

**PROCEEDINGS OF THE MEETING OF STATE LEVEL EXPERT APPRAISAL
COMMITTEE, ODISHA HELD ON 02ND, 3RD, 4TH & 5TH AUGUST, 2023**

The SEAC meetings held on 02nd, 3rd, 4th & 5th August, 2023 at 03:30 PM through Video Conferencing (VC) in Google Meet under the Chairmanship of Sri Sashi Paul. The following members were present in the meeting.

- | | | |
|------------------------------|---|-----------------------|
| 1. Sri Sashi Paul | - | Chairman (through VC) |
| 2. Dr. K. Murugesan | - | Member Secretary |
| 3. Dr. Rabi Narayan Patra | - | Member (through VC) |
| 4. Dr. Chittaranjan Panda | - | Member (through VC) |
| 5. Prof. (Dr.) H.B. Sahu | - | Member (through VC) |
| 6. Prof. (Dr.) Abanti Sahoo | - | Member (through VC) |
| 7. Er. Fakir Mohan Panigrahi | - | Member (through VC) |
| 8. Prof. (Dr.) B.K. Satpathy | - | Member (through VC) |
| 9. Dr. K.C.S Panigrahi | - | Member (through VC) |
| 10. Shri Jayant Kumar Das | - | Member (through VC) |
| 11. Dr. Ashok Kumar Sahu | - | Member (through VC) |

Draft proceedings of the meeting was finalized by the members through e-mail and also final proceedings of the meeting was confirmed by the members through e-mail. The agenda-wise proceedings and recommendations of the committee are detailed below.

A. CONSIDERATION OF MINOR MINERAL PROPOSALS (NEW) – 19 Nos.

The committee verified 19 nos. of minor mineral proposals forwarded by the SEIAA, Odisha. The case-wise proceedings and observations of the committee are detailed in Table as per **Annexure – A**. The proposals of following categories are examined:

Total no. of proposals	Type of proposals	No. of proposal	Decisions of the committee
19	Stone Quarries and other (10)	09	Clarification to be sought from the concerned Tahasildar.
		01	The SEAC considered the proposals as B2 category and recommended for Environmental Clearance.
	River Sand (09)	03	Clarification to be sought from the concerned Tahasildar.
		04	The SEAC considered the proposals as B2 category and recommended for Environmental Clearance.
		02	SEAC recommended to reject EC for the proposal.

B. CONSIDERATION OF MINOR MINERAL PROPOSALS (COMPLIANCE RECEIVED) – 14 Nos.

The committee verified 14 nos. of minor mineral proposals (compliance received). The case-wise proceedings and observations of the committee are detailed in Table as per **Annexure – B**. The proposals of following categories are examined:

Total no. of proposals	Type of proposals	No. of proposal	Decisions of the committee
14	Stone Quarries and other (05)	05	Clarification to be sought from the concerned Tahasildar.

Total no. of proposals	Type of proposals	No. of proposal	Decisions of the committee
	River Sand (09)	03	Clarification to be sought from the concerned Tahasildar.
		06	The SEAC considered the proposals as B2 category and recommended for Environmental Clearance.

C. CONSIDERATION OF EXTENSION OF EC (COUNTRY LIQUOR) PROPOSALS

RECEIVED – 17 Nos:

The recommendation of SEAC for modification of Environmental Clearance (Extension of EC) for 17 country liquor proposals is given at **Annexure - C**.

D. CONSIDERATION OF EXTENSION OF EC (COUNTRY LIQUOR) PROPOSALS - COMPLIANCE RECEIVED: 02 Nos.

The recommendation of SEAC for modification of Environmental Clearance (Extension of EC) - Compliance received for 02 country liquor proposals is as per **Annexure - D**.

E. CONSIDERATION OF MODIFICATION OF EC PROPOSALS – 15Nos.

The recommendation of SEAC for modification of Environmental Clearance for 15 minor mineral proposals is as per **Annexure - E**.

F. CONSIDERATION OF MODIFICATION OF EC PROPOSALS COMPLIANCE RECEIVED – 01Nos.

The recommendation of SEAC for modification of Environmental Clearance (compliance received) for 01 minor mineral proposals is as per **Annexure - F**.

G. POLICY DECISION ON CONSIDERATION OF EXTENSION OF VALIDITY PERIOD OF ENVIRONMENTAL CLEARANCE FOR COUNTRY LIQUOR PROPOSALS.

l) The SEAC in its meeting held on 31.10.2019 opined the following:

- i) Revalidation of Environmental Clearance is not required for the country liquor unit if it is already operational unit. Further, fresh Environmental Clearance is also not required for such operational unit, if it is not shifting the unit to other location and / or going for higher production capacity.
- ii) Many times proposals have been received from SEIAA, Odisha for revalidation of Environmental Clearance for such operational country liquor units and the SEAC return such proposals to SEIAA, Odisha mentioning that revalidation is not required as it is already operational unit and fresh Environmental Clearance is also not required for the proposal as it is not shifting the unit to other location and / or going for higher production capacity.
- iii) Such type of proposals are being received in SEAC office in large no. and SEAC office is returning such proposals to SEIAA, Odisha after recommendation of SEAC without any further input.

After detailed discussion, the SEAC recommended that the SEIAA, Odisha may consider not to send such proposals to SEAC and dispose of such proposals at their level as per earlier recommendation of SEAC meeting held on 31.10.2019.

MEMBER SECRETARY, SEAC

Proceedings of the SEAC meeting held on 02nd, 03rd, 04th and 05th August 2023

J. Nayak
Environmental Scientist, SEAC

TABLE
DECISION ON MINOR MINERAL PROJECTS WITH LEASE AREA LESS THAN 5 HA. ON 02ND, 03RD, 04TH
AND 05TH AUGUST 2023

Sl. No	SEIAA File No.	Name & Address of the proponent	District	Type of Mineral	Name of the project	Mining lease period	Details of other mines including lease area located within 500 m from the periphery of the proposed mine lease area	Observation of SEAC based on Form-I, Pre-feasibility report, approved mining plan and checklist	Whether general condition apply	Maximum annual production capacity (in m ³)	Recommendation of the SEAC
1.	SIA/OR/M IN/43678 5/2023	Sri Prasanna Sahoo (Lessee) M/s. Brahmanabasa Stone Quarry NO - VI At: Nadhara, Tahabaghalunda, Dist: Dhenkanal Pin: 759019 Email: prsahoo157@gmail.com	Dhenkanal	Stone	Proposal of Environmental Clearance for Brahmanabasa Stone Quarry NO - VI, Over an area of 4.93 acres or 1.99 ha in village Brahmanabasa under Odapada Tahasil, District Dhenkanal of Sri Prasanna Sahoo - EC	5 Years	Brahmanabasa Road Metal Quarry NO - II (1.019Ha.)	<ol style="list-style-type: none"> 1. Furnished filled in Form-I, pre-feasibility report and check list as endorsed / submitted by the Tahasildar. 2. Final DSR has been submitted. 3. Topo sheet indicating location of the mine has been furnished. 4. EMP has been submitted in cluster approach. 5. Mining Plan has been approved. 6. No forest land involved in lease area 7. There is no 	NO	14130	The SEAC decided to take decision on the proposal after receipt of the following from the concerned Tahasildar: (i) Compliance Report to Previous EC conditions as it is mentioned working mine in DSR. (2) As the area is used by elephants for movement, so views of concerned DFO

Sl. No.	SEIAA File No.	Name & Address of the proponent	District	Type of Mineral	Name of the project	Mining lease period	Details of other mines including lease area located within 500 m from the periphery of the proposed mine lease area	Observation of SEAC based on Form-I, Pre-feasibility report, approved mining plan and checklist	Whether general condition apply	Maximum annual production capacity (in m ³)	Recommendation of the SEAC
								<p>protected areas i.e. National Park, Sanctuary, Habitat for Migratory Birds, Tiger Reserve, Protected Monuments, Inter-State boundary and critically polluted area as identified by CPCB etc. located within 5 km radius of the mine lease area.</p> <p>8. There is no court case / litigation pending.</p> <p>9. The concerned Tahasildar has furnished DLC report. DLC report of concerned Tahasildar reveals that the lease area is not included in the</p>			<p>on this mining proposal.</p> <p>3. At many places including CAF area is mentioned as 4.93 ha or 1.99 ha. It needs correction.</p> <p>4. Revised Kml file showing both the quarries in the cluster.</p> <p>5. It is mentioned that no drilling/blasting will be used. However EMP gives mitigation measures for blasting. This shall be clarified.</p> <p>6. Temporary storage of 20% waste shall be there so provision</p>

Sl. No.	SEIAA File No.	Name & Address of the proponent	District	Type of Mineral	Name of the project	Mining lease period	Details of other mines including lease area located within 500 m from the periphery of the proposed mine lease area	Observation of SEAC based on Form-I, Pre-feasibility report, approved mining plan and checklist	Whether general conditions apply	Maximum annual production capacity (in m ³)	Recommendation of the SEAC
								DLC list. 10. The Tahasildar has furnished Cluster certificate. The Cluster certificate reveals that there is one other mine located within 500 meter from the boundary of the mine.			of garland drain and settling tank is required to prevent pollution of natural drains. Layout showing these measures may also be submitted. 7. EMP Budget should be provided for individual mines and not as lumpsum.
2.	SIA/OR/M IN/42355 8/2023	Sri Pulak Mohanty (Lessee) M/s. Chhenagaon Sand Bed At-Alatalanga, Po-Kulasri, Ps-	Kalahandi	Sand	Proposal of Environmental Clearance for Chhenagaon Sand Bed over an area of 12.35 Acres or 5.00 Hectares in village	5 Years	Nil (As per checklist)	1. Furnished filled in Form-I, pre-feasibility report and check list as endorsed / submitted by the Tahasildar. 2. Final DSR has been submitted. 3. Topo sheet indicating location	NO	6000	The SEAC recommended to grant EC valid from the date of EC accorded upto the lease period with specific conditions stipulated for sand mine with following

Sl. No.	SEIAA File No.	Name & Address of the proponent	District	Type of Mineral	Name of the project	Mining lease period	Details of other mines including lease area located within 500 m from the periphery of the proposed mine lease area	Observation of SEAC based on Form-I, Pre-feasibility report, approved mining plan and checklist	Whether general condition apply	Maximum annual production capacity (in m ³)	Recommendation of the SEAC
		Niali, Dist-Cuttack Pin: 754104 Email: pulamohanty8@gmail.com			Chhenagaon under Kesinga tahasil of Kalahandi district of Sri Pulak Mohanty - EC			<p>of the mine has been furnished.</p> <p>4. EMP has been submitted.</p> <p>5. Mining Plan has been approved.</p> <p>6. No forest land involved in lease area</p> <p>7. There is no protected areas i.e. National Park, Sanctuary, Habitat for Migratory Birds, Tiger Reserve, Protected Monuments, Inter-State boundary and critically polluted area as identified by CPCB etc. located within 5 km radius of the mine lease area.</p> <p>8. There is no court case / litigation</p>			<p>additional conditions.</p> <p>i) Consent / NoC shall be obtained from the concerned authority if village road is to be used for transportation. The said road shall also be maintained by the lessee.</p> <p>ii) In view of likely revision of DSR the mention of this deposit with final coordinates is to be ensured.</p> <p>iii) The boundary area of the deposit as per the updated DSR defined by geo coordinates based on DGPS survey</p>

Sl. No.	SEIAA File No.	Name & Address of the proponent	DISTRICT	Type of Mineral	Name of the project	Mining lease period	Details of other mines including lease area located within 500 m from the periphery of the proposed mine lease area	Observation or SEAC based on Form-I, Pre-feasibility report, approved mining plan and checklist	Whether general condition apply	Maximum annual production capacity (in m ³)	Recommendation of the SEAC
3.	SIA/OR/M	Sri M. Shiva	Ganjam	Morum	Proposal of	5 Years	Nil	<p>pending.</p> <p>9. The Tahasildar has furnished Cluster certificate. The Cluster certificate reveals that there is no other mines located within 500 meters from the boundary of the mine.</p>	NO	25060	<p>be superimposed on the cadastral map.</p> <p>iv) Plantation programme to be completed within first two years and to be maintained in remaining years.</p> <p>v) The Project proponent shall follow Sustainable Sand Mining Guidelines, 2020.</p> <p>vi) The proponent shall provide Bio-toilet for the workers.</p> <p>vii) Project Proponent shall not disturb the water course during mining.</p>
								1. Furnished filled in			The SEAC

Sl. No.	SEIAA File No.	Name & Address of the proponent	District	Type of Mineral	Name of the project	Mining lease period	Details of other mines including lease area located within 500 m from the periphery of the proposed mine lease area	Observation or SEAC based on Form-I, Pre-feasibility report, approved mining plan and checklist	Whether general condition apply	Maximum annual production capacity (in m ³)	Recommendation of the SEAC
	IN/43613 7/2023	Patra (Lessee) M/s. Narayanpur Morrum Quarry At/Po-Korapalli, Ps-Gopalpur Dist-Ganjam Pin: 761002 Email: mshivapatra971 @gmail.com			Environmental Clearance for Narayanpur Morrum Quarry over an area of 7.58 acres or 3.067 hectares having Khata No. 424, Plot No. 812 in the Village Narayanpur, Konisi Tahasil in District Ganjam of Sri M. Shiva Patra - EC		(As per checklist)	Form-I, pre-feasibility report and check list as endorsed / submitted by the Tahasildar. 2. Final DSR has been submitted. 3. Topo sheet indicating location of the mine has been furnished. 4. EMP has been submitted. 5. Mining Plan has been approved. 6. No forest land involved in lease area 7. There is no protected areas i.e. National Park, Sanctuary, Habitat for Migratory Birds, Tiger Reserve, Protected Monuments,			decided to take decision on the proposal after receipt of the following from the concerned Tahasildar: (i) The quarry floor as per approved mining plan is 20.5 mRL and proposed pit dimension is 86m X 73 m X 26 mt. The quarry is bound to intersect the ground water table during mining of morrum. Preventive measures to be taken to address this issue to be submitted. (ii) Proper plan of utilization of the mined out area along with

Sl. No	SEIAA File No.	Name & Address of the proponent	District	Type of Mineral	Name of the project	Mining lease period	Details of other mines including lease area located within 500 m from the periphery of the proposed mine lease area	Observation of SEAC based on Form-I, Pre-feasibility report, approved mining plan and checklist	Whether general condition apply	Maximum annual production capacity (in m ³)	Recommendation of the SEAC
								<p>Inter-State boundary and critically polluted area as identified by CPCB etc. located within 5 km radius of the mine lease area.</p> <p>8. There is no court case / litigation pending.</p> <p>9. The concerned Tahasildar has furnished DLC report. DLC report of concerned Tahasildar reveals that the lease area is not included in the DLC list.</p> <p>10. The Tahasildar has furnished Cluster certificate. The Cluster certificate reveals that there is no other mine</p>			<p>provisions of barricades around the mining pit for preventing stray animals and occasional visiting persons to the mining site from facing any untoward incidents.</p>

Sl. No.	SEIAA File No.	Name & Address of the proponent	District	Type of Mineral	Name of the project	Mining lease period	Details of other mines including lease area located within 500 m from the periphery of the proposed mine lease area	Observation of SEAC based on Form-I, Pre-feasibility report, approved mining plan and checklist	Whether general condition apply	Maximum annual production capacity (in m ³)	Recommendation of the SEAC
								located within 500 meter from the boundary of the mine.			
4.	SIA/OR/M IN/40366 3/2022	Sri Tuleswar Naik (Lessee) M/s. Manjhari Sand Bed At- Tumra, Po- Manjhari, Ps- Golamunda, Dist- Kalahandi Pin: 766015 Email: tuleswarnaik7@gmail.com	Kalahandi	Sand	Proposal of Environmental Clearance for Manjhari Sand Bed over an area of 7.00 Acres or 2.832 Hectares in village Manjhari under Golamunda tahasil of Kalahandi district of Sri Tuleswar Naik - EC	5 Years	Nil (As per checklist)	<ol style="list-style-type: none"> 1. Furnished filled in Form-I, pre-feasibility report and check list as endorsed / submitted by the Tahasildar. 2. Final DSR has been submitted. 3. Topo sheet indicating location of the mine has been furnished. 4. EMP has been submitted. 5. Mining Plan has been approved. 6. No forest land involved in lease area 7. There is no protected areas i.e. National Park, Sanctuary, 	NO	4000	The SEAC decided to take decision on the proposal after receipt of the following from the concerned Tahasildar: (i) Approach road for transportation of mined minerals from the riverbed could not be ascertained. Submit the details of approach road along with layout map.

Sl. No	SEIAA File No.	Name & Address of the proponent	District	Type of Mineral	Name of the project	Mining lease period	Details of other mines including lease area located within 500 m from the periphery of the proposed mine lease area	Observation of SEAC based on Form-I, Pre-feasibility report, approved mining plan and checklist	Whether general condition apply	Maximum annual production capacity (in m ³)	Recommendation of the SEAC
								<p>Habitat for Migratory Birds, Tiger Reserve, Protected Monuments, Inter-State boundary and critically polluted area as identified by CPCB etc. located within 5 km radius of the mine lease area.</p> <p>8. There is no court case / litigation pending.</p> <p>9. The Tahasildar has furnished Cluster certificate. The Cluster certificate reveals that there is no other mines located within 500 meters from the boundary of the mine.</p>			
5.	SIA/OR/M	Sri Ramesh	Dhenkan	Sand	Proposal of	5 Years	Nil	1. Furnished filled in	NO	20568	The SEAC

Sl. No	SEIAA File No.	Name & Address of the proponent	District	Type of Mineral	Name of the project	Mining lease period	Details of other mines including lease area located within 500 m from the periphery of the proposed mine lease area	Observation of SEAC based on Form-I, Pre-feasibility report, approved mining plan and checklist	Whether general condition apply	Maximum annual production capacity (in m ³)	Recommendation of the SEAC
	IN/429004/2023	Chandra Panda (Lessee) M/s. Kumardeipur Sand Quarry At: ACP Constructions, ACP House, 994/1490, Rajarani Colony, Tankapani Road Dist: Khordha Pin: 752103 Email: ecrameshp@gmail.com	al		Environmental Clearance for Kumardeipur Sand Quarry over an area of 11.85Acre or 4.795 Ha under Dhenkanal Tahasil of Dhenkanal District of Sri Ramesh Chandra Panda - EC		(As per checklist)	<p>Form-I, pre-feasibility report and check list as endorsed / submitted by the Tahasildar.</p> <p>2. Final DSR has been submitted.</p> <p>3. Topo sheet indicating location of the mine has been furnished.</p> <p>4. EMP has been submitted.</p> <p>5. Mining Plan has been approved.</p> <p>6. No forest land involved in lease area</p> <p>7. There is no protected areas i.e. National Park, Sanctuary, Habitat for Migratory Birds, Tiger Reserve, Protected Monuments,</p>			observed the following:- In kml file and topomap it appears that proposed quarry is located middle of the water channel. The Project Proponent has clarified that most of the time the lease area remains dry and at the time when water from Rengali Dam reaches at the lease area, it flows through a channel and at that time no mining operation will be taken place.

Sl. No	SEIAA File No.	Name & Address of the proponent	District	Type or Mineral	Name of the project	Mining lease period	Details of other mines including lease area located within 500 m from the periphery of the proposed mine lease area	Observation or SEAC based on Form-I, Pre-feasibility report, approved mining plan and checklist	Whether general condition apply	Maximum annual production capacity (in m ³)	Recommendation of the SEAC
								<p>Inter-State boundary and critically polluted area as identified by CPCB etc. located within 5 km radius of the mine lease area.</p> <p>8. There is no court case / litigation pending.</p> <p>9. The Tahasildar has furnished Cluster certificate. The Cluster certificate reveals that there is no other mines located within 500 meters from the boundary of the mine.</p>			The SEAC decided to reject the proposal as sand mining is not allowed in middle of the water channel as it will disturb the natural flow of river.

ANNEXURE-C

**DECISION ON COUNTRY LIQUOR (MAHUA FLOWER BASED O.S SHOP) PROPOSALS
(MODIFICATION OF EC) RECEIVED FROM SEIAA, ODISHA HELD ON 02ND, 03RD, 04TH
AND 05TH AUGUST 2023**

Sl. No.	Online File No.	Proposals	Summary of the proposal	Recommendations of SEAC
1)	SIA/OR/IND2/3 01549/2023	Proposal of Extension Environmental Clearance for Production of 1.58 KLD Mahua Flower Based country liquor Manufacturing Unit M/s Saurapalli Main O.S Liquor Shop At - Saurapalli, District. - Ganjam. of Sri Raghubeer Panigrahy – Mod EC	<ul style="list-style-type: none"> This proposal is for Extension of Environment Clearance in name of lessee Sri Raghubeer Panigrahy. Environmental Clearance was granted by SEIAA vide letter No. 7556/SEIAA dated 28.11.2019 & Extension of EC granted on letter No. 1878/SEIAA dated 26.07.2021 for capacity of 1.58KLD. Now, the proposal has been applied for Extension of EC as per Excise license submitted valid till 31.03.2024. 	The SEAC reiterates its earlier recommendation for revalidation of country liquor proposals as decided in its meeting held on 31.10.2019 and opined that revalidation of Environmental Clearance is not required for the unit as it is already operational unit. Further, the SEAC opined that fresh Environmental Clearance is also not required for the proposal as it is not shifting the unit to other location and / or going for higher production capacity. The SEAC recommended to return these proposals to SEIAA, Odisha with a request to communicate the proponents as above.

2.	SIA/OR/MIN/3016 43/2023	Proposal of amendment Environmental Clearance for Tentuapada Sand Quarry over an area 5.666 Ha. Located at Khata No. 324, Plot No. 1603, 1665 & 1666 village - Tentuapada, Tahasil - Digapahandi, Dist.- Ganjam of Sri Prava Ranjan Mishra - Mod EC	<ol style="list-style-type: none">1. Modification of EC (Corrigendum EC) to change the lessee address to M/s. Premex of Sri Prava Ranjan Mishra instead of only Sri Prava Ranjan Mishra2. Amendment EC was granted vide File no. SIA/OR/MIN/298114/2023 dated 26.06.2023.3. The PP has proposed for the amendment in EC letter which has been issued without the name of Firm. So, kindly mention the Firm name with lease holder name & issue the Amendment EC Tentuapada Sand Quarry over an area 5.666 Ha. in village- Tentuapada, Tahasil- Digapahandi, Dist- Ganjam in favour of M/s. Premex of Sri Prava Ranjan Mishra as per the application form.	After detailed discussion, the SEAC decided to return the proposal and SEIAA may take decision on the proposal after verifying the documents submitted by Project Proponent.

Sl. No.	Online File No.	Proposals	Summary of the proposal	Recommendations of SEAC
3.	SIA/OR/MIN/3017 89/2023	Proposal of amendment Environmental Clearance for Raichanda Sand Bed Mine on river Brahmani over an area of 8.093 ha or 20.00 acre in Village Raichanda under Dharmasala Tahasil of Jajpur District of Sri Sribash Jena - Mod EC	<ol style="list-style-type: none"> 1. Modification of EC as per the Replenishment Study Report 2. EC was granted vide letter no. EC22B001OR199843 dated 26.05.2022. 3. Approved Mining Plan capacity is 16800(max) cum/year. 4. SEIAA has permitted for 14365 cum/year for 1st year for sand extraction, followed by submission of Replenishment Study Report. 5. Pre monsoon (June 2022) has been carried out by field survey (Volumetric survey Method) and to define topography Drone method used. 6. Post Monsoon (23.03.2023) has been carried out by Drone survey. 7. Available mineable sand in post monsoon is 80436cum. Rate of Replenishment 35.195%. 	After detailed discussion the SEAC opined that the Replenishment Study report is not prepared by bringing out the estimate of sand deposited on the river bed during the monsoon season of the study period. It merely states the estimated quantity of sand available in the ML area of the riverbed exposed above the water level during the pre-monsoon and post monsoon study period. Hence, this proposal is not recommended and replenishment study needs to be properly done for consideration of SEAC.

7.	SIA/OR/MIN/3014 80/2023	Proposal of amendment Environmental Clearance for Penguda Sand Quarry over an area of 12.35 Acres or 4.997 ha at Village Penguda, Tahasil. Gunupur, Dist: Rayagada of Sri Jani Venkata Rao – Mod EC	<ol style="list-style-type: none"> 1. Modification of EC as per the Replenishment Study Report 2. EC was granted vide letter no. EC22B001OR167442 dated 17.08.2022. 3. Approved Mining Plan capacity is 62034 cum/year. 4. SEIAA has permitted for 7500 cum/year for 1st year for sand extraction, followed by submission of Replenishment Study Report. 5. Both Pre monsoon (May 2021) and Post Monsoon (Oct 2022) has been carried out by Drone Survey method. 6. Rate of replenishment of sand 14011cum calculated and extractable sand is 55305 cum. 7. The PP has proposed for same 55305 cum/year for 2nd year in application form and requested for semi mechanized method. 	<p>After detailed discussion the SEAC opined that the replenishment study gives the average deposit of height of sand is 0.38 meter. So volume of replenished sand comes as 14,011 cum. But as per the mining plan, the PP wishes to excavate 55,305 cum with a depth of 1.5 meter. But maximum 14011 cum can be given permission as per replenishment studies.</p>

Sl. No.	Online File No.	Proposals	Summary of the proposal	Recommendations of SEAC
8.	SIA/OR/MIN/3017 19/2023	Proposal of amendment Environmental Clearance for Mahanadi River Sand Gopinathpur over an area of 11.00 acres or 4.451 hectares in village Gopinathpur under Salipur Tahasil in Cuttack District of Sri Rashmi Ranjan Routray - Mod EC	<ol style="list-style-type: none"> 1. Modification of EC as per the Replenishment Study Report 2. EC was granted vide letter no. 2921 dated 28.09.2021. 3. EC was granted vide letter no. EC22B001OR192412 dated 05.11.2022. 4. Approved Mining Plan capacity is 15000 cum/year. 5. SEIAA has permitted for extraction of sand for a depth of 1.5m for 1st year followed by submission of Replenishment Study Report. 6. Technical Committee conducted a site visit and concluded that 5600cum sand is available in the auctioned area instead of 15000cum quantity. 7. Only Pre monsoon (21.05.2023) has been carried out by Drone Survey method. 8. The PP has proposed for same 2729 cum/year for 2nd year in application form. 	After detailed discussion the SEAC observed that SEIAA has permitted for extraction of sand for a depth of 1.5m for 1st year. And as per Mining Plan approved capacity is 15000 cum/annum. But the technical committee has observed that 5600 cum volume of sand available is only available in the proposed quarry. As per late submitted pre monsoon survey, it is estimated that 4548 cum volume of sand is available as mineable reserve. So, it is calculated that, 2729 cum extractable mineable volume of sand available. So 2729 cum extractable mineable volume may be allowed but for the subsequent years extractable volume should be estimated after replenishment studies and extraction permission may be given accordingly.

10.	SIA/OR/MIN/3023 32/2023	Proposal of amendment Environmental Clearance for Kumbharapada Sand Quarry over an area of 12.05 Acres or 4.876 Ha. at Mouza- Kumbharapada, Tahasil- Khandapada, Dist.- Nayagarh of Sri Pramod Kumar Bhola - Mod EC	<ol style="list-style-type: none"> 1. Modification of EC as per the Replenishment Study Report 2. EC was granted vide letter no. EC21B001OR146295 dated 11.03.2022. 3. Approved Mining Plan capacity is 2817(max) cum/year. 4. SEIAA has permitted for 2400 cum/year for 1st year for sand extraction, followed by submission of Replenishment Study Report. 5. Both Pre monsoon (20.05 2022) and Post Monsoon (25.11.2022) has been carried out by Drone Survey method. 6. Annual replenishment of sand calculated to be 17672cum. 7. The PP has proposed for same 2721 cum/year as per approved mining plan for 2nd year in application form. 	<p>After detailed discussion the SEAC opined the Replenished amount is 17672 m³. Approved as per mining Plan is 2721 m³. At least 60% of the replenished amount (10603.2 m³) should be permitted to be extracted. PP may be asked to apply for modification of mining plan.</p>

11.	SIA/OR/MIN/3024 63/2023	Proposal of amendment Environmental Clearance for K.Nuagam Sand Quarry over an area of 12.355 acres or 5.00 Ha. at Mouza- K.Nuagam, Tahasil- Chikiti, Dist.- Ganjam of Sri Krupasindhu Muduli - Mod EC	<ol style="list-style-type: none"> 1. Modification of EC as per the Replenishment Study Report 2. EC was granted vide letter no. 1972 dated 05.08.2021. 3. Approved Mining Plan capacity is 15050 cum/year. 4. SEIAA has permitted for 10000 cum/year for 1st year for sand extraction, followed by submission of Replenishment Study Report. 5. Both Pre monsoon (20.05 2022) and Post Monsoon (25.11.2022) has been carried out by Drone Survey method. 6. Annual replenishment of sand calculated to be 5731.2cum. 7. The PP has proposed for same 3438.72 cum/year for 2nd year in application form.. 	In the replenishment study report 5731.2cum of sand is available for mining during the study period. The proposal of PP for allowing a least 70% of replenished quantity of sand available for mining i.e., 3438.72 cum is recommended for approval.
12.	SIA/OR/MIN/2984 99/2023	Proposal of amendment Environmental Clearance for Mahadia Brahmani Sand Quarry over an area of 11.80 Acre or 4.775 Ha under Odapada Tahasil of Dhenkanal District of Sri Ratikanta Rout - Mod EC	<ol style="list-style-type: none"> 1. Modification of EC as per the Replenishment Study Report 2. EC was granted vide letter no. 1135 dated 30.03.2021. 3. Approved Mining Plan capacity is 10000(max) cum/year. 4. SEIAA has permitted for 10000 cum/year for 1st year for sand extraction, followed by submission of Replenishment Study Report. 5. Only Post Monsoon has been carried out by Drone survey method. And Pre Monsoon data taken from Approved Mining Plan. 6. Available mineable sand after post monsoon is 30023cum and rate of replenishment is 165.98%. 7. The PP has proposed for same 10000 cum/year for 2nd year in application form. 	After detailed discussion, the SEAC opined that the Replenishment study report is not proper. Rate of replenishment has been calculated with ratio of post monsoon study quantity and Approved Mining Plan Quantity. There is no data of Post monsoon Study. Pre monsoon study has not been done. Hence, this proposal is not recommended and replenishment study needs to be properly done for consideration of SEAC.

1.	SIA/OR /MIN/2 98977/ 2023	Sri Pravat Ray (Lessee) M/s. Brahamani River Sand, Upper Kaipada Village-Upper Kaipada, P.o -Kaipada, P.s - Bari Ramachandrapur, Dist-Jajpur	Jajpur	Sand	Proposal for amendment Environmental Clearance for Brahamani River Sand, Upper Kaipada over an area of 10.45 Acres or 4.229 Ha at village-Upper Kaipada under Bari Tahasil of Jajpur district of Sri Pravat Ray - Mod EC	06.05.2023	i) Modification of EC as per the Replenishment Study Report ii) EC was granted vide letter no. EC22B001OR133 931 dated 25.01.2022. iii) Approved Mining Plan capacity is 6000 cum/year for 2m depth. iv) SEIAA has permitted for 6000 cum/year in 1 st year for sand extraction, followed by submission of Replenishment Study Report by November 2022. v) Pre monsoon and	The Tahasildar, Bari has clarified vide letter no. 2224 dated 23.06.2023 that : (i) During Replenishment Studies (both Pre - monsoon & Post Monsoon) with the help of technical team, Geologist, Jajpur and Revenue staff, it was found that most of the portion lease area was covered with water body of Brahmami River. During Pre - Monsoon period, Mineable Sand Deposit area was around 8162.4m ² . The average	After detailed discussion, the SEAC opined that PP has explained that the surface area was reduced due to flow of water over lease area. So the entire area was not taken into consideration while in post monsoon survey. Hence, correct procedure has not been followed for replenishment study. For the reason, the volume of sand in post monsoon appears to be less than the volume in pre-monsoon survey. Hence, this proposal is not recommended and replenishment study needs to be properly

							volume is more than the post monsoon volume of sand. This may be clarified.	Studies. Volume measured for mineable sand (Post – monsoon) is $5330m^2 \times 1m = 5330m^3$. Proposed mined out sand will be limited to $5330m^3 \times 60\% = 3198m^3$.
