

Agenda notes for SEIAA meeting dated 10.02.2022 etc. etc. and minutes of the meeting

Online Proposals

70th Meeting of SEIAA, Odisha dated 10.02.2022 and 11.02.2022 at 11.00 a.m.

| Sl. No. | Proposal Category (B1,B2) and Proposal type (TOR/EC/MO/DIEC/MODIT OR/Transfer of EC) | Project Sector and EIA notification Schedule. | Auto generated File No. | Name of the Applicant/ Project Proponent | Title of the proposal | Date of receipt of the proposal online | Status indicated in the PARIVESH portal | Decisions of SEIAA in the previous meeting | Current Status and Agenda Note | Observations / Decisions of SEIAA Meeting |
|---------|--|---|-------------------------|--|---|--|---|--|---|---|
| 1. | B2, EC | 1(a) Mining of minerals | SIA/OR/MIN/226630/2021 | Tahasildar, Dasarathpur | Hirapur Sand Quarry over an area of 2.81 ha. or 6.96 acres at village Hirapur under Dasarathpur, Tahasil, Dist-Jajpur | 28.08.2021 | Under examination of SEIAA after SEAC | This is a fresh online proposal for EC. | <p>This is regarding a new proposal for mining of minor mineral Sand. The project has submitted at SEIAA under Category 'B2' as the lease area is ≤ 5.0 Ha. As per the EIA Notification, 2006, this project falls in the schedule under SI.No.1(a) –“Mining of Mineral” of non-coal mining sector. The project proponent has submitted proposal for grant of EC for Hirapur River Sand Bed over a total lease area 2.81 Ha/6.96 acres at Village-Haripur, Tahasil-Dasarathpur and District-Jajpur and the project proponent is Tahasildar, Dasarathpur.</p> <p>The following documents have been received Checklist, form-1, DSR, EMP, PFR, topomap, village sheet, lease order, mining approval letter, mining plan, cluster clarification.</p> <p>The following deficiencies/omission have been noticed in the above documents.</p> <p>Nil</p> <p>Distance from nearest sanctuary/ESZ-Similipal WLS-64.0km</p> <p>Whether the lease area coming in D.L.C. report-No</p> <p>Whether the lease area reflecting in DSR-Yes</p> <p>Method of mining- Manual</p> <p>River-Baitarani, depth of sand deposition-1.5m</p> <p>Distance from Nearest Road Bridge-4.5km, village road-0.08km</p> | EC may be given, pending rate of replenishment study at the site. Maximum depth of exploitation be 0.75 meter, and maximum quantum of exploitation in the 1 st year shall be limited to 4000 cum. Village road through which |

|----|--------|----------------------|------------------------|-------------|---|------------|---------------------------------------|---|--|--|
| | | | | | | | | | <p>Whether it is part of cluster – No Whether EC obtained earlier- No Production capacity per annum-6030 cum/annum(max.) with depth of mining-1.5m, Geological reserve-31143 cum, Mineable reserve-15075 cum This is a B2 category project. Whether SEAC recommended the proposal -Yes</p> <p>In view of the above the proposal may be placed in the SEIAA meeting for consideration.</p> | extraction will be made has to be kept under proper repair at all times at the cost of the project proponent. |
| 2. | B2, EC | 1(a) Non Coal Mining | SIA/OR/MIN/227149/2021 | Sujit Sahoo | Kotagarh Stone Quarry (Plot-1331) over an area of 2.00Acres or 0.809hectares in village Kotagarh of Sunakhala Gram Panchayat Under RanpurTahasil of Nayagarh District | 01.09.2021 | Under examination of SEIAA after SEAC | <p>The proposal was placed in the 65th meeting of SEIAA and was decided as follows: "The PP be asked to submit concrete proposal for realigning and construction of alternate village road 200</p> | <p>File No.227149 (online), SEAC meeting held on 26.11.2021 The SEAC in its meeting held on 26.11.2021 and recommended the proposal to grant of EC valid upto the lease period and submitted the appraisal report to SEIAA vide letter no. 840/SEAC, dtd. 29.11.2021. The following documents have been received Checklist, Form-I, Pre-feasibility Report, DSR, D.L.C, EMP, village sheet, Toposheet of the project, Approved Mining Plan. The following deficiencies/omission have been noticed in the above documents. Village road-0.12km Distance from nearest sanctuary/ESZ-Nalabana WLS-50.0km Whether the lease area coming in D.L.C. report-No Whether the lease area is reflecting in DSR-Yes Distance from Nearest Road Bridge-2.16 km, village road-0.12km Whether it is part of cluster– Cluster, total lease area 1.618Ha and submitted cluster EMP. Whether EC obtained earlier – Yes, submitted EC compliance report Production capacity per annum-13,572 cum/annum(max.) This is a B2 category project. Whether SEAC recommended the proposal- Yes</p> <p>The PP has complied the ADS for consideration. In view of the above the proposal may be placed in the SEIAA meeting for consideration</p> | According to clarification received from Tahasildar, the village road is actually 690 meter from the quarry site. The quarry access pathway is what is only 120 meters away. This village road has to be kept under proper repair and maintenance at all times. EC may be given with standard stipulations. Exploitation shall be upto 6m depth from the top surface |

| | | | | | Sambalpur | | | | <p>The following documents have been received Checklist, form-1, DSR, D.L.C, PFR, EMP, topomap, village sheet, lease order, mining approval letter, mining plan, cluster clarification.</p> <p>The following deficiencies/omission have been noticed in the above documents. Nil</p> <p>Distance from nearest sanctuary/ESZ-Ushakothi WLS-23.0km Whether the lease area coming in D.L.C. report-No Whether the lease area reflecting in DSR-Yes Method of mining- Semi-mechanized Distance from Nearest Road Bridge-1.1km, village road-0.2km Whether it is part of cluster – No Whether EC obtained earlier- No Production capacity per annum-1992.6 cum/annum (max.), depth-5m, Geological Reserve-26400.6 cum, Mineable reserve-5476 cum This is a B2 category project. Whether SEAC recommended the proposal -Yes</p> <p>In view of the above the proposal may be placed in the SEIAA meeting for consideration.</p> | |
| 5. | B2, EC | 1(a) Mining of minerals | SIA/OR/MIN/2324/41/2021 | TahasilardarSohela | Ghess-2 Stone Quarry over an area of 4.46 Ac /1.804 Ha in village Ghess, under SohelaTahasil of Bargarh District, Odisha | 05.10.2021 | Under examination of SEIAA after SEAC | This is a fresh online proposal for EC. | <p>This is regarding a new proposal for mining of minor mineral Stone. The project has submitted at SEIAA under Category 'B2' as the lease area is ≤5.0 Ha. As per the EIA Notification, 2006, this project falls in the schedule under SI.No-1(a) –“Mining of Mineral” of non-coal mining sector. The project proponent has submitted proposal for grant of EC for Ghess-2 Stone Quarry over a total lease area 1.804Ha/4.46 acre at Village-Ghess, Tahasil-Sohela and District-Bargarh and the project proponent is Tahasilidar, Sohela.</p> <p>The following documents have been received Checklist, form-1, DSR, D.L.C, PFR, EMP, topomap, village sheet, lease order, mining approval letter, mining plan, cluster clarification.</p> <p>The following deficiencies/omission have been noticed in the above documents. Village road is located 20m away from the proposed quarry and the PP has mentioned that 100m safety zone has been proposed from the road to lease area. Already EC obtained for Ghess stone quarry Not submitted the DSR copy.</p> <p>Distance from nearest sanctuary/ESZ-Debrigarh WLS-42.0km Whether the lease area coming in D.L.C. report-No Whether the lease area reflecting in DSR-Yes Method of mining- Manual Distance from Nearest Road Bridge-1.3km, village road-0.02km,</p> | EC be given with conditions that there shall be no blasting and all operation shall be manual as proposed in the mining plan, because of the proximity of village road. Dust pollution has to be kept in check by monitoring of SPM level. |

| | | | | | | | | | | |
|----|-------------------|--------------------------------|---|---------------------------------------|--|-----------|--------------------------------------|---|---|--|
| | | | | | | | | | <p>electric transmission line-200m. Whether it is part of cluster – Yes, total lease area under cluster is 2.232 Ha, submitted cluster EMP. Whether EC obtained earlier- No Production capacity per annum-718 cum/annum (max.), depth-2m, Geological reserve-164275.3 cum, Mineable reserve-3553.2 cum This is a B2 category project. Whether SEAC recommended the proposal -Yes</p> <p>In view of the above the proposal may be placed in the SEIAA meeting for consideration.</p> | |
| 6. | B-1 MOD IEC | 1(a), Non Coal Mining | SIA/ OR/ ND/2 3300 6/202 1 | M/s. Pradh an Industr ies | Environment Clearance for expansion of Laxmipur Graphite Beneficiation Plant from 950 TPA to 12,000 TPA at Village: Katrakana in the District of Koraput of M/s. Pradhan Industries | 6.10.2021 | Under Examin ation of SEIAA | <p>The proposal was placed in the 62nd meeting of SEIAA meeting and it was decided as follows: “When the EC is deemed to be extended upto 7 years as per MoEF Notification dated 29.04.2015, what is the justification for applying for the same extensio</p> | <p>This is regarding an expansion of validity of EC proposal for Beneficiation Plant. The project proponent has submitted at SEIAA under Category ‘B’. As per EIA Notification, 2006, this project falls in the schedule under Sl. No. 1(a) –“Mineral Beneficiation”. The project proponent has submitted proposal for extension of EC validity period of Lakshmipur Graphite Beneficiation plant from 950 TPA to 12,000 TPA at village-Katrakana, Dist-Koraput of M/s. Pradhan Industries.</p> <p>The project proponent has obtained EC from SEIAA, Odisha vide letter no. 2848/SEIAA dt. 21.01.2015 for 5 years period as MoEF & CC notification. Subsequently, the MoEF & CC, Govt. of India vide notification dated 29.04.2015 have substituted the EC period of 5 years as mentioned in the para-9 of the EIA Notification, 2006 to 7 years and hence the validity of the environmental clearance (EC) so granted to the Laxmipur Graphite Beneficiation plant has been extended till 20.01.2022.</p> <p>The SPCB, Odisha have accorded CTO for production of 2880 TPA of graphite concentration.</p> <p>There is no change in production capacity, area, technology, product mix is requested by PP. The PP request only extension of the time period for achieving the approved EC capacity.</p> <p>During the period 2011 to 2015, no graphite mining leases were operational in India and hence the said Lakshmipur Graphite Beneficiation plant had to stop operations due to want of raw material. Condition No.1 of the EC granted to the Lakshmipur Graphite Beneficiation plant stipulated that the said project can only source semi-processed graphite from the Bandhamandi Graphite Mining lease of the PP and that the said EC granted to the project was subject to EC granted to the Bandhamandi Graphite Mining lease. The Bandhamandi Graphite Mines was non-operational for 9 years for renewal of lease deed post submission of EC, FC, etc. Thus, the PP could not have started plant construction activities till the said Bandhamandi Graphite Mining was operationalised.</p> | Expanded capacity of 12000 TPA of the beneficiation plant has already been accorded EC, but the source of graphite has been specified to be a particular graphite mine already having EC. If the PP now wants to link other sources of procuring graphite for the beneficiation plant he has to disclose the name(s) of the sources and whether each |

| | | | | | | | <p>n to SEIAA? This may be ascertained from the PP. At the same time we may send the proposal to SEAC for appraisal after taking into consideration the applicability of above MoEF Notification to this case".</p> | <p>As the production of semi-processed graphite has been sub-optimal at the Bandhamandi Graphite Mining lease for reasons mentioned above, hence the expansion of the Laxmipur Graphite Beneficiation Plant has not been completed at the approved capacity. This has led to sub-optimal production at the Laxmipur Graphite Beneficiation Plant.</p> <table border="1"> <thead> <tr> <th>Financial Year</th> <th>Semi-processed graphite purchased from the Bandhamandi Graphite Mining (in TPA)</th> <th>Processed graphite production at the Laxmipur plant.</th> </tr> </thead> <tbody> <tr> <td>2015-16 to 2017-18</td> <td>Nil</td> <td>Nil</td> </tr> <tr> <td>2018-19</td> <td>669</td> <td>436</td> </tr> <tr> <td>2019-20</td> <td>795</td> <td>439</td> </tr> <tr> <td>2020-21</td> <td>552</td> <td>722</td> </tr> </tbody> </table> <p>project proponent has continued with his obligations to the people of the project area and has spent an amount of Rs. 12,64,000 in compliance with its public hearing commitments. The PP has completed plantation cover over 33% of the total project area. The PP has intimated the SEAC committee that the Bandhamandi Graphite mine is presently not able to provide graphite feed as per proposed capacity of the Laxmipur plant, hence the PP requested to the Committee to consider allowing them to procure graphite feed from other graphite mining leases which are operating with valid EC from MoEF & CC, Govt. of India and to allow import of graphite feed from other counties in addition to the Bandhamandi graphite mines. The SEAC recommended the proposal for extension of validity period of EC for another 3 years period i.e. upto 20.01.2025 with following conditions: The PP shall source semi-processed graphite from the Bandhamandi graphite Mining lease and other mining leases which area operational with valid EC as well as import of graphite feed from other counties for processing at Laxmipur Graphite Beneficiation plant to achieve the approved Beneficiation capacity and accordingly, condition no.1 of EC granted earlier may be modified. In view of the above the proposal may be placed in the SEIAA meeting for consideration</p> | Financial Year | Semi-processed graphite purchased from the Bandhamandi Graphite Mining (in TPA) | Processed graphite production at the Laxmipur plant. | 2015-16 to 2017-18 | Nil | Nil | 2018-19 | 669 | 436 | 2019-20 | 795 | 439 | 2020-21 | 552 | 722 | <p>of them have the EC.</p> |

| 13. | B1, EC | 7(d) Comm on hazardous waste treatment, storage and disposal facilities (TSDFs) | SIA/OR/MIS/69018/2020 | Western Integrated Waste Management Facility Pvt Ltd | Establishment of Common Hazardous Waste Treatment, Storage and Disposal Facility (CHWTSDF) at Village: Patarapada, Teshil- Parjang, Dist-Dhenkanal | 15.11.2021 | Under examination of SEIAA after SEAC | The proposal was placed in the 67 th meeting of SEIAA and it was decided as follows: "Seek clarification may be sought from DFO, Dhenkanal / PP on public hearing, land status, elephant corridor, and such other critical points | <p>The following documents have been received Checklist, Form-I, Form1A, EMP, land schedule and the scrutiny fee.</p> <p>The following deficiencies/omission have been noticed in the above documents. Not Submitted D.L.C report and land schedule</p> <p>Other Points This is the 2nd Common Hazardous Waste Treatment, Storage and Disposal Facility (CHWTSDF) coming up in the State. Application for Environmental Clearance has previously been recommended from SEAC to SEIAA for the location Banjari, Deogarh vide file No SIA/OR/MIS/37224/2019 dated 20th July 2019. As per the MoEF&CC, Govt. of India notification dated 29th Aug, 2019 where the boundary of Badrama-Kalasuni Wildlife Sanctuary was extended. And as the project area fell inside the boundary, they have shifted the location from Banjari, Deogarh to Parjang, Dhenkanal. ToR was issued by SEIAA, Odisha vide letter no. 9326/SEIAA dt. 22.10.2020 for EIA study/EMP and Public hearing. The Public hearing was conducted on 08.09.2021 and only five (05) no. of participants were present. The major issues during public hearing are as follows:</p> <ul style="list-style-type: none"> • The Mendhapada Minor Irrigation project (Ganthi Bandha) may be affected due to the proposed project. • The project may impact the village Gochar land and cattle grazing. The PP has submitted land schedule which reveals some plot are coming Gochar land and some plot are private agricultural land. Total quantity of waste will be land fill-20,000TPA (i.e. Direct land fill-12,000TPA + treatment/stabilization-8,000 TPA). The Hazardous wastes will collect from Jharsuguda, Sundargarh, Bargarh, Bolangir, Sambalpur, Angul, Keonjhar and Deogarh. Water consumption-10 KLD and source from rain water harvesting and ground water. <p>Name of Consultant-Visiontech. The PP has mentioned that to comply the suggestions and issues raised during the public hearing, the proposed land area has been reduced from 70 acres to 27.91 Acres and consequently the project capacity reduced from 50,000 TPA to 20,000 TPA. The SEAC recommended the proposal for grant of EC for a period of 7 years with some specific conditions: "Kissam" of the land shall be converted to "Industrial use" from</p> | EC be given with the conditions specified by SEAC. |

| | | | | | | | | | |
|-----|--------|-----------------------|-------------------|---------------------|---|------------|-----------------------------|--|---------------------------------------|
| | | | | | | | | <p>which appear to have been glossed over".</p> <p>appropriate Revenue Authority before going for construction activity. Transport of HW from small industries shall be ensured while keeping rate for HW facilitating with provision of rewards for safe disposal. Leachate generated from the land fill facility shall be treated properly in a well-designed ETP of adequate capacity and treated water shall be reused in the land fill facility. The proponent shall install a STP of adequate capacity for treatment of domestic effluent generated from land fill facility. Specific mitigative measures shall be adopted while handling of very hazardous / toxic substances like Aluminium dross residue, spent catalyst, mercury, spent resins from Thermal powers plants, waste generated from spent pot lining (SPL) processing unit. A detailed SOP shall be prepared and kept ready at the site and a copy of the same be submitted to SEIAA/ Regional office, MOEF and CC, GOI. to educate the workers at the site, who will handle these hazardous / toxic substances. Under no circumstances, the proponent shall process any hazardous waste like spent pot lining (SPL), aluminium dross etc. at the land fill site. Disaster Management Plan shall be prepared considering rain climatology & wind climatology with 30 years data on logical climate to tackle the situation in case of heavy rain, flood & wind. The proponent shall prepare an Effluent Monitoring programme with periodicity, confirming to "Zero discharge" and use the same for future monitoring of effluent generated from the land fill facility and copy of the same submitted to SEIAA/Regional office MOEF and CC, GOI. The Sub-Committee of SEAC will visit the site within six months from the date of issue of Environmental Clearance to verify the progress of the project as well as conditions stipulated in Environmental Clearance. However, either during the visit of the SEAC Sub-committee and/or at any time, if it is noticed that stipulated conditions on which EC is granted is not in place or found otherwise, steps will be taken for revocation of EC granted. The PP has complied the ADS regarding submission of DLC certificate and distance of ESZ.</p> <p>In view of the above the proposal may be placed in the SEIAA meeting for consideration.</p> | |
