 - (i) This is a proposal for Extension of validity EC for production of 0.474 KLD Mohua Flower Based out still country Liquor shop Manufacturing unit, Main O.S Liquor Shop Jangalpadu, At- Badanilapur, Dist.- Gajapati.
 - (ii) The project proponent has obtained EC from SEIAA, Odisha vide EC letter no. 7797/SEIAA dated 03.02.2020 and later EC extended for excise license period vide letter no. 1868/SEIAA dated 26.07.2021 in favour of Sri Madhab Patra (Licensee) for production of 0.474 KLD Mohua Flower Based out still country Liquor shop Manufacturing unit, Main O.S Liquor Shop Jangalpadu, At- Badanilapur, Dist.- Gajapati.
 - (iii) The excise licensee No. 11/2019/0022 issued by Superintendent of Excise, Berhampur is valid upto 31.03.2024
 - (iv) The PP has submitted compliance of earlier EC conditions.
 - (v) Any deficiencies/omission have been noticed in the above documents- Nil
2. Whether SEAC recommended the proposal – The proposal was placed in the SEAC meeting held on 28th & 30th June 2023 and the SEAC reiterates its earlier recommendation for revalidation of country liquor proposals as decided in its meeting held on 31.10.2019 and opined that revalidation of Environmental Clearance is not required for the unit as it is already operational unit. Further, the SEAC opined that fresh Environmental Clearance is also not required for the proposal as it is not shifting the unit to other location and / or going for higher production capacity. The SEAC recommended to return these proposals to SEIAA, Odisha with a request to communicate the proponents as above.

Decision Of Authority: Approved

1. After detailed deliberation the Authority allowed extension of validity of EC upto excise license period i.e. 31.03.2024 subject to conditions that the Project Proponent (lease holder) shall deposit Rs.50,000/-, with the respective District Environment Society for raising 100 plants of native species especially Mahua Plant (*Madhuca Indica*) within 2 years in a suitable location or village common land adjoining to the unit.
2. The other stipulated terms and conditions of the original EC initially granted remains same subject to satisfactory compliance to all the stipulated terms and conditions of EC.

- (iii) This is a proposal for mining of Stone from of Kantiapada Stone Quarry over an area of 0.76 acres or 0.307 ha, at village-Kantiapada, Tahasil-Patna, Dist-Keonjhar, Odisha.
- (iv) The mining area is a part of Survey of India Toposheet No. F45N10 bounded by Latitude: 21°42'30.00" N to 21°42'37.40" N and Longitude: 85°44'27.80" E to 85°44'29.70" E.
- (v) The mining lease is an identified sairat source in the DSR. The Kantiapada Stone Quarry sairat source will be leased out under the OMMC Rules, 2016 by Tahasildar, Patna to the successful bidder (lessee) on the basis of public auction for a lease period of 5 years.
- (vi) Documents submitted: -Form-1, D.L.C., PFR, checklist, Mining Plan and approval letter, DSR, Village sheet, Cluster certificate from Tahasildar, topo map etc.
- (vii) Whether submitted KML file of the lease area-Yes
- (viii) Whether submitted scrutiny fee-Yes, of Rs.1000/- through e-Challan Ref. No.-359FD2086A dated 14.03.2023
- (ix) Distance from nearest sanctuary/ESZ- Similipal WLS-59.0 Km
- (x) Whether the lease area coming in DLC report-No, clarified by the Tahasildar, Patna, vide letter 808. dated 03.03.2023.
- (xi) Whether the lease area reflecting in DSR-Yes
- (xii) Method of mining-Semi-mechanized no drilling and blasting will be involved
- (xiii) Distance from nearest road bridge-5.0 km, village road -0.08 km, a channel of Sati-50 meter.
- (xiv) Whether it is part of cluster –Yes, Godipokhari Stone quarry coming under cluster over an area of 0.86 acres for EC granted earlier. The total cluster lease area is 0.65 Ha and B2-project
- (xv) Whether EC obtained earlier-Yes from DEIAA, Keonjhar vide letter no. 862 dated 19.02.2013 and there is valid EC
- (xvi) Date of approval of Revised mining plan- the Joint Director of Geology, Keonjhar on 04.11.2022.

Minutes of 129th Meeting of SEIAA, Odisha Held on 25.07.2023 & 27.07.2023

- (xvii) As per MoEF & CC OM dated 28.04.2023, project proponent has applied for reappraisal in SEIAA.
- (xviii) EC granted by DEIAA, and its a running mine with 2 years mining has been completed.
- (xix) Production capacity per annum-420 cum/annum (max.), total production in 3 years period-1253 cum, Geological reserve-11774 cum and Mineable reserve-1253 cum.
- (xx) Whether the DSR has been prepared as per the MoEF& CC, Govt. of India Notification S.O. 3611(E) dated 25.07.2018, Sustainable sand mining guidelines-2016 and Enforcement & Monitoring Guideline for sand mining-2020- No
- (xxi) EMP budget is 0.80 Lakh (Capital Cost) and Rs. 0.30 Lakh (Recurring cost).
- (xxii) Any deficiencies/omission have been noticed in the above documents- Nil

1. **Whether SEAC recommended the proposal** – The proposal was placed in the SEAC meeting held on 28th & 30th June 2023 and the SEAC recommended to grant EC valid from the date of EC accorded up to the lease period with following additional conditions.
- Consent / NoC shall be obtained from the concerned authority if village road is to be used for transportation. The said road shall also be maintained by the lessee.
 - In view of likely revision of DSR the mention of this deposit with final coordinates is to be ensured
 - Plantation programme to be completed within first two years and to be maintained in remaining years.
 - Depth of Mining as proposed should not be beyond 6m from the ground level.
 - Mitigation measures for flying Rock for safety be put in place.
 - Stone quarry project proponent need to maintain periodic health check-up records of their employees and ensure use of face mask by workers in crushing and handling sections of the stone quarry for ensuring that working personnel are not affected by silicosis.
 - The boundary area of the deposit as per the revised / updated DSR to be defined by geo coordinates based on DGPS survey superimposed on the cadastral map.
 - Construction of garland drains retaining wall and settling tank should be ensured to prevent erosion during rainfall and to collect silt generated during the mining activity.
2. The proposal was placed in the 128th meeting of SEIAA held on 20.07.2023 and was decided that the proposal is deferred to the next meeting for discussion.

Decision Of Authority:

The Authority observed that the stoner quarry has been operated in violation of MoEF & CC O.M. no. F. No. L-11011/175/2018-IA-II (M) Dated: 12.12.2018. After detailed deliberation in the matter, the Authority decided to seek clarification on the following:

- (i) The PP is required to submit certificate with UDIN from Chartered Accountant (CA) showing the total project cost and sale value of the product from 12.12.2018 to till date.

AGENDA NO.129.37

Proposal No.	SIA/OR/MIN/426292/2023
Date of application	11.05.2022
File No.	426292/819-MINB1/06-2023
Project Type	Proposal for ToR
Category	B1
Project/Activity including Schedule No.	1(a) Mining of minerals
Name of the Project	Proposal for grant of ToR for Pallur Hill Morrum Quarries Cluster over an area of 15.351 Acres or 6.212 hectares in village Pallur Hill, Tahasil Konisi in District Ganjam, State Odisha submitted under cluster approach with consisting of 2 Morrum quarry..
Name of the company/Organization	Tahasildar, Konisi
Location of Project	village Pallur Hill, Tahasil Konisi in District Ganjam,
ToR Date	N/A
Name of the Consultant	N/A

Proposal in brief:

1. The highlights of the proposal as ascertained from the application and as revealed from proceedings/discussion held during the meeting of SEAC/SEIAA, are given as under.
 - (i) This is a proposal for mining of morrum from Pallur Hill Morrum Quarries Cluster over an area of 15.351 Acres or 6.212 hectares in village Pallur Hill, Tahasil Konisi in District Ganjam, State Odisha submitted under cluster approach with consisting of 2 Morrum quarr.
 - (ii) The mining area is a part of Survey of India Toposheet No. E45A12, and the lease area bounded by Latitude: 19°10'36.65" N to 19°10'51.77" N and Longitude: 84°43'57.76" E to 84°44'07.16" E.
 - (iii) The mining lease is an identified sairat source in the DSR. The Pallur Hill Morrum Quarries Cluster sairat source will be leased out under the OMMC Rules, 2016 by Tahasildar, Konisi to the successful bidder (lessee) on the basis of public auction for a lease period of 5 years.
 - (iv) Documents submitted: -Form-1, DLC, PFR, checklist, Mining Plan and approval letter, DSR, Village sheet, Cluster certificate from Tahasildar, topo map etc.
 - (v) Whether submitted KML file of the lease area-Yes, two quarries coming under single cluster
 - (vi) Whether submitted scrutiny fee-No Tahasildar is the applicant
 - (vii) Distance from nearest sanctuary/ESZ- Lakahri Vally WLS-42.0 Km
 - (viii) Whether the lease area coming in DLC report-No, as certified by Tahasildar, Konisi
 - (ix) Whether the lease area reflecting in DSR-Yes
 - (x) Method of mining-Semi-mechanized
 - (xi) Distance from nearest road bridge-11.60 km, District road-0.40km
 - (xii) Whether it is part of cluster -Yes
 - (xiii) Whether EC obtained earlier-Yes, EC granted earlier from DEIAA, Ganjam on 12.07.2017
 - (xiv) Date of approval of mining plan- the Joint Director of Geology, South Zone, Berhampur on 30.09.2022.

Minutes of 129th Meeting of SEIAA, Odisha Held on 25.07.2023 & 27.07.2023

- (xv) Production capacity per annum-20038 cum/annum (max.), total production in 5 years period-100190 cum, Geological reserve-809876 cum and Mineable reserve-493434 cum.
- (xvi) Whether the DSR has been prepared as per the MoEF& CC, Govt. of India Notification S.O. 3611(E) dated 25.07.2018, Sustainable sand mining guidelines-2016 and Enforcement & Monitoring Guideline for sand mining-2020- **No**
- (xvii) Any deficiencies/omission have been noticed in the above documents-**Nil**

2. **Whether SEAC recommended the proposal – The SEAC already recommend the specific ToR in its meeting held on 17.11.2020 and in this case the same decision will be applicable.**

Decision of Authority: Approved

After detailed deliberation, the Authority decided to issue both standard and specific ToR applicable for stone quarry for EIA study along with public hearing.

Minutes of 129th Meeting of SEIAA, Odisha Held on 25.07.2023 & 27.07.2023

AGENDA NO.129.38	
Proposal No.	SIA/OR/MIN/427727/2023
Date of application	11.05.2022
File No.	427727/105-MINB1/05-2023
Project Type	Proposal for ToR
Category	B1
Project/Activity including Schedule No.	1(a) Mining of minerals
Name of the Project	Proposal for grant of ToR for Expansion of Raikela and Tantra Iron Mine from 2.16 to 3.024 MTPA through Opencast mining method with maximum excavation of 3.27 MTPA (ROM + OB) over an ML area of 49.372 Ha in villages – Raikela, Tehsil - Koida of Sundargarh district in Odisha by M/s Penguin Trading & Agencies Limited.
Name of the company/Organization	M/S PENGUIN TRADING AND AGENCIES LTD Raman Rashmi Nayak
Location of Project	villages – Raikela, Tehsil - Koida of Sundargarh district in Odisha
ToR Date	N/A
Name of the Consultant	M/s. Visiontech Consultant Pvt. Ltd.

Proposal in brief:

- The highlights of the proposal as ascertained from the application and as revealed from proceedings/discussion held during the meeting of SEAC/SEIAA, are given as under.
- This proposal is for ToR for M/s Penguin Trading & Agencies Limited of Expansion of Raikela and Tantra Iron Mine from 2.16 to 3.024 MTPA through Opencast mining method with maximum excavation of 3.27 MTPA (ROM + OB) over an ML area of 49.372 Ha in villages – Raikela, Tehsil - Koida of Sundargarh district of Sri Raman Rashmi Nayak.
- Category:** The project falls in category B1 of the schedule 1(i) (a) mining of minerals as per EIA notification 2006 and its amendments. The Project Proponent has proposed expansion of 40%, in Raikela and Tantra Iron Mines from 2.16 to 3.024 MTPA and has applied for EC under 7(ii) (a) as per MoEF & CC OM dated 11th April, 2022.
- Project Details:** Raikela and Tantra Iron Ore Mines is located in village - Raikela, Tahasil - Koida, District - Sundargarh, State - Odisha, over an area of 49.372 ha in which 48.632 ha land is forest land. Proposed Expansion of Raikela and Tantra Iron Ore Mine from 2.16 to 3.024 MTPA through Opencast mining method with maximum excavation of 3.27 MTPA over an ML area of 49.372 Ha in villages – Raikela, Tehsil - Koida of Sundargarh district in Odisha.
- Mining plan is approved by IBM vide letter no. BBS/SNG/IRON/2201/MRMP/2022-23 dated 14.02.2023.
- Forest Clearance (Stage II) obtained over an area of 45.585 ha excluding Safety Zone vide letter no. 8-23/2007-FC dated 15.07.20215. Forest Clearance over Safety Zone Area over 3.047 ha. For Change of land use from safety zone to mining, Clearance granted over 0.218 ha under safety zone obtained vide letter no. 10F (Cons) 25/2020/12478/F&E dated 17.08.2020.

Minutes of 129th Meeting of SEIAA, Odisha Held on 25.07.2023 & 27.07.2023

7. Mining Lease of Raikela and Tantra Iron Mines was granted in favor of Sri Ramji Lal Bathwal for 20 years on 03.12.1986. The lease was transferred to M/s Penguin Trading & Agencies Ltd on 23.06.1991.
8. Renewal of lease was applied on 22.02.2005. Under Section 8(A) of MMDR Act of 12.01.2015, lease period was extended up to 02.12.2036.
9. M/s Penguin Trading and Agencies Pvt. Ltd. had obtained Environmental Clearance for production of 2.16 MTPA of Iron Ore vide EC Identification No. - EC22B001OR172761, File No.-215287/64-MINB1/12-2021, Date of Issue 17.03.2022.
10. Consent To Establish issued vide letter No. 3406/IND-II-CTE-6281/2022 dated 04.03.2022 and after amendment, letter issued vide.10085/IND-II-CTE-6281/2022 dated 09.06.2022 for Production of 2.16 MTPA Iron ore with crushing plants of 300 TPH and screening plants of 750 TPH from the State Pollution Control Board (SPCB), Odisha and is valid for 05 Years.
11. Consent To Operate was issued vide letter No. 11015/IND-I-CON-4573 dated 24.06.2022 for production of 2.160 MTPA with Iron ore crushing plants of 300 TPH and screening plants of 750 valid up to 31.03.2026.
12. Certified Report of EC Compliance from RO, MOEF&CC, Govt. of India vide File no. 109 – 93 dated 10-06-2022 has been issued and there was no non-compliance. For a period of October 2022 to March 2023, compliance report has been submitted and Project Proponent has asked for 2 months for submitting the certified EC Compliance report.
13. Site Specific Wildlife Conservation plan 1st approved plan vide. 27551WL-C-SSP-197/10 dated 13.04.2010.
14. NOC from Ground Water for 48 KLD approved vide letter no. CGWA / NOC / MIN / REN / 3 / 2021 / 6169 dated 10.10.2021 and has been renewed which is valid upto 09.10.2023.
15. Surface Water withdrawal permission of 0.123 cusec obtained from Department of Water Resources, Government of Odisha vide letter no. 8632/WR dated 01.05.2020.
16. DGMS Approval for Joint Mining between JSPL and Penguin Trading Ltd. vide letter no. 330209/SEZ/Chaibasa Region/Perm/2020/5846 dated 28.08.2020.
17. MoU between JSPL and M/s PTAL., for joint mining was done on dated 15.10.2016
18. Power approval from WESCO for 533 KVA was done on dated 01.11.2018 for 5 years.
19. DGPS Approval by ORSAC done by vide map no. 1746/1, dated 19.04.2017.
20. **TOR Details:** Proposed expansion of Raikela and Tantra Iron Mine from 2.16 to 3.024 MTPA is based on MoEF & CC OM dated 11th April 2022, ToR is exempted for expansion up to 40% under 7(ii) (a) of EIA notification 2006. Final EIA/EMP report is prepared on the basis of standard TOR as per the said notification.
21. **Public hearing details:** The Public Consultation was conducted successfully on 21.10.2021 at 11.00 AM. Proceeding of Public Consultation issued letter vide Letter no-19360/IND-II-PH-926 dated-06-12-2021. Proposed expansion of Raikela and Tantra Iron Mine from 2.16 to 3.024 MTPA is based on MoEF&CC OM dated 11th April 2022, public hearing is exempted for expansion up to 40% under 7(ii) (a) of EIA notification 2006.
22. **Eligibility of the Project under clause 7(ii) "a":**

Sl. No.	Criteria to be fulfilled	Reply by PP
Point-1 :	The project should have gone through the public hearing process, at least once, for its existing EC capacity on which expansion is being sought, except those	Public hearing was conducted on 21.10.2021, for enhancement in production from 1.080 million TPA to 2.160 million TPA. Issues raised in PH including education, health and

Minutes of 129th Meeting of SEIAA, Odisha Held on 25.07.2023 & 27.07.2023

	category of projects which have been exempted as per para 7 III (i) of EIA Notification 2006 and its amendments	employment etc., and action plan to address the issues was prepared for a period of 5 years. Till now Rs. 4.78 Cr. has been spent.
Point-2 :	There should not be change in Category of the project from 'B2' to 'B1' or 'A' due to proposed modernisation or expansion.	The project falls in category B1 of the schedule 1(i) (a) "Mining of Minerals" as per EIA notification 2006 and its amendments. Post expansion of 40% the project will still remain in same category as per MoEF & CC OM dated 20th April, 2022.
Point-3 :	There is no additional land acquisition or forest land diversion involved for the proposed expansion or there is no increase in lease area with regard to mining vis-à-vis the area mentioned in the EC, based on which public hearing has been held earlier.	There is no change in land area after expansion of the proposed project with respect to forest land diversion or increase in lease area. The land is distributed as 48.632 ha of Forest land and 0.740 ha of Non-Forest Govt. Land.
Point-4 :	The proposed expansion shall not be more than 50% of production capacity as mentioned in the prior EC, issued on the basis of public hearing held and the same shall be allowed in minimum three phases.	The existing EC has been granted for enhancement in production from 1.08 MTPA to 2.16 MTPA vide EC Identification No.-EC22B001OR172761, F.No.-215287/64-MINB1/12-2021 dated 17th March 2022. The proposed expansion is from 2.16 MTPA to 3.024 MTPA i.e., 40% enhancement in capacity. The enhancement shall be under taken in 2 phases as per MoEF & CC OM dated 11th April, 2022.
Point-5 :	Predicted environmental quality parameters arising out of proposed expansion/modernization shall be within the prescribed norms and the same shall be maintained as per prescribed norms	Baseline parameters have been studied as per MoEF & CC and CPCB norms. Impacts have been predicted and mitigation measures have been proposed to maintain the environmental quality parameters well within the prescribed limits.
Point-6 :	The proposed expansion should not result in reduction in the greenbelt area as stipulated in the earlier EC, or if the existing ratio of greenbelt is more than 33%, after expansion it should not reduce below 33%.	Greenbelt development after end of the plan period which is more than 33%. It is a running Mines and in approved mining plan it has been indicated for year wise reclamation. Accordingly it is being done. Also Financial assurance has been submitted to the Regional Controller of Mines, IBM, Bhubaneswar for this purpose
Point-7 :	The project proponent should have satisfactorily complied the conditions stipulated in the existing EC(s) and satisfactorily fulfilled all the commitments made during the earlier public hearing/consultation proceedings and also the commitments given while granting previous expansion, as may be applicable. This shall be duly recorded in the certified compliance report issued by	The condition stipulated in existing EC has been complied with satisfactorily issued raised in public hearing included education, employment and medical facility etc., and action plan for address the issue was prepared for a period of 5 years. A certified compliance report from MoEF & CC, IRO has been obtained vide File No.109-93, dated 10.06.2022.

Minutes of 129th Meeting of SEIAA, Odisha Held on 25.07.2023 & 27.07.2023

	the IRO/CPCB/SPCB, which should not be more than one year old at the time of submission of application.	
Point-8 :	Public Consultation shall be undertaken (if applicable as per table below) by obtaining response in writing, as per para 7 III (ii) (b) of EIA Notification 2006, except those category of projects which have been exempted as per para 7 III (i) of EIA Notification 2006 and its amendments.	Not Applicable. Project Submission under MoEF & CC OM dated 11th April 2022, clause 7(ii) (a) of EIA notification 2006, for 40% Expansion.
Point-9 :	Effluent monitoring including air quality monitoring systems as specified in the existing EC, if stipulated, should have been installed.	All conditions are complied and effluent monitoring and air quality monitoring photographs are attached.

22. **Location and Connectivity:** The Raikela & Tantra mining lease area is located in village Raikela & Tantra of Bonai Sub-division in Sundergarh District and is easily accessible from Tensa town, which is at a distance of 0.7km connected through public motorable road. The ML area is covered under the SOI toposheet No. 73 G/1 and has the following coordinates - Latitude- 21°52' 18.98232" to 21° 53' 00.94342" N Longitude - 85°10' 43.37875" to 85° 11' 05.86014" E. The nearest railhead are Barsua (17 km) and Roxy (40 km) in SE. The nearest National Highway and State Highway roads are NH-215 (Panikoli-Rajamunda) at 6.6 km NE and SH-10 (Koida Barsuan Road) at 0.16 km SW. The nearest airport is Biju Patnaik International Airport at 191 km SE. Nearest water bodies are Karo Nala at 0.1km in SE. Sarkanda Nadi at 4.71km in S. There are no National parks, Wildlife Sanctuary, Biospheres reserves within 10 km radius. There are four Reserve Forest within 10km radius Sarkanda R.F. 1.54 km S, Kathamala R.F. 6.61km NE, Torha R.F. 2.38 km N, Bhabani Pahar R.F. 5.74 km E. There is presence of Schedule-I species like Elephant in the study area.

23. **Topography:** The ML exhibits undulating hilly topography varying from 620 m AMSL on the southern part to 840 m AMSL on the norther part of the ML area. Out of the total 49.372 ha, 48.632 ha., is forest land and balance 0.740 ha. non-forest land. An area of 46.165 ha has already been utilized due to the mining and ancillary activities. The topography of the study area (10 km around the ML boundary) exhibits plain as well as hilly topography. The general gradient of the area is towards north. Study area shows plain topography towards eastern side whereas northern, southern and western side of the study area shows undulating topography.

24. **Drainage:** The area falls within the Baitarini river Basin and watershed of the Karo nala which flows at a distance of 0.1km on the southern side of the ML area. There is no perennial streams/nalas flowing across the ML area. Drainage system of the study area exhibits dendritic pattern. The Karo nalla which flows at a distance of 0.1 km is the principal drainage system of the area and it finally drains into Baitarini River.

25. **Seismicity:** The project is under very feeble to Moderate Risk Zones (Zone-III). The project area is not prone to floods, landslides or cloudburst etc.

26. **Baseline study:** Baseline data was collected during winter season from Dec. 2020 to Feb. 2021.

a) **Ambient Air Quality:** The project is an expansion project, and the study area is scattered with rural area. The area has cluster of Iron mines. The monitored results show PM10 levels were in the range of 25 µg/m³ to 82µg/m³, PM2.5 levels were in the range of 12 µg/m³ to 46 µg/m³.

SO₂ levels were in the range of 4.1 µg/m³ to 10.2 µg/m³, NO_x levels were in the range of 9.1 µg/m³ to 23.2 µg/m³ & CO remained below detection level which are well within the prescribed limit of Central Pollution Control Board.

- b) Noise Quality:** The noise levels were measured at eight stations in core and buffer zone located in residential areas. The noise levels observed during day time varies from 64.3 to 31.9 dB(A) and at night time varies from 45.9 to BDL < 30 dB(A). All the noise values observed are well within the limits prescribed by National Ambient Air Quality Standards for Noise.
- c) Surface water quality:** The physico-chemical characteristics of surface water were analyzed. In fresh water, the pH values of are varies from 7.3 to 7.82, the dissolved solids are 96 to 106 mg/l, chlorides are 30.2 to 36.4 mg/l, fluorides are 0.23 to 0.32 mg/l, Sulphate 15.6 to 26.2 mg/l respectively. The MF technique involves direct plating for detection and estimation of total coliform densities. The total coliform density in fresh water are varies from 79-97 MPN/100 ml, which are within the limit as per IS-2296, for surface water quality.
- d) Ground water quality:** The physico-chemical characteristics of ground water samples were analyzed. The levels of total dissolve solids varied from 132-219 mg/l, total hardness from 124-152 mg/l, chloride from 24.7-39.2 mg/l, Sulphate from 19-43 mg/l and alkalinity from 97-135 mg/l.
- e) Soil quality:** Top soil samples were collected from core & buffer zone, from four locations. From the above analysis report, it is found that the bulk density ranges between 1.12 to 2.24 g/cm³. The soil texture is almost clayey. The soil is very much fertile for agriculture purpose.

27. The land utilization plan: The mine lease area is spread over 49.372 Ha. The land utilization plan is given below.

Sl. No.	Type of land use	At the beginning of plan period (in ha.)	At the end of plan period (in ha.)
1.	Mining	29.73	32.40
2.	Mineral storage	2.61	4.64
3.	Roads	2.05	2.62
4.	Infrastructure (Workshop, Administrative building etc.)	0.13	0.27
5.	OB/waste dump	6.13	8.34
6.	Top soil preservation	0.00	0.00
7.	Greenbelt	2.989	1.03
8.	Others	5.731	0.07
	Total	49.37	49.37

28. Production and waste generation:

Total			0.00	2,74,852.92	5,49,705.84	38,83,373.63	99,86,500.00

29. **Mining method:** Mechanised opencast mining method with large HEMM will be carried out to increase the production from a level of 2160000 T to 302400 T. Further the mining operations is now proposed to be on 3 shift basis as against 2 shifts joint mining was earlier proposed along the northern boundary with Jindal Steel Power Ltd. joint mining along the common boundary is now being proposed with National Enterprises and Korp Resources Pvt. Ltd. and Gitarani Mohanty Necessary permission will be obtained. Life of Mines is estimated as 10.45 years.

30. **Waste Generation and Management:** Waste dump already reclaimed technically and biologically. This dump area is already proven barren by drilling. This dump has waste materials which are of grade below 45% Fe of laterite, shale, BHJ, BHQ, etc. This dump is already reclaimed by coir matting and subsequently plantation has been done surrounded by retaining wall of 1.5m height & 1m width and garland drain. Any rain cut which may develop in dump slope is proposed to be checked by no. of small check dams. Garland drains at the toe of the dump is connected to settling tank. Backfilling has already been initiated and till now 2.820 ha area has already been backfilled with waste material after proving the area as barren by putting bore holes. Retreating method is adopted for backfilling. During the futuristic mining activity, tentatively out of the total waste 40% of waste material shall be utilized for road maintenance purpose and balance 60% shall be used for backfilling covering an area of 5.874 ha till the conceptual period. The reclamation plan as envisaged during the next five year till 2025-26 shall be as follows:

Sl. No.	Year	Waste Generation (Cub M)	Utilization		Backfilling Area (Sq.M)	Surface Level (Top RL/Bottom RL)
			Road Maintenance (Cub M)	Backfilling (Cub M)		
1.	2021-22	192875	67506	125369	8226	715/700
2.	2022-23	192900	67515	125385	8300	730/700
3.	2023-24	203575	71251	132324	15635	737.5/700
4.	2024-25	235725	82504	152221	18429	7745/700
5.	2025-26	257150	90002	167148	18902	752.5/700
Total		1082225	378778	703447		

31. **Water requirement:** About 348 KLD water will be required for dust suppression, plantation, workshop & wheel wash, drinking & domestic activities, etc. Mine pit water will be used for dust suppression and plantation activities. Ground water from borewell will be used for drinking and

Minutes of 129th Meeting of SEIAA, Odisha Held on 25.07.2023 & 27.07.2023

domestic use. Necessary permission from CGWA and permission for drawl of surface water from Karo Nala obtained.

32. **Wastewater management:** Wastewater & sanitary sewage from domestic use in the mine site is being discharged to septic tank and soak pit and in no circumstances discharged to any water body. There will not be any garage with washing facility within the leasehold area and hence the chance of generation of effluent from workshop does not arise.
33. **Power Requirement:** A total of 533 KVA power is required for mining operation. Power supply will be drawn from WESCO.
34. **Flora/Fauna:** Within core zone 20 species of trees, 4 species of shrubs, 3 species of climbers and 2 species of grasses are present. Common native species such as Arjun, Bel, Char, Kendu, Jamun, Neem, Palas, etc. are also present in the core area. Avifaunal species found are House Crow, House Sparrow and Pigeon etc. Mammals found are squirrel, cat, mongoose and rat. Reptiles reported are krait and rat snake. Only one Schedule I species found namely Elephant.
35. **Green belt:** Schedule planned for green belt development to be checked after every year and any alternation required will be implemented. Post plantation status will be regularly checked in every season. Plantation will be undertaken over the life of mine in a phase wise manner. The plantation will start from the first year of mining. Total existing plantation in 5.925ha, area and proposed plantation area will be 3.445 ha. And 5515 tree will be planted over 5 year of plan period.
36. **Manpower:** The estimated total manpower requirement (direct or indirect) for the mining project is 442 persons (221 persons for phase-I and 221 persons for phase-II).
37. **Project Cost:** The expected cost of the project is Rs. 47.19 crores.
38. **Environment Consultant:** The Environment consultant M/s Visiontek Consultancy Services Pvt. Ltd. Bhubaneswar along with the proponent made a presentation on the proposal before the Committee.

(xviii) Any deficiencies/omission have been noticed in the above documents- Nil

2. **Whether SEAC recommended the proposal –** The SEAC already recommend to reject the proposal.

The project proponent has applied two proposals one for EC and another for ToR in the same name, same area and same production capacity. The EC proposal is under examination at SEAC. As per request of PP the SEAC reject the TOR proposal in its meeting held on 19.06.2023 with following view.

The Project Proponent has proposed for expansion in production of Iron Ore for 40% i.e. from 2.16 to 3.024 MTPA from Raikela and Tantra Iron Mines and has directly applied for Environment Clearance under 7(ii) (a) category, as per MoEF&CC, Govt. of India OM dated 11th April, 2022. The Committee recommended for delisting the proposal.

Decision of Authority: Rejected

After detailed deliberation, the Authority decided to reject the ToR application as the PP had already applied EC application which under consideration at SEAC.

AGENDA NO.129.39

Proposal No.	SIA/OR/MIN/431316/2023
Date of application	16.06.2023
File No.	431316/820-MINB1/06-2023
Project Type	Proposal for ToR
Category	B1
Project/Activity including Schedule No.	1(a) Mining of minerals
Name of the Project	Proposal for grant of ToR for Narayanpur Stone Quarries Cluster over an area of 19.899 hectares in village Narayanpur, Tahasil Konisi in District Ganjam, State Odisha submitted under cluster approach with consisting of 5 stone quarry...
Name of the company/Organization	Tahasildar, Konisi
Location of Project	village Narayanpur, Tahasil Konisi in District Ganjam
ToR Date	N/A
Name of the Consultant	N/A

Proposal in brief:

1. The highlights of the proposal as ascertained from the application and as revealed from proceedings/discussion held during the meeting of SEAC/SEIAA, are given as under.
 - (i) This is a proposal for mining of stone from Narayanpur Stone Quarries Cluster over an area of 19.899 hectares in village Narayanpur, Tahasil Konisi in District Ganjam, State Odisha submitted under cluster approach with consisting of 5 stone quarry.
 - (ii) The mining area is a part of Survey of India Toposheet No. E45A15, and the lease area bounded by Latitude: 19°16'27.91" N to 19°16'43.99" N and Longitude: 84°53'17.89" E to 84°53'38.51" E.
 - (iii) The mining lease is an identified sairat source in the DSR. The Narayanpur Stone Quarries Cluster sairat source will be leased out under the OMMC Rules, 2016 by Tahasildar, Konisi to the successful bidder (lessee) on the basis of public auction for a lease period of 5 years.
 - (iv) Documents submitted: -Form-1, DLC, PFR, checklist, Mining Plan and approval letter, DSR, Village sheet, Cluster certificate from Tahasildar, topo map etc.
 - (v) Whether submitted KML file of the lease area-Yes
 - (vi) Whether submitted scrutiny fee-No Tahasildar is the applicant
 - (vii) Distance from nearest sanctuary/ESZ- Lakahri Vally WLS-61.0 Km
 - (viii) Whether the lease area coming in DLC report-No, as certified by Tahasildar, Konisi vide letter no. nil dated 22.05.2023
 - (ix) Whether the lease area reflecting in DSR-Yes
 - (x) Method of mining-Semi-mechanized
 - (xi) Distance from nearest road bridge-5.60 km, village road-0.25km
 - (xii) Whether it is part of cluster -Yes, 5 nos. of quarries coming under cluster and the details given below:

Sl. No.	Source name	lessee	Khata No.	Plot No.	Area in Ha	Satatus of EC
1.	Narayanpur Stone quarry	Sri Ajaya Agartwal	424	131	4.7522	ToR granted

3.	Narayanpur Stone	154/P	8010	576317	457062
4.	Narayanpur Stone	154(P/3)	7560	830187	579704
5.	Narayanpur Stone	806	--	171427	94014
			46107	2489411	1899133

- (xiii) Date of approval of mining plan- the Joint Director of Geology, South Zone, Berhampur on 25.10.2021.
- (xiv) Whether the DSR has been prepared as per the MoEF& CC, Govt. of India Notification S.O. 3611(E) dated 25.07.2018, Sustainable sand mining guidelines-2016 and Enforcement & Monitoring Guideline for sand mining-2020- No
- (xv) Any deficiencies/omission have been noticed in the above documents-In the KML file it appears that village road and education institute is located around 100 meter.

2. **Whether SEAC recommended the proposal – The SEAC already recommend the specific ToR in its meeting held on 17.11.2020 and in this case the same decision will be applicable.**

Decision Of Authority: ADS

The Authority observed that ToR for Narayanpur Stone Quarry cluster has already been issued vide SEIAA letter no. 4577/SEIAA dated 19.05.2022, 4579/SEIAA dated 19.05.2022 & 4581/SEIAA dated 19.05.2022 in favour of Sri. Ajaya Agarwal for 3 Nos. of mines in the cluster. Now, the Tahasildar, Konisi has submitted for 2 more new quarries in the same cluster. The Tahasildar is required to clarify why these two new quarries were not added in the earlier ToR application. Further, the Tahasildar is to clarify whether Public Hearing has already been conducted for the earlier issued ToR & if so, the proceeding of the same may be submitted for appraisal of SEIAA, Odisha.

7.	Padmapur Stone Quarry (Plot no-803)	4252	128062	29716	1.101	Lease under auction
	Total	33083	1626445	1094103	15.725	

(xiii) Date of approval of mining plan- the Joint Director of Geology, South Zone, Berhampur on 22.04.2022.

(xiv) Whether the DSR has been prepared as per the MoEF& CC, Govt. of India Notification S.O. 3611(E) dated 25.07.2018, Sustainable sand mining guidelines-2016 and Enforcement & Monitoring Guideline for sand mining-2020- **No**

(xv) Any deficiencies/omission have been noticed in the above documents-In the KML file it appears that habitation is located around 150 meter.

3. **Whether SEAC recommended the proposal – The SEAC already recommend the specific ToR in its meeting held on 17.11.2020 and in this case the same decision will be applicable.**

Decision Of Authority: ADS

After detailed deliberation in the matter, the Authority decided to seek clarification on the following:

- Copy of EC for Kaithapalli stone quarry in plot no.9,89 & 350 measuring 2.746Ha of area which is in operation.
- The PP is required to submit certificate having UDIN number from Chartered Accountant (CA), showing the total project cost and sale of produce from 12.12.2018 to till date.
- The google earth map of the KML file reveals that mining operation has already taken place in at least 4 out of 7 nos. of mines. The Tahasildar has to furnish a certificate that No mining has taken place in the cluster involved in the application except the one mine which is mentioned at SI.No.(1).
- The Tahasildar is required to submit detailed statement indicating the distance in meters of each quarry (7 nos.) from the nearest village and village road.
