47.	SEIAA TRF0210	Transfer of Environmental Clearance issued by SEIAA, Jaipur vide their letter no.- dated 27.07.2011 (P. 28) in favor of Shri Bheru Singh Shaktawat for M.L. No. 08/1999, Area- 42.533 Ha. Production Capacity of Red Ochre- 155000 tons/annum & China Clay- 310000 tons/annum for Red Ochre, China Clay Mining Near Village- Sehnva, Tehsil- Chittorgarh, District- Chittorgarh (Raj.). Proposal No.- 296412.

The Authority after detailed discussion and deliberation decided the following:

- Serial No. 1:** This proposal was deferred in 5.59th Meeting of SEIAA stating "Uploaded KML is of different project as coordinates and shape does not match". Now the PP has submitted the correct KML along with the coordinates. Hence, the Authority decided to **grant EC to this proposal**.
- Serial No. 2:** This proposal was deferred in 5.53rd Meeting of SEIAA. Now, PP has submitted the copy of recent certified compliance report dated: 06/01/2023, Letter from DCF, Pratapgarh dated: 25/01/2023, Latest past production certificate dated: 31/01/2023, Baseline Data for March to May.

Also, SEAC has treated this proposal as a violation case on the basis of excess production above the base year in certain years prior to issuance of EC by MoEF&CC on 16/02/2005. The Authority is of the consistent view that in cases where EC has been issued by MoEF&CC, the scope of examination by the Authority is limited to the period after EC as given by MoEF&CC. Even the CCR issued by IRO,

MoEF&CC/ RO, RSPCB is also examined only in accordance with the conditions imposed in the previous EC. Accordingly, the Authority would consider all such cases as violation cases wherein the production figures in any particular year/s after the issue of EC is higher than the quantity prescribed in the EC.

In the present case, there is no excess production above the limit as prescribed in the EC, from the date of last EC issued. Therefore, this case is not considered as a violation case in the present context. Hence, the Authority decided to **grant EC to this proposal** without violation.

3. **Serial No. 3:** This proposal was deferred in 5.55th Meeting of SEIAA stating "*Forest Clearance was valid till 2013. It is not clear whether the clearance is still valid or not*". Now, PP has submitted that as per the MoEF&CC (FC Division) order dated 30/11/2017, "the existing period of validity of forest clearance granted for diversion of forest land under section-2(ii) of FCA, 1980 for mining of minor mineral in the state regulated under Rules made under section 15 of MMDR Act, 1957 shall be for a period co-terminus with the period of mining lease as deemed extended under the Rules made under section 15 of MMDR Act, 1957".

Also, SEAC has treated this proposal as a violation case on the basis of excess production above the base year in certain years prior to issuance of EC by MoEF&CC on 16/02/2005. The Authority is of the consistent view that in cases where EC has been issued by MoEF&CC, the scope of examination by the Authority is limited to the period after EC as given by MoEF&CC. Even the CCR issued by IRO, MoEF&CC/ RO, RSPCB is also examined only in accordance with the conditions imposed in the previous EC. Accordingly, the Authority would consider all such cases as violation cases wherein the production figures in any particular year/s after the issue of EC is higher than the quantity prescribed in the EC.

In the present case, there is no excess production above the limit as prescribed in the EC, from the date of last EC issued. Therefore, this case is not considered as a violation case in the present context. Hence, the Authority decided to **grant EC to this proposal** without violation.
