RESOLUTION AGAINST AGENDA NO. 02

The committee discussed the matter and recommended to issue the standard terms of reference prescribed by MoEF&CC for the preparation of EIA. The committee also stipulated following additional TOR Points:

Additional TOR:

1. Proponent to submit latest drone videography of the lease site along with the site photographs and also provide mined minerals record of the respective project site at the time of EIA presentation.
2. Cluster EIA/EMP shall be conducted by project proponent with the help of District Mining Officer.
3. Videography of baseline monitoring period with date, time and geo coordinates should be attached in EIA report and also presented during the EIA presentation.
4. Raw data of all the baseline monitoring parameters will be provided as an annexure to the EIA Report.
5. To ensure proper monitoring, the project proponent/consultant should provide evidence in form of (A) Logbook of their site visit along with activities carried out during monitoring (B) Real time photographs showing monitoring machine, public, lab person etc.
6. Proprietor/proprietor representative should be present at the time of monitoring and monitoring should be conducted as per CPCB SOP/NABET/QCI guidelines. Lab responsible person should be present at the time of EIA presentation.

7. EIA coordinator & FAE should give a notarized affidavit during EIA presentation that they have personally visited the site & they have also taken all the mitigating measures for any critical issues involved in the project.
8. The project proponent will have to inform the schedule of monitoring/data collection programme to the SEIAA/SEAC, UP & UP PCB before start of data collection. In case of failure, the collected baseline monitoring data will be treated as null and void.
9. The details of equipment used for baseline monitoring alongwith its photograph mentioning date, time and geo coordinates for preparation of EIA report should be clearly displayed to the people present during public hearing and the complete details related to monitoring period must be mentioned in the minutes of public hearing.
10. Original lab analysis report of the project proposal along with EIA report should be uploaded on Parivesh Portal.
11. Combined KML of all mines in a cluster should be submitted at the time of EIA.
12. The project proponent/Consultant should identify the core & buffer zone (2.5 km) of the mining site.
13. Agreement/ Consent between project proponent and competent authority/ landowner for haulage road from lease site to link road to be submitted at the time of EIA presentation.
14. Proponent/Consultant should submit the plan/information along with technology (photographs of water sprinklers/ tankers) to be implemented for mitigating dust at source points in lease area and haulage road during operation activity/vehicular movement. Technology should be displayed at the time of EIA presentation.
15. Proposed plantation plan with area specific plant species, number of plants to be planted and place of plantation along with a working map to be submitted at the time of EIA presentation.
16. Water requirement details along with source of water and the permission/ agreement with the concerning authority/ person to be submitted at the time of EIA presentation.
17. Proponent/consultant shall present TOR specific/additional conditions compliance, observation/suggestions raised during the public hearing and commitment made by the project proponent in a tabular form with a time bound plan at the time of EIA presentation.

RESOLUTION AGAINST AGENDA NO. 03

The committee discussed the matter and recommended grant of environmental clearance for the proposal as above alongwith standard environmental clearance conditions prescribed by MoEF&CC, Govt. of India. The committee also stipulated following specific conditions:

1. The environmental clearance will be co-terminus with the validity of the lease period mentioned in the LoI or co-terminus with the validity of current mine plan whichever is earlier, after this period the EC will automatically become null and void.
2. Project Proponent should submit action plan for carrying out plantation at least @1,000 plants / ha of lease area. In this case, PP should prepare a plan, duly approved either by Forest Department or District plantation committee, for planting at least (as per the project) plants, either on government land or community land, within a periphery of 5 km from the boundary of the lease area along with provisions for maintenance for 5 years. Survival of plants should not be less than

the survival rate notified by Uttar Pradesh Forest Department otherwise it will be treated as violation of EC condition.

3. The project proponent shall install solar lights in their project area to minimise the consumption of electricity.
4. During the submission of 6 monthly compliance reports, the project proponent should make sure that the periodically taken site photographs should also be annexed along with the compliance report.
5. Preference should be given to indigenous local species as per the consultation of the local district Forest Officer/Expert Agency in this field.
6. The maximum height of the bench should be 06 meters and the width of the bench should be at least twice the height of the bench as per the mine plan approval letter by DGM, U.P
7. In case the blasting is proposed during a mining operation, the project proponent needs to assess its impact on the displacement of human beings/wild animals/birds/other species, and the suitable measures proposed and taken for their rehabilitation and resettlement need to be clearly described in first 6 monthly compliance report.
8. The project proponent shall submit a final mine closure plan/Exit protocol for rehabilitation of mined-out land to match its surrounding land use 3 years before the closure of the mine to SEIAA, UP and Department of Mines and Geology, UP for approval. The project proponent shall ensure the implementation of the approved plan under the supervision of the Dept. of Mines and Geology.
9. The project proponent shall plan and implement collection drain and siltation basins of adequate size to arrest the silt and sediment flow from the quarry area. The surface runoff rainwater harvesting and other water conservation measures on a long-term basis are to be taken in consultation with the Central/State Groundwater Board. The water so collected should be utilized for watering the haulage area, roads, and green belt development, etc.
10. The project proponent shall take all suitable measures to prevent pollution of groundwater and nearby water bodies in consultation with the State Pollution Control Board and consent to operate (if applicable) should be obtained from the State Pollution Control Board before the start of production from the mine.
11. Project proponent is directed to invest the CER amount as per the proposal and submit the compliance report regularly to the concerned authority/Directorate of environment.
12. Link Road from the quarry site to the main road shall be constructed as an all-weather road with blacktopping and maintained by the project proponent.
13. Vehicular emissions should be kept under control and regularly monitored. Suitable measures shall be taken for proper maintenance of vehicles used in a quarry operation and transportation.
14. The project proponent should explore the possibilities of rainwater harvesting.
15. Agreement/ Consent between project proponent and competent authority/ landowner for haulage road from lease site to link road.
16. Latest technology (water sprinklers/ tankers) to be adopted for mitigating dust at source points in lease area and haulage road during operational activity/vehicular movement.
17. As per the proposed plan, plantation with area specific plant species, number of plants to be Planted and report of green belt development to be submitted to the Forest Department, UPPCB and Directorate of Environment, UP.
18. In case it has been found that the E.C. obtained by providing incorrect information, submitting that the distance between the two adjoining mines is greater than 500mt. and the area is less than 05 ha, but factually the distance is less than 500 mt, and the mine is located in the cluster of area equal to or more than 05 ha, the E.C issued will stand revoked.

19. Explosive cannot be stored on the site. The Project proponent shall take approval from Chief Controller of Explosive, if applicable for use or storage of explosive or any such materials.
20. Blast vibrations study shall be conducted and an observation report submitted to the Integrated Regional Office, MoEF&CC, GoI, Lucknow and UPPCB within six months. The report shall also include measures for the prevention of blasting associated impact on nearby houses and agricultural fields.
21. Controlled blasting techniques with sequential blasting shall be adopted. The blasting shall be carried out in the daytime only. The project proponent shall ensure prevention of displacement of human beings/wild animals/birds etc. and in case any such displacement is caused due to blasting/mining operation by any chance the project proponent shall take suitable measures for their rehabilitation and resettlement.
22. Maintenance of village roads used for transportation of minerals is to be done by the company regularly at its own expenses. The link roads from mining area to main road shall be constructed as all-weather road with black topping and maintained by the project proponent.
23. The self-environmental audit shall be conducted annually. Every three years third-party environmental audit shall be carried out.
24. Measures for prevention and control of soil erosion and management of silt shall be undertaken. Protection of dumps against erosion shall be carried out with geotextile matting or other suitable material, and thick plantations of native trees and shrubs shall be carried out at the dump slopes. Dumps shall be protected by retaining walls.
25. Ground and surface water, if any in and near the core zone (within 5.0 km of the lease) shall be regularly monitored for contamination and depletion due to mining activity and records maintained. The monitoring data shall be submitted to the Integrated Regional Office, MoEF&CC, GoI, Lucknow and U.P. Pollution Control Board regularly. Further, monitoring points shall be located between the mine, and drainage in the direction of flow of groundwater shall be set up and records maintained.
26. Fugitive dust generation shall be controlled. Fugitive dust emission shall be regularly monitored at locations of nearest human habitation (including schools and other public amenities located nearest to sources of dust generation as applicable) and records submitted to the Integrated Regional Office, MoEF&CC, GoI, Lucknow and U.P. Pollution Control Board regularly.
27. Overburden (OB) shall be stacked at the earmarked dump site(s) only and shall not be kept active for long period. The maximum height of the dump shall not exceed 20 m, each stage shall preferably be of a maximum of 10 m and the overall slope of the dump shall not exceed 35°. The OB dump shall be backfilled. The OB dumps shall be scientifically vegetated with suitable native species to prevent erosion and surface runoff.
28. The slope of the mining bench and ultimate pit limit shall be as per the mining scheme approved by the Indian Bureau of Mines.
29. Prior permission from the Competent Authority shall be obtained for the extraction of groundwater if any.
30. A final mine closure plan, along with details of Corpus Fund, shall be submitted to the Integrated Regional Office, MoEF&CC, GoI, Lucknow and U.P. Pollution Control Board 5 years in advance of final mine closure for approval.
31. The blasting will be done only after getting permission from the Mining Department/competent authority.

4. Transfer of environmental clearance of "Cement Grinding Unit" at Araj No.-469 Mi & 470/1, Village-Dhauhan, Pargana-Sakteshgarh, Tehsil-Chunar, District- Mirzapur, U.P. to M/s SSK Cement Industries Private Limited., 5083/4184/SIA/UP/IND1/533591/2025

The consultant informed the committee that they are strictly following the rules, regulations and other instructions of QCI/NABET. A presentation was made by the project proponent along with their consultant Mr. Akash Kumar, EIA Coordinator, M/s Paramarsh (Servicing Environment and Development). The Committee Member raises the queries related to the project. PP/Consultant could not reply satisfactorily. PP/consultant has assured that they will submit the documents/information as per committee instructions. The committee directed the project proponent to submit following information:

1. No objection certificate from transferor M/s Uddyam Cement Pvt. Ltd. in favour of the said project to be submitted alongwith the name of the previous and present Director details. NOC should be legally vetted from an authorized official on a notarized affidavit.
2. Drone videography of the existing unit along with the site photographs and present status of the unit.
3. NOCs of the concerned department issued to M/s Uddyam Cement Pvt. Ltd. along with the status of the NOCs transfer to the said project.
4. Present status of air pollution control system exist in units and their status/performance.
5. Compliance report of Consent to Operation (CTO) from UPPCB.
6. Status of Green Belt in the existing unit along with the green belt layout plan.

The matter will be discussed after receipt of above information.

5. "Ordinary Sand Mining" from Riverbed of Ban Ganga River at Village- Golhaura Ehatmali, Gata No.- 192 ka, ha., Tehsil- Shohratgarh, District- Siddharth Nagar, Uttar Pradesh, Project Proponent- Siraj Ahamad, Area- 5.00., 9894/SIA/UP/MIN/524710/2025

The consultant informed the committee that they are strictly following the rules, regulations and other instructions of QCI/NABET. 4. The mining would be restricted to unsaturated zone only above the phreatic water table and will not intersect the ground water table at any point of time.
5. This project does not attract any of the general conditions applicable on mining projects specified in EIA Notification 14/09/2006.

6. The mining operation will not be carried out in safety zone of any bridge or embankment or in eco-fragile zone such as habitat of any wild fauna.
7. There is no litigation pending in any court regarding this project.
8. The project proposal falls under category-1(a) of EIA Notification, 2006 (as amended).

The consultant (EIA Coordinator) also submitted an affidavit dated 17/02/2025 mentioning is as follows:

1. I, Sandeep Kumar S/o Sri R. K. Verma is EIA coordinator of M/s AWS Envirotech (OPC) Pvt. Ltd. Lucknow.
2. I have prepared the TOR application report for the Proposal of "Ordinary Sand Mining" over an area of 5.00 Ha., in Gata No.- 192 ka, Village- Golhaura Ehatmali, Tehsil- Shohratgarh, District- Siddharth Nagar, Uttar Pradesh, Project Proponent- Siraj Ahamad with my team.
3. I have personally visited the site of proposal and certify that no mining/construction activity has been undertaken on the project site for the present proposal.
4. I am satisfied that all the necessary data/information submitted along with TOR application is true and correct.
5. I certify that this project has been uploaded for the first time on Parivesh Portal.
6. I certify that there will be no mismatch between information/data provided on online application submitted on Parivesh Portal and the hard copy/presentation which will be submitted after acceptance of application.
7. The TOR application for the proposal is prepared by my team as per guidelines laid down by NABET/QCI.

RESOLUTION AGAINST AGENDA NO. 05

The committee discussed the matter and recommended grant of environmental clearance for the proposal as above along with standard environmental clearance conditions prescribed by MoEF&CC, Govt. of India. The committee also stipulated following specific conditions:

Specific Conditions:

1. The environmental clearance will be co-terminus with the validity of the lease period mentioned in the LoI or co-terminus with the validity of current mine plan whichever is earlier, after this period the EC will automatically become null and void.
2. The quantity mentioned in LoI or quantity mentioned in replenishment study, whichever is less, would be maximum quantity which project proponent may extract. It will be ensured by District Administration and Geology and Mining Department. Directorate of Geology and Mining will ensure conduct of replenishment study from reputed institution for subsequent years in compliance of Hon'ble NGT orders.
3. NOC from Irrigation Department/ Concerning Authority regarding river bed mining to be obtained before start of mining activity.
4. No mining activity should be carried out in-stream channel as per SSMMG, 2016.
5. The mining work will be open-cast and manual/semi mechanized (subject to orders). Heavy machine such as excavator, scooper etc. should not be employed for mining purpose. No drilling/blasting should be involved at any stage.
6. An Environmental Audit should be annually carried out during the operational phase and submitted to the SEIAA.
7. Project Proponent should submit working plan for carrying out plantation at least @1,000 plants / ha of lease area. In this case, PP should prepare a plan, duly approved either by Forest Department or District plantation committee, for planting at least (as per the project) plants, either on government land or community land, within a periphery of 5 km from the boundary of the lease area along with provisions for maintenance for 5 years. Survival of plants should not be less than

the survival rate notified by Uttar Pradesh Forest Department otherwise it will be treated as violation of EC condition.

8. The project proponent shall install solar lights in their project area to minimise the consumption of electricity.
9. During the submission of 6 monthly compliance reports, the project proponent should make sure that the periodically taken site photographs should also be annexed along with the compliance report.
10. Preference should be given to indigenous local species as per the consultation of the local district Forest Officer Expert Agency in this field
11. Link Road from the quarry site to the main road shall be constructed as an all-weather road with blacktopping and maintained by the project proponent.
12. Vehicular emissions should be kept under control and regularly monitored. Suitable measures shall be taken for proper maintenance of vehicles used in a quarry operation and transportation.
13. The project proponent should explore the possibilities of rainwater harvesting in the premises of project area
14. Agreement/ Consent between project proponent and competent authority/ landowner for haulage road from lease site to link road.
15. Latest technology (water sprinklers/ tankers) to be adopted for mitigating dust at source points in lease area and haulage road during operational activity/vehicular movement.
16. As per the proposed plan, plantation with area specific plant species, number of plants to be planted and report of green belt development to be submitted to the concerning department. Selection of plants for green belt should be on the basis of pollution removal index. Project proponent should ensure survival of tree saplings. Mortality should be replaced from time to time.
17. Water requirement details along with source of water and the permission/ agreement with the concerning authority/ water supplying agencies to be submitted.
18. Submit the Hydrological study report of lease area that the quantity given in LoI will be mined without affecting the geo-hydrology of the River.
19. Environment management in according to environmental status and impact of the project.
20. During the school opening and closing time transportation of minerals will be restricted.
21. Pakkamotorable haul road to be maintained by the project proponent.
22. A separate Environmental Management Cell with suitable qualified personnel shall be set-up under the control of a Senior Executive, who will report directly to the Head of the Organization.
23. The capacity of trucks/tractor for loading purpose will be in tonnes as per Transport Department applicable norms and standard fixed by the Government.
24. Provision for two toilets and hand pumps should be made at mining site.
25. Mining should be done by Bar scalping methods extraction (typically 0.3 -0.6 m or 1 - 2 ft) as per sustainable sand mining management guidelines 2016.
26. If in future this lease area becomes part of cluster of equal to or more than 05 ha. then additional conditions based on the EIA shall be imposed. The lease holder shall mandatorily follow cluster conditions otherwise it will amount to violation of E.C. conditions. If the certificate related to cluster provided by the competent authority is found false or incorrect then punitive actions as per law shall be initiated against the authority issuing the cluster certificate.
27. In case it has been found that the E.C. obtained by providing incorrect information, submitting that the distance between the two adjoining mines is greater than 500mt. and area is less than 05 ha, but factually the distance is less than 500 mt and the mine is located in cluster of area equal or more than 05 ha, the E.C issued will stand revoked.
28. The MoEF&CC/SEIAA or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
29. A width of not less than 50 meter or 10% width of river can be restricted for mining activities from river bank. A condition can be imposed that mining will be done from river activities from river bank.
30. Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 11 of the National Environment Appellate Authority Act, 1997.

6. Group Housing Project at Khasra No.- 939, 940, 948, 949, 950, 954, 955 & 956, Revenue Village - Mahrauli, NH-24, Tehsil & District - Ghaziabad, Uttar Pradesh by M/s Karyan Buildcon Pvt. Ltd., 9895/SIA/UP/INFRA2/533302/2025

RESOLUTION AGAINST AGENDA NO. 06

The project proponent of M/s Karyan Buildcon Pvt. Ltd. vide letter dated 25/04/2025 has informed via email and requested the Chairman to defer the matter in next SEAC meeting due to unavoidable circumstances. Therefore, the committee agreed with the request made by the project proponent and decided to defer the matter in the upcoming SEAC meeting.

7. "Ordinary Earth Mining" Project at Gata No.- 249, Village- Salempur, Tehsil- Sasani, District- Hathras, Uttar Pradesh. (Area-0.5000Ha)., 9896/SIA/UP/MIN/533774/2025

The consultant informed the committee that they are strictly following the rules, regulations and other instructions of QCI/NABET. - I have personally visited the site of proposal and certify that no Mining activity has been undertaken on the project site for the present proposal.
- I am satisfied that all the necessary data/ information submitted along with EMP are true and correct.
- I certify that this project proposal has been uploaded for the first time on Parivesh Portal. In case the project is being uploaded for the 2nd time that is only after the withdrawal of previous project has been accepted by SEIAA, UP on Parivesh Portal.
- I certify that there will be no mismatch between information/data provided on the online application submitted on Parivesh Portal and the hard copy/presentation which will be submitted after acceptance of application.

7. The EMP report for the Proposal is prepared by my team as per guidelines laid down by QCI/NABET.

RESOLUTION AGAINST AGENDA NO. 07

The committee discussed the matter and recommended grant of environmental clearance for the project proposal along with general and specific conditions as annexed at Annexure-1 to these minutes.

8. **“Sand/Morrum Mining” on the riverbed of Sone River at Gata No. 824फ over an area of 1.100 Hectares situated in Village – Agori Khas, Tehsil- Obra, District- Sonbhadra, Uttar Pradesh. Prop. Shri Badaku, Area-1.100 Hectares., 9897/SIA/UP/MIN/533814/2025**

RESOLUTION AGAINST AGENDA NO. 08

During the presentation the Secretariat informed the committee that a complaint letter dated 23/04/2025 of Shri Balkrishna Dev Pandey, Behind Kachahari, Robertsganj, District-Sonebhadra, U.P. has been received in Secretariat against the “Sand/Morrum Mining” on the riverbed of Sone River at Gata No. 824फ over an area of 1.100 Hectares situated in Village – Agori Khas, Tehsil- Obra, District- Sonbhadra, Uttar Pradesh, Prop. Shri Badaku, Area-1.100 Hectares.

The committee has gone through the issues raised in the above compliant letter and decided that a factual report may be sought from District Magistrate, Sonebhadra. A letter in this regard may be sent to District Magistrate, Sonebhadra along with compliant letter.

The matter will be discussed after receipt of factual report.

9. **“Ordinary Earth Mining” Project at Gata No.- 45, Village- Ahbaranpur, Tehsil- Hathras, District- Hathras, Uttar Pradesh. (Area-1.6535 Ha)., 9898/SIA/UP/MIN/533854/2025**

The consultant informed the committee that they are strictly following the rules, regulations and other instructions of QCI/NABET. A presentation was made by the project proponent along with their consultant Mr. Ajay Kumar, EIA Coordinator, M/s AGS Environmental Services Pvt. Ltd. Based on the documents submitted and presentation made by the project proponent along with the consultant, the following facts have emerged: -

1. The environmental clearance is sought for Ordinary Earth Mining Project at Gata No.- 45, Village- Ahbaranpur, Tehsil- Hathras, District- Hathras, Uttar Pradesh, (Leased Area-1.6535 Ha).

RESOLUTION AGAINST AGENDA NO. 10

The committee discussed the matter and recommended to issue the standard terms of reference prescribed by MoEF&CC for the preparation of EIA. The committee also stipulated following additional TOR Points:

Additional TOR:

1. Proponent to submit latest drone videography of the lease site along with the site photographs and also provide mined minerals record of the respective project site at the time of EIA presentation.
2. Cluster EIA/EMP shall be conducted by project proponent with the help of District Mining Officer.
3. Videography of baseline monitoring period with date, time and geo coordinates should be attached in EIA report and also presented during the EIA presentation.

4. Raw data of all the baseline monitoring parameters will be provided as an annexure to the EIA Report.
 5. To ensure proper monitoring, the project proponent/consultant should provide evidence in form of (A) Logbook of their site visit along with activities carried out during monitoring (B) Real time photographs showing monitoring machine, public, lab person etc.
 6. Proprietor/proprietor representative should be present at the time of monitoring and monitoring should be conducted as per CPCB SOP/NABET/QCI guidelines. Lab responsible person should be present at the time of EIA presentation.
 7. EIA coordinator & FAE should give a notarized affidavit during EIA presentation that they have personally visited the site & they have also taken all the mitigating measures for any critical issues involved in the project.
 8. The project proponent will have to inform the schedule of monitoring/data collection programme to the SEIAA/SEAC, UP & UPPCB before start of data collection. In case of failure, the collected baseline monitoring data will be treated as null and void.
 9. The details of equipment used for baseline monitoring alongwith its photograph mentioning date, time and geo coordinates for preparation of EIA report should be clearly displayed to the people present during public hearing and the complete details related to monitoring period must be mentioned in the minutes of public hearing.
 10. Original lab analysis report of the project proposal along with EIA report should be uploaded on Parivesh Portal.
 11. Combined KML of all mines in a cluster should be submitted at the time of EIA.
 12. The project proponent/Consultant should identify the core & buffer zone (2.5 km) of the mining site.
 13. Agreement/ Consent between project proponent and competent authority/ landowner for haulage road from lease site to link road to be submitted at the time of EIA presentation.
 14. Proponent/Consultant should submit the plan/information along with technology (photographs of water sprinklers/ tankers) to be implemented for mitigating dust at source points in lease area and haulage road during operation activity/vehicular movement. Technology should be displayed at the time of EIA presentation.
 15. Proposed plantation plan with area specific plant species, number of plants to be planted and place of plantation along with a working map to be submitted at the time of EIA presentation.
 16. Water requirement details along with source of water and the permission/ agreement with the concerning authority/ person to be submitted at the time of EIA presentation.
 17. Proponent/consultant shall present TOR specific/additional conditions compliance, observation/suggestions raised during the public hearing and commitment made by the project proponent in a tabular form with a time bound plan at the time of EIA presentation.
 18. Corporate Environment Responsibility (CER) to be prepared as per the MoEF&CC guidelines and present it at the time of EIA presentation. Proposal should be site specific and monitorable.
 19. Proponent to submit latest status of project site along with the site photographs and also provide mined minerals record of the respective project site at the time of EIA presentation.
11. **“Ordinary Earth Mining” Project at Gata No.- 137अ/1, 137 अ/2, 137 ब/3, 137 ब/4, Village- Darivapur, Tehsil- Sasani, District- Hathras, Uttar Pradesh. (Area-0.7780 Ha), 9901/SIA/UP/MIN/533894/2025**

The consultant informed the committee that they are strictly following the rules, regulations and other instructions of QCI/NABET. A presentation was made by the project proponent along with their consultant Mr. Ajay Kumar, EIA Coordinator, M/s AGS Environmental Services Pvt. Ltd. RESOLUTION AGAINST AGENDA NO. 11

The committee discussed the matter and recommended grant of environmental clearance for the project proposal along with general and specific conditions as annexed at Annexure-1 to these minutes.

12. “Gitty/Boulder (Dolostone) Mining Project” located at Gata no- 7612, 7614क, 7613क, 7613ख, 7583नि, Village- Billi Markundi, Tehsil Obra & District- Sonbhadra, Uttar Pradesh, proprietor- Shri Rajeev Kumar Sharma, (Lease Area 1.100 Ha), 9900/SIA/UP/MIN/533942/2025

The project proponent along with their consultant Dr. R.K. Sharma, EIA Coordinator, M/s Environmental Research and Analysis, Lucknow (U.P) presented photographs of lease site and presentation was made before the SEAC committee. It was observed that ~ 60% area of lease is submerged under water, the committee opined that a factual report of site to be sought from district magistrate, Sonbhadra regarding the actual site status.

The matter will be discussed after receipt of factual report.

- 13. “Gitty/Boulder (Dolostone/Granite) Mining Project” at Gata No. – 1030 क, 1030 छ, 1030 ल, 1078, village – Barwatola , Tehsil – Dudhi & District - Sonbhadra, Uttar Pradesh. Land Owner – Shri Sushil Kumar Singh ,(Total area 2.6470 Ha.), 9902/SIA/UP/MIN/533937/2025**

RESOLUTION AGAINST AGENDA NO. 13

The project proponent/consultant vide letter dated 25/04/2025 has requested to defer the matter in next SEAC meeting, therefore, the committee agreed with the request made by the project proponent and decided to defer the matter in upcoming SEAC meeting.

- 14. Group Housing Project at Plot No.- 8/GH-7, Sector- 08, Siddharth Vihar Yojna, District- Ghaziabad, U.P., 9903/SIA/UP/INFRA2/533715/2025**

RESOLUTION AGAINST AGENDA NO. 14

The project proponent of M/s Palatial Heights Pvt. Ltd. vide letter dated 22/04/2025 has informed via email and requested the Chairman to defer the matter in next SEAC meeting due to unavoidable circumstances. Therefore, the committee agreed with the request made by the project proponent and decided to defer the matter in the upcoming SEAC meeting.

- 15. “Primrose Group Housing Complex” at Village - Harsaon, NH-24, District- Ghaziabad U.P by M/s Panchsheel Buildtech Pvt. Ltd., 9904/9594/SIA/UP/INFRA2/534046/2025**

The consultant informed the committee that they are strictly following the rules, regulations and other instructions of QCI/NABET. A presentation was made by the project proponent along with their consultant Mr. Akash Kumar, EIA Coordinator, M/s Paramarsh Servicing Environment & Development. The project proponent submitted the following chronology of the project proposal:

- Earlier, the environment clearance (EC) for the project was granted by SEIAA, U.P. vide letter no. 1111/SEAC/390/2010/AA(S), dated 10th July 2010.
- The built-up area in existing EC is 1,90,774.80 Sq.m., due to compounding the build-up area has been changed and now the final built-up area is 1,89,911.23 Sq.m
- In the existing EC the total plot area is 61615.28 Sq.m. The 907.3 Sq.m area was omitted in the earlier EC, However the allotment letter of the project shows the 62522.58 Sq.m
- The purpose of applying Environment Clearance (EC) is to complete the remaining 2% of finishing work of the project. Given that approximately 98% of the construction and finishing work has been completed, and considering the expiration of the previous EC and compounding of the area, a fresh terms of reference application has been prepared to obtain environment clearance.
- Land use of the project is residential land use as per the Master Plan 2031 of Ghaziabad Development Authority (GDA)
- Furthermore, securing EC is a prerequisite for obtaining a completion certificate from the Ghaziabad Development Authority, as mandated by their norms.
- The project is classified as Category B-1, according to the schedule appended to the EIA Notification, 2006, and is designated as a township and area development project
- Terms of Reference (ToR) given by SEIAA, UP vide ToR Identification No. TO25B3812UP5520746N dated 04th April 2025

Based on the documents submitted and presentation made by the project proponent along with the consultant, the following facts have emerged: -

1. The environmental clearance is sought for “Primrose Group Housing Complex” at Khasra No. 804, 805, 806, 807, 808, 809, 812, 813, 814, 815, 816, 817, 819, 820, 821, 838, 839, 840, 851 & 852, Village-Harsaon, NH-24, Ghaziabad, Uttar Pradesh, M/s Panchsheel Buildtech Pvt. Ltd.
2. Earlier, the environment clearance (EC) for the project was granted by SEIAA, U.P. vide letter no. 1111/SEAC/390/2010/AA(S), dated 10th July 2010. 14. The project proposal falls under category-8(b) of EIA Notification, 2006 (as amended).

The consultant (EIA Coordinator) also submitted an affidavit dated 22/04/2025 mentioning is as follows:

1. I, Akash Kumar, S/o Sri R.P. Verma is EIA Coordinator of M/s Paramarsh Servicing Environment and Development.
2. I have prepared the EIA/EMP report for the file no. 9904-9594, name of "Primrose Group Housing Complex" at Khasra No. 804, 805, 806, 807, 808, 809, 812, 813, 814, 815, 816, 817, 819, 820, 821, 838, 839, 840, 851 & 852, Village-Harsaon, NH-24, Ghaziabad, Uttar Pradesh, M/s Panchsheel Buildtech Pvt. Ltd. with my team.
3. I have personally visited the site of proposal along with team and certify that earlier the EC was granted to the project vide letter no. 1111/SEAC/390/2010/AA(S), dated 10th July 2010. The built-up area in existing EC is 1,90,774.80 Sq.m., due to compounding the build-up area has been changed and now the final built-up area is 1,89,911.23 Sq.m
4. I am satisfied with that all the necessary data/information submitted along with ToR proposal are true and correct.
5. I certify that initially the ToR was granted to the project vide file no. 6889, proposal no SIA/UP/MIS/71285/2022, dated 29/01/2022. Subsequently, the application for EC was submitted on the Parivash Portal on 08/11/2024 under proposal No. SIA/UP/INFRA2/504875/2024 and file no. 9415-6889. However, due to the mismatch between the plot area and built up area mentioned in terms of reference application and EIA report submitted by the project proponent the ToR and Ec both application has been withdraw and we are submitted a fresh application for ToR and environment clearance on Parivash Portal.
6. I state that all the TOR points have been complied in EIA/EMP report.
7. I certify that there is no mismatch between information/data provided on the online application submitted on Parivash Portal and hard copy which is submitted after acceptance of application.
8. The EIA/EMP report for the Proposal is prepared by my team as per guideline laid down by QCI/NABET.

RESOLUTION AGAINST AGENDA NO. 15

The committee discussed the matter and recommended grant of environmental clearance for the proposal as above along with standard environmental clearance conditions prescribed by MoEF&CC, GoI and following specific conditions:

Specific Conditions:

1. Project proponent is directed to ensure timely conforming to the condition mentioned as per Notarized affidavit given by Director of M/s Panchsheel Buildtech Pvt. Ltd. Stating-

- a. That we shall not undertake any construction activity in the project and require environment clearance to complete the remaining 2% activities of internal finishing in the project.
 - b. That we shall complete the remaining activity within one year of the date of grant of environment clearance.
2. Project proponent to comply to the condition of previous environment clearance (EC) granted to the project vide letter no 1111/SEAC/390/2010/AA (S), dated 10th July 2010.
3. Project proponent is directed to explore the possibility and getting the cement in a closed container rather through the plastic bag to prevent dust emissions at the time of loading/unloading.
4. Project proponent should ensure that there will be no use of "Single use of Plastic" (SuP).
5. In compliance to Hon'ble Supreme Court order dated 13/01/2020 in IA no. 158128/2019 and 158129/2019 in Writ petition no. 13029/1985 (MC Mehta Vs. GoI and others) anti-smog guns shall be installed to reduce dust during excavation.
6. The project proponent will comply the use of fuel for backup power as per guidelines issued by CPCB from time to time.
7. The project proponent will ensure that there is no mismatch/deviation between the project proposal submitted to SEIAA for environmental clearance and maps/drawings were approved by concerned development authority. In case of any mismatch/deviation, amended environmental clearance will be obtained by project proponent. In case of failure, the granted environmental clearance shall automatically deem to be cancelled.
8. The project proponent shall ensure that the project site does not attract/infringe any buffer zone, wetland zone etc. of no activity identified/declared under law.
9. Criteria/ norms provided by competent Authority regarding the seismic zone are followed for construction work. Provision of alarm system, to timely notify the residents, in case of occurrence of earthquake/other natural disasters/fire should be provided. A well defined evacuation plan should also be prepared and regular mock drills should be arranged for the residents. Rise of stairs should be constructed in a way, so that it should provide smooth movement.
10. The project proponent should develop green belt in the said project as per the plan submitted and also follow the guidelines of CPCB/Development authority for green belt as per the norms.
11. The proponent should provide electric vehicle charging facility as per the requirements at ground level and allocate the safe and suitable place in the premises for the same.
12. Project proponent should invest the CER amount as per the proposal and submit the compliance report regularly to the concerned authority/Directorate of environment. CER investment amount should be site specific and monitorable.
13. The project proponent will ensure full exploitation of potential of rain water harvesting for storage and recharging and also treated wastewater in order to reduce the withdrawal of fresh water and accordingly use the three sources of water supply namely stored rain water, treated wastewater and the fresh water. The project proponent shall also provide a flow measuring device along with flow integrator for monitoring the various sources of water supply namely fresh water, treated waste water and stored harvested rain water.
14. The project proponent will ensure exploitation of maximum possible potential of solar energy generation in the proposed project area and prefer to use it instead of conventional electricity in order to reduce the Green House Gas Emission causing climate change.
15. The project proponent will make necessary arrangement to get Structural auditing conducted by an expert institution once in 05 years during life span of the building to ensure safe life of the residents and prevent environmental and social hazards.
16. The project proponent shall plan for storm water management drained with appropriate slope and length so that the flood water could get a passage to release in a short span of time.

16. Building Stone (Sandstone) mine, at Gata No./Araji /Plot No. 1006, at Village - Sariya, Tehsil- Chunar, District- Mirzapur, Uttar Pradesh of Shri Digvijay Singh,, Area: 0.809 ha., 7790/5068/SIA/UP/MIN/425145/2023

RESOLUTION AGAINST AGENDA NO. 16

The project proponent/consultant did not appear. The committee discussed and deliberated that the project file should be closed and be opened only after request from the project proponent. The file shall not be treated as pending at SEAC. The matter will be discussed only after submission of online requests on prescribed online portal.

17. Sasnai Balu/Morrum Mining Project at Arazi No.- 221 Cha, Village Sasnai, Tehsil: Obra, District: Sonbhadra Uttar Pradesh, Area of 36.50 ha., 8148/7204/SIA/UP/MIN/441289/2023

RESOLUTION AGAINST AGENDA NO. 17

The project proponent/consultant did not appear. The committee discussed and deliberated that the project file should be closed and be opened only after request from the project proponent. The file shall not be treated as pending at SEAC. The matter will be discussed only after submission of online requests on prescribed online portal.

18. Sand/Morrum Mining Project at Gata No.- 531 Anga, Khand- 04, Village- Sasnai, Tehsil- Obra, District- Sonbhadra, Uttar Pradesh, M/s Rai Bahadur Singh Contractor, (Leased Area - 12.146 Ha.), 8163/6668/SIA/UP/MIN/441530/2023

The project proponent/consultant informed the committee that the matter was earlier listed in 856th SEAC-2 meeting dated 27/05/2024 and the committee decided that in light of Hon'ble NGT order in OA No. 120/2024 dated 02/04/2020 and OA No. 747/2023 dated 09/05/2024 the matter is deferred till appropriate action is taken by concerned authorities.

The project proponent informed that in compliance of the above Hon'ble NGT orders the District Survey Report (DSR) of District Sonbhadra has been approved by SEIAA, U.P. and approved DSR sent to Mining Department for further necessary action. The project proponent enclosed the copy of approved DSR and requested to grant the environmental clearance for the project proposal.

The consultant informed the committee that they are strictly following the rules, regulations and other instructions of QCI/NABET. A presentation was made by the project proponent along with their consultant Dr. R.K. Sharma, EIA Coordinator, M/s Environmental Research and Analysis, Lucknow (U.P). Based on the documents submitted and presentation made by the project proponent along with the consultant, the following facts have emerged: -

1. The environmental clearance is sought for Sand/Morrum Mining Project at Gata No.- 531 Anga, Khand- 04, Village- Sasnai, Tehsil- Obra, District- Sonbhadra, Uttar Pradesh, (Leased Area - 12.146 Ha.), M/s Rai Bahadur Singh Contractor.
2. The Terms of Reference in the matter were issued by SEIAA, U.P vide Letter No. 417/Parya/SEIAA/6668/2021, dated 07/01/2022.

3. I have personally visited the site of proposal and certify that no Mining activity has been undertaken on the project site for the present proposal.
4. I have satisfied with that all the necessary data/information required for EIA/EMP presentations are true and correct.
5. I certify that this project proposal has been uploaded for the first time on Parivesh Portal.
6. I certify that there will be no mismatch between information/data provided on the online application submitted on Parivesh Portal and the hard copy/presentation which will be submitted after acceptance of application.
7. I state that all the TOR points have been complied and all the issues raised during public hearing have been properly addressed in EIA report.
8. The EIA/EMP report for the Proposal is prepared by my team as per guidelines laid down by QCI/NABET.

RESOLUTION AGAINST AGENDA NO. 18

The committee discussed the matter and recommended grant of environmental clearance for the proposal as above along with standard environmental clearance conditions prescribed by MoEF&CC, Govt. of India. The committee also stipulated following specific conditions:

Specific Conditions:

1. The environmental clearance will be co-terminus with the validity of the lease period mentioned in the LoI or co-terminus with the validity of current mine plan whichever is earlier, after this period the EC will automatically become null and void.
2. The quantity mentioned in LoI or quantity mentioned in replenishment study, whichever is less, would be maximum quantity which project proponent may extract. It will be ensured by District Administration and Geology and Mining Department. Directorate of Geology and Mining will ensure conduct of replenishment study from reputed institution for subsequent years in compliance of Hon'ble NGT orders.
3. NOC from Irrigation Department/ Concerning Authority regarding river bed mining to be obtained before start of mining activity.
4. No mining activity should be carried out in-stream channel as per SSMMG, 2016.
5. The mining work will be open-cast and manual/semi mechanized (subject to orders). Heavy machine such as excavator, scooper etc. should not be employed for mining purpose. No drilling/blasting should be involved at any stage.
6. An Environmental Audit should be annually carried out during the operational phase and submitted to the SEIAA.

7. Project Proponent should submit working plan for carrying out plantation at least @1,000 plants / ha of lease area. In this case, PP should prepare a plan, duly approved either by Forest Department or District plantation committee, for planting at least (as per the project) plants, either on government land or community land, within a periphery of 5 km from the boundary of the lease area along with provisions for maintenance for 5 years. Survival of plants should not be less than the survival rate notified by Uttar Pradesh Forest Department otherwise it will be treated as violation of EC condition.
8. The project proponent shall install solar lights in their project area to minimise the consumption of electricity.
9. During the submission of 6 monthly compliance reports, the project proponent should make sure that the periodically taken site photographs should also be annexed along with the compliance report.
10. Preference should be given to indigenous local species as per the consultation of the local district Forest Officer Expert Agency in this field
11. Link Road from the quarry site to the main road shall be constructed as an all-weather road with blacktopping and maintained by the project proponent.
12. Vehicular emissions should be kept under control and regularly monitored. Suitable measures shall be taken for proper maintenance of vehicles used in a quarry operation and transportation.
13. The project proponent should explore the possibilities of rainwater harvesting in the premises of project area
14. Agreement/ Consent between project proponent and competent authority/ landowner for haulage road from lease site to link road.
15. Latest technology (water sprinklers/ tankers) to be adopted for mitigating dust at source points in lease area and haulage road during operational activity/vehicular movement.
16. As per the proposed plan, plantation with area specific plant species, number of plants to be planted and report of green belt development to be submitted to the concerning department. Selection of plants for green belt should be on the basis of pollution removal index. Project proponent should ensure survival of tree saplings. Mortality should be replaced from time to time.
17. Water requirement details along with source of water and the permission/ agreement with the concerning authority/ water supplying agencies to be submitted.
18. Submit the Hydrological study report of lease area that the quantity given in LoI will be mined without affecting the geo-hydrology of the River.
19. Environment management in according to environmental status and impact of the project.
20. During the school opening and closing time transportation of minerals will be restricted.
21. Pakkamotorable haul road to be maintained by the project proponent.
22. A separate Environmental Management Cell with suitable qualified personnel shall be set-up under the control of a Senior Executive, who will report directly to the Head of the Organization.
23. The capacity of trucks/tractor for loading purpose will be in tonnes as per Transport Department applicable norms and standard fixed by the Government.
24. Provision for two toilets and hand pumps should be made at mining site.
25. Mining should be done by Bar scalping methods extraction (typically 0.3 -0.6 m or 1 - 2 ft) as per sustainable sand mining management guidelines 2016.
26. If in future this lease area becomes part of cluster of equal to or more than 05 ha. then additional conditions based on the EIA shall be imposed. The lease holder shall mandatorily follow cluster conditions otherwise it will amount to violation of E.C. conditions. If the certificate related to cluster provided by the competent authority is found false or incorrect then punitive actions as per law shall be initiated against the authority issuing the cluster certificate.
27. In case it has been found that the E.C. obtained by providing incorrect information, submitting that the distance between the two adjoining mines is greater than 500mt. and area is less than 05 ha, but factually the distance is less than 500 mt and the mine is located in cluster of area equal or more than 05 ha, the E.C issued will stand revoked.
28. The MoEF&CC/SEIAA or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.

29. A width of not less than 50 meter or 10% width of river can be restricted for mining activities from river bank. A condition can be imposed that mining will be done from river activities from river bank.
30. Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 11 of the National Environment Appellate Authority Act, 1997.

19. Building stone Sand Stone Mine at Arazi No 732 (Sl. No. 07), Village- Bhagautidei, Tehsil- Chunar, District- Mirzapur, Uttar Pradesh, M/s Riya Enterprises, Area 2.02 ha., 8323/6978/SIA/UP/MIN/446533/2023

RESOLUTION AGAINST AGENDA NO. 19

During the presentation the committee noted that there is a mismatch between the geo coordinates mentioned in online application submitted for environmental clearance and DSR approved by SEIAA. The committee discussed the matter and opined that a factual report from District Magistrate, Mirzapur may be sought regarding the mismatch of geo coordinates. The project proponent also submitted the revised CER as suggested during the presentation.

The matter will be discussed after receipt of above information.

20. “Silica Sand Mine” at Gata No – part of 522, at Village-Aswan (block 01), Tehsil-Bara, District-Prayagraj, Uttar Pradesh, Shree Bajrang Road Lines, Area – 15.75 ha., 8478/7108/SIA/UP/MIN/449808/2023

RESOLUTION AGAINST AGENDA NO. 20

The committee noted that the District Survey Report (DSR) of above project proposal has not been approved by SEIAA, U.P. Hence, the committee decided to take up the matter after approval of DSR from SEIAA, U.P.

21. “Building Stone (Sand Stone)” Project at Gata No.- 428, Village- Dhuria, Tehsil- Chunar, District- Mirzapur, U.P. (Leased Area : 1.01 ha.), 8613/SIA/UP/MIN/456356/2023

The project proponent/consultant informed the committee that the environmental clearance for the above project was issued by District Level Environment Impact Assessment Authority (DEIAA), Mirzapur vide its letter no. 02/Parya/Sandstone/MZP/2016, dated 05/07/2016 for the leased area 1.01 ha with mining quantity 25072 cum/year.

Hon’ble National Green Tribunal, New Delhi passed an order dated 07/12/2022 in O.A. No. 142 of 2022 in the matter of Jayant Kumar Vs. Ministry of Environment, Forests and Climate Change. The operative part of order dated 07/12/2022 is as follows:

“...mining leases in which environmental clearance was granted by DEIAA in view of amendment notification dated 15.01.2016 are still continuing even after passing of order dated 13.09.2018 by this Tribunal in Satendra Pandey (supra) and issuance of OM dated 12.12.2018 by MoEF&CC without any re-appraisal by SEIAA and appropriate remedial action on the basis of such re-appraisal. All such mining leases in which environmental clearance was granted by DEIAA need to be brought in consonance with the directions given by Hon’ble Supreme Court in Deepak Kumar (supra) and order dated 13.09.2018 by this Tribunal in Satendra Pandey (supra) by re-appraisal by SEIAA and only such mining leases may be continued which have been on re-appraisal granted environmental clearance by SEIAA. MoEF&CC is, therefore, directed to take appropriate steps for compliance in this regard by issuance of requisite directions in exercise of the statutory powers under the Environment (Protection) Act, 1986. For this purpose, MoEF&CC is directed to collect

information regarding such mining leases in which environmental clearance was granted by DEIAA and the period of which has not yet expired and are still continuing in all the States and Union Territories and by issuing appropriate directions for compliance with directions given by Hon'ble Supreme Court in Deepak Kumar (supra) and order dated 13.09.2018 passed by this Tribunal in Satendra Pandey (supra) by re-appraisal for grant of EC by SEIAA."

In compliance of above Hon'ble NGT order Ministry of Environment, Forests and Climate Change, Govt. of India issued an Officer Memorandum F. No. IA3-22/11/2023-IA.III(E-208230), dated 28/04/2023 wherein:

"...all valid ECs issued by DEIAA shall be reappraised through SEAC/SEIAA in compliance to the order of the Hon'ble NGT in O.A. No. 142 of 2022. In view of above, it is hereby direction that all concerned SEACs shall re-appraise the ECs issued by DEIAAs between 15/01/2016 and 13/09/2018 (including both dates) and all fresh ECs in the regard shall be granted only by SEIAAs based on such appraisal. The exercise shall be completed within a period of one year from the date of issue of this OM. DEIAAs shall transfer all such files where ECs have been granted to concerned SEIAA within a time period of one month from issue of this OM"

As per Office Memorandum dated 28/04/2023 issued by MoEFCC, Govt. of India the project /proponent apply for reappraisal of environmental clearance issued by DEIAA on 05/07/2016. The consultant informed the committee that they are strictly following the rules, regulations and other instructions of QCI/NABET. A presentation was made by the project proponent along with their consultant Mr. Shamshad Ahmad, EIA Coordinator, M/s Paramarsh Servicing Environment and Development, Lucknow, U.P. Based on the documents submitted and presentation made by the project proponent along with the consultant, the following facts have emerged: -

- The mining operation will not be carried out in safety zone of any bridge or embankment or in eco-fragile zone such as habitat of any wild fauna.
- There is no litigation pending in any court regarding this project.
- The project proposal falls under category–1(a) of EIA Notification, 2006 (as amended).

The consultant (EIA Coordinator) also submitted an affidavit dated 22/09/2023 mentioning is as follows:

- I, Dr. Pankaj Srivastava S/o Shri V. V. Srivastava is EIA Coordinator of Paramarsh servicing Environment and Development.
- I have prepared ToR application along with Form 1, Pre-feasibility Report for the Proposed Building Stone (Sand Stone) Mining at Gata No.- 428, Village- Dhuria, Tehsil- Chunar, District- Mirzapur, U.P. (Leased Area- 1.01 ha) with my team.
- I have personally visited the site of proposal and certify that no mining activity has been undertaken on the project site for the present proposal.
- I am satisfied with that all the necessary data/information required for ToR application along with Form 1, Pre-feasibility Report preparations are true and correct.
- I certify that this project has been uploaded for the first time on Parivesh Portal.
- I certify that there is no mismatch between information/data provided on online application and hard copy/presentation submitted.
- The ToR application along with Form 1, Pre-feasibility Report for the Proposal is prepared by my team as per guidelines laid down by QCI/NABET.

RESOLUTION AGAINST AGENDA NO. 21

The committee discussed the matter and recommended to issue the standard terms of reference prescribed by MoEF&CC for the preparation of EIA. The committee also stipulated following additional TOR Points:

Additional TOR:

1. Proponent to submit latest drone videography of the lease site along with the site photographs and also provide mined minerals record of the respective project site at the time of EIA presentation.
2. Cluster EIA/EMP shall be conducted by project proponent with the help of District Mining Officer.
3. Videography of baseline monitoring period with date, time and geo coordinates should be attached in EIA report and also presented during the EIA presentation.
4. Raw data of all the baseline monitoring parameters will be provided as an annexure to the EIA Report.
5. To ensure proper monitoring, the project proponent/consultant should provide evidence in form of (A) Logbook of their site visit along with activities carried out during monitoring (B) Real time photographs showing monitoring machine, public, lab person etc.
6. Proprietor/proprietor representative should be present at the time of monitoring and monitoring should be conducted as per CPCB SOP/NABET/QCI guidelines. Lab responsible person should be present at the time of EIA presentation.
7. EIA coordinator & FAE should give a notarized affidavit during EIA presentation that they have personally visited the site & they have also taken all the mitigating measures for any critical issues involved in the project.
8. The project proponent will have to inform the schedule of monitoring/data collection programme to the SEIAA/SEAC, UP & UPPCB before start of data collection. In case of failure, the collected baseline monitoring data will be treated as null and void.
9. The details of equipment used for baseline monitoring alongwith its photograph mentioning date, time and geo coordinates for preparation of EIA report should be clearly displayed to the people present during public hearing and the complete details related to monitoring period must be mentioned in the minutes of public hearing.
10. Original lab analysis report of the project proposal along with EIA report should be uploaded on Parivesh Portal.
11. Combined KML of all mines in a cluster should be submitted at the time of EIA.
12. The project proponent/Consultant should identify the core & buffer zone (2.5 km) of the mining site.
13. Agreement/ Consent between project proponent and competent authority/ landowner for haulage road from lease site to link road to be submitted at the time of EIA presentation.
14. Proponent/Consultant should submit the plan/information along with technology (photographs of water sprinklers/ tankers) to be implemented for mitigating dust at source points in lease area and haulage road during operation activity/vehicular movement. Technology should be displayed at the time of EIA presentation.
15. Proposed plantation plan with area specific plant species, number of plants to be planted and place of plantation along with a working map to be submitted at the time of EIA presentation.
16. Water requirement details along with source of water and the permission/ agreement with the concerning authority/ person to be submitted at the time of EIA presentation.
17. Proponent/consultant shall present TOR specific/additional conditions compliance, observation/suggestions raised during the public hearing and commitment made by the project proponent in a tabular form with a time bound plan at the time of EIA presentation.
18. Corporate Environment Responsibility (CER) to be prepared as per the MoEF&CC guidelines and present it at the time of EIA presentation. Proposal should be site specific and monitorable.
19. Proponent to submit latest status of project site along with the site photographs and also provide mined minerals record of the respective project site at the time of EIA presentation.

22. Group Housing Project “NRI Heights” At Plot No.-1, in Nri City, Mainawati Marg, District- Kanpur, Uttar Pradesh., 8608/SIA/UP/INFRA2/456151/2023

The committee noted that the matter was earlier listed in 828th SEAC-2 meeting dated 30/01/2025 and decided as follows:

“The committee noted that Hon’ble Supreme Court of India passed an order dated 02/01/2024 in Writ Petition(s) (Civil) No(s). 1394/2023 Vanashakti Vs. Union of India regarding Standard Operating Procedure (SOP) dated 7th July 2021 for identification and handling of violation cases under EIA Notification, 2006. The operative part of the order is as follows:

“ ...

1. *Issue notice returnable in four weeks.*
2. *Until further orders, there shall be stay of operation of the office memorandum dated 7th July, 2021 and 28th January, 2022 issued by the Ministry of Environment, Forest and Climate Change.”*

In compliance of above Hon’ble Supreme Court order Ministry of Environment, Forest and Climate Change, Govt. of India issued an Office Memorandum no. F.No. IA3-3/4/2024-IA.III [E 230791] dated 08/01/2024 for information and necessary action. The committee has gone through above orders and opined that the matter will be processed after further order of Hon’ble Supreme Court.”

The project proponent also informed the committee that Hon’ble Supreme Court, New Delhi passed an order dated 17/12/2024 in Writ Petition(s) (Civil) No(s). 1394/2023 Vanashakti Vs. Union of India and the operative part of the order as follows:

“...This Court is examining the validity of the Office Memorandum dated 7th July, 2021. This Court has stayed the operation of the Office Memorandum dated 7th July, 2021. Therefore, the applications made under clause 10(iii) of the Office Memorandum dated 7th July, 2021 cannot be entertained so long as the order of stay continues to operate. If the applicants have made applications under a provision other than clause 10(iii) of the Office Memorandum dated 7th July, 2021, it is obvious that the interim order does not come in the way of the applicants. To put it differently, no one can act upon the said Office Memorandum. If the case of the applicants is covered by clauses 5 to 7 of the order dated 2nd February, 2024 passed by this Court, it will be always open for the applicants to invite attention of the concerned authorities to the said fact.

The committee noted that Hon’ble Supreme Court, New Delhi passed an order dated 06/01/2025 in the matter of Fatima Vs. Union of India and order dated 19/02/2025 in the matter of Vanashakti Vs Union of India. In compliance of above Supreme Court Order the Ministry of Environmental Forests and Climate Change, Govt. of India issued an Office Memorandum No. IA3-3/7/2024-IA.III(Part) [E 254652], dated 28/03/2025 mentioned as follows:

“ ...

The Ministry issued a Standard Operating Procedure (SOP) dated 07/07/2021 for identification and handling of violation cases under the EIA Notification 2006, in compliance to the order of the Hon'ble National Green Tribunal in Appeal No. 34/2020 (WZ) titled Tanaji B. Gambhire Vs Chief Secretary, Government of Maharashtra.

2. The SOP was challenged in the Madurai Bench of the Hon'ble High Court of Madras in W.P. (MD) No. 11757 of 2021 titled *Fatima vs. Union of India* and the Hon'ble High Court vide order dated 15/07/2021 imposed an interim stay on the OM.

3. The Hon'ble Supreme Court vide order dated 09/12/2021 in Civil Appeal No. 7576- 7577 of 2021 titled *Electrosteel Steels Limited vs. Union of India and Ors.*, held that the applicability of the above mentioned stay is restricted to the territorial jurisdiction of Madras High Court. The same was communicated by the Ministry vide OM dated 28/01/2022.

4. However, the Hon'ble Supreme Court in W.P.(C) No. 1394/2023 titled *Vanashakti vs. Union of India* vide order dated 02/01/2024 has stayed the operation of the OM dated 07/07/2021 and OM dated 28/01/2022.

5. Further, the Hon'ble High Court of Madras vide judgement dated 30/08/2024 in WP(MD) No. 11757/2021 has quashed the OM dated 07/07/2021.

6. Subsequently, the Hon'ble Supreme Court vide order dated 06/01/2025 (copy enclosed) while tagging the SLP(C) Diary No. - 49103/2024 titled *Fatima vs. Union of India* with W.P. (C) 1394 of 2023 titled *Vanashakti v. Union of India*, inter-alia, held that "if any applications are pending for grant of ex post facto clearances on the basis of OMs dated 19th February, 2021 and 7th July, 2021, the same shall be processed. However, final order granting approval shall not be passed till further orders." Further, the Hon'ble Supreme Court vide order dated 19/02/2025 (copy enclosed) in W.P.(C) No. 1394/2023 titled *Vanashakti vs. Union of India* reiterated the same.

In view of above Hon'ble Supreme Court order, the committee technically appraised the project proposal for terms of reference under violation category.

The consultant informed the committee that they are strictly following the rules, regulations and other instructions of QCI/NABET. A presentation was made by the project proponent along with their consultant Mr. Anand Kumar Dubey, EIA Coordinator, M/s Ind Tech House Consult.

The committee was informed that an application dated 20/12/2023 (Proposal No. SIA/UP/INFRA2/456151/2023) was made by the project proponent M/s Shree-Sri Build Tech Pvt. Ltd. for the terms of reference of Proposed Group Housing Project "NRI Heights" at Plot No.-1, in Nri City, Mainawati Marg, District- Kanpur, Uttar Pradesh under violation category as per procedure laid down in MoEF&CC, Govt. of India Office Memorandum dated 7th July, 2021 regarding standard operating procedure (SoP) for identification and handling of violation cases under EIA Notification, 2006.

The committee was also informed that earlier the project was granted Ec vide letter no. 1529/Parya/SEAC/1443/2013/JDCA(S) dated 07/10/2013 have plot area 73317.34 sqm and built-up area of 310490.150 sqm and not the total plot area is 40158.25 sqm and built up area is 151032.6 sqm.

In Tower-A8, out of 86210.66 sqm built-up area, 35365.16 sqm area has been constructed after 06th October 2021 (i.e., after expiry of EC). Therefore, they applied for Terms of Reference under violation category.

The committee observed that as per clause 12 a (i) of OM No. F.N. 22-21/2020-IA.III dated 07/07/2021 under Penalty provisions for violation cases and applications: For New Projects: Where operation has not commenced: 1% of the total Project Cost incurred upto the date of filing of application along with EIA/EPM Report has to be imposed on the project proponent. However as per clause 12.2 of OM Dated 07/07/2021 the percentage rates, as above, shall be halved if the PP suo-

moto reports the such violation without such violations coming to the knowledge of the Government either on inquiry or complaint.

The committee also directed the project proponent will not start operation at the site until the Environmental Clearance is granted as per section 11 of standard operating procedure (SoP) for identification and handling of violation case under EIA Notification, 2006.

Based on the documents submitted and presentation made by the project proponent along with the consultant, the following facts have emerged: -

1. The Terms of Reference is sought for Group Housing Project “NRI Heights” at Plot No.-1, in Nri City, Mainawati Marg, District- Kanpur, Uttar Pradesh, M/s Shree-Sri Build Tech Pvt. Ltd.
2. The plot area is 40158.25 sqm whereas built-up area will be 151032.6 sqm.
3. Maximum number of floors will be 5 ST+24 and max height of the building (roof top) will be 100.85 m.
4. Total Saleable Dwelling Units are 537 nos.
5. Completion certificate for block B1 to B6 and 3 Duplex D1 to D3 has been issued by the Kanpur Development Authority vide letter no. पत्रांक-डी/39/94/ न०नि० (भवन) का०वि० प्रा० / 2021-22 dated 03/05/2021.
6. Expected population will be persons 7037.
7. Estimated cost of project is Rs. 217.2 Crores and cost of the project under violation is 30.74 Crores.

12. The project proposal falls under category-8(a) of EIA Notification, 2006 (as amended on 07/07/2021 for the violation project).

RESOLUTION AGAINST AGENDA NO-22

In view of Hon'ble Supreme Court order dated 06/01/2025 in the matter of Fatima Vs. Union of India and order dated 19/02/2025 in the matter of Vanashakti Vs Union of India and MoEF&CC Violation SoP/Office Memorandum dated 07/07/2021 & 28/03/2025, the committee processed the application and technically appraised the project proposal. It is opined by committee to forward the proposal to SEIAA for processing the TOR in the light of the above Hon'ble supreme court order and MoEFF&CC, OM dated 28/03/2025, with the following specific and general conditions for the preparation of Environment Impact Assessment Report.

Additional TOR:

1. Project proponent to submit latest drone videography of the project site mentioning the date, time and geo coordinates alongwith the site photographs.
2. Total project cost incurred on the date of filing of application should be submitted by the project proponent from Govt. authorized valuer.
3. The project proponent submit the letter from Kanpur Development Authority and UPPCB, Kanpur mentioned that there is no compliant received against the aforesaid project regarding start of construction work at the site and CTE/CTO has not been refused by UPPCB in the absence of environmental clearance.
4. The committee prescribed specific Terms of Reference for the project on the assessment of ecological damage, remediation plan and natural and the community resource augmentation plan and it shall be prepared as an independent chapter in the environment impact assessment report by the accredited consultants, and the collection and analysis of data for assessment of ecological damage, preparation of remediation plan and natural and community resource augmentation plan shall be done by an environmental laboratory accredited by National

- Accreditation Board for Testing and Calibration Laboratories, or a laboratory of the Council of Scientific and Industrial Research institution working in the field of environment.
5. The project proponent shall be required to submit a bank guarantee equivalent to the amount of remediation plan and natural and community resource augmentation plan with the SPCB prior to the grant of EC. The Quantum shall be recommended by the SEAC and finalized by the regulatory authority. The bank guarantee shall be released after successful implementation of the EMP, followed by recommendations of the SEAC and approval of the regulatory authority.
 6. Uttar Pradesh Pollution Control Board to take action against the project proponent under the provisions of section 19 of Environment Protection Act, 1986.
 7. Assessment of ecological damage with respect to air, water land and other environmental attributes. The collection and analysis of data shall be done by an environmental laboratory duly notified under the Environment (Protection) Act, 1986, or an environmental laboratory accredited by NABL, or a laboratory of a Council of Scientific and Industrial Research (CSIR) institution working in the field of environment.
 8. Preparation of EMP comprising remediation plan and natural and community resource augmentation plan corresponding to the ecological damage assessed and economic benefits derived due to violation.
 9. Status report regarding construction/development work has already taken up.
 10. PP/consultant to submit the approved drawing/layout plan by Kanpur Development Authority on which SEIAA has granted the previous Environmental Clearance dated 07/10/2013 alongwith a layout plan which shows the green belt, other unit of utility and location of group housing and other facilities etc. with area details.
 11. The project proponent should submit a report regarding the existing/proposed green belt in the project as per the plan submitted before the SEAC in previous EC. The project proponent will submit a working plan of plantation/green belt development showing type of plant species and their spacing in consultation with subject expert/ forest department and submit to the forest department and concerned regulatory authority and ensure their survival and sustainability.
 12. The proponent should provide electric vehicle charging facility as per the requirements at ground level and allocate the safe and suitable place in the premises for the same.
 13. Project proponent to submit the investment details alongwith the documents and photographs of CER/CSR expenditure with regard to previous Environmental Clearance. Proposed proposal for CER/CSR to be submitted which should be site specific and monitorable.
 14. Proponent shall provide the photographs of existing STP, OWC, rainwater harvesting, green belt and UPPCB Consent To Establish (CTO) conditions compliance report and utilization of STP treated water for different purposes alongwith existing water balance diagram.
 15. The project proponent to submit the present status of solar energy generation and consumption in the existing housing. The project proponent will also submit a plan for exploitation of maximum possible potential of solar energy generation in the project area and prefer to use it instead of conventional electricity in order to reduce the Green House Gas Emission causing climate change. Technical report to be submitted on the basis of available area.
 16. The project proponent shall plan for storm water management drained with appropriate slope and length so that the flood water could get a passage to release in a short span of time.
 17. Details of litigation pending against the proposed project, if any.
 18. Details of all the khasra/gata numbers involved under the project along with proper calculation on tabular format should be attached in EIA report.

23. Ordinary Sand Mine at Khand No.- 04, Village- Semri, Tehsil- Bara, District- Prayagraj, U.P., Area-8.0 ha., 8646/7635/SIA/UP/MIN/457387/2024

The consultant informed the committee that they are strictly following the rules, regulations and other instructions of QCI/NABET. A presentation was made by the project proponent along with their consultant Dr. Rajendra Kumar Sharma, EIA Coordinator, M/s Environmental Research & Analysis.

During the presentation the committee asked the project proponent regarding mismatch of name of village and geo coordinates mentioned in approved DSR and proposal submitted to SEIAA. The project proponent submitted the Additional District Magistrate (Administration), Prayagraj letter no. 2517/Khanij/2024-25, dated 24/01/2025 regarding mismatch of name of village and geo coordinates wherein:

RESOLUTION AGAINST AGENDA NO. 23

The committee discussed the matter and recommended grant of environmental clearance for the proposal as above along with standard environmental clearance conditions prescribed by MoEF&CC, Govt. of India. The committee also stipulated following specific conditions:

Specific Conditions:

1. The environmental clearance will be co-terminus with the validity of the lease period mentioned in the LoI or co-terminus with the validity of current mine plan whichever is earlier, after this period the EC will automatically become null and void.
2. The quantity mentioned in LoI or quantity mentioned in replenishment study, whichever is less, would be maximum quantity which project proponent may extract. It will be ensured by District Administration and Geology and Mining Department. Directorate of Geology and Mining will

- ensure conduct of replenishment study from reputed institution for subsequent years in compliance of Hon'ble NGT orders.
3. NOC from Irrigation Department/ Concerning Authority regarding river bed mining to be obtained before start of mining activity.
 4. No mining activity should be carried out in-stream channel as per SSMMG, 2016.
 5. The mining work will be open-cast and manual/semi mechanized (subject to orders). Heavy machine such as excavator, scooper etc. should not be employed for mining purpose. No drilling/blasting should be involved at any stage.
 6. An Environmental Audit should be annually carried out during the operational phase and submitted to the SEIAA.
 7. Project Proponent should submit working plan for carrying out plantation at least @1,000 plants / ha of lease area. In this case, PP should prepare a plan, duly approved either by Forest Department or District plantation committee, for planting at least (as per the project) plants, either on government land or community land, within a periphery of 5 km from the boundary of the lease area along with provisions for maintenance for 5 years. Survival of plants should not be less than the survival rate notified by Uttar Pradesh Forest Department otherwise it will be treated as violation of EC condition.
 8. The project proponent shall install solar lights in their project area to minimise the consumption of electricity.
 9. During the submission of 6 monthly compliance reports, the project proponent should make sure that the periodically taken site photographs should also be annexed along with the compliance report.
 10. Preference should be given to indigenous local species as per the consultation of the local district Forest Officer Expert Agency in this field
 11. Link Road from the quarry site to the main road shall be constructed as an all-weather road with blacktopping and maintained by the project proponent.
 12. Vehicular emissions should be kept under control and regularly monitored. Suitable measures shall be taken for proper maintenance of vehicles used in a quarry operation and transportation.
 13. The project proponent should explore the possibilities of rainwater harvesting in the premises of project area
 14. Agreement/ Consent between project proponent and competent authority/ landowner for haulage road from lease site to link road.
 15. Latest technology (water sprinklers/ tankers) to be adopted for mitigating dust at source points in lease area and haulage road during operational activity/vehicular movement.
 16. As per the proposed plan, plantation with area specific plant species, number of plants to be planted and report of green belt development to be submitted to the concerning department. Selection of plants for green belt should be on the basis of pollution removal index. Project proponent should ensure survival of tree saplings. Mortality should be replaced from time to time.
 17. Water requirement details along with source of water and the permission/ agreement with the concerning authority/ water supplying agencies to be submitted.
 18. Submit the Hydrological study report of lease area that the quantity given in LoI will be mined without affecting the geo-hydrology of the River.
 19. Environment management in according to environmental status and impact of the project.
 20. During the school opening and closing time transportation of minerals will be restricted.
 21. Pakkamotorable haul road to be maintained by the project proponent.
 22. A separate Environmental Management Cell with suitable qualified personnel shall be set-up under the control of a Senior Executive, who will report directly to the Head of the Organization.

23. The capacity of trucks/tractor for loading purpose will be in tonnes as per Transport Department applicable norms and standard fixed by the Government.
24. Provision for two toilets and hand pumps should be made at mining site.
25. Mining should be done by Bar scalping methods extraction (typically 0.3 -0.6 m or 1 - 2 ft) as per sustainable sand mining management guidelines 2016.
26. If in future this lease area becomes part of cluster of equal to or more than 05 ha. then additional conditions based on the EIA shall be imposed. The lease holder shall mandatorily follow cluster conditions otherwise it will amount to violation of E.C. conditions. If the certificate related to cluster provided by the competent authority is found false or incorrect then punitive actions as per law shall be initiated against the authority issuing the cluster certificate.
27. In case it has been found that the E.C. obtained by providing incorrect information, submitting that the distance between the two adjoining mines is greater than 500mt. and area is less than 05 ha, but factually the distance is less than 500 mt and the mine is located in cluster of area equal or more than 05 ha, the E.C issued will stand revoked.
28. The MoEF&CC/SEIAA or any other competent authority may alter/modify the above conditions or stipulate any further condition in the interest of environment protection.
29. A width of not less than 50 meter or 10% width of river can be restricted for mining activities from river bank. A condition can be imposed that mining will be done from river activities from river bank.
30. Any appeal against this environmental clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 11 of the National Environment Appellate Authority Act, 1997.

Annexure-1

General and Specific Conditions for Soil/Earth Mining Projects:-

General condition:

1. This environmental clearance does not create or verify any claim of applicant on the proposed site/activity.
2. Any mining activity shall be undertaken only after valid permission from Mining Department/District Administration and written agreement with land owner from where earth excavation is proposed.
3. No change in mining technology and scope of working shall be made without approval of Authority.
4. Personnel working in dusty areas shall be provided with protective respiratory devices and they shall also be imparted adequate training and information on safety and health aspects.
5. The Authority reserves the right to revoke the clearance if conditions stipulated are not implemented. The Authority will also be entitled to impose additional environmental conditions or modify the existing ones, if necessary.
6. In case of any deviation or alteration in the project proposed from those submitted to this Authority for clearance, a fresh reference should be made to the Authority to assess the adequacy of the condition(s) imposed and to add additional environmental protection Measures required, if any.
7. Concealing factual data or submission of false/fabricated data and failure to comply with any of the conditions mentioned above may result in withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.

Specific Conditions:

1. The Environmental clearance will be co-terminus with the agreement/mining plan whichever is earlier.
2. Environment management should be in accordance with the present environment status of the project.
3. Approach kaccha road should be made motorable and maintained periodically.
4. Transportation of soil should be undertaken in covered containers.
5. Rehabilitation plan with planting of trees to be submitted along with the closure plan.
6. Land to be leveled and handed over to the owners after completion of excavation work.
7. A valid NOC from State Pollution Control Board shall be obtained for the Brick kiln prior to operation as per law and all guidelines must be followed, if applicable.
8. The mining operations shall be strictly limited to the proposed mining sites and proposed purpose.
9. Top soil should be adequately preserved and should be used for landscaping.
10. Excavated soil should be properly stored in a manner not to increase surrounding air pollution level.
11. Water sprinkling should be exercised during excavation and storage of soil for suppression of fugitive dust.
12. Excavated area should be properly reclaimed and ensured that no open bore hole is left.
13. Safety measures for the people working at the site shall be duly taken care of as per law.
14. The excavation work shall be done in day time only.
15. The project boundary shall be properly covered to restrict dust dispersion.
16. Precautionary measures during soil excavation for conservation and protection of rare and endangered flora and fauna found in the study area.
17. Noise level shall be maintained as per standards for both day and night.
18. The route map for soil transportation from excavation plots to work site should be firmed up and necessary permissions shall be sought from District Administration.
19. Vehicles hired for the transportation should be in good condition and should have Pollution Check Certificate and should conform to applicable air and noise emission standards.

20. Personnel exposure monitoring for respirable mineral dust shall be carried out for the workers and records maintained including health records of the workers. Awareness program for workers on impact of mining on their health and precautionary measures like use of personal protective equipments etc. shall be carried out periodically. First aid facilities and adequate sanitary facility in the form of temporary toilets/septic tanks.
21. Solid waste material viz gutkha rappers, plastic bags, glasses etc. to be generated during project activity will be separately stored in bins and managed as per Solid Waste Management Rules.
22. Project proponent should maintain daily register for information of (a) collection of soil/clay, (b) manpower & (c) transportation purpose.
23. Soil mining shall strictly be undertaken as per rules and regulations/permissions obtained from District Administration/Mining Department
24. Corporate Environmental Responsibility (CER) shall be prepared by the project proponent and the details of the various heads of expenditure to be submitted as per the guidelines provided in the recent CER notification No. 22-65/2017-IA.III dated 01/05/2018. A copy of resolution as above shall be submitted to the authority along with list of beneficiaries with their mobile nos./address.
25. The borrowing/excavation activity shall be restricted to a maximum depth of 2 m. below general ground level at the site.
26. The borrowing/excavation activity shall be restricted to 2 m. above the ground water table at the site.
27. The borrowing/excavation activity shall not alter the natural drainage pattern of the area.
28. The borrowed/excavated pit shall be restored by the project proponent for useful purpose(s).
29. Appropriate fencing all around the borrowed/excavated pit shall be made to prevent any mishap.
30. Measures shall be taken to prevent dust emission by covering of borrowed/excavated earth during transportation.
31. Safeguards shall be adopted against health risks on account of breeding of vectors in the water bodies created due to borrowing/excavation of earth.
32. Workers/labourers shall be provided with facilities for drinking water and sanitation.
33. A berm shall be left from the boundary of adjoining field having a width equal to at least half the depth of proposed excavation.
34. A minimum distance of 15 m from any civil structure shall be kept from the periphery of any excavation area.
