

 **MINUTES of 237th MEETING OF STATE LEVEL ENVIRONMENT
IMPACT ASSESSMENT AUTHORITY (SEIAA) A.P., MEETING HELD
ON 23.01.2024 & 24.01.2024 AT VIJAYAWADA A.P.**

237th SEIAA

23.01.20 & 24.01.2024

सत्यमेव जयते

सत्यमेव जयते

**MINUTES OF THE 237th MEETING OF STATE LEVEL ENVIRONMENT
IMPACT
ASSESSMENT AUTHORITY (SEIAA) A.P., MEETING HELD ON
23.01.2024 & 24.01.2024 AT VIJAYAWADA A.P.**

Present:

The following members were present. (Through Video Conference)

1.	Sri P.Venkata Rami Reddy, I.A.S, (Retired).	Chairman
2.	Dr.Thatiparthi Byragi Reddy Professor. Department of Environmental Sciences, Andhra University, Visakhapatnam	Member
3.	S.Sri.Saravanan, I.F.S Special Secretary to Govt., Environment, Forests, Sciences and Technology Department, Govt. of Andhra Pradesh & Member Secretary, SEIAA, A.P.	Member Secretary

04/02/2024

238.01 237.01	4.930 Ha Ordinary Sand Mine proposed in the name of Smt. Nagini Vasikarla District Mines and Geology Officer, Narasaraopet, A.P., Didugu-1 Sand Reach, Didugu Village, Amaravathi Mandal, Palnadu District Andhra Pradesh. SIA/AP/MIN/451988/2023
	<p>Recommendations of the SEAC on 11.01.2024</p> <p>Category : B2.</p> <p>The project proposal is for mining Ordinary Sand in an area of 4.930 Ha with a proposed production quantity of Ordinary Sand Mine – 49,300 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).</p> <p>Sri. Mohan Rao Dy. Director, Smt. Nagini Vasikarla, Divisional Mines and Geology officer O/o Department of Mines and Geology & and their consultant M/s. Space Enviro labs have attended the meeting and presented their proposal. The SEAC Committee noted that:</p> <ol style="list-style-type: none"> The Department of Mines and Geology submitted DSR of Palnadu District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at S. No. 10 of Page No.160 of DSR Report). The DSR 2023 is under process at SEIAA for approval. The Department of Mines and Geology vide order dt. 01.11.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE. The project proponent submitted Joint inspection report on feasibility of sand reach dated 01.06.2023 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department. As per the cluster letter dated: 09.11.2023 issued by the District Mines & Geology officer Narasaraopet, Palnadu District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha. As per the approved mining plan dt. 07.11.2023, the total provided mineral reserves are 49,300 m³ (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020. The project proponent informed that they have allocated Rs. 2.10

Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the **Didugu** Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for the mining of **Ordinary Sand** with the production quantity of **49,300 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Honb'le NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
10. The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.
11. No sand mining shall be done during the rainy season.
12. The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the lease holder to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
15. The committee suggested the lease holder to the transportation route

	<p>should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.</p> <p>16.The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.</p> <p>17.The lease holder shall keep GPS tracking to the vehicle from source to destination.</p> <p>18.The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.</p> <p>19.The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.</p> <p>20.The lease holder shall carry out bank stabilization works.</p> <p>21.The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank.</p> <p>22.The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.</p> <p>Decision of SEIAA:- Agreed with the recommendations of SEAC to issue Environmental Clearance.</p>
<p>238.02 237.02</p>	<p>4.860 Ha Ordinary Sand Mine proposed in the name of Smt. Nagini Vasikarla District Mines and Geology Officer, Narasaraopet, A.P., Pondugula-2 Sand Reach, Sy No.02 Pondugula Village, Amaravathi Mandal, Palnadu District Andhra Pradesh SIA/AP/MIN/452007/2023</p>
	<p>Recommendations of the SEAC on 11.01.2024.</p> <p>Category : B2</p> <p>The project proposal is for mining Ordinary Sand in an area of 4.860 Ha with a proposed production quantity of Ordinary Sand Mine – 48,600 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤250 ha of mining lease area in respect of non-coal mine lease).</p> <p>Sri. Mohan Rao Dy. Director, Smt. Nagini Vasikarla, Divisional Mines and Geology officer O/o Department of Mines and Geology & and their consultant M/s. Space Enviro labs have attended the meeting and presented their proposal. The SEAC Committee noted that:</p> <p>a. The Department of Mines and Geology submitted DSR of Palnadu District. The same is reviewed in the SEAC meeting and observed that</p>

the subject mine mineral content is available at S. No. 11 of Page No.160 of DSR Report). The DSR 2023 is under process at SEIAA for approval.

- b. The Department of Mines and Geology vide order dt. 01.11.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE.
- c. The project proponent submitted Joint inspection report on feasibility of sand reach dated 01.06.2023 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department.
- d. As per the cluster letter dated: 09.11.2023 issued by the District Mines & Geology officer Narasaraopet, Palnadu District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.
- e. As per the approved mining plan dt. 07.11.2023, the total provided mineral reserves are 49,300 m³(As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- f. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- g. The project proponent informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the **Pondugula** Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for mining Ordinary Sand - **48,600 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Honb'le NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement

& Monitoring Guidelines for Sand Mining January, 2020.

6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
10. The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.
11. No sand mining shall be done during the rainy season.
12. The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the lease holder to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
15. The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.
16. The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.
17. The lease holder shall keep GPS tracking to the vehicle from source to destination.
18. The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.
19. The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.
20. The lease holder shall carry out bank stabilization works.
21. The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank.
22. The project proponent shall restrict vehicles movement during the peak hours to avoid accidents

Decision of SEIAA:- Agreed with the recommendations of SEAC to issue

	Environmental Clearance.
238.03 237.03	4.830 Ha Ordinary Sand Mine proposed in the name of Smt. Nagini Vasikarla District Mines and Geology Officer, Narasaraopet, A.P., Pondugula-1 Sand Reach, Sy No.02 Pondugula Village, Amaravathi Mandal, Palnadu District Andhra Pradesh. SIA/AP/MIN/452007/2023

Space Enviro labs have attended the meeting and presented their proposal. The SEAC Committee noted that:</p> <ol style="list-style-type: none"> The Department of Mines and Geology submitted DSR of Palnadu District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at S. No. 14 of Page No.160 of DSR Report). The DSR 2023 is under process at SEIAA for approval. The Department of Mines and Geology vide order dt. 01.11.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE. The project proponent submitted Joint inspection report on feasibility of sand reach dated 31.05.2023 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department. As per the cluster letter dated: 09.11.2023 issued by the District Mines & Geology officer Narasaraopet, Palnadu District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha. As per the approved mining plan dt. 07.11.2023, the total provided mineral reserves are 48,300 m³ (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020. The project proponent informed that they have allocated Rs. 2.10

Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the **Ambadipudi-3** Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for mining Ordinary Sand - **48,300 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Hon'ble NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
10. The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.
11. No sand mining shall be done during the rainy season.
12. The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the lease holder to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
15. The committee suggested the lease holder to the transportation route

	<p>should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.</p> <p>16.The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.</p> <p>17.The lease holder shall keep GPS tracking to the vehicle from source to destination.</p> <p>18.The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.</p> <p>19.The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.</p> <p>20.The lease holder shall carry out bank stabilization works.</p> <p>21.The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank.</p> <p>22.The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.</p> <p>Decision of SEIAA:- Agreed with the recommendations of SEAC to issue Environmental Clearance.</p>
238.06 237.06	4.830 Ha Ordinary Sand Mine proposed in the name of Smt. Nagini Vasikarla District Mines and Geology Officer, Narasaraopet, A.P., Ambadipudi-2 Sand Reach, Sy No.1 Ambadipudi Village, Atchampeta Mandal, Palnadu District Andhra Pradesh. SIA/AP/MIN/451975/2023
	<p>Recommendations of the SEAC on 11.01.2024.</p> <p>Category : B2</p> <p>The project proposal is for mining Ordinary Sand in an area of 4.830 Ha with a proposed production quantity of Ordinary Sand Mine – 48,300 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).</p> <p>Sri. Mohan Rao Dy. Director, Smt. Nagini Vasikarla, Divisional Mines and Geology officer O/o Department of Mines and Geology & and their consultant M/s. Space Enviro labs have attended the meeting and presented their proposal. The SEAC Committee noted that:</p> <p>a. The Department of Mines and Geology submitted DSR of Palnadu District. The same is reviewed in the SEAC meeting and observed that</p>

the subject mine mineral content is available at S. No. 15 of Page No.160 of DSR Report). The DSR 2023 is under process at SEIAA for approval.

- b. The Department of Mines and Geology vide order dt. 01.11.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE.
- c. The project proponent submitted Joint inspection report on feasibility of sand reach dated 31.05.2023 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department.
- d. As per the cluster letter dated: 09.11.2023 issued by the District Mines & Geology officer Narasaraopet, Palnadu District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.
- e. As per the approved mining plan dt. 07.11.2023, the total provided mineral reserves are **48,300 m³** (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- f. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- g. The project proponent informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the **Ambadipudi-2** Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for mining Ordinary Sand - **48,300 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Honb'le NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement

& Monitoring Guidelines for Sand Mining January, 2020.

6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
10. The committee directed the lease holder to shall not carry out river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.
11. No sand mining shall be done during the rainy season.
12. The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the lease holder to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
15. The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.
16. The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.
17. The lease holder shall keep GPS tracking to the vehicle from source to destination.
18. The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.
19. The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.
20. The lease holder shall carry out bank stabilization works.
21. The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank.
22. The project proponent shall restrict vehicles movement during the peak hours to avoid accidents

Decision of SEIAA:- Agreed with the recommendations of SEAC to issue

	Environmental Clearance.
238.07 237.07	4.840 Ha Ordinary Sand Mine proposed in the name of Smt. Nagini Vasikarla District Mines and Geology Officer, Narasaraopet, A.P., Ambadipudi-1 Sand Reach, Sy No.1 Ambadipudi Village, Atchampeta Mandal, Palnadu District Andhra Pradesh. SIA/AP/MIN/451964/2023

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for mining Ordinary Sand - **48,400 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Honb'le NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.

5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
10. The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.
11. No sand mining shall be done during the rainy season.
12. The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the lease holder to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
15. The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.
16. The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.
17. The lease holder shall keep GPS tracking to the vehicle from source to destination.
18. The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.
19. The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.
20. The lease holder shall carry out bank stabilization works.
21. The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank.
22. The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.

	Decision of SEIAA:- Agreed with the recommendations of SEAC to issue Environmental Clearance.
238.11 237.11	4.80 Ha Ordinary Sand Mine proposed in the name of Sri. Gangadhara Jangamu District Mines and Geology Officer, A.P., Bommuvanipalem-15 Sand Reach, Sy No 128 Bommuvanipalem Village, Kollipara Mandal, Guntur District Andhra Pradesh. SIA/AP/MIN/451994/2023
	<p>Recommendations of the SEAC on 11.01.2024.</p> <p>Category : B2</p> <p>The project proposal is for mining Ordinary Sand in an area of 4.80 Ha with a proposed production quantity of Ordinary Sand Mine – 48,000 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).</p> <p>Sri. Mohan Rao Dy. Director, Smt. Nagini Vasikarla, Divisional Mines and Geology officer O/o Department of Mines and Geology & and their consultant M/s. Space Enviro labs have attended the meeting and presented their proposal. The SEAC Committee noted that:</p> <ol style="list-style-type: none"> The Department of Mines and Geology submitted DSR of Guntur District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at S. No. 03 of Page No.100 of DSR Report). The DSR 2023 is under process at SEIAA for approval. The Department of Mines and Geology vide order dt. 01.11.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE. The project proponent submitted Joint inspection report on feasibility of sand reach dated 05.01.2022 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department. As per the cluster letter dated: 09.11.2023 issued by the District Mines & Geology officer (FAC), Guntur District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha. As per the approved mining plan dt. 08.11.2023, the total provided mineral reserves are 48,000 m³ (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.

- g. The project proponent informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the **Bommuvanipalem** Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for mining Ordinary Sand - **48,000 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Hon'ble NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
10. The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.
11. No sand mining shall be done during the rainy season.
12. The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the lease holder to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.

	<p>15.The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.</p> <p>16.The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.</p> <p>17.The lease holder shall keep GPS tracking to the vehicle from source to destination.</p> <p>18.The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.</p> <p>19.The lease holder shall remove the sheds constructed at the quarry site. <p>238.13 237.13</p>	<p>4.900 Ha Ordinary Sand Mine proposed in the name of Sri. VEERASWAMY KANCHARLA District Mines and Geology Officer, A.P., Northvalluru-2, Sand Reach, Northvallu Village, Thotlavalluru Mandal, Krishna District Andhra Pradesh. SIA/AP/MIN/452069/2023</p>
	<p>Recommendations of the SEAC on 11.01.2024</p> <p>Category : B2</p> <p>The project proposal is for mining Ordinary Sand in an area of 4.900 Ha with a proposed production quantity of Ordinary Sand Mine – 49,000 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤250 ha of</p>

mining lease area in respect of non-coal mine lease).

Sri. K. VEERASWAMY (Geologist) of District of Mines and Geology & Dy. Director Sri. Mohan Rao and their consultant M/s. Space Enviro Solutions have attended the meeting and presented their proposal. The SEAC Committee noted that:

- a. The Department of Mines and Geology submitted DSR of **Krishna** District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at S. No. 01 of Page No.98 of DSR Report). The DSR 2023 is under process at SEIAA for approval.
- b. The project proponent submitted Joint inspection report on feasibility of sand reach dated 19.12.2022 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department.
- c. The Department of Mines and Geology vide order dt. 07.11.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE.
- d. As per the cluster letter dated: 09.11.2023 issued by the District Mines & Geology officer (FAC), Krishna District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.
- e. As per the approved mining plan dt. 07.11.2023, the total provided mineral reserves are **49,000 m³** (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- f. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- g. The project proponent informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the **Northvalluru** Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for mining Ordinary Sand - **49,000 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.

3. The directions issued by the Honb'le NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
- 10.The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.
- 11.No sand mining shall be done during the rainy season.
- 12.The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
- 13.The committee directed the lease holder to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
- 14.The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
- 15.The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.
- 16.The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.
- 17.The lease holder shall keep GPS tracking to the vehicle from source to destination.
- 18.The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.
- 19.The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no

	<p>obstruction for the normal flow in the river.</p> <p>20.The lease holder shall carry out bank stabilization works.</p> <p>21.The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank.</p> <p>22.The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.</p> <p>Decision of SEIAA:- Agreed with the recommendations of SEAC to issue Environmental Clearance.</p>
238.14 237.14	<p>4.450 Ha Ordinary Sand Mine proposed in the name of Sri. VEERASWAMY KANCHARLA District Mines and Geology Officer, A.P., Northvalluru-3, Sand Reach, Sy NO 445 Northvallu Village, Thotlavalluru Mandal, Krishna District Andhra Pradesh SIA/AP/MIN/452077/2023</p>

<p>238.15 237.15</p>	<p>4.840 Ha Ordinary Sand Mine proposed in the name of Sri. VEERASWAMY KANCHARLA District Mines and Geology Officer, A.P., Northvalluru-6, Sand Reach, Sy No 445 Northvalluru Village, Thotlavalluru Mandal, Krishna District, Andhra Pradesh. SIA/AP/MIN/452080/2023</p>
	<p>Recommendations of the SEAC on 11.01.2024.</p> <p>Category : B2</p> <p>The project proposal is for mining Ordinary Sand in an area of 4.84 Ha with a proposed production quantity of Ordinary Sand Mine – 48,400 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤250 ha of</p>

mining lease area in respect of non-coal mine lease).

Sri. K. VEERASWAMY (Geologist) of District of Mines and Geology & Dy. Director Sri. Mohan Rao and their consultant M/s. Space Enviro Solutions have attended the meeting and presented their proposal. The SEAC Committee noted that:

- a. The Department of Mines and Geology submitted DSR of **Krishna** District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at Page No.98 of DSR Report). The DSR 2023 is under process at SEIAA for approval.
- b. The project proponent submitted Joint inspection report on feasibility of sand reach dated 19.12.2022 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department.
- c. The Department of Mines and Geology vide order dt. 07.11.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE.
- d. As per the cluster letter dated: 09.11.2023 issued by the District Mines & Geology officer (FAC), Krishna District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.
- e. As per the approved mining plan dt. 07.11.2023, the total provided mineral reserves are **48,400 m³** (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- f. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- g. The project proponent informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the **North valluru** Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for mining Ordinary Sand - **48,400 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Honb'le NGT, Southern Zone, Chennai in

the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.

4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
10. The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.
11. No sand mining shall be done during the rainy season.
12. The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the lease holder to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
15. The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.
16. The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.
17. The lease holder shall keep GPS tracking to the vehicle from source to destination.
18. The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.
19. The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.

	<p>20.The lease holder shall carry out bank stabilization works.</p> <p>21.The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank.</p> <p>22.The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.</p> <p>Decision of SEIAA:- Agreed with the recommendations of SEAC to issue Environmental Clearance.</p>
238.16 237.16	<p>4.900 Ha Ordinary Sand Mine proposed in the name of Sri. VEERASWAMY KANCHARLA District Mines and Geology Officer, A.P., Royyuru-1 Sand Reach, Sy No 270 Royyuru Village, Thotlavalluru Mandal, Krishna District Andhra Pradesh. SIA/AP/MIN/452083/2023</p>
	<p>Recommendations of the SEAC on 11.01.2024.</p> <p>Category : B2</p> <p>The project proposal is for mining Ordinary Sand in an area of 4.900 Ha with a proposed production quantity of Ordinary Sand Mine – 49,000 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).</p> <p>Sri. K. VEERASWAMY (Geologist) of District of Mines and Geology & Dy. Director Sri. Mohan Rao and their consultant M/s. Space Enviro Solutions have attended the meeting and presented their proposal. The SEAC Committee noted that:</p> <ol style="list-style-type: none"> The Department of Mines and Geology submitted DSR of Krishna District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at Page No.98 of DSR Report). The DSR 2023 is under process at SEIAA for approval. The project proponent submitted Joint inspection report on feasibility of sand reach dated 19.12.2022 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department. The Department of Mines and Geology vide order dt. 07.11.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE. As per the cluster letter dated: 09.11.2023 issued by the District Mines & Geology officer (FAC), Krishna District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha. As per the approved mining plan dt. 07.11.2023, the total provided mineral reserves are 49,000 m³ (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be

excavated within the period of 1 year.

- f. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- g. The project proponent informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the **Royyuru** Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for mining Ordinary Sand - **49,000 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Honb'le NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
- 10.The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.
- 11.No sand mining shall be done during the rainy season.
- 12.The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
- 13.The committee directed the lease holder to functioning time of

	<p>quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.</p> <p>14.The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.</p> <p>15.The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.</p> <p>16.The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.</p> <p>17.The lease holder shall keep GPS tracking to the vehicle from source to destination.</p> <p>18.The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.</p> <p>19.The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.</p> <p>20.The lease holder shall carry out bank stabilization works.</p> <p>21.The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank.</p> <p>22.The project proponent shall restrict vehicles movement during the peak hours to avoid accidents</p> <p>Decision of SEIAA:- Agreed with the recommendations of SEAC to issue Environmental Clearance.</p>
<p>238.17 237.17</p>	<p>4.50 Ha Ordinary Sand Mine proposed in the name of Sri. VEERASWAMY KANCHARLA District Mines and Geology Officer, A.P., Royyuru-5 Sand Reach, Sy No 270 Royyuru Village, Thotlavalluru Mandal, Krishna District, Andhra Pradesh. SIA/AP/MIN/452088/2023</p>
	<p>Recommendations of the SEAC on 11.01.2024.</p> <p>Category : B2</p> <p>The project proposal is for mining Ordinary Sand in an area of 4.50 Ha with a proposed production quantity of Ordinary Sand Mine – 45,000 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).</p>

Sri. K. VEERASWAMY (Geologist) of District of Mines and Geology & Dy. Director Sri. Mohan Rao and their consultant M/s. Space Enviro Solutions have attended the meeting and presented their proposal. The SEAC Committee noted that:

- a. The Department of Mines and Geology submitted DSR of **Krishna** District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at Page No.98 of DSR Report). The DSR 2023 is under process at SEIAA for approval.
- b. The project proponent submitted Joint inspection report on feasibility of sand reach dated 19.12.2022 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department
- c. The Department of Mines and Geology vide order dt. 07.11.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE.
- d. As per the cluster letter dated: 09.11.2023 issued by the District Mines & Geology officer (FAC), Krishna District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.
- e. As per the approved mining plan dt. 07.11.2023, the total provided mineral reserves are 45,000 m³ (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- f. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- g. The project proponent informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the **Royyuru** Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for mining Ordinary Sand - **45,000 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Hon'ble NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.

4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
10. The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.
11. No sand mining shall be done during the rainy season.
12. The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the lease holder to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
15. The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.
16. The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.
17. The lease holder shall keep GPS tracking to the vehicle from source to destination.
18. The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.
19. The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.
20. The lease holder shall carry out bank stabilization works.
21. The lease holder shall plant the plants all along the river

	<p>bank/embankment to control the erosion of river bank.</p> <p>22.The project proponent shall restrict vehicles movement during the peak hours to avoid accidents</p> <p>Decision of SEIAA:- Agreed with the recommendations of SEAC to issue Environmental Clearance.</p>

The SEAC</p>

Committee noted that:

- a. The Department of Mines and Geology submitted DSR of **Krishna** District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at Page No.98 of DSR Report). The DSR 2023 is under process at SEIAA for approval.
- b. The project proponent submitted Joint inspection report on feasibility of sand reach dated 19.12.2022 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department.
- c. The Department of Mines and Geology vide order dt. 07.11.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE.
- d. As per the cluster letter dated: 09.11.2023 issued by the District Mines & Geology officer (FAC), **Krishna** District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.
- e. As per the approved mining plan dt. 07.11.2023, the total provided mineral reserves are **49,000 m³** (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- f. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- g. The project proponent informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the **Srikakulam** Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for mining Ordinary Sand - **49,000 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Honb'le NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining

- more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
 6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
 7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
 8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
 9. Under any circumstance under water sand mining shall not be carried out.
 10. The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.
 11. No sand mining shall be done during the rainy season.
 12. The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
 13. The committee directed the lease holder to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
 14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
 15. The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.
 16. The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.
 17. The lease holder shall keep GPS tracking to the vehicle from source to destination.
 18. The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.
 19. The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.
 20. The lease holder shall carry out bank stabilization works.
 21. The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank.
 22. The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.

	<p>Decision of SEIAA:- Agreed with the recommendations of SEAC to issue Environmental Clearance.</p>
238.20 237.20	<p>4.900 Ha Ordinary Sand Mine proposed in the name of Sri. VEERASWAMY KANCHARLA District Mines and Geology Officer, A.P., Srikakulam-5 Sand Reach, Sy No 176 Srikakulam Village, Ghantasala Mandal, Krishna District Andhra Pradesh. SIA/AP/MIN/452108/2023</p>

The SEAC Committee noted that:</p> <ol style="list-style-type: none"> The Department of Mines and Geology submitted DSR of Krishna District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at Page No.98 of DSR Report). The DSR 2023 is under process at SEIAA for approval. The project proponent submitted Joint inspection report on feasibility of sand reach dated 19.12.2022 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department The Department of Mines and Geology vide order dt. 07.11.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE. As per the cluster letter dated: 09.11.2023 issued by the District Mines & Geology officer (FAC), Krishna District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha. As per the approved mining plan dt. 07.11.2023, the total provided mineral reserves are 49,000 m³ (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly

following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.

- g. The project proponent informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the **Srikakulam** Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for mining Ordinary Sand - **49,000 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Honb'le NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
10. The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.
11. No sand mining shall be done during the rainy season.
12. The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the lease holder to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.

	<p>14.The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.</p> <p>15.The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.</p> <p>16.The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.</p> <p>17.The lease holder shall keep GPS tracking to the vehicle from source to destination.</p> <p>18.The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.</p> <p>19.The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.</p> <p>20.The lease holder shall carry out bank stabilization works.</p> <p>21.The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank.</p> <p>22.The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.</p> <p>Decision of SEIAA:- Agreed with the recommendations of SEAC to issue Environmental Clearance.</p>
<p>238.21 237.21</p>	<p>2.60 Ha Ordinary Sand Mine proposed in the name of Sri. VEERASWAMY KANCHARLA District Mines and Geology Officer, A.P., Madduru-2 Sand Reach, Sy No 233/1Madduru Village, Kankipadu Mandal, Krishna District Andhra Pradesh. SIA/AP/MIN/452113/2023</p>
	<p>Recommendations of the SEAC on 11.01.2024.</p> <p>Category : B2</p> <p>The project proposal is for mining Ordinary Sand in an area of 2.60 Ha with a proposed production quantity of Ordinary Sand Mine – 26,000 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤250 ha of mining lease area in respect of non-coal mine lease).</p> <p>Sri. K. VEERASWAMY (Geologist) of District of Mines and Geology & Dy. Director Sri. Mohan Rao and their consultant M/s. Space Enviro Solutions</p>

have attended the meeting and presented their proposal. The SEAC Committee noted that:

- a. The Department of Mines and Geology submitted DSR of **Krishna** District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at Page No.98 of DSR Report). The DSR 2023 is under process at SEIAA for approval.
- b. The project proponent submitted Joint inspection report on feasibility of sand reach dated 12.01.2023 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department.
- c. The Department of Mines and Geology vide order dt. 07.11.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE.
- d. As per the cluster letter dated: 09.11.2023 issued by the District Mines & Geology officer (FAC), **Krishna** District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.
- e. As per the approved mining plan dt. 07.11.2023, the total provided mineral reserves are **26,000 m³** (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- f. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- g. The project proponent informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the **Madduru** Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for mining Ordinary Sand - **26,000 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Honb'le NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.

4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
10. The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.
11. No sand mining shall be done during the rainy season.
12. The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the lease holder to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
15. The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.
16. The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.
17. The lease holder shall keep GPS tracking to the vehicle from source to destination.
18. The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.
19. The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that

	<p>there is no obstruction for the normal flow in the river. 20.The lease holder shall carry out bank stabilization works. 21.The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank. 22.The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.</p> <p>Decision of SEIAA:- Agreed with the recommendations of SEAC to issue Environmental Clearance.</p>
<p>238.22 237.22</p>	<p>4.95 Ha Ordinary Sand Mine proposed in the name of Sri. VEERASWAMY KANCHARLA District Mines and Geology Officer, A.P., Madduru-3 Sand Reach, Sy No 233/1 Madduru Village, Kankipadu Mandal, Krishna District Andhra Pradesh. SIA/AP/MIN/452124/2023</p>
	<p>Recommendations of the SEAC on 11.01.2024.</p> <p>Category : B2</p> <p>The project proposal is for mining Ordinary Sand in an area of 4.95 Ha with a proposed production quantity of Ordinary Sand Mine – 49,500 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).</p> <p>Sri. Under any circumstance under water sand mining shall not be carried out.</p> <p>10.The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.</p> <p>11.No sand mining shall be done during the rainy season.</p> <p>12.The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.</p> <p>13.The committee directed the lease holder to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.</p> <p>14.The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.</p> <p>15.The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.</p> <p>16.The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.</p> <p>17.The lease holder shall keep GPS tracking to the vehicle from source to destination.</p> <p>18.The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.</p> <p>19.The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.</p> <p>20.The lease holder shall carry out bank stabilization works.</p> <p>21.The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank.</p> <p>22.The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.</p> <p>Decision of SEIAA:- Agreed with the recommendations of SEAC to issue Environmental Clearance.</p>
238.28	4.890 Ha Ordinary Sand Mine proposed in the name of Sri. VEERASWAMY
237.28	KANCHARLA District Mines and Geology Officer, A.P., Pendyala 2 Sand

	Reach, Pendyala Village, Kanchikacherla Mandal, NTR District Andhra Pradesh. SIA/AP/MIN/452072/2023
	<p>Recommendations of the SEAC on 11.01.2024.</p> <p>Category : B2</p> <p>The project proposal is for mining Ordinary Sand in an area of 4.890 Ha with a proposed production quantity of Ordinary Sand Mine – 48,900 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).</p> <p>Sri. K. VEERASWAMY (Geologist) of District of Mines and Geology & Dy. Director Sri. Mohan Rao and their consultant M/s. Space Enviro Solutions have attended the meeting and presented their proposal. The SEAC Committee noted that:</p> <ol style="list-style-type: none"> The Department of Mines and Geology submitted DSR of NTR District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at Page No.128 of DSR Report). The DSR 2023 is under process at SEIAA for approval. The project proponent submitted Joint inspection report on feasibility of sand reach dated 16.11.2022 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department. The Department of Mines and Geology vide order dt. 06.11.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE. As per the cluster letter dated: 09.11.2023 issued by the District Mines & Geology officer (FAC), NTR District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha. As per the approved mining plan dt. 07.11.2023, the total provided mineral reserves are 48900 m³ (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020. The project proponent informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the Pendyala Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for mining Ordinary Sand - **48,900 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Honb'le NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
10. The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.
11. No sand mining shall be done during the rainy season.
12. The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the lease holder to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
15. The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.
16. The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district

	<p>mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.</p> <p>17.The lease holder shall keep GPS tracking to the vehicle from source to destination.</p> <p>18.The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.</p> <p>19.The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.</p> <p>20.The lease holder shall carry out bank stabilization works.</p> <p>21.The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank.</p> <p>22.The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.</p> <p>Decision of SEIAA:- Agreed with the recommendations of SEAC to issue Environmental Clearance .</p>
<p>238.29 237.29</p>	<p>4.970 Ha Ordinary Sand Mine proposed in the name of Sri. VEERASWAMY KANCHARLA District Mines and Geology Officer, A.P., Vemulapalli 1 Sand Reach, Vemulapalli Village, Kanchikacherla Mandal, NTR District Andhra Pradesh. SIA/AP/MIN/452078/2023</p>
	<p>Recommendations of the SEAC on 11.01.2024.</p> <p>Category : B2</p> <p>The project proposal is for mining Ordinary Sand in an area of 4.970 Ha with a proposed production quantity of Ordinary Sand Mine – 49,700 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤250 ha of mining lease area in respect of non-coal mine lease).</p> <p>Sri. K. VEERASWAMY (Geologist) of District of Mines and Geology & Dy. Director Sri. Mohan Rao and their consultant M/s. Space Enviro Solutions have attended the meeting and presented their proposal. The SEAC Committee noted that:</p> <ol style="list-style-type: none"> a. The Department of Mines and Geology submitted DSR of NTR District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at Page No.128 of DSR Report). The DSR 2023 is under process at SEIAA for approval. b. The project proponent submitted Joint inspection report on feasibility of sand reach dated 16.11.2022 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department.

<p>238.30 237.30</p>	<p>4.950 Ha Ordinary Sand Mine proposed in the name of Sri. VEERASWAMY KANCHARLA District Mines and Geology Officer, A.P., Vemulapalli 2 Sand Reach Vemulapalli Village, Kanchikacherla Mandal, NTR District Andhra Pradesh. SIA/AP/MIN/452081/2023</p>
	<p>Recommendations of the SEAC on 11.01.2024. Category : B2.</p>

The project proposal is for mining Ordinary Sand in an area of **4.950 Ha** with a proposed production quantity of **Ordinary Sand Mine – 49,500 m³/annum** with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).

Sri. K. VEERASWAMY (Geologist) of District of Mines and Geology & Dy. Director Sri. Mohan Rao and their consultant M/s. Space Enviro Solutions have attended the meeting and presented their proposal. The SEAC Committee noted that:

- a. The Department of Mines and Geology submitted DSR of **NTR** District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at Page No.128 of DSR Report). The DSR 2023 is under process at SEIAA for approval.
- b. The project proponent submitted Joint inspection report on feasibility of sand reach dated 16.11.2022 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department.
- c. The Department of Mines and Geology vide order dt. 29.12.2022 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE.
- d. As per the cluster letter dated: 09.11.2023 issued by the District Mines & Geology officer (FAC), NTR District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.
- e. As per the approved mining plan dt. 07.11.2023, the total provided mineral reserves are **49,500 m³** (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- f. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- g. The project proponent informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the **Vemulapalli** Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for mining Ordinary Sand - **49,500**

m³/annum for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Honb'le NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
10. The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.
11. No sand mining shall be done during the rainy season.
12. The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the lease holder to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
15. The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.
16. The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.

	<p>17.The lease holder shall keep GPS tracking to the vehicle from source to destination.</p> <p>18.The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.</p> <p>19.The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.</p> <p>20.The lease holder shall carry out bank stabilization works.</p> <p>21.The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank.</p> <p>22.The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.</p> <p>Decision of SEIAA:- Agreed with the recommendations of SEAC to issue Environmental Clearance .</p>
238.33 237.31	<p>4.880 Ha Ordinary Sand Mine proposed in the name of Sri. VEERASWAMY KANCHARLA District Mines and Geology Officer, A.P., Pokkanuru 1 Sand Reach Pokkanuru Village, Chandarlapadu Mandal, NTR District Andhra Pradesh. SIA/AP/MIN/452100/2023</p>
	<p>Recommendations of the SEAC on 11.01.2024.</p> <p>Category : B2</p> <p>The project proposal is for mining Ordinary Sand in an area of 4.880 Ha with a proposed production quantity of Ordinary Sand Mine – 48,800 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).</p> <p>Sri. K. VEERASWAMY (Geologist) of District of Mines and Geology & Dy. Director Sri. Mohan Rao and their consultant M/s. Space Enviro Solutions have attended the meeting and presented their proposal. The SEAC Committee noted that:</p> <ol style="list-style-type: none"> The Department of Mines and Geology submitted DSR of NTR District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at Page No.129 of DSR Report). The DSR 2023 is under process at SEIAA for approval. The project proponent submitted Joint inspection report on feasibility of sand reach dated 18.11.2022 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department. The Department of Mines and Geology vide order dt. 06.11.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE. As per the cluster letter dated: 09.11.2023 issued by the District

Mines & Geology officer (FAC), NTR District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.

- e. As per the approved mining plan dt. 07.11.2023, the total provided mineral reserves are **48,800 m³** (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- f. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- g. The project proponent informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the **Pokkanuru** Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for mining Ordinary Sand - **48,800 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Honb'le NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
10. The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD

	<p>Nagpur for each state shall be adhered with.</p> <p>11.No sand mining shall be done during the rainy season.</p> <p>12.The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.</p> <p>13.The committee directed the lease holder to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.</p> <p>14.The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.</p> <p>15.The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.</p> <p>16.The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.</p> <p>17.The lease holder shall keep GPS tracking to the vehicle from source to destination.</p> <p>18.The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.</p> <p>19.The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.</p> <p>20.The lease holder shall carry out bank stabilization works.</p> <p>21.The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank.</p> <p>22.The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.</p> <p>Decision of SEIAA:- Agreed with the recommendations of SEAC to issue Environmental Clearance .</p>
<p>238.34 237.32</p>	<p>4.950 Ha Ordinary Sand Mine proposed in the name of Sri. VEERASWAMY KANCHARLA District Mines and Geology Officer, A.P., Pokkanuru 2 Sand Reach) Pokkanuru Village, Chandarlapadu Mandal, NTR District Andhra Pradesh. SIA/AP/MIN/452105/2023</p>
	<p>Recommendations of the SEAC on 11.01.2024.</p> <p>Category : B2</p> <p>The project proposal is for mining Ordinary Sand in an area of 4.950 Ha with a proposed production quantity of Ordinary Sand Mine – 49,500 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p>

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).

Smt. Nagini Vasikarla Department of Mines and Geology & Dy. Director Sri. Mohan Rao and their consultant M/s. Space Enviro labs have attended the meeting and presented their proposal. The SEAC Committee noted that:

- a. The Department of Mines and Geology submitted DSR of **NTR** District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at Page No.129 of DSR Report). The DSR 2023 is under process at SEIAA for approval.
- b. The project proponent submitted Joint inspection report on feasibility of sand reach dated 18.11.2022 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department.
- c. The Department of Mines and Geology vide order dt. 06.11.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE.
- d. As per the cluster letter dated: 09.11.2023 issued by the District Mines & Geology officer (FAC), NTR District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.
- e. As per the approved mining plan dt. 07.11.2023, the total provided mineral reserves are **49,500** m³ (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- f. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- g. While, examining the KML file uploaded in the Parivesh Portal, the committee observed that High tension power line is passing at a distance about 15m to proposed sand mining area and committee noted that sand mining shall not be allowed up to a distance of 1 kilometre (1 km) from major bridges and highways on both sides, or five times (5x) of the span (x) of a bridge/public civil structure (including water intake points) on up-stream side and ten times (10x) the span of such bridge on down-stream side, subjected to a minimum of 250 meters on the upstream side and 500 meters on the downstream side.

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended **to Reject** the proposal as the High tension power line is passing at a distance about 15m to proposed sand mine.

Decision of SEIAA:- Agreed with the recommendations of SEAC to Reject

	the EC application.
238.35 237.33	4.980 Ha Ordinary Sand Mine proposed in the name of Sri. VEERASWAMY KANCHARLA District Mines and Geology Officer, A.P., Pokkanuru 3 Sand Reach, Pokkanuru Village, Chandarlapadu Mandal, NTR District Andhra Pradesh. SIA/AP/MIN/452112/2023
	<p>Recommendations of the SEAC on 11.01.2024.</p> <p>Category : B2</p> <p>The project proposal is for mining Ordinary Sand in an area of 4.980 Ha with a proposed production quantity of Ordinary Sand Mine – 49,800 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).</p> <p>Sri. K. VEERASWAMY (Geologist) of District of Mines and Geology & Dy. Director Sri. Mohan Rao and their consultant M/s. Space Enviro Solutions have attended the meeting and presented their proposal. The SEAC Committee noted that:</p> <ol style="list-style-type: none"> The Department of Mines and Geology submitted DSR of NTR District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at Page No.129 of DSR Report). The DSR 2023 is under process at SEIAA for approval. The project proponent submitted Joint inspection report on feasibility of sand reach dated 18.11.2022 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department. The Department of Mines and Geology vide order dt. 06.11.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE. As per the cluster letter dated: 09.11.2023 issued by the District Mines & Geology officer (FAC), NTR District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha. As per the approved mining plan dt. 07.11.2023, the total provided mineral reserves are 49,800 m³ (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020. The project proponent informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of

the project cost for providing amenities to the local school / PHCs and development of village roads in the **Pokkanuru** Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for mining Ordinary Sand - **49,800 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Hon'ble NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
10. The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.
11. No sand mining shall be done during the rainy season.
12. The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the lease holder to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
15. The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be

	<p>avoided.</p> <p>16.The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.</p> <p>17.The lease holder shall keep GPS tracking to the vehicle from source to destination.</p> <p>18.The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.</p> <p>19.The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.</p> <p>20.The lease holder shall carry out bank stabilization works.</p> <p>21.The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank.</p> <p>22.The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.</p> <p>Decision of SEIAA:- Agreed with the recommendations of SEAC to issue Environmental Clearance.</p>
238.36 237.34	<p>4.980 Ha Ordinary Sand Mine proposed in the name of Sri. VEERASWAMY KANCHARLA District Mines and Geology Officer, A.P., Usthepalli 1 Sand Reach, Usthepalli Village, Chandarlapadu Mandal, NTR District Andhra Pradesh. SIA/AP/MIN/452114/2023</p>
	<p>Recommendations of the SEAC on 11.01.2024.</p> <p>Category : B2</p> <p>The project proposal is for mining Ordinary Sand in an area of 4.980 Ha with a proposed production quantity of Ordinary Sand Mine – 49,800 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).</p> <p>Sri. <p>238.39 237.37</p>	<p>4.520 Ha Ordinary Sand Mine proposed in the name of Sri. VEERASWAMY KANCHARLA District Mines and Geology Officer, A.P., Venganayakunipalem 1 Sand Reach) Venganayakunipalem Village, Penuganchiprolu Mandal, NTR District Andhra Pradesh SIA/AP/MIN/452130/2023</p>
	<p>Recommendations of the SEAC on 11.01.2024. Category : B2</p>

The project proposal is for mining Ordinary Sand in an area of **4.520 Ha** with a proposed production quantity of **Ordinary Sand Mine – 45,200 m³/annum** with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).

Sri. K. VEERASWAMY (Geologist) of District of Mines and Geology & Dy. Director Sri. Mohan Rao and their consultant M/s. Space Enviro Solutions have attended the meeting and presented their proposal. The SEAC Committee noted that:

- a. The Department of Mines and Geology submitted DSR of **NTR** District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at Page No.130 of DSR Report). The DSR 2023 is under process at SEIAA for approval.
- b. The project proponent submitted Joint inspection report on feasibility of sand reach dated 17.11.2022 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department.
- c. The Department of Mines and Geology vide order dt. 06.11.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE.
- d. As per the cluster letter dated: 09.11.2023 issued by the District Mines & Geology officer (FAC), NTR District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.
- e. As per the approved mining plan dt. 07.11.2023, the total provided mineral reserves are **45,200 m³** (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- f. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- g. The project proponent informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the **Venganayakunipalem** Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for mining Ordinary Sand - **45,200**

m³/annum for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Honb'le NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
10. The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.
11. No sand mining shall be done during the rainy season.
12. The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the lease holder to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
15. The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.
16. The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.

	<p>17.The lease holder shall keep GPS tracking to the vehicle from source to destination.</p> <p>18.The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.</p> <p>19.The lease holder shall remove the sheds constructed at the quarry site. 238.40 237.38	<p>4.910 Ha Ordinary Sand Mine proposed in the name of Sri. VEERASWAMY KANCHARLA District Mines and Geology Officer, A.P., Sanagapadu 1 Sand Reach) Sanagapadu Village, Penuganchiprolu Mandal, NTR District Andhra Pradesh. SIA/AP/MIN/452134/2023</p>
	<p>Recommendations of the SEAC on 11.01.2024.</p> <p>Category : B2</p> <p>The project proposal is for mining Ordinary Sand in an area of 4.910 Ha with a proposed production quantity of Ordinary Sand Mine – 49,100 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤250 ha of mining lease area in respect of non-coal mine lease).</p> <p>Sri. K. VEERASWAMY (Geologist) of District of Mines and Geology & Dy. Director Sri. Mohan Rao and their consultant M/s. Space Enviro Solutions have attended the meeting and presented their proposal. The SEAC Committee noted that:</p> <ol style="list-style-type: none"> The Department of Mines and Geology submitted DSR of NTR District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at Page No.130 of DSR Report). The DSR 2023 is under process at SEIAA for approval. The project proponent submitted Joint inspection report on feasibility of sand reach dated 17.11.2022 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department. The Department of Mines and Geology vide order dt. 06.11.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE. As per the cluster letter dated: 09.11.2023 issued by the District

Mines & Geology officer (FAC), NTR District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.

- e. As per the approved mining plan dt. 07.11.2023, the total provided mineral reserves are **49,100 m³** (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- f. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- g. The project proponent informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the **Sanagapadu** Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for mining Ordinary Sand - **49,100 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Honb'le NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
10. The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD

	<p>Nagpur for each state shall be adhered with.</p> <p>11.No sand mining shall be done during the rainy season.</p> <p>12.The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.</p> <p>13.The committee directed the lease holder to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.</p> <p>14.The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.</p> <p>15.The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.</p> <p>16.The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.</p> <p>17.The lease holder shall keep GPS tracking to the vehicle from source to destination.</p> <p>18.The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.</p> <p>19.The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.</p> <p>20.The lease holder shall carry out bank stabilization works.</p> <p>21.The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank.</p> <p>22.The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.</p> <p>Decision of SEIAA:- Agreed with the recommendations of SEAC to issue Environmental Clearance .</p>
<p>238.41 237.39</p>	<p>4.970 Ha Ordinary Sand Mine proposed in the name of Sri. VEERASWAMY KANCHARLA District Mines and Geology Officer, A.P., Penuganchiprolu 2 Sand Reach Anigandlapadu Village, Penuganchiprolu Mandal, NTR District Andhra Pradesh. SIA/AP/MIN/452136/2023</p>
	<p>Recommendations of the SEAC on 11.01.2024.</p> <p>Category : B2</p> <p>The project proposal is for mining Ordinary Sand in an area of 4.970 Ha with a proposed production quantity of Ordinary Sand Mine – 49,700 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p>

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).

Sri. K. VEERASWAMY (Geologist) of District of Mines and Geology & Dy. Director Sri. Mohan Rao and their consultant M/s. Space Enviro Solutions have attended the meeting and presented their proposal. The SEAC Committee noted that:

- a. The Department of Mines and Geology submitted DSR of **NTR** District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at Page No.130 of DSR Report). The DSR 2023 is under process at SEIAA for approval.
- b. The project proponent submitted Joint inspection report on feasibility of sand reach dated 17.11.2022 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department.
- c. The Department of Mines and Geology vide order dt. 06.11.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE.
- d. As per the cluster letter dated: 09.11.2023 issued by the District Mines & Geology officer (FAC), NTR District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.
- e. As per the approved mining plan dt. 07.11.2023, the total provided mineral reserves are **49,700 m³** (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- f. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- g. The project proponent informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the **Penuganchiprolu** Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for mining Ordinary Sand - **49,700 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.

2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Hon'ble NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
10. The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.
11. No sand mining shall be done during the rainy season.
12. The lease holder should demarcate boundary with geo-coordinates or Geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the lease holder to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
15. The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.
16. The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.
17. The lease holder shall keep GPS tracking to the vehicle from source to destination.
18. The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.

	<p>19.The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.</p> <p>20.The lease holder shall carry out bank stabilization works.</p> <p>21.The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank.</p> <p>22.The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.</p> <p>Decision of SEIAA:- Agreed with the recommendations of SEAC to issue Environmental Clearance.</p>
<p>238.42 237.40</p>	<p>4.950 Ha Ordinary Sand Mine proposed in the name of Sri. VEERASWAMY KANCHARLA District Mines and Geology Officer, A.P., Penuganchiprolu 1 Sand Reach) Penuganchiprolu Village, Penuganchiprolu Mandal, NTR District Andhra Pradesh. SIA/AP/MIN/452139/2023</p>
	<p>Recommendations of the SEAC on 11.01.2024.</p> <p>Category : B2</p> <p>The project proposal is for mining Ordinary Sand in an area of 4.950 Ha with a proposed production quantity of Ordinary Sand Mine – 49,500 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤250 ha of mining lease area in respect of non-coal mine lease).</p> <p>Sri. <p>238.43 237.41</p>	<p>4.960 Ha Ordinary Sand Mine proposed in the name of Sri. RAJESH KUMAR RANDHI District Mines and Geology Officer, A.P., Juvvalapalem Sand Reach, Sy No 507 Juvvalapalem Village, Kolluru Mandal, Bapatla District Andhra Pradesh. SIA/AP/MIN/452137/2023</p>
	<p>Recommendations of the SEAC on 11.01.2024.</p> <p>Category : B2</p> <p>The project proposal is for mining Ordinary Sand in an area of 4.960 Ha with a proposed production quantity of Ordinary Sand Mine – 49,600 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤250 ha of</p>

mining lease area in respect of non-coal mine lease).

Sri. RAJESH KUMAR RANDHI Department of Mines and Geology & Dy. Director Sri. Mohan Rao and their consultant M/s. Pollucare Engineers India Pvt Ltd have attended the meeting and presented their proposal. The SEAC Committee noted that:

- a. The Department of Mines and Geology submitted DSR of **Bapatla** District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at Page No.151 of DSR Report). The DSR 2023 is under process at SEIAA for approval.
- b. The project proponent submitted Joint inspection report on feasibility of sand reach dated 12.09.2023 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department.
- c. The Department of Mines and Geology vide order dt. 07.11.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE.
- d. As per the cluster letter dated: 09.11.2023 issued by the District Mines & Geology officer (FAC), **Bapatla** District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha.
- e. As per the approved mining plan dt. 08.11.2023, the total provided mineral reserves are **49,600 m³** (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be excavated within the period of 1 year.
- f. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- g. The project proponent informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the **Juvvalapalem** Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for mining Ordinary Sand - **49,600 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Honb'le NGT, Southern Zone, Chennai in

the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.

4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
10. The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.
11. No sand mining shall be done during the rainy season.
12. The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the lease holder to functioning time of quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.
14. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
15. The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.
16. The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.
17. The lease holder shall keep GPS tracking to the vehicle from source to destination.
18. The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.
19. The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.

	<p>20.The lease holder shall carry out bank stabilization works.</p> <p>21.The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank.</p> <p>22.The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.</p> <p>Decision of SEIAA:- Refer to SEAC to verify the Geo- coordinates.</p>
238.44 237.42	<p>4.950 Ha Ordinary Sand Mine proposed in the name of Sri. RAJESH KUMAR RANDHI District Mines and Geology Officer, A.P., Gajullanka Sand Reach, Sy No 180Gajullanka Village, Kolluru Mandal, Bapatla District Andhra Pradesh. SIA/AP/MIN/452287/2023</p>
	<p>Recommendations of the SEAC on 11.01.2024.</p> <p>Category : B2</p> <p>The project proposal is for mining Ordinary Sand in an area of 4.950 Ha with a proposed production quantity of Ordinary Sand Mine – 49,500 m³/annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).</p> <p>Sri. Rajesh Kumar Randhi Department of Mines and Geology & Dy. Director Sri. Mohan Rao and their consultant M/s. Pollucare Engineers India Pvt Ltd have attended the meeting and presented their proposal. The SEAC Committee noted that:</p> <ol style="list-style-type: none"> The Department of Mines and Geology submitted DSR of Bapatla District. The same is reviewed in the SEAC meeting and observed that the subject mine mineral content is available at Page No.151 of DSR Report). The DSR 2023 is under process at SEIAA for approval. The project proponent submitted Joint inspection report on feasibility of sand reach dated 13.09.2023 conducted by the Revenue Department, Mines & Geology Department, Ground Water Department & Irrigation Department. The Department of Mines and Geology vide order dt. 07.11.2023 issued LoI to the subject mine subject to submission of Approved Mining Plan, EC and CFE. As per the cluster letter dated: 09.11.2023 issued by the District Mines & Geology officer (FAC), Bapatla District, there are no existing leases within the radius of 500 mtrs area and the total applicable cluster area is < 5.0 Ha. As per the approved mining plan dt. 08.11.2023, the total provided mineral reserves are 49,500 m³ (As per WALTA Act only 1m sand excavation is permitted) and the entire quantity is proposed to be

excavated within the period of 1 year.

- f. The committee in light of the orders of the Hon'ble NGT dated 23.03.2023, recommended to allow for Manual mining only, duly following the sustainable sand mining guidelines 2016 and Enforcement and Monitoring guidelines for sand mining 2020.
- g. The project proponent informed that they have allocated Rs. 2.10 Lakhs as capital cost and Rs. 1.90 Lakhs as a recurring cost budget for the EMP. The project proponent volunteered to allocate funds 10% of the project cost for providing amenities to the local school / PHCs and development of village roads in the **Gajullanka** Village under Corporate Social Responsibility (CSR).

The Committee after examining the project proposals, presentations, MoEF&CC Notifications & OM's and detailed deliberations, recommended for issue of Environmental clearance for mining Ordinary Sand - **49,500 m³/annum** for one-year period with **manual method** of mining with the following conditions:

1. There shall be no change in the production quantities approved in Environment Clearance order.
2. All the conditions and guidelines issued by MoEF&CC, Govt of India in respect of sand mining shall be followed.
3. The directions issued by the Honb'le NGT, Southern Zone, Chennai in the matter of O.A.No. 47 of 2016 (SZ) & 177 of 2016 (SZ), Order dated:14.12.2020 shall be scrupulously followed.
4. The standard environmental conditions for sand mining specified in the Sustainable Sand Mining Guidelines, issued by MoEF&CC, Govt of India, 2016 shall be followed. The mine operator shall not carry mining more than 1 meter depth in compliance with AP WALTA Act.
5. The lease holder shall follow the procedures mentioned in Enforcement & Monitoring Guidelines for Sand Mining January, 2020.
6. The lease holder shall comply with the recommendation and suggestion made by the High Power Committee as applicable.
7. The mining activities on river beds are allowed strictly as per the provisions of river / stream bed mining policy as under.
8. The ramp (i.e., approach road) shall be removed after sand mining is completed.
9. Under any circumstance under water sand mining shall not be carried out.
10. The committee directed the lease holder to shall not carryout river bed mining operation in monsoon period. The period as defined by IMD Nagpur for each state shall be adhered with.
11. No sand mining shall be done during the rainy season.
12. The lease holder should demarcate boundary with geo-coordinates or geo-fenced to ensure that sand extraction is going on only within the permitted area.
13. The committee directed the lease holder to functioning time of

	<p>quarries/depots shall be from 7.00 AM to 6.00 PM. No sand transporting vehicles to be parked inside the quarry/depot site during night time.</p> <p>14.The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.</p> <p>15.The committee suggested the lease holder to the transportation route should be selected in such a way that the movement of trucks/tippers/tractors from the villages having habitation should be avoided.</p> <p>16.The Committee directed the lease holder to maintain electronic weighbridges at the appropriate location identified by the district mining officer, in order to ensure that all mined minerals from that particular mine are accounted for before the material is dispatched from the mine. The weighing bridge shall have the provision of CCTV camera and all dispatch from the mine shall be accounted for.</p> <p>17.The lease holder shall keep GPS tracking to the vehicle from source to destination.</p> <p>18.The lease holder shall not obstruction the river flow, water transport and restoring the riparian rights and instream habitats.</p> <p>19.The lease holder shall remove the sheds constructed at the quarry site. All the roads and pathways may be levelled so that there is no obstruction for the normal flow in the river.</p> <p>20.The lease holder shall carry out bank stabilization works.</p> <p>21.The lease holder shall plant the plants all along the river bank/embankment to control the erosion of river bank.</p> <p>22.The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.</p> <p>Decision of SEIAA:- Agreed with the recommendations of SEAC to issue Environmental Clearance .</p>

Recommendations of the SEAC on 11.01.2024.

Category: B2 at par with B1

The representative of the project and their consultant M/s. Pioneer Enviro Laboratories & Consultants Pvt. Ltd., have attended the meeting and presented the proposal. The SEAC committee noted that:

- a. The SEIAA, A.P., issued Environmental Clearance to M/s. Sri Vempati Veerraju at compNo : 703, Girijanapuram R.L. (Reserved Land for forest), Lingamparthi Beat, Yeleswaram, Section & Range, Prathipadu (M), East Godavarivide order dt. 25.10.2013 for mining of laterite-657175TPA and the valid of EC order to 5.3years.
- b. Subsequently, the project proponent obtained EC extension on 06.08.2019 for mining of laterite- 80136 TPA (decreased the production quantity from 657175 TPA to 80136TPA) with a validity upto 31.03.2023.
- c. Again, the SEIAA, A.P., issued Environmental Clearance extension to M/s. Andru Srinivas vide order dt. 31.10.2023 for mining of laterite-**80136TPA** and same is valid for a period up to 31.03.2024
- d. Now the project proponent has applied for extension of EC.
- e. The project proponent has obtained work order vide letter dt. 07.12.2013 for 20 years and the same is valid for a period upto 03.12.2033.
- f. As per the approved mining plan dt. 31.03.2023 the total proved mineral reserves are 4,03,689 Tonnes. The proponent proposed to excavate **80136TPA**.
- g. The SEAC committee noted that MoEF&CC, GoI vide O.M. dated 13.12.2022 extended the validity of Environmental Clearances which had not expired as on the date of publication of Notification i.e. 12/04/2022 and shall stand automatically extended to respective increased validity i.e. 30 years for mining project Provided that "the period of validity of Environmental Clearance with respect to the type of projects and Activities listed at Para 1 above (30 years for mining project) may be extended in respect of valid Environmental Clearance, by the regulatory authority concerned, by a maximum period of years as indicated at para No.1 Column (D) above, if an application is made in the laid down proforma to the regulatory authority by the applicant as per the provisions of EIA Notification, 2006: provided further that the regulatory authority may also consult the concerned Expert Appraisal Committee before grant of such extension."
- h. The project proponent informed that they have allocated Rs. 9.0 Lakhs as capital cost and Rs. 8.39 Lakhs as a recurring cost budget for the EMP. The project proponent has spent capital cost of Rs.8.0 Lakhs towards construction of Garland drain and plantation along the approach roads.

The Committee after examining the project proposals, presentations,

	<p>MoEF&CC Notifications, & OMs, MoEF&CC OMs and detailed deliberations, recommended to issue EC Extension for mining of laterite–80136 TPA for a period up to 03.12.2033 with a condition that conditions mentioned in the earlier EC remains same.</p> <p>Decision of SEIAA:- Agreed with the recommendations of SEAC to issue EC Extension for mining of laterite–80136 TPA for a period upto 03.12.2033 with a condition that the conditions mentioned in the earlier EC order holds good. The mining operations shall be in accordance with the latest notifications & OMs issued by MoEF&CC.</p>
