

Agenda notes for SEIAA meeting dated 25.04.2022 etc. etc. and minutes of the meeting

Online Proposals

78th Meeting of SEIAA, Odisha dated 25.04.2022 and 29.04.2022 at 11.00 a.m.

Sl. No.	Proposal Category (B1, B2) and Proposal type (TOR/ EC/MO DIEC/ MODIT OR/Transfer of EC)	Project Sector and EIA notification Schedule.	Auto generated File No.	Name of the Applicant/ Project Proponent	Title of the proposal	Date of receipt of the proposal online	Status indicated in the PARI VESH portal	Decisions of SEIAA in the previous meeting	Current Status and Agenda Note	Observations / Decisions of SEIAA Meeting
1.	B2, EC	1(a) Mining of minerals	2424 68/5 76-MIN B2/0 2-2022	Tahasildar, Keonjhar	Nischintapur Stone Quarry - I over an area of 2.13 Acres / 0.862 Hectares in village - Nischintapur, Keonjhar Tahasil, Dist. - Keonjhar	14.02.2022	Under examination of SEIAA after SEA C	This is an online proposal for EC.	<p>This is regarding a new proposal for mining of minor mineral Stone. The project has submitted at SEIAA under Category 'B2' as the lease area is ≤ 5.0 Ha. As per the EIA Notification, 2006, this project falls in the schedule under SI.No-1(a) – "mining of mineral" of non-coal mining sector. The project proponent has submitted proposal for grant of EC of Nischintapur Stone Quarry-I over an area of 2.13 Acres / 0.862 Hectares in village - Nischintapur, Keonjhar Tahasil, Dist.– Keonjhar and the project proponent is Tahasildar, Keonjhar.</p> <p>The following documents have been received Form-1, Form-2, PFR, checklist, EMP, Mining Plan and approval letter, DSR, D.L.C, Village sheet, Cluster certificate, topomap etc.</p> <p>The following deficiencies/omission have been noticed in the above documents. Nil Distance from nearest sanctuary/ESZ-Hadagarh WLS-69.0km Whether the lease area coming in D.L.C. report-No Whether the lease area reflecting in DSR-Yes Method of mining- Semi-mechanized</p>	EC be granted. No blasting is permitted. Quarrying shall proceed maximum upto 6m depth from the present top surface level. No debris, PM shall fall on reservoir.

[Handwritten signature]

									<p>Distance from Nearest Road Bridge-0.72km, village road-0.269km, Kanjhari Dam-0.25Km Whether it is part of cluster –No Whether EC obtained earlier-Yes and submitted EC compliance Production capacity per annum-2101 cum/annum (max.), Geological reserve-111808 cum, Mineable reserve-37723 cum This is a B2 category project. Whether SEAC recommended the proposal –Yes, the SEAC recommended the proposal for EC in its meeting held on 12.04.2022.</p> <p>In view of the above the proposal may be placed in the SEIAA meeting for consideration</p>	
2.	B1, TOR	1(a) Mining of minerals	6887 5/22 2- MIN B1/0 2- 2022	Sri Banshidhar Nayak	Proposal of Sri Banshidhar Nayak for ToR of Kusei River Sand Bed Over an area of 18.50 Acres Or 7.486 Ha in Village-Kusei, Tahasil-Anandapur, District-Keonjhar	17.02.2022	Under examination of SEIAA after SEAC	This is an online proposal for TOR.	<p>This is regarding a new proposal for mining of minor mineral Sand. The project has submitted at SEIAA under Category 'B1' as the lease area is ≥ 5.0 Ha. As per the EIA Notification, 2006, this project falls in the schedule under SI.No-1(a) –"mining of mineral" of non-coal mining sector. The project proponent has submitted proposal for ToR of Kusei river sand bed over an area of 18.50 acres or 7.486 hectares in village Belabahali & Bhatasira under Anandapur Tahasil of Keonjhar district and the project proponent is Sri Banshidhar Nayak.</p> <p>The following documents have been received Form-1, PFR, checklist, Mining Plan and approval letter, DSR, Village sheet, Cluster certificate, topomap etc.</p> <p>The following deficiencies/omission have been noticed in the above documents. Nil</p> <p>Distance from nearest sanctuary/ESZ-Hadagarh WLS-23.0km Whether the lease area coming in D.L.C. report-No Whether the lease area reflecting in DSR-Yes Method of mining- Manual River-Kusei, depth of sand deposition-0.4m Distance from Nearest Road Bridge-2.2km, RD road-0.40km, Hanuman Temple-0.6km Whether it is part of cluster –No Whether EC obtained earlier-Yes by SEIAA in the year 2016 and submitted EC compliance Production capacity per annum-2101 cum/annum (max.), Geological reserve-111808 cum, Mineable reserve-37723 cum This is a B1 category project. Whether SEAC recommended the proposal –Yes, the SEAC recommended the proposal for ToR in its meeting held on 12.04.2022.</p>	ToR may be issued. The rate of replenishment of sand at the site has to be duly studied as part of the ToR, and report submitted by November, 2022.

									In view of the above the proposal may be placed in the SEIAA meeting for consideration.	
3.	B2, EC	1(a) Mining of minerals	2572 16/5 77-MIN B2/0 2-2022	Sri Rajat Patra	Proposal for EC of Mahada sand bed over an area of 10.00 acres or 4.048 hectares in village Mahada under Titilagarh Tahasil in Balangir district Odisha	21.02.2022	Under examination of SEIAA after SEA C	This is an online proposal for EC.	<p>This is regarding a new proposal for mining of minor mineral Sand. The project has submitted at SEIAA under Category 'B2' as the lease area is ≤ 5.0 Ha. As per the EIA Notification, 2006, this project falls in the schedule under Sl.No-1(a) – "mining of mineral" of non-coal mining sector. The project proponent has submitted proposal for EC of Mahada sand bed over an area of 10.00 acres or 4.048 hectares in village Mahada under Titilagarh Tahasil in Balangir district Odisha and the project proponent is Sri Rajat Patra.</p> <p>The following documents have been received Form-1, PFR, checklist, Mining Plan and approval letter, DSR, Village sheet, Cluster certificate, topomap etc.</p> <p>The following deficiencies/omission have been noticed in the above documents. Nil</p> <p>Distance from nearest sanctuary/ESZ-Karalapat WLS-48.0km Whether the lease area coming in D.L.C. report-No Whether the lease area reflecting in DSR-Yes Method of mining- Manual River-Tel, depth of sand deposition-1.5m Distance from Nearest Road Bridge-0.52km, Village road-0.80km Whether it is part of cluster –No Whether EC obtained earlier-No</p> <p>Production capacity per annum-3000 cum/annum (max.), Geological reserve-50667 cum, Mineable reserve-44973 cum This is a B2 category project. Whether SEAC recommended the proposal –Yes, the SEAC recommended the proposal for EC in its meeting held on 12.04.2022.</p> <p>In view of the above the proposal may be placed in the SEIAA meeting for consideration</p>	EC be given maximum depth of mining 0.75m. Maximum extraction in 1 st year shall not exceed 6000 cum. Rate of replenishment study report by November, 2022.
4.	B2, EC	1(a) Mining of minerals	2385 40/5 82-MIN B2/0 2-2022	Sri Akshaya Kumar Sahoo	Proposal for EC of Ektali Stone Quarry-Kha, over an area of 2.79 acres or 1.129 ha under Bhuban	22.02.2022	Under examination of SEIAA after	This is an online proposal for EC.	<p>This is regarding a new proposal for mining of minor mineral Stone. The project has submitted at SEIAA under Category 'B2' as the lease area is ≤ 5.0 Ha. As per the EIA Notification, 2006, this project falls in the schedule under Sl.No-1(a) – "mining of mineral" of non-coal mining sector. The project proponent has submitted proposal for grant of EC of Ektali Stone Quarry-Kha, over an area of 2.79 acres or 1.129 ha under Bhuban Tahasil, Odisha and the project proponent is Sri Akshaya Kumar Sahoo.</p> <p>The following documents have been received Form-1, Form-2, PFR, checklist, EMP, Mining Plan and approval letter, DSR, D.L.C, Village sheet, Cluster certificate, topomap etc.</p>	EC be given with usual stipulations for blasting and quarrying. Rigorous precaution

					Tahasil, Dist-Dhenkanal, Odisha		SEA C		<p>The following deficiencies/omission have been noticed in the above documents.</p> <p>Nil</p> <p>Distance from nearest sanctuary/ESZ-Kapilash WLS-19.3km</p> <p>Whether the lease area coming in D.L.C. report-No</p> <p>Whether the lease area reflecting in DSR-Yes</p> <p>Method of mining- Semi-mechanized</p> <p>Distance from Nearest Road Bridge-2.7km, village road-0.31km</p> <p>Whether it is part of cluster -No</p> <p>Whether EC obtained earlier-No</p> <p>Production capacity per annum-10037 cum/annum (max.), Geological reserve-166530 cum, Mineable reserve-58391 cum</p> <p>This is a B2 category project.</p> <p>Whether SEAC recommended the proposal -Yes, the SEAC recommended the proposal for EC in its meeting held on 12.04.2022.</p> <p>In view of the above the proposal may be placed in the SEIAA meeting for consideration.</p>	<p>against and adverse impact on elephants and their migration be taken. Solar fencing along the periphery.</p>
5.	B2, EC	1(a) Mining of minerals	2443 74/5 83-MIN B2/0 2-2022	Tahasil, Deogarh	Proposal for Fresh EC of Banjari 1 Stone Quarry over an area of 2.00 Acres or 0.809 Hectares in village Banjari under Deogarh Tahasil, District-Deogarh, Odisha	22.02.2022	Under examination of SEIAA after SEA C	<p>This is an online proposal for EC.</p> <p>This is regarding a new proposal for mining of minor mineral Stone. The project has submitted at SEIAA under Category 'B2' as the lease area is ≤5.0 Ha. As per the EIA Notification, 2006, this project falls in the schedule under SI.No-1(a) - "mining of mineral" of non-coal mining sector. The project proponent has submitted proposal for grant of EC of Banjari-1 Stone Quarry over an area of 2.00 Acres or 0.809 Hectares in village Banjari under Deogarh Tahasil, District-Deogarh, Odisha and the project proponent is Tahasil, Deogarh.</p> <p>The following documents have been received</p> <p>Form-1, Form-2, PFR, checklist, EMP, Mining Plan and approval letter, DSR, D.L.C, Village sheet, Cluster certificate, topomap etc.</p> <p>The following deficiencies/omission have been noticed in the above documents.</p> <p>Nil</p> <p>Distance from nearest sanctuary/ESZ-Ushakothi WLS-21.0km</p> <p>Whether the lease area coming in D.L.C. report-No</p> <p>Whether the lease area reflecting in DSR-Yes</p> <p>Method of mining- Semi-mechanized</p> <p>Distance from Nearest Road Bridge-2.7km, village road-0.7km</p> <p>Whether it is part of cluster -Yes, total lease area under cluster is 1.618 Ha and submitted cluster EMP.</p> <p>Whether EC obtained earlier-Yes from SEIAA and submitted EC compliance.</p> <p>Production capacity per annum-5040 cum/annum (max.), Geological reserve-156408 cum, Mineable reserve-78939 cum</p>	<p>EC be given usual conditions of quarrying. Solar fencing be done along the periphery of the lease area for safety of elephants.</p>	

									<p>This is a B2 category project. Whether SEAC recommended the proposal –Yes, the SEAC recommended the proposal for EC in its meeting held on 12.04.2022. In view of the above the proposal may be placed in the SEIAA meeting for consideration.</p>	
6.	B1, EC	1(a) Mining of minerals	6098 6/56 3-MIN B1/0 2-2022	Tahasildar, Rengali	<p>Tabadabahal cluster building stone/road metal mines deposit over an area of 19.18Ha or 47.40 Ac(including six lease area) located in village Tabadabahal, under Rengali Tahasil of Sambalpur district, Odisha.</p>	23.02.2022	Under examination of SEIAA after SEAC	<p>This is an online proposal for EC.</p>	<p>This is regarding a new proposal for mining of minor mineral Stone. The project has submitted at SEIAA under Category 'B1' as the lease area is 25.0 Ha. As per the EIA Notification, 2006, this project falls in the schedule under SI.No-1(a) –"mining of mineral" of non-coal mining sector. The project proponent has submitted proposal for grant of EC of Tabadabahal Stone Quarry No-5/13 over an lease area 11.00Ac /5.305ha(Total 6 nos. of quarries having 19.18 Ha coming under a single cluster) located in village Tabadabahal, under Rengali Tahasil of Sambalpur District of M/s Balaji Engicons Pvt Ltd. The following documents have been received Form-1, Form-2, PFR, checklist, Final EIA and EMP, D.L.C., Mining Plan and approval letter, DSR, Village sheet, Cluster certificate, topomap etc. The following deficiencies/omission have been noticed in the above documents. Nil Distance from nearest sanctuary/ESZ-Ushakothi WLS -11.0km Whether the lease area coming in D.L.C. report-No Whether the lease area reflecting in DSR-Yes Method of mining- Semi-mechanized Distance from Nearest Road Bridge-2.5km, village road-1.70km, Hirakud Reservoir- 8.5km Whether it is part of cluster –Yes, total lease area is 19.18 Ha Whether EC obtained earlier- No Production capacity per annum-80136 cum/annum (max.), Geological reserve-737738 cum, Mineable reserve-425250 cum This is a B1 category project. Whether SEAC recommended the proposal –Yes, the SEAC recommended the proposal for EC in its meeting held on 12.04.2022. <u>Other Points</u> ToR issued by SEIAA, Odisha for this project on 24.05.2021. Public hearing was conducted on 21.12.2021 and the following points raised in the PH as follows: Repair of village pond, control basting, repair/construction of village temple. Supply of water through repair and digging of bore well for agricultural purposes. Local employment and peripheral development. Health camp and quantum of stone excavated and depth of mining should be disclosed.</p>	<p>The PP be asked to file undertaking for compliance in shape of an affidavit of the demands raised in public hearing. The Tahasildar will submit clarification on the quarry activity which has apparently gone on at the site for many years now, Subject to prior fulfilment of the conditions, EC may be given with usual conditions for quarrying.</p>

									<p>The PP has assured to full fill demand of local people as raised in the Public Hearing.</p> <p>As per the google and photographs submitted in Final EIA & EMP report it appears the proposed quarry is operated last 10 years and mostly in private land purchased by the lessee.</p> <p>In view of the above the proposal may be placed in the SEIAA meeting for consideration.</p>	
7.	B2, EC	1(a) Mining of minerals	2582 41/5 87-MIN B2/0 2-2022	Sayad Alli	Proposal for grant of Environmental Clearance of Pandarani Stone Quarry over an area of 10.00 Acres or 4.046 Hectares in village Pandarani under Loisingha tahasil of Balangir district.	25.02.2022	Under examination of SEIAA after SEAC	This is an online proposal for EC.	<p>This is regarding a new proposal for mining of minor mineral Stone. The project has submitted at SEIAA under Category 'B2' as the lease area is ≤5.0 Ha. As per the EIA Notification, 2006, this project falls in the schedule under Sl.No-1(a) –"mining of mineral" of non-coal mining sector. The project proponent has submitted proposal for grant of EC of Pandarani Stone Quarry over an area of 10.00 Acres or 4.046 Hectares in village Pandarani under Loisingha Tahasil of Balangir district and the project proponent is Sri Sayad Anwar Alli.</p> <p>The following documents have been received Form-1, Form-2, PFR, checklist, EMP, Mining Plan and approval letter, DSR, D.L.C, Village sheet, Cluster certificate, topomap etc.</p> <p>The following deficiencies/omission have been noticed in the above documents. Nil</p> <p>Distance from nearest sanctuary/ESZ-Sunaberda WLS-110.0km</p> <p>Whether the lease area coming in D.L.C. report-No</p> <p>Whether the lease area reflecting in DSR-Yes</p> <p>Method of mining- Semi-mechanized</p> <p>Distance from Nearest Road Bridge-7.3km, village road-0.1km</p> <p>Whether it is part of cluster –No</p> <p>Whether EC obtained earlier-Yes from SEIAA and submitted EC compliance.</p> <p>Production capacity per annum-2620 cum/annum (max.), Geological reserve-556841 cum, Mineable reserve-301664 cum</p> <p>This is a B2 category project.</p> <p>Whether SEAC recommended the proposal –Yes, the SEAC recommended the proposal for EC in its meeting held on 12.04.2022.</p> <p>In view of the above the proposal may be placed in the SEIAA meeting for consideration.</p>	EC may be given with usual conditions. Safety of village road against blasting, flying of debris, etc has to be ensured meticulously. Village road may be rerouted if feasible, or else mining activity shall be confined to part of lease area that is 200 m away from the village road.
8.	B2, EC	1(a) Mining of minerals	2590 57/5 89-MIN B2/0	Tahasildar, Patna	Proposal for EC of Dumurigoda sand quarry over an area	02.03.2022	Under examination of	This is an online proposal for EC.	<p>This is regarding a new proposal for mining of minor mineral Sand. The project has submitted at SEIAA under Category 'B2' as the lease area is ≤5.0 Ha. As per the EIA Notification, 2006, this project falls in the schedule under Sl.No-1(a) –"mining of mineral" of non-coal mining sector. The project proponent has submitted proposal for EC of Dumurigoda sand quarry over an area of 5.00 acres or 2.023 hectares in village Dumurigoda under Patna</p>	EC may be given. Maximum depth of digging 0.5m. Maximum

			3-2022		of 5.00 acres or 2.023 hectares in village Dumurigoda under Patna Tahasil in Keonjhar District Odisha		SEIA A after SEA C		<p>Tahasil in Keonjhar District Odisha and the project proponent is Tahasildar, Patra.</p> <p>The following documents have been received Form-1, PFR, checklist, Mining Plan and approval letter, DSR, Village sheet, Cluster certificate, topomap etc.</p> <p>The following deficiencies/omission have been noticed in the above documents.</p> <p>Nil</p> <p>Distance from nearest sanctuary/ESZ- Similipal WLS-28.0km</p> <p>Whether the lease area coming in D.L.C. report-No</p> <p>Whether the lease area reflecting in DSR-Yes</p> <p>Method of mining- Manual</p> <p>River-Baitarani, depth of sand deposition-1.0m</p> <p>Distance from Nearest Road Bridge-28.0km, Village road-0.30km</p> <p>Whether it is part of cluster-No</p> <p>Whether EC obtained earlier-Yes, from SEIAA and submitted EC compliance</p> <p>Production capacity per annum-3102 cum/annum (max.), Geological reserve-19545 cum, Mineable reserve-15510 cum</p> <p>This is a B2 category project.</p> <p>Whether SEAC recommended the proposal -Yes, the SEAC recommended the proposal for EC in its meeting held on 12.04.2022.</p> <p>In view of the above the proposal may be placed in the SEIAA meeting for consideration.</p>	quantity that can be removed in 1 st year is 2000 cum.
9.	B1, TOR	1(a) Mining of minerals	7147 8/22 4-MIN B1/0 3-2022	Saroj Kumar Mohanty	Proposal of Sri.Saroj Kumar Mohanty for ToR of Kilipal Mahanadi Sand Sairat, over an area of 13.00Acres or 5.26 Ha. bearing Khata No- 298, Plot No- 954 in Village- Kilipal, Tahasil- Tirtol,	02.03.2022	Under examination of SEIA A after SEA C	This is an online proposal for TOR.	<p>This is regarding a new proposal for mining of minor mineral Sand. The project has submitted at SEIAA under Category 'B1' as the lease area is ≥ 5.0 Ha. As per the EIA Notification, 2006, this project falls in the schedule under SI.No-1(a) -"mining of mineral" of non-coal mining sector. The project proponent has submitted proposal for ToR of Kilipal Mahanadi sand, over an area 5.26 ha. khata no- 298, plot no- 954 At- Kilipal, Tahasil- Tirtol, Dist- Jagatsinghapur, Odisha and the project proponent is Sri Saroj Kumar Mohanty.</p> <p>The following documents have been received Form-1, PFR, checklist, Mining Plan and approval letter, DSR, Village sheet, Cluster certificate, topomap etc.</p> <p>The following deficiencies/omission have been noticed in the above documents.</p> <p>As per the google map it appears that the proposed quarry is operated earlier with extracting sand from inside water at some places. Present proposed quarry and earlier operated both are nearer to each other and at different position.</p> <p>It is not clear whether the lease area demarcated or not.</p>	TOR be issued with condition to attend to restoration of the surrounding areas affected by unauthorised mining. Lease area be properly demarcated with durable pillars.

					Dist- Jagatsinghap ur,				<p>Distance from nearest sanctuary/ESZ-Bhitarkanika WLS-86.0km Whether the lease area coming in D.L.C. report-No Whether the lease area reflecting in DSR-Yes Method of mining- Manual River-Mahanadi, depth of sand deposition-1.0m Distance from Nearest Road Bridge-6.5km, RD road-0.50km Whether it is part of cluster –No Whether EC obtained earlier-Yes by SEIAA in the year 2016 and submitted EC compliance with mentioning some wrong information. Production capacity per annum-15150 cum/annum (max.), Geological reserve-21935 cum, Mineable reserve-15354 cum This is a B1 category project. Whether SEAC recommended the proposal –Yes, the SEAC recommended the proposal for ToR in its meeting held on 12.04.2022.</p> <p>In view of the above the proposal may be placed in the SEIAA meeting for consideration</p>	
10.	B2, EC	1(a) Mining of minerals	2596 30/5 91-MIN B2/03-2022	Tahasildar, Patna	Proposal for EC of Raikala stone quarry over an area 11.660 acres or 4.719 hectares in village Raikala under Patna Tahasil in Keonjhar District Odisha	04.03.2022	Under examination of SEIAA after SEAC	This is an online proposal for EC.	<p>This is regarding a new proposal for mining of minor mineral Stone. The project has submitted at SEIAA under Category 'B2' as the lease area is ≤5.0 Ha. As per the EIA Notification, 2006, this project falls in the schedule under SI.No-1(a) –"mining of mineral" of non-coal mining sector. The project proponent has submitted proposal for grant of EC of Raikala stone quarry over an area 11.660 acres or 4.719 hectares in village Raikala under Patna Tahasil in Keonjhar District Odisha and the project proponent is Tahasildar, Patna.</p> <p>The following documents have been received Form-1, Form-2, PFR, checklist, EMP, Mining Plan and approval letter, DSR, D.L.C, Village sheet, Cluster certificate, topomap etc.</p> <p>The following deficiencies/omission have been noticed in the above documents. Nil</p> <p>Distance from nearest sanctuary/ESZ-Similipal WLS-26.0km Whether the lease area coming in D.L.C. report-No Whether the lease area reflecting in DSR-Yes Method of mining- Semi-mechanized Distance from Nearest Road Bridge-21.0km, village road-0.1km Whether it is part of cluster –No Whether EC obtained earlier-Yes from SEIAA and submitted EC compliance. Production capacity per annum-13386 cum/annum (max.), Geological reserve-200700 cum, Mineable reserve-100000 cum This is a B2 category project.</p>	EC be given with usual conditions. Safety of village road has to be ensured. Village road may be rerouted if feasible, or else mining activity shall be confined to part of lease area that is 200 m away from the village road.

									<p>Whether SEAC recommended the proposal –Yes, the SEAC recommended the proposal for EC in its meeting held on 12.04.2022.</p> <p>In view of the above the proposal may be placed in the SEIAA meeting for consideration.</p>	
11.	B2, EC	1(a) Mining of minerals	2533 43/5 93-MIN B2/0 3-2022	Tahasildar, Sukruli	Fulguntha II Stone Quarry over an area of 1.92 Acre or 0.777 Hectares in village Fulguntha under Sukruli Tahasil of Mayurbhanj District of Odisha.	05.03.2022	Under examination of SEIAA after SEAC	This is an online proposal for EC.	<p>This is regarding a new proposal for mining of minor mineral Stone. The project has submitted at SEIAA under Category 'B2' as the lease area is ≤5.0 Ha. As per the EIA Notification, 2006, this project falls in the schedule under Sl.No-1(a) –"mining of mineral" of non-coal mining sector. The project proponent has submitted proposal for grant of EC of Fulguntha II Stone Quarry over an area of 1.92 Acre or 0.777 Hectares in village Fulguntha under Sukruli Tahasil of Mayurbhanj District of Odisha and the project proponent is Tahasildar, Sukruli.</p> <p>The following documents have been received Form-1, Form-2, PFR, checklist, EMP, Mining Plan and approval letter, DSR, D.L.C, Village sheet, Cluster certificate, topomap etc.</p> <p>The following deficiencies/omission have been noticed in the above documents. Nil Distance from nearest sanctuary/ESZ-Similipal WLS-20.0km Whether the lease area coming in D.L.C. report-No Whether the lease area reflecting in DSR-Yes Method of mining- Semi-mechanized Distance from Nearest Road Bridge-35.0km, village road-0.2km Whether it is part of cluster –Yes, total lease area 2.61Ha and submitted cluster EMP</p> <p>Whether EC obtained earlier-Yes from SEIAA and submitted EC compliance. Production capacity per annum-1115 cum/annum (max.), Geological reserve-20748 cum, Mineable reserve-10363 cum This is a B2 category project.</p> <p>Whether SEAC recommended the proposal –Yes, the SEAC recommended the proposal for EC in its meeting held on 12.04.2022.</p> <p>In view of the above the proposal may be placed in the SEIAA meeting for consideration.</p>	EC be given with usual conditions. Cluster EMP has to be implemented forthwith.
12.	B2, EC	1(a) Mining of minerals	2534 75/5 94-MIN B2/0	Sri Bibek ananda Sahu	Proposal for EC of 2nd Dhepaguda Stone Quarry over an area of 1.785 acres	07.03.2022	Under examination of SEIAA	This is an online proposal for EC.	<p>This is regarding a new proposal for mining of minor mineral Stone. The project has submitted at SEIAA under Category 'B2' as the lease area is ≤5.0 Ha. As per the EIA Notification, 2006, this project falls in the schedule under Sl.No-1(a) –"mining of mineral" of non-coal mining sector. The project proponent has submitted proposal for grant of EC of 2nd Dhepaguda Stone Quarry over an area of 1.785 acres or 0.7224 hectares bearing Khata no. 43(AAA), Plot no. 10,11&12 in village 2nd Dhepaguda, Tahasil-</p> <p>Whether SEAC recommended the proposal –Yes, the SEAC recommended the proposal for EC in its meeting held on 12.04.2022.</p> <p>In view of the above the proposal may be placed in the SEIAA meeting for consideration.</p>	Full scale compliance report on all EC conditions be submitted after

			3-2022		or 0.7224 hectares bearing Khata no. 43(AAA), Plot no. 10,11&12 in village 2nd Dhepaguda, Tahasil-Sanakhemundi, District-Ganjam State Odisha. The project is submitted at SEIAA under Category 'B' as per the EIA Notification, 2006 it's falls in the schedule SI.No. 8(a) -"Building & Construction Project" as the built up area $>20,000$Sqm and $<1,50,000$ sqm. The present proposal is submitted for Environmental Clearance for Construction of "Residential colony project" with total plot area-11,549.74sqm., total built up area-98,078.69 sqm at Chandrasekharpur, District-Khurdha of Sri. Tapan Kumar Mohanty (Director) of M/s. ZISH SPV Pvt. Ltd.</p> <p>The following documents have been received Checklist, form-2, Form 1A, Conceptual plan and scrutiny fee etc.</p> <p>In view of the above the proposal may be placed in the SEIAA meeting for consideration.</p>	EC be given with conditions proposed by SEAC plus other the conditions that adopting of principle of zero discharge of

							<p>as follows: "PP may be asked to submit full scale response on the points raised in SEAC's appraisal report within one month, after which EC may be considered"</p>	<p>The following deficiencies/omission have been noticed in the above documents. Nil <u>Other Points</u> The nearest railway station is Mancheswar Railway Station approx. 3.0 km in East direction from the project site and Biju Patnaik International Airport is at a distance of approx. 6.8 km in South direction from the project site. The site is coming under development plan of Bhubaneswar Development Authority. There are Total 3 Towers i.e. Residential (Tower 1 to 3) having 2 BHK, 3 BHK & 4 BHK (total dwelling units – 410nos.) swimming pool & Club. Stack height of DG set will be-30m The total parking area-22422.456 sqm. and total and provision will be 22,503.19 sqm proposed parking for residential project is 801 ECS. Green belt area provision-3862.99 sqm (33.5% of the plot area) which will be used for plantation- 21% + Lawn area-12.5 %. No of trees to be planted-160 nos. Total water requirement-378 KLD, source from ground water and fresh water requirmner-232 KLD. Waste water generation-307 KLD, STP capacity-370 KLD and waste water will be treated in STP-276 KLD, water will be reused-146 KLD and rest treated water will be discharge to nearest sewer-152 KLD. Total power requirement will be-2681.6.3 kVA and 5% solar energy will be used(134 kVA) Rainwater harvesting 08 pits with capacity per pit 14.13 cum =113.04 cum. Total solid waste generation-1418 kg/day. The SEAC recommended the proposal in its meeting held on 28.01.2000 for grant of Environmental Clearance valid for 7 years with stipulated conditions as per Annexure – C in addition to the following specific conditions. "NOC" from CGWA and permission from Water Resource Department Govt. of Odisha shall be obtained for drawl of ground water. "Khatian" of the land with ownership/title of the land shall be converted with 'Kisam' as "Gharabari" before going for construction activity. The Proponent before implementation of the project shall convert the land to Gharabari and shall take the ownership of the land if not already taken. The Proponent shall obtain permission from the appropriate authority for discharge of excess treated water if any to the nearest existing drain. Also in case of the connecting drain passing through others land (Govt. or Private land), the Proponent shall obtain the permission and possession as the case may be. Since, discharge of treated waste water/ storm water is a great concern and pose a serious problem for dwellers later, besides being a major pollution/</p>	<p>waste water to surroundings.</p>
--	--	--	--	--	--	--	---	---	-------------------------------------

5

								<p>environmental issue," NOC/ clearance/ permission from appropriate authority are not submitted and instead, stated to be " under process/ will be submitted in due course of time/ will deposit cost with BDA" etc. are very subjective statements without definite time frame which later on may not get due attention and ultimately, habitants suffer environment gets polluted. All the compliances submitted/ committed by PP (s) shall be strictly adhered to by them.</p> <p>It is mandatory for the PP to augment sewer line with due permission of Appropriate authority and source of water to be Municipality/ WATCO supply.</p> <p>The proponent shall use solar energy of 5% of total power consumption as proposed.</p> <p>Trees located within the project area shall be de-rooted and re-rooted / transplanted to alongside the boundary green development area instead of cutting. If there will be any tree cutting required, requisite permission for the same shall be obtained from the Forest Department.</p> <p>To reduce discharge of treated water to open drain, the proponent shall use more water for increased number of trees proposed to be planted in the green belt area & shall also utilize this treated water for car washing, floor washing to minimize the surplus discharge to drain.</p> <p>The proponent shall implement the Pollution Control Measures and safeguards as proposed in the Environment Management Plan (EMP) of project report.</p> <p>The PP stated excess storm water will be discharged to the available storm water drain of BMC adjacent to the project boundary in the East. The proponent shall comply the following:</p> <p>Permission from the appropriate authority of the above existing storm water drain shall be obtained to take the additional load of this proposed project. The beginning and end of the same said drain, showing in the map of the drain network and with appropriate certificate from the concerned authority shall be obtained.</p> <p>No public drain exists as stated in the north side of the project for discharge of excess treated waste water. But a sewer line of low diameter (not operated yet) exists on the north side of the project boundary, on the opposite side of the adjacent service road/lane of about 5 m width. This needs to be confirmed / complied by PP.</p> <p>Existing sewer line of BMC/sewer board needs to be augmented to take this additional load of treated waste water of the project including permission for the same and necessary augmentations to be done by the PP in consultation with sewer line authority or on deposit scheme by the sewer authority.</p> <p>ROW for use of land adjacent to the service road mentioned above shall be decided in consultation with the concerned Authority. Further, PP shall</p>	
--	--	--	--	--	--	--	--	--	--

									<p>develop its own sewer line within its plot area and connect to the one adjacent to the service road after proper augmentation.</p> <p>Since municipality /Public/Govt. water supply is available in the vicinity and considering the dense population surrounding the project site, use of ground water should be strictly prohibited except for stand-by purpose. The PP shall communicate this to the concerned water supply authority and obtain confirmation for supply of water for the housing project on operation. However, the project proponent may have one "Borewell" only to draw minimum ground water during emergency and such drawl shall be related through a piezometer and communicated to CGWA Periodically.</p> <p>Separate entry and exit gate with provision of pedestrian pathways of appropriate dimension shall be done on the south side boundary of the project besides a service gate on the east side with appropriate dimension. The PP shall provide continuous green belt around the boundary of the project except the gates.</p> <p>Permissions from all statutory and related authority to be taken with regard to connectivity of road width, drain and fire authority etc.</p> <p>The proposal was placed in 72nd SEIAA meeting and it was decided as follows: "PP may be asked to submit full scale response on the points raised in SEAC's appraisal report within one month, after which EC may be considered".</p> <p>Accordingly, ADS letter issued by SEIAA vide letter no. 4176/SEIAA dated 02.03.2022.</p> <p>Now the PP has submitted the required documents as sought by SEIAA. The proposal is put up for consideration of EC.</p>

Durable masonry pillars shall be posted along the boundary of the no mining zone to ensure that</p>	EC is granted with usual conditions. The rate of replenishment study has to be completed and its report be submitted by November, 2022. Till then, in the 1 st year he is allowed to mine to a depth of maximum 1.25 m, and extract maximum 10,000 cum of sand in the 1 st year. The boundary pillars of no mining zone and lease area boundary have to be geo-tagged and monitoring of sand extraction has to be rigorously done
-----	--------	-----------------	-----------------------------	----------------------------	--	------------	-------------------	---	--	---

								adverse report, and litigation started in High Court".	exploitation does not spill over to the said zone. Further, it is requested to submit proper photographs of the same and also study of rate of replenishment of sand at the site shall be carried out and its report shall be submitted. After compliance of the above points raised by the Authority, the proposal shall be considered". The Tahasildar has not submitted the replenishment study report. In view of the above the proposal may be placed in the SEIAA meeting for consideration.	by the Tahasildar.
43.	B1, EC	8(a) Building & Construction	SIA/OR/MIS/230678/2021	M/s United Construction Corporation	Proposal for proposed Residential Project of total built up area 24,601.44 sqm, located at Mouza-Badaraghunathpur, District Khurda, Bhubaneswar Odisha by M/s United Construction Corporation.	22.09.2021	Deferred by SEIAA	The proposal was placed in 77 th SEIAA meeting and it was decided as follows: "Let us ask the PP to furnish a clear undertaking in shape of an affidavit committing himself to a deadline	This is regarding a Building & Construction Project . The project is submitted at SEIAA under Category 'B' as per the EIA Notification, 2006 it's falls in the schedule Sl. No. 8(a)- "Building & Construction Project" as the built up area >20,000Sqm and <1,50,000 sqm. The present proposal is submitted for Environmental Clearance for Construction of "Residential colony project with total plot area - 9,124.19sqm., and total built up area- 24,601.44 sqm at mouza- Badaraghunathpur, Bhubaneswar, Khordha of Sri. Tapan Kumar Mohanty (Partner) of M/s United Construction Corporation. The following documents have been received Checklist, form-2, Form 1A, Conceptual plan and scrutiny fee etc. The following deficiencies/omission have been noticed in the above documents. Nil Other Points The project facilities include: 1 Towers i.e. Residential having 2 BHK (no. of dwelling units 186), gym, society room and departmental store. The site is coming under development plan of Bhubaneswar Development Authority. The total parking area-4875.67 sqm. parking area proposed is 6275 sqm or 214 ECS. Green belt area provision-3021.93 sqm (33% of the plot area) which will be used for plantation-1916.07 sqm (21%) + Lawn area-1105.86 sqm(12.12 %). No of trees to be planted- 190 nos. Total water requirement-141 KLD, source from ground water and fresh water requirmner-85 KLD. Waste water generation-112 KLD, STP capacity-135 KLD and treated water will be reused-66 KLD and rest treated water will be discharge to nearest sewer-55 KLD.	EC may be given with usual stipulations for such building projects plus the condition to reformulate the project on zero discharge principles. He shall set up STP of adequate capacity, and treat all waste water therein and recycle part of the treated waste water; and the surplus treated water shall be used to recharge the ground water on

							<p>for achieving full scale compliance of all the stipulations proposed by SEAC. He may choose to submit the undertaking in 15 days time on receipt of which EC may be considered"</p>	<p>Total power requirement will be-760 kVA and 5% solar energy will be used (42.7 kVA) Rainwater harvesting 11 pits with capacity per pit 14.13 cum =155.43 cum. Total solid waste generation-503 kg/day. The SEAC recommended the proposal in its meeting held on 28.01.2000 for grant of Environmental Clearance valid for 7 years with stipulated conditions as per Annexure – C in addition to the following specific conditions. "NOC" from CGWA and permission from Water Resource Department Govt. of Odisha shall be obtained for drawl of ground water. "Khatian" of the land with ownership/title of the land shall be converted with 'Kisam' as "Gharabari" before going for construction activity. The Proponent before implementation of the project shall convert the land to Gharabari and shall take the ownership of the land if not already taken. The Proponent shall obtain permission from the appropriate authority for discharge of excess treated water if any to the nearest existing drain. Also in case of the connecting drain passing through others land (Govt. or Private land), the Proponent shall obtain the permission and possession as the case may be. Since, discharge of treated waste water/ storm water is a great concern and pose a serious problem for dwellers later, besides being a major pollution/ environmental issue," NOC/ clearance/ permission from appropriate authority are not submitted and instead, stated to be " under process/ will be submitted in due course of time/ will deposit cost with BDA" etc. are very subjective statements without definite time frame which later on may not get due attention and ultimately, habitants suffer environment gets polluted. All the compliances submitted/ committed by PP (s) shall be strictly adhered to by them. From the proposed gate (entry & exit) of the proposed colony till the service road of the adjacent NH, the lead road distance around 500-700 m is narrow for two lane commutation. The PP stated that the road is 30ft wide. As such, the PP need to confirm the length & width of the said lead road with sketch & dimension and submit no objection from the land owner. In case of no objection from the land owner, PP should develop the present road to a good blacktop/concrete road to accommodate the traffic after development of the site. There exist a gap of about 50 m between the tail end of the above lead road and the adjacent NH service road. The PP shall obtain 'No Objection' from the land owner/NH authority for movement of vehicles of the residents of the above said residential colony.</p>	<p>rain water harvesting principles. The sludge of the STP can be removed outside to authorised municipal vendors.</p>
--	--	--	--	--	--	--	--	--	--

									<p>The two separate gates (entry & exit) of appropriate dimension with corresponding pedestrian pathways shall be maintained as shown in the south side of the boundary.</p> <p>The PP stated and showed an uncovered RCC drain (existing) in south-east direction adjacent to east side of the plot for some lead distance followed by swampy area (Spread of Earthen Nala (type) joining the Govt drain passing underneath the NH which ultimately stated to have fallen in Gangua nala for discharge of excess treated waste water & excess storm water. Thus, the PP shall comply the following:</p> <p>Construction of appropriate covered RCC drain till it falls the Govt. drain at NH indicated above including the ROW of the land for the purpose from the land owner.</p> <p>Permission from the appropriate authority of the drain at NH to take the additional load of liquid discharge (excess treated waste water & excess storm water) of this proposed residential colony.</p> <p>The proponent shall use solar energy of 5% of total power consumption as proposed.</p> <p>Trees located within the project area shall be de-rooted and re-rooted / transplanted to alongside the boundary green development area instead of cutting. If there will be any tree cutting required, requisite permission for the same shall be obtained from the Forest Department.</p> <p>To reduce discharge of treated water to open drain, the proponent shall use more water for increased number of trees proposed to be planted in the green belt area & shall also utilize this treated water for car washing, floor washing to minimize the surplus discharge to drain.</p> <p>The proponent shall implement the Pollution Control Measures and safeguards as proposed in the Environment Management Plan (EMP) of project report.</p> <p>The EC is subject to permissions from all statutory authority including BDA for the connecting road width and ownership or right to use of the road from the appropriate authority.</p> <p>The proposal was placed in 77th SEIAA meeting and it was decided as follows:</p> <p>"Let us ask the PP to furnish a clear undertaking in shape of an affidavit committing himself to a deadline for achieving full scale compliance of all the stipulations proposed by SEAC. He may choose to submit the undertaking in 15 days time on receipt of which EC may be considered"</p> <p>Accordingly, ADS letter issued by SEIAA. Now the PP has submitted the undertaking in the shape of affidavit for consideration of EC.</p>
