The representative of the Project Proponent attended the meeting. The committee noted that as per the information provided by the Mining Department, other mines are located in the nearby area. As per the amended EIA Notification, mines located in the cluster are required to submit **Cluster EMP**. The committee recommended that the Project Proponent shall submit **Cluster EMP** to consider for Environmental Clearance.

Decision of the SEIAA:

The Mining Department has reported that there is another small mine located in the area along with the present project proposal of 7.99 Ha for color granite. The other mine was not accorded any EC/CFE/CFO by the competent authorities and there are no records available on the issue of permission for transport of mined out granite from this mine in the Mining Department. There is no proposal received or pending with the SEIAA for the 2nd project. This indicates practically the present proposal of 7.99 Ha of granite mines is the first proposal for mining received by SEIAA for EC. The other small mine is totally illegal and the Mine was worked illegally without any permit from the Mining Department. The present Project Proponent has also submitted that it is not possible to prepare Cluster EMP since the second mine is illegal mine and no records available on the quantity of granite extracted and rate of extraction of granite per year also.

In view of the above, the SEAC may again review this case and make appropriate specific recommendations.

---------------------------	---

Recommendations of the SEAC on 07.06.2016:

The Representative of Project Proponent has attended the meeting.

The Committee noted that credible action was initiated against the project proponent (Case No. 303/2016) for operating the mine without EC. The Committee also noted that the mine is located in the cluster and comes under category of B1. The committee noted that SEIAA, AP has addressed letters to MOEF&CC on 22.4.2016 and 19.05.2016 regarding clarification on applicability of cluster provisions in the case of pending operating mines. SEAC in its meeting held on 3.05.2016 decided that it will recommend for issue of EC in case of old operating mines located in the cluster if no reply is received from the MOEF&CC on cluster issue in a month time. After detailed discussion, the Committee recommended issue of EC to the mining project subjected to submission of undertaking by the project proponent on implementation of cluster conditions, once it will be finalized after a month after the letter is written to MOEF

Decision of SEIAA: The Authority decided to refer back the issue to the SEAC with a request to examine cluster provisions and applicability of the public hearing to the mining project.
