#### ➤ The issue was examined by the SEAC in its meeting held on 21.07.2015. The Committee observed as following:

Representative of the Project Proponent has attended the meeting. The Committee noted that it is a minor mineral mine lease project and the total mine lease area is less than 25 Ha, as such it comes under category of B2 as per MoE&F O.M.No. J-13012/12/2013-1A-II(I) dated 24.12.2013 .The Committee apprised the proposed Project based on the information provided in the Form 1 and Pre Feasibility Report. The committee noted that in the application the mine as shown as existing mine and during presentation it was mentioned that it is a new mine.

After detailed discussion, the Committee recommended that the project proponent shall resubmit the application with correct information on status of the mine.

> The issue was placed before SEIAA in the meeting held on 04.08.2015. The Authority observed as follows:

Decision of the SEIAA on 04.08.2015: Noted

Now, the applicant re-submitted the EC application on 05.08.2015. As per the EC application, the status of the mine is New mine.

Now, the applicant was called for the meeting and the item is placed before the SEAC for taking a decision

The representative of the project proponent Sri V. Siva Rami Reddy; and Sri Murali Krishna of M/s. Global Enviro Labs, Hyderabad, attended and made a presentation before the SEAC.

It was noted that the project proponent had already started mining operations without obtaining EC. This amounts to violation of EIA Notification, 2006 and its amendments there of. Hence, action shall be taken in accordance with the provisions laid under the OMs dt. 12.12.2012 & 27.06.2013 issued by the MoE&F, GOI, New Delhi.

#### **Remarks:**

The SEIAA, A.P. vide letter dt. 24.10.2013, the project proponent was asked for furnish the commitment letter as per O.M. dt. 12.12.2012. The project proponent submitted the written commitment letter on 17.12.2013.

- The SEIAA, A.P. addressed a letter to the Spl. Chief Secretary to Government, EFS&T Department, A.P. Secretariat, Hyderabad on 02.01.2014 for initiating credible action on the violation and for taking legal action against the unit and requested to information credible action to the SEIAA, A.P.
- The Spl. Secretary to Government, EFS&T Department, Government of A.P. Communicated the credible action taken against the unit vide EFS&T Lr.No. 263/ENV.SEC.V/2014-3, dt. 21.07.2015 and received by the SEIAA, A.P. on 06.08.2015

The issue was placed before the Committee for taking suitable decision.

#### ➤ The issue was examined by the SEAC in its meeting held on 29.06.2015. The Committee observed as following:

Representative of the Project Proponent has attended the meeting. The Committee noted that it is a minor mineral mine lease project and the total mine lease area is less than 25 Ha, as such it comes under category of B2 as per MoE&F O.M.No. J-13012/12/2013-1A-II(I) dated 24.12.2013

The Committee apprised the proposed Project based on the information provided in the Form 1 and Pre Feasibility Report. The Committee also noted that the Project Proponent has not furnished the proper Dump Management Plan (DMP).

Recommendation of SEAC on 29.06.2015: After detailed discussion, the Committee recommended that the proponent has to submit Dump Management Plan (DMP) for lease period/life of the mine to consider the proposal.

> The issue was placed before SEIAA in the meeting held on 16.07.2015. The Authority observed as follows:

Decision of the SEIAA on 16.07.2015: Noted

- ➤ The applicant submitted the clarification on 11.08.2015 i.e. letter by enclosing copy of the plate 1 in the Mining plan showing 5 years production plan and sections. In the letter, the applicant mentioned that, the total waste generation for 10 years is 81000 m3 and the dump area is 5400 m2 towards Northwest side with average height of 30 m for 10 years. The proponent also submitted the proposed dump plan for future as follows:
  - Originally the AMP (Approved Mining Plan) had earmarked an area of 2700 Sq.mt towards Northwest side that was sufficient for dumping generated waste for the first 5 years of production that is first mining plan.
  - During the first mining scheme that is from 6<sup>th</sup> to 10<sup>th</sup> years of production, the waste will be dumped in continuation to the existing dump towards northwest to east side which measures another 2700 Sq.mt.
  - By the end of the 1<sup>st</sup> scheme i.e., at the end of mining operations after 10 years, the quarry will reach appreciable depth which will be back filled with the material dumped during 1<sup>st</sup> to 10<sup>th</sup> years. This will make the area of dump clear such that fresh mining area will be exposing for the next 10 years.

Now, the applicant was called for the meeting and the item is placed before the SEAC for taking a decision

#### The issue was examined by the SEAC in its meeting held on 16.03.2015. The Committee observed as following:

The Project Proponent has attended the meeting. The Committee noted that it is a minor mineral mine lease project and the total mine lease area is less than 25 Ha, as such it comes under category of B2 as per MoE&F O.M.No. J-13012/12/2013-1A-II(I) dated 24.12.2013. The Committee appraised the project based information provided in the Form 1 and Pre Feasibility Report and also clarifications provided by the Project Proponent/ Authorised Representative. After detailed discussions, the Committee noted that latitudes

provided in the mining plan are not reflecting factual position and recommended that the Proponent shall submit revised mining plan.

> The issue was placed before SEIAA in the meeting held on 25.03.2015. The Authority observed as follows:

Decision of the SEIAA on 25.03.2015: Noted

#### ➤ The issue was placed before SEAC in the meeting held on 16.12.2014. The committee observed as follows:

The committee noted that it is a minor mineral mine lease project and the total mine lease area is less than 25 Ha, as such it comes under category of B2 as per MoE&F O.M.No. J-13012/12/2013-1A-II(I) dated 24.12.2013 . The Committee apprised the project based information provided in the Form 1 and Pre Feasibility Report and also clarifications provided by the Project Proponent/ Authorised Representative. After detailed discussion, the committee has recommended to obtain the following information from the proponent.

- 1. To submit the map duly authenticated by Chief Wild Life Warden indicating the distance of the proposed site from Koundinya Wild life sanctuary and recommendations/comments of CWLW.
- 2. Self certified SIO map depicting the distance of the proposed site from the interstate boundary.
- 3. Certificate from the Competent Authority of Mines & Geology Department regarding existing operating mines and mining projects which were accorded Environmental Clearance with in 500 m from the proposed mine.
- > The issue was placed before SEIAA in the meeting held on 30.12.2014. The Authority observed as follows:

Decision of the SEIAA on 30.12.2014: Noted

- Now, the applicant submitted the information for the above said three points. As per the information submitted Asst.Director of Mines & Geology, PALAMANER vide Letter No. 2024/Q/2013, dt: 10.02.2015, the details of the minesare as follows:

➤ The issue was examined by the SEAC in its meeting held on 21.08.2015. The Committee observed as following:

The committee noted that the project proponent has requested for the postponement of the case.

#### **Remarks:**

- The proponent not submitted the details of water consumption, Project cost, Capital Cost & Recurring Cost for environmental protection measures, distance from the nearest human habitation.
- For S. No. 17 in the Form I (i.e. interlinked projects), the proponent mentioned as following: Existing Project (2.31 MTPA Cement) has Environmental Clearance vide letter no. J-11011/719/2007-IA.II (I) dated: 20.12.2007. It is proposed to expand cement cement plant by addition of clinker of 2.5 MTPA, cement 3.0 MTPA along with CPP of 35 MW.
- For S. No. 18 in the Form I (i.e. whether separate application of interlinked projects has been submitted), the proponent mentioned as following:

Proposal for the expansion of cement plant for TOR was considered in the 25th EAC meeting held on  $13^{th}$  –  $14^{th}$  Oct 2014

For S. No. 1.14 in the Form I (i.e. Facilities for storage of goods or materials), the proponent mentioned as following:

For 3 Mining leases namely Nadikudi (6.63 Ha), Nadikudi (19.94 Ha) and Alagumallipadu (38.10 Ha) a centralized magazine is proposed at 77000 sq.m area, as per Mining Plan approved by IBM.

The limestone in the ML area is largely devoid of any waste rock, thus there will be only incidental waste generation in the lease area amounting to 150 tonnes in 5 years. This will be systematically stored at 7.5 m buffer zone as per approved Mining Plan. The top soil will be recovered and will be put to use concurrently for plantation.

Now, the applicant was called for the meeting and the item is placed before the SEAC for taking a decision.

#### The issue was placed before the SEAC in the meeting held on 19.01.2013. The SEAC observed as follows:

The representative of the project proponent Sri S.P.R. Venkatachalam; and Sri T. Murali Krishna of M/s. Global Enviro Labs, Hyderabad, attended and made a presentation before the SEAC.

It is noted that the mine lease area is more than 25 Ha. It is noted that the proposed mine is a fresh mine. As per the guidelines approved by the SEIAA, A.P., the project is considered under B1 Category. It is noted that the nearest human habitation viz., Rangayyagunta (V) exists at a distance of 0.75 km from the mine lease area. Hence, Sub-committee with the following members is constituted to inspect the site and to submit a report on present status of the mine & impacts of the mine on the nearest human habitation, surrounding environment, etc., and to specify additional TORs, if any (apart from Model TORs).

The TORs shall be finalized only after receiving the Sub-committee report.

Members of Sub-committee

- 1. Pro. M. Sambasiva Rao
- 2. Prof. N. Ramulu
- The Sub-committee submitted the report. A copy of the same is enclosed.
- ➤ The issue was placed before the SEAC in the meeting held on 19.03.2013. The SEAC observed as follows:

The Sub-Committee submitted the report. The SEAC considered and approved the report.

It is noted that the nearest human habitation viz., Rangayyagunta (V) exists at a distance of 0.75 km from the mine lease area.

After detailed discussions the proponent is directed to prepare draft EIA report as per Model TORs, in addition to the following mentioned Addl. TOR, undergo the process of public hearing in consultation with APPCB and submit final EIA report along with minutes of public hearing & response of the proponent to the issues emerged in the public hearing to the SEAC for appraisal. The terms of the reference are valid for a period of TWO years.

#### Additional TOR :-

- The study on impact of blasting on nearest habitation shall be included in the EIA report.
- Now, the Proponent submitted EIA report along with minutes of public hearing on 02.05.2015.
- ➤ The issue was examined by the SEAC in its meeting held on 30.06.2015. The Committee observed as following:

Representative of the Project Proponent has attended the meeting. The Committee noted that it is a minor mineral mine lease project – 27.588 Ha. and the total mine lease area is more than 25 Ha, as such it comes under category of B1 as per MoE&F O.M.No.J-13012/12/2013-1A-II(I) dated 24.12.2013. The project proponent submitted the final EIA report of this project.

**Recommendation of SEAC on 30.06.2015:** After detailed discussion, the Committee recommended that the project proponent shall present the case in compliance with TOR conditions.

➤ The issue was placed before SEIAA in the meeting held on 16.07.2015. The Authority observed as follows:

Decision of the SEIAA on 16.07.2015: Noted

- A letter was addressed to the Project Proponent on 07.08.2015 and requested to present the case in compliance with TOR conditions.
- > The issue was examined by the SEAC in its meeting held on 22.08.2015. The Committee observed as following:

The project proponent has not attended the meeting. Recommended to defer the case.

Now, the applicant was again called for the meeting and the item is placed before the SEAC for taking a decision

# The issue was examined by the SEAC in its meeting held on 10.02.2015. The Committee observed as following:

The committee noted that the project is located in Chimakurthi mining Cluster. As per MoEF, O.M dated 24.12.2013 mining operations in any of the mine lease area in the cluster will be allowed only if the Environmental Clearance has been obtained in respect of the cluster. After detailed discussion the committee recommended that the proponent has to approach the concerned for obtaining EC for Cluster.

The issue was placed before SEIAA in the meeting held on 16.02.2015 & 17.02.2015. The Authority observed as follows:

Decision of the SEIAA on 16.02.2015 & 17.02.2015: Agreed

- As per the decision of the SEIAA, a clarification letter was sent to the applicant on 03.02.2015.
- Now, the applicant submitted a letter on 24.08.2015 and requested to reconsideration of application based on the clarification given by MoEF to SEIAA, Madhya Pradesh dated:18.06.2015.

Now, the applicant was again called for the meeting and the item is placed before the SEAC for taking a decision

#### The issue was placed before the SEAC in the meeting held on 19.01.2013. The SEAC observed as follows:

The representative of the project proponent Sri S.P.R. Venkatachalam; and Sri T. Murali Krishna of M/s. Global Enviro Labs, Hyderabad, attended and made a presentation before the SEAC.

It is noted that the mine lease area is more than 25 Ha. It is noted that the proposed mine is a fresh mine. As per the guidelines approved by the SEIAA, A.P., the project is considered under B1 Category. It is noted that the nearest human habitation viz., Rangayyagunta (V) exists at a distance of 0.6 km from the mine lease area. Hence, Sub-committee with the following members is constituted to inspect the site and to submit a report on present status of the mine & impacts of the mine on the nearest human habitation, surrounding environment, etc., and to specify additional TORs, if any (apart from Model TORs).

The TORs shall be finalized only after receiving the Sub-committee report.

Members of Sub-committee

- 1. Pro. M. Sambasiva Rao
- 2. Prof. N. Ramulu
- The Sub-committee submitted the report. A copy of the same is enclosed.
- ➤ The issue was placed before the SEAC in the meeting held on 19.03.2013. The SEAC observed as follows:

The Sub-Committee submitted the report. The SEAC considered and approved the report.

It is noted that the nearest human habitation viz., Rangayyagunta (V) exists at a distance of 0.6 km from the mine lease area.

After detailed discussions the proponent is directed to prepare draft EIA report as per Model TORs, in addition to the following mentioned Addl. TOR, undergo the process of public hearing in consultation with APPCB and submit final EIA report along with minutes of public hearing & response of the proponent to the issues emerged in the public hearing to the SEAC for appraisal. The terms of the reference are valid for a period of TWO years.

Additional TOR :-

- The study on impact of blasting on nearest habitation shall be included in the EIA report.
- Now, the Proponent submitted EIA report along with minutes of public hearing on 02.05.2015.
- > The issue was examined by the SEAC in its meeting held on 30.06.2015. The Committee observed as following:

Representative of the Project Proponent has attended the meeting. The Committee noted that it is a minor mineral mine lease project - 28.205 Ha. and the total mine lease area is more than 25 Ha, as such it comes under category of B1 as per MoE&F O.M.No.J-13012/12/2013-1A-II(I) dated 24.12.2013. The project proponent submitted the final EIA report of this project.

**Recommendation of SEAC on 30.06.2015:** After detailed discussion, the Committee recommended that the project proponent shall present the case in compliance with TOR conditions.

> The issue was placed before SEIAA in the meeting held on 16.07.2015. The Authority observed as follows:

Decision of the SEIAA on 16.07.2015: Noted

- ➤ A letter was addressed to the Project Proponent on 07.08.2015 and requested to present the case in compliance with TOR conditions.
- ➤ The issue was examined by the SEAC in its meeting held on 22.08.2015. The Committee observed as following:

The project proponent has not attended the meeting. Recommended to defer the case.

Now, the applicant was again called for the meeting and the item is placed before the SEAC for taking a decision

## Remarks:

- The project proponent enclosed a copy of report dt. 19.02.2013 of the Director, Regional Office of MoE&F, Bangalore, along with the application.
- > The item was examined in the meeting of the SEAC held on 16.01.2013 and the **Committee made the following observations:**

The representative of the project proponent Sri A. Suresh; and Sri Y.V. Prasad of M/s. Rightsource Industrial Solutions Pvt. Ltd., Hyderabad attended and made a presentation before the SEAC.

It is noted that the project proponent submitted a copy of lr. dt. 19.02.2013 of the Director, Regional Office of MoE&F, Bangalore, along with the application.

It is also noted that the existing EC is on the name of M/s. Phanax Pharma. It is also noted from the above letter of MoE&F that though it was addressed to M/s. Inchem Laboratories Pvt. Ltd., its content is w.r.t. M/s. Phanax Pharma. Hence, the proponent is directed to take necessary action (1) to change the EC in the name of M/s. Inchem Laboratories Pvt. Ltd.; (2) to submit the certified compliance report issued by the RO, MOE&F, GOI, Bangalore for further consideration.

- ➤ The project proponent vide lr.dt. 04.10.2013 submitted reply to clarification sought.
- > The proponent has not furnished any copy of GO / Notification issued by the Competent Authority stating that it is a Notified Industrial Estate / IDA in which the project is proposed. Hence, this is to be ascertained.
- > As it is an expansion project, the issue may be examined keeping in view of the Office Memorandum 27.06.2013 issued by the MoE&F, GoI.

➤ In this connection, it is to submit that earlier, the SEIAA while discussing similar items of Bulk Drug units proposed in Industrial Estates / IDAs viz., Nadikudi, Kondapalli, Gajulamandyam, etc., observed as following (since 16.02.2013):

Deferred for consideration and in the mean while necessary clarification may be obtained from the MoE&F, GOI regarding exemption of public hearing (specific condition under schedule in EIA Notification, 2006) for Category 'A' industries proposed to be established in an old multi product Industrial Estates set up prior to EIA Notification.

Accordingly, a letter was addressed to the MoE&F, GoI, seeking clarification. The reply is not yet received.

> The issue was examined by the SEAC in its meeting held on 17.10.2013. The Committee observed as following:

The representative of the project proponent Sri P. Raja Sekhar Reddy; and Sri Y.V. Prasad of M/s. Right Sources Industrial Sollutions Pvt. Ltd., attended and made a presentation before the SEAC.

After detailed discussions, the project is exempted from public hearing as it is located in a notified Industrial Development Area. However, the proponent is advised to submit a copy of the G.O. issued by the Competant Authority, notifying the Industrial Area / Estate in which the project is proposed. Further, the proponent is directed to prepare EIA report as per the following TORs and submit to the SEAC for appraisal. The terms of the reference are valid for a period of TWO years.

#### <u>ToRs</u>:-

1 Executive summary of the project

## **Project Description:**

- 2 Justification of the project.
- 3 Promoters and their background
- 4 Regulatory framework
- 5 Details of the total land and break-up of the land use for green belt and other uses.
- 6 Plant Layout clearly demarcating various units within the plant.
- List of products along with the production capacity. Provision of connecting reactor to chilled brine condenser system.
- 8 Manufacturing process details along with the chemical reactions, Flow Diagram and material Balance (Stage Wise).
- 9 Detailed list of raw material required and source, mode of storage and transportation.
- 10 List of solvents and its recovery. Details on solvent balance, measures for solvent recovery
- 11 Details on requirement of energy and water along with its source.
- 12 Water balance cycle data including quantity of effluent generated recycled and reused and discharged.
- 13 Segregation of waste stream, characterization and quality with specific treatment
- 14 Design details of Zero liquid discharge system, Sewage Treatment Plant (>5 KLD) and unit wise efficiency.
- 15 Details on volatile organic compounds from the plant operations and occupational safety and health protection measures
- 16 Details on process emissions and control equipment for each of the source.
- 17 Control technologies for combustion emissions from boilers, Thermic fluid heaters etc.,
- 18 Details on composition, generation and utilization of waste from the plant. Recovery and reuse of byproducts to be explained.
- 19 Management plan for non hazardous /hazardous waste including storage, utilization and safe disposal. CPCB guidelines in respect of specific treatment, vermin composting, Coincineration, etc., need to be followed.
- 20 Any litigation pending against the project and/or any direction/order passed by any Court of Law against the project, if so, details thereof.

#### Description of the environment:

- 21 Project site location along with site map of 10 km area and site details providing various industries, surface water bodies, forests etc.
- 22 Present land use based on satellite imagery for the study area of 10 km radius. Location of National Park/Wild life sanctuary/Reserve Forest within 10 km radius of the project.
- 23 Demography details of all the villages falling within the study area.
- 24 Topography details of the project area.
- 25 The baseline data to be collected from the study area w.r.t. different components of

- environment viz. air, noise, water, land, and biology and socioeconomic.
- 26 Geological features and geo hydrological status of the study area.
- Site-specific micro-meteorological data using temperature, relative humidity, hourly wind speed and direction and rainfall is necessary. AAQM data (except monsoon) for  $PM_{10}$ ,  $SO_2$ , NOx including HC and VOCs should be collected.
- 28 The monitoring stations should take into account the pre-dominant wind direction, population zone and sensitive receptors including reserved forests.
- 29 Ground water monitoring minimum at 6 locations should be carried out.
- 30 Data of existing plant in respect of ambient air, stack emission, fugitive emissions data; water requirement and water balance cycle; generation, re-utilization and disposal of solid/hazardous waste for the existing plant and predicted increase in pollution load (GLCs) due to proposed expansion should be incorporated.
- 31 The air quality impact predictions may be plotted on a location map showing the location of project site, habitation nearby, sensitive receptors, if any and wind roses.
- 32 Details on noise levels at sensitive/commercial receptors.
- 33 Ecological status (terrestrial and aquatic) of the study area such as habitat type and quality, species, diversity, rarity, fragmentation, ecological linkage, age, abundance, etc.
- 34 If any incompatible land use attributes fall within the study area, proponent shall describe the sensitivity (distance, area and significance) and propose the additional points based on significance for review and acceptance by the SEAC. Incompatible land use attributes include:
  - a. Public water supply areas from rivers/surface water bodies, from ground water
  - b. Scenic areas/tourism areas/hill resorts
  - c. Religious places, pilgrim centers that attract over 10 lakh pilgrims a year
  - d. Protected tribal settlements (notified tribal areas where industrial activity is not permitted)
  - e. Monuments of national significance, World Heritage Sites
  - f. Cyclone, Tsunami prone areas (based on last 25 years);
  - g. Airport areas
  - h. Any other feature as specified by the State or local government and other features as locally applicable, including prime agricultural lands, pastures, migratory corridors, etc.
- 35 If ecologically sensitive attributes fall within the study area, proponent shall describe the sensitivity (distance, area and significance) and propose additional points based on significance for review and acceptance by the SEAC. Ecological sensitive attributes include:
  - a. National parks
  - b. Wild life sanctuaries Game reserve
  - c. Tiger reserve/elephant reserve/turtle nesting ground
  - d. Mangrove area
  - e. Wetlands
  - f. Reserved and protected forests
  - g. Any other closed/protected area under the Wild Life (Protection) Act, 1972, any other area locally applicable
  - h. Any other eco sensitive areas

#### Anticipated environmental impacts and mitigation measures:

- 36 Anticipated generic environmental impacts due to this project.
- 37 Impact prediction tools used for the appropriate assessment of environmental impacts.
- 38 While identifying the likely impacts, also include the following for analysis of significance and required mitigation measures:
  - a. impacts due to transportation of raw materials and end products on the surrounding environment
  - b. impacts on surface water, soil and groundwater
  - impacts due to air pollution С.
  - d. impacts due to odour pollution
  - e. impacts due to noise
  - impacts due to fugitive emissions including VOCs / HAPs
  - g. impact on health of workers due to proposed project activities
- 39 Proposed odour control measures
- An action plan to develop green belt in 33 % area
- Mitigation measures for source control and treatment. 41
- Details on improved technologies. Implemented in process and environmental management.
- 43 Reduce, Reused & Recovery option explored in process optimization and resource
- Storm water management plan

#### **Environmental monitoring program:**

- 45 Monitoring programme for pollution control at source.
- 46 Monitoring pollutants at receiving environment for the appropriate notified parameters air quality, groundwater, surface water, gas quality, etc. during operational phase of the project.
- 47 Specific programme to monitor safety and health protection of workers
- 48 Proposed plan to estimate and monitor fugitive emissions including VOCs from all the sources and appropriated control measures.
- 49 Stack and fugitive emissions may be monitored for SPM, PM10, PM2.5, SO2, NOx, HC, CO, VOC and evaluation of the adequacy of the proposed pollution control devices to meet gaseous emissions.
- Appropriate monitoring network has to be designed and proposed, to assess the possible residual impacts on VECs.
- 51 Details of in house monitoring capabilities and the recognized agencies if proposed for conducting monitoring.

#### **Additional studies:**

- Risk assessment for storage for chemicals/solvents. Risk Assessment due to handling, storage and transportation of solvents should also be included.
- 53 CSR plan encompassing community development, capacity building, environmental protection, health care, educational, awareness programmes etc.,
- Proposed plan to handle the socioeconomic influence on the local community. The plan should include quantitative dimension as far as possible.
- Note on compliance to the recommendations mentioned in the CREP guidelines.
- Administrative and technical organizational structure to ensure proposed post project monitoring programme for approved mitigation measures.
- 57 EMP devised to mitigate the adverse impacts of the project should be provided along with item wise cost of its implementation (capital and recurring costs).
- 58 Allocation of resources and responsibilities for plan implementation.
- 59 Details of the emergency preparedness plan and onsite and offsite disaster management plan.
- The TOR was issued to the applicant on 24.10.2013 with a validity period of two years.
- The applicant submitted the final EIA report on 04.04.2015 and requesting for issue of EC.
- The issue was examined by the SEAC in its meeting held on 30.05.2015. The Committee observed as following:

The Project Proponent has attended the meeting along with consultant and presented the final EIA report before the committee for expansion of bulk drugs.

**Recommendation of SEAC on 30.05.2015:** After detailed discussion, the Committee recommended that the project proponent shall cover points raised by the members and present the project proposal in the next meeting.

The issue was placed before SEIAA in the meeting held on 18.06.2015 & 19.06.2015. The Authority observed as follows:

Decision of the SEIAA on 18.06.2015 & 19.06.2015: Agreed.

- ➤ A letter was addressed to the Project Proponent on 09.07.2015 and requested to present the project proposal in the next meeting covering all the points raised by the members.
- > The issue was examined by the SEAC in its meeting held on 22.08.2015. The Committee observed as following:

The project proponent has not attended the meeting. Recommended to defer the case.

The applicant submitted the information on 31.08.2015

Now, the applicant was again called for the meeting and the item is placed before the SEAC for taking a decision

## The issue was placed before SEAC in the meeting held on 15.12.2014. The committee observed as follows:

The Project Proponent has attended the meeting and submitted approved mining plan. The committee noted that it is a minor mineral mine lease project and the total mine lease area is less than 25 Ha, as such it comes under category of B2 as per MoE&F O.M.No. J-13012/12/2013-1A-II(I) dated 24.12.2013. The Committee apprised the project based information provided in the Form 1 and Pre Feasibility Report and also clarifications provided by the Project Proponent/ Authorised Representative. After detailed discussion, the committee has recommended to issue EC to the project subject to submission of Certificate from the Competent Authority of Mines & Geology Department regarding existing operating mines and mining projects which were accorded Environmental Clearance with in 500 m from the proposed mine.

> The issue was placed before SEIAA in the meeting held on 30.12.2014 & 31.12.2015. The Authority observed as follows:

Decision of the SEIAA on 30.12.2014 & 31.12.2015: After detailed discussions, the SEIAA decided to issue Environmental Clearance to the project as recommended by the SEAC

- A letter was sent to the proponent to submit the Certificate from the Competent Authority of Mines & Geology Department regarding existing operating mines and mining projects which were accorded Environmental Clearance with in 500 m from the proposed mine. But, the proponent not submitted the information.
- A mail was sent to the Asst.Director of Mines & Geology, Ananthapur to send the above said information. The mail was received from the Asst.Director of Mines & Geology, Ananthapur Letter No. 4122/SEIAA-Inf/2015, dt: 14.08.2015 on 14.08.2015, and the details of the mines are as follows:

Name of the lessee	EC issued / Not issued	Extent
1) M/s. Rajwin Granites 2) M/s. J. R. Enterprises 3) M/s G. R. Enterprises	EC not issued	1) 2.000 Hectares 2) 1.500 Hectares 3) 1.000 Hectares

As the mine is located below 5kms radius from the interstate boundary and mines existed with-in 500 mtrs of the proposed mines total area is exceeds 5.0 Ha. Hence, the issue was again placed before the SEAC for taking suitable decision.

# Remarks:

- Earlier the proponent submitted EC application on 13.04.2015. The issue was examined by 31) the SEAC in its meeting held on 29.05.2015. The Committee noted that the Project Proponent has not submitted the land documents of the project the Committee Recommended to reject the Environmental Clearance to the project for nonsubmission of the patta land documents. The issue was placed before SEIAA in the meeting held on 18.06.2015 and the Authority agreed with the decision of SEAC. As per the decision of the SEIAA, Rejection letter was sent to the proponent on 09.07.2015.
- Now, the proponent submitted fresh EC application on 25.08.2015 along with land 32) documents.

## **Minutes of the Committee & Authority:**

#### > Recommendation of the SEAC in the meeting held on 10.02.2015:

The proponent attended the meeting. The committee noted that the project site falls within 4.18 km from A.P. –karnataka State Boundary. The Committee noted that it is a minor mineral mine lease project and the total mine lease area is less than 25 Ha, as such it comes under category of B2 as per MoE&F O.M.No. J-13012/12/2013-1A-II(I) dated 24.12.2013. The Committee appraised the project based information provided in the Form 1 and Pre Feasibility Report and also clarifications provided by the Project Proponent. *After detailed discussion, the Committee has recommended to issue EC to the project subjected to submission Certificate from the Mines and Geology Department on location of various mines within 500 mtrs, from the proposed mine* 

**Decision of the SEIAA on 16.02.2015:** After detailed discussions, the SEIAA decided to refer the issue again to the SEAC after submission of required information by the proponent.

# Details of mines existing within 500 mts radius as per the information furnished by the Mines Department:

Existing leases within 500 Mts from the proposed quarry	Whether the interstate boundary is within 5 Kms or not
There are no existing quarry leases within 500 Mts from the proposed Granite mine	Interstate boundary is located below 5.0 Kms distance.

## **Minutes of the Committee & Authority:**

#### Recommendation of the SEAC in the meeting held on 29.06.2015:

The representative of the Project Proponent has attended the meeting. The Committee noted that it is a minor mineral mine lease project and the total mine

lease area is less than 25 Ha, as such it comes under category of B2 as per MoE&F O.M.No. J-13012/12/2013-1A-II(I) dated 24.12.2013. The proposed mine is near to the inter State boundary.

Recommendation of SEAC on 29.06.2015: After detailed discussion, the Committee has recommended that the proponent shall submit certificate from Mines and Geology Department on surrounding mines details within 500 meters of this proposed mine.

Decision of the SEIAA on 16.07.2015: Noted.

## Details of mines existing within 500 mts radius as per the information furnished by the Mines Department:
