

**PROCEEDINGS OF THE MEETING OF STATE LEVEL EXPERT APPRAISAL
COMMITTEE, ODISHA HELD ON 28TH & 30TH JUNE, 2023**

The SEAC meetings held on 28TH & 30TH June, 2023 at 03:00 PM through Video Conferencing (VC) in Google Meet under the Chairmanship of Sri Sashi Paul. The following members were present in the meeting.

- | | | |
|------------------------------|---|-----------------------|
| 1. Sri Sashi Paul | - | Chairman (through VC) |
| 2. Dr. K. Murugesan | - | Member Secretary |
| 3. Dr. Rabi Narayan Patra | - | Member (through VC) |
| 4. Dr. Chittaranjan Panda | - | Member (through VC) |
| 5. Prof. (Dr.) H.B. Sahu | - | Member (through VC) |
| 6. Prof. (Dr.) Abanti Sahoo | - | Member (through VC) |
| 7. Er. Fakir Mohan Panigrahi | - | Member (through VC) |
| 8. Prof. (Dr.) B.K. Satpathy | - | Member (through VC) |
| 9. Dr. K.C.S Panigrahi | - | Member (through VC) |
| 10. Shri Jayant Kumar Das | - | Member (through VC) |
| 11. Dr. Ashok Kumar Sahu | - | Member (through VC) |

Draft proceedings of the meetings were finalized by the members through e-mail and also final proceedings of the meetings were confirmed by the members through e-mail. The agenda-wise proceedings and recommendations of the committee are detailed below.

A. CONSIDERATION OF MINOR MINERAL PROPOSALS (NEW) – 09 Nos.:

The committee verified 09 nos. of minor mineral proposals forwarded by the SEIAA, Odisha. The case-wise proceedings and observations of the committee are detailed in Table as per **Annexure – A**. The proposals of following categories are examined:

Total no. of proposals	Type of proposals	No. of proposal	Decisions of the committee
09	Stone Quarries and other (06)	05	Clarification to be sought from the concerned Tahasildar.
		01	The SEAC considered the proposals as B2 category and recommended for Environmental Clearance.
	River Sand (03)	02	Clarification to be sought from the concerned Tahasildar.
		01	The SEAC considered the proposals as B2 category and recommended for Environmental Clearance.

B. CONSIDERATION OF MINOR MINERAL PROPOSALS (COMPLIANCE RECEIVED) – 08 Nos.:

The committee verified 08 nos. of minor mineral proposals (compliance received). The case-wise proceedings and observations of the committee are detailed in Table as per **Annexure – B**. The proposals of following categories are examined:

Total no. of proposals	Type of proposals	No. of proposal	Decisions of the committee
08	Stone Quarries and other (04)	04	The SEAC considered the proposals as B2 category and recommended for Environmental Clearance.

Total no. of proposals	Type of proposals	No. of proposal	Decisions of the committee
	River Sand (04)	03	Clarification to be sought from the concerned Tahasildar.
		01	The SEAC considered the proposals as B2 category and recommended for Environmental Clearance.

C. CONSIDERATION OF NEW PROPOSAL (COUNTRY LIQUOR) – 01 No.:

The committee verified the compliance furnished along with documents and checklist of 01 no. of country liquor proposal. The case-wise proceedings and observations of the Committee are detailed in Table as per **Annexure - C**. The recommendations of the committee are as follows:

No. of proposal	Recommendation of the committee
01	The committee considered the proposals as B2 category as these units are generating waste water less than 100 KLD and recommended for Environmental Clearance.

D. CONSIDERATION OF MODIFICATION OF EC (COUNTRY LIQUOR) PROPOSALS – 33 Nos.:

The recommendations of SEAC for Modification of Environmental Clearance for 33 nos. country liquor proposals is as per **Annexure- D**.

E. CONSIDERATION OF MODIFICATION OF EC OF MINOR MINERAL (NEW) PROPOSALS - 16 Nos.:

The recommendations of SEAC for Modification of Environmental Clearance for 16 nos. minor mineral proposals is as per **Annexure - E**.

F. CONSIDERATION OF MODIFICATION OF EC OF MINOR MINERAL OLD PROPOSALS: 08 Nos.

The recommendations of SEAC for Modification of Environmental Clearance for 08 nos. minor mineral proposals is as per **Annexure - F**.

MEMBER SECRETARY, SEAC

TABLE
DECISION ON MINOR MINERAL PROJECTS WITH LEASE AREA LESS THAN 5 HA.
ON 28TH AND 30TH JUNE 2023

Sl. No	SEIAA File No.	Name & Address of the proponent	District	Type of Mineral	Name of the project	Mining lease period	Details of other mines including lease area located within 500 m from the periphery of the proposed mine lease area	Observation of SEAC based on Form-I, Pre-feasibility report, approved mining plan and checklist	Whether general condition apply	Maximum annual production capacity (in m ³)	Recommendation of the SEAC
1.	SIA/OR/MIN/416336/2023	Sri Niraj Agrawal (Lessee) M/s. **TABLE
DECISION ON MINOR MINERAL PROJECTS WITH LEASE AREA LESS THAN 5 HA. ON 28TH AND 30TH JUNE 2023
(CLARIFICATION RECEIVED)**

Sl. No	SEIAA File No.	Name & Address of the proponent	District	Type of Mineral	Name of the project	Clarification sought by the SEAC		Whether compliance furnished by the Tahasildar (Yes / No) With Remarks if any	Recommendation of the SEAC
						Date of meeting	Clarification		
1.	SIA/O R/MIN/41724 3/2023	Sri Bhakta Charan Patel (Lessee) M/s. Tamian Sand Quarry At- Pilatimahul, Ps-Balangir Dist: Balangir Pin: 767048 Email: bhaktacharanpatel0@gmail.com	Balangir	Sand	Proposal of Environmental Clearance for Tamian Sand Quarry over an area of 12.00 Acres or 4.856 Hectares in village Tamian under Patnagarh tahasil of Balangir district of Sri Bhakta Charan Patel - EC	27.03.2023	I. In KML file, it is observed that most of the mining area is covered with water flow channels. The boundary needs to be modified. II. Site visit to be conducted to verify the	The Tahasildar has clarified that Tamian Sand Bed having heavy sand as well as local demand according to the mining plan. As per kml file, SEAC found that most of the mining area is covered with water flow channels. So. Tahasildar visited the Tamian sand Bed and found that some black soil mix with the sand which is shown like water flow channels. So no need to modify the boundary. -	The SEAC decided to take decision on the proposal after site visit by sub-committee of SEAC to verify the availability of sand in the proposed quarry.

							availability of sand in proposed quarry.		
2.	SIA/OR/MIN/402949/2022	Sri Bikash Kedia (Lessee) M/s. Saradhapali Stone Quarry At/Po-Tusura, Ps-Tusura, Dist-Balangir Pin: 767030 Email: bikashkumar kedia9@gmail.com	Subarnapur	Stone	Proposal of Environmental Clearance for Saradhapali Stone Quarry 4.430 Acres or 1.792 Hectares in village Saradhapali under Tarbhatahasil of Subarnapur district of Sri Bikash Kedia - EC	30.11.2022	The SEAC observed that one of the quarries was operational as seen in KML file. After detailed discussion, the SEAC decided to take decision on the proposal after receipt of operational and earlier EC status of the quarries from the concerned Tahasildar.	The quarry was not operated previously. However one bidder namely Sadhu Mahakur was previously selected to operate the sources, but he denied to go ahead for this lease and surrender, and no EC was granted in favour of the said quarry by SEIAA.	The SEAC recommended to grant EC valid from the date of EC accorded up to the lease period with following additional conditions. i) Consent / NoC shall be obtained from the concerned authority if village road is to be used for transportation. The said road shall also be maintained by the lessee. ii) In view of likely revision of DSR the mention of this deposit with final coordinates is to be ensured iii) Plantation programme to be completed within first two years and to be maintained in remaining years. iv) Depth of Mining as proposed should not be beyond 6m from the ground level. v) Mitigation measures for flying Rock for safety be put in place. vi) Stone quarry project

								Hal Khata no. is 308 and plot no. 62).	proposed should not be beyond 6m from the ground level.
								<p>II. Mismatch of Plot no. in DSR submitted. This shall be clarified.</p> <p>As far as the mismatch of Khata no./plot no. are concerned it is due to Sabak – Hal nature of the suit land as mentioned above.</p>	<p>v) Mitigation measures for flying Rock for safety be put in place.</p> <p>vi) Stone quarry project proponent need to maintain periodic health check-up records of their employees and ensure use of face mask by workers in crushing and handling sections of the stone quarry for ensuring that working personnel are not affected by silicosis.</p> <p>vii) The boundary area of the deposit as per the revised / updated DSR to be defined by geo coordinates based on DGPS survey superimposed on the cadastral map.</p> <p>viii) Construction of garland drains retaining wall and settling tank should be ensured to prevent erosion during rainfall and to collect silt generated during the mining activity.</p>

5.	SIA/OR /MIN/4 03071/ 2022	Sri Om Prakash Gupta (HUF) M/s. Dalki Sand Bed At: Kunal Travels Neartelephon e Bhawan Dist: Sundargarh, Pin: 770001 Email: kunalfilling@y ahoo.co.in	Sundarga rh	Sand	Proposal of Environmental Clearance for Dalki Sand Bed of an area 10acres or 4.046hectares in Dalki village under Biramitrapur tahasil of Sundargarh district of Sri Om Prakash Gupta (HUF) - EC	20.02.2023	There is a mention about Ong river at para 3.4 of EMP. But this sand bed appears to be on River Sankh as per EMP para 1.0.1 / 1.0.2. This needs clarification. Besides that, the name of Tahasil is mentioned as Panposh in some documents (signed by Tahasildar) whereas the same is mentioned as Kuarmunda in some documents (for example R.I. certificate) which needs clarification.	Dalki Sand Bed is situated on Sankh river. Whereever it is written ONG river, it is a typological error. Kindly consider it as Sankh river. This sand Bed comes under Biramitrapur tahasil. If wherever it is written Panposh or Kuarmunda Tahasil, kindly consider it as Biramitrapur tahasil and kindly make correction accordingly.	The SEAC decided to take decision on the proposal after receipt of the following from the concerned Tahasildar: (i) Project Proponent should submit the revised EMP after making necessary correction.

MEMBER SECRETARY, SEAC

Proceedings of SEAC meetings (Country Liquor) held on 28.06.2023 & 30.06.2023

Environmental Scientist

**DECISION ON PROPOSALS (MODIFICATION OF EC) RECEIVED FROM SEIAA, ODISHA
ON 28TH AND 30TH JUNE 2023**

Sl. No.	Online File No.	Proposals	Summary of the proposal	Recommendations of SEAC
1.	SIA/OR/MIN/2975 52/2023	Proposal for amendment of Environmental Clearance for Brahmani River Sand over 12.00 acres or 4.857 ha in Digambarpur village under Danagadi Tahasil of Jajpur District of Sri Gyanaranjan Mohapatra – Mod EC	<ol style="list-style-type: none"> Modification of EC as per the Replenishment Study Report EC was granted vide letter no. 2887 dated 28.09.2021. Approved Mining Plan capacity is 50000 cum/year. SEIAA has permitted for 7000 cum/year for 0.75m in 1st year for sand extraction, followed by submission of Replenishment Study Report. Both Pre monsoon and Post Monsoon has been carried out by Drone Method. However in Pre monsoon volumetric survey has been taken up. Available mineable sand in pre monsoon is 9569cum and after post monsoon is 1054.8cum due to water logging areas and 10m barrier left from water logged areas. These areas has been excluded from reserve calculation. The PP has proposed for same 1054.8 cum/year for 2nd year in application form. 	<p>The SEAC observed that the replenishment study is stated to be taken up by DGPS/drone method. Elevations for 52 and 75 points are recorded for pre monsoon (27.05.2022) and post monsoon (17.12.2022) study respectively. But difference of average R.L. of both studies in the available sand zone at post monsoon period has not been considered for calculation of replenished quantity. Calculations has been made with 1.5m average depth of sand for both pre and post monsoon.</p> <p>The SEAC decided as follows- The replenished quantity should be calculated basing on difference of average R.L. of both studies (i.e. pre and post monsoon) in the common safe workable area. The proposal is returned for resubmission after re-calculation.</p>

Sl. No.	Online File No.	Proposals	Summary of the proposal	Recommendations of SEAC
2.	SIA/OR/MIN/2996 67/2023	Proposal for amendment of Environmental Clearance for Jagadapur Sand Bed over an area of 4.856 Ha. at village- Jagadapur, Tahasil- Asika, Dist.- Ganjam of Smt. Kalpana Nayak - Mod EC	<ol style="list-style-type: none"> 1. Modification of EC as per the Replenishment Study Report 2. EC was granted vide letter no. 2057 dated 05.08.2021. 3. Approved Mining Plan capacity is 11001 cum/year. 4. SEIAA has permitted for 11001 cum/year for 1st year for sand extraction, followed by submission of Replenishment Study Report. 5. Both Pre monsoon(May 2022) and Post Monsoon (Nov 2022) has been carried out by Drone Method. 6. There is a difference in elevation of 0.74m and 19634.42cum of replenished sand. 200meter safety zone from bridge has been excluded and 7796.4cum of replenished sand obtained after excluding the area. 7. The PP has proposed for same 11001 cum/year for 2nd year in application form. 	<p>The SEAC observed that the Project Proponent has submitted replenishment study report of 2022 monsoon. The replenished quantity of 7796.4 cum/ year) is based on study report of 2022 monsoon. Project Proponent should apply for 60% of replenished quantity.</p> <p>The SEAC decided to recommend sand mining for a quantity of 11001 cum/year as proposed by Project Proponent which is less than the replenishment sand (i.e. 19634.42 cum during 2022 monsoon) till receipt of replenishment study report next monsoon (2023).</p>

Decision on proposals (Modification of EC) received from SEIAA, Odisha on 28th and 30th June 2023

Environmental Scientist, SEAC

Sl. No.	Online File No.	Proposals	Summary of the proposal	Recommendations of SEAC
3.	SIA/OR/MIN/3001 42/2023	Proposal for amendment of Environmental Clearance for Purukhi River Sand Bed Over an area of 12.30 Acres or 4.977 hectares in village Purukhi under Remuna Tahasil of Balasore District of Sri Raghunath Das – Mod EC	<ol style="list-style-type: none"> 1. Modification of EC as per the Replenishment Study Report 2. EC was granted vide letter no. 2994 dated 28.09.2021. 3. Approved Mining Plan capacity is 38000 cum/year. 4. SEIAA has permitted for 7500 cum/year for 1st year for sand extraction, followed by submission of Replenishment Study Report. 5. Extension of validity of EC for 1 year as mining was not operated due to NGT case of DSR, Balasore. 6. Now, DSR Balasore has been approved by SEIAA. 7. The PP has proposed for extension of EC for one year with same capacity as approved previously by SEIAA i.e. 7500 cum/year in application form. 	<p>The SEAC observed the following:</p> <ol style="list-style-type: none"> a) The Environmental Clearance for the proposal has been recommended for 5 years. b) The quarry was not operation due to NGT case of DSR, Balasore. <p>After detailed discussion, the SEAC recommended that the SEIAA, Odisha may consider for extension of date of submission of Replenishment Study Report since the quarry is not operational.</p>

12.	SIA/OR/MIN/2994 69/2023	Proposal for amendment of Environmental Clearance for Brahmani River Sand Quarry, Sarangpur over an area of 0.80 Acres or 0.324 Ha at village-Sarangpur, Tahasil-Bari, Dist-Jajpur of Sri Rajakisor Mishra - Mod EC	<ol style="list-style-type: none"> 1. Modification of EC as per the Replenishment Study Report 2. EC was granted vide letter no. 10278 dated 17.12.2020. 3. Approved Mining Plan capacity is 910(max) cum/year. 4. SEIAA has permitted for 910 cum/year for 1st year for sand extraction, followed by submission of Replenishment Study Report. 5. Only Post Monsoon has been carried out by field survey (volumetric survey) method. 6. Available mineable sand after post monsoon is 1092cum. 7. The PP has proposed for same 910 cum/year for 2nd year in application form. 	<p>The SEAC recommended the following:-</p> <p>i) The mining lease was granted for 5 years, and the mining plan was approved by the authorized officer of Directorate of Geology, Bhubaneswar, Odisha vide letter No.GXV-18-8601/DG dated 28th May 2018. Hence the validity of the mining lease needs to be ensured.</p> <p>ii) First survey (Pre-monsoon) is done in May 2022 after mining before closure of operation. Second survey is done in October 2022 after monsoon. As per the submitted report GPS data from Google map is used for the above-mentioned replenishment study. The observed level difference is reported to be 1 mt and 1092 cum replenished amount is inferred based on 60% of the replenishment depth of 1 mt. The survey method adopted is not accurate. However, the replenishment amount being the difference of two readings and the recommended replenishment amount being 60% of the observed replenished value the study report may be accepted. However, SEAC recommend only 910 cum (Max) as per the mining plan subject to validity of the mining lease period. It is to be ascertained if the applicant has been granted extension of the mining lease.</p>

14.	SIA/OR/MIN/3007 40/2023	Proposal for amendment of Environmental Clearance for Bhatimunda Sand Quarry over an area of 4.993hectares under Tangi Choudwar Tahasil of Cuttack District of Sri Sachin Kumar Sahoo - Mod EC	<ol style="list-style-type: none"> 1. Modification of EC as per the Replenishment Study Report 2. EC was granted vide letter no. 2409 dated 31.08.2021. 3. Approved Mining Plan capacity is 5400 (max) cum/year. 4. SEIAA has permitted for 2000 cum/year for 1st year for sand extraction, followed by submission of Replenishment Study Report. 5. Both Pre monsoon (04.06.2022) and Post Monsoon (12.03.2023) has been carried out by Drone Method. 6. Quantity of Replenished sand is calculated to be 2057.4cum and rate of replenishment shown to be 124.23%. 	<p>The SEAC observed the following:-</p> <p>i) As per the report Mining plan in respect of Bhatimunda River Sand Quarry in Bhatimunda village over an area of 12.34Acres & 4.993Ha. under Tahasil - Tangi-Choudwar. The Mining plan of the lease area has been approved by Deputy Director Geology & Authorized Officer, Directorate of Geology, Bhubaneswar vide letter No.GXVII (g)-591/19 4839 /DG,on dated 06.07.2020 in favour of Tahasildar Tangi Choudwar. The lease agreement has been conducted vide registration No. OD03808474773333U on 10.05.2022 with the Tahasildar Tangi- Choudwar, Govt of Odisha. Hence mining lease is valid as per the report.</p> <p>ii) DGPS method by drone survey was used for the replenishment study. Pre-monsoon survey was done on 04th June 2022 and post monsoon survey was carried out on 12th March 2023. Observed average replenishment is 0.026 mt (26 mm equivalent to only one inch) as per the report (Page 20). The survey is carried out in three patches and it is reported that Patch-1 of the area is covered with sand, Patch-2 is covered with clay and patch-3 is water logged area during pre and post monsoon. The replenished amount of 124.23% mentioned in page 21 of the report needs clarification and the RQP needs to report replenished volume of sand properly.</p>

SEIAA has permitted for 5000 cum/year for 1st year for sand extraction, followed by submission of Replenishment Study Report. 5. Both Pre monsoon and Post Monsoon has been carried out in 2 different methods. Pre Monsoon study by physical survey of the field by the conventional method and Post Monsoon study by Drone method. 6. Volume of Replenished sand is 1816cum (Replenishment percentage - 21%). 7. The PP has proposed for same 5138 cum/year for 2nd year in application form. 	The SEAC observed that the methodology in survey report mentions 2 methods Pre Monsoon - conventional method and Post Monsoon - UAV drone method has been adopted but relevant details for survey are available for post monsoon study. Approved Mining Plan data are taken as pre monsoon data which may not be accepted. Hence, the proposal is not recommended and Replenishment study report needs to be re-done.

MEMBER SECRETARY, SEAC

Decision on proposals (Modification of EC) received from SEIAA, Odisha on 28th and 30th June 2023

**DECISION ON MOD - EC PROPOSALS (DEFERRED CASES - 08 Nos.)
ON 28TH AND 30TH JUNE 2023**

SL NO.	File No.	Proposal	Summary of the proposal	Recommendation of SEAC
1)	SIA/OR/MIN/295014/2022	Proposal for amendment of Environmental Clearance of Nuapalli Sand Quarry over an area of 19.44 acres 7.867 Ha. At Village Nuapalli, Tehasil-Bhapur, Dist-Nayagarh of Sri Rajesh Pradhan - Mod EC	<ol style="list-style-type: none"> This proposal is for Modification of Environment Clearance as per the Replenishment Study Report submitted. Environmental Clearance was granted by SEIAA by EC Identification No. EC22B001OR144819 File no: 66179/151-MINB1/09-2021 for the sand production 1000 Cum/year with max. depth 0.5m for 1st year. During replenishment survey carried out for pre & Post monsoon period and it was found that annual replenishment is 21600cum/year. The PP has assured to do next pre and post monsoon study during the year 2022-23. Hence, as per Replenishment study report the project proponent has now proposed for 21600cum/annum instead of approved mining plan capacity 1000 Cum/year. SEAC in its meeting held on 13.01.2023 decided to defer the proposal. 	The SEAC observed that Replenishment Study submitted there is no change in RL of pre and post monsoon levels (67m). This suggests there is no replenishment in the season. Project Proponent has not submitted correct calculation as per replenishment study in the proposal. Hence no extraction can be allowed based on the present study as there is no replenishment.
2)	SIA/OR/MIN/296468/2023	Proposal for amendment of Environmental Clearance of Bhimpur Sand Bed over an area of 10.425 acres or 4.219 hectares in village Bhimpur under Purushottampur Tahasil of Ganjam District of Smt Janaki Devi Mishra – Mod EC	<ol style="list-style-type: none"> This proposal is for Modification of Environment Clearance as per the Replenishment Study Report submitted. Transfer of Environmental Clearance was granted by SEIAA vide letter No. 4774/SEIAA dated 30.06.2022 for the sand production 10000 Cum/year for one year in name of Smt. Janaki Devi Mishra. Consent to Establish was granted by SPCB, Odisha vide letter no.2846 dated 15.09.2022 for the sand production 10000 Cum/year. Replenishment survey was carried out by Drone Survey method for pre & Post monsoon period and it was found that annual replenishment is 24287.64cum/year with 0.78m difference in elevation. 	The SEAC decided to recommend quantity actually replenished as per study report (24287.64cum/year) till receipt of next replenishment study report.

Decision on MOD - EC proposals (deferred cases - 08 nos.) on 28th and 30th June 2023

Environmental Scientist, SEAC

SL NO.	File No.	Proposal	Summary of the proposal	Recommendation of SEAC
			<ol style="list-style-type: none"> 5. In first year the PP had extracted 3000cum. 6. Volume of sand (Mineable Reserve) remain available for next year is 99132.64cum and the approved mining plan production capacity is 65000cum/year which is safe extractable limit for next year. 7. The PP has assured to do next pre and post monsoon study during the year 2022-23. 8. Hence as per Replenishment study report the project proponent has now proposed for 65000cum for next year instead of approved mining plan capacity 10000 Cum/year given in 1st year. 9. SEAC in its meeting held on 13.01.2023 decided to defer the proposal. 	
3)	SIA/OR/MIN/2 96239/2023	Proposal for amendment of Environmental Clearance of Salajharia Sand Quarry over an area of 11.95 acres or 4.836 ha. at Village-Salajharia, Tahasil-Khandapada, Dist.-Nayagarh of Sri. Pramod Kumar Das – Mod EC	<ol style="list-style-type: none"> 1. Modification of EC as per the Replenishment Study Report 2. EC was granted vide letter no. EC22B001OR159171 dated 30.03.2022. 3. Approved Mining Plan capacity is 3048(max) cum/year. 4. SEIAA has permitted for 1200 cum/year in 1st year for sand extraction, followed by submission of Replenishment Study Report. 5. Drone survey method was carried out for Replenishment Study. 6. Pre Monsoon and Post Monsoon study shows Replenishment Reserve is 8299.2cum with 0.80m difference in elevation. 7. Available mineable reserve is 21266.2 cum. No mining has carried out so far. 8. The PP has proposed for same 3015 cum/year for 2nd year as per Replenishment Study Report and 3048 cum/year in application form. 9. SEAC in its meeting held on 20.02.2023 decided to defer the proposal. 	The SEAC observed that Pre-monsoon survey was conducted by Drone method and the Post-monsoon was carried out by manual method. Hence, the replenishment study report is not acceptable. Fresh replenishment study report may be submitted to consider the proposal.
