**MINUTES OF THE 224th MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P.,
HELD ON - 25th,26th & 27th 2023 AT VIJAYAWADA, A.P.**

Present: The following members were present. (Through hybrid mode Conference)

1.	Dr.G.V.R. Srinivasa Rao, Professor, Civil Engineering Department, Andhra University, Visakhapatnam	Chairperson
2.	Dr.DineshSankar Reddy. Registrar(I/C), Professor of Chemical Engineering, NIT, Tadepalligudem, West Godavari	Member
3.	Prof. G. Gnana Mani, Retd., Professor of Zoology, Andhra University, Visakhapatnam	Member
4.	Prof. U. Shameem. Chairman, Dept. of Zoology, Andhra University, Visakhapatnam	Member
5.	Dr.Kiranmai, Assistant Professor, Dept. of Biotechnology, Vikrama Simhapuri University, Nellore,SPSRNellore District	Member
6.	Prof. C. Sasidhar, Professor, Civil Engineering Dept, JNTU, Anantapur	Member
7.	Prof. N. Siva Prasad Reddy, Director (Academics), Brindavan Institute of Technology &Science, Kurnool	Member
8.	Prof. D. Bharathi, Professor, Dept. of Bio Sciences & Sericulture, Sri Padmavathi Mahila ViswaVidhyalayam, Tirupati	Member
9.	Dr.M. Sunandana Reddy, Associate Professor,RGM College of Engineering & Technology (Autonomous), Nandyal.	Member
10.	Sri Matli. Chandra Sekhar Professor, Head of Department of Civil Engineering, NIT, Warangal.	Member
11.	Dr. G. Madhavi, Associate Professor, Department of Chemistry, Sri Venkateswara University, Tirupati	Member
12.	Prof. K. ThyagaRaju, Professor, Department of Biochemistry, S.V.University, Tirupati.	Member
13.	Dr.Gummalla Prasanthi, Professor, Vijaya Institute of Pharmaceutical Sciences, Vijayawada	Member
14.	Sri. N. V Bhaskar Rao, Chief Environmental Engineer, (FAC) Andhra Pradesh Pollution Control Board. Vijayawada.	Member Secretary.

Member Secretary
SEAC

Chairman

Agenda Item: 224. 01	2.525 Ha. Silica sand of Sri K. SRINIVAS at Sy. No. 700 of Momidi Village, Chillakur Mandal, SPSR Nellore District, Andhra Pradesh State - Environmental Clearance - Reg.
SIA/AP/MIN/26 2843/2022	<p>Category: B2 (Minor mineral)</p> <p>The proposed project is for mining of Silica sand in an area of 2.525 Ha with a proposed production quantity of Silica sand - 21,269TPA with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). Mining of minerals <100 ha of mining lease area in respect of non-coal mine lease).</p> <p>The project proponent and their RQP, Sri. N. Harendra, have attended the meeting and presented their proposal. The SEAC Committee noted that:</p> <ol style="list-style-type: none">The Department of Mines and Geology submitted DSR of erstwhile SPSR Nellore District. The same is reviewed in the SEAC meeting and observed that the mineral content is available in the nearby village /cluster to the subject mine.As per the approved mining plan dt. 15.03.2023, the total provided mineral reserves are 1,18,748 TPA. The proponent proposed to excavate 21,269 TPA and Life of the mine is 5.58 years.The Committee noted that as per the cluster letter dated: 16.03.2022 issued by the Asst. Director of Mines & Geology, SPSR Nellore there are three existing quarry leases and One lease area with LoI stage within the radius of 500 mtrs area. The total cluster area granted on and after 09.09.2013 as mentioned in S.O.No. 2269 (E) dated 01.07.2016 is < 5.0 Ha.The proposed project is located about 360m to Momidi Reserved Forest and SEAC in its 188th meeting recommended to raise ADS for submission of NOC from Forest Department. Accordingly, the project proponent has submitted reply to the ADS in the parivesh portal on 03.07.2023 submitting the NOC issued Forest Department vide letter dt. 20.06.2023.The proponent volunteered to provide Water treatment plant to the Momidi village as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine. <p>The Committee after examining the project proposals, presentations, mining plan, ADS, MoEF&CC Notifications & OMs and detailed deliberations, recommended to issue Environmental clearance with following additional conditions:</p> <ol style="list-style-type: none">The proponent shall comply with the proposals furnished in the Environmental management plan.The project proponent shall develop greenbelt of 1km along approach roads & village Roadsides.The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time.The proponent shall carry out suppression of dust generated due to transport vehicles by continuous water spraying using tankers.The vehicles carrying the mines material shall be covered with tarpaulin during

MINUTES OF THE 224th MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P., HELD ON - 25th,26th & 27th 2023 AT VIJAYAWADA, A.P.

	<p>vehicular movement.</p> <p>7. The project proponent shall not use village roads/canal bund roads for mineral transportation purpose.</p> <p>8. The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.</p> <p>9. The project proponent shall comply conditions stipulated in the NOC issued by Forest Department vide letter dt. 20.06.2023.</p> <p>10. The project proponent shall not cause any damage to the nearby agricultural lands.</p> <p>11. The project proponent shall comply with the SEAC sub-committee recommendations on Silica sand mines in Nellore districts, and also guidelines as mentioned in the approved mining plan, Sand monitoring and enforcement guidelines 2020.</p>
Agenda Item. 224.02	3.161 Ha. Mining of Silica sand of M/s. P. L. Rao Mines & Minerals at Survey No. 38, Siddavaram Village, Kota Mandal, Tirupati (formerly SPSR Nellore) District, Andhra Pradesh - Environmental Clearance - Refer back case - Reg.
SIA/AP/MIN/40 0657/2022	<p>Category: B2.</p> <p>The proposed project is for mining of Silica sand in an area of 3.161 Ha with a proposed production quantity of Silica sand - 15,384 TPA with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). Mining of minerals (<250 ha of mining lease area in respect of non-coal mine lease).</p> <p>a) The proposal was appraised in the 200th SEAC meeting and the Committee noted that as per cluster letter issued by the Asst. Director of Mines & Geology, Nellore vide Lr. dt.22.06.2022 there are 05 existing quarry leases within the radius of 500 mtrs area and 2NOs quarry lease were granted before 09.09.2013 and 3 LOIs issued. The project proponent obtained LOI on 14.03.2022. No cluster. Total area is 3.161 Ha. B2 category.</p> <p>b) Also, the proponent volunteered to allocate funds for providing water treatment plant to Siddavaram village as a part of Corporate Social Responsibility (CSR) activity and shall maintain till life of the mine and life of the mine is 10 years.</p> <p>c) The Committee after examining the project proposals, presentations, MoEF&CC' Notifications & OMs and detailed deliberations, recommended to issue Environmental Clearance with a following additional conditions:</p> <ol style="list-style-type: none">1. The proponent shall comply with the proposals furnished in Environmental management plan2. The project proponent shall develop greenbelt along approach roads & village Roadsides3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.4. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time.5. The project proponent shall comply with Silica sand mine guidelines 2020 of govt of India <p>d) The project proposal was placed in 197th SEIAA meeting and Decision of SEIAA is as follows: "Refer back to SEAC to examine the issue of TOR with public hearing as M/s. Shiv</p>

Member Secretary
SEAC

Chairman
SEAC

	<p>Shakthi Mines & Minerals was recommended to issue EC in the same cluster"</p> <p>e) This proposal was again placed in the 204th SEAC meeting and the SEAC recommended to issue EC because of as per the cluster letter issued by the ADMG M/s. Shiv Shakthi Mines & Minerals is an LOI stage. Hence, Earlier meeting recommendation holds good.</p> <p>f) The project proposal was placed in 201st SEIAA meeting and Decision of SEIAA is as follows "Refer back to SEAC to examine the issue of TOR with public hearing as M/s. Shiv Shakthi Mines & Minerals was recommended to issue EC on 14.11.2022 in the same cluster".</p> <p>g) This proposal is again placed in the 213th SEAC meeting and decision of the SEAC is as follows: "As on date of appraisal, the cluster letter issued by ADMG was taken as the reference by SEAC, the mine falls in LOI stage and accordingly appraised. As on the cluster letter dated 22/06/2002 issued by the Assistant Director of mines and Geology M/s. Shiv Shakthi Mines & Minerals is an LOI stage Hence, it may not be counted for calculating cluster area. Hence, earlier meeting recommendations holds good."</p> <p>h) The project proposal was placed in 210th SEIAA meeting and Decision of SEIAA is as follows:- "Refer back to SEAC to examine the issue of TOR with public hearing as 3.525 Ha of M/s. Shiv Shakthi Mines & Minerals was issued with EC on 14.11.2022 in the same cluster. Hence, the cluster area may be more than 5 Ha and this may be examined"</p> <p>i) Again this proposal is placed 224th SEAC meeting and the project proponent and also their consultant have not attended the meeting. The committee recommend to raise ADS seeking reasons for not attending the meeting and also to place this case only after the project proponent request the SEAC to place their proposal in the SEAC meeting.</p>
Agenda Item No: 224.03	<p>3.173 Ha mining of Black galaxy Granite of M/s. Apple Granites Limited, at Sy. No. 55/6P2 (Extent of 0.931Ha/2.30 Acres), 121/2P2 (Extent of 0.777Ha./1.92Acres), 121/3P1 (Extent of 0.267Ha./0.66Acres), 122/3P1 (Extent of 0.675Ha./1.67Acres), 123/1 (Extent of 0.178Ha./0.44Acres), 123/5P1 (Extent of 0.344Ha./0.85Acres), R.L Puram Village, Chimakurthy Mandal, Prakasam District, Andhra Pradesh - Environmental Clearance - Reg.</p>
SIA/AP/MIN/40 2049/2022	<p>Category: B2 (Minor mineral)</p> <p>The proposed project is for mining of Black galaxy Granite in an area of 3.173 Ha. with a proposed production quantity of 11660 m³/Annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). MINUTES OF THE 224th MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P., HELD ON - 25th,26th & 27th 2023 AT VIJAYAWADA, A.P.

- mineral content is available in the nearby village /cluster to the subject mine
- b) As per the Modified approved mining plan dt.11.04.2023, the total provided mineral reserves are 1,14,480 m³. The proponent proposed to excavate 11,660 m³/Annum and Life of the mine is 9.81 years.
- c) The Committee noted that as per the cluster letter issued by the Asst., Director of Mines & Geology, Ongole vide Letter dated:29.06.2022, there are 11 existing quarry lease within the radius of 500 mtrs area. The total cluster area is 4.407 Ha which is < 5.0 Ha.
- d) The project proposal was placed in 204th SEAC meeting and the committee recommended to raise ADS for modified mining plan as there is a office building and granite cutting & polishing unit within the proposed working plan.
- e) The project proponent has submitted reply to the ADS on 03.03.2023 stating that they have modified mining plan vide approval dated 11.04.2023 and as per the modified mining plan
"The structures like granite & polishing unit, building located in the lease applied area is lessees own structures and the same structure skeleton will be dismantled as and when required for mining excavation and some structures will be used as rest shelters".
- f) The proponent volunteered to provide 2 oxygen concentrators and 2 no of surgical beds to the Chimakurthy PHC as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.

The Committee after examining the project proposals, presentations, mining plan, ADS reply, MoEF&CC Notifications & OMs and detailed deliberations, **recommended to issue Environmental clearance** with following additional conditions:

1. The proponent shall comply with the proposals furnished in the Environmental management plan.
2. The project proponent shall develop greenbelt of 1km along approach roads & village Roadsides.
3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.
4. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time.
5. The proponent shall carryout suppression of dust generated due to transport vehicles by continuous water spraying using tankers.
6. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
7. The project proponent shall not use village road for mineral transportation purpose.
8. The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.
9. The project proponent shall procure 0.5 Ha of additional land for granite waste disposal.
10. The project proponent shall dismantle the their own granite & polishing unit, building located in the lease applied area as and when required for mining excavation and shall use other structures as rest shelters as committed by the proponent in the ADS reply and also in the modified mining plan dated 11.04.2023.

**Agenda Item
No:224.04**

0.49 Ha. Mining of Road Metal & Building Stone of Sri PudiParadesi Naidu at Sy. No. 109, Mamidipalem Village, Anakapalli Mandal, Visakhapatnam District,

	Andhra Pradesh- Environmental clearance - Reg.
SIA/AP/MIN/43 1507/2023	<p>Category: B2 at par with B1 (Minor Mineral).</p> <p>The proposed project is for mining of Road Metal & Building Stone in an area of 0.49 Ha with a proposed production capacity of 23,002 Cum/ Annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).</p> <p>The project proponent and their consultant, M/s. SV Enviro labs have attended the meeting and presented the case. The SEAC committee noted that:</p> <ol style="list-style-type: none">The Department of Mines and Geology submitted DSR of erstwhile Visakhapatnam District. The same is reviewed in the SEAC meeting and observed that the mineral content is available in the cluster to the subject mine.As per the approved mining plan dt. 29.06.2021, the total provided mineral reserves are 1,48,572 m³. The proponent proposed to excavate 23,002 m³/Annum and Life of the mine is 6.45 years.The project proponent has obtained Standard TOR with Public hearing on 31.03.2022. The public hearing was held on 02.05.2023.Public Hearing Details: There are no specific issues raised during the public hearing.Reply of the proponent during the public hearing is as follows: The consultant has spoken on behalf of project proponent and informed that this is a fresh mining proposal and clarified that the controlled sequential blasting will be adopted, which gives less effect of vibrations and rocks falling in the surrounding areas. He also ensured that 1000 plants will be planted as per the commitment. He also informed that an amount of Rs.2.2 Lakhs is allocated under CSR for the two villagers, which will be spent for the infrastructural development and other requirements in the villages.The base line data was collected from October, 2022 to December, 2022 and the predominant wind direction is observed to be North to South. The maximum concentration of SPM(PM₁₀) is observed to be 69.3 $\mu\text{g}/\text{m}^3$. The incremental concentration is 1.51 $\mu\text{g}/\text{m}^3$ and GLC of SPM will fall at a distance of 0.96 Km towards southern direction from the mine lease area.The proponent volunteered to provide water treatment plant to the Mamidipalem village as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine. <p>The Committee after examining the project proposals, presentations, mining plan, MoEF&CC Notifications & OMs, EIA report, PH minutes and detailed deliberations, recommended to issue Environmental clearance with following additional conditions:</p> <ol style="list-style-type: none">The proponent shall comply with the proposals furnished in the Environmental management plan and EIA report.

- d. The project proponent obtained TOR with public hearing on 07.01.2020 and public hearing was held on 22.09.2022.
- e. **Public hearing details: damage to wild Animals, Ancient rock painting, crop damages and fodder for cattle** are the specific issues raised in the public hearing.
- f. The reply by the proponent for the issues raised in the PH is as follows:
Sri. Mamilla Vijaya Baskhar Reddy, Jammalamadugu, Project Proponent informed that he has obtained qualifications of Diploma in Mining, AMIE Mining and Lateral Mining and B.Tech, at the age of 50 years, due to interest in the field Mining. He informed that, the area he applied for mine lease is devoid of any vegetation or grass and located at a distance of about 2 Km from the ancient pre-historic rock paintings of Chintakunta, moreover the Chintakunta pond mentioned is 500 mtrs downwards from the proposed mine area. He further informed that they will conduct mining activities without obstructing the flow of water stream and controlling dust by providing dust collectors, Sprinkling water on tipper movement roads every 2 hours, deploying a competent mine manager. He stated that they will operate the mine with the cooperation of the villagers as their family member following their suggestions. He informed that the management of the proposed mine will remit the Royalties and contribute to the income of the State. He further Stated that the management of proposed mine will spend part of the income generated from the mine, to provide water plant, ambulance, school books and other facilities for the villagers. He informed that, use of advanced nano technology blasting, series blasting, delay detonators, water sprinkling on rocks & ramp every 2 hours through water tankers will be undertaken, to control dust emissions. In response to the query raised on the ownership of the proposed mine, he informed that he along with his spouse are the Board of Directors of M/s JAP Natural stones mine and stated that any concerns on the project may be addressed directly to him considering him as their family member so as to find solution amicably in the interest of the surrounding villagers and the environment.
- g. The Base line data was collected from Dec, 2020 to Feb, 2020. The predominant wind direction is observed to be East to West.
- h. The maximum concentration of SPM is observed to be 67 µg/m³. The incremental concentration is 3.43 µg/m³. The GLC of SPM will fall at 0.94 Km in West direction of the mine.
- i. The proponent volunteered to provide Ambulance to Muddanur and Digital class rooms to primary school in **Chintakunta** Village as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.
- j. This proposal was appraised in the 212th SEAC meeting and the recommended to raise ADS for following:
1. Modified mining plan after demarcating 11.0 Ha as non-mining area and shall be used for Grazing and plantation.
 2. Convert Mining of mineral from M-sand to Boulders for M-sand.
 3. Accordingly, the project proponent has submitted modified mining dt. 04.05.2023 through ADS reply on 10.05.2023.

Member Secretary
SEAC

- k. The committee noted that the project proponent has proposed to leave 11.0 Ha as non-mining zone towards southern side to facilitate for cattle grazing and for development of green belt. The project proponent has submitted the approved modified mining plan dated: 04.05.2023 incorporating the above.

The Committee after examining the project proposals, presentations, Modified mining plan, ADS reply MoEF&CC Notifications & OMs, EIA report, PH minutes and detailed deliberations, **recommended to issue Environmental clearance** with following additional conditions:

1. The proponent shall comply with the proposals furnished in the Environmental management plan and EIA report.
2. The project proponent shall develop greenbelt of 1000 plants along approach roads & village Roadsides.
3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.
4. The project proponent shall carryout the mining with proper benches.
5. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time.
6. The proponent shall carryout suppression of dust generated due to transport vehicles by continuous water spraying using tankers.
7. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
8. The project proponent shall not use village road/ Canal bund roads for mineral transportation purpose.
9. The project proponent shall carryout mining with proper benches.
10. The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.
11. The project proponent shall comply assurance/ promises given in the public hearing.
12. The project proponent shall leave 11.0 Ha towards southern side as the non-mining zone and shall utilize the non-mining zone for cattle grazing and development for greenbelt.
13. The project proponent shall provide 700m trench with rocky bund on southern side to prevent surface runoff and shall strengthen the southern side water pond.
14. The project proponent shall not dump any waste in the water pond.
15. The project proponent shall adopt for controlled blasting and shall take all measures for protecting ancient rocks paintings if any in the area.

Agenda Item
No: 224.07

3.0 Ha, Mining of Road metal, Building stone & Ballast of Sri. N. Uday Kumar Reddy at Sy. No.1306/P of Devapatla Village, Sambepalli Mandal, Annamayya District, Andhra Pradesh State - Environmental Clearance - Reg.

SIA/AP/MIN/41
5097/2023

Category: B2 (Minor mineral).

The proposed project is for mining of **Road metal, Building stone & Ballast in an area of 3.0 Ha, with** a proposed of production quantity of **68,081M³/Annum** with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.

SEAC

MINUTES OF THE 224th MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P., HELD ON - 25th, 26th & 27th 2023 AT VIJAYAWADA, A.P.

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).

The representative of the project and their consultant, M/s. Ecomen Laboratories Pvt, Ltd, have attended the meeting and presented their proposal. The SEAC Committee noted that:

1. The Department of Mines and Geology submitted DSR of erstwhile Kadapa District. The same is reviewed in the SEAC meeting and observed that the mineral content is available in the nearby village /cluster to the subject mine.
2. As per the approved mining plan dt. 07.01.2023 the total provided mineral reserves are 906006 m³. The proponent proposed to excavate 68081 m³/Annum and Life of the mine is 13.3 years.
3. The Committee noted that as per the cluster letter issued by the Asst. Director of Mines & Geology, Kadapa vide Letter dated: 09.01.2023, there are no existing quarry lease within the radius of 500 mtrs area. **The total cluster area is <5.0 Ha.**
4. The proponent volunteered to provide Digital class rooms and sports kits to **Devapatla Z.P High school** as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.
5. This proposal was placed in the 211th SEAC meeting and the committee, recommended to raise ADS for submission of Forest NOC. Accordingly, the project proponent has submitted ADS reply on 19.05.2023 duly furnishing forest NOC vide letter dt. 04.05.2023 in the parivesh portal.

The Committee after examining the project proposals, presentations, mining plan, ADS reply, MoEF&CC Notifications & OMs and detailed deliberations, **recommended to issue Environmental Clearance** with following conditions:

1. The proponent shall comply with the proposals furnished in the Environmental management plan and EIA report.
2. The project proponent shall develop greenbelt of 1km along approach roads & village Roadsides.
3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.
4. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time.
5. The proponent shall carryout suppression of dust generated due to transport vehicles by continuous water spraying using tankers.
6. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
7. The project proponent shall not use village road/ Canal bund roads for mineral transportation purpose.
8. The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.
9. The project proponent shall comply conditions stipulated in the Forest NOC.

Agenda Item
No:224.08

9.546 Ha Mining of Quartzite of M/s A.R. Apex Agro and Mines Pvt Ltd, at Sy. 19(P) of Pedachamalapalli Village, Mentada Mandal, Vizianagram District, Andhra Pradesh- Refer Back Environmental Clearance - EIA Case - Reg.

Member Secretary

Chairman
SEAC

SIA/AP/MIN/41
7015/2023

Category: B2 at par with B1 (Minor mineral)

The proposed project is for mining of **Quartzite in an area of 9.546 Ha. with a proposed of production quantity of 1,36,693 TPA** with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).

The project proponent and their consultant, M/s. HECS have attended the meeting and presented the case. The SEAC committee noted that:

- a) The Department of Mines and Geology submitted DSR of erstwhile **Vizianagram** District. The same is reviewed in the SEAC meeting and observed that the mineral content is available in the nearby village /cluster to the subject mine.
- b) As per the approved mining plan dt.10.07.2019, the total provided mineral reserves are 9343610 Tonnes. The proponent proposed to excavate **1,36,693 TPA** and Life of the mine is 68 years.
- c) The project proponent has obtained TOR with public hearing on 25.06.2020 and public hearing was held on 23.04.2022.
- d) **Public hearing details:** Employment issues, crop damages and health issues are the specific issues raised in the PH.
- e) The reply by the proponent for the issues raised in the PH is as follows:
Sri Ashwath Narayana, consultant, in response to the villager's suggestions has informed that there will not be blasting operations, mining will be carried out is a stretch only, load trucks will be covered with tarpaulin, they will carry out sprinkling and speed of the trucks will be controlled. He also stated that they will provide jobs to the local villagers only and will consider all the remaining suggestions given by the participants and requested the villagers to support them.
- f) The base line data was collected from March, 2022 to May, 2022. The predominant wind direction is observed to be East to West.
- g) The maximum concentration of SPM is observed to be 59.15 $\mu\text{g}/\text{m}^3$. The incremental concentration is 4.25 $\mu\text{g}/\text{m}^3$. The GLC of SPM will fall at 0.8 Km in Eastern direction of the mine.
- h) The proponent volunteered to provide water treatment plant to **Pedachamalapalli** Village as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.
- i) The project proposal was placed in the 208th SEAC meeting and the Committee after examining the project proposals, presentations, mining plan, MoEF&CC' Notifications & OMs, EIA Report, PH minutes and detailed deliberations, recommended **to issue** Environmental Clearance with following conditions:
 1. The proponent shall comply with the proposals furnished in Environmental management plan.
 2. The project proponent shall develop greenbelt of 1km along boundary lease area and approach roads & village Road sides.
 3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.
 4. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time.

MINUTES OF THE 224th MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P., HELD ON - 25th,26th & 27th 2023 AT VIJAYAWADA, A.P.

	<ol style="list-style-type: none">5. The project proponent shall develop medicinal plants and fruit plants in surrounding villages.6. The project proponent shall give employment to local people and shall take safety measures to workers.7. The project proponent shall comply with other assurances given in the public hearing.8. The proponent shall not carryout drilling and blasting.9. The project proponent shall carryout water sprinkling in the approach roads.10. There is no Temple in the proposed mine lease area as per the KML.11. The proponent shall provide 1480m trench all around the mine lease area to prevent surface runoff. <p>j) The proposal was placed in the 211th SEIAA meeting held on 04.04.2023 and the decision is as follows: "Decision of SEIAA:- Refer to SEAC to examine the distance of nearest abitation w.r.t. Hon'ble NGT order."</p> <p>k) As per the directive of the SEIAA cited above, this proposal was again appraised in the 224th SEAC meeting and the KML file uploaded in the Parivesh Portal. The SEAC committee observed that the Badevalasa village is about 200m from the proposed mine and there by meeting the distance criteria stipulated in the Hon'ble NGT Order dated 09.07.2020 in O.A. No 304/2019. Hence, the committee opined that the previous meeting minutes holds good as the project is complying with the Hon'ble NGT order.</p>
Agenda Item No:224.09	0.70 Ha. Mining of Road metal of Sri Ravi Babu V.SPeddireddi at Sy No: 15, S.Pydipala Village, Rowthulapudi Mandal, East Godavari District, Andhra Pradesh - Environmental Clearance ADS reply - EIA Case - Reg.

give priority to the local villagers in employment in the proposed mine and take required environment production measures. He informed that they will provide roads, drinking water plant in the village and other undertake development activities as suggested by villagers.

- f) The base line data was collected from October 21 to December 2021 and the predominant wind direction is observed to be East and Northeast to West and South west. The maximum concentration of SPM(PM₁₀) is observed to be 63.80 µg/m³. The incremental concentration is 2.95 µg/m³ and GLC of SPM will fall at a distance of 0.6 Km towards West and South west direction from the mine lease area.
- g) The proponent volunteered to provide Water Treatment Plant to the Moyalapalli village as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.

The Committee after examining the project proposals, presentations, mining plan, MoEF&CC Notifications & OMs, EIA report, PH minutes and detailed deliberations, **recommended to issue Environmental Clearance** with following additional conditions:

1. The proponent shall comply with the proposals furnished in the Environmental management plan and EIA report.
2. The project proponent shall develop greenbelt of 1km along approach roads & village Roadsides.
3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.
4. The project proponent shall carry out the mining with proper benches.
5. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time.
6. The proponent shall carry out suppression of dust generated due to transport vehicles by continuous water spraying using tankers.
7. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
8. The project proponent shall not use village roads/canal bund roads for mineral transportation purpose.
9. The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.
10. The project proponent shall provide trench of 700 meters towards Southern side direction to prevent surface runoff and shall avoid silt content entering into the water tank.
11. The project proponent shall strengthen nearby water tank.
12. The project proponent shall comply assurance/ promises given in the public hearing.

MINUTES OF THE 224th MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P., HELD ON - 25th, 26th & 27th 2023 AT VIJAYAWADA, A.P.

solutions Pvt Ltd have attended the meeting and presented the case. The SEAC committee noted that:

- a) The Department of Mines and Geology submitted DSR of erstwhile Vizianagaram District. The same is reviewed in the SEAC meeting and observed that the mineral content is available in the nearby village /cluster to the subject mine.
- b) As per the approved mining plan dt. 12.06.2019, the total provided mineral reserves are **5043201 Tonnes**. The proponent proposed to excavate 320320 TPA and Life of the mine is 15.74 years.
- c) The project proponent has obtained Standard TOR with Public hearing on 12.08.2022. The public hearing was held on 18.11.2022.
- d) **Public Hearing Details:** Dust Pollution, Cattle fodder issues are the main issues raised.
- e) **Reply of the proponent during the public hearing is as follows:** Sri P. Hari Prasad, Consultant on behalf of proponent, informed that they will give jobs, will give compensation to the lands, the lands will not be damaged, there will be norms to be followed for water disposal and will talk with all the villagers. He stated that he will welcome the connecting units, if anyone proposes and will help the villagers to their extent possible.
- f) The base line data was collected from March 22to May 2022 and the predominant wind direction is observed to be South to North. The maximum concentration of SPM(PM₁₀) is observed to be 63.6 µg/m³. The incremental concentration is 0.330 µg/m³ and GLC of SPM will falls within mine lease area.
- g) The proponent volunteered to provide Health Camps & Water Treatment Plant to the Bheemavaram village as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.

The Committee after examining the project proposals, presentations, mining plan, MoEF&CC Notifications & OMs, EIA report, PH minutes and detailed deliberations, **recommended to constitute** a subcommittee to verify the objections/facts as per public hearing minutes.

Agenda Item No: 224.17

24.992 Ha. Quartzite mine of M/s. Planet Mines and Minerals Survey No: 1338 (19.442Ha) & 1339 (5.550Ha), Mangapatnam Village, MuddanurMandal, YSR Kadapa District, Andhra Pradesh State - Environmental Clearance - EIA Case - Reg.

SIA/AP/MIN/42 4963/2023

Category: B2 at par with B1

The proposed project is for mining of Quartzite in an area of **24.992 Ha** with a proposed production capacity of **2,00,082 TPA** with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.

The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). Mining of minerals (≤250 ha of mining lease area in respect of non-coal mine lease).

The proponent of the project and their consultant, M/s. Space Enviro Solutions have

Member Secretary
SEAC
MB

Chairman
SEAC

attended the meeting and presented the case. The SEAC committee noted that:

- a) The Department of Mines and Geology submitted DSR of erstwhile YSR Kadapa District. The same is reviewed in the SEAC meeting and observed that the mineral content is available in the nearby village /cluster to the subject mine.
- b) As per the approved mining plan dt. 29.03.2022, the total provided mineral reserves are 68,57,436 Tonnes. The proponent proposed to excavate 200082 TPA and Life of the mine is 34.0 years.
- c) The project proponent has obtained Standard TOR with Public hearing on 26.04.2022. The public hearing was held on 08.02.2023.
- d) **Public Hearing Details:** Agriculture crops damages, dust pollution, cattle grazing, House cracks and employment are the main issues raised in the public hearing.
- e) **Reply of the proponent during the public hearing is as follows:** Sri Ramesh, Reddy, Management Representative, stated that the management will provide drinking water facility in Mangapatnam before stating the mining project and take necessary measures for dust control and environment protection by planting trees on either side of the roads giving priority to the local villagers and women in employment in the proposed mine. He informed that they will conduct health camps in the villages with their CSR funds. he further stated that techniques like controlled sequence blasting method will be adopted to minimize the impact in the surrounding area.
- f) The base line data was collected from March 2022 to May 2022 and the predominant wind direction is observed to be East to West. The maximum concentration of SPM(PM₁₀) is observed to be 43.5 µg/m³. The incremental concentration is 1.91 µg/m³ and GLC of SPM will fall at a distance of 1 Km towards Western direction from the mine lease area.
- g) The proponent volunteered to provide Water treatment plant to the Mangapatnam and Chotapalli village as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.

The Committee after examining the project proposals, presentations, mining plan, MoEF&CC Notifications & OMs, EIA report, PH minutes and detailed deliberations, **recommended to issue Environmental Clearance** with following additional conditions:

1. The proponent shall comply with the proposals furnished in the Environmental management plan and EIA report.
2. The project proponent shall develop greenbelt of 1km along approach roads & village Roadsides.
3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.
4. The project proponent shall carryout the mining with proper benches.
5. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time.
6. The proponent shall carryout suppression of dust generated due to transport vehicles by continuous water spraying using tankers.
7. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
8. The project proponent shall not use village roads/canal bund roads for mineral transportation purpose.
9. The project proponent shall restrict vehicles movement during the peak hours to avoid accidents.

2006 and its amendments thereof - (i). Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).

The proponent of the project and their consultant, M/s. Right source industrial solutions Pvt Ltd have attended the meeting and presented the case. The SEAC committee noted that:

- a) The Department of Mines and Geology submitted DSR of erstwhile Vizianagaram District. The same is reviewed in the SEAC meeting and observed that the mineral content is available in the nearby village /cluster to the subject mine.
- b) As per the approved mining plan dt. 14.06.2019, the total provided mineral reserves are 7248878 Tonnes. The proponent proposed to excavate **366730 TPA** and Life of the mine is 19.7 years.
- c) The project proponent has obtained Standard TOR with Public hearing on 13.07.2022. The public hearing was held on 18.11.2022.
- d) **Public Hearing Details:** Majority of the people opposed the mine due to crop issues, land issues, dust nuisance are main issues raised during the public hearing.
- e) **Reply of the proponent during the public hearing is as follows:** Sri P. Hari Prasad, Consultant on behalf of proponent, informed that they will carry out mining on top of the hill for 50 m only, which will not affect either villagers or cattle, Sy No. 127 is very huge area in which the proposed area is very small, the agricultural lands are not included in the mining area and they will use only government land. He is stated thaty will help the villagers in their needs, carry out mining as per the norms, they can represent if they have any problem, the village issues can be solved by forming a coordination committee and will give jobs based on the skills.
- f) The base line data was collected from March 22to May 2022 and the predominant wind direction is observed to be South to North. The maximum concentration of SPM(PM₁₀) is observed to be 63.6 $\mu\text{g}/\text{m}^3$. The incremental concentration is 0.330 $\mu\text{g}/\text{m}^3$ and GLC of SPM will falls within mine lease area.
- g) The proponent volunteered to provide Health Camps & road maintenance to the Bheemavaram village as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine.
- h) This proposal is appraised with following conditions:
 1. The proponent shall comply with the proposals furnished in the Environmental management plan and EIA report.
 2. The project proponent shall develop greenbelt of 1km along approach roads & village Roadsides.
 3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.
 4. The project proponent shall carryout the mining with proper benches.
 5. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time.
 6. The proponent shall carryout suppression of dust generated due to transport vehicles by continuous water spraying using tankers.
 7. The vehicles carrying the mines material shall be covered with tarpaulin during vehicular movement.
 8. The project proponent shall not use village roads/canal bund roads for mineral transportation purpose.
