoolpur in Mullanpur (LPA), District Mohali. The total area of the project is 592.463 acres having total builtup area 2,89,325 sqm (after expansion). The total expected population will be 77,642. The layout plan has been approved by Chief Town Planner, Punjab vide Letter No. 3269 CTP(Pb)-MPM-131 dated 10-06-2014. The permission for change of land use has been granted by Department of Town & Country Planning Punjab vide letter no. 3368/CTP (Pb)/SP-432(M) dated 21.04.2009 for an area measuring 113.513 acres, vide letter no. 4156/CTP (Pb)/SP-432(M) dated 28.05.2010 for an area

CJ

measuring 123.97 acres, vide letter no. 8648/CTP (Pb)/SP-432(M) dated 13.12.2010 for an area measuring 21.166 acres, vide letter no. 4613/CTP (Pb)/SP-432(M) dated 29.06.2011 for an area measuring 208.442 acres, vide letter no. 5531/CTP (Pb)/SP-432(M) dated 05.08.2011 for an area measuring 179.35 acres, vide letter no. 5829/CTP (Pb)/SP-432(M) dated 19.08.2011 for an area measuring 43.445 acres, vide letter no. 7048/CTP (Pb)/SP-432(M) dated 18.10.2011 for an area measuring 28.34 acres, vide letter no. 4143/CTP (Pb)/SP-432(M) dated 13.08.2012 for an area measuring 69.868 acres and vide letter no. 4063/CTP (Pb)/SP-432(M) dated 19.07.2013 for an area measuring 70.68 acres.

Total water requirement for the project will be 10111 KLD, out of which 6827 KLD will be met from own tubewell and remaining 3284 KLD will be met from treated wastewater. GMADA vide Memo no. 5887 dated 27.12.2011 has issued a letter wherein it has been mentioned that the GMADA will account for the sewage load from the project while designing the trunk sewer, the total discharge from the project will be disposed of in the trunk sewer after its treatment through STP, to be installed by the project proponent. The total wastewater generation from the project will be 8089 KLD, which will be treated in a STP of 8.5 MLD capacity to be installed within the project premises. The project proponent has proposed to use 2573 KLD of treated wastewater for flushing purpose, 711 KLD for irrigation of green area and remaining 4805 KLD will be discharged to MC sewer in summer season. In winter season, 2573 KLD of treated wastewater will be used for flushing purpose, 194 KLD will be used for irrigation of green area and remaining 5322 KLD will be discharged to MC sewer. In rainy season, 2573 KLD of treated wastewater will be used for flushing purpose and remaining 5516 KLD will be discharged to MC sewer. The green area will be developed in an area measuring 31.955 acres. About 18705 cum/year rain water will be recharged into the groundwater using rain water harvesting wells. A three layer green buffer comprising of shrubs, plants of medium height and plants of bigger height will be provided around STP and MSW storage area.

The total quantity of solid waste to be generated from the proposed project has been estimated as 30235 Kg/Day, which will be segregated into biodegradable and non-biodegradable waste as per the MSW Rules, 2000. The biodegradable waste will be composted at site and non-biodegradable would be sent

to approved dumping site. The recyclable waste would be sold to the recyclers. GMADA vide Memo no. 5886 dated 27.12.2011 has issued a letter, wherein it has been mentioned that the quantity of garbage likely to be generated from the project will be collected at a single point from where it will be taken care of GMADA. The e-waste will be handled and managed as per the E-waste (Management & Handling) Rules, 2011. The used oil from the D.G. sets will be sold out to the registered recyclers as per the provisions of the Hazardous Waste (Management, Handling & Transboundary Movement), Rules, 2008. The total load of electricity required for proposed project will be 21 MW which will be supplied by PSPCL. The project proponent has proposed to install DG sets, for backup power supply.

Mr. Mukesh Bhatti, AGM of the promoter company will be responsible for implementation of Environment Management Plan for 5 years. During construction phase, Rs.22 lacs will be incurred for implementation of EMP as capital cost and Rs.18.90 Lacs will be incurred as recurring cost. During operation phase, Rs. 10.48 Crores will be incurred for implementation of EMP as capital cost and Rs.38.90 Lacs will be incurred as recurring cost. The Association of the residents or GMADA who so ever takes over the project will be responsible for implementation of EMP after the lapse of the period for which the project proponent is responsible.

The implementation of the Corporate Social Responsibility will be responsibility of Project Incharge. Following activities will be undertaken under Corporate Social Responsibility activities.

- Training programe to the youth in mobile/computer repairing-Rs.10 Lacs.
- Cleaning of ponds in the nearby villages- Rs.15 Lacs.
- Toilet for girls in the nearby schools- Rs. 10 Lacs.
- The company has already paid Rs. 2042 Lacs in social infrastructure fund and social security fund.

The case was considered by the SEAC in its 97th meeting held on 28.07.2014 wherein the ToRs were issued to the project proponent vide letter no. 2479 dated 14.08.2014. The case was lastly considered by the SEAC in its 108th meeting held on 06.02.2015, wherein, the Committee observed that the project proponent has provided adequate and satisfactory clarifications of the observations raised by it, therefore, the Committee awarded '**Silver Grading**' to the project

proposal and decided to forward the case to the SEIAA with the recommendation to grant environmental clearance to the project proponent under EIA notification dated 14.09.2006 subject to certain conditions in addition to the proposed measures.

Thereafter, the case was considered by the SEIAA in its 80th meeting held on 28.02.2015. The SEIAA observed that the case stands recommended by SEAC and the Committee awarded '**Silver Grading**' to the project proposal. The Authority looked into all the aspects of the project proposal in detail and was satisfied with the same.

Therefore, the Authority decided to grant environmental clearance for expansion of the Integrated residential township namely "Chandigarh Extention" in an area of 592.463 acres having total built up area 2,89,325 sqm (after expansion) in the revenue estate of Village Kansal, Rani Majra, Dhode Majra, Rasoolpur in Mullanpur (LPA), District Mohali Punjab, subject to the conditions as proposed by the SEAC, in addition to the proposed measures. Accordingly, SEIAA, Punjab hereby accords necessary environmental clearance for the above project under the provisions of EIA Notification dated 14.09.2006 and its subsequent amendments, subject to strict compliance of terms and conditions as follows:

PART A – Specific conditions

I. Pre-Construction Phase

- (i) "Consent to establish" shall be obtained from Punjab Pollution Control Board under Air (Prevention & Control of Pollution) Act, 1981 and Water (Prevention & Control of Pollution) Act, 1974 and a copy of the same shall be submitted to the Ministry of Environment & Forests / State Level Environment Impact Assessment Authority before the start of any construction work at site.
- (ii) All required sanitary and hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase.
- (iii) A first aid room will be provided in the project both during construction and operation phase of the project.
- (iv) The approval of competent authority shall be obtained for structural safety of the buildings due to earthquakes, adequacy of fire fighting equipments etc. as per National Building Code including protection measures from lightning.
- (v) Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking,

mobile toilets, mobile STP, disposal of waste water & solid waste in an environmentally sound manner, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.

II. Construction Phase:

- (i) All the topsoil excavated during construction activities should be stored for use in horticulture / landscape development within the project site.
- (ii) Disposal of muck during construction phase should not create any adverse effect on the neighbouring communities and be disposed off after taking the necessary precautions for general safety and health aspects of people with the approval of competent authority.
- (iii) Construction spoils, including bituminous material and other hazardous material, must not be allowed to contaminate watercourses and the dump sites for such material must be secured, so that they should not leach into the groundwater.
- (iv) Construction/provision of the STP, tubewell, DG Sets, Utilities etc, earmarked by the project proponent on the layout plan, should be made in the earmarked area only. In any case the position/location of these utilities should not be changed later-on.
- (v) Vehicles hired for bringing construction material to the site and other machinery to be used during construction should be in good condition and should conform to applicable air and noise emission standards.
- (vi) Ambient noise levels should conform to prescribed standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase.
- (vii) Fly ash should be used as construction material in the construction as per the provisions of Fly Ash Notification of September, 1999 and as amended on August, 2003 (This condition is applicable only if the project is within 100 Km of Thermal Power Station).
- (viii) Ready mixed concrete should be used in building construction as far as possible.
- (ix) Water demand during construction should be reduced by use of premixed concrete, curing agents and other best practices.
- (x) Separation of drinking water supply and treated sewage supply should be done by the use of different colours.
- (xi) Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor based control.
- (xii) Adequate steps shall be taken to conserve energy by limiting the use of glass, provision of proper thermal insulation and taking measures as prescribed under the Energy Conservation Building Code.
- (xiii) The approval of competent authority shall be obtained for structural safety of the buildings due to earthquakes, adequacy of fire fighting equipments etc. as per National Building Code including protection measures from lightning.

- (xiv) The diesel generator sets to be used during construction phase should be of low sulphur diesel type and should conform to the provisions of Environment (Protection) Act, 1986 prescribed for air and noise emission standards.

III. Operation Phase

- i) "Consent to operate" shall be obtained from Punjab Pollution Control Board under Air (Prevention & Control of Pollution) Act, 1981 and Water (Prevention & Control of Pollution) Act, 1974 and a copy of the same shall be submitted to the Ministry of Environment & Forests / State Level Environment Impact Assessment Authority at the time of start of operation.
- ii) The project proponent shall discharge not more than 4805 KLD wastewater into sewer during summer season, 5322 KLD wastewater into sewer during winter season and 5516 KLD wastewater into sewer during rainy season.
- iii) The installation of sewage treatment plant (STP) and adequacy of disposal system should be certified by Punjab Pollution Control Board and a report in this regard should be submitted to the Ministry of Environment & Forests/State Level Environment Impact Assessment Authority, Punjab before the project is commissioned for operation.
- iv) The project proponent shall provide electromagnetic flow meter at the outlet of the water supply, outlet of the STP and any pipeline to be used for re-using the treated wastewater back into the system for flushing and for horticulture purpose/green etc. and shall maintain a record of readings of each such meter on daily basis.
- v) The position / location of the STP, tubewell, DG Sets, Utilities etc, installed by the project proponent as per the provisions made in the layout plan, should not be changed later-on under any circumstances.
- vi) Adequate & appropriate pollution control measures should be provided to control fugitive emissions to be emitted within the complex.
- vii) Adequate treatment facility for drinking water shall be provided, if required.
- viii) The green belt along the periphery of the plot shall achieve attenuation factor conforming to the day and night noise standards prescribed for residential land use. The open spaces inside the plot should be suitably landscaped and covered with vegetation of indigenous species/variety.
- ix) The project proponent should take adequate and appropriate measures to contain the ambient air quality within the prescribed standards. The proposal regarding mitigation measures to be taken at site should be submitted to the Ministry of Environment & Forests and State Level Environment Impact Assessment Authority, Punjab within three months.
- x) Application of solar energy should be incorporated for illumination of common areas, lighting for gardens and street lighting in addition to provision for solar water heating.
- xi) A report on the energy conservation measures conforming to energy conservation norms finalized by Bureau of Energy Efficiency should be prepared incorporating details about machinery of air conditioning, lifts,

lighting, building materials, R & U Factors etc. and submitted to the respective Regional office of MoEF, the Zonal Office of CPCB, the SPCB and SEIAA, Punjab in three months time.

- xii) Environmental Management Cell shall be formed during operation phase which will supervise and monitor the environment related aspects of the project.
- xiii) Ambient noise levels should conform to prescribed standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase.
- xiv) Separation of drinking water supply and treated sewage supply should be done by the use of different colors.
- xv) Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor based control.

IV. Entire Life:

- i) "Consent to operate" shall be obtained from Punjab Pollution Control Board under Air (Prevention & Control of Pollution) Act, 1981 and Water (Prevention & Control of Pollution) Act, 1974 and get it renewed from time to time and a copy of the same shall be submitted to the Ministry of Environment & Forests and State Level Environment Impact Assessment Authority, Punjab.
- ii) The project proponent shall discharge not more than 4805 KLD wastewater into sewer during summer season, 5322 KLD wastewater into sewer during winter season and 5516 KLD wastewater into sewer during rainy season.
- iii) The project proponent shall obtain permission for abstraction of ground water from the CGWA and will comply with conditions imposed by the CGWA.
- iv) The project proponent shall provide electromagnetic flow meter at the outlet of the water supply, outlet of the STP and any pipeline to be used for re-using the treated wastewater back into the system for flushing and for horticulture purpose/green etc. and shall maintain a record of readings of each such meter on daily basis.
- v) The position / location of the STP, tubewell, DG Sets, Utilities etc, installed by the project proponent as per the provisions made in the layout plan, should not be changed later-on under any circumstances.
- vi) Rainwater harvesting for roof run-off should be implemented. Before recharging the roof run-off, pretreatment must be done to remove suspended matter, oil and grease. However, no run off from gardens/green area/roads/pavements shall be connected with the ground water recharging system.
- vii) The solid waste generated should be properly collected and segregated. The recyclable solid waste shall be sold out to the authorized vendors and inert shall be sent to disposal facility.

- viii) Hazardous waste/E-waste should be disposed off as per Rules applicable and with the necessary approval of the Punjab Pollution Control Board.
- ix) Incremental pollution loads on the ambient air quality, noise and water quality should be periodically monitored.
- x) Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.
- xi) The approval of competent authority shall be obtained for structural safety of the buildings due to earthquakes, adequacy of fire fighting equipments etc. as per National Building Code including protection measures from lightning.

PART B – General Conditions :

I. Pre-Construction Phase

- i) This environmental clearance will be valid for a period of five years from the date of its issue or till the completion of the project, whichever is earlier.
- ii) The environmental safeguards contained in the application of the promoter / mentioned during the presentation before State Level Environment Impact Assessment Authority/State Expert Appraisal Committee should be implemented in letter and spirit.
- iii) All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department, Forest (Conservation) Act, 1980 and Wildlife (Protection) Act, 1972 etc. shall be obtained, by project proponents from the competent authorities including Punjab Pollution Control Board and from other statutory bodies as applicable. The project proponent shall also obtain permission from the NBWL, if applicable.
- iv) The project proponent should advertise in at least two local newspapers widely circulated in the region, one of which shall be in the vernacular language informing that the project has been accorded environmental clearance and copies of clearance letters are available with the Punjab Pollution Control Board. The advertisement should be made within seven days from the day of issue of the clearance letter and a copy of the same should be forwarded to the Regional Office, Ministry of Environment & Forests, Chandigarh and SEIAA, Punjab.
- v) These stipulations would be enforced among others under the provisions of Water (Prevention & Control of Pollution) Act, 1974, Air (Prevention & Control of Pollution) Act, 1981, Environmental (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and EIA Notification, 2006.
- vi) The project proponent shall comply with conditions imposed by the Competent Authority while granting permission vide letter no. 3368/CTP (Pb)/SP-432(M) dated 21.04.2009 for an area measuring 113.513 acres, vide letter no. 4156/CTP (Pb)/SP-432(M) dated 28.05.2010 for an area measuring 123.97 acres, vide letter no. 8648/CTP (Pb)/SP-432(M) dated

13.12.2010 for an area measuring 21.166 acres, vide letter no. 4613/CTP (Pb)/SP-432(M) dated 29.06.2011 for an area measuring 208.442 acres, vide letter no. 5531/CTP (Pb)/SP-432(M) dated 05.08.2011 for an area measuring 179.35 acres, vide letter no. 5829/CTP (Pb)/SP-432(M) dated 19.08.2011 for an area measuring 43.445 acres, vide letter no. 7048/CTP (Pb)/SP-432(M) dated 18.10.2011 for an area measuring 28.34 acres, vide letter no. 4143/CTP (Pb)/SP-432(M) dated 13.08.2012 for an area measuring 69.868 acres and vide letter no. 4063/CTP (Pb)/SP-432(M) dated 19.07.2013 for an area measuring 70.68 acres for CLU.

- vii) A copy of the clearance letter shall be sent by the proponent to concerned Panchayat, Zilla Parishad/ Municipal Corporation, Urban local body and the local NGO, if any, from whom suggestions / representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.
- viii) The State Environment Impact Assessment Authority reserves the right to add additional safeguards/ measures subsequently, if found necessary, and to take action including revoking of the environmental clearance under the provisions of the Environmental (Protection) Act, 1986, to ensure effective implementation of the suggested safeguards/ measures in a time bound and satisfactory manner.
- ix) Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

II. Construction Phase

- i) The environmental safeguards contained in the application of the promoter / mentioned during the presentation before State Level Environment Impact Assessment Authority/State Expert Appraisal Committee should be implemented in letter and spirit.
- ii) The entire cost of the environmental management plan (i.e. capital cost as well as recurring cost) will continue to be borne by the project proponent until the responsibility of environmental management plan is transferred to the occupier/residents society under proper MOU after obtaining prior permission of the Punjab Pollution Control Board.
- iii) The project proponent shall also submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by mail) to the respective Regional office of MoEF, the Zonal Office of CPCB, the SPCB and SEIAA, Punjab.
- iv) Officials from the Regional Office of Ministry of Environment & Forests, Chandigarh / State Level Environment Impact Assessment Authority / State Level Expert Appraisal Committee / Punjab Pollution Control Board who would be monitoring the implementation of environmental safeguards should be given full cooperation, facilities and documents / data by the project proponents during their inspection. A complete set of all the documents submitted to State Environment Impact Assessment Authority

should be forwarded to the CCF, Regional Office of Ministry of Environment & Forests, Chandigarh and State Level Environment Impact Assessment Authority, Punjab.

- v) In the case of any change(s) in the scope of the project, the project would require a fresh appraisal by State Environment Impact Assessment Authority, Punjab.
- vi) Separate distribution pipelines be laid down for use of treated effluent / raw water for horticultural/gardening purposes with different colour coding.
- vii) The project proponent shall adhere to the commitments made in the Environment Management Plan and Corporate Social Responsibility and shall spend the amount as proposed or atleast minimum required to be spent under the provisions of the Companies Act 1956, whichever is higher.
- viii) The State Environment Impact Assessment Authority, Punjab reserves the right to add additional safeguards/ measures subsequently, if found necessary, and to take action including revoking of the environmental clearance under the provisions of the Environmental (Protection) Act, 1986, to ensure effective implementation of the suggested safeguards/ measures in a time bound and satisfactory manner.
- ix) Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

III. Operation Phase

- i) The entire cost of the environmental management plan (i.e. capital cost as well as recurring cost) will continue to be borne by the project proponent until the responsibility of environmental management plan is transferred to the occupier/residents society under proper MOU after obtaining prior permission of the Punjab Pollution Control Board.
- ii) The project proponent shall also submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by mail) to the respective Regional office of MoEF, the Zonal Office of CPCB, the SPCB and SEIAA, Punjab.
- iii) Officials from the Regional Office of Ministry of Environment & Forests, Chandigarh, State Level Environment Impact Assessment Authority, State Level Expert Appraisal Committee, Punjab, Punjab Pollution Control Board who would be monitoring the implementation of environmental safeguards should be given full cooperation, facilities and documents / data by the project proponents during their inspection. A complete set of all the documents submitted to State Environment Impact Assessment Authority should be forwarded to the CCF, Regional Office of Ministry of Environment & Forests, Chandigarh and State Level Environment Impact Assessment Authority, Punjab.
- iv) The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall

- update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; PM_{2.5}, PM₁₀, SO₂, NO_x, CO, Pb, Ozone (ambient air as well as stack emissions) shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.
- v) The project proponent shall adhere to the commitments made in the Environment Management Plan and Corporate Social Responsibility and shall spend the amount as proposed or atleast minimum required to be spent under the provisions of the Companies Act 1956, whichever is higher.
 - vi) The State Environment Impact Assessment Authority, Punjab reserves the right to add additional safeguards/ measures subsequently, if found necessary, and to take action including revoking of the environmental clearance under the provisions of the Environmental (Protection) Act, 1986, to ensure effective implementation of the suggested safeguards/ measures in a time bound and satisfactory manner.
 - vii) Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

IV Entire Life

- i) Environmental clearance is subject to final order of the Hon'ble Supreme Court of India in the matter of Goa Foundation Vs. Union of India in Writ Petition (Civil) No. 460 of 2004 as may be applicable to this project and decisions of any Competent Court, to the extent applicable.
- ii) The project proponent shall comply with conditions imposed by the CGWA.
- iii) The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; PM_{2.5}, PM₁₀, SO₂, NO_x, CO, Pb, Ozone (ambient air as well as stack emissions) shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.
- iv) The project proponent shall adhere to the commitments made in the Environment Management Plan and Corporate Social Responsibility and shall spend the amount as proposed or atleast minimum required to be spent under the provisions of the Companies Act 1956, whichever is higher.
- v) The entire cost of the environmental management plan (i.e. capital cost as well as recurring cost) will continue to be borne by the project proponent until the responsibility of environmental management plan is transferred to the occupier/residents society under proper MOU after obtaining prior permission of the Punjab Pollution Control Board.
- vi) The project proponent shall also submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored

- data (both in hard copies as well as by mail) to the respective Regional office of MoEF, the Zonal Office of CPCB, the SPCB and SEIAA, Punjab.
- vii) Officials from the Regional Office of Ministry of Environment & Forests, Chandigarh / State Level Environment Impact Assessment Authority / State Level Expert Appraisal Committee / Punjab Pollution Control Board who would be monitoring the implementation of environmental safeguards should be given full cooperation, facilities and documents / data by the project proponents during their inspection. A complete set of all the documents submitted to State Environment Impact Assessment Authority should be forwarded to the CCF, Regional Office of Ministry of Environment & Forests, Chandigarh and State Level Environment Impact Assessment Authority, Punjab.
- viii) The State Environment Impact Assessment Authority, Punjab reserves the right to add additional safeguards/ measures subsequently, if found necessary, and to take action including revoking of the environmental clearance under the provisions of the Environmental (Protection) Act, 1986, to ensure effective implementation of the suggested safeguards/measures in a time bound and satisfactory manner.
- ix) Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
