The total cluster area is < 5.0 Ha.</p> <p>The project proponent has obtained a work order 02.02.2016 and which is valid upto 28.09.2025.</p> <p>And whereas, pursuant to the order of the Hon'ble Supreme Court dated the 27th February, 2012 in I.A. No.12-13 of 2011 in Special Leave Petition (Civil) No.19628-19629 of 2009, in the matter of Deepak Kumar etc. Vs. State of Haryana and Others etc., prior environmental clearance has now become mandatory for mining of minor minerals and the Central Government has published notification number S.O.141(E), dated the 15th</p>

January, 2016 making prior environment clearance mandatory for all minerals (major as well as minor) irrespective of size of the mine lease; And whereas, all mine lease holders are required to obtain prior environment clearance.

NGT order in OA No 136 of 2017 (SZ) : So under these circumstances, the application can be disposed of, giving the following directions: (i)The applications which are pending as on 31.3.2016 for Environment Clearance have to be treated as normal applications and not violation applications and the authorities are directed to dispose of those applications in accordance with law. 81 (ii) The persons who have not filed applications on or before 31.3.2016 and filed thereafter, can be treated as violation applications and the MoEF& CC /SEIAA is directed to dispose of those applications as violation cases in accordance with law. (iii) It is also made clear that all mining leases, either major or minor, even less than 5 hectares area, has to apply and get Environment Clearance as per the amended EIA Notification dated 15.1.2016. This will apply to the existing mining leases as well. The points are answered accordingly.

The committee noted that the proponent operated mine from after 2016 without obtaining environmental clearance as required under EIA notification 2006 after promulgation of S.O. 141 (E) dt 15.01.2016 and hence to be treated as identified violation case as per OM 07.07.2021.

The project proponent has submitted modified mining plan for without drilling and blasting duly leaving and maintaining 100m distance i.e.,(0.413 Ha) towards South-eastern side.

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OMs and detailed deliberations, recommended to issue specific (Violation) Terms of Reference without Public Hearing and following conditions:

1. The project proponent shall prepare cluster EIA& EMP by considering cluster units pollution and cumulative impact on surrounding environment.
2. The project proponent shall prepare a plantation plan including no. of species and type of species and area of land allocated for greenbelt.
3. The project proponent shall ensure proper benches in remediation plan and Natural and Community Resource Augmentation Plan.
4. The project proponent shall submit surface runoff prevention measures plan.
5. The project proponent shall submit plan for Restoration of benches and buffer zone in remediation plan and the cost of restoration of benches and buffer zone should be included in Bank guarantee.
6. The proponent is liable to pay the penalties as levied by the concerned competent authority, as per the OM No.28.1.2022 and clause No 12 of SOP dated 07-07-2021, duly incorporating the total production during the violation period and submit the calculation of

penalties based on the project cost and the total turnover during the violation period.

7. Credible action to be initiated through concerned Regional office, APPCB under section 15 read with section 19 of E(P) Act 1986.
8. The project proponent shall carry assessment of ecological damage, remediation plan and natural and community resource augmentation plan and it shall be prepared as an independent chapter in the environment impact assessment report by the accredited consultants. The collection and analysis of data for assessment of ecological damage, preparation of remediation plan and natural and community resource augmentation plan shall be done by an environmental laboratory duly notified under Environment (Protection) Act, 1986, or an environmental laboratory accredited by National Accreditation Board for Testing and Calibration Laboratories, or a laboratory of a Council of Scientific and Industrial Research institution working in the field of environment.
9. The project proponent shall ensure implementation of Environmental Management Plan, comprising remediation plan and natural and community resource augmentation plan corresponding to the ecological damage assessed and economic benefit derived due to violation.
10. The project proponent will be required to submit a bank guarantee equivalent to the amount of remediation plan and Natural and Community Resource Augmentation Plan with the State Pollution Control Board.
11. The project proponent shall give an undertaking by way of affidavit to comply with all the statutory requirements and judgment of Hon'ble Supreme Court dated the 2nd August 2017 in writ petition (Civil) No.144 of 2014 in the matter of common cause verse union of India and Ors. <p>Agenda Item: 220.29 & 217.19</p>	<p>1.0 Ha. Mining of Road metal & Building stone of M/s Sri Balaji Stone Crushers at Sy No: 332 of Manyapuratla Village, Nathavaram Mandal, Anakapalli District, Andhra Pradesh – Terms of Reference – Violation - Reg. SIA/AP/MIN/422926/2023</p>
<p>223.54.39 & 220.39</p>	<p>Recommendations of the SEAC on 16.05.2023. Category:B2</p>

The proposed project is for mining of **Road metal & Building stone** in an area of **1.0 Ha.** with a proposed of production quantity of **Road metal & Building stone – 20,001 m³/annum** with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). Mining of minerals (<250 ha of mining lease area in respect of non-coal mine lease).

The project proponent and NABET accredited consultant M/s. SV Enviro Labs & Consultants, have attended the meeting.

The Committee noted that as per cluster letter issued by Asst. Director of Mines & Geology, Anakapalli, vide Lr. dated: 06.03.2023, there are 09 existing quarry leases within the radius of 500mts area. The total cluster area is < 5.0 Ha.

This is an existing lease. The lessee has obtained work order on 11.06.2013. And whereas, pursuant to the order of the Hon'ble Supreme Court dated the 27th February, 2012 in I.A. No.12-13 of 2011 in Special Leave Petition (Civil) No.19628-19629 of 2009, in the matter of Deepak Kumar etc. Vs. State of Haryana and Others etc., prior environmental clearance has now become mandatory for mining of minor minerals and the Central Government has published notification number S.O.141(E), dated the 15th January, 2016 making prior environment clearance mandatory for all minerals (major as well as minor) irrespective of size of the mine lease; And whereas, all mine lease holders are required to obtain prior environment clearance.

NGT order in OA No 136 of 2017 (SZ) : So under these circumstances, the application can be disposed of, giving the following directions: (i)The applications which are pending as on 31.3.2016 for Environment Clearance have to be treated as normal applications and not violation applications and the authorities are directed to dispose of those applications in accordance with law. 81 (ii) The persons who have not filed applications on or before 31.3.2016 and filed thereafter, can be treated as violation applications and the MoEF& CC /SEIAA is directed to dispose of those applications as violation cases in accordance with law. (iii) It is also made clear that all mining leases, either major or minor, even less than 5 hectares area, has to apply and get Environment Clearance as per the amended EIA Notification dated 15.1.2016. This will apply to the existing mining leases as well. The points are answered accordingly.

The committee noted that the proponent operated mine from after 2016 without obtaining environmental clearance as required under EIA notification 2006 after promulgation of S.O. 141 (E) dt.15.01.2016 and hence to be treated as identified violation case as per OM 07.07.2021.

The project proponent has submitted approved mining plan as per the NGT norms duly maintaining 200m and leaving 0.0.561 Ha as non-mining zone from the habitation.

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OMs and detailed deliberations, recommended to issue specific (Violation) Terms of Reference without Public Hearing and following conditions:

1. The project proponent shall prepare cluster EIA and EMP by considering cluster units pollution and cumulative impact on surrounding environment
2. The project proponent shall prepare a plantation plan including no. of species and type of species and area of land allocated for greenbelt with financial terms
3. The proponent shall obtain buffer zone removal permission from mines department
4. The project proponent shall submit mineral transportation plan.
5. The project proponent shall ensure proper benches in remediation plan and Natural and Community Resource Augmentation Plan.
6. The project proponent shall submit surface runoff prevention measures plan.
7. The project proponent shall submit plan for Restoration of benches and buffer zone in remediation plan and the cost of restoration of benches and buffer zone should be included in Bank guarantee.
8. The proponent is liable to pay the penalties as levied by the concerned competent authority, as per the OM No.28.1.2022 and clause No 12 of SOP dated 07-07-2021, duly incorporating the total production during the violation period and submit the calculation of penalties based on the project cost and the total turnover during the violation period.
9. Credible action to be initiated through concerned Regional office, APPCB under section 15 read with section 19 of E(P) Act 1986.
10. The project proponent shall carry assessment of ecological damage, remediation plan and natural and community resource augmentation plan and it shall be prepared as an independent chapter in the environment impact assessment report by the accredited consultants. The collection and analysis of data for assessment of ecological damage, preparation of remediation plan and natural and community resource augmentation plan shall be done by an environmental laboratory duly notified under Environment (Protection) Act, 1986, or an environmental laboratory accredited by National Accreditation Board for Testing and Calibration Laboratories, or a laboratory of a Council of Scientific and Industrial Research institution working in the field of environment.
11. The project proponent shall ensure implementation of Environmental Management Plan, comprising remediation plan and

	<p>natural and community resource augmentation plan corresponding to the ecological damage assessed and economic benefit derived due to violation.</p> <p>12.The project proponent will be required to submit a bank guarantee equivalent to the amount of remediation plan and Natural and Community Resource Augmentation Plan with the State Pollution Control Board.</p> <p>13.The project proponent shall give an undertaking by way of affidavit to comply with all the statutory requirements and judgment of Hon’ble Supreme Court dated the 2nd August 2017 in writ petition (Civil) No.144 of 2014 in the matter of common cause verse union of India and Ors. Sri Vallabhaneni Akhil, Managing Partner of the Project: He has given assurance that they will carry out mining activity complying with all the statutory norms; child below 18 years will not be engaged in the mining activity education, medical & drinking water will be provided; water will be sprinkled regularly to control dust pollution; and the workers working the quarry mine will be made to work with high safety precautions.

The base line data was collected from Jan, 2022 to March, 2022.

The predominant wind direction is observed to be South East to North West.

The maximum concentration of SPM is observed to be 71.8 μ g/m³. The incremental concentration is 2.75 μ g/m³. The GLC of SPM will fall at 401 m in North West direction of the mine.

The proponent volunteered to provide Furniture and essential amenities to Vocational Training center, Health camps and stationary items to primary School to the Ballikurava Village as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.

The Committee after examining the project proposals, presentations, mining plan, MoEF&CC Notifications & OMs, EIA Report, PH minutes and detailed deliberations, recommended to issue **Environmental Clearance** with following conditions:

1. The proponent shall comply with the proposals furnished in Environmental management plan.
2. The project proponent shall develop greenbelt of 1km along approach roads & village Road sides.
3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.
4. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time.
5. The proponent shall carryout suppression of dust generated due to transport vehicles by water spraying with tankers continuously.
6. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
7. The project proponent shall develop native species plants and fruit plants in surrounding villages.
8. The project proponent shall conduct health camps at least every 6 months with help of local PHC.
9. The project proponent shall dump waste material in an area of 4.61 Acres at Sy. No. 577/2 of Murkipadu village.
10. An area of 0.540 Ha should be left as Non Mining Zone.
11. The project proponent shall arrange fencing around the mine at the time of leaving the mine as per mine closure plan to protect the area.
12. The project proponent shall comply other assurances given in the public hearing.

	<p>Later this proposal was placed in the SEIAA meeting :</p> <p>Decision of SEIAA:- It is observed that the area to be left as Non Mining Zone is mentioned as 0.54 Ha and referred to SEAC to examine the distance of nearest habitation w.r.t. The project proponent has obtained standard TOR for with public hearing on 25.02.2022 and Public hearing was held on 04.01.2023.

Issues raised in the Public hearing:

Water sprinkling, employment and pollution issues are raised during the public hearing.

The reply by the proponent for the issues raised in the PH is as follows:

Sri P. Suresh, Project Proponent: He informed that they had noted all the suggestions expressed by the villagers & NGO in this meeting. He has given assurance that they will follow all the suggestions; child below 18 years will not be engaged in the mining activity; and under CSR activity they will provide water plants in the villages. He informed that they have planted 200 saplings in the mining area and grown now as big trees. He has given assurance that the mining will be carried out complying with all the statutory norms; the management will extend their support for the development of the village; all the pollution mitigation measures and all the safety norms will be implemented; water tanker will be provided for sprinkling the water on the roads to control dust pollution; and the vehicles speed limit will be restricted; suitable instructions to the vehicle drivers will be given on the speed limit; employment preference will be given to the local villagers in the existing mines; skilled training will be provided in the vocational training center to the unskilled workers and the medical check-ups will be conducted periodically in the villages. He requested to accord permission to the proposed quarry mine.

The base line data was collected from Jan, 2022 to March, 2022.

The predominant wind direction is observed to be South East to North West.

The maximum concentration of SPM is observed to be 71.8 $\mu\text{g}/\text{m}^3$. The incremental concentration is 2.75 $\mu\text{g}/\text{m}^3$. The GLC of SPM will fall at 401 m in North West direction of the mine.

The proponent volunteered to provide 50Nos of sewing machines women welfare to the Kondayapalem Village as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.

The Committee after examining the project proposals, presentations, mining plan, MoEF&CC Notifications & OMs, EIA Report, PH minutes and detailed deliberations, recommended to issue **Environmental Clearance** with following conditions:

1. The proponent shall comply with the proposals furnished in Environmental management plan.
2. The project proponent shall develop greenbelt of 1km along approach roads & village Road sides.
3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.
4. The proponent shall take dust suppression measures to meet the

- CPCB stipulated ambient air quality standards at any point of time.
5. The proponent shall carryout suppression of dust generated due to transport vehicles by water spraying with tankers continuously.
 6. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
 7. The project proponent shall develop native species plants and fruit plants in surrounding villages.
 8. The project proponent shall conduct health camps at least every 6 months with help of local PHC.
 9. The project proponent shall dump waste material in an area of 4.61 Acres at Sy. No. 577/2 of Murkipadu village. An area of 0.462 Ha should be left as Non Mining Zone.
 10. The project proponent shall arrange fencing around the mine at the time of leaving the mine as per mine closure plan to protect the area.
 11. The project proponent shall comply other assurances given in the public hearing.

Later this proposal was placed in the SEIAA meeting :

Decision of SEIAA:- It is observed that the area to be left as Non Mining Zone is mentioned as 0.462 Ha and referred to SEAC to examine the distance of nearest habitation w.r.t. Hon'ble NGT order and to mention the distance of nearest habitation from the mine.

Again this proposal was placed in 220th SEAC meeting:

The office building is located in the mine itself.

The committee observed that the proponent has submitted modified mining plan duly leaving 0.462 Ha as non-mining zone. The committee observed that Habitation is towards western side at a distance of 50mts and left 100m distance buffer zone/non-mining zone (Area covered is 0.462Ha) as granite mining does not involve blasting.

The issue was placed in the 217th SEIAA meeting held on 14.06.2023 and the SEIAA decided to Defer.

This proposal was placed in the 223rd SEAC meeting held on 12.07.2023

Minutes of 223rd SEAC meeting:

The Department of Mines and Geology submitted DSR Report for Prakasam District. The same is reviewed in the SEAC meeting and observed that the mineral content is available in the nearby village /cluster to the subject mine.

Decision of SEIAA:- Agreed with the recommendations of SEAC to issue Environmental Clearance.
