The Authority after detailed discussion and deliberation decided the following:

- Serial No. 1, 2:** These proposals have been recommended by SEAC for rejection on the basis of non-availability of DCF certificate and certified compliance report. However, on examination of the file the Authority found that both these documents are there in the file, and that the lease area of both these proposals falls in Aravalli hills. Also, both the project proponents have submitted their representation in this regard. Accordingly, the Authority decided to defer these proposals and call the project proponent/consultant for personal hearing.

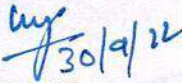

2. **Serial No. 14, 25, 33:** SEAC has recommended rejection of these proposals. However, the Authority decided to defer these proposals in order to give an opportunity of personal hearing to the project proponents before taking final decision.
3. **Serial No. 3, 5, 8, 9, 10, 11, 12, 17, 19, 20, 24, 31, 32:** The Authority accepted the recommendation of SEAC and decided to close & delist these proposals.
4. **Serial No. 4:** In this proposal, CTE and CTO was not obtained on the earlier EC and yet the production has been carried out. Therefore, the proponent shall first obtain the CTE and CTO on the basis of the initial EC and only then re-apply for revised EC for production expansion and as a violation case. The Authority further directed that the Rajasthan State Pollution Control Board (RSPCB) shall make sure that the unit is shut down and should not commence operations without statutory permissions. Therefore, Authority accepted the recommendation of SEAC and rejected this proposal. A letter should also be sent to RSPCB asking why this unit was permitted to operate without CTE/CTO, especially when it came to the knowledge of RSPCB, as stated in its compliance report.
5. **Serial No. 6, 15, 16, 18, 21, 26, 27, 29, 30:** On the account of several document insufficiencies found in these proposals and in spite of providing sufficient opportunities, the insufficiencies in documents were not resolved by the project proponents. Hence, the Authority accepted the recommendations of SEAC and decided to reject these proposals.
6. **Serial No. 7:** In this proposal, SEAC has recommended for the rejection of the proposal. However, the shortcomings pointed out are technical in nature. Hence, the Authority decided to close and delist this proposal.
7. **Serial No. 13, 28:** The Authority accepted the recommendations of SEAC and decided to grant EC to these proposals.
8. **Serial No. 22, 23:** The Authority accepted the recommendations of SEAC and decided to grant EC to these proposals subject to condition that the applied area is

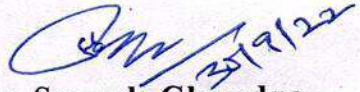

at a distance of more than 50 meters but less than 100 meters from the boundary of the closest forest area, therefore the project proponent shall raise a pucca wall on the lease boundary facing the forest area.

9. **Serial No. 34, 35 & 36:** This proposal was deferred by the Authority in its 5.32th meeting, as the distance from forest was not mentioned neither in Form 1 nor in DCF letter. The project proponent has now submitted the desired information. Hence the Authority decided to grant EC to this proposal.
10. **Serial No. 35:** This proposal was deferred by the Authority in its 5.40th meeting, as the DSR and valid NABET certificate were not enclosed. The project proponent has now submitted the desired information. Hence the Authority decided to grant EC to this proposal.
11. **Serial No. 36:** This proposal was deferred by the Authority in its 5.40th meeting, as the distance from forest was not mentioned neither in Form 1 nor in DCF letter and disclosure of consultants was not enclosed. The project proponent has now submitted the desired information. Hence the Authority decided to grant EC to this proposal.

Meeting ended with vote of thanks to the chair.
