

Proceedings of the 191st meeting of State Expert Appraisal Committee (SEAC) held on 24.07.2020 at 10:30 AM in the Conference Hall No. 2, 1st Floor, MGSIPA Complex, Sector-26, Chandigarh.

The following members were present: -

Sr. No.	Name of SEAC Member	Designation in SEAC
1.	Er. Nirmal Singh Kahlon	Member cum acting Chairman
2.	Er. Pardeep Garg	Secretary
3.	Sh. A.K Bhatia	Member
4.	Dr. Pawan Krishan	Member
5.	Sh. Deepak Sethi	Member
6.	Sh. Parminder Singh Bhogal	Member
7.	Sh. Sandeep Pal Singh	Member
8.	Sh. K. L. Malhotra	Member

At the outset, Secretary, SEAC welcomed the members of the State Expert Appraisal Committee (SEAC). It was informed to the Committee that a telephonic message received from Sh. Yogesh Gupta, Chairman, SEAC that he will not able to attend the meeting due to the death of a close relative however, he may be contacted telephonically in any urgency. He suggested the name of Er. Nirmal Singh Kahlon to preside over the meeting as acting Chairman of the Committee.

It was also informed that Sh. Sushminder Singh, State Geologist & Sh. Paras Mahajan, Assistant Geologist, Department of Mines & Geology, Punjab, and Sh. Manoj Bansal, Executive Engineer (HQ), Department of Mines & Geology, Punjab were present in the meeting to clear any query of the committee w.r.t to mining plan and District Survey reports, etc. submitted by the various project proponents

Thereafter, the agenda was taken up item wise for consideration

Item No. 01 Confirmation of the proceedings of 190th meetings of State Level Expert Appraisal Committee held on 27.06.2020.

SEAC was apprised that the proceedings of the 190th meeting of State Level Expert Appraisal meeting of held on 27.06.2020 were circulated to all the members of the SEAC vide email dated 18.07.2020. After taking approval from the competent authority, the proceedings have been uploaded on the web portal of the SEAC.

In connection with the same Sh. K.L. Malhotra vide email dated 19.07.2020 informed that whenever SEAC recommend plantation of x number of trees in any case, it should be worded as under:

"The project proponent shall 'plant, protect, maintain, and establish _____ number of plants."

After considering the aforesaid observation, SEAC decided to ratify the proceedings of 190th meeting of SEAC with regard to the condition of planting trees before forwarding the same to SEIAA as under:

Total 'X' no. tress shall be planted, protected, maintained, and established without accounting any shrubs.

As such, SEAC confirmed the proceedings of said meetings with the above said ratification.

Item No. 02: Action taken on the proceedings of the 190th meeting of the State Level Expert Appraisal Committee held on 27.06.2020.

SEAC was apprised that the action taken on the proceedings of the 190th meeting of the State Level Expert Appraisal Committee held on 27.06.2020 was being taken and action taken report would be placed in the next meeting. SEAC noted the same and decided that action taken report to be placed in the next meeting of SEAC without any further delay.

Item No 191.01: Application for obtaining Terms of Reference under EIA notification dated 14.09.2006 for mining of minor minerals On Agricultural Land in the village Chabba, Tehsil Zira, District Ferozepur, Punjab submitted by Prime Vision Industries Private Limited. (Proposal No. SIA/PB/MIN /52223 /2020)

SEAC observed as under:-

M/s Prime Vision Industries Pvt Ltd has applied for obtaining Terms of Reference under EIA notification dated 14.09.2006 for mining of minor minerals (Sand) On Agricultural Land in the village Chabba, Tehsil Zira District- Ferozepur, Punjab on 09.03.2020. The project is covered under category 1 (a) of the Schedule appended to the said Notification.

Further, the said case was forwarded by SEIAA to SEAC on 14/07/2020 after scrutiny of the application and the updated status of the documents attached with the application is as under: -

1.0 Status of documents attached with the application

(A) General

i)	Name of Applicant & Correspondence address: Mobile No: Email ID:	M/s Prime Vision Industries Pvt Ltd 312, Vishal Chamber P-1, Sector-18, Noida, Uttar Pradesh. 9646210786 Primevision.pb.ec@gmail.com
ii)	Name of Environmental Consultant Mobile No. Email ID	P and M solution 9910037943 Manasvyas23@gmail.com

B) Detail of the Documents

The project proponent submitted all the requisite documents as per the checklist of the mining case along with Form-02. The project proponent submitted a hard copy of the same, which was taken on record.

The case was considered by SEAC in its 191st meeting held on 24.07.2020 and the same was attended by the following on behalf of the project proponent:

- (i) Sh. Harkesh Singh, Authorised signatory, on behalf of the project proponent.
- (ii) Sh. Manas Vyas, FAE on behalf of M/s P & M Solutions, Noida, Environment Consultant of the promoter company.

SEAC allowed the project proponent to present the salient features of the project and the Environment consultant of the promoter company presented the same as under:

S.No.	Item	Details		
1.	Online Proposal No.	SIA/PB/MIN/52223/2020

Excavator	0.90 m ³	2	-	2																				
Dumper	10 tonnes	5		5																				
Water tankers	As & when required	-	-	-																				

	<p>c. Reduced nuisance to the villagers.</p> <p>d. Feasibility to extract the required quantity and supply raw material to market to curb black marketing of minor minerals and support to the construction industry in the region.</p> <p>e. Reduced social menace which may be caused due to large no. of laborers, in case of completely manual operation.</p> <p>viii) The operation will be done only from sunrise to sunset hence there will be no power requirement for the project at the site.</p> <p>ix) An undertaking has been submitted to the effect that no Cluster formation of mining site exists as no other mining site falls within a radius of 500 m from the periphery of the proposed site.</p>
--	--

SEAC asked the project proponent and his Environmental Consultant to clarify the following observations to which he replied as under: -

Sr. No.	Observations	Reply submitted by the project proponent and his Environmental Consultant
1.	Whether Final District Survey Report (DSR) has been approved?	The project proponent intimated that the DC Ferozpur has sent the approved DSR to the Secretary, Mining vide letter number 728 dated 08.06.2020. Sh. Manoj Bansal, Executive Engineer, Department of Mines submitted the said letter along with a signed copy of the DSR by the Executive Engineer, Department of Mines, Ferozpur, which was taken on record by SEAC.
2.	The project proponent is required to get the hydrogeological survey of the existing water level done and also required to submit the impact on the water level regime due to the project. This report is required to be submitted at the time of submission of the EIA report.	The project proponent agreed to the same.
3.	The project proponent is required to submit a report regarding the preservation of topsoil excavated during the mining process at the time of submission of the EIA report.	The project proponent agreed to the same.

SEAC was satisfied with the presentation and reply given to the observation. SEAC took a copy of the presentation along with a reply on record.

After deliberations, SEAC decided to forward the application of the project proponent to SEIAA with the recommendations to issue Terms of Reference for mining of minor minerals (Sand) On Agricultural Land, located in the revenue estate of village Chabba, Tehsil Zira District- Ferozepur, Punjab submitted by M/s Prime Vision Industries Private Limited, as per Annexure-I and the following additional ToRs:

1. The project proponent is required to get the hydrogeological survey of the existing water level done and to submit the impact on the water level regime due to the project. This report is required to be submitted at the time of submission of the EIA report.
2. The project proponent is required to submit a report regarding the preservation of topsoil excavated during the mining process at the time of submission of the EIA report.

Item No 191.02: Application for obtaining Terms of Reference under EIA notification dated 14.09.2006 for mining of minor minerals on Agricultural Land in the village Chugate Wala-1&2, Tehsil Ferozepur, District Ferozepur, Punjab submitted by M/s Prime Vision Industries Private Limited.(Proposal No. SIA/PB/MIN/52385/2020)

SEAC observed as under:-

M/s Prime Vision Industries Private Limited has applied for obtaining TOR under EIA notification dated 14.09.2006 for mining of minor minerals (Sand) from Agricultural land in the revenue estate of village Chugate Wala, Tehsil Ferozepur, District Ferozepur on 16.03.2020. The project is covered under category 1 (a) of the Schedule appended to the said Notification. The site has been marked as Chugate Wala 1 and Chugate Wala 2 in the E-auction notice dated 30.05.2019. As per the certificate issued by the department of mines, both the sites namely Chugate Wala-1 and Chugate Wala-2, fall within radius of 500 m and thus are covered under category B1. Both the sites are located in villages Chugate Wala, however, the nomenclature of Chugate Wala 1 and Chugate Wala 2 is taken as per the E-auction notice dated 30.05.2019.

Further, the said case was forwarded by SEIAA to SEAC on 08/07/2020 after scrutiny of the application and the updated status of the documents attached with the application is as under: -

1.0 Status of documents attached with the application

(A) General

i)	Name of Applicant & Correspondence address: Mobile No: Email ID:	M/s Prime Vision Industries Pvt Ltd 312, Vishal Chamber P-1, Sector-18, Noida, Uttar Pradesh. 9646210786 Primevision.pb.ec@gmail.com
ii)	Name of Environmental Consultant Mobile No. Email ID	P and M solution 9910037943 Manasvyas23@gmail.com

(B) Detail of the Documents

The project proponent submitted all the requisite documents as per the checklist of the mining case along with Form-02. The project proponent submitted a hard copy of the same, which was taken on record.

The case was considered by SEAC in its 191st meeting held on 24.07.2020 and the same was attended by the following on behalf of the project proponent:

- (i) Sh. Harkesh Singh, Authorized signatory, on behalf of the project proponent.
(ii) Sh. Manas Vyas, FAE on behalf of M/s P & M Solutions, Noida, Environment Consultant of the promoter company.

SEAC allowed the project proponent to present the salient features of the project and the Environment consultant of the promoter company presented the same as under:

SEAC asked the project proponent and his Environmental Consultant to clarify the following observations to which he replied as under: -

Sr. No.	Observations	Reply submitted by the project proponent and his Environmental Consultant
1.	Whether Final District Survey Report (DSR) has been approved?	The project proponent intimated that the DC Ferozpur has sent the approved DSR to the Secretary, Mining vide letter number 728 dated 08.06.2020. Sh. Manoj Bansal, Executive Engineer, Department of Mines submitted the said letter along with a signed copy of the DSR by the Executive Engineer, Department of Mines, Ferozpur, which was taken on record by SEAC.
2.	The project proponent is required to get the hydrogeological survey of the existing water level done and also required to submit the impact on the water level regime due to the project. This report is required to be submitted at the time of submission of the EIA report.	The project proponent agreed to the same.
3.	The project proponent is required to submit a report regarding the preservation of topsoil excavated during the mining process at the time of submission of the EIA report.	The project proponent agreed to the same.

SEAC was satisfied with the presentation and reply given to the observation. SEAC took a copy of the presentation along with a reply on record.

After deliberations, SEAC decided to forward the application of the project proponent to SEIAA with the recommendations to issue Terms of Reference for mining of minor minerals (Sand) on Agricultural Land on the two sites namely Chugate Wala 1 & 2, located in the revenue estate of village Chugate Wala, Tehsil Ferozepur, District Ferozepur, Punjab submitted by M/s Prime Vision Industries Private Limited as per Annexure-I and the following additional ToRs:

1. The project proponent is required to get the hydrogeological survey of the existing water level done and to submit the impact on the water level regime due to the project. This report is required to be submitted at the time of submission of the EIA report.
2. The project proponent is required to submit a report regarding the preservation of topsoil excavated during the mining process at the time of submission of the EIA report.

Item No: 191.03: Application for obtaining Terms of Reference under EIA notification dated 14.09.2006 for mining of minor minerals on Agricultural Land in the village Bulla, Tehsil Zira District Ferozepur, Punjab submitted by M/s Prime Vision Industries Private Limited. (Proposal No. SIA/PB/MIN/ 52432/ 2020)

SEAC observed as under:-

M/s Prime Vision Industries Private Limited has applied for issuance of Terms of Reference under EIA notification dated 14.09.2006 for mining of minor minerals (Sand) from Agricultural land in the revenue estate of village Bulla, Tehsil Zira District Ferozepur on 16.03.2020. The project is covered under category 1 (a) of the Schedule appended to the said Notification. The site falls within 500 m radius of village Beri Qadrabad, Tehsil Zira, Distt Ferozpur and the project proponent has submitted a certificate in this regard from the department of mines. The project proponent has applied separately for obtaining environmental clearance for Beri Qadrabad.

Further, the said case was forwarded by SEIAA to SEAC on 09/07/2020 after scrutiny of the application and the updated status of the documents attached with the application is as under: -

1.0 Status of documents attached with application

(A) General

i)	Name of Applicant & Correspondence address: Mobile No: Email ID:	M/s Prime Vision Industries Pvt Ltd 312, Vishal Chamber P-1, Sector-18, Noida, Uttar Pradesh. 9646210786 Primevision.pb.ec@gmail.com
ii)	Name of Environmental Consultant Mobile No. Email ID	P and M solution 9910037943 Manasvyas23@gmail.com

(B) Detail of the Documents

The project proponent submitted all the requisite documents as per the checklist of the mining case along with Form-02. The project proponent submitted a hard copy of the same, which was taken on record.

The case was considered by SEAC in its 191st meeting held on 24.07.2020 and the same was attended by the following on behalf of the project proponent:

- (i) Sh. Harkesh Singh, Authorized signatory, on behalf of the project proponent.
- (ii) Sh. Manas Vyas, FAE on behalf of M/s P & M Solutions, Noida, Environment Consultant of the promoter company.

SEAC allowed the project proponent to present the salient features of the project and the Environment consultant of the promoter company presented the same as under:

SEAC asked the project proponent and his Environmental Consultant to clarify the following observations to which he replied as under: -

Sr. No.	Observations	Reply submitted by the project proponent and his Environmental Consultant
1.	Whether Final District Survey Report (DSR) has been approved?	The project proponent intimated that the DC Ferozpur has sent the approved DSR to the Secretary, Mining vide letter number 728 dated 08.06.2020. Sh. Manoj Bansal, Executive Engineer, Department of Mines submitted the said letter along with a signed copy of the DSR by the Executive Engineer, Department of Mines, Ferozpur, which was taken on record by SEAC.
2.	The project proponent is required to get the hydrogeological survey of the existing water level done and also required to submit the impact on the water level regime due to the project. This report is required to be submitted at the time of submission of the EIA report.	The project proponent agreed to the same.
3.	The project proponent is required to submit a report regarding the preservation of topsoil excavated during the mining process at the time of submission of the EIA report.	The project proponent agreed to the same.

SEAC was satisfied with the presentation and reply given to the observation. SEAC took a copy of the presentation along with a reply on record.

After deliberations, SEAC decided to forward the application of the project proponent to SEIAA with the recommendations to issue Terms of Reference for mining of minor

minerals (Sand) on Agricultural Land, located in the revenue estate of village Bulla, Tehsil Zira District Ferozepur, Punjab submitted by M/s Prime Vision Industries Private Limited as per Annexure-I and the following additional ToRs:

1. The project proponent is required to get the hydrogeological survey of the existing water level done and to submit the impact on the water level regime due to the project. This report is required to be submitted at the time of submission of the EIA report.
2. The project proponent is required to submit a report regarding the preservation of topsoil excavated during the mining process at the time of submission of the EIA report.

Item No 191.04: Application for obtaining Terms of Reference under EIA notification dated 14.09.2006 for mining of minor minerals on Agricultural Land in the village Mamdot Uttar-I, Tehsil Ferozepur, District Ferozepur, Punjab submitted by M/s Prime Vision Industries Private Limited. (Proposal No. SIA/PB/MIN/ 52767/ 2020)

SEAC observed as under:-

M/s Prime Vision Industries Private Limited has applied for obtaining Terms of Reference under EIA notification dated 14.09.2006 for mining of minor minerals (Sand) from Agricultural land in the revenue estate of village Mamdot Uttar-I, Tehsil Ferozepur District Ferozepur on 28.03.2020. The project is covered under category 1 (a) of the Schedule appended to the said Notification.

Further, the said case was forwarded by SEIAA to SEAC on 09/07/2020 after scrutiny of the application and the updated status of the documents attached with the application is as under: -

1.0 Status of documents attached with application

(A) General

i)	Name of Applicant & Correspondence address: Mobile No: Email ID:	M/s Prime Vision Industries Pvt Ltd 312, Vishal Chamber P-1, Sector-18, Noida, Uttar Pradesh. 9646210786 Primevision.pb.ec@gmail.com

	<p>vii) Benefits of Semi mechanized method Semi mechanized method, involving minimal use of machinery and optimal no. of workers if allowed can provide the following benefits:</p> <ol style="list-style-type: none"> a. Reduced duration of exposure to negative impacts of mining. b. Reduced production of sewage and solid waste at the project site to be treated. c. Reduced nuisance to the villagers. d. Feasibility to extract the required quantity and supply raw material to market to curb black marketing of minor minerals and support to the construction industry in the region. e. Reduced social menace which may be caused due to large no. of laborers, in case of completely manual operation. <p>viii) The operation will be done only from sunrise to sunset hence there will be no power requirement for the project at the site.</p> <p>ix) An undertaking has been submitted to the effect that no Cluster formation of mining site exists as no other mining site falls within a radius of 500 m from the periphery of the proposed site.</p>																				

SEAC asked the project proponent and his Environmental Consultant to clarify the following observations to which he replied as under: -

Sr. No.	Observations	Reply submitted by the project proponent and his Environmental Consultant
1.	Whether Final District Survey Report (DSR) has been approved?	The project proponent intimated that the DC Ferozepur has sent the approved DSR to the Secretary, Mining vide letter number 728 dated 08.06.2020. Sh. Manoj Bansal, Executive Engineer, Department of Mines submitted the said letter along with a signed copy of the DSR by the Executive Engineer, Department of Mines, Ferozepur, which was taken on record by SEAC.
2.	The project proponent is required to get the hydrogeological survey of the existing water level done and also required to submit the impact on the water level regime due to the project. This report is required to be submitted at the time of submission of the EIA report.	The project proponent agreed to the same.
3.	The project proponent is required to submit a report regarding the preservation of topsoil excavated during the mining process at the time of submission of the EIA report.	The project proponent agreed to the same.

SEAC was satisfied with the presentation and reply given to the observation. SEAC took a copy of the presentation along with a reply on record.

After deliberations, SEAC decided to forward the application of the project proponent to SEIAA with the recommendations to issue Terms of Reference for mining of minor minerals (Sand) on Agricultural Land located in the revenue estate village Mamdot Uttar-I, Tehsil Ferozepur, District Ferozepur, Punjab submitted by M/s Prime Vision Industries Private Limited as per Annexure-I and the following additional ToRs:

1. The project proponent is required to get the hydrogeological survey of the existing water level done and to submit the impact on the water level regime due to the

project. This report is required to be submitted at the time of submission of the EIA report.

- 2.** The project proponent is required to submit a report regarding the preservation of topsoil excavated during the mining process at the time of submission of the EIA report.

Item No: 191.05: Application for obtaining Terms of Reference under EIA notification dated 14.09.2006 for mining of minor minerals On Agricultural Land in the village Beri Qadradab, Tehsil Zira District Ferozepur, Punjab submitted by M/s Prime Vision Industries Private Limited. (Proposal No. SIA/PB/MIN/54425/2020)

SEAC observed as under:-

M/s Prime Vision Industries Private Limited has applied for obtaining Terms Of Reference under EIA notification dated 14.09.2006 for mining of minor minerals (Sand) from Agricultural land in the revenue estate of village Beri Qadradab, Tehsil Zira District Ferozepur, Punjab on 03.07.2020. The project is covered under category 1 (a) of the Schedule appended to the said Notification. The site falls within 500 M distance of another site of village Bulla, Tehsil Zira Distt Ferozepur, due to which the project falls under category B1 and the project proponent has submitted certificate form department of mines in this regard.

Further, the said case was forwarded by SEIAA to SEAC on 14/07/2020 after scrutiny of the application and the updated status of the documents attached with the application is as under: -

1.0 Status of documents attached with application

(A) General

i)	Name of Applicant & Correspondence address: Mobile No: Email ID:	M/s Prime Vision Industries Pvt Ltd 312, Vishal Chamber P-1, Sector-18, Noida, Uttar Pradesh. 9646210786 Primevision.pb.ec@gmail.com
ii)	Name of Environmental Consultant Mobile No. Email ID	P and M solution 9910037943 Manasvyas23@gmail.com

B) Detail of the Documents

The project proponent submitted all the requisite documents as per the checklist of the mining case along with Form-02. The project proponent submitted a hard copy of the same, which was taken on record.

The case was considered by SEAC in its 191st meeting held on 24.07.2020 and the same was attended by the following on behalf of the project proponent:

- (i) Sh. Harkesh Singh, Authorised signatory, on behalf of the project proponent.
- (ii) Sh. Manas Vyas, FAE on behalf of M/s P & M Solutions, Noida, Environment Consultant of the promoter company.

SEAC allowed the project proponent to present the salient features of the project and the Environment consultant of the promoter company presented the same as under:

S.No	Item	Details		
1.	Online Proposal No.	SIA/PB/MIN/54425/2020		
2.	Project Name & Location	Beri Qadradabad Sand Mining Project Hadbast No-163		
3	Project/activity covered under item of scheduled to the EIA Notification,14.09.2006	Sr. No. 1(a) Mining of Minerals Category B1 Because the Mine lease is in cluster with Bulla Mine which has an area of 5.7 ha and thus the total Cluster area has become 7.3 ha		
4	Details of Mining Lease			
	i) Mineral (s) to be mined	Sand		
	ii) Capacity of Mine	The Proposed production Capacity 11279.4 TPA. (Total 33,838.2 MT)		
	iii) Mining Lease Area	Total area is 1.60 Ha

25.	Other important facts	<ul style="list-style-type: none"> i) During the lease period, the deposit will be worked from the top surface to 3 m below ground level or above ground water table, whichever comes first. ii) No court case/litigation is pending before any court of Law against the project and/or land in which the project is proposed to be set up. iii) All mitigation measures for each activity to be undertaken during the mining operation to minimize adverse environmental impacts as recommended in the sand mining guidelines, 2016 & Enforcement & Monitoring Guidelines for Sand Mining, 2020. iv) Compliance with various environmental regulations shall be ensured. v) Mining will be carried out as per the terms and conditions of the Auction notice no MDM/Pb/E-auction/2019/2231 dated 30.05.2019 issued by Department of Mines & Geology, Government of Punjab. vi) Extent of Mechanization <p>The mining shall be performed using a semi-mechanized method as per approved mine plan and Punjab Minor Mineral rules 2013. For mining operation excavators, dumpers and tippers have been considered. The machinery considered for sand mining has been presented below:-</p>

Name of Equipment	Capacity	No. of Equipment	Standby Equipment	Total
Excavator	0.90 m ³	2	-	2
Dumper	10 tonnes	2		2
Water tankers	As & when required	-	-	-

vii) Benefits of Semi mechanized method
Semi mechanized method, involving minimal use of machinery and optimal no. of workers if allowed can provide the following benefits:

- Reduced duration of exposure to negative impacts of mining.
- Reduced production of sewage and solid waste at the project site to be treated.
- Reduced nuisance to the villagers.
- Feasibility to extract the required quantity and supply raw material to market to curb black marketing of minor minerals and support to the construction industry in the region.
- Reduced social menace which may be caused due to large no. of laborers, in case of completely manual operation.

viii) The operation will be done only from sunrise to sunset hence there will be no power requirement for the project at the site.

ix) An undertaking has been submitted to the effect that no Cluster formation of mining site exists as no other mining site falls within a radius of 500 m from the periphery of the proposed site.

SEAC asked the project proponent and his Environmental Consultant to clarify the following observations to which he replied as under: -

Sr. No.	Observations	Reply submitted by the project proponent and his Environmental Consultant
1.	Whether Final District Survey Report (DSR) has been approved?	The project proponent intimated that the DC Ferozepur has sent the approved DSR to the Secretary, Mining vide letter number 728 dated 08.06.2020. Sh. Manoj Bansal, Executive Engineer, Department of Mines submitted the said letter along with a signed copy of the DSR by the Executive Engineer, Department of Mines, Ferozepur, which was taken on record by SEAC.

2.	The project proponent is required to get the hydrogeological survey of the existing water level done and also required to submit the impact on the water level regime due to the project. This report is required to be submitted at the time of submission of the EIA report.	The project proponent agreed to the same.
3.	The project proponent is required to submit a report regarding the preservation of topsoil excavated during the mining process at the time of submission of the EIA report.	The project proponent agreed to the same.

SEAC was satisfied with the presentation and reply given to the observation. SEAC took a copy of the presentation along with a reply on record.

After deliberations, SEAC decided to forward the application of the project proponent to SEIAA with the recommendations to issue Terms of Reference for mining of minor minerals (Sand) On Agricultural Land located in the revenue estate of village Beri Qadrad, Tehsil Zira District Ferozepur, Punjab submitted by M/s Prime Vision Industries Private Limited as per Annexure-I and the following additional ToRs:

1. The project proponent is required to get the hydrogeological survey of the existing water level done and to submit the impact on the water level regime due to the project. This report is required to be submitted at the time of submission of the EIA report.
2. The project proponent is required to submit a report regarding the preservation of topsoil excavated during the mining process at the time of submission of the EIA report.

Item No 191.06: Application for obtaining TOR under EIA notification dated 14.09.2006 for mining of minor minerals on river bed in the Village Kaniyan Husaini, Tehsil – Jagraon, District Ludhiana, Punjab submitted by M/s Mahadev Enclave Private Limited. (Proposal No. SIA/PB/MIN/50893/2020)

SEAC observed as under:-

M/s Mahadev Enclave Private Limited has applied for obtaining TOR under EIA notification dated 14.09.2006 for mining of minor minerals (Sand) from river bed in the revenue estate of village Kaniyan Husaini, Tehsil – Jagraon, District Ludhiana, Punjab on 17.02.2020. The project is covered under Schedule 1(a) of the Schedule appended to the said notification.

Further, the said case was forwarded by SEIAA to SEAC on 09/07/2020 after scrutiny of the application and the updated status of the documents attached with the application is as under:-

1.0 Status of documents attached with application

	<p>vii) The operation will be done only from sunrise to sunset hence there will be no power requirement for the project at the site.</p> <p>viii) An undertaking has been submitted to the effect that no Cluster formation of mining site exists as no other mining site falls within a radius of 500 m from the periphery of the proposed site.</p>
--	---

SEAC asked the project proponent and his Environmental Consultant to clarify the following observations to which he replied as under: -

Sr. No.	Observations	Reply submitted by the project proponent and his Environmental Consultant
1.	Whether Final District Survey Report (DSR) has been approved?	The project proponent intimated that the DSR has been revised by the DEIAA. However, no formal letter has been issued by the DC, Ludhiana to the Mining Department in this regard. Further, Sh. Paras Mahajan, Assistant Geologist informed the committee that the earlier DSR was having the name of this site. As such, no where it has been specified that the DSR should be mentioning the Khasra numbers. Thus, the older DSR be accepted for issuing of ToRs to the project proponent. Sh. Manoj Bansal, Executive Engineer, Department of Mines submitted a copy of the revised DSR signed by the Executive Engineer, Department of Mines, Ferozepur. He assured that the revised DSR letter will be obtained from DC, Ludhiana at the earliest in this regard. He also intimated the committee that the revised DSR had been uploaded by the DC Ludhiana on his website, which was checked online.
2.	Whether permission from DFO has been obtained?	The project proponent submitted that the permission has been obtained from the DFO Ludhiana vide letter no. 542 dated 30.06.2020 and showed the same to the committee.
3.	Whether the report from Sub Divisional Committee has been obtained regarding suitability of the site for mining?	The project proponent showed a copy of the Sub Divisional Committee regarding suitability of the site. However, the said report was not bearing any date. To this observation the project proponent intimated that the e-Auction of the mines is carried out only after report from the Sub Divisional Committee and since the auction has already been carried out, it would be possible

		only after the proper report from the Sub Divisional Committee. SEAC agreed to the same.
4.	The project proponent is required to get the hydrogeological survey of the existing water level done and also required to submit the impact on the water level regime due to the project. This report is required to be submitted at the time of submission of the EIA report.	The project proponent agreed to the same.
5.	The project proponent is required to submit a report regarding the preservation of topsoil excavated during the mining process at the time of submission of the EIA report.	The project proponent agreed to the same.

SEAC was satisfied with the presentation and reply given to the observation. SEAC took a copy of the presentation along with a reply on record.

After deliberations, SEAC decided to forward the application of the project proponent to SEIAA with the recommendations for to issue Terms of Reference mining of minor minerals (Sand) on river bed located in the revenue estate of village Kaniyan Husaini, Tehsil Jagraon, District Ludhiana, Punjab submitted by M/s Mahadev Enclave Private Limited, as per Annexure-I and the following additional ToRs:

1. The project proponent shall submit the revised approved DSR endorsed by the DC, Ludhiana clearly mentioning the Khasra Numbers of the site at the time of submission of the EIA report.
2. The project proponent is required to get the hydrogeological survey of the existing water level done and to submit the impact on the water level regime due to the project. This report is required to be submitted at the time of submission of the EIA report.
3. The project proponent is required to submit a report regarding the preservation of topsoil excavated during the mining process at the time of submission of the EIA report.
4. The project proponent shall submit the route plan for transporting the minor minerals from the project site. The vehicles should not pass through the river bed.

Item No 191.07: Application for obtaining TOR under EIA notification dated 14.09.2006 for mining of minor minerals on river bed in the village Talwandi Kalan, Tehsil –Ludhiana West, District Ludhiana, Punjab submitted by M/s Mahadev Enclave Private Limited. (Proposal No. SIA/PB/MIN/50897/2020)

SEAC observed as under:-

M/s Mahadev Enclave Private Limited has applied for obtaining TOR under EIA notification dated 14.09.2006 for mining of minor minerals (Sand) from river bed in the revenue estate of village Talwandi Kalan, Tehsil –Ludhiana West, District Ludhiana, Punjab on 19.02.2020. The project is covered under S.No. 1(a) of the Schedule appended to the said notification.

Further, the said case was forwarded by SEIAA to SEAC on 09/07/2020 after scrutiny of the application and the updated status of the documents attached with the application is as under:-

1.0 Status of documents attached with the application

(A) General

i)	Name of Applicant & Correspondence address: Mobile No: Email ID:	M/s MAHADEV ENCLAVE PRIVATE LIMITED B-37 Ayodhaya Marg, Hanuman Nagar, Jaipur, Rajasthan +91 9780625432 avnit.kaushal@gmail.com
ii)	Name of Environmental Consultant Mobile No. Email ID	Eco Laboratories & Consultants Pvt. Ltd. 9814003103, 0172461622 consulteco@yahoo.com

B) Detail of the Documents

The project proponent submitted all the requisite documents as per the checklist of the mining case along with Form-02. The project proponent submitted a hard copy of the same, which was taken on record.

The case was considered by SEAC in its 191st meeting held on 24.07.2020 and the same was attended by the following on behalf of the project proponent:

- (i) Sh. Manoj Kumar, Authorised signatory, on behalf of the project proponent.
- (ii) Ms. Simran Kaur, EIA coordinator, M/s Eco Laboratories and Consultants Pvt. Ltd., Mohali, Environment Consultant of the promoter company.

SEAC allowed the project proponent to present the salient features of the project and the Environment consultant of the promoter company presented the same as under:

25.	<p>Other important facts</p> <ul style="list-style-type: none"> i) During the lease period, the deposit will be worked from the top surface to 3 m below ground level or above ground water table, whichever comes first. ii) No court case/litigation is pending before any court of Law against the project and/or land in which the project is proposed to be set up. iii) All mitigation measures for each activity to be undertaken during the mining operation to minimize adverse environmental impacts as recommended in the sand mining guidelines, 2016 & Enforcement & Monitoring Guidelines for Sand Mining, 2020. iv) Compliance with various environmental regulations shall be ensured. v) Mining will be carried out as per the terms and conditions of the Auction notice no MDM/Pb/E-auction/2019/2231 dated 30.05.2019 issued by Department of Mines & Geology, Government of Punjab. vi) Extent of Mechanization The mining shall be performed using a semi-mechanized method as per approved mine plan and Punjab Minor Mineral rules 2013. For mining operation excavators, dumpers and tippers have been considered. The machinery considered for sand mining has been presented below:- vii) Benefits of Semi mechanized method Semi mechanized method, involving minimal use of machinery and optimal no. of workers if allowed can provide the following benefits: <ul style="list-style-type: none"> a. Reduced duration of exposure to negative impacts of mining. b. Reduced production of sewage and solid waste at the project site to be treated. c. Reduced nuisance to the villagers. d. Feasibility to extract the required quantity and supply raw material to market to curb black marketing of minor minerals and support to the construction industry in the region. e. Reduced social menace which may be caused due to large no. of laborers, in case of completely manual operation. viii) The operation will be done only from sunrise to sunset hence there will be no power requirement for the project at the site. ix) An undertaking has been submitted to the effect that no Cluster formation of mining site exists as no other mining site falls within a radius of 500 m from the periphery of the proposed site. 	

SEAC asked the project proponent and his Environmental Consultant to clarify the following observations to which he replied as under: -

Sr. No.	Observations	Reply submitted by the project proponent and his Environmental Consultant
1.	Whether permission from DFO has been obtained?	The project proponent showed the committee the letter issued by the DFO Ludhiana bearing number 1507 dated 13.07.2020 to the District Mining Officer, Ludhiana. As per the said letter, the DFO has rejected the NOC for the said site to the project proponent.

SEAC observed that since the NOC has been rejected by the DFO, the site cannot be considered by the committee for issuance of ToRs. After detailed deliberations, SEAC decided to reject the application submitted by the project proponent.

Item No 191.08: Application for obtaining TOR under EIA notification dated 14.09.2006 for mining of minor minerals an agricultural land (off-channel site) in the village Kumb Kalan, Tehsil Ludhiana East, District Ludhiana, Punjab submitted by M/s Mahadev Enclave Private Limited. Proposal No. SIA/PB/MIN/50931/2020)

SEAC observed as under:-

M/s Mahadev Enclave Private Limited has applied for obtaining TOR under EIA notification dated 14.09.2006 for mining of minor minerals (Sand) from an agricultural land (off-channel site) in the revenue estate of village Kumb Kalan, Tehsil Ludhiana East, District Ludhiana, Punjab on 20.02.2020. The project is covered under S.No. 1 (a) of the Schedule appended to the said notification.

Further, the said case was forwarded by SEIAA to SEAC on 14/07/2020 after scrutiny of the application and the updated status of the documents attached with the application is as under: -

1.0 Status of documents attached with application

Dumper	20 tonnes	5		5																		
Water tankers	As & when required	-	-	-																		

	<ul style="list-style-type: none"> a. Reduced duration of exposure to negative impacts of mining. b. Reduced production of sewage and solid waste at the project site to be treated. c. Reduced nuisance to the villagers. d. Feasibility to extract the required quantity and supply raw material to market to curb black marketing of minor minerals and support to the construction industry in the region. e. Reduced social menace which may be caused due to large no. of laborers, in case of completely manual operation.
viii)	The operation will be done only from sunrise to sunset hence there will be no power requirement for the project at the site.
ix)	An undertaking has been submitted to the effect that no Cluster formation of mining site exists as no other mining site falls within a radius of 500 m from the periphery of the proposed site.

SEAC asked the project proponent and his Environmental Consultant to clarify the following observations to which he replied as under: -

Sr. No.	Observations	Reply submitted by the project proponent and his Environmental Consultant
1.	Whether Final District Survey Report (DSR) has been approved?	The project proponent intimated that the DSR has been revised by the DEIAA. However, no formal letter has been issued by the DC, Ludhiana to the Mining Department in this regard. Further, Sh. Paras Mahajan, Assistant Geologist informed the committee that the earlier DSR was having the name of this site. As such, no where it has been specified that the DSR should be mentioning the Khasra numbers. Thus, the older DSR be accepted for issuing of ToRs to the project proponent. Sh. Manoj Bansal, Executive Engineer, Department of Mines submitted a copy of the revised DSR signed by the Executive Engineer, Department of Mines, Ferozepur. He assured that the revised DSR letter will be obtained from DC, Ludhiana at the earliest in this regard. He also intimated the committee that the revised DSR had

		been uploaded by the DC Ludhiana in his website, which was checked online.
2.	Whether permission from DFO has been obtained?	The project proponent submitted that the permission has been obtained from the DFO Ludhiana vide letter no. 542 dated 30.06.2020 and showed the same to the committee.
3.	Whether the report from Sub Divisional Committee has been obtained regarding suitability of the site for mining?	The project proponent showed a copy of the Sub Divisional Committee regarding suitability of the site. However, the said report was older of date i.e. 21.01.2014. To this observation the project proponent intimated that the e-Auction of the mines is carried out only after report from the Sub Divisional Committee and since the auction has already been carried out, it would be possible only after the proper report from the Sub Divisional Committee. SEAC agreed to the same.
4.	The project proponent is required to get the hydrogeological survey of the existing water level done and also required to submit the impact on the water level regime due to the project. This report is required to be submitted at the time of submission of the EIA report.	The project proponent agreed to the same.
5.	The project proponent is required to submit a report regarding the preservation of topsoil excavated during the mining process at the time of submission of the EIA report.	The project proponent agreed to the same.

SEAC was satisfied with the presentation and reply given to the observation. SEAC took a copy of the presentation along with a reply on record.

After deliberations, SEAC decided to forward the application of the project proponent to SEIAA with the recommendations to issue Terms of Reference for mining of minor minerals (Sand) on river bed located in the revenue estate of village Kumb Kalan, Tehsil

Ludhiana (East), District Ludhiana, Punjab submitted by M/s Mahadev Enclave Private Limited, as per Annexure-I and the following additional ToRs:

1. The project proponent shall submit the revised approved DSR endorsed by the DC, Ludhiana clearly mentioning the Khasra Numbers of the site at the time of submission of the EIA report.
2. The project proponent is required to get the hydrogeological survey of the existing water level done and to submit the impact on the water level regime due to the project. This report is required to be submitted at the time of submission of the EIA report.
3. The project proponent is required to submit a report regarding the preservation of topsoil excavated during the mining process at the time of submission of the EIA report.
4. The project proponent shall submit the route plan for transporting the minor minerals from the project site. The vehicles should not pass through the river bed.

Item No 191.09: Application for obtaining TOR under EIA notification dated 14.09.2006 for mining of minor minerals on river bed in the village Parjian Biharipur, Tehsil – Jagron, District Ludhiana, Punjab submitted by M/s Mahadev Enclave Private Limited. (Proposal No. SIA/PB/MIN/53311/2020)

SEAC observed as under:

M/s Mahadev Enclave Private Limited has applied for obtaining TOR under EIA notification dated 14.09.2006 for mining of minor minerals (Sand) from river bed in the revenue estate of village Parjian Biharipur, Tehsil – Jagron, District Ludhiana, Punjab on 23.05.2020. The project is covered under S.No. 1(a) of the Schedule appended to the said Notification.

Further, the said case was forwarded by SEIAA to SEAC on 14/07/2020 after scrutiny of the application and the updated status of the documents attached with the application is as under

1.0 Status of documents attached with the application

(A) General

i)	Name of Applicant & Correspondence address: Mobile No: Email ID:	M/s Mahadev Enclave Private Limited B-37 Ayodhaya Marg, Hanuman Nagar, Jaipur, Rajasthan +91 9780625432 avnit.kaushal@gmail.com
ii)	Name of Environmental Consultant Mobile No. Email ID	Eco Laboratories & Consultants Pvt. Ltd. 9814003103, 0172461622 consulteco@yahoo.com

(B) Details of the Documents

The project proponent submitted all the requisite documents as per the checklist of the mining case along with Form-02. The project proponent submitted a hard copy of the same, which was taken on record.

The case was considered by SEAC in its 191st meeting held on 24.07.2020 and the same was attended by the following on behalf of the project proponent:

- (i) Sh. Manoj Kumar, Authorised signatory, on behalf of the project proponent.
- (ii) Ms. Simran Kaur, EIA coordinator, M/s Eco Laboratories and Consultants Pvt. Ltd., Mohali, Environment Consultant of the promoter company.

SEAC allowed the project proponent to present the salient features of the project and the Environment consultant of the promoter company presented the same as under:

SEAC asked the project proponent and his Environmental Consultant to clarify the following observations to which he replied as under: -

Sr. No.	Observations	Reply submitted by the project proponent and his Environmental Consultant
1.	Whether Final District Survey Report (DSR) has been approved?	The project proponent intimated that the DSR has been revised by the DEIAA. However, no formal letter has been issued by the DC, Ludhiana to the Mining Department in this regard. Further, Sh. Paras Mahajan, Assistant Geologist informed the committee that the earlier DSR was having the name of this site. As such, no where it has been specified that the DSR should be mentioning the Khasra numbers. Thus, the older DSR be accepted for issuing of ToRs to the project proponent. Sh. Manoj Bansal, Executive Engineer, Department of Mines submitted a copy of the revised DSR signed by the Executive Engineer, Department of Mines, Ferozepur. He assured that the revised DSR letter will be obtained from DC, Ludhiana at the earliest in this regard. He also intimated the committee that the revised DSR had been uploaded by the DC Ludhiana in his website, which was checked online.

2.	Whether permission from DFO has been obtained?	The project proponent submitted that the permission has been obtained from the DFO Ludhiana vide letter no. 542 dated 30.06.2020 and showed the same to the committee.
3.	Whether the report from Sub Divisional Committee has been obtained regarding suitability of the site for mining?	The project proponent showed a copy of the Sub Divisional Committee regarding suitability of the site. However, the said report was not bearing any date. To this observation the project proponent intimated that the e-Auction of the mines is carried out only after report from the Sub Divisional Committee and since the auction has already been carried out, it would be possible only after the proper report from the Sub Divisional Committee. SEAC agreed to the same.
4.	The project proponent is required to get the hydrogeological survey of the existing water level done and also required to submit the impact on the water level regime due to the project. This report is required to be submitted at the time of submission of the EIA report.	The project proponent agreed to the same.
5.	The project proponent is required to submit a report regarding the preservation of topsoil excavated during the mining process at the time of submission of the EIA report.	The project proponent agreed to the same.

SEAC was satisfied with the presentation and reply given to the observation. SEAC took a copy of the presentation along with a reply on record.

After deliberations, SEAC decided to forward the application of the project proponent to SEIAA with the recommendations to issue Terms of Reference for mining of minor minerals (Sand) on river bed located in the revenue estate of village Parjian Biharipur, Tehsil Jagraon, District Ludhiana, Punjab submitted by M/s Mahadev Enclave Private Limited, as per Annexure-I and the following additional ToRs:

1. The project proponent shall submit the revised approved DSR endorsed by the DC, Ludhiana clearly mentioning the Khasra Numbers of the site at the time of submission of the EIA report.
2. The project proponent is required to get the hydrogeological survey of the existing water level done and to submit the impact on the water level regime due to the project. This report is required to be submitted at the time of submission of the EIA report.
3. The project proponent is required to submit a report regarding the preservation of topsoil excavated during the mining process at the time of submission of the EIA report.
4. The project proponent shall submit the route plan for transporting the minor minerals from the project site. The vehicles should not pass through the river bed.

Item No. 191.10 Application for issuance of TORs for setting up of new steel Ingots/Billets manufacturing unit with capacity 1,78,200 TPA & Round, Coil, Flats, Wire rod, TMT Bars with capacity of 1,70,000 TPA by installing three Induction Furnaces of capacity 3×15 TPH, a concast machine & a rolling mill at Village- Wajirabad, Sirhind side, Tehsil & District- Fatehgarh Sahib, Punjab by M/s Pawanputra Steels (P) Ltd (Old Proposal No. SIA/PB/IND/51066/2020 and New Proposal No. SIA/PB/IND/55021/2020).

SEAC observed that

1.0 Background

The project proponent has applied for issuance of TORs for installing three Induction Furnaces of capacity 3×15 TPH, a concast machine for manufacturing of Steel Ingots/Billets with capacity 1,78,200 TPA & installing a Rolling Mill for manufacturing Round, Coil, Flats, Wire rod, TMT Bars with capacity of 1,70,000 TPA to M/s Pawanputra Steels Pvt. Ltd. Located at Village- Wajirabad, Sirhind side, Tehsil & District- Fatehgarh Sahib, Punjab. The Project is covered under Activity 3(a) & Category 'B1'.

The project proponent submitted the Form I, Pre-feasibility report and other requisite documents on online portal. He has also deposited the processing fee amounting to Rs. 75,000/- (25% of the total fee) through NEFT No. 000086304288 dated 21.04.20 w.r.t the project cost of Rs 30 Crores.

The application was scrutinized & Essential Details were sought to which project proponent replied vide Email dated 30.04.2020, 06.07.2020 and 21.07.20 respectively.

2.0 Deliberations during the 191st meeting of SEAC held on 04.03.2020

The meeting was attended by Sh. Pawan Kumar Bansal, Director of the company through Video Conference and Sh .Sh. Sital Singh, EIA Coordinator, M/s CPTL, Mohali.

During the meeting, the project proponent submitted that earlier, an application for issuance of TOR having proposal no. SIA/PB/IND/51066/2020 was applied online and the said case was accepted on 22/07/2020. After accepting the case, online Auto TORs were generated through Parivesh Portal inconsonance with OM dated 17.02.2020 issued by the MoEF&CC, New Delhi. The Auto TOR was generated because the project proponent in the column no. 30 of Form-I, has mentioned that the project is located in the notified industrial area however, later on it was found that the project site does not fall in the notified industrial area, which was agreed by the Project proponent.

Thereafter, new application having proposal no SIA/PB/IND/55021/2020 has been submitted on 23.07.2020 for issuance of Terms of Reference with same salient features. A request letter dated 23.07.2020 regarding withdrawal of old application having proposal no

SIA/PB/IND/51066/2020 and consideration of above-mentioned new application in the 191st meeting of SEAC scheduled on 24.07.2020 has been submitted. The project proponent has also requested to consider the same processing fee, which was deposited for the old application. SEAC accepted the request of the project proponent.

SEAC was further apprised that Environmental Engineer, PPCB, RO, Fatehgarh Sahib was requested vide email dated 07.07.2020 to send the construction status of the project site. Accordingly, he replied vide email dated 10.07.2020 that the industry was visited by its AEE on 10.07.2020 and it was observed as under:-

S.No.	Point	Reply
1.	Construction status of the industry in the project area. Also attached the photographs of the project sites.	Construction status of the industry in the project area (30.620067, 76.32352) is following: The proposed site of the industry is a vacant agriculture land (paddy grown field) and there is no construction work observed during the visit. Also photographs taken during the visit submitted.
2.	As to whether the site of the project is meeting with the siting guidelines framed by Punjab Pollution Control Board for such type of projects.	It is submitted that, there are no specific siting guidelines framed by Punjab Pollution Control Board for such type of industry i.e Induction furnace unit. However, this office has received change of land use certificate from agricultural to Industrial vide Senior Town Planner, SAS Nagar letter no. 188-193-STP(S)/SS-11(F1) dated 05.02.2020 for Khasra No. 19//19, 19//18, 19//17, 19//16/2/1/2, 19//16/2/2, 19//21, 19//22, 19//23, 19//24, 18//25/1/2, 18//25/2/1/1, 19//25/1/2, 18//16min., 19//20 i.e total land area of 8.62 acres.

Environmental Consultant of the promoter company submitted the presentation for new proposal incorporating the EDS reply submitted with the old proposal, which was taken on record. As per the presentation, the details of the salient features of the project are as under:

Sr. No.	Description	Details
1.	Online Proposal No.	SIA/PB/IND/51066/2020 (Old) SIA/PB/IND/55021/2020 (new)
2.	Name and Location of the project	M/s Pawanputra Steels Pvt. Ltd. at Village-Wajirabad, Sirhind Side, Tehsil & District Fatehgarh Sahib (Punjab)

3.	Nature of project (Fresh EC/EC for Expansion/New)	Fresh EC
4.	a) Category b) Activity (As per schedule appended to EIA Notification, 2006 as amended time to time.)	(a) B1 (b) 3(a) Metallurgical Industries (ferrous & non ferrous)
5.	Whether project falls within 5km from the boundary of critically polluted area (Yes/No)	No
6.	Co-ordinates of the project site (Latitude & Longitude) :	Latitude : 30°37'11.05"N 30°37'10.92"N 30°37'07.32"N 30°37'08.14"N Longitude: 76°19'20.62"E 76°19'32.45"E 76°19'20.17"E 76°19'32.44"E
7.	Classification/Land use pattern as per Master Plan	The site falls in Medium & heavy Industry zone as per master plan (2010-31) of Mandi Gobindgarh.
8.	Details of CLU certificate	Industrial as per CLU granted vide memo no 185 STP(S)/SS-11 (F-1) dated 05.02.2020 for land area measuring 8.62 acres having Khasra no. 19//19, 19//18, 19//17, 19//16/2/1/2, 19//16/2/2, 19//21, 19//22, 19//23, 19//24, 18//25/1/2, 18//25/2/1/1, 19//25/1/2, 18//16 min, 19//20.
9.	Copy of memorandum of Article & Association/ partnership deed/undertaking of sole proprietorship/ list of Directors and names of other persons responsible for managing day to day affairs of the project.	Submitted

10	a) Is the project covered under PLPA, 1900, if No but located near to PLPA area then the project proponent is required to submit NOC from the concerned DFO to the effect that project area does not fall under the provision of PLPA Act, 1900. b) b. Is the project covered under PLPA,1900, if yes then Status of the NOC w.r.t PLPA,1900.	Project proponent submitted an undertaking to the effect that the project does not cover under PLPA, 1900
11	The project proponent is required to submit either documentary proof of the distance of Bir Bhadson Wildlife Sanctuary from project site.	Project proponent submitted black & white copy of toposheet with marked location Bir Bhadson wildlife sanctuary as 13 km away from project.
12	No. of Working Days/Annum	330 days in a year
13	No. of working Hrs/Day	21 hrs/day
14	Manpower	150
15	Details of block as per CGWA guideline (Notified/ Non Notified area) in which project site is located	The project site falls in Sirhind Block which is Non-notified area as per CGWA guidelines.
16	Project Area Details:	
	S. No.	Land
	1.	8.62
	2.	1.50
17	Total project cost	Rs. 30 Crores
18	Raw Material requirement	
	S.No.	Quantity (TPA)
	1.	1,56,816
	2.	39,204
19	Production Capacity	
	S.No.	Total Production (TPA)
	1.	1,78,200
	2.	1,70,000
	*No. Of working days : 330days/ Annum	
20	Details of major productive machinery/plant	
	S.No.	Machinery/plant
	1.	3X15TPH
	2.	01 No.
	3.	01 No.

21	Water Requirements & its source :				
	S. No.	Description	Total water demand (KLD)		
	1.	Domestic water demand	7		
	2.	Make up water demand for cooling purpose	38		
	Total		45		
	Sources of water:				
	Sr. No.	Purposes	Source of water		
	1.	Domestic	Own tubewell		
	2.	Make-up water demand for cooling	Own tubewell		
	3.	Green area water demand	Treated waste water from STP		
22	Power Requirement with source		16 MW ; Source - PSCPCL		
23	Details of Effluent				
	Sr. No.	Details	Effluent generation (KLD)	Details of existing & proposed Effluent Control Device	
	i)	Industrial Effluent	Nil	There will be no generation of trade effluent from process	
	ii)	Domestic Effluent	38	Waste water generated from domestic & cooling tower will be treated in STP of 40 KLD capacity.	
24	Details of Emissions				
	Sr. No.	Source	Capacity (TPH)	Chimney Height (m)	Details of proposed Air Pollution Control Device
	i)	Induction Furnace	3X15 TPH	30	Side Suction Hood Spark Arrestor, Bag House, ID Fan (Offline cleaning pulsejet bag filter)
	ii)	D.G. set	500 kVA	2.5m above roof level	Equipped with canopy

25	Details of Hazardous waste and its disposal				
	Sr. No.	Hazardous Waste	Category	Quantity (TPA)	Disposal arrangement
	1.	Gas Cleaning Residue (APCD dust)- Bag filter	35.1	264	Will be sent to authorized recycler for Final Disposal
2.	Used Oil (KLI/annum)	5.1	0.015 kl/hour	Will be sold to the authorized recycler.	
26	Solid waste generation and its disposal(After expansion)				
	Sr. No.	Solid Waste	Quantity (TPD)	Disposal arrangement	
(i)	Slag	29.7	Will be Sent to manufacturers of cement concrete blocks, pavers & tiles under proper agreement.		

During the meeting, the following observations were made to which project proponent replied as under:

Sr. No	Observations	Reply
1	As to whether 33% green area proposed in consonance with the requirement of MoEF	<p>PP submitted that the competent authority has granted CLU for land measuring 8.62 Acre with one of the condition that a strip of 29' wide is to be kept out of plot measuring 34997.67 m² for any future widening of adjoining public road.</p> <p>Accordingly, an area measuring 2749.74 m² has been left out, thereby considering only the remaining area of 32247.93 m² for layout, of which 33% i.e. 10650.55m² may be considered for green belt.</p> <p>SEAC was not satisfied with the reply of the project proponent and asked to submit the revised layout proposing 33% of the green area w.r.t 8.62 Acres land for which EC has been applied.</p>

		Accordingly, the project proponent submitted the revised layout plan which was taken on record.
2)	<p>Environmental Consultant informed that they had conducted baseline monitoring from March 2018 to May 2018 for M/s Salasar casting which is closely located with proposed project site. He requested to kindly accept the study as per the OM dated 29.08.2017 issued by the MoEF&CC, New Delhi.</p> <p>To this, SEAC queried to the project proponent that how far site is located from the M/s Salasar casting</p>	He stated that the site is located within 2 Km from the M/s Salasar casting. SEAC accepted the request of the environmental consultant. However, it was decided that 01 months additional study shall be carried out with effect from 16.09.2020.

3.0 Recommendations

After detailed deliberations, it was decided to recommend to SEIAA as under:

- i) The request of project proponent regarding withdrawal of old application having proposal no SIA/PB/IND/51066/2020 dated 23.07.2020, be accepted.
- ii) The project is categorized under Activity 3(a); B-1 with public consultation. Terms of Reference for preparing Environmental Impact Assessment (EIA) report in reference to the new application having proposal no SIA/PB/IND/55021 /2020 be issued to the project proponent as under: -

A. STANDARD TERMS OF REFERENCE

1) Executive Summary

Report in about 8-10 pages incorporating the following:

- (i) Project name and location (Village, Distt., State, Industrial Estate (if applicable))
- (ii) Products and capacities. If expansion proposal, then existing products with capacities and reference to earlier EC.
- (iii) Requirement of land, raw material, water, power, fuel, with source of supply (Quantitative)
- (iv) Process description in brief, specifically indicating the gaseous emission, liquid effluent and solid and hazardous wastes.

- (v) Measures for mitigating the impact on the environment and mode of discharge or disposal.
- (vi) Capital cost of the project, estimated time of completion
- (vii) Site selected for the project - Nature of land - Agricultural (single/double crop), barren, Govt./private land, status of its acquisition, nearby (in 2-3 km.) water body, population, within 10 km other industries, forest, eco-sensitive zones, accessibility, (note - in case of industrial estate this information may not be necessary)
- (viii) Baseline environmental data - air quality, surface and groundwater quality, soil characteristic, flora and fauna, socio-economic condition of the nearby population Identification of hazards in handling, processing and storage of hazardous material and safety system provided to mitigate the risk.
- (ix) Identification of hazards in handling, processing and storage of hazardous material and safety system provided to mitigate the risk
- (x) Likely impact of the project on air, water, land, flora-fauna and nearby population
- (xi) Emergency preparedness plan in case of natural or in plant emergencies
- (xii) Issues raised during public hearing (if applicable) and response given
- (xiii) CSR/CER plan with proposed expenditure.
- (xiv) Occupational Health Measures
- (xv) Post Project monitoring plan
- (xvi) Synopsis of the project (as available on web site i.e. www.pbdecc.gov.in)

2) Introduction

- (i) Details of the EIA Consultant including NABET accreditation
- (ii) Information about the project proponent
- (iii) Importance and benefits of the project

3) Project Description

- (i) Cost of project and time of completion.
- (ii) Products with capacities for the proposed project.
- (iii) If expansion project, details of existing products with capacities and whether adequate land is available for expansion, reference of earlier EC if any.
- (iv) List of raw materials required and their source along with mode of transportation.
- (v) Other chemicals and materials required with quantities and storage capacities.

- (vi) Details of Emission, effluents, hazardous waste generation and their management.
- (vii) Requirement of water (breakup for induction and rolling mill), power, with source of supply, status of approval, water balance diagram, man-power requirement (regular and contract).
- (viii) Process description along with major equipment and machineries, process flow sheet (quantitative) from raw material to products to be provided
- (ix) Hazard identification and details of proposed safety systems.
- (x) In case of Expansion/modernization proposals:
 - a) Status of compliance of Consent to Operate for the ongoing /existing operation of the project from SPCB shall be attached with the EIA-EMP report.
 - b) In case the existing project has not obtained environmental clearance, reasons for not taking EC under the provisions of the EIA Notification 1994 and/or EIA Notification 2006 shall be provided. Copies of Consent to Establish/No Objection Certificate and Consent to Operate (in case of units operating prior to EIA Notification 2006, CTE and CTO of FY 2005-2006) obtained from the SPCB shall be submitted. Further, compliance report to the conditions of consents from the SPCB shall be submitted.

4) Site Details

- (i) Location of the project site covering village, Taluka / Tehsil, District and State, Justification for selecting the site, whether other sites were considered. Copy of Master Plan indicating a land use pattern of the site is in conformity of proposals of Master Plan shall be attached with EIA report.
- (ii) A top sheet of the study area of radius of 10 km and site location on 1:50,000/1:25,000 scale on an A3/A2 sheet. (Including all eco-sensitive areas and environmentally sensitive places)
- (iii) Details w.r.t. option analysis for selection of site.
- (iv) Co-ordinates (lat-long) of all four corners of the site.
- (v) Google map-Earth downloaded of the project site
- (vi) Layout maps indicating existing unit as well as proposed unit indicating storage area of raw material, finished products, greenbelt area with marking of tree, Location of STP/ETP, Solid waste storage area, Parking space, Firefighting equipment layout, First aid room, Location of Tube wells, DG Sets & Transformers and any other utilities
- (vii) If located within an Industrial area/Estate/Complex, layout of Industrial Area indicating location of unit within the Industrial area/Estate.

- (viii) Photographs of the proposed and existing (if applicable) plant site. If existing, show photographs of plantation/greenbelt, in particular.
- (ix) Land use break-up of total land of the project site (identified and acquired), government/private - agricultural, forest, wasteland, water bodies, settlements, etc. shall be included. (not required for industrial area)
- (x) A list of major industries with name and type within study area (10 km radius) shall be incorporated. Land use details of the study area.
- (xi) Geological features and Geo-hydrological status of the study area shall be included.
- (xii) Details of Drainage of the project up to 5km radius of study area. If the site is within 1 km radius of any major river, peak and lean season river discharge as well as flood occurrence frequency based on peak rainfall data of the past 30 years. Details of Flood Level of the project site and maximum Flood Level of the river shall also be provided. (mega green field projects)
- (xiii) Status of acquisition of land. If acquisition is not complete, stage of the acquisition process and expected time of complete possession of the land.
- (xiv) R&R details in respect of land in line with state Government policy

5) Forest and wildlife related issues (if applicable):

- (i) Permission and approval for the use of forest land (forestry clearance), if any, and recommendations of the State Forest Department. (if applicable).
- (ii) Land use map based on High resolution satellite imagery (OPS) of the proposed site delineating the forestland (in case of projects involving forest land more than 40 ha).
- (iii) Status of Application submitted for obtaining the stage I forestry clearance along with latest status shall be submitted.
- (iv) The projects to be located within 10 km of the National Parks, Sanctuaries, Biosphere Reserves, Migratory Corridors of Wild Animals, the project proponent shall submit the map duly authenticated by Chief Wildlife Warden showing these features vis-a-vis the project location and the recommendations or comments of the Chief Wildlife Warden-thereon.
- (v) Wildlife Conservation Plan duly authenticated by the Chief Wildlife Warden of the State Government for conservation of Schedule I fauna, if any exists in the study area.
- (vi) Copy of application submitted for clearance under the Wildlife (Protection) Act, 1972, to the Standing Committee of the National Board for Wildlife.

6) Environmental Status

- (i) Determination of atmospheric inversion level at the project site and site specific micro-meteorological data using temperature, relative humidity, hourly wind speed and direction and rainfall.
 - (ii) AAQ data (except monsoon) at 8 locations for PM 10, PM2.5, SO₂, NO_x, CO and other parameters relevant to the project shall be collected. The monitoring stations shall be based CPCB guidelines and take into account the pre dominant wind direction, population zone and sensitive receptors including reserved forests.
 - (iii) Raw data of all AAQ measurement for 12 weeks of all stations as per frequency given in the NAQQM Notification of Nov. 2009 along with - min., max., average and 98% values for each of the AAQ parameters from data of all AAQ stations should be provided as an annexure to the EIA Report.
 - (iv) Surface water quality of nearby River (100m upstream and downstream) and other surface drains at eight locations as per CPCB/MoEF& CC guidelines.
 - (v) Whether the site falls near to polluted stretch of river identified by the CPCB/MoEF& CC.
 - (vi) Groundwater monitoring at minimum at 8 locations shall be included.
 - (vii) Noise levels monitoring at 8 locations within the study area.
 - (viii) Soil Characteristic as per CPCB guidelines.
 - (ix) Traffic feasibility / serviceability study for at least 3 days based on Indian Standard Codes. Further it shall also include the details of cross section of the road on which industry is located, vehicles movement w.r.t. the industry, traffic load of other vehicles on the road incorporating the haulage time for the vehicles for loading/unloading within the premises and parking requirement to avoid the traffic congestions on the link and adjoining roads. Traffic study shall be conducted considering the traffic of the industries located in the vicinity.
 - (x) Detailed description of flora and fauna (terrestrial and aquatic) existing in the study area shall be given with special reference to rare, endemic and endangered species. If Schedule-I fauna are found within the study area, a Wildlife Conservation Plan shall be prepared and furnished.
 - (xi) Socio-economic status of the study area.
- 7) Impact Assessment and Environment Management Plan
- (i) Assessment of ground level concentration of pollutants from the stack emission based on site-specific meteorological features. In case the project is located on a hilly terrain, the AQIP Modeling shall be done using inputs of the specific terrain characteristics for determining the potential impacts of the project on the AAQ. Cumulative impact of all sources of emissions (including transportation) on the AAQ of the area shall be well assessed. Details of the model used and the input data used for modeling shall also be provided. The

- air quality contours shall be plotted on a location map showing the location of project site, habitation nearby, sensitive receptors, if any.
- (ii) Water Quality modelling.
 - (iii) Impact of the transport of the raw materials and end products on the surrounding environment shall be assessed and provided. In this regard, options for transport of raw materials and finished products and wastes (large quantities) by rail or rail-cum road transport or conveyer-cum-rail transport shall be examined.
 - (iv) A note on treatment, recycling and reuse of wastewater from different plant operations, extent for different purposes shall be included. Complete scheme of effluent treatment. Characteristics of untreated and treated effluent to meet the prescribed standards of discharge under EPA Rules.
 - (v) Details of stack emission and action plan for control of emissions to meet standards.
 - (vi) Measures for fugitive emission control
 - (vii) Details of hazardous waste generation and their storage, utilization and disposal. Copies of MOU regarding utilization of solid and hazardous waste shall also be included. EMP shall include the concept of waste-minimization, recycle/reuse/recover techniques, Energy conservation, and natural resource conservation.
 - (viii) Proper utilization of fly ash shall be ensured as per Fly Ash Notification, 2009. A detailed plan of action shall be provided.
 - (ix) Action plan for the green belt development in 33 % area with not less than 1,500 trees per hectares giving details of species, width of plantation, planting schedule, post plantation maintenance plan for 3 years shall be included. The green belt shall be around the boundary and a scheme for greening of the roads used for the project shall also be incorporated
 - (x) Action plan for rainwater harvesting measures at alternative sites shall be submitted to harvest rainwater from the roof tops and storm water drains to recharge the groundwater and also to use for the various activities to conserve freshwater and reduce the water requirement from other sources.
 - (xi) Total capital cost and recurring cost/annum for environmental pollution control measures shall be included.
 - (xii) Action plan for post-project environmental monitoring shall be submitted.
 - (xiii) Onsite and Offsite Disaster (natural and Man-made) Preparedness and Emergency Management Plan including Risk Assessment and damage control. Disaster management plan should be linked with the District Disaster Management Plan.
- 8) Occupational health

- (i) Details of existing Occupational & Safety Hazards. What are the exposure levels of above-mentioned hazards and whether they are within the Permissible Exposure Level (PEL)? If these are not within PEL, what measures the company has adopted to keep them within PEL so that the health of the workers can be preserved,
 - (ii) Details of exposure specific health status evaluation of worker. If the workers' health is being evaluated by pre-designed format, chest x rays, Audiometry, Spirometry, Vision testing (Far & Near vision, colour vision and any other ocular defect) ECG, during pre-placement and periodical examinations give the details of the same. Details regarding last month analyzed data of above-mentioned parameters as per age, sex, duration of exposure and department wise.
 - (iii) Annual report of the health status of workers with special reference to Occupational Health and Safety.
 - (iv) Plan and fund allocation to ensure the occupational health & safety of all contract and casual workers.
- 9) Corporate Environment Policy
- (i) Does the company have a well laid down Environment Policy approved by its Board of Directors? If so, it may be detailed in the EIA report.
 - (ii) Does the Environment Policy prescribe for standard operating processes/procedures to bring into focus any infringement/deviation/violation of the environmental or forest norms/conditions? If so, it may be detailed in the EIA.
 - (iii) What is the hierarchical system or Administrative order of the company to deal with the environmental issues and for ensuring compliance with the environmental clearance conditions? Details of this system may be given.
 - (iv) Does the company have a system of reporting of non-compliances / violations of environmental norms to the Board of Directors of the company and / or shareholders or stakeholders at large? This reporting mechanism shall be detailed in the EIA report
- 10) Details regarding infrastructure facilities such as sanitation, fuel, restroom, etc. to be provided to the labour force during construction as well as to the casual workers including truck drivers during the operation phase.
- 11) Enterprise Social Commitment (ESC)
- (i) To address the Public Hearing issues, 2.5% of the total project cost of (Rs. ___crores), amounting to Rs. ___crores, shall be earmarked by the project proponent, towards Enterprise Social Commitment (ESC). Distinct ESC projects shall be carved out based on the local public hearing issues. Project estimate shall be prepared based on PWD schedule of rates for each distinct Item and schedule for time-bound action plan shall be prepared. These ESC projects as indicated by the project proponent shall be implemented along with the main project. Implementation of such program shall be ensured by constituting a

Committee comprising of the project proponent, representatives of village Panchayat & District Administration. Action taken report in this regard shall be submitted to the Ministry's Regional Office. No free distribution/donations and or free camps shall be included in the above ESC budget

- 12) Any litigation pending against the project and/or any direction/order passed by any Court of Law against the project, if so, details thereof shall also be included. Has the unit received any notice under the Section 5 of Environment (Protection) Act, 1986 or relevant Sections of Air and Water Acts? If so, details thereof and compliance/ATR to the notice(s) and present status of the case.
- 13) A tabular chart with index for points wise compliance of above TORs.

B. STANDARDISED SPECIFIC TERMS OF REFERENCE FOR EIA STUDIES FOR INDUCTION/ ARC FURNACES/CUPOLA FURNACES 5TPH OR MORE

- (i) Details of proposed layout clearly demarcating existing & proposed features of the project within the plant.
- (ii) Total no. of furnaces & details including capacity of each furnace.
- (iii) Detail of the mechanical shredder to reduce the size of the raw material.
- (iv) Complete process flow diagram describing each unit, its processes, and operations, along with material and energy inputs and outputs (material and energy balance).
- (v) Details on the design and manufacturing process for all the units.
- (vi) Details on environmentally sound technologies for recycling of hazardous materials, as per CPCB Guidelines, may be mentioned in case of handling scrap and other recycled materials.
- (vii) Details on the requirement of raw materials, its source, and storage at the plant.
- (viii) Details on the requirement of energy and water along with its source and authorization from the concerned department. Location of water intake and outfall points (with coordinates).
- (ix) Details on toxic metal content in the waste material and its composition and end-use (particularly of slag).
- (x) Details on toxic content (TCLP), composition and end-use of chrome slag. Details on the recovery of the Ferro chrome from the slag and its proper disposal.

C. ADDITIONAL SPECIFIC TORS DECIDED DURING MEETING OF SEAC

- (i) Public consultation is required for the projects as not located in notified industrial parks/estates.

- (ii) Environmental Consultant of the promoter company shall carry out the baseline study for one additional month from 16.09.2020 (except monsoon season), which includes at least three days of traffic study.
- (iii) Submit proof of ownership of land (existing owner) such as copy of latest Jamabandi (not more than one month old) and credible document showing status of land acquisition w.r.t. project site as prescribed in OM dated 07.10.2014 issued by MoEF)
- (iv) Submit dully filled prescribed field data sheets and analysis reports along with exact location of sampling / monitoring point marked on the layout map. Also submit the status of approvals of Laboratories.
- (v) Submit cost of the project duly certified by Chartered Engineer/ Approved valuer / Chartered Accountant. In the absence of above, the project proponent may submit self-certified detail of cost of the project mentioning the cost of Land, building, infrastructure and plant & machinery
- (vi) Certificate from the concerned authority w.r.t the location of protected areas as notified under the Wildlife Protection Act, 1972 within 5 km radius from the boundary of the project site.
- (i) Certificate from the Department of Town & Country Planning or concerned authorities to support the claim made by project proponent that the project site is located in the industrial zone as per the provisions of Master Plan of Town/City in the jurisdiction of which the project site is located.
- (vii) Compliance of the siting criteria, standard operating practices, code of practice, and guidelines if any prescribed by the SPCB/CPCB/MoEF&CC for such type of units.
- (viii) Necessary permissions from the Central Groundwater Authority (CGWA)/ State Groundwater Authority (SGWA)/concerned authority for the abstraction of groundwater for the existing requirements as well as for the expanded unit. In case of not allowing such permission by the concerned authority for the abstraction of additional groundwater for the expanded project, the project proponent shall propose alternative arrangements to meet out the additional water requirements. It shall be ensured that: -
 - a) In the projects where groundwater is proposed as a water source, the project proponent shall apply to the Central Groundwater Authority (CGWA)/ State Groundwater Authority (SGWA), as the case may be, for obtaining No Objection Certificate (NOC) if applicable.
 - b) Approval /permission of the CGWA/SGWA shall be obtained before drawing groundwater for the project activities.
 - c) In the absence of approval, submit a copy of acknowledgment along with a set of application filed to CGWA /Competent Authority for obtaining permission for the abstraction of groundwater

- (ix) Minimize the water consumption in the steel plant complex by segregation of used water, practicing cascade use and by recycling treated water.
- (x) STP for treatment of wastewater & re-utilization of the treated water for core/non-core activities so as to achieve the Zero Liquid Discharge Condition as per the III (iv) of OM dated 09/08/2018 issued by the MoEF&CC for such units.
- (xi) Reuse of cooling tower blow down, simultaneously ensuring the standards prescribed for such purge waters. If required, necessary arrangements shall be made to keep this waste stream within the parameters required for reuse.
- (xii) In case of any acid pickling activity, the spent acid/effluents generated from such activities shall be utilized through authorized re-processors for converting the same into useful by-products like FeSO₄ etc. An agreement to this effect shall be made with the authorized agencies.
- (xiii) Adequate area to be reserved and marked on the layout plan for the green belt as per the conditions laid down by the MoEF&CC as per the Standard EC Conditions prescribed for Induction/ Electric Arc Furnace & Rolling Mills circulated vide OM dated 09/08/2018.
- (xiv) Detailed study report along with calculation for reserving land for loading or unloading of raw material, products, slag, hazardous waste as well as for storage of these materials and the area to be reserved for parking incorporating the time required for loading and unloading of vehicles for respective activities and minimum/maximum period for which storage of the above material is required in the premises. The areas for the respective activities to be marked on the layout plan.
- (xv) Action plan for the compliance of standard operating procedures and up-gradation of suction and treatment arrangement for the secondary emissions as prescribed by the State Pollution Control Board or by CPCB/MoEF&CC.
- (xvi) Compliance of standard operating procedures and up-gradation of suction/treatment systems for the control of secondary emissions within the time frame prescribed by the State Pollution Control Board. Similar action is to be implemented in the proposed expansion project.
- (xvii) Whole of the vehicle movement area as well as the approach road to the gate /weighing bridge shall be paved with pucca/metalled / cement concrete road to control the dust emissions expected from the vehicle movement.
- (xviii) The vehicles to be used for loading/unloading purposes shall not be parked along the roadside so as to avoid the traffic congestion and dedicated parking place to be provided for the same.
- (xix) Adopt green technologies to conserve the water and energy including shearing/cutting / bundling machines. Also, to provide abrasive resistant fire

bricks in the crucibles to reduce the periodic maintenance & disposal of discarded fire bricks.

- (xx) Use of natural gas (if available) as substitute fuel wherever possible in the existing industry/ for the expansion project.
- (xxi) Delineate the concrete proposal regarding activities to be undertaken under Corporate Environmental Responsibility indicating the followings: -
 - i) various activities to be undertaken as per the provision of OM dated 01.05.2018
 - ii) proportionate provisions of funds,
 - iii) the period in which CER activities is to be implemented
 - iv) the person(s) responsible for the implementation.
- (xxii) Submit compliance w.r.t. condition no.II [(i) & (iii)] subtitled as "Air Quality Monitoring & Preservation" regarding continuous emission monitoring system and continuous ambient air quality monitoring as prescribed in the Standard EC Conditions for Induction/ Electric Arc Furnace & Rolling Mills issued by the MoEF&CC, New Delhi vide OM dated 09/08/2018.
- (xxiii) Examine and submit the proposal for: -
 - a) Recovery of iron from slag before disposing of it.
 - b) Identify the areas for utilization of slag in a scientific manner and explore its usage in cement/construction industry/manufacturing of pavers & tiles/road laying etc.
 - c) Recovery of precious metals like Zinc, lead and iron etc. from the APCD dust (Hazardous waste) through authorized re-processor.
- (xxiv) Air Pollution Control Arrangement details shall be provided as below:

Plant /Unit	Pollutants	Qty generated	Method used to Control /specifications (attach Separate Sheet to furnish Details)	Number of units planned & Capacity	Budget	Estimated Post Control Qty Pollutant	
						Per Unit	Per day

- (xxv) Submit compliance regarding the installation of Pulse jet bag filter with offline cleaning technology as APCD with the proposed induction furnace.
- (xxvi) List the species with heavy foliage, broad leaves and wide canopy cover. The landscape planning should include plantation of native species. Water intensive and/or invasive species should not be used for landscaping.

- (xxvii) Examine the quantity of hazardous waste for category 5.1 & 35.1 generated from the unit and shall submit its disposal arrangements.
- (xxviii) Examine the source of water to meet the requirement of green area in the summer season.

The following general points shall be noted:

- (i) The EIA document shall be printed on both sides, as far as possible.
- (ii) All documents shall be properly indexed, page numbered.
- (iii) Period/date of data collection shall be clearly indicated.
- (iv) The letter/application for environmental clearance shall quote the MOEF / SEIAA file No. and also attach a copy of the letter.
- (v) The copy of the letter received from the Ministry / SEIAA shall be also attached as an annexure to the final EIA-EMP Report.
- (vi) The index of the final EIA-EMP report must indicate the specific chapter and page no. of the EIA-EMP Report.
- (vii) While preparing the EIA report, the instructions for the proponents and instructions for the consultants issued by MOEF vide notification dated 03.03.2016 which is available on the website of this Ministry shall also be followed.
- (viii) The consultants involved in the preparation of EIA-EMP report after accreditation with Quality Council of India (QCI) /National Accreditation Board of Education and Training (NABET) would need to include a certificate in this regard in the EIA-EMP reports prepared by them and data provided by other organization/Laboratories including their status of approvals etc. Name of the Consultant and the Accreditation details shall be posted on the EIA-EMP Report as well as on the cover of the Hard Copy of the Presentation material for EC presentation.

The Terms of Reference (ToR) prescribed by the State Expert Appraisal Committee (SEAC), Punjab should be considered for the preparation of EIA / EMP report for the project in addition to all the relevant information as per the Generic Structure of EIA given in Appendix III and IIIA in the EIA Notification, 2006.

Where the documents provided are in a language other than English, an English translation shall be provided. The draft EIA-EMP report shall be submitted to the State Pollution Control Board of the concerned State for the conduct of Public Hearing. The SPCB shall conduct the Public Hearing/public consultation, district-wise, as per the provisions of EIA notification, 2006. The Public Hearing shall be chaired by an Officer, not below the rank of Additional District Magistrate. The issues raised in the Public Hearing and during the consultation process and the commitments made by the project proponent on the same shall be included separately in EIA-EMP Report in a separate chapter and

summarized in a tabular chart with financial budget (capital and revenue) along with time-schedule of implementation for complying with the commitments made.

If any part of the data/information submitted by the project proponent is found to be false or misleading at any stage, then SEIAA & SEAC will not be responsible for the expenditure incurred on the project due to issuance of this ToR or subsequent work carried out by the project proponent for conducting EIA study or for any other activity related to the project.

The 'Terms of Reference' (TORs) prescribed will be valid for a period of three years from its issuance. The final EIA report shall be submitted to the SEIAA, Punjab for obtaining environmental clearance.

Item No. 191.11 Application for issuance of TORs for manufacturing of 1,05,000 TPA of Alloys/Non Alloys Steel Billets/Ingots and 1,00,000 TPA of Structural Steel (Round, Coil, Flats, Wire Rod, TMT Bars) by upgrading existing furnace to 10TPH, addition of one no. IF of capacity 15TPH, a Concast and a Rolling Mill having capacity 15TPH respectively at Village-Bhagwanpura, Dehlon Road, Tehsil- Ludhiana East, District- Ludhiana, Punjab by M/s J.N. Tayal Steels Pvt. Ltd. (Proposal No. SIA/PB/IND/46655/2019)

SEAC observed that

1.0 Background

The project proponent has applied for issuance of TORs for installing two Induction Furnaces of capacity 1×15 TPH & 1 x 10 TPH by replacing induction furnaces of 1x 8 TPH, and a concast machine for manufacturing of Steel Ingots/Billets with capacity 1,05,000 TPA & installing a Rolling Mill for manufacturing Round, Coil, Flats, Wire rod, TMT Bars with capacity of 1,00,000 TPA to M/s J.N. Tayal Steels Pvt. Ltd. located at Village- Bhagwanpura, Dehlon Road, Tehsil- Ludhiana East, District- Ludhiana, Punjab. The Project is covered under Activity 3(a) & Category 'B1'.

The project proponent submitted the Form I, Pre-feasibility report and other additional documents on online portal. He has also deposited the processing fee amounting to Rs. 32,275/- (25% of the total fee) through NEFT No. SBIN20071284811 dated 11.03.20. w.r. t Rs. 12.91 crores.

The application was scrutinized & Essential Details were sought to which project proponent replied vide Email dated 12.03.20, 03.06.20 and 21.07.20 respectively.

2.0 Deliberations during the 191st meeting of SEAC held on 04.03.2020

The meeting was attended by Sh. Jitin Tayal, Director of the company through Video Conference and Sh .Sh. Sital Singh, EIA Coordinator, M/s CPTL, Mohali.

Environmental Engineer, PPCB, RO 4, Ludhiana was requested vide email dated 31.12.2019 and 03.02.20 to send the construction status of the project site. Accordingly, they replied vide letter dated 17.03.20 that the industry was visited on 16.03.20 and it was observed as under:-

Sr. No.	Description of points	Reply
1	Construction /installation status of the expansion proposal of the proposed project of the industry	No construction activity regarding expansion of the industry is in progress at site.
2	As to whether existing production is less than 30000 TPA. Please send the detailed report.	The computerized record of production of the industry w.e.f April, 2019 to Feb, 2020 has been collected during visit and as per the record of the industry, the total production of the industry since April, 2019 is 27464 Ton.
3.	Distance of unit from the boundary of MC limit and Critically Polluted Area	As per the DTP, Ludhiana letter no. 3684 DTP(L)/M2A dated 26.11.2019, the site of the industry is located at a distance 6.2 KM from the MC limit and the site of the industry falls in Medium & Heavy industry zone as per notified Master Plan, Ludhiana (2007-2021)
4.	Status of physical structures within 500 m radius of the site including the status of industries, if any.	There are 18 no. industries are located within the 500 m radius of the site of the industry
5.	Status of consents issued to existing unit under the Air Act, 1981 and the Water Act, 1974.	The industry was granted consent to operate under the Water Act, 1972 vide no. CTOW/Fres/LDH4/2019/9761041 dated 28.06.2019 which is valid upto 30.06.2023 and under the Air Act, 1981 vide no. CTOA/Fresh/LDH4/2019/9760969 dated 28.06.2019 which expired on 27.12.2019. The industry has also applied for renewal of consent to operate under Air Act, 1981 which is under process.
6	As the whether, the existing unit complying with condition of consent to	Yes

	operate under Air Act, 1981 and Water Act, 1973 granted to it.	
--	--	--

Environmental Consultant of the promoter company submitted the presentation for new proposal, which was taken on record. As per the presentation, the details of the salient features of the project are as under:

Sr. No.	Description	Details
1.	Online Proposal No.	SIA/PB/IND/46655/2019
2.	Name and Location of the project	M/s J.N. Tayal Steels Pvt. Ltd. at Village-Bhagwanpura, Dehlon road, Tehsil- Ludhiana east, District- Ludhiana
3.	In case of expansion projects, whether granted EC earlier, if Yes, then provide its details	It is an expansion project. But due to existing capacity of 29,610 TPA, earlier EC was not required.
4.	Nature of project (Fresh EC/EC for Expansion/New)	Fresh EC
5.	a) Category b) Activity (As per schedule appended to EIA Notification, 2006 as amended time to time.)	(a) B1 (b) 3(a) Metallurgical Industries (ferrous & non ferrous)
6.	Whether project falls within 5km from the boundary of critically polluted area (Yes/No)	The project site is located at distance of 6.20 km from MC Limit Ludhiana. Distance certificate vide letter no.- 3684DTP(L)/M2A dated 26/11/2019 obtained from District Town Planner, Ludhiana has been submitted
7.	Details of Consent to operate under (Air/Water Act) of existing project	Consent to operate under (Air/Water Act) has been submitted
8.	Existing production Capacity (TPA)	Alloys/Non alloys Steel Ingots- 29,610 TPA
9.	Details TOR processing fee submitted (25% of the total project cost)	25% of the total project cost i.e. a sum of Rs. 32,275/- has been submitted through RTGS vide UTR No. SBIN120071284811 dated 11.03.20.
10.	Co-ordinates of the project site (Latitude & Longitude) :	Latitude : 30°47'43.57"N 30°47'43.47"N 30°47'41.80"N 30°47'41.80" N Longitude: 75°56'38.92"E 75°56'30.28"E 75°56'30.78"E 75°56'38.87"E

11.	Classification/Land use pattern as per Master Plan	The site falls in Industrial zone as per master plan (2007-21)		
12.	Details of CLU certificate	CLU has been obtained vide memo no.- 890 STP(L)/TW-12A dated 10/03/2010 for land Area 1.86 Acres having Khasra no. 18/18,4//21/2,22/2,5//4/2,7,14,17,18,23,24,25 / ,6//3/1,4/1,5,6/1,7/1,7//1,2,9/1,10/1 As per CLU record, the site falls in Medium & heavy Industry zone as per master plan (2007-21).		
13.	Copy of memorandum of Article & Association/ partnership deed/undertaking of sole proprietorship/ list of Directors and names of other persons responsible for managing day to day affairs of the project.	Submitted copy of memorandum		
14.	No. of Working Days/Annum	350 days in a year		
15.	No. of working Hrs/Day	21 hrs/day		
16.	Manpower (Existing & After expansion)	Existing - 45 Proposed – 55 After Expansion - 100		
17.	Details of block as per CGWA guideline (Notified/ Non Notified area) in which project site is located	The project site falls in Samrala Block which is Non-notified area as per CGWA guidelines.		
18.	Project Area Details as per Pre-Feasibility report :			
	S.no.	Details	Existing Land	Proposed Additional Land
	1.	Plot Area (in sqm as per registry)	11533	---
				Total land after Expansion
				11533 (2.85 Acre)
19.	Total Project cost	Rs. 12.91 Crore		
20.	Raw Material requirement as per following format:			
	S.No.	Product name	Existing (TPA)	Proposed (TPA)
	1.	MS Scrap	32,500	82,900
	2.	Ferro Alloys	1050	3,150
				After Expansion (TPA)
				1,15,400
				4,200

21.	Production Capacity as per following format :				
	S.No.	Product name	Existing (TPA)	Proposed (TPA)	After Expansion (TPA)
	1.	Alloy/ Non alloy Steel Billets/Ingots	29,610	75,390	1,05,000
2.	Structural Steel (Round, Coil, Flats, Wire rod, TMT bars)	Nil	1,00,000	1,00,00	
22.	Details of major productive machinery/plant				
	S.No.	Particulars	Existing	Proposed	After Expansion
	1.	Induction Furnace	1X8 TPH	Existing 8TPH will be upgraded to 10TPH, 1X15 TPH	1X10 TPH 1X15 TPH
	2.	Rolling Mill	Nil	1 No. (15TPH)	1 No. (15TPH)
3.	CCM	Nil	01 No.	01 No.	
23.	Water Requirements & its source :				
	S. No.	Description	Existing water demand (KLD)	Proposed water demand (KLD)	Total water demand (KLD)
	1.	Domestic water demand	4.5	3.0	7.5
	2.	Make up water demand for cooling purpose	8.0	15.0	23.5
	Total		12.5	18.0	30.5
	Sources of water:				
	Sr. No.	Purposes	Source of water		
	1.	Domestic	Own tubewell		
	2.	Make-up water demand for cooling	Own tubewell		
	3.	Green area water demand	Treated waste water		
24.	Details of Effluent : The waste water generated from domestic and cooling purposes will be treated through STP of 10 KLD capacity and will be used for plantation as mentioned PFR.				

25.	Details of Hazardous waste and its disposal (After expansion)				
	Sr. No	Hazardous Waste	Category	Quantity (TPD) (After expansion)	Disposal arrangement
	1.	Gas Cleaning Residue (APCD dust)- Bag filter	35.1	0.86	Will be sent to TSDf site or M/s Madhav alloys for final disposal
	2.	Gas Cleaning Residue (APCD dust)- Alkali scrubber	35.1	--	--
3.	Used Oil (kl/annum)	5.1	--	Will be reused as lubricant in the industry y.	
26.	Solid waste generation and its disposal (After expansion)				
	Sr. No.	Solid Waste	Quantity (TPD) (After Expansion)	Disposal arrangement	
(i)	Slag	28.11	Will be sent to approved manufactures of concrete blocks, pavers and tiles.		
27.	Energy Requirements (After expansion)		16000KW Source - PSPCL		

During the meeting, the following observations were made to which project proponent replied as under:

Sr. No	Observations	Reply
1)	Production of the exiting plant is reported 29610 TPA. How many heats per day is taking by the units and accordingly provide the calculations.	Project proponent submitted the computerized record of production of the industry w.e.f April, 2019 to March 2020. As per the said record of the industry, the total production of the industry for a year was 29417.925 MT. He further informed that he was taking total 11 heats in a day and the maximum production, which can be achieved in year considering 330 working days on average basis is $8 \times 11 \times 335 = 29480$ MT.
1	Please provide the details of project area of land to be	The project area to be considered is 2.85 acres as per the registry of land submitted.

	considered and existing and proposed amenities to be marked on the layout plan.	Out of 2.85 acres land, the CLU is granted to 1.85 acre. The CLU of balance 1 acre will be obtained. The existing and proposed amenities has been marked on the layout plan and same has already been submitted, which was taken on record.
2.	As to whether 33% green area proposed in consonance with the requirement of MoEF	PP submitted that 33% green area will be provided w.r.t 2.85 acres of land.

3.0 Recommendations

After detailed deliberations, it was decided to categorize the project under Activity 3(a); B-1 with public consultation as required for the project. The baseline study shall be carried out by Environmental Consultant for full season except monsoon season, which includes at least three days of traffic study. The Committee approved the following Terms of Reference for preparing Environmental Impact Assessment (EIA) report for the proposed project and recommended to SEIAA to issue the following TORs:

A. STANDARD TERMS OF REFERENCE

1) Executive Summary

Report in about 8-10 pages incorporating the following:

- (i) Project name and location (Village, Distt., State, Industrial Estate (if applicable))
- (ii) Products and capacities. If expansion proposal, then existing products with capacities and reference to earlier EC.
- (iii) Requirement of land, raw material, water, power, fuel, with source of supply (Quantitative)
- (iv) Process description in brief, specifically indicating the gaseous emission, liquid effluent and solid and hazardous wastes.
- (v) Measures for mitigating the impact on the environment and mode of discharge or disposal.
- (vi) Capital cost of the project, estimated time of completion
- (vii) Site selected for the project - Nature of land - Agricultural (single/double crop), barren, Govt./private land, status of is acquisition, nearby (in 2-3 km.) water body, population, within 10 km other industries, forest, eco-sensitive zones, accessibility, (note - in case of industrial estate this information may not be necessary)

- (viii) Baseline environmental data - air quality, surface and groundwater quality, soil characteristic, flora and fauna, socio-economic condition of the nearby population Identification of hazards in handling, processing and storage of hazardous material and safety system provided to mitigate the risk.
- (ix) Identification of hazards in handling, processing and storage of hazardous material and safety system provided to mitigate the risk
- (x) Likely impact of the project on air, water, land, flora-fauna and nearby population
- (xi) Emergency preparedness plan in case of natural or in plant emergencies
- (xii) Issues raised during public hearing (if applicable) and response given
- (xiii) CSR/CER plan with proposed expenditure.
- (xiv) Occupational Health Measures
- (xv) Post Project monitoring plan
- (xvi) Synopsis of the project (as available on web site i.e. www.pbdecc.gov.in)

2) Introduction

- (i) Details of the EIA Consultant including NABET accreditation
- (ii) Information about the project proponent
- (iii) Importance and benefits of the project

3) Project Description

- (i) Cost of project and time of completion.
- (ii) Products with capacities for the proposed project.
- (iii) If expansion project, details of existing products with capacities and whether adequate land is available for expansion, reference of earlier EC if any.
- (iv) List of raw materials required and their source along with mode of transportation.
- (v) Other chemicals and materials required with quantities and storage capacities.
- (vi) Details of Emission, effluents, hazardous waste generation and their management.
- (vii) Requirement of water (breakup for induction and rolling mill), power, with source of supply, status of approval, water balance diagram, man-power requirement (regular and contract).
- (viii) Process description along with major equipment and machineries, process flow sheet (quantitative) from raw material to products to be provided
- (ix) Hazard identification and details of proposed safety systems.
- (x) In case of Expansion/modernization proposals:

- c) Status of compliance of Consent to Operate for the ongoing /existing operation of the project from SPCB shall be attached with the EIA-EMP report.
- d) In case the existing project has not obtained environmental clearance, reasons for not taking EC under the provisions of the EIA Notification 1994 and/or EIA Notification 2006 shall be provided. Copies of Consent to Establish/No Objection Certificate and Consent to Operate (in case of units operating prior to EIA Notification 2006, CTE and CTO of FY 2005-2006) obtained from the SPCB shall be submitted. Further, compliance report to the conditions of consents from the SPCB shall be submitted.

4) Site Details

- (i) Location of the project site covering village, Taluka / Tehsil, District and State, Justification for selecting the site, whether other sites were considered. Copy of Master Plan indicating a land use pattern of the site is in conformity of proposals of Master Plan shall be attached with EIA report.
- (ii) A top sheet of the study area of radius of 10 km and site location on 1:50,000/1:25,000 scale on an A3/A2 sheet. (Including all eco-sensitive areas and environmentally sensitive places)
- (iii) Details w.r.t. option analysis for selection of site.
- (iv) Co-ordinates (lat-long) of all four corners of the site.
- (v) Google map-Earth downloaded of the project site
- (vi) Layout maps indicating existing unit as well as proposed unit indicating storage area of raw material, finished products, greenbelt area with marking of tree, Location of STP/ETP, Solid waste storage area, Parking space, Firefighting equipment layout, First aid room, Location of Tube wells, DG Sets & Transformers and any other utilities
- (vii) If located within an Industrial area/Estate/Complex, layout of Industrial Area indicating location of unit within the Industrial area/Estate.
- (viii) Photographs of the proposed and existing (if applicable) plant site. If existing, show photographs of plantation/greenbelt, in particular.
- (ix) Land use break-up of total land of the project site (identified and acquired), government/private - agricultural, forest, wasteland, water bodies, settlements, etc. shall be included. (not required for industrial area)
- (x) A list of major industries with name and type within study area (10 km radius) shall be incorporated. Land use details of the study area.
- (xi) Geological features and Geo-hydrological status of the study area shall be included.

- (xii) Details of Drainage of the project up to 5km radius of study area. If the site is within 1 km radius of any major river, peak and lean season river discharge as well as flood occurrence frequency based on peak rainfall data of the past 30 years. Details of Flood Level of the project site and maximum Flood Level of the river shall also be provided. (mega green field projects)
 - (xiii) Status of acquisition of land. If acquisition is not complete, stage of the acquisition process and expected time of complete possession of the land.
 - (xiv) R&R details in respect of land in line with state Government policy
- 5) Forest and wildlife related issues (if applicable):
- (i) Permission and approval for the use of forest land (forestry clearance), if any, and recommendations of the State Forest Department. (if applicable).
 - (ii) Land use map based on High resolution satellite imagery (OPS) of the proposed site delineating the forestland (in case of projects involving forest land more than 40 ha).
 - (iii) Status of Application submitted for obtaining the stage I forestry clearance along with latest status shall be submitted.
 - (iv) The projects to be located within 10 km of the National Parks, Sanctuaries, Biosphere Reserves, Migratory Corridors of Wild Animals, the project proponent shall submit the map duly authenticated by Chief Wildlife Warden showing these features vis-a-vis the project location and the recommendations or comments of the Chief Wildlife Warden-thereon.
 - (v) Wildlife Conservation Plan duly authenticated by the Chief Wildlife Warden of the State Government for conservation of Schedule I fauna, if any exists in the study area.
 - (vi) Copy of application submitted for clearance under the Wildlife (Protection) Act, 1972, to the Standing Committee of the National Board for Wildlife.
- 6) Environmental Status
- (i) Determination of atmospheric inversion level at the project site and site specific micro-meteorological data using temperature, relative humidity, hourly wind speed and direction and rainfall.
 - (ii) AAQ data (except monsoon) at 8 locations for PM 10, PM2.5, SO₂, NO_x, CO and other parameters relevant to the project shall be collected. The monitoring stations shall be based CPCB guidelines and take into account the pre dominant wind direction, population zone and sensitive receptors including reserved forests.
 - (iii) Raw data of all AAQ measurement for 12 weeks of all stations as per frequency given in the NAQQM Notification of Nov. 2009 along with - min., max., average and 98% values for each of the AAQ parameters from data of all AAQ stations should be provided as an annexure to the EIA Report.

- (iv) Surface water quality of nearby River (100m upstream and downstream) and other surface drains at eight locations as per CPCB/MoEF& CC guidelines.
- (v) Whether the site falls near to polluted stretch of river identified by the CPCB/MoEF& CC.
- (vi) Groundwater monitoring at minimum at 8 locations shall be included.
- (vii) Noise levels monitoring at 8 locations within the study area.
- (viii) Soil Characteristic as per CPCB guidelines.
- (ix) Traffic feasibility / serviceability study for at least 3 days based on Indian Standard Codes. Further, it shall also include the details of cross-section of the road on which industry is located, vehicles movement w.r.t. the industry, traffic load of other vehicles on the road incorporating the haulage time for the vehicles for loading/unloading within the premises and parking requirement to avoid the traffic congestions on the link and adjoining roads. Traffic study shall be conducted considering the traffic of the industries located in the vicinity.
- (x) Detailed description of flora and fauna (terrestrial and aquatic) existing in the study area shall be given with special reference to rare, endemic and endangered species. If Schedule-I fauna are found within the study area, a Wildlife Conservation Plan shall be prepared and furnished.
- (xi) Socio-economic status of the study area.

7) Impact Assessment and Environment Management Plan

- (i) Assessment of ground level concentration of pollutants from the stack emission based on site-specific meteorological features. In case the project is located on a hilly terrain, the AQIP Modeling shall be done using inputs of the specific terrain characteristics for determining the potential impacts of the project on the AAQ. Cumulative impact of all sources of emissions (including transportation) on the AAQ of the area shall be well assessed. Details of the model used and the input data used for modeling shall also be provided. The air quality contours shall be plotted on a location map showing the location of project site, habitation nearby, sensitive receptors, if any.
- (ii) Water Quality modelling.
- (iii) Impact of the transport of the raw materials and end products on the surrounding environment shall be assessed and provided. In this regard, options for transport of raw materials and finished products and wastes (large quantities) by rail or rail-cum road transport or conveyor-cum-rail transport shall be examined.
- (iv) A note on treatment, recycling and reuse of wastewater from different plant operations, extent for different purposes shall be included. Complete scheme of effluent treatment. Characteristics of untreated and treated effluent to meet the prescribed standards of discharge under EPA Rules.

- (v) Details of stack emission and action plan for control of emissions to meet standards.
 - (vi) Measures for fugitive emission control
 - (vii) Details of hazardous waste generation and their storage, utilization and disposal. Copies of MOU regarding utilization of solid and hazardous waste shall also be included. EMP shall include the concept of waste-minimization, recycle/reuse/recover techniques, Energy conservation, and natural resource conservation.
 - (viii) Proper utilization of fly ash shall be ensured as per Fly Ash Notification, 2009. A detailed plan of action shall be provided.
 - (ix) Action plan for the green belt development in 33 % area with not less than 1,500 trees per hectares giving details of species, width of plantation, planting schedule, post plantation maintenance plan for 3 years shall be included. The green belt shall be around the boundary and a scheme for greening of the roads used for the project shall also be incorporated
 - (x) Action plan for rainwater harvesting measures at alternative sites shall be submitted to harvest rainwater from the roof tops and storm water drains to recharge the groundwater and also to use for the various activities to conserve freshwater and reduce the water requirement from other sources.
 - (xi) Total capital cost and recurring cost/annum for environmental pollution control measures shall be included.
 - (xii) Action plan for post-project environmental monitoring shall be submitted.
 - (xiii) Onsite and Offsite Disaster (natural and Man-made) Preparedness and Emergency Management Plan including Risk Assessment and damage control. Disaster management plan should be linked with the District Disaster Management Plan.
- 8) Occupational health
- (i) Details of existing Occupational & Safety Hazards. What are the exposure levels of above-mentioned hazards and whether they are within the Permissible Exposure Level (PEL)? If these are not within PEL, what measures the company has adopted to keep them within PEL so that the health of the workers can be preserved,
 - (ii) Details of exposure specific health status evaluation of worker. If the workers' health is being evaluated by pre-designed format, chest x rays, Audiometry, Spirometry, Vision testing (Far & Near vision, colour vision and any other ocular defect) ECG, during pre-placement and periodical examinations give the details of the same. Details regarding last month analyzed data of above-mentioned parameters as per age, sex, duration of exposure and department wise.
 - (iii) Annual report of the health status of workers with special reference to Occupational Health and Safety.

- (iv) Plan and fund allocation to ensure the occupational health & safety of all contract and casual workers.
- 9) Corporate Environment Policy
- (i) Does the company have a well laid down Environment Policy approved by its Board of Directors? If so, it may be detailed in the EIA report.
 - (ii) Does the Environment Policy prescribe for standard operating processes/procedures to bring into focus any infringement/deviation/violation of the environmental or forest norms/conditions? If so, it may be detailed in the EIA.
 - (iii) What is the hierarchical system or Administrative order of the company to deal with the environmental issues and for ensuring compliance with the environmental clearance conditions? Details of this system may be given.
 - (iv) Does the company have a system of reporting of non-compliances / violations of environmental norms to the Board of Directors of the company and / or shareholders or stakeholders at large? This reporting mechanism shall be detailed in the EIA report
- 10) Details regarding infrastructure facilities such as sanitation, fuel, restroom, etc. to be provided to the labour force during construction as well as to the casual workers including truck drivers during the operation phase.
- 11) Enterprise Social Commitment (ESC)
- (i) To address the Public Hearing issues, 2.5% of the total project cost of (Rs.____crores), amounting to Rs.____crores, shall be earmarked by the project proponent, towards Enterprise Social Commitment (ESC). Distinct ESC projects shall be carved out based on the local public hearing issues. Project estimate shall be prepared based on PWD schedule of rates for each distinct Item and schedule for time-bound action plan shall be prepared. These ESC projects as indicated by the project proponent shall be implemented along with the main project. Implementation of such program shall be ensured by constituting a Committee comprising of the project proponent, representatives of village Panchayat & District Administration. Action taken report in this regard shall be submitted to the Ministry's Regional Office. No free distribution/donations and or free camps shall be included in the above ESC budget
- 12) Any litigation pending against the project and/or any direction/order passed by any Court of Law against the project, if so, details thereof shall also be included. Has the unit received any notice under the Section 5 of Environment (Protection) Act, 1986 or relevant Sections of Air and Water Acts? If so, details thereof and compliance/ATR to the notice(s) and present status of the case.
- 13) A tabular chart with index for points wise compliance of above TORs.

B. STANDARDISED SPECIFIC TERMS OF REFERENCE FOR EIA STUDIES FOR INDUCTION/ ARC FURNACES/CUPOLA FURNACES 5TPH OR MORE

- (i) Details of proposed layout clearly demarcating existing & proposed features of the project within the plant.
- (ii) Total no. of furnaces & details including capacity of each furnace.
- (iii) Detail of the mechanical shredder to reduce the size of the raw material.
- (iv) Complete process flow diagram describing each unit, its processes, and operations, along with material and energy inputs and outputs (material and energy balance).
- (v) Details on the design and manufacturing process for all the units.
- (vi) Details on environmentally sound technologies for recycling of hazardous materials, as per CPCB Guidelines, may be mentioned in case of handling scrap and other recycled materials.
- (vii) Details on the requirement of raw materials, its source, and storage at the plant.
- (viii) Details on the requirement of energy and water along with its source and authorization from the concerned department. Location of water intake and outfall points (with coordinates).
- (ix) Details on toxic metal content in the waste material and its composition and end-use (particularly of slag).
- (x) Details on toxic content (TCLP), composition and end-use of chrome slag. Details on the recovery of the Ferro chrome from the slag and its proper disposal.

C. ADDITIONAL SPECIFIC TORS DECIDED DURING MEETING OF SEAC

- (ii) Public consultation is required for the projects as not located in notified industrial parks/estates.
- (iii) Submit proof of ownership of land (existing owner) such as copy of latest Jamabandi (not more than one month old) and credible document showing status of land acquisition w.r.t. project site as prescribed in OM dated 07.10.2014 issued by MoEF)
- (iv) Submit dully filled prescribed field data sheets and analysis reports along with exact location of sampling / monitoring point marked on the layout map. Also submit the status of approvals of Laboratories.
- (v) Submit cost of the project duly certified by Chartered Engineer/ Approved valuer / Chartered Accountant. In the absence of above, the project proponent may submit self-certified detail of cost of the project mentioning the cost of Land, building, infrastructure and plant & machinery
- (vi) Certificate from the concerned authority w.r.t the location of protected areas as notified under the Wildlife Protection Act, 1972 within 5 km radius from the boundary of the project site.

- (xxix) Certificate from the Department of Town & Country Planning or concerned authorities to support the claim made by project proponent that the project site (2.85 acres land) is located in the industrial zone as per the provisions of Master Plan of Town/City in the jurisdiction of which the project site is located otherwise project proponent shall submit the Change of land use of the project site for total land area 2.85 acres.
- (vii) Compliance of the siting criteria, standard operating practices, code of practice, and guidelines if any prescribed by the SPCB/CPCB/MoEF&CC for such type of units.
- (viii) Necessary permissions from the Central Groundwater Authority (CGWA)/ State Groundwater Authority (SGWA)/concerned authority for the abstraction of groundwater for the existing requirements as well as for the expanded unit. In case of not allowing such permission by the concerned authority for the abstraction of additional groundwater for the expanded project, the project proponent shall propose alternative arrangements to meet out the additional water requirements. It shall be ensured that: -
 - a) In the projects where groundwater is proposed as a water source, the project proponent shall apply to the Central Groundwater Authority (CGWA)/ State Groundwater Authority (SGWA), as the case may be, for obtaining No Objection Certificate (NOC) if applicable.
 - b) Approval /permission of the CGWA/SGWA shall be obtained before drawing groundwater for the project activities.
 - c) In the absence of approval, submit a copy of acknowledgment along with a set of application filed to CGWA /Competent Authority for obtaining permission for the abstraction of groundwater
- (ix) Minimize the water consumption in the steel plant complex by segregation of used water, practicing cascade use and by recycling treated water.
- (x) STP for treatment of wastewater & re-utilization of the treated water for core/non-core activities so as to achieve the Zero Liquid Discharge Condition as per the III (iv) of OM dated 09/08/2018 issued by the MoEF&CC for such units.
- (xi) Reuse of cooling tower blow down, simultaneously ensuring the standards prescribed for such purge waters. If required, necessary arrangements shall be made to keep this waste stream within the parameters required for reuse.
- (xii) In case of any acid pickling activity, the spent acid/effluents generated from such activities shall be utilized through authorized re-processors for converting the same into useful by-products like FeSO₄ etc. An agreement to this effect shall be made with the authorized agencies.
- (xiii) Adequate area to be reserved and marked on the layout plan for the green belt as per the conditions laid down by the MoEF&CC as per the Standard EC

Conditions prescribed for Induction/ Electric Arc Furnace & Rolling Mills circulated vide OM dated 09/08/2018.

- (xiv) Detailed study report along with calculation for reserving land for loading or unloading of raw material, products, slag, hazardous waste as well as for storage of these materials and the area to be reserved for parking incorporating the time required for loading and unloading of vehicles for respective activities and minimum/maximum period for which storage of the above material is required in the premises. The areas for the respective activities to be marked on the layout plan.
- (xv) Action plan for the compliance of standard operating procedures and up-gradation of suction and treatment arrangement for the secondary emissions as prescribed by the State Pollution Control Board or by CPCB/MoEF&CC.
- (xvi) Compliance of standard operating procedures and up-gradation of suction/treatment systems for the control of secondary emissions within the time frame prescribed by the State Pollution Control Board. Similar action is to be implemented in the proposed expansion project.
- (xvii) Whole of the vehicle movement area as well as the approach road to the gate /weighing bridge shall be paved with pucca/metalled / cement concrete road to control the dust emissions expected from the vehicle movement.
- (xviii) The vehicles to be used for loading/unloading purposes shall not be parked along the roadside so as to avoid the traffic congestion and dedicated parking place to be provided for the same.
- (xix) Adopt green technologies to conserve the water and energy including shearing/cutting / bundling machines. Also, to provide abrasive resistant fire bricks in the crucibles to reduce the periodic maintenance & disposal of discarded fire bricks.
- (xx) Use of natural gas (if available) as substitute fuel wherever possible in the existing industry/ for the expansion project.
- (xxi) Delineate the concrete proposal regarding activities to be undertaken under Corporate Environmental Responsibility indicating the followings: -
 - i) various activities to be undertaken as per the provision of OM dated 01.05.2018
 - ii) proportionate provisions of funds,
 - iii) the period in which CER activities is to be implemented
 - iv) the person(s) responsible for the implementation.
- (xxii) Submit compliance w.r.t. condition no.II [(i) & (iii)] subtitled as "Air Quality Monitoring & Preservation" regarding continuous emission monitoring system and continuous ambient air quality monitoring as prescribed in the Standard EC Conditions for Induction/ Electric Arc Furnace & Rolling Mills issued by the MoEF&CC, New Delhi vide OM dated 09/08/2018.

- (xxiii) Examine and submit the proposal for: -
- d) Recovery of iron from slag before disposing of it.
 - e) Identify the areas for utilization of slag in a scientific manner and explore its usage in cement/construction industry/manufacturing of pavers & tiles/road laying etc.
 - f) Recovery of precious metals like Zinc, lead and iron etc. from the APCD dust (Hazardous waste) through authorized re-processor.

(xxiv) Air Pollution Control Arrangement details shall be provided as below:

Plant /Unit	Pollutants	Qty generated	Method used to Control /specifications (attach Separate Sheet to furnish Details)	Number of units planned & Capacity	Budget	Estimated Post Control Qty	
						Per Unit	Per day

- (xxv) Submit compliance regarding the installation of Pulse jet bag filter with offline cleaning technology as APCD with the proposed induction furnace.
- (xxvi) List the species with heavy foliage, broad leaves and wide canopy cover. The landscape planning should include plantation of native species. Water intensive and/or invasive species should not be used for landscaping.
- (xxvii) Examine the quantity of hazardous waste for category 5.1 & 35.1 generated from the unit and shall submit its disposal arrangements.
- (xxviii) Examine the source of water to meet the requirement of green area in the summer season.

The following general points shall be noted:

- (i) The EIA document shall be printed on both sides, as far as possible.
- (ii) All documents shall be properly indexed, page numbered.
- (iii) Period/date of data collection shall be clearly indicated.
- (iv) The letter/application for environmental clearance shall quote the MOEF / SEIAA file No. and also attach a copy of the letter.
- (v) The copy of the letter received from the Ministry / SEIAA shall be also attached as an annexure to the final EIA-EMP Report.
- (vi) The index of the final EIA-EMP report must indicate the specific chapter and page no. of the EIA-EMP Report.

- (vii) While preparing the EIA report, the instructions for the proponents and instructions for the consultants issued by MOEF vide notification dated 03.03.2016 which is available on the website of this Ministry shall also be followed.
- (viii) The consultants involved in the preparation of EIA-EMP report after accreditation with Quality Council of India (QCI) /National Accreditation Board of Education and Training (NABET) would need to include a certificate in this regard in the EIA-EMP reports prepared by them and data provided by other organization/Laboratories including their status of approvals etc. Name of the Consultant and the Accreditation details shall be posted on the EIA-EMP Report as well as on the cover of the Hard Copy of the Presentation material for EC presentation.

The Terms of Reference (ToR) prescribed by the State Expert Appraisal Committee (SEAC), Punjab should be considered for the preparation of EIA / EMP report for the project in addition to all the relevant information as per the Generic Structure of EIA given in Appendix III and IIIA in the EIA Notification, 2006.

Where the documents provided are in a language other than English, an English translation shall be provided. The draft EIA-EMP report shall be submitted to the State Pollution Control Board of the concerned State for the conduct of Public Hearing. The SPCB shall conduct the Public Hearing/public consultation, district-wise, as per the provisions of EIA notification, 2006. The Public Hearing shall be chaired by an Officer, not below the rank of Additional District Magistrate. The issues raised in the Public Hearing and during the consultation process and the commitments made by the project proponent on the same shall be included separately in EIA-EMP Report in a separate chapter and summarized in a tabular chart with financial budget (capital and revenue) along with time-schedule of implementation for complying with the commitments made.

If any part of the data/information submitted by the project proponent is found to be false or misleading at any stage, then SEIAA & SEAC will not be responsible for the expenditure incurred on the project due to issuance of this ToR or subsequent work carried out by the project proponent for conducting EIA study or for any other activity related to the project.

The 'Terms of Reference' (TORs) prescribed will be valid for a period of three years from its issuance. The final EIA report shall be submitted to the SEIAA, Punjab for obtaining environmental clearance.

Item No190.12: Application for obtaining environmental clearance under EIA notification dated 14.09.2006 for mining of minor minerals On Agricultural Land in the village Awan Vsau, Tehsil Ajnala & District Amritsar, Punjab submitted by Friends and Co. (Proposal No. SIA/PB/MIN/143673/2020).

SEAC observed as under:

M/s Friends & CO has applied for obtaining Environmental Clearance under EIA notification dated 14.09.2006 for mining of minor minerals (Sand) from Agricultural land in the revenue estate of village Awan Vsau, Tehsil Ajnala & District Amritsar, Punjab on 18.02.2020. The project is covered under category B2 of the Schedule appended to the said Notification.

Further, the said case was forwarded by SEIAA to SEAC on 16/06/2020 after scrutiny of the application and the updated status of the documents attached with the application is as under: -

1.0 Status of documents attached with application

(A) General

i)	Name of Applicant & Correspondence address: Mobile No: Email ID:	M/s friends & Co. Bakkar Mandi ,Chabal Road,Khazana Gate,Amritsar 9815024434 friendsnco.asr.ec@gmail.com
ii)	Name of Environmental Consultant Mobile No. Email ID	P and M solution 9910037943 Manasvyas23@gmail.com

B) Detail of the Documents

The project proponent submitted all the requisite documents as per the checklist of the mining case along with Form-02 . The project proponent submitted a hard copy of the same, which was taken on record.

The case was considered by SEAC in its 191st meeting held on 24.07.2020 and the same was attended by the following on behalf of the project proponent:

- (iii) Sh. Hardeep Singh, Authorised signatory, on behalf of the project proponent.
- (iv) Sh. Manas Vyas, FAE on behalf of M/s P & M Solutions, Noida, Environment Consultant of the promoter company.

SEAC allowed the project proponent to present the salient features of the project and the Environment consultant of the promoter company presented the same as under:

S.No.	Item	Details		
1.	Online Proposal No.	SIA/PB/MIN/143673/2020		
2.	Project Name & Location	AWAN VSAU SAND MINING PROJECT AT HADBAST NO-28 VILLAGE– AWAN VSAU, TEHSIL- AJNALA, DISTRICT- AMRITSAR , PUNJAB.		
3	Project/activity covered under item of scheduled to the EIA Notification,14.09.2006	1(a) mining of minor mineral		
4	Details of Mining Lease			
v)	Mineral (s) to be mined	Sand		
vi)	Capacity of Mine	14527.3 TPA (Total 43581.9 MT)		
vii)	Mining Lease Area	Total area is 1.92 Ha		
viii)	Details Letter of Intent (LOI)/E-Auction issued by the State Govt.	Reference No: 771/e auction/2019 Date of Issue: 31/07/2019 Validity of LOI: NA Mining Lease Area: 1.92 Ha. Mining Quantity: 14527.3 TPA (Total 43581.9 MT)		
5	HadBast No.	28		
6	Land Khasra No. & their consent details

17	Demarcation report of mining site	Submitted																																													
18.	Workers (when fully operational)	15 Persons.																																													
19.	Water Requirements & source	Domestic: 0.15 KLD (@ 45 lpcd) Dust Suppression:4.80 KLD Plantation:0.14 KLD																																													

		Total:5.09 KLD Ground water/Others: From water tanker.	
20.	Waste water generation, Treatment & its Disposal	i) Quantity of Waste water : Nil (80% of water requirement) ii) Treatment Method: Portable toilets are proposed to be provided by the proponent in the mining site. After treatment will be disposed of plantation purposes.	
21.	Solid waste generation and its disposal	Solid waste will be disposed off through the local body.	
22.	Green Belt Development Plan including no. of trees to be planted & its species.	Tree cutting (if any) : Nil No of plant to be planted: 633/Yr Funds Allocated: Rs 1,09,200/-	
23.	Environment Management Plan along with Budgetary breakup and responsibility to implement	Friends & Co. will be responsible for the implementation of EMP till the mining activities closed as per the mining plan.	
	S. No	Particulars	Amount (in Rs)
	1	Pollution monitoring – Air, Water, Noise	50,000
	2	Pollution Control – Water sprinkling	
	3	Green Belt Development	1,09,200
	4	Haul road and other roads repair and maintenance	1,20,670
		Total	2,79,870
24	CER activities along with budgetary break-up and responsibility to implement M/s. Friends & Co will be responsible for implementation of Corporate Environmental Responsibility (CER). As the project cost is Rs 12,59,056/- and Rs25,000/- have been reserved for CER activities as per Office Memorandum of CER dated 01.05.2018. It was proposed to spent on the followings: -		
	Sr. No.	Particulars	Amount (in Rs)
	1	PP will install water solar pump for villagers for use in irrigation	Rs 25,000/-
		Total	Rs 25,000/-

25	<p>Other important facts</p> <p>x) During the lease period, the deposit will be worked from the top surface to 2.4 m below ground level or above ground water table, whichever comes first.</p> <p>xi) No court case/litigation is pending before any court of Law against the project and/or land in which the project is proposed to be set up.</p> <p>xii) All mitigation measures for each activity to be undertaken during the mining operation to minimize adverse environmental impacts as recommended in the sand mining guidelines, 2016 & Enforcement & Monitoring Guidelines for Sand Mining, 2020.</p> <p>xiii) Compliance of various environmental regulations shall be ensured.</p> <p>xiv) Mining will be carried out as per the terms and conditions of the provisional acceptance letter issued vide No.77/E-auction/2019 dated 31.07.2019 issued by Department of Mines & Geology, Government of Punjab.</p> <p>xv) Extent of Mechanization The mining shall be performed using a semi-mechanized method as per approved mine plan and Punjab Minor Mineral rules 2013. For mining operation excavators, dumpers and tippers have been considered. The machinery considered for sand mining has been presented below:-</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="width: 30%;">Name of Equipment</th> <th style="width: 20%;">Capacity</th> <th style="width: 20%;">No. of Equipment</th> <th style="width: 15%;">Standby Equipment</th> <th style="width: 15%;">Total</th> </tr> </thead> <tbody> <tr> <td>Excavator</td> <td>0.90 m³</td> <td>2</td> <td>-</td> <td>2</td> </tr> <tr> <td>Dumper</td> <td>10 tonnes</td> <td>1</td> <td>1</td> <td>2</td> </tr> <tr> <td>Water tankers</td> <td>As & when required</td> <td>-</td> <td>-</td> <td>-</td> </tr> </tbody> </table>					Name of Equipment	Capacity	No. of Equipment	Standby Equipment	Total	Excavator	0.90 m ³	2	-	2	Dumper	10 tonnes	1	1	2	Water tankers	As & when required	-	-	-
Name of Equipment	Capacity	No. of Equipment	Standby Equipment	Total																					
Excavator	0.90 m ³	2	-	2																					
Dumper	10 tonnes	1	1	2																					
Water tankers	As & when required	-	-	-																					
	<p>xvi) Benefits of Semi mechanized method Semi mechanized method, involving minimal use of machinery and optimal no. of workers if allowed can provide the following benefits:</p> <p>f. Reduced duration of exposure to negative impacts of mining.</p> <p>g. Reduced production of sewage and solid waste at the project site to be treated.</p> <p>h. Reduced nuisance to the villagers.</p> <p>i. Feasibility to extract the required quantity and supply raw material to market to curb black marketing of minor minerals and support to the construction industry in the region.</p> <p>j. Reduced social menace which may be caused due to large no. of laborers, in case of completely manual operation.</p> <p>xvii) The operation will be done only from sunrise to sunset hence there will be no power requirement for the project at the site.</p> <p>xviii) An undertaking has been submitted to the effect that no Cluster formation of mining site exists as no other mining site falls within a radius of 500 m from the periphery of the proposed site.</p>																								

SEAC asked the project proponent and his Environmental Consultant to clarify the following observations to which he replied as under: -

Sr. No.	Observations	Reply submitted by the project proponent and his Environmental Consultant										
	Whether Final District Survey Report (DSR) has been approved?	The project proponent submitted a copy of the revised DSR for Amritsar. The said DSR was accompanied with a noting approved by the DC, Amritsar for the approval of the DSR, which was taken on record by SEAC.										
7.	The site falls in the notified area and the project proponent is required to earmark two tubewells/ borewells/ wells as observation well in the adjoining area within a radius of 500m of the project site. Also, monthly monitoring of the depth is to be carried out. District Mining Officer is to monitor the same.	The project proponent agreed to the same.										
8.	What is the plan of plantation of the project proponent? What is the location on which plantation will be carried out?	(i) The total plantation that will be done across 3 years of our mining lease period the total capital cost of Plantation has been taken as 1000 Rs with (tree guard) totaling to Rs 3,16,500/- (ii) The Plantation shall be done alongside the haul road and as community plantation the location of which shall be decided after due consultation with the Local forest office and Panchayat.										
9.	The project proponent is required to submit the revised water requirement along with proper breakup as per the norms.	The project proponent submitted the same as under:										
	<table border="1" data-bbox="311 1850 734 1906"> <thead> <tr> <th data-bbox="311 1850 397 1906">Sno</th> <th data-bbox="397 1850 609 1906">Usage</th> <th data-bbox="609 1850 933 1906">Criteria Considered</th> <th data-bbox="933 1850 1242 1906">Person/Area/Plants</th> <th data-bbox="1242 1850 1421 1906">Total (KLD)</th> </tr> </thead> <tbody> <tr> <td> </td> <td> </td> <td> </td> <td> </td> <td> </td> </tr> </tbody> </table>	Sno	Usage	Criteria Considered	Person/Area/Plants	Total (KLD)						
Sno	Usage	Criteria Considered	Person/Area/Plants	Total (KLD)								

	1	Domestic	20 L per person per day	15 Person	0.30
	2	Dust Suppression	5 L per m haul road per time	480-meter haul road twice daily	4.8
			20 L per truck using water Mist spray	12 trucks per shift	0.24
	3	Green belt Development	10 L per plant per day	14 Plant (*in site buffer)	0.14
	Total water requirement				5.48
10.	The project falls in the notified block. Thus, the project proponent is required to submit application to the District Advisory Committee for permission to use the ground water for domestic use.		The project proponent informed that they were in process of submitting the application to the DAC. Later, the project proponent submitted a copy of receiving of the said application to the DAC, which was taken on record by SEAC.		
11.	The project proponent is required to submit revised CER as per the OM dated 01.05.2018.		The project proponent submitted the same with details given as under:		
	Sr. No.	Particulars		Amount (in Rs)	
		PP will install water solar pump for villagers for use in irrigation		25,000/-	
	Total			25,000/	
12.	The project proponent is required to make arrangements for rain water harvesting at least equal to the amount as same as that of the domestic water requirement.		The project proponent submitted an undertaking to effect that the rain water harvesting will be carried out in the nearby school, panchayat bhawan or any government building in consultation with the local administration.		

SEAC was satisfied with the presentation and reply given to the observation. SEAC took a copy of the presentation along with a reply on record.

After deliberations, SEAC decided to award silver grading to the project and forward the application of the project proponent to SEIAA with the recommendations to grant Environmental Clearance for mining of minor minerals (Sand) on Agricultural Land located

in the revenue estate of village Awan Vsau, Tehsil Ajnala, District- Amritsar, Punjab submitted by M/s Friends & Co., as per Annexure-II and the following additional conditions:

1. The project proponent shall earmark two tubewells/ borewells/ wells as observation wells in the adjoining area within a radius of 500m of the project site and monthly monitoring of the depth is to be carried out. District Mining Officer is to monitor the same.
2. The project proponent is required to carry out rain water harvesting in the nearby school/panchayat bhawan/ any other government in consultation with the local administration.
3. The project proponent shall comply with the provisions contained in this Ministry's OM vide F.No. 22-65/2017-IA.III dated 1st May 2018, as applicable, regarding Corporate Environment Responsibility. The project proponent shall adhere to the commitments made in the proposal for CER activities for spending at least minimum amount of Rs. 25,000/- towards the following activities:

Sr. No.	Particulars	Amount (in Rs)
1	PP will install water solar pump for villagers for use in irrigation	25,000/-
Total		25,000/

Item No191.13: Application for obtaining environmental clearance under EIA notification dated 14.09.2006 for mining of minor minerals on Agricultural Land in the village Manochahl, Tehsil Zira District Ferozepur, Punjab submitted by M/s Prime Vision Industries Private Limited. (Proposal No. SIA/PB/MIN/ 148050/ 2020)

SEAC observed as under:

M/s Prime Vision Industries Private Limited has applied for obtaining environmental clearance under EIA notification dated 14.09.2006 for mining of minor minerals (Sand) from Agricultural land in the revenue estate of village Manochahl, Tehsil Zira District Ferozepur on 09.03.2020. The project is covered under category 1 (a) of the Schedule appended to the said notification.

Further, the said case was forwarded by SEIAA to SEAC on 16/06/2020 after scrutiny of the application and the updated status of the documents attached with the application is as under: -

1.0 Status of documents attached with application

(A) General

iii)	Name of Applicant & Correspondence address: Mobile No: Email ID:	M/s Prime Vision Industries Pvt Ltd 312, Vishal Chamber P-1, Sector-18, Noida, Uttar Pradesh. 9646210786 Primevision.pb.ec@gmail.com
iv)	Name of Environmental Consultant Mobile No. Email ID	P and M solution 9910037943 Manasvyas23@gmail.com

(B) Detail of the Documents

The project proponent submitted all the requisite documents as per the checklist of the mining case along with Form-02. The project proponent submitted a hard copy of the same, which was taken on record.

The case was considered by SEAC in its 191st meeting held on 24.07.2020 and the same was attended by the following on behalf of the project proponent:

- (v) Sh. Harkesh Singh, Authorised signatory, on behalf of the project proponent.
- (vi) Sh. Manas Vyas, FAE on behalf of M/s P & M Solutions, Noida, Environment Consultant of the promoter company.

SEAC allowed the project proponent to present the salient features of the project and the Environment consultant of the promoter company presented the same as under:

S.No.	Item	Details			
1.	Online Proposal No.	SIA/PB/MIN/ 148050/ 2020			
2.	Project Name & Location	Manochahl Sand Mining Project at Hadbast No-13 Village-Manochahl, Tehsil- Zira, District-Firozpur, Punjab			
3	Project/activity covered under item of scheduled to the EIA Notification,14.09.2006	1(a) mining of mineral			
4	Details of Mining Lease				
ix)	Mineral (s) to be mined	Sand			
x)	Capacity of Mine	20544.85 TPA (61634.55 MT)			
xi)	Mining Lease Area	Total area is 2.42 Ha			
xii)	Details Letter of Intent (LOI)/E-Auction issued by the State Govt.	Reference No: 1709-10 Date of Issue: 09/07/2019 Validity of LOI: Three years

24	<p>CER activities along with budgetary break-up and responsibility to implement M/s. Prime Vision Industries Pvt Ltd will be responsible for implementation of Corporate Environmental Responsibility (CER). As the project cost is Rs 17,81,000/- and Rs 35,620/- have been reserved for CER activities as per Office Memorandum of CER dated 01.05.2018 and will be spent on the followings: -</p> <table border="1"> <thead> <tr> <th>Sr. No.</th> <th>Particulars</th> <th>Amount (in Rs</th> </tr> </thead> <tbody> <tr> <td>1</td> <td>PP will install solar lights either at Gram Panchayat office or at any location as may be suggested by the villagers</td> <td>Rs 18,000/-</td> </tr> <tr> <td>2</td> <td>Plantation shall be done in the area suggested by the gram panchayat</td> <td>Rs 18,000/-</td> </tr> <tr> <td></td> <td>Total</td> <td>Rs 36000/-</td> </tr> </tbody> </table>		Sr. No.	Particulars	Amount (in Rs	1	PP will install solar lights either at Gram Panchayat office or at any location as may be suggested by the villagers	Rs 18,000/-	2	Plantation shall be done in the area suggested by the gram panchayat	Rs 18,000/-		Total	Rs 36000/-					
Sr. No.	Particulars	Amount (in Rs																	
1	PP will install solar lights either at Gram Panchayat office or at any location as may be suggested by the villagers	Rs 18,000/-																	
2	Plantation shall be done in the area suggested by the gram panchayat	Rs 18,000/-																	
	Total	Rs 36000/-																	
25	<p>Other important facts</p> <p>i) During the lease period, the deposit will be worked from the top surface to 2.40 m below ground level.</p>																		

<p>ii) No court case/litigation is pending before any court of Law against the project and/or land in which the project is proposed to be set up.</p> <p>iii) All mitigation measures for each activity to be undertaken during the mining operation to minimize adverse environmental impacts as recommended in the sand mining guidelines, 2016 & Enforcement & Monitoring Guidelines for Sand Mining, 2020.</p> <p>iv) Compliance of various environmental regulations shall be ensured.</p> <p>v) Mining will be carried out as per the terms and conditions of the provisional acceptance letter issued vide No.77/E-auction/2019 dated 31.07.2019 issued by Department of Mines & Geology, Government of Punjab.</p> <p>vi) Extent of Mechanization The mining shall be performed using a semi-mechanized method as per approved mine plan and Punjab Minor Mineral rules 2013. For mining operation excavators, dumpers and tippers have been considered. The machinery considered for sand mining has been presented below:-</p>																					
<table border="1"> <thead> <tr> <th>Name of Equipm ent</th> <th>Capacity</th> <th>No. of Equipm ent</th> <th>Standby Equipment</th> <th>Total</th> </tr> </thead> <tbody> <tr> <td>Excavator</td> <td>0.90 m³</td> <td>1</td> <td>1</td> <td>2</td> </tr> <tr> <td>Dumper</td> <td>10 tonnes</td> <td>1</td> <td>1</td> <td>2</td> </tr> <tr> <td>Water tankers</td> <td>As & when required</td> <td>-</td> <td>-</td> <td>-</td> </tr> </tbody> </table>	Name of Equipm ent	Capacity	No. of Equipm ent	Standby Equipment	Total	Excavator	0.90 m ³	1	1	2	Dumper	10 tonnes	1	1	2	Water tankers	As & when required	-	-	-	
Name of Equipm ent	Capacity	No. of Equipm ent	Standby Equipment	Total																	
Excavator	0.90 m ³	1	1	2																	
Dumper	10 tonnes	1	1	2																	
Water tankers	As & when required	-	-	-																	
<p>vii) Benefits of Semi mechanized method Semi mechanized method, involving minimal use of machinery and optimal no. of workers if allowed can provide the following benefits:</p> <p>a. Reduced duration of exposure to negative impacts of mining.</p> <p>b. Reduced production of sewage and solid waste at the project site to be treated.</p> <p>c. Reduced nuisance to the villagers.</p> <p>d. Feasibility to extract the required quantity and supply raw material to market to curb black marketing of minor minerals and support to the construction industry in the region.</p> <p>e. Reduced social menace which may be caused due to large no. of laborers, in case of completely manual operation.</p> <p>viii) The operation will be done only from sunrise to sunset hence there will be no power requirement for the project at the site.</p> <p>vii) An undertaking has been submitted to the effect that no Cluster formation of mining site exists as no other mining site falls within a radius of 500 m from the periphery of the proposed site.</p>																					

SEAC asked the project proponent and his Environmental Consultant to clarify the following observations to which he replied as under: -

Sr. No.	Observations	Reply submitted by the project proponent and his Environmental Consultant
	Whether Final District Survey Report (DSR) has been approved?	The project proponent intimated that the DC Ferozepur has sent the approved DSR to the Secretary, Mining vide letter number 728 dated 08.06.2020. Sh. Manoj Bansal, Executive Engineer, Department of Mines submitted the said letter along with a signed copy of the DSR by the Executive Engineer, Department of Mines, Ferozepur, which was taken on record by SEAC.
2.	What is the plan of plantation of the project proponent? What is the location on which plantation will be carried out?	(i) The total plantation that will be done across 3 years of our mining lease period the total capital cost of Plantation has been taken as 1000 Rs with (tree guard) totaling to Rs 3,99,000/- (ii) The Plantation shall be done alongside the haul road and as community plantation the location of which shall be decided after due consultation with the Local forest office and Panchayat.
3.	The project proponent is required to submit the revised water requirement along with proper breakup as per the norms.	The project proponent submitted the same as under:

Sno	Usage	Criteria Considered	Person/Area/Plants	Total (KLD)
1	Domestic	20 L per person per day	15 Person	0.30
2	Dust Suppression	5 L per m haul road per time 20 L per truck using water Mist spray	427-meter haul road twice daily 12 trucks per Day	4.27 0.24
3	Green belt Development	10 L per plant per day	15 Plant (*in site buffer)	0.15
Total water requirement				4.96
4.	The project proponent is required to submit revised CER as per the OM dated 01.05.2018.		The project proponent submitted the same with details given as under:	
	Sr. No.	Particulars	Amount (in Rs)	
		PP will install water solar pump/light at any location as suggested by villagers.	36,000/-	
	Total		36,000/	
5.	The project proponent is required to make arrangements for rain water harvesting at least equal to the amount as same as that of the domestic water requirement.		The project proponent submitted an undertaking to effect that the rain water harvesting will be carried out in the nearby school, panchayat bhawan or any government building in consultation with the local administration.	

SEAC was satisfied with the presentation and reply given to the observation. SEAC took a copy of the presentation along with a reply on record.

After deliberations, SEAC decided to award silver grading to the project and forward the application of the project proponent to SEIAA with the recommendations to grant Environmental Clearance for mining of minor minerals (Sand) on Agricultural Land located in the revenue estate of village Manochhal, Tehsil Zira, District- Ferozepur, Punjab submitted by M/s Prime Vision Industries Private Limited, as per Annexure-II and the following additional conditions:

1. The project proponent is required to carry out rain water harvesting in the nearby school/panchayat bhawan/ any other government building in consultation with the local administration.

2. The project proponent shall comply with the provisions contained in this Ministry's OM vide F.No. 22-65/2017-IA.III dated 1st May 2018, as applicable, regarding Corporate Environment Responsibility. The project proponent shall adhere to the commitments made in the proposal for CER activities for spending at least minimum amount of Rs. 36,000/- towards the following activities:

Sr.No.	Particulars	Amount (in Rs)
1	PP will install water solar pump/light at any location as suggested by villagers.	36,000/-
Total		36,000/

Item No191.14: Application for obtaining environmental clearance under EIA notification dated 14.09.2006 for mining of minor minerals on Agricultural Land in the village Dastul Sahib Wala, Tehsil Ferozepur District Ferozepur, Punjab submitted by M/s Prime Vision Industries Private Limited. (Proposal No. SIA/PB/MIN/148404/ 2020)

SEAC observed as under:

M/s Prime Vision Industries Private Limited has applied for obtaining environmental clearance under EIA notification dated 14.09.2006 for mining of minor minerals (Sand) from Agricultural land in the revenue estate of village Dastul Sahib Wala, Tehsil Ferozepur District Ferozepur on 09.03.2020. The project is covered under category 1 (a) of the Schedule appended to the said notification.

Further, the said case was forwarded by SEIAA to SEAC on 16/06/2020 after scrutiny of the application and the updated status of the documents attached with the application is as under: -

1.0 Status of documents attached with application

(A) General

v)	Name of Applicant & Correspondence address: Mobile No: Email ID:	M/s Prime Vision Industries Pvt Ltd 312, Vishal Chamber P-1, Sector-18, Noida, Uttar Pradesh. 9646210786 Primevision.pb.ec@gmail.com

Prime Vision Industries Pvt Ltd will be responsible for implementation of Corporate Environmental Responsibility (CER). As the project cost is Rs 34,76,800/- and Rs 10,000/- have been reserved for CER activities as per Office Memorandum of CER dated 01.05.2018 and will be spent on the followings: -			

Sr. No.	Particulars	Amount (in Rs)
1	PP will install solar lights either at gram Panchayat of ice or at any location as may be suggested by the	Rs 18,000/-
2	Plantation shall be done in the area suggested by the gram panchayat	Rs 18,000/-
3	Providing Computer & stationary to nearby School as suggested by Locals	34,000/-
	Total	Rs 70,000/-

25 Other important facts

- i) During the lease period, the deposit will be worked from the top surface to 3.0 m below ground level.
- ii) No court case/litigation is pending before any court of Law against the project and/or land in which the project is proposed to be set up.
- iii) All mitigation measures for each activity to be undertaken during the mining operation to minimize adverse environmental impacts as recommended in the sand mining guidelines, 2016 & Enforcement & Monitoring Guidelines for Sand Mining, 2020.
- iv) Compliance of various environmental regulations shall be ensured.
- v) Mining will be carried out as per the terms and conditions of the provisional acceptance letter issued vide 1709-10 dated 09.07.2019 issued by Department of Mines & Geology, Government of Punjab.
- vi) Extent of Mechanization
The mining shall be performed using a semi-mechanized method as per approved mine plan and Punjab Minor Mineral rules 2013. For mining operation excavators, dumpers and tippers have been considered. The machinery considered for sand mining has been presented below:-

Name of Equipme nt	Capacity	No. of Equipme nt	Standby Equipment	Total
Excavator	0.90 m ³	1	1	2
Dumper	10 tonnes	2	1	3
Water tankers	As & when required	-	-	-

- vii) Benefits of Semi mechanized method
Semi mechanized method, involving minimal use of machinery and optimal no. of workers if allowed can provide the following benefits:

	<p>a. Reduced duration of exposure to negative impacts of mining.</p> <p>b. Reduced production of sewage and solid waste at the project site to be treated.</p> <p>c. Reduced nuisance to the villagers.</p> <p>d. Feasibility to extract the required quantity and supply raw material to market to curb black marketing of minor minerals and support to the construction industry in the region.</p> <p>e. Reduced social menace which may be caused due to large no. of laborers, in case of completely manual operation.</p>
viii)	The operation will be done only from sunrise to sunset hence there will be no power requirement for the project at the site.
ix)	An undertaking has been submitted to the effect that no Cluster formation of mining site exists as no other mining site falls within a radius of 500 m from the periphery of the proposed site.

SEAC asked the project proponent and his Environmental Consultant to clarify the following observations to which he replied as under: -

Sr. No.	Observations	Reply submitted by the project proponent and his Environmental Consultant
	Whether Final District Survey Report (DSR) has been approved?	The project proponent intimated that the DC Ferozepur has sent the approved DSR to the Secretary, Mining vide letter number 728 dated 08.06.2020. Sh. Manoj Bansal, Executive Engineer, Department of Mines submitted the said letter along with a signed copy of the DSR by the Executive Engineer, Department of Mines, Ferozepur , which was taken on record by SEAC.
2.	What is the plan of plantation of the project proponent? What is the location on which plantation will be carried out?	<p>(i) The total plantation that will be done across 3 years of our mining lease period the total capital cost of Plantation has been taken as 1000 Rs with (tree guard) totaling to Rs 7,54,500/-</p> <p>(ii) The Plantation shall be done alongside the haul road and as community plantation the location of which shall be decided after due</p>

		consultation with the Local forest office and Panchayat.			
3.	The project proponent is required to submit the revised water requirement along with proper breakup as per the norms.	The project proponent submitted the same as under:			
	Sno	Usage	Criteria Considered	Person/Area/Plants	Total (KLD)
	1	Domestic	20 L per person per day	15 Person	0.30
	2	Dust Suppression	5 L per m haul road per time 20 L per truck using water Mist spray	1519-meter haul road twice daily 12 trucks per shift	15.19 0.24
	3	Green belt Development	10 L per plant per day	32 Plant (*in site buffer)	0.32
	Total water requirement				16.05
4.	The project proponent is required to submit revised CER as per the OM dated 01.05.2018.	The project proponent submitted the same with details given as under:			
	Sr.No.	Particulars		Amount (in Rs)	
		PP will install water solar pump/light at any location as suggested by villagers.		36,000/-	
	Total			36,000/-	
5.	The project proponent is required to make arrangements for rain water harvesting at least equal to the amount as same as that of the domestic water requirement.	The project proponent submitted an undertaking to effect that the rain water harvesting will be carried out in the nearby school, panchayat bhawan or any government building in consultation with the local administration.			

SEAC was satisfied with the presentation and reply given to the observation. SEAC took a copy of the presentation along with a reply on record.

After deliberations, SEAC decided to award silver grading to the project and forward the application of the project proponent to SEIAA with the recommendations to grant Environmental Clearance for mining of minor minerals (Sand) on Agricultural Land located

in the revenue estate of village Dastul Sahib, Tehsil Ferozepur, District- Ferozepur, Punjab **submitted by M/s Prime Vision Industries Private Limited**, as per Annexure-II and the following additional conditions:

1. The project proponent is required to carry out rain water harvesting in the nearby school/panchayat bhawan/ any other government building in consultation with the local administration.
2. The project proponent shall comply with the provisions contained in this Ministry's OM vide F.No. 22-65/2017-IA.III dated 1st May 2018, as applicable, regarding Corporate Environment Responsibility. The project proponent shall adhere to the commitments made in the proposal for CER activities for spending at least minimum amount of Rs. 36,000/- towards the following activities:

Sr. No.	Particulars	Amount (in Rs)
1	PP will install water solar pump/light at any location as suggested by villagers.	36,000/-
Total		36,000/

Item No191.15: Application for obtaining environmental clearance under EIA notification dated 14.09.2006 for mining of minor minerals on Agricultural Land in the village Gatti Harike, Tehsil Zira District Ferozepur, Punjab submitted by M/s Prime Vision Industries Private Limited. (Proposal No. SIA/PB/MIN/148442/ 2020)

SEAC observed as under:

M/s Prime Vision Industries Private Limited has applied for obtaining environmental clearance under EIA notification dated 14.09.2006 for mining of minor minerals (Sand) from Agricultural land in the revenue estate of village Gatti Harike, Tehsil Zira District Ferozepur on 09.03.2020. The project is covered under category 1 (a) of the Schedule appended to the said notification.

Further, the said case was forwarded by SEIAA to SEAC on 20/06/2020 after scrutiny of the application and the updated status of the documents attached with the application is as under-

1.0 Status of documents attached with application

(A) General

i)	Name of Applicant & Correspondence address: Mobile No: Email ID:	M/s Prime Vision Industries Pvt Ltd 312, Vishal Chamber P-1, Sector-18, Noida, Uttar Pradesh. 9646210786 Primevision.pb.ec@gmail.com
ii)	Name of Environmental Consultant Mobile No. Email ID	P and M solution 9910037943 Manasvyas23@gmail.com

(B) Detail of the Documents

The project proponent submitted all the requisite documents as per the checklist of the mining case along with Form-02 and the case was accepted online on 20.06.2020. The project proponent submitted a hard copy of the same, which was taken on record.

The case was considered by SEAC in its 191st meeting held on 24.07.2020 and the same was attended by the following on behalf of the project proponent:

- (i) Sh. Harkesh Singh, Authorised signatory, on behalf of the project proponent.
- (ii) Sh. Manas Vyas, FAE on behalf of M/s P & M Solutions, Noida, Environment Consultant of the promoter company.

SEAC allowed the project proponent to present the salient features of the project and the Environment consultant of the promoter company presented the same as under:

S.No.	Item	Details		
1.	Online Proposal No.	SIA/PB/MIN/ 148442/ 2020		
2.	Project Name & Location	Gatti Harike sand mining project, Tehsil Zira District Ferozepur, Punjab		
3	Project/activity covered under item of scheduled to the EIA Notification,14.09.2006	1(a) mining of mineral		
4	Details of Mining Lease			
i)	Mineral (s) to be mined	Sand		
ii)	Capacity of Mine	5551.89 TPA (16655.6 MT)		
iii)	Mining Lease Area	Total area is 0.81 Ha		
iv)	Details Letter of Intent (LOI)/E-Auction issued by the State Govt.	Reference No: 1709-10 Date of Issue: 09/07/2019 Validity of LOI: NA

			4,57,500/-
			6,70,400/-
24	CER activities along with budgetary break-up and responsibility to implement M/s. Prime Vision Industries Pvt Ltd will be responsible for implementation of Corporate Environmental Responsibility (CER). As the project cost is Rs 46,30,605/- and Rs 30,000/- have been reserved for CER activities as per Office Memorandum of CER dated 01.05.2018 and will be spent on the followings: -		
	Sr. No.	Particulars	Amount (in Rs)
	1	PP will install RO water purification system in school/Panchayat bhawan as desired by villagers.	Rs 55,000/-
	2	PP will install water tankers for villagers for use in irrigation.	Rs 40,000/-
		Total	Rs 95,000/-
25	Other important facts		

	<p>i) During the lease period, the deposit will be worked from the top surface to 3m below ground level.</p> <p>ii) No court case/litigation is pending before any court of Law against the project and/or land in which the project is proposed to be set up.</p> <p>iii) All mitigation measures for each activity to be undertaken during the mining operation to minimize adverse environmental impacts as recommended in the sand mining guidelines, 2016 & Enforcement & Monitoring Guidelines for Sand Mining, 2020.</p> <p>iv) Compliance of various environmental regulations shall be ensured.</p> <p>v) Mining will be carried out as per the terms and conditions of the provisional acceptance letter issued vide No. 1709-10 dated 09/07/2019 issued by Department of Mines & Geology, Government of Punjab.</p> <p>vi) Extent of Mechanization The mining shall be performed using a semi-mechanized method as per approved mine plan and Punjab Minor Mineral rules 2013. For mining operation excavators, dumpers and tippers have been considered. The machinery considered for sand mining has been presented below:-</p>				
	Name of Equipment	Capacity	No. of Equipment	Standby Equipment	Total
	Excavator	0.90 m ³	1	-	1
	Dumper	10 tonnes	3	-	3
	Water tankers	As & when required	-	-	-
	<p>vii) Benefits of Semi mechanized method Semi mechanized method, involving minimal use of machinery and optimal no. of workers if allowed can provide the following benefits:</p> <p>a. Reduced duration of exposure to negative impacts of mining.</p> <p>b. Reduced production of sewage and solid waste at the project site to be treated.</p> <p>c. Reduced nuisance to the villagers.</p> <p>d. Feasibility to extract the required quantity and supply raw material to market to curb black marketing of minor minerals and support to the construction industry in the region.</p> <p>e. Reduced social menace which may be caused due to large no. of laborers, in case of completely manual operation.</p> <p>viii) The operation will be done only from sunrise to sunset hence there will be no power requirement for the project at the site.</p>				

	ix) An undertaking has been submitted to the effect that no Cluster formation of mining site exists as no other mining site falls within a radius of 500 m from the periphery of the proposed site.
--	---

SEAC asked the project proponent and his Environmental Consultant to clarify the following observations to which he replied as under: -

Sr. No.	Observations	Reply submitted by the project proponent and his Environmental Consultant
1.	Whether Final District Survey Report (DSR) has been approved?	The project proponent submitted a copy of the revised DSR for Amritsar. The said DSR was accompanied with a noting approved by the DC, Amritsar for the approval of the DSR, which was taken on record by SEAC.
2.	The site falls in the notified area and the project proponent is required to earmark two tubewells/ borewells/ wells as observation well in the adjoining area within a radius of 500m of the project site. Also, monthly monitoring of the depth is to be carried out. District Mining Officer is to monitor the same.	The project proponent agreed to the same.
3.	What is the plan of plantation of the project proponent? What is the location on which plantation will be carried out?	(i) The total plantation that will be done across 3 years of our mining lease period the total capital cost of Plantation has been taken as 1000 Rs with (tree guard) totaling to Rs 7,08,000/- (ii) The Plantation shall be done alongside the haul road and as community plantation the location of which shall be decided after due consultation with the Local forest office and Panchayat.
4.	The project proponent is required to submit the revised water requirement along with proper breakup as per the norms.	The project proponent submitted the same as under:

Sno	Usage	Criteria Considered	Person/Area/Plants	Total (KLD)
1	Domestic	20 L per person per day	20 Person	0.40
2	Dust Suppression	5 L per m haul road per time 20 L per truck using water Mist spray	1830-meter haul road twice daily 12 trucks per shit	18.3 0.24
3	Green belt Development	10 L per plant per day	30 Plant (*in site buffer)	0.30
Total water requirement				19.24
5.	The project falls in the notified block. Thus, the project proponent is required to submit application to the District Advisory Committee for permission to use the ground water for domestic use.		The project proponent informed that they were in process of submitting the application to the DAC. Later, the project proponent submitted a copy of receiving of the said application to the DAC, which was taken on record by SEAC.	
6.	The project proponent is required to submit revised CER as per the OM dated 01.05.2018.		The project proponent submitted the same with details given as under:	
	Sr. No.	Particulars	Amount (in Rs)	
	1	PP will install water solar pump for villagers for use in irrigation	58,000/-	
	Total		58,000/	
7.	The project proponent is required to make arrangements for rain water harvesting at least equal to the amount as same as that of the domestic water requirement.		The project proponent submitted an undertaking to effect that the rain water harvesting will be carried out in the nearby school, panchayat bhawan or any government building in consultation with the local administration.	

SEAC was satisfied with the presentation and reply given to the observation. SEAC took a copy of the presentation along with a reply on record.

After deliberations, SEAC decided to award silver grading to the project and forward the application of the project proponent to SEIAA with the recommendations to grant Environmental Clearance for mining of minor minerals (Sand) on Agricultural Land located in the revenue estate of village Sfaderpur, Tehsil Sultanpur Lodhi, District- Kapurthala, Punjab submitted by M/s Friends & Co., as per Annexure-II and the following additional conditions:

1. The project proponent shall earmark two tubewells/ borewells/ wells as observation wells in the adjoining area within a radius of 500m of the project site and monthly monitoring of the depth is to be carried out. District Mining Officer is to monitor the same.
2. The project proponent is required to carry out rain water harvesting in the nearby school/panchayat bhawan/ any other government building to compensate for the utilization of the groundwater for the domestic water requirement.
3. The project proponent shall comply with the provisions contained in this Ministry's OM vide F.No. 22-65/2017-IA.III dated 1st May 2018, as applicable, regarding Corporate Environment Responsibility. The project proponent shall adhere to the commitments made in the proposal for CER activities for spending at least minimum amount of Rs. 58,000/- towards the following activities:

Sr. No.	Particulars	Amount (in Rs)
1	PP will install water solar pump for villagers for use in irrigation	58,000/-
Total		58,000/

Item No191.17: Application for obtaining environmental clearance under EIA notification dated 14.09.2006 for mining of minor minerals on Agricultural Land in the village Nidhana, Tehsil Guru Har Sahai District Ferozpur, Punjab submitted by M/s Prime Vision Industries Private Limited. (Proposal No. SIA/PB/MIN/150543/ 2020).

SEAC observed as under:

M/s Prime Vision Industries Private Limited has applied for obtaining environmental clearance under EIA notification dated 14.09.2006 for mining of minor minerals (Sand) from Agricultural land in the revenue estate of village Nidhana, Tehsil Guru Har Sahai District Ferozpur, on 09.03.2020. The project is covered under category 1 (a) of the Schedule appended to the said notification.

Further, the said case was forwarded by SEIAA to SEAC on 20/06/2020 after scrutiny of the application and the updated status of the documents attached with the application is as under: -

1.0 Status of documents attached with application

(A) General

i)	Name of Applicant & Correspondence address: Mobile No: Email ID:	M/s Prime Vision Industries Pvt Ltd 312, Vishal Chamber P-1, Sector-18, Noida, Uttar Pradesh. 9646210786 Primevision.pb.ec@gmail.com
ii)	Name of Environmental Consultant Mobile No. Email ID	P and M solution 9910037943 Manasvyas23@gmail.com

(B) Detail of the Documents

The project proponent submitted all the requisite documents as per the checklist of the mining case along with Form-02. The project proponent submitted a hard copy of the same, which was taken on record.

The case was considered by SEAC in its 191st meeting held on 24.07.2020 and the same was attended by the following on behalf of the project proponent:

- (i) Sh. Harkesh Singh, Authorised signatory, on behalf of the project proponent.
- (ii) Sh. Manas Vyas, FAE on behalf of M/s P & M Solutions, Noida, Environment Consultant of the promoter company.

SEAC allowed the project proponent to present the salient features of the project and the Environment consultant of the promoter company presented the same as under:

--	---

SEAC asked the project proponent and his Environmental Consultant to clarify the following observations to which he replied as under: -

Sr. No.	Observations	Reply submitted by the project proponent and his Environmental Consultant
	Whether Final District Survey Report (DSR) has been approved?	The project proponent intimated that the DC Ferozpur has sent the approved DSR to the Secretary, Mining vide letter number 728 dated 08.06.2020. Sh. Manoj Bansal, Executive Engineer, Department of Mines submitted the said letter along with a signed copy of the DSR by the Executive Engineer, Department of Mines, Ferozpur, which was taken on record by SEAC.
2.	What is the plan of plantation of the project proponent? What is the location on which plantation will be carried out?	(i) The total plantation that will be done across 3 years of our mining lease period the total capital cost of Plantation has been taken as 1000 Rs with (tree guard) totaling to Rs 3,09,000/- (ii) The Plantation shall be done alongside the haul road and as community plantation the location of which shall be decided after due consultation with the Local forest office and Panchayat.
3.	The project proponent is required to submit the revised water	The project proponent submitted the same as under:

requirement along with proper breakup as per the norms.				
Sno	Usage	Criteria Considered	Person/Area/Plants	Total (KLD)
1	Domestic	20 L per person per day	15 Person	0.30
2	Dust Suppression	5 L per m haul road per time 20 L per truck using water Mist spray	796-meter haul road twice daily 12 trucks per shift	7.96 0.24
3	Green belt Development	10 L per plant per day	15 Plant (*in site buffer)	0.15
Total water requirement				8.65
4.	The project proponent is required to submit revised CER as per the OM dated 01.05.2018.		The project proponent submitted the same with details given as under:	
	Sr. No.	Particulars	Amount (in Rs)	
	1	PP will install water solar pump/light either at Gram Panchayat Office or at any location as may be suggested by villagers.	24,000/-	
	Total		24,000/	
5.	The project proponent is required to make arrangements for rain water harvesting at least equal to the amount as same as that of the domestic water requirement.		The project proponent submitted an undertaking to effect that the rain water harvesting will be carried out in the nearby school, panchayat bhawan or any government building in consultation with the local administration.	

SEAC was satisfied with the presentation and reply given to the observation. SEAC took a copy of the presentation along with a reply on record.

After deliberations, SEAC decided to award silver grading to the project and forward the application of the project proponent to SEIAA with the recommendations to grant Environmental Clearance for mining of minor minerals (Sand) on Agricultural Land located in the revenue estate of village Baggi Patni urf Mohkam Wala, Tehsil Zira, District-Ferozepur, Punjab submitted by M/s Prime Vision Industries Private Limited, as per Annexure-II and the following additional conditions:

1. The project proponent is required to carry out rain water harvesting in the nearby school/panchayat bhawan/ any other government building in consultation with the local administration.
2. The project proponent shall comply with the provisions contained in this Ministry's OM vide F.No. 22-65/2017-IA.III dated 1st May 2018, as applicable, regarding Corporate Environment Responsibility. The project proponent shall adhere to the commitments made in the proposal for CER activities for spending at least minimum amount of Rs. 24,000/- towards the following activities:

Sr. No.	Particulars	Amount (in Rs)
1	PP will install water solar pump/light either at Gram Panchayat Office or at any location as may be suggested by villagers.	24,000/-
Total		24,000/

Item No190.19: Application for obtaining environmental clearance under EIA notification dated 14.09.2006 for mining of minor minerals on Agricultural Land in the village Mallanwala Junabi, Tehsil Zira District Ferozepur, Punjab submitted by M/s Prime Vision Industries Private Limited. (Proposal No. SIA/PB/MIN/150576/ 2020).

SEAC observed as under:

M/s Prime Vision Industries Private Limited has applied for obtaining environmental clearance under EIA notification dated 14.09.2006 for mining of minor minerals (Sand) from Agricultural land in the revenue estate of village Mallanwala Junabi, Tehsil Zira District Ferozepur on 28.03.2020. The project is covered under category 1 (a) of the Schedule appended to the said notification.

Further, the said case was forwarded by SEIAA to SEAC on 20/06/2020 after scrutiny of the application and the updated status of the documents attached with the application is as under: -

1.0 Status of documents attached with application

(A) General

i)	Name of Applicant & Correspondence address: Mobile No: Email ID:	M/s Prime Vision Industries Pvt Ltd 312, Vishal Chamber P-1, Sector-18, Noida, Uttar Pradesh. 9646210786 Primevision.pb.ec@gmail.com
ii)	Name of Environmental Consultant Mobile No. Email ID	P and M solution 9910037943 Manasvyas23@gmail.com

(B) Detail of the Documents

The project proponent submitted all the requisite documents as per the checklist of the mining case along with Form-02. The project proponent submitted a hard copy of the same, which was taken on record.

The case was considered by SEAC in its 191st meeting held on 24.07.2020 and the same was attended by the following on behalf of the project proponent:

- (i) Sh. Harkesh Singh, Authorised signatory, on behalf of the project proponent.
- (ii) Sh. Manas Vyas, FAE on behalf of M/s P & M Solutions, Noida, Environment Consultant of the promoter company.

SEAC allowed the project proponent to present the salient features of the project and the Environment consultant of the promoter company presented the same as under:

SEAC asked the project proponent and his Environmental Consultant to clarify the following observations to which he replied as under: -

Sr. No.	Observations	Reply submitted by the project proponent and his Environmental Consultant
1.	Whether Final District Survey Report (DSR) has been approved?	The project proponent intimated that the DC Ferozepur has sent the approved DSR to the Secretary, Mining vide letter number 728 dated 08.06.2020. Sh. Manoj Bansal, Executive Engineer, Department of Mines submitted the said letter along with a signed copy of the DSR by the Executive Engineer, Department of Mines, Ferozepur, which was taken on record by SEAC.
2.	What is the plan of plantation of the project proponent? What is the location on which plantation will be carried out?	<p>(i) The total plantation that will be done across 3 years of our mining lease period the total capital cost of Plantation has been taken as 1000 Rs with (tree guard) totaling to Rs 2,89,500/-</p> <p>(ii) The Plantation shall be done alongside the haul road and as community plantation the location of which shall be decided after due consultation with the Local forest office and Panchayat.</p>

3.	The project proponent is required to submit the revised water requirement along with proper breakup as per the norms.	The project proponent submitted the same as under:		
Sr no	Usage	Criteria Considered	Person/Area/Plants	Total (KLD)
1	Domestic	20 L per person per day	13 Person	0.26
2	Dust Suppression	5 L per m haul road per time 20 L per truck using water Mist spray	1091-meter haul road twice daily 12 trucks per Day	10.91 0.24
3	Green belt Development	10 L per plant per day	12 Plant (*in site buffer)	0.12
Total water requirement				11.53
4.	The project proponent is required to submit revised CER as per the OM dated 01.05.2018.	The project proponent submitted the same with details given as under:		
Sr.No.	Particulars		Amount (in Rs)	
	PP will install water solar pump/light at any location as suggested by villagers.		15,000/-	
Total			15,000/	
5.	The project proponent is required to make arrangements for rain water harvesting at least equal to the amount as same as that of the domestic water requirement.	The project proponent submitted an undertaking to effect that the rain water harvesting will be carried out in the nearby school, panchayat bhawan or any government building in consultation with the local administration.		

SEAC was satisfied with the presentation and reply given to the observation. SEAC took a copy of the presentation along with a reply on record.

After deliberations, SEAC decided to award silver grading to the project and forward the application of the project proponent to SEIAA with the recommendations to grant Environmental Clearance for mining of minor minerals (Sand) on Agricultural Land located in the revenue estate of village Mallanwala Junabi, Tehsil Zira, District- Ferozepur, Punjab submitted by M/s Prime Vision Industries Private Limited, as per Annexure-II and the following additional conditions:

1. The project proponent is required to carry out rain water harvesting in the nearby school/panchayat bhawan/ any other government building in consultation with the local administration.
2. The project proponent shall comply with the provisions contained in this Ministry's OM vide F.No. 22-65/2017-IA.III dated 1st May 2018, as applicable, regarding Corporate Environment Responsibility. The project proponent shall adhere to the commitments made in the proposal for CER activities for spending at least minimum amount of Rs. 15,000/- towards the following activities:

Sr. No.	Particulars	Amount (in Rs)
1	PP will install water solar pump/light at any location as suggested by villagers.	15,000/-
Total		15,000/

Item No 190.20: Application for obtaining environmental clearance under EIA notification dated 14.09.2006 for mining of minor minerals on Agricultural Land in the village Behak Pachharian, Tehsil Zira District Ferozepur, Punjab submitted by M/s Prime Vision Industries Private Limited. (Proposal No. SIA/PB/MIN/ 150641/ 2020)

SEAC observed as under:

M/s Prime Vision Industries Private Limited has applied for obtaining environmental clearance under EIA notification dated 14.09.2006 for mining of minor minerals (Sand) from Agricultural land in the revenue estate of village Behak Pachharian, Tehsil Zira District Ferozepur on 29.03.2020. The project is covered under category 1 (a) of the Schedule appended to the said notification.

Further, the said case was forwarded by SEIAA to SEAC on 20/06/2020 after scrutiny of the application and the updated status of the documents attached with the application is as under: -

1.0 Status of documents attached with application

(A) General

i)	Name of Applicant & Correspondence address: Mobile No: Email ID:	M/s Prime Vision Industries Pvt Ltd 312, Vishal Chamber P-1, Sector-18, Noida, Uttar Pradesh. 9646210786 Primevision.pb.ec@gmail.com
ii)	Name of Environmental Consultant Mobile No. Email ID	P and M solution 9910037943 Manasvyas23@gmail.com

(B) Detail of the Documents

The project proponent submitted all the requisite documents as per the checklist of the mining case along with Form-02. The project proponent submitted a hard copy of the same, which was taken on record.

The case was considered by SEAC in its 191st meeting held on 24.07.2020 and the same was attended by the following on behalf of the project proponent:

- (i) Sh. Harkesh Singh, Authorised signatory, on behalf of the project proponent.
- (ii) Sh. Manas Vyas, FAE on behalf of M/s P & M Solutions, Noida, Environment Consultant of the promoter company.

SEAC allowed the project proponent to present the salient features of the project and the Environment consultant of the promoter company presented the same as under:

S.No.	Item	Details			
1.	Online Proposal No.	SIA/PB/MIN/150641/2020

	x) An undertaking has been submitted to the effect that no Cluster formation of mining site exists as no other mining site falls within a radius of 500 m from the periphery of the proposed site.
--	--

SEAC asked the project proponent and his Environmental Consultant to clarify the following observations to which he replied as under: -

Sr. No.	Observations	Reply submitted by the project proponent and his Environmental Consultant
	Whether Final District Survey Report (DSR) has been approved?	The project proponent intimated that the DC Ferozepur has sent the approved DSR to the Secretary, Mining vide letter number 728 dated 08.06.2020. Sh. Manoj Bansal, Executive Engineer, Department of Mines submitted the said letter along with a signed copy of the DSR by the Executive Engineer, Department of Mines, Ferozepur, which was taken on record by SEAC.
2.	What is the plan of plantation of the project proponent? What is the location on which plantation will be carried out?	(i) The total plantation that will be done across 3 years of our mining lease period the total capital cost of Plantation has been taken as 1000 Rs with (tree guard) totaling to Rs 2,95,500/- (ii) The Plantation shall be done alongside the haul road and as community plantation the location of which shall be decided after due consultation with the Local forest office and Panchayat.
3.	The project proponent is required to submit the revised water requirement along with proper breakup as per the norms.	The project proponent submitted the same as under:

Sno	Usage	Criteria Considered	Person/Area/Plants	Total (KLD)
1	Domestic	20 L per person per day	15 Person	0.30
2	Dust Suppression	5 L per m haul road per time 20 L per truck using water Mist spray	122-meter haul road twice daily 12 trucks per day	1.22 0.24
3	Green belt Development	10 L per plant per day	10 Plant (*in site buffer)	0.1
Total water requirement				1.86
4.	The project proponent is required to submit revised CER as per the OM dated 01.05.2018.		The project proponent submitted the same with details given as under:	
	. No.	Particulars	Amount (in Rs)	
		PP will install water solar pump/light at any location as suggested by villagers.	,000/-	
		PP will install water tankers for villagers for use in irrigation.	,000/-	
	Total		,000/-	
5.	The project proponent is required to make arrangements for rain water harvesting at least equal to the amount as same as that of the domestic water requirement.		The project proponent submitted an undertaking to effect that the rain water harvesting will be carried out in the nearby school, panchayat bhawan, or any government building in consultation with the local administration.	

SEAC was satisfied with the presentation and reply given to the observation. SEAC took a copy of the presentation along with a reply on record.

After deliberations, SEAC decided to award silver grading to the project and forward the application of the project proponent to SEIAA with the recommendations to grant Environmental Clearance for mining of minor minerals (Sand) on Agricultural Land located in the revenue estate of village Behak Pachharian, Tehsil Zira, District- Ferozepur, Punjab submitted by M/s Prime Vision Industries Private Limited, as per Annexure-II and the following additional conditions:

1. The project proponent is required to carry out rain water harvesting in the nearby school/panchayat bhawan/ any other government building in consultation with the local administration.

2. The project proponent shall comply with the provisions contained in this Ministry's OM vide F.No. 22-65/2017-IA.III dated 1st May 2018, as applicable, regarding Corporate Environment Responsibility. The project proponent shall adhere to the commitments made in the proposal for CER activities for spending at least a minimum amount of Rs. 22,000/- towards the following activities:

Sr. No.	Particulars	Amount (in Rs)
1	PP will install water solar pump/light at any location as suggested by villagers.	12,000/-
2	PP will install water tankers for villagers for use in irrigation.	10,000/-
Total		22,000/

Item No: 190.21: Application for obtaining environmental clearance under EIA notification dated 14.09.2006 for mining of minor minerals on Agricultural Land in the village Kohala, Tehsil Zira District Ferozepur, Punjab submitted by M/s Prime Vision Industries Private Limited. (Proposal No. SIA/PB /MIN/ 150650/ 2020)

SEAC observed as under:-

M/s Prime Vision Industries Private Limited has applied for obtaining environmental clearance under EIA notification dated 14.09.2006 for mining of minor minerals (Sand) from Agricultural land in the revenue estate of village Kohala, Tehsil Zira District Ferozepur on 29.03.2020. The project is covered under category 1 (a) of the Schedule appended to the said notification.

Further, the said case was forwarded by SEIAA to SEAC on 20/06/2020 after scrutiny of the application and the updated status of the documents attached with the application is as under: -

1.0 Status of documents attached with the application

(A) General

i)	Name of Applicant & Correspondence address: Mobile No: Email ID:	M/s Prime Vision Industries Pvt Ltd 312, Vishal Chamber P-1, Sector-18, Noida, Uttar Pradesh. 9646210786 Primevision.pb.ec@gmail.com
ii)	Name of Environmental Consultant Mobile No. Email ID	P and M solution 9910037943 Manasvyas23@gmail.com

(B) Detail of the Documents

The project proponent submitted all the requisite documents as per the checklist of mining cases along with Form-02. The project proponent submitted a hard copy of the same, which was taken on record.

The case was considered by SEAC in its 191st meeting held on 24.07.2020 and the same was attended by the following on behalf of the project proponent:

- (i) Sh. Harkesh Singh, Authorised signatory, on behalf of the project proponent.
- (ii) Sh. Manas Vyas, FAE on behalf of M/s P & M Solutions, Noida, Environment Consultant of the promoter company.

SEAC allowed the project proponent to present the salient features of the project and the Environment consultant of the promoter company presented the same as under:

--	--

SEAC asked the project proponent and his Environmental Consultant to clarify the following observations to which he replied as under: -

Sr. No.	Observations	Reply submitted by the project proponent and his Environmental Consultant
	Whether Final District Survey Report (DSR) has been approved?	The project proponent intimated that the DC Ferozepur has sent the approved DSR to the Secretary, Mining vide letter number 728 dated 08.06.2020. Sh. Manoj Bansal, Executive Engineer, Department of Mines submitted the said letter along with a signed copy of the DSR by the Executive Engineer, Department of Mines, Ferozepur, which was taken on record by SEAC.
2.	What is the plan of the plantation of the project proponent? What is the location on which plantation will be carried out?	(i) The total plantation that will be done across 3 years of our mining lease period the total capital cost of Plantation has been taken as 1000 Rs with (tree guard) totaling to Rs 3,28,500/- (ii) The Plantation shall be done alongside the haul road and as community plantation the location of which shall be decided after due consultation with the Local forest office and Panchayat.
3.	The project proponent is required to submit the revised water requirement along with proper breakup as per the norms.	The project proponent submitted the same as under:

Sno	Usage	Criteria Considered	Person/Area/Plants	Total (KLD)
1	Domestic	20 L per person per day	15 Person	0.30
2	Dust Suppression	5 L per m haul road per time 20 L per truck using water Mist spray	811-meter haul road twice daily 12 trucks per day	8.11 0.24
3	Green belt Development	10 L per plant per day	10 Plant (*in site buffer)	0.1
Total water requirement				8.75
4.	The project proponent is required to submit revised CER as per the OM dated 01.05.2018.		The project proponent submitted the same with details given as under:	
	Sr.No.	Particulars	Amount (in Rs)	
	1	PP will install water solar pump/light at any location as suggested by villagers.	15,000/-	
	Total		15,000/	
5.	The project proponent is required to make arrangements for rain water harvesting at least equal to the amount as same as that of the domestic water requirement.		The project proponent submitted an undertaking to effect that the rainwater harvesting will be carried out in the nearby school, panchayat bhawan or any government building in consultation with the local administration.	

SEAC was satisfied with the presentation and reply given to the observation. SEAC took a copy of the presentation along with a reply on record.

After deliberations, SEAC decided to award silver grading to the project and forward the application of the project proponent to SEIAA with the recommendations to grant Environmental Clearance for mining of minor minerals (Sand) on Agricultural Land located in the revenue estate of village Kohala, Tehsil Zira, District- Ferozepur, Punjab submitted by M/s Prime Vision Industries Private Limited, as per Annexure-II and the following additional conditions:

1. The project proponent shall carry out rainwater harvesting in the nearby school/panchayat bhawan/ any other government building in consultation with the local administration.
2. The project proponent shall comply with the provisions contained in this Ministry's OM vide F.No. 22-65/2017-IA.III dated 1st May 2018, as applicable, regarding Corporate Environment Responsibility. The project proponent shall adhere to the commitments

made in the proposal for CER activities for spending at least a minimum amount of Rs. 15,000/- towards the following activities:

Sr. No.	Particulars	Amount (in Rs)
1	PP will install water solar pump for villagers for use in irrigation	15,000/-
Total		15,000/

Meeting ended with a vote of thanks to the Chair.

Chairman SEAC

Standard Terms of Reference (TOR) for Mining Project

- 1) Submit dully filled check list with the application of environmental clearance.
- 2) Deposit the requisite fee as per Notification No. 10/167/2013-STE(5)/1510178 dated 27.06.2019 issued by the Govt. of Punjab, Department of Science, Technology and Environment
- 3) Project Proponent is required to conduct public hearing in light of the OM dated 12.12.2018 issued by MoEF. The draft EIA-EMP report shall be submitted to the Punjab Pollution Control Board of the concerned State for the conduct of Public Hearing. The PPCB shall conduct the Public Hearing/public consultation, district-wise, as per the provisions of EIA notification,2006. The Public Hearing shall be chaired by an Officer, not below the rank of Additional District Magistrate.
- 4) Submit a copy of Final District Survey Report indicating the mining site.
- 5) Submit a copy of visit report of Sub Divisional committee headed by the concerned SDM regarding suitability of site for mining mentioning environmentally safe depth.
- 6) Submit a copy of demarcation report dully signed with concerned person and officers.
- 7) Submit a copy of ownership of land such as copy of latest jamabandi and consent of the owner of land.
- 8) A copy of Mining Plan dully approved by the State Geologist
- 9) A copy of replenishment Study Report (for river sand mining proposals only)
- 10) Submit the contour plan showing river bed level, water level and present surface levels at various cross sections etc. Also, Red line to be marked on the x-sections in case riverbed mining
- 11) Submit 1.0 Km radius map of the area from periphery of project site clearly indicating the physical features.
- 12) Submit photographs of the mining site taken from all the four sides mentioning the coordinates of the project.
- 13) Submit complete transportation plan giving detailed procedure (details of route plan to be followed by trucks transporting minor minerals with traffic volume data etc.) to be followed as per requirements of appendix-XII of the MoEF&CC notification dated 15.01.2016

- 14) Mining lay out plan showing key distances of the mining site from the various features such as river bank, active channels, bundh and other structures in the vicinity, if any, drawn on portion of 'Aks Sajra' of the mining site, so as to ensure that minimum statutory distances are maintained. The route map to be followed should also be marked on the layout plan.
- 15) Submit Corporate Environment Responsibility (CER) Plan as per the OM dated 01.05.2018
- 16) Year-wise production details since 1994 should be given, clearly stating the highest production achieved in any one year prior to 1994. It may also be categorically informed whether there had been any increase in production after the EIA Notification 1994 came into force, w.r.t. the highest production achieved prior to 1994.
- 17) Submit a copy of the document in support of the fact that the Proponent is the rightful lessee of the mine such as letter of Intent (LOI) from the State government /Allotment letter of mining site etc.
- 18) All documents including approved mine plan, EIA and Public Hearing should be compatible with one another in terms of the mine lease area, production levels, waste generation and its management, mining technology etc. and should be in the name of the lessee.
- 19) All corner coordinates of the mine lease area, superimposed on a High-Resolution Imagery/toposheet, topographic sheet, geomorphology and geology of the area should be provided. Such an Imagery of the proposed area should clearly show the land use and other ecological features of the study area (core and buffer zone).
- 20) Information should be provided in Survey of India Toposheet in 1:50,000 scale indicating geological map of the area, geomorphology of land forms of the area, existing minerals and mining history of the area, important water bodies, streams and rivers and soil characteristics.
- 21) Details about the land proposed for mining activities should be given with information as to whether mining conforms to the land use policy of the State; land diversion for mining should have approval from State land use board or the concerned authority.
- 22) It should be clearly stated whether the proponent Company has a well laid down Environment Policy approved by its Board of Directors? If so, it may be spelt out in the EIA Report with description of the prescribed operating process/procedures to bring into focus any infringement/deviation/violation of the environmental or forest norms/ conditions? The hierarchical system or administrative order of the Company to deal with the environmental issues and for ensuring compliance with the EC conditions may also be

given. The system of reporting of non-compliances / violations of environmental norms to the Board of Directors of the Company and/or shareholders or stakeholders at large, may also be detailed in the proposed safeguard measures in each case should also be provided.

- 23) Issues relating to Mine Safety, including subsidence study in case of underground mining and slope study in case of open cast mining, blasting study etc. should be detailed. The proposed safeguard measures in each case should also be provided.
- 24) The study area will comprise of 10 km zone around the mine lease from lease periphery and the data contained in the EIA such as waste generation etc. should be for the life of the mine / lease period.
- 25) Land use of the study area delineating forest area, agricultural land, grazing land, wildlife sanctuary, national park, migratory routes of fauna, water bodies, human settlements and other ecological features should be indicated. Land use plan of the mine lease area should be prepared to encompass preoperational, operational and post operational phases and submitted. Impact, if any, of change of land use should be given.
- 26) Details of the land for any Over Burden Dumps outside the mine lease, such as extent of land area, distance from mine lease, its land use, R&R issues, if any, should be given.
- 27) A Certificate from the Competent Authority in the State Forest Department should be provided, confirming the involvement of forest land, if any, in the project area. In the event of any contrary claim by the Project Proponent regarding the status of forests, the site may be inspected by the State Forest Department along with the Regional Office of the Ministry to ascertain the status of forests, based on which, the Certificate in this regard as mentioned above be issued. In all such cases, it would be desirable for representative of the State Forest Department to assist the Expert Appraisal Committees.
- 28) Status of forestry clearance for the broken-up area and virgin forestland involved in the Project including deposition of net present value (NPV) and compensatory afforestation (CA) should be indicated. A copy of the forestry clearance should also be furnished.
- 29) Implementation status of recognition of forest rights under the Scheduled Tribes and other Traditional Forest Dwellers (Recognition of Forest Rights) Act, 2006 should be indicated.
- 30) The vegetation in the RF / PF areas in the study area, with necessary details, should be given.

- 31) A study shall be got done to ascertain the impact of the Mining Project on wildlife of the study area and details furnished. Impact of the project on the wildlife in the surrounding and any other protected area and accordingly, detailed mitigative measures required, should be worked out with cost implications and submitted.
- 32) Location of National Parks, Sanctuaries, Biosphere Reserves, Wildlife Corridors, Ramsar site Tiger/Elephant Reserves/(existing as well as proposed), if any, within 10 km of the mine lease should be clearly indicated, supported by a location map duly authenticated by Chief Wildlife Warden. Necessary clearance, as may be applicable to such projects due to proximity of the ecologically sensitive areas as mentioned above, should be obtained from the Standing Committee of National Board of Wildlife and copy furnished.

- 33) A detailed biological study of the study area [core zone and buffer zone (10 km radius of the periphery of the mine lease)] shall be carried out. Details of flora and fauna, endangered, endemic and RET Species duly authenticated, separately for core and buffer zone should be furnished based on such primary field survey, clearly indicating the Schedule of the fauna present. In case of any scheduled-I fauna found in the study area, the necessary plan alongwith budgetary provisions for their conservation should be prepared in consultation with State Forest and Wildlife Department and details furnished. Necessary allocation of funds for implementing the same should be made as part of the project cost.
- 34) Proximity to Areas declared as 'Critically Polluted' or the Project areas attracting court restrictions for mining operations, should also be indicated and where so required, clearance certifications from the prescribed Authorities, such as the SPCB or State Mining Dept. Should be secured and furnished to the effect that the proposed mining activities could be considered.
- 35) R&R Plan/compensation details for the Project Affected People (PAP) should be furnished. While preparing the R&R Plan, the relevant State/National Rehabilitation & Resettlement Policy should be kept in view. In respect of SCs /STs and other weaker sections of the society in the study area, a need based sample survey, family-wise, should be undertaken to assess their requirements, and action programmes prepared and submitted accordingly, integrating the sectoral programmes of line departments of the State Government. It may be clearly brought out whether the village(s) located in the mine lease area will be shifted or not. The issues relating to shifting of village(s) including their R&R and socio-economic aspects should be discussed in the Report.
- 36) One season (non-monsoon) [i.e. March - May (Summer Season); October - December (post monsoon season); December - February (winter season)] primary baseline data on ambient air quality as per CPCB Notification of 2009, water quality, noise level, soil and flora and fauna shall be collected and the AAQ and other data so compiled presented date-wise in the EIA and EMP Report. Site-specific meteorological data should also be collected. The location of the monitoring stations should be such as to represent whole of the study area and justified keeping in view the pre-dominant downwind direction and location of sensitive receptors. There should be at least one monitoring station within 500 m of the mine lease in the pre-dominant downwind direction. The mineralogical composition of PM10, particularly for free silica, should be given.

- 37) Air quality modeling should be carried out for prediction of impact of the project on the air quality of the area. It should also take into account the impact of movement of vehicles for transportation of mineral. The details of the model used and input parameters used for modelling should be provided. The air quality contours may be shown on a location map clearly indicating the location of the site, location of sensitive receptors, if any, and the habitation. The wind roses showing pre-dominant wind direction may also be indicated on the map.
- 38) The water requirement for the Project, its availability, source and zone should be furnished. A detailed water balance should also be provided. Fresh water requirement for the Project should be indicated.
- 39) Necessary clearance from the Competent Authority for drawl of requisite quantity of water for the Project should be provided.
- 40) Description of water conservation measures proposed to be adopted in the Project should be given. Details of rainwater harvesting proposed in the Project, if any, should be provided.
- 41) Impact of the Project on the water quality, both surface and groundwater, should be assessed and necessary safeguard measures, if any required, should be provided.
- 42) Based on actual monitored data, it may clearly be shown whether working will intersect groundwater. Necessary data and documentation in this regard may be provided. In case the working will intersect groundwater table, a detailed Hydro Geological Study should be undertaken and Report furnished. The Report inter-alia, shall include details of the aquifers present and impact of mining activities on these aquifers. Necessary permission from Central Ground Water Authority for working below ground water and for pumping of ground water should also be obtained and copy furnished.
- 43) Details of any stream, seasonal or otherwise, passing through the lease area and modification / diversion proposed, if any, and the impact of the same on the hydrology should be.
- 44) Information on site elevation, working depth, groundwater table etc. Should be provided both in AMSL and BGL. A schematic diagram may also be provided for the same.
- 45) A time bound Progressive Greenbelt Development Plan shall be prepared in a tabular form (indicating the linear and quantitative coverage, plant species and time frame) and submitted, keeping in mind, the same will have to be executed up front on commencement of the Project. Phase-wise plan of plantation and compensatory afforestation should be charted clearly indicating the area to be covered under plantation and the species

to be planted. The details of plantation already done should be given. The plant species selected for green belt should have greater ecological value and should be of good utility value to the local population with emphasis on local and native species and the species which are tolerant to pollution.

- 46) Impact on local transport infrastructure due to the Project should be indicated. Projected increase in truck traffic as a result of the Project in the present road network (including those outside the Project area) should be worked out, indicating whether it is capable of handling the incremental load. Arrangement for improving the infrastructure, if contemplated (including action to be taken by other agencies such as State Government) should be covered. Project Proponent shall conduct Impact of Transportation study as per Indian Road Congress Guidelines.
- 47) Details of the onsite shelter and facilities to be provided to the mine workers should be included in the EIA Report.
- 48) Conceptual post mining land use and Reclamation and Restoration of mined out areas (with plans and with adequate number of sections) should be given in the EIA report.
- 49) Occupational Health impacts of the Project should be anticipated and the proposed preventive measures spelt out in detail. Details of pre-placement medical examination and periodical medical examination schedules should be incorporated in the EMP. The project specific occupational health mitigation measures with required facilities proposed in the mining area may be detailed.
- 50) Public health implications of the Project and related activities for the population in the impact zone should be systematically evaluated and the proposed remedial measures should be detailed along with budgetary allocations.
- 51) Measures of socio economic significance and influence to the local community proposed to be provided by the Project Proponent should be indicated. As far as possible, quantitative dimensions may be given with time frames for implementation.
- 52) Detailed environmental management plan (EMP) to mitigate the environmental impacts which, should inter-alia include the impacts of change of land use, loss of agricultural and grazing land, if any, occupational health impacts besides other impacts specific to the proposed Project.
- 53) Public Hearing points raised and commitment of the Project Proponent on the same along with time bound Action Plan with budgetary provisions to implement the same should be provided and also incorporated in the final

EIA/EMP Report of the Project.

- 54) Details of litigation pending against the project, if any, with direction /order passed by any Court of Law against the Project should be given.
- 55) The cost of the Project (capital cost and recurring cost) as well as the cost towards implementation of EMP should be clearly spelt out.
- 56) A Disaster Management Plan shall be prepared and included in the EIA/EMP Report.
- 57) Benefits of the Project if the Project is implemented should be spelt out. The benefits of the Project shall clearly indicate environmental, social, economic, employment potential, etc.
- 58) Besides the above, the below mentioned general points are also to be followed: -
 - a) The EIA document shall be printed on both sides, as far as possible.
 - b) All documents to be properly referenced with index and continuous page numbering.
 - c) The copy of the letter received from the Ministry / SEIAA shall be also attached as an annexure to the final EIA-EMP Report.
 - d) Where data are presented in the Report especially in Tables, the period in which the data were collected and the sources should be indicated.
 - e) Project Proponent shall enclose all the analysis/testing reports of water, air, soil, noise etc. using the MoEF&CC/NABL accredited laboratories. All the original analysis/testing reports should be available during appraisal of the Project.
 - f) Where the documents provided are in a language other than English, an English translation should be provided.
 - g) The Questionnaire for environmental appraisal of mining projects as devised earlier by the Ministry shall also be filled and submitted.
 - h) While preparing the EIA report, the instructions for the Proponents and instructions for the Consultants issued by MoEF vide O.M. No. J-11013/41/2006-IA.II (I) dated 4th August, 2009, which are available on the website of this Ministry, should be followed.
 - i) Changes, if any made in the basic scope and project parameters (as submitted in Form-I and the PFR for securing the TOR) should be brought to the attention of MoEF&CC with reasons for such changes and permission should be sought, as the TOR may also have to be altered. Post Public

Hearing changes in structure and content of the draft EIA/EMP (other than modifications arising out of the P.H. process) will entail conducting the PH again with the revised documentation.

- j) As per the circular no. J-11011/618/2010-IA. II (I) dated 30.5.2012, certified report of the status of compliance of the conditions stipulated in the environment clearance for the existing operations of the project, should be obtained from the Regional Office of Ministry of Environment, Forest and Climate Change, as may be applicable.
- k) The EIA report should also include
 - (i) surface plan of the area indicating contours of main topographic features, drainage and mining area,
 - (ii) geological maps and sections and
 - (iii) Sections of the mine pit and external dumps, if any, clearly showing the land features of the adjoining area.
- l) Submit a copy of presentation in PPT format along with application.
- 59) The 'Terms of Reference' (TORs) prescribed will be valid for a period of three years from its issuance. The final EIA report shall be submitted to the SEIAA, Punjab for obtaining environmental clearance.

A. Specific conditions:

- (i) The environmental clearance will be valid for a period of seven years from the date of issuance, as per the provisions of the EIA Notification, 2006 as amended subsequently, for mining of minor minerals in the above said location and Khasra numbers.
- (ii) The project proponent shall demarcate the mining lease area in the presence of revenue authorities and concerned Village Panchayat or their representatives. Mining lease area will be demarcated on the ground with pucca pillars with reference to some permanent bench mark before starting any mining activity at site.
- (iii) Mining shall be as per the approved Development/Mining Plan prepared for this project and as per the Mines & Mineral (Development & Regulation) Act, 1957 and rules framed there under as amended from time to time, other Acts/rules related with mining of minor minerals.
- (iv) The mining activity shall be carried out strictly as per guidelines contained in the Sustainable Sand Mining Management Guidelines 2016 and provisions made in the Enforcement & Monitoring Guidelines for Sand Mining, 2020 issued by MoEF&CC, New Delhi as amended from time to time and guidelines issued by Geological Survey of India.
- (v) The project proponent shall adopt and follow the procedure for monitoring of sand mining as given in the Appendix-xii of Notification No. S.O. 141 (E) dated 15.01.2016 issued by MoEF & CC for streamlining the process of environmental clearance for mining of minor mineral.
- (vi) The mining operation will be carried out only from sun-rise to sunset.
- (vii) The project proponent shall obtain Consent to Establish and Consent to Operate from the Punjab Pollution Control Board and effectively implement all the conditions stipulated therein.
- (viii) The project proponent shall observe the mining site after every 15 days and in case, a Schedule-I or Schedule-II species as per Wildlife Act or any rare or endangered species are reported, the Mining Officer will get a conservation plan prepared in consultation with the Department of Wildlife and ensure its implementation.
- (ix) The mining of minor mineral (sand) shall be carried out only upto a depth of 3.0 m of the demarcated riverbed level or above the groundwater level, whichever is less.
- (x) The mining shall be carried out by the contractor/lessor as per the EMP prepared and development / mining plan prepared as per the Mines & Mineral (Development & Regulation) Act, 1957 / other Acts/Rules related with mining of minor minerals.

It shall be ensured that no mining shall be carried out during the monsoon season as defined by the Meteorological Department.

- (xi) The Project Proponent and Mining Officer shall ensure that wherever deployment of labour attracts the Mines Act, the provision thereof shall be strictly followed.
- (xii) The project proponent shall undertake plantation/afforestation work by planting the native species in the nearby area adjacent to mine lease.
- (xiii) The project proponent shall ensure that effective safeguard measures, such as regular water sprinkling shall be carried out in critical areas prone to air pollution and having high levels of particulate matter such as loading and unloading point and all transfer points. Extensive water sprinkling shall be carried out on haul roads. It should be ensured that the Ambient Air Quality parameters conform to the norms prescribed by the Ministry of Environment & Forests/Punjab Pollution Control Board in this regard.
- (xiv) The project proponent shall undertake adequate safeguard measures during extraction of sand and ensure that due to this activity, the hydro-geological and ecological regime of the surrounding area shall not be affected. Regular monitoring of ground water level and quality shall be carried out around the mine lease area by establishing a network of existing wells, if any, and installing new piezometers during the mining operation.
- (xv) The periodic monitoring [(at least four times in a year- pre-monsoon (April May), monsoon (August), post-monsoon (November) and winter (January)); once in each season)] shall be carried out in consultation with the State Ground Water Board/Central Ground Water Authority and the data thus collected may be sent regularly to the Ministry of Environment and Forests and its Regional Office at Chandigarh, the Central Ground Water Authority, the Regional Director, Central Ground Water Board; SEIAA, Punjab and Punjab Pollution Control Board. If at any stage, it is observed that the groundwater table is getting depleted or rising due to the mining activity, necessary corrective measures shall be carried out.
- (xvi) The project proponent shall obtain necessary prior permission of the competent authorities/CGWA for drawl of requisite quantity of water (surface water and groundwater), if any, required for the project.
- (xvii) In case, mining site falls in the notified block declared by the CGWA, the project proponent shall obtain necessary prior permission for drawl of requisite quantity of water for domestic purposes from District Advisory Committee (DAC) and only treated waste water will be used for dust suppression activities.
- (xviii) The project proponent shall carry out the rainwater harvesting as proposed in the government building nearest to the mining site in consultation with the Deputy Commissioner. The project proponent shall follow the CGWA guidelines and recharge at least twice the quantity of withdrawal water. In areas where ground water recharge is not feasible, the rainwater should be harvested and stored for reuse.

- (xix) Adequate numbers of tree shall be planted, protected, maintained and established in vacant area in the village near to the mining site.
- (xx) Appropriate mitigation measures shall be taken by the project proponent to prevent pollution at the mining site in consultation with the Punjab Pollution Control Board. It shall be ensured that there is no leakage of oil and grease at the mining site from the vehicles/mining equipment's used for transportation.
- (xxi) Vehicular emissions shall be kept under control and regularly monitored. The project proponent shall ensure that, as far as possible, the transportation route will be away from the habitation area and will not pass through any village. The transportation hours of mined material shall be restricted to non-peak hours only.
- (xxii) The mineral transportation shall be carried out through the covered trucks only and the vehicles carrying the mineral shall not be overloaded. All the public roads as well as approach roads shall be maintained and it shall be ensured that tippers carrying mined material are not loaded beyond the permissible load as per designed load bearing capacity of the road. Moreover, provision of sufficient funds shall be made in the budget for the proper maintenance of the roads.
- (xxiii) Mining shall be carried out only by semi-mechanized opencast method with the help of machinery as specified in the mining plan.
- (xxiv) Mineral handling area shall be provided with the adequate number of dust suppression systems. Loading and unloading areas including all the transfer points should also have efficient dust control arrangements. These should be properly maintained and operated.
- (xxv) A First Aid Room shall be provided in the project both during construction and operations of the project.
- (xxvi) Periodical medical examination of the workers engaged in the project shall be carried out and records maintained. For the purpose, schedule of health examination of the workers should be drawn and followed accordingly.
- (xxvii) Provision shall be made for the housing of workers, if residing at site, within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project. In case of non-residential/daily workers, provision of adequate bath rooms, mobile toilets, and mobile STP shall be made to avoid open defecation and treated domestic effluent shall be discharged onto land for plantation.
- (xxviii) The municipal solid waste generated shall be disposed off as per Solid Waste Management Rules, 2016. Segregation of bio-degradable and non-biodegradable wastes shall be done at site and disposed off as per provisions of Solid Waste Management Rules. Dustbins will be provided at site and the workers will be guided to put the domestic waste and plastic carry bags etc. if any, in the dustbin. No littering will be permitted at the site as well as in the vicinity.

- (xxix) The critical parameters such as RSPM (Particulate matter with size less than 10 micron i.e., PM10) and NO in the ambient air within the impact zone shall be monitored periodically. Further, quality of discharged water shall also be monitored [(TDS, DO, PH, Faecal Coliform and Total Suspended Solids (TSS)]. The monitored data shall be uploaded on the website of the company as well as displayed on a display board at the project site at a suitable location near the main gate of the Company in public domain. The Circular No. J-20012/1/2006-IA. II(M) dated 27.05.2009 issued by Ministry of Environment and Forests, which is available on the website of the Ministry www.envfor.nic.in shall also be referred in this regard for its compliance.
- (xxx) The project proponent shall take all precautionary measures during mining operation for conservation and protection of rare and endangered flora & fauna found in the study area. Action plan for conservation of flora and fauna shall be prepared in consultation with the State Forest and Wildlife Department. All the safeguard measures brought out in the Wildlife Conservation Plan so prepared specific to this project site shall be effectively implemented. Necessary allocation of funds for implementation of the conservation plan shall be made and the funds so allocated shall be included in the project cost. A copy of action plan shall be submitted to the Regional Office of the Ministry of Environment and Forests, Chandigarh and SEIAA, Punjab.
- (xxxi) The project proponent shall submit within 3 months their policy towards Corporate Environment Responsibility which should inter-alia address (i) Standard operating process/ procedure to bring into focus any infringement/deviation/violation of environmental or forest norms/ conditions, (ii) Hierarchical system or Administrative order of the company to deal with environmental issues and ensuring compliance of EC conditions and (iii) System of reporting of non compliance/violation of environmental norms to the Board of Directors of the company and/or stakeholders or shareholders.
- (xxxii) Vehicles hired to be used for transportation of mined material should be in good condition and should conform to applicable air and noise emission standards as provided in the Vehicular Act.
- (xxxiii) Ambient noise levels should conform to prescribed standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored.
- (xxxiv) The Risk assessment and disaster management plan should be prepared.
- (xxxv) The project proponent shall submit the site plan showing the earmarked area for storage of mined material.
- (xxxvi) No mining operation shall be carried out at any point within 75 m of railway line, 60 m from national highway, 50 m from HT line/any public works/reservoirs, tanks/canal/public roads and buildings or inhabited or 10 m of outer edge of any

village road. A safety barrier of 7.5m width shall be left intact around the mine lease boundary.

- (xxxvii) The project proponent shall ensure the implementation of the post closure mining plan as proposed by the project proponent in the mining plan.
- (xxxviii) The project proponent shall comply with the condition imposed by District Forest Officer (DFO) while granting NOC.
- (xxxix) The mining lease holders shall, after ceasing mining operations, undertake re-grassing the mining area and any other area which may have been disturbed due to their mining activities and restore the land to a condition which is fit for growth of fodder, flora, fauna etc.

B. General Conditions:

- (i) No change in mining technology and scope of working should be made without prior approval of the Ministry of Environment, Forests & Climate Change.
- (ii) No change in the calendar plan including excavation, quantum of mineral sand/gravel (minor mineral) and waste should be made.
- (iii) Four ambient air quality-monitoring stations should be established in the core zone as well as in the buffer zone for RSPM (Particulate matter with size less than 10micron i.e., PM) and NOx monitoring. Location of the stations should be decided based on the meteorological data, topographical features and environmentally and ecologically sensitive targets and frequency of monitoring should be undertaken in consultation with the Punjab Pollution Control Board.
- (iv) Data on ambient air quality RSPM (Particulate matter with size less than 10micron i.e., PM) & NOx should be regularly submitted to the Ministry of Environment and Forests including its Regional office located at Chandigarh and the Punjab Pollution Control Board / Central Pollution Control Board once in six months and SEIAA, Punjab.
- (v) Fugitive dust emissions from all the sources should be controlled regularly. Water spraying arrangement on haul roads, loading and unloading and at transfer points should be provided and properly maintained.
- (vi) Personnel working in dusty areas should wear protective respiratory devices and they should also be provided with adequate training and information on safety and health aspects. Occupational health surveillance program of the workers should be undertaken periodically to observe any contractions due to exposure to dust and take corrective measures, if needed.
- (vii) A separate environmental management cell with suitable qualified personnel should be set-up under the control of a Senior Executive, who will report directly to the Head of the Organization.
- (viii) The funds earmarked for environmental protection measures should be kept in separate account and should not be diverted for other purpose. Year wise

expenditure should be reported to the Ministry of Environment and Forests and its Regional Office located at Chandigarh and SEIAA, Punjab.

- (ix) The project proponent should inform to the Regional Office of the Ministry of Environment & Forests located at Chandigarh and SEIAA, Punjab regarding date of financial closures and final approval of the project by the concerned authorities and the date of start of land development work.
- (x) The Regional Office of Ministry of Environment & Forests located at Chandigarh and Punjab Pollution Control Board shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information / monitoring reports.
- (xi) The project proponent shall submit six monthly reports on the status of compliance of the stipulated environmental clearance conditions including results of monitored data (both in hard copies as well as by e-mail) to the Ministry of Environment and Forests, its Regional Office Chandigarh, the respective Zonal Office of Central Pollution Control Board and the Punjab Pollution Control Board and SEIAA, Punjab. The proponent shall upload the status of compliance of the environmental clearance conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of the Ministry of Environment and Forests, Chandigarh, the respective Zonal Office of Central Pollution Control Board and the Punjab Pollution Control Board and SEIAA, Punjab.
- (xii) A copy of the clearance letter shall be sent by the proponent to concerned Panchayat, Zila Parisad/ Municipal Corporation, Urban Local Body and the Local NGO, if any, from whom suggestions/ representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.
- (xiii) The Punjab Pollution Control Board should display a copy of the clearance letter at the Regional office, District Industries Centre and the Collector's office/ Tehsildar's office.
- (xiv) The environmental statement for each financial year ending 31 March in Form-V as is mandated to be submitted by the project proponent to the concerned Punjab Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of environmental clearance conditions and shall also be sent to the Regional Office of the Ministry of Environment and Forests, Chandigarh and SEIAA, Punjab by e-mail.
- (xv) The project proponent shall comply with the provisions contained in this Ministry's OM vide F.No. 22-65/2017-IA.III dated 1st May 2018, as applicable, regarding Corporate Environment Responsibility. The project proponent shall adhere to the

commitments made in the Environment Management Plan and Corporate Social Responsibility.

- (xvi) The project proponent should advertise at least in two local newspapers widely circulated, one of which shall be in the vernacular language of the locality concerned, within 7 days of the issue of the clearance letter informing that the project has been accorded environmental clearance and a copy of the clearance letter is available with the Punjab Pollution Control Board and also at web site of the Ministry of Environment and Forests at <http://envfor.nic.in> and a copy of the same should be forwarded to the Regional Office of Ministry of Environment & Forests at Chandigarh and SEIAA, Punjab.
- (xvii) The Ministry of Environment, Forests & Climate Change and SEIAA, Punjab or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
- (xviii) The SEIAA may cancel the environmental clearance granted to this project under the provisions of EIA Notification, 2006, if, at any stage of the validity of this environmental clearance, it is found/ come to the knowledge of the SEIAA that the project proponent has deliberately concealed and/or submitted false or misleading information or inadequate data for obtaining the environmental clearance.
- (xix) The project proponent shall get the micro chemical analysis of the mined material done from an approved laboratory once in a year and shall submit the analysis results to the Ministry of Environment & Forests/Punjab Pollution Control Board and SEIAA, Punjab.
- (xx) The project proponent shall ensure that the contractor shall engage people of local area for mining purpose as far as possible, so as to have opportunities of employment for them.
- (xxi) The project proponent may apply for transfer of environmental clearance under EIA notification dated 14.09.2006 to the other contractor finalized by the Department of Industries & Commerce to SEIAA, Punjab. However, no activity shall be undertaken by the contractor till the environmental clearance is transferred in his name and he is lawfully bound to comply with the conditions of the environmental clearance.
- (xxii) The monitoring of the mining project in respect of Environment Management shall be carried out by the State/District Level Environment Management Cells constituted by the Govt. of Punjab vide notifications dated 03.12.2012.
- (xxiii) Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under.
