

MINUTES OF THE 211th MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P.,
HELD ON - 31st January, 1st & 2nd February 2023 AT VIJAYAWADA, A.P.

Minutes for signature

211th
SEAC, A.P.
(Day-1)

31st January 2023.

सत्यमेव जयते

MINUTES OF THE 211th MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), ANDHRA
PRADESH
HELD ON
31st January 2023, AT VIJAYAWADA A.P.

**MINUTES OF THE 211th MEETING OF STATE EXPERT APPRAISAL COMMITTEE (SEAC), A.P.,
HELD ON - 31st January, 1st & 2nd February 2023 AT VIJAYAWADA, A.P.**

Present: The following members were present. (Through Video Conference)

1.	Dr.G.V.R.Srinivasa Rao, Professor, Civil Engineering Department, Andhra University, Visakhapatnam	Chairperson
2.	Dr.DineshSankar Reddy. Registrar(I/C), Professor of Chemical Engineering, NIT, Tadepalligudem, West Godavari	Member
3.	Prof. G. Gnana Mani, Retd., Professor of Zoology, Andhra University, Visakhapatnam	Member
4.	Prof. U. Shameem. Chairman, Dept. of Zoology, Andhra University, Visakhapatnam	Member
5.	Dr. Kiranmai, Assistant Professor, Dept. of Biotechnology, VikramaSimhapuriUniversity,Nellore,SPSRNelloreDistrict	Member
6.	Prof. C. Sasidhar, Professor, Civil Engineering Dept, JNTU, Anantapur	Member
7.	Prof. N. Siva Prasad Reddy, Director (Academics), Brindavan Institute of Technology & Science, Kurnool	Member
8.	Prof. D. Bharathi, Professor, Dept. of Bio Sciences & Sericulture, Sri PadmavathiMahilaViswaVidhyalayam, Tirupati	Member
9.	Sri KatamneniVenkataRamana, Head of Mining Dept. Government Polytechnic, Narsipatnam.	Member
10.	Dr.M. Sunandana Reddy, Associate Professor,RGM College of Engineering & Technology (Autonomous), Nandyal.	Member
11.	Sri Matli. Chandra Sekhar Professor, Head of Department of Civil Engineering, NIT, Warangal.	Member
12.	Dr. G. Madhavi, Associate Professor, Department of Chemistry, Sri Venkateswara University, Tirupati	Member
13.	Prof. K. ThyagaRaju,Professor,Department of Biochemistry, S.V.University, Tirupati	Member
14.	Dr.GummallaPrasanthi, Professor, Vijaya Institute of Pharmaceutical Sciences, Vijayawada	Member
15.	Sri. B. Siva Prasad, Chief Environmental Engineer, Andhra Pradesh Pollution Control Board. Vijayawada	Member Secretary.

Agenda Item: 211.01	4.50 Ha, Mining of Road Metal & Building stone of M/s Manikanta Metal Stone Crusher at Sy. No. 378/P of Karadikonda Village, Gooty Mandal, Ananthapuramu District, Andhra Pradesh - Environmental Clearance - EIA Case - Reg.
SIA/AP/M IN/40957 2/2022	<p>Category : B2 at par with B1.</p> <p>The proposed project is for mining of Road Metal & Building Stone in an area of 4.50 Ha. with a proposed of production quantity of Road metal & Building stone - 1,82,485 TPA with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).</p> <p>The project proponent and their consultant M/s. Ecomen Laboratories Pvt., Ltd., have attended the meeting.</p> <p>This EC is issued only for Road metal and building stone only.</p> <p>The project proponent has obtained TOR with public hearing on 25.06.2020 and public hearing was held on 03.05.2022.</p> <p>Public hearing details There is no specific issues raised in the public hearing.</p> <p>The reply by the proponent for the issues raised in the PH is as follows:</p> <p>Response from the management:</p> <p>Sri MS. Aswathia Narayana, Environment Consultant, M/s. Global Environment & Mining Services, Hospet informed that they will construct check dams at low lying areas to store rain water and informed that they take water from existing borewell and as well as from check dams for dust suppression, greenbelt & domestic purposes. He informed that the wastewater generated from the domestic activities will be disposed to septic tank followed by soak pit. He assured on behalf of management that they will provide local employment opportunities. He also assured to provide medical camps for atleast twice in a year for the surrounding villagers. He assured to plant about 3000 to 4000 saplings within the mine lease areas and also along haul roads as a greenbelt by including local medicinal & fruit species and maintained. He informed regarding Jala dhooopidi in executive summary, during translation from English to Telugu the word over exploited came as Jala dhooopidi by oversight.</p> <p>The base line data was collected from Oct,2020 to Dec,2020. The predominant wind direction is observed to be East to West.</p> <p>The maximum concentration of SPM is observed to be 68.3 $\mu\text{g}/\text{m}^3$. The incremental concentration is 8.44 $\mu\text{g}/\text{m}^3$. The GLC of SPM will fall at 0.98 Km in West direction of the mine.</p>

The reply by the proponent for the issues raised in the PH is as follows:

Response from the management:

Sri MS Aswathi Narayana, Environment Consultant, M/s. Global Environment & Mining Services, Hospet informed that they will construct check dams at low lying areas to store rain water and informed that they take water from existing borewell and as well as from check dams for dust suppression, greenbelt & domestic purposes. He informed that the wastewater generated from the domestic activities will be disposed to septic tank followed by soak pit. He assured on behalf of management that they will provide local employment opportunities. He also assured to provide medical camps for atleast twice in a year for the surrounding villagers. He assured to plant about 3000 to 4000 saplings within the mine lease areas and also along haul roads as a greenbelt by including local medicinal & fruit species and maintained. He informed regarding Jala dhoopidi in executive summary, during translation from English to Telugu the word over exploited came as Jala dhoopidi by oversight.

The base line data was collected from Oct,2020 to Dec,2020.

The predominant wind direction is observed to be East to West.

The maximum concentration of SPM is observed to be 68.3 µg/m³. The incremental concentration is 8.44 µg/m³. The GLC of SPM will fall at 0.98 Km in West direction of the mine.

The proponent volunteered to water treatment plant in Karadikonda Village as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine. Life of mine is 5 years.

The Committee after examining the project proposals, presentations, mining plan, MoEF&CC' Notifications & OMs, EIA Report, PH minutes and detailed deliberations, recommended to issue Environmental Clearance with following conditions:

1. The proponent shall comply with the proposals furnished in Environmental management plan.
2. The project proponent shall develop greenbelt of 1km along approach roads & village Road sides.
3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.
4. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time.
5. The project proponent shall protect adjacent natural stream.
6. The project proponent shall allocate Rs.2.0 Lakhs for construction of check dam to store rainwater.
7. The project proponent shall develop medicinal plants and fruit plants in surrounding villages.
8. The project proponent shall conduct health camps at least every 6 months with help of local PHC.
9. The project proponent shall conduct local Grama Sabha for solving local village problems viz., roads, drinking water facilities etc.,
10. The project proponent shall provide skill development center for the educated youth in the surrounding areas.
11. The project proponent shall comply other assurances given in the public hearing.

The project proponent has obtained TOR with public hearing on 31.05.2022 and public hearing was held on 17.08.2022.

Public hearing details

There is no specific issues raised in the public hearing.

The reply by the proponent for the issues raised in the PH is as follows:

Sri K.Ramakrishna Reddy, Consultant of M/s Global Environment & Mining Services on behalf of M/s.DNR Metals, (Prop: Sri Dwarapudi Naveen Reddy): He thanked everyone who participated in the Public Consultation and he explained the public for following prevention & control measures for proposed mining activity:

- Wet drilling will be adopted and controlled sequential blasting will be carried-out. Due to controlled sequential blasting, the vibrations in the surrounding areas will be minimal.
- The dust may get generated due to transport vehicles that carry the mined mineral. It will be suppressed by water spraying with tankers continuously.
- The vehicles carrying the mines material will be covered with tarpaulins to prevent dust.
- It is proposed to take-up plantation of 1000 medicinal trees in the vacant mine land and government land and also on both sides of the approach road. The protection and maintenance of these trees will be the responsibility of the quarry management.
- Once the mining operations gets started, half-yearly monitoring of Ambient Air Quality, Noise Levels, Water quality testing, etc. will be carried out and the reports will be submitted to MoEF & CC Regional Office, APPCB and SEIAA.

- In the proposed mine, around 30 people will get direct employment and another 45 persons get indirect employment. In addition, opportunities will be given to locals, in various supporting indirect activities like transportation of mined materials, water spraying on the approach roads, tree plantation and their maintenance etc.

5

- The proponent is proposed RO plant maintenance which is proposed at Decherla Village and proposed to strengthen the existing Primary Health Center at Kovvur by providing Surgical Beds under CSR funds. Also, it is proposed to arrange health camps on every six months, for the benefit of the people from surrounding villages.
- All precautionary measures will take-up for Environment Protection.

The summary of points in public consultation:

1. Majority of participants are Public of the village & nearby villagers, quarry crusher association members, mine labour, farmers and NGO's.
2. All the participants are welcoming the proposed mining project and proposed suggestions.
3. Objections are not received against the proposed mine from the participants in the Public Consultation.

The base line data was collected from Dec, 2021 to Feb, 2022.

The predominant wind direction is observed to be East to West.

The maximum concentration of SPM is observed to be 59.74 $\mu\text{g}/\text{m}^3$. The incremental concentration is 2.62 $\mu\text{g}/\text{m}^3$. The GLC of SPM will fall at 0.3 Km in West direction of the mine.

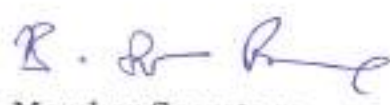

The proponent volunteered to provide Health camps and strengthen the Decherla PHC by providing surgical beds in Decherla PHC as a part of Corporate Social Responsibility

	<p>History of the Case:</p> <p>The project proponent has informed that initially, they have applied for 11.0 Ha of Road metal and building on 05.08.2008. and the Tahsildar, Vedurukupam mandal has obtained NOC dt. 26.12.2009 from Forest Department for 11.0 Ha of Road metal and building in the name of Sri. A. Bheemasankar Reddy, later Director of mines and Geology has issued LOI dt. 23.07.2021 for 4.741 Ha only. Further the same was verified in Parivesh 2.0 and observed that the applied lease area is falling outside the Forest boundary.</p> <p>The Committee observed that the Rayala cheruvu protected forest is at a distance of 177m and the proponent has submitted forest NOC vide letter dt. 26.12.2009.</p> <p>The Committee after examining the project proposals, presentations, mining plan, MoEF&CC' Notifications & OMs and detailed deliberations, recommended to issue Environmental Clearance with following conditions:</p> <ol style="list-style-type: none">1. The proponent shall comply with the proposals furnished in Environmental management plan.2. The project proponent shall develop greenbelt of 1000 plants along approach roads & village Road sides.3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.4. The project proponent shall carry out mining duly maintaining proper benches.5. The project proponent shall provide 420m Rocky bund on North -West side to prevent surface runoff.6. The project proponent shall comply conditions stipulated in the Forest NOC dt. 26.12.2009.
Agenda Item: 211.11	1.833 Ha Mining of Black Granite of Smt. K. Samrajyam at Sy. No.103/2B (Ext: 0.607 Ha) & 103/3 (Ext: 1.226 Ha), Gurijepalli Village, Santhamagaluru Mandal, Baptha District (Formerly Prakasam District), Andhra Pradesh - Environment Clearance - EIA Case - Reg.
SIA/AP/M IN/41218 4/2022	<p>Category: B2 at par with B1</p> <p>The proposed project is for mining of Black Granite in an area of 1.833 Ha. with a proposed of production quantity of Black Granite - 10,929 m³/Annum with a condition that the total production during a scheme should be limited to the approved quantity as per Mining scheme/ plan.</p> <p>The proposed project falls under Item No. 1(a) of the schedule of the EIA Notification 2006 and its amendments thereof - (i). Public hearing details

There is no specific issues raised in the public hearing.

The reply by the proponent for the issues raised in the PH is as follows:

Sri Kamapalli Lakshmi Prasad, Authorized Person of Black Granite of Smt. K.Samrajyam: While responding he has given assurance to the villagers that the blasting operations will be carried out at the stipulated time only; arrangements will be made for water sprinkling; sort out the issues of the villagers if any and mining will be carried out as per the norms.

The base line data was collected from Feb, 2022 to April, 22

The predominant wind direction is observed to be South East to North West.

The maximum concentration of SPM is observed to be 70.4 µg/m³. The incremental concentration is 2.42 µg/m³. The GLC of SPM will fall at 0.99 Km in North West direction of the mine.

The proponent volunteered to provide Digital class room to primary high school **Gurijepalli** Village as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine. Life of mine is 17 years.

The Committee after examining the project proposals, presentations, mining plan, MoEF&CC' Notifications & OMs, EIA Report, PH minutes and detailed deliberations, recommended to issue Environmental Clearance with following conditions:

1. The proponent shall comply with the proposals furnished in Environmental management plan.
2. The project proponent shall develop greenbelt of 1km with native species only not imported items along approach roads & village Road sides.
3. The project proponent shall maintain 15m additional buffer zone in addition to 7.5m on Southern side greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.
4. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time.
5. The project proponent shall develop 1000 medicinal plants and fruit plants in surrounding villages.
6. The project proponent shall conduct health camps at least every 6 months with help of local PHC.
7. The project proponent shall maintain water tankers for continuous water sprinkling during vehicle movements.
8. The project proponent shall provide rainwater harvesting pits in surrounding villages to increase ground water content.
9. The project proponent shall take care of safety of labour working in the mine.
10. The proponent shall give employment preference to the local villager as far as possible and use local machinery.
11. The proponent shall take up maintenance of road of 7.4Km in the area.
12. The project proponent shall comply other assurances given in the public hearing.

Member Secretary
SEAC
mb

Chairman
SEAC

regard.

Sri K.Ramakrishna Reddy, Consultant of M/s Global Environment & Mining Services on behalf of Sri U.V.P. Krishna Rao, S/o Sri Raja Rao. He thanked everyone who participated in the Public Consultation and he explained the public for following prevention & control measures for proposed mining activity:

- Wet drilling will be adopted and controlled sequential blasting will be carried-out. Due to controlled sequential blasting, the vibrations in the surrounding areas will be minimal.
- The dust may get generated due to transport vehicles that carry the mined mineral. It will be suppressed by water spraying with tankers continuously.

- The vehicles carrying the mines material will be covered with tarpaulins to prevent dust.
- It is proposed to take-up plantation of 1000 medicinal trees in the vacant mine land and government land and also on both sides of the approach road. The protection and maintenance of these trees will be the responsibility of the quarry management.
- Once the mining operations gets started, half-yearly monitoring of Ambient Air Quality, Noise Levels, Water quality testing, etc., will be carried out and the reports will be submitted to MoEF & CC Regional Office, APPCB and SEIAA.
- In the proposed mine, around 30 people will get direct employment and another 45 persons get indirect employment. In addition, opportunities will be given to locals, in various supporting indirect activities like transportation of mined materials, water spraying on the approach roads, tree plantation and their maintenance etc.
- The proponent is proposed to provide playing kits to elementary school at Duddukuru and also proposed to arrange annual health camps, for the benefit of the people from surrounding villages under CSR funds.

- All precautionary measures will take-up for Environment Protection.

The summary of points in public consultation:

1. Majority of participants are Public of the village & nearby villagers, quarry crusher association members, mine labour, farmers and NGO's.
2. All the participants are welcoming the proposed mining project and proposed suggestions.
3. Objections are not received against the proposed mine from the participants in the Public Consultation.

The base line data was collected from Dec,2021 to Feb, 2022.

The predominant wind direction is observed to be East to West.

The maximum concentration of SPM is observed to be 59.74 $\mu\text{g}/\text{m}^3$. The incremental concentration is 2.62 $\mu\text{g}/\text{m}^3$. The GLC of SPM will fall at 0.3 Km in West direction of the mine.

The proponent volunteered to provide Health camps and playing kits to elementary School in **Duddukuru** as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine. Life of mine is 6.9 years.

The Committee after examining the project proposals, presentations, mining plan, MoEF&CC' Notifications & OMs, EIA Report, PH minutes and detailed deliberations recommended to issue Environmental Clearance with following conditions:

1. The proponent shall comply with the proposals furnished in Environmental management plan.
2. The project proponent shall develop greenbelt of 1km along approach roads & village Road sides.
3. The project proponent shall maintain 5m additional buffer zone in addition to 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.

Member Secretary
SEAC

Chairman
SEAC

4. The proponent shall take dust suppression measures to meet the CPCB stipulated ambient air quality standards at any point of time.
5. The project proponent shall adopt Wet drilling and controlled sequential blasting as per commitment by the proponent during public hearing.
6. The project proponent shall develop 1000 medicinal plants and fruit plants in surrounding villages.
7. The proponent shall carryout suppression of dust generated due to transport vehicles by water spraying with tankers continuously.
8. The vehicles carrying the mines material shall be covered with tarpaulin during the vehicular movement.
9. The project proponent shall arrange fencing for mined out area.
10. The proponent shall furnish half-yearly monitoring of Ambient air Quality, Noise levels, water quality testing to MoEF&CC, Regional office, APPCB and SEIAA.
11. The project proponent shall conduct health camps at least every 6 months with help of local PHC.
12. The project proponent shall comply other assurances given in the public hearing.

Agenda Item: 211.15 NCC Vizag Urban Infrastructure Limited proposed to construct Residential Villas, Club House and to develop Residential/Commercial Plots in an area located at Sy. No.411, 412, 419/1 & 3 of Madhurawada Village, Visakhapatnam (Rural) Mandal & District, Andhra Pradesh- Environmental Clearance -Reg.

SIA/AP/IN FRA2/414 554/2023 Category : B2
 The Proposal of M/s. NCC Vizag Urban Infrastructure Limited is for Environmental Clearance for construction of proposed project (Phase - I) consists of 173 no.'s of villas (Ground + Upper 2 floors), One Club House (Basements + Ground + Upper 2 Floors) and development of 54 no.'s of plots.

The Committee noted that the project proponent proposes for construction of Residential/Commercial Plots project with Built Up area - 103513.50 Sq. m and total plot area is 1,67,742.03Sq.m.

2006 and its amendments thereof - (i). Mining of minerals (≤ 250 ha of mining lease area in respect of non-coal mine lease).

The project proponent and their consultant M/s. Right source Industrial Solutions Pvt., Ltd., have attended the meeting.

The Committee noted that as per the cluster letter issued by the Asst., Director of Mines & Geology, Palamaner, vide Letter dated: 10.11.2022, there are no existing quarry leases within the radius of 500 mtrs area. The total cluster area is < 5.0 Ha.

The project proponent has obtained EC for production quantity of **Road metal & Building stone from 50065 m³/annum** on 11.06.2020 and which is valid for 10.35 years.

Now, the proponent have re-estimated the reserves for 1st mining scheme which shows that the reserves are sufficient to carry out the mining operations for 10 Years.

The project proponent has submitted certified compliance vide letter dt. 02.11.2022 and the project proponent has submitted production and dispatch details letter vide letter dt. 10.11.2022.

The proponent volunteered to provide water treatment plant to the **Bommaiahgaripalli** Village as a part of Corporate Social Responsibility (CSR) activity and shall maintain till the life of the mine. Life of mine is 10 years.

The Committee after examining the project proposals, presentations, mining plan, MoEF&CC Notifications & OMs and detailed deliberations, recommended to issue **Environmental Clearance** with the following conditions along with earlier EC conditions:

1. The proponent shall comply with the proposals furnished in Environmental management plan.
2. The project proponent shall develop greenbelt along approach roads & village Road sides.
3. The project proponent shall maintain 7.5mt greenbelt in buffer zone and existing buffer zone plantation should not be disturbed.
4. The project proponent shall carry out mining duly maintaining proper benches.
